ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

NOTE 1—Basis of Presentation:

In the opinion of management, the accompanying unaudited condensed consolidated financial statements of Albemarle Corporation and our wholly-owned, majority-owned and controlled subsidiaries (collectively, “Albemarle,” “we,” “us,” “our” or “the Company”) contain all adjustments necessary for a fair statement, in all material respects, of our condensed consolidated balance sheets as of September 30, 2016 and December 31, 2015, our consolidated statements of income and consolidated statements of comprehensive income (loss) for the three-month and nine-month periods ended September 30, 2016 and 2015 and our consolidated statements of changes in equity and condensed consolidated statements of cash flows for the nine-month periods ended September 30, 2016 and 2015. Other comprehensive income for the three-month period ended September 30, 2016 includes an adjustment of \$12.5 million to reduce the Foreign currency translation on the Company’s investment in the Windfield Holdings Pty Ltd joint venture related to the three month period ended March 31, 2016. There is no impact to the results for the nine-month period ended September 30, 2016. The Company does not believe this adjustment is material to the condensed consolidated financial statements for the three-month periods ended March 31, 2016 or September 30, 2016. All other adjustments are of a normal and recurring nature. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2015, which was filed with the Securities and Exchange Commission (“SEC”) on February 29, 2016. The December 31, 2015 condensed consolidated balance sheet data herein was derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles (“GAAP”) in the United States (“U.S.”). The results of operations for the three-month and nine-month periods ended September 30, 2016 are not necessarily indicative of the results to be expected for the full year. Certain reclassifications have been made to the accompanying condensed consolidated financial statements and the notes thereto to conform to the current presentation.

On June 17, 2016, the Company signed a definitive agreement to sell its Chemetall® Surface Treatment business to BASF SE. In the second quarter of 2016, the Company began accounting for this business as discontinued operations in the consolidated statements of income and excluded the business from segment results for all periods presented. Related assets and liabilities are classified as held for sale for all periods presented in accordance with accounting standards for reporting discontinued operations. See Note 3, “Divestitures,” for additional information.

As described further in Note 2, “Acquisitions,” we completed our acquisition of Rockwood Holdings, Inc. (“Rockwood”) on January 12, 2015. The unaudited condensed consolidated financial statements contained herein include the results of operations of Rockwood, commencing on January 13, 2015.

NOTE 2—Acquisitions:

On January 12, 2015 (the “Acquisition Closing Date”), we completed the acquisition of all the outstanding shares of Rockwood (the “Merger”) for a purchase price of approximately \$5.7 billion. As a result, Rockwood became a wholly-owned subsidiary of Albemarle.

Purchase Price Allocation

The aggregate purchase price noted above was allocated to the major categories of assets and liabilities acquired based upon their estimated fair values at the Acquisition Closing Date, which were based, in part, upon third-party appraisals for certain assets, including specifically-identified intangible assets. The excess of the purchase price over the estimated fair value of the net assets acquired was approximately \$2.8 billion and was recorded as goodwill.

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

The allocation of the Rockwood purchase price was finalized in the first quarter of 2016. The following table summarizes the allocation of the purchase price paid and the amounts of assets acquired and liabilities assumed for the Rockwood acquisition based upon estimated fair values at the date of acquisition (in thousands):

Total purchase price	\$5,725,321
----------------------	-------------

Net assets acquired:

Cash and cash equivalents	\$1,555,139
---------------------------	-------------

Trade and other accounts receivable	262,947
-------------------------------------	---------

Inventories	290,496
-------------	---------

Other current assets	86,267
----------------------	--------

Property, plant and equipment	1,383,480
-------------------------------	-----------

Investments	529,453
-------------	---------

Other assets	25,538
--------------	--------

Definite-lived intangible assets:

Patents and technology	227,840
------------------------	---------

Trade names and trademarks	234,610
----------------------------	---------

Customer lists and relationships	1,280,142
----------------------------------	-----------

Indefinite-lived intangible assets:

Trade names and trademarks	104,380
----------------------------	---------

Other	26,670
-------	--------

Current liabilities	(406,532)
---------------------	------------

Long-term debt	(1,319,132)
----------------	--------------

Pension benefits	(316,086)
------------------	------------

Other noncurrent liabilities	(195,052)
------------------------------	------------

Deferred income taxes	(845,884)
-----------------------	------------

Noncontrolling interests	(17,582)
--------------------------	-----------

Total identifiable net assets	2,906,694
-------------------------------	-----------

Goodwill	2,818,627
----------	-----------

Total net assets acquired ^(a)	\$5,725,321
--	-------------

(a) Total net assets acquired includes amounts for the Chemetall Surface Treatment business, which is reported as discontinued operations. See Note 3, "Divestitures," for additional information.

Significant changes to the purchase price allocation since our initial preliminary estimates reported in the first quarter of 2015 were primarily related to decreases in the estimated fair values of certain current assets, property, plant and equipment, investments and intangible assets and increases in certain other noncurrent liabilities and noncontrolling interests, which resulted in an increase to recognized goodwill of approximately \$193.8 million. This increase to recognized goodwill includes approximately \$1.5 million that was recognized during the nine-month period ended September 30, 2016 based on changes to intangible assets, property, plant and equipment and deferred taxes.

Goodwill arising from the acquisition consists largely of the anticipated synergies and economies of scale from the combined companies and the overall strategic importance of the acquired businesses to Albemarle. The goodwill attributable to the acquisition is not amortizable or deductible for tax purposes.

Included in Acquisition and integration related costs on our consolidated statements of income for the three-month and nine-month periods ended September 30, 2016 is \$6.3 million and \$42.4 million, respectively, of integration costs resulting from the acquisition of Rockwood (mainly consisting of professional services fees, costs to achieve synergies, relocation costs, and other integration costs) and \$0.4 million and \$1.9 million, respectively, of costs in connection with other significant projects. The consolidated statements of income for the three-month and nine-month periods ended September 30, 2015 include

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

\$35.5 million and \$111.2 million, respectively, of integration costs resulting from the acquisition of Rockwood (mainly consisting of professional services and advisory fees, costs to achieve synergies, relocation costs, and other integration costs) and \$1.0 million and \$6.0 million, respectively, of costs in connection with other significant projects.

The weighted-average amortization periods for the intangible assets acquired are 20 years for patents and technology, 20 years for trade names and trademarks and 24 years for customer lists and relationships. The weighted-average amortization period for all definite-lived intangible assets acquired is 23 years.

For the nine-month period ended September 30, 2016, Depreciation and amortization expense included in Cost of goods sold was reduced by approximately \$0.2 million as a result of measurement-period adjustments related to previous reporting periods. In addition, Income (loss) from discontinued operations (net of tax) was reduced by approximately \$4.1 million for the nine-month period ended September 30, 2016 as a result of measurement-period adjustments related to previous reporting periods.

Unaudited Pro Forma Financial Information

The following unaudited pro forma results of operations of the Company for the three-month and nine-month periods ended September 30, 2015 assume that the Merger occurred on January 1, 2015. The pro forma amounts include certain adjustments, including interest expense, depreciation, amortization expense and income taxes. The pro forma amounts are also adjusted to exclude approximately \$41.8 million and \$120.5 million, respectively, of nonrecurring acquisition and integration related costs, and approximately \$16.8 million and \$102.3 million, respectively, of charges related to the utilization of the inventory markup as further described in Note 12, "Segment Information." The pro forma results do not include adjustments related to cost savings or other synergies anticipated as a result of the Merger. In addition, the pro forma amounts are not adjusted to reflect the Chemetall Surface Treatment business as discontinued operations. Accordingly, these unaudited pro forma results are presented for informational purposes only and are not necessarily indicative of what the actual results of operations of the combined company would have been if the acquisition had occurred as of January 1, 2015, nor are they necessarily indicative of future results of operations.

	Three Months Ended September 30, 2015	Nine Months Ended September 30, 2015
	(in thousands, except per share amounts)	
Pro forma Net sales	\$905,093	\$2,754,312
Pro forma Net income	\$111,211	\$335,602
Pro forma Net income per share:		
Basic	\$0.99	\$3.03
Diluted	\$0.99	\$3.02

See Item 8 Financial Statements and Supplementary Data—Note 2, "Acquisitions," in our Annual Report on Form 10-K for the year ended December 31, 2015 for further details about the Rockwood acquisition.

NOTE 3—Divestitures:

Discontinued Operations

On June 17, 2016, we entered into a definitive agreement to sell the Chemetall Surface Treatment business to BASF SE for proceeds of approximately \$3.2 billion in cash, subject to adjustment with respect to certain pension liabilities, cash, working capital and indebtedness. The sale of the Chemetall Surface Treatment business reflects the Company's commitment to investing in the future growth of its high priority businesses, reducing leverage and returning capital to shareholders. The sale is expected to close in the fourth quarter of 2016, subject to the satisfaction of customary closing conditions, including approvals from regulatory authorities. At closing, any difference between the sales price

and the proportionate carrying value of the interests being sold would be recognized.

The sale of the Chemetall Surface Treatment business, a separate reportable segment, qualifies for discontinued operations treatment because it represents a strategic shift that will have a major effect on the Company's operations and financial results. As a result, in the second quarter of 2016, the Company began accounting for this business as discontinued operations in the consolidated statements of income and excluded the business from segment results for all periods presented. Related assets and liabilities are classified as held for sale for all periods presented. As of the date this business qualified for discontinued

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

operations treatment, the Company stopped recording depreciation and amortization expense on assets of the Chemetall Surface Treatment business.

The major components of Income (loss) from discontinued operations (net of tax) for the three-month and nine-month periods ended September 30, 2016 and 2015 were as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Net sales	\$211,347	\$211,877	\$637,889	\$617,163
Cost of goods sold	100,061	118,712	333,832	368,381
Operating expenses, net	70,604	66,280	203,052	187,536
Interest and financing expenses ^(a)	9,864	12,763	29,912	38,792
Other expenses (income), net	134	(656)	(1,636)	(3,011)
Income before income taxes	30,684	14,778	72,729	25,465
Income tax expense ^(b)	7,499	3,748	430,572	6,391
Income (loss) from discontinued operations (net of tax)	\$23,185	\$11,030	\$(357,843)	\$19,074

(a) Interest and financing expenses included the allocation of interest expense not directly attributable to other operations as well as interest expense related to debt to be assumed by the buyer. The allocation of interest expense to discontinued operations was based on the ratio of net assets held for sale to the sum of total net assets plus consolidated debt.

Income tax expense for the nine-month period ended September 30, 2016 included a discrete non-cash charge of (\$381.5) million due to a change in the Company's assertion over book and tax basis differences related to a U.S. entity being sold. In addition, Income tax expense for the three-month and nine-month periods ended September 30, 2016 included discrete non-cash benefits (charges) of \$5.4 million and (\$29.8) million, respectively, related to a change in the Company's assertion over reinvestment of foreign undistributed earnings. The associated (b) liability of \$411.3 million has been recorded in Deferred income taxes on the condensed consolidated balance sheets as of September 30, 2016. Upon completion of the sale, the buyer will not assume these outside basis differences, thus the liability is ultimately the responsibility of the Company, and as such, this amount is not recorded as a Liability held for sale. The sale is expected to close in the fourth quarter of 2016, at which time any difference between the sales price and the proportionate carrying value of the interests being sold would be recognized.

The carrying amounts of the major classes of assets and liabilities for the Chemetall Surface Treatment business classified as held for sale at September 30, 2016 and December 31, 2015, were as follows (in thousands):

	September 30, 2016	December 31, 2015
Assets		
Current assets	\$255,577	\$237,447
Net property, plant and equipment	164,860	163,643
Goodwill	1,456,214	1,433,259
Other intangibles, net of amortization	1,328,799	1,349,179
All other noncurrent assets	25,143	25,374
Assets held for sale	\$3,230,593	\$3,208,902
Liabilities		
Current liabilities	\$135,735	\$200,892

Deferred income taxes	355,368	351,465
All other noncurrent liabilities	111,319	112,742
Liabilities held for sale	\$602,422	\$665,099

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

Depreciation and amortization and capital expenditures from discontinued operations for the nine-month periods ended September 30, 2016 and 2015 were as follows (in thousands):

	Nine Months Ended September 30, 2016 2015	
Depreciation and amortization	\$35,194	\$57,567
Capital expenditures	\$15,525	\$11,521

Other Assets Held for Sale

In 2015, we announced our intention to pursue strategic alternatives, including divestitures, related to certain businesses, including the minerals-based flame retardants and specialty chemicals, fine chemistry services and metal sulfides businesses. In the fourth quarter of 2015, we determined that the assets held for sale criteria were met for these businesses as well as a small group of assets at an idled site. As of the December 31, 2015 balance sheet date, the Company expected to complete the sales of the businesses included in assets and liabilities held for sale and therefore such amounts were classified as current. These businesses did not qualify for discontinued operations treatment because the Company's management did not consider their sale or potential sale as representing a strategic shift that had or will have a major effect on the Company's operations and financial results.

On November 5, 2015, the Company signed a definitive agreement to sell its Tribotecn metal sulfides business to Treibacher Industrie AG. Included in the transaction were sites in Vienna and Arnoldstein, Austria, and Tribotecn's proprietary sulfide synthesis process. On January 4, 2016, the Company closed the sale of this business, effective for the first day of business in 2016. We received net proceeds of approximately \$137 million and recorded a gain of \$11.5 million before income taxes in 2016 related to the sale of this business.

On December 16, 2015, the Company signed a definitive agreement to sell its minerals-based flame retardants and specialty chemicals business to Huber Engineered Materials, a division of J.M. Huber Corporation. The transaction included Albemarle's Martinswerk GmbH subsidiary and manufacturing facility located in Bergheim, Germany, and Albemarle's 50% ownership interest in Magnifin Magnesiaprodukte GmbH, a joint-venture with Radex Heraklith Industriebeteiligung AG at Breitenau, Austria. On February 1, 2016, the Company closed the sale of these businesses. We received net proceeds of approximately \$187 million and recorded a gain of \$112.3 million before income taxes in 2016 related to the sale of these businesses.

In April 2016, the Company concluded that it would discontinue efforts to sell its fine chemistry services business, and as a result, this business is accounted for as held and used beginning in the second quarter of 2016.

The carrying amounts of the major classes of assets and liabilities of these businesses classified as held for sale at December 31, 2015, were as follows (in thousands):

	December 31, 2015
Assets	
Current assets	\$156,421
Net property, plant and equipment	115,865
Goodwill	46,794
Other intangibles, net of amortization	66,324
All other noncurrent assets	19,081
Assets held for sale	\$404,485
Liabilities	
Current liabilities	\$72,756
Deferred income taxes	24,947

All other noncurrent liabilities	31,003
Liabilities held for sale	\$ 128,706

Table of Contents

Net Book Value at September 30, 2016 ^(c)	\$ 363,569	\$ 8,946	\$ 7,216	\$ 637	\$ 380,368

(a)

Included in Trade Names and Trademarks were indefinite-lived intangible assets with a gross carrying amount of \$8.8 million and \$8.7 million at September 30, 2016 and December 31, 2015, respectively.

Represents Other intangibles and related amortization of the fine chemistry services business, which was reported (b) in Assets held for sale on the condensed consolidated balance sheets as of December 31, 2015. See Note 3 “Divestitures,” for additional information.

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

As of September 30, 2016 and December 31, 2015, \$1.3 billion and \$1.4 billion, respectively, of Other intangibles, (c)net of amortization were classified as Assets held for sale in the condensed consolidated balance sheets. See Note 3 “Divestitures,” for additional information.

NOTE 5—Foreign Exchange:

Foreign exchange transaction gains (losses) were \$0.3 million and (\$3.1) million for the three-month and nine-month periods ended September 30, 2016, respectively, and (\$1.2) million and \$51.8 million for the three-month and nine-month periods ended September 30, 2015, respectively, and were included in Other income, net, in our consolidated statements of income, with the unrealized portion included in Other, net, in our condensed consolidated statements of cash flows. The gains in the nine-month period ended September 30, 2015 were primarily related to cash denominated in U.S. Dollars held by foreign subsidiaries where the European Union Euro serves as the functional currency, which was repatriated using the applicable transaction rates during the first quarter of 2015.

NOTE 6—Income Taxes:

The effective income tax rate for the three-month and nine-month periods ended September 30, 2016 was 11.1% and 13.8%, respectively, compared to 19.5% and 23.2% for the three-month and nine-month periods ended September 30, 2015, respectively. The Company’s effective income tax rate fluctuates based on, among other factors, its level and location of income. The difference between the U.S. federal statutory income tax rate and our effective income tax rate for the 2016 and 2015 periods was primarily due to the impact of earnings from outside the U.S. The decrease in our effective tax rate for the three-month period ended September 30, 2016 compared to the same period in 2015 was primarily driven by a tax discrete benefit of \$5.5 million related mainly to foreign provision to return adjustments. The decrease in the effective tax rate for the nine-month period ended September 30, 2016 compared to the same period in 2015 was primarily driven by income of \$122.3 million from the sales of businesses with associated tax expense of \$6.7 million, that was subject to tax at a rate below our effective tax rate and changes in impacts of earnings from outside the U.S.

Diluted earnings per share from continuing operations	\$ 0.93	\$ 0.48	\$ 3.53	\$ 1.27

On February 26, 2016, the Company increased the regular quarterly dividend by 5% to \$0.305 per share. On July 11, 2016, the Company declared a cash dividend of \$0.305 per share, which was paid on October 3, 2016 to shareholders of record at the close of business as of September 15, 2016. On November 3, 2016, the Company declared a cash dividend of \$0.305 per share, which is payable on January 2, 2017 to shareholders of record at the close of business as of December 15, 2016.

NOTE 8—Inventories:

The following table provides a breakdown of inventories at September 30, 2016 and December 31, 2015 (in thousands):

	September 30, 2016	December 31, 2015
Finished goods	\$ 335,694	\$ 264,025
Raw materials and work in process ^(a)	117,955	122,038
Stores, supplies and other	51,335	53,450
Total inventories ^(b)	\$ 504,984	\$ 439,513

(a) Included \$45.9 million and \$39.1 million at September 30, 2016 and December 31, 2015, respectively, of work in process related to the Lithium product category.

(b) As of September 30, 2016 and December 31, 2015, \$74.5 million and \$162.8 million, respectively, of inventories were classified as Assets held for sale in the condensed consolidated balance sheets. See Note 3, "Divestitures," for additional information.

NOTE 9—Investments:

The Company holds a 49% equity interest in Windfield Holdings Pty Ltd ("Windfield"). With regard to the Company's ownership in Windfield, the parties share risks and benefits disproportionate to their voting interests. As a result, the Company

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

considers Windfield to be a variable interest entity (“VIE”). However, the Company does not consolidate Windfield as it is not the primary beneficiary. The carrying amount of our 49% equity interest in Windfield, which is our most significant VIE, was \$295.8 million and \$280.2 million at September 30, 2016 and December 31, 2015, respectively. The Company’s aggregate net investment in all other entities which it considers to be VIE’s for which the Company is not the primary beneficiary was \$8.6 million and \$7.8 million at September 30, 2016 and December 31, 2015, respectively. Our unconsolidated VIE’s are reported in Investments in the condensed consolidated balance sheets. The Company does not guarantee debt for, or have other financial support obligations to, these entities, and its maximum exposure to loss in connection with its continuing involvement with these entities is limited to the carrying value of the investments.

Included in the condensed consolidated statement of cash flows for the nine months ended September 30, 2015, was a return of capital from Windfield of \$98.0 million.

NOTE 10—Long-Term Debt:

Long-term debt at September 30, 2016 and December 31, 2015 consisted of the following (in thousands):

	September 30, 2016	December 31, 2015
Term loan facilities, net of unamortized debt issuance costs of \$2,008 at September 30, 2016 and \$2,833 at December 31, 2015	\$866,992	\$1,247,167
1.875% Senior notes, net of unamortized discount and debt issuance costs of \$8,826 at September 30, 2016 and \$9,904 at December 31, 2015	776,784	759,151
3.00% Senior notes, net of unamortized discount and debt issuance costs of \$1,396 at September 30, 2016 and \$1,726 at December 31, 2015	248,604	248,274
4.15% Senior notes, net of unamortized discount and debt issuance costs of \$3,981 at September 30, 2016 and \$4,346 at December 31, 2015	421,019	420,654
4.50% Senior notes, net of unamortized discount and debt issuance costs of \$2,531 at September 30, 2016 and \$2,982 at December 31, 2015	347,469	347,018
5.45% Senior notes, net of unamortized discount and debt issuance costs of \$4,352 at September 30, 2016 and \$4,468 at December 31, 2015	345,648	345,532
Commercial paper notes	400,851	351,349
Variable-rate foreign bank loans	41,935	77,452
Variable-rate domestic bank loans	—	20,479
Miscellaneous	30	81
Total long-term debt ^(a)	3,449,332	3,817,157
Less amounts due within one year	400,892	674,994
Long-term debt, less current portion	\$3,048,440	\$3,142,163

As of September 30, 2016 and December 31, 2015, \$16.5 million and \$20.3 million, respectively, of long-term debt (a) was classified as Liabilities held for sale in the condensed consolidated balance sheets. See Note 3, “Divestitures,” for additional information.

As a result of the adoption of new accounting guidance effective January 1, 2016 on a retrospective basis, unamortized debt issuance costs are now deducted from the carrying amount of the associated debt liability on the balance sheet. The reclassification of these unamortized debt issuance costs resulted in reductions of \$17.1 million in Long-term debt and Other assets on the condensed consolidated balance sheets as of December 31, 2015. See Note 18, “Recently Issued Accounting Pronouncements,” for additional information.

Initial borrowings under our September 2015 Term Loan Agreement, which occurred on October 15, 2015, consisted of a 364-day term loan facility in an aggregate principal amount of \$300 million (the “364-Day Facility”) and a five-year

term loan facility in an aggregate principal amount of \$950 million (the “Five-Year Facility”), or collectively, the “Term Loan Facilities.” In the nine-month period ended September 30, 2016, we repaid the 364-Day Facility in full and repaid approximately \$81 million of borrowings under the Five-Year Facility, each primarily with proceeds from the sales of the metal sulfides business and the minerals-based flame retardants and specialty chemicals business, which closed in the first quarter of 2016.

Current portion of long-term debt at September 30, 2016 consisted primarily of commercial paper notes with a weighted-average interest rate of approximately 1.38% and a weighted-average maturity of 39 days.

The carrying value of our 1.875% Euro-denominated senior notes has been designated as an effective hedge of our net investment in certain foreign subsidiaries where the Euro serves as the functional currency, and gains or losses on the

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

revaluation of these senior notes to our reporting currency are recorded in accumulated other comprehensive loss. During the three-month and nine-month periods ended September 30, 2016, losses of \$7.4 million and \$10.3 million (net of income taxes), respectively, and during the three-month and nine-month periods ended September 30, 2015, (losses) gains of (\$3.4) million and \$39.7 million (net of income taxes), respectively, were recorded in accumulated other comprehensive loss in connection with the revaluation of these senior notes to our reporting currency.

NOTE 11—Commitments and Contingencies:

Environmental

We had the following activity in our recorded environmental liabilities for the nine months ended September 30, 2016, as follows (in thousands):

Beginning balance at December 31, 2015 ^(a)	\$31,436
Expenditures	(2,013)
Accretion of discount	596
Additions and revisions of estimates	1,055
Foreign currency translation adjustments and other	2,572
Ending balance at September 30, 2016 ^(a)	33,646
Less amounts reported in Accrued expenses	3,051
Amounts reported in Other noncurrent liabilities	\$30,595

As of September 30, 2016 and December 31, 2015, \$3.9 million of environmental liabilities were classified as (a) Liabilities held for sale in the condensed consolidated balance sheets. See Note 3, “Divestitures,” for additional information.

Environmental remediation liabilities included discounted liabilities of \$23.8 million and \$22.0 million at September 30, 2016 and December 31, 2015, respectively, discounted at rates with a weighted-average of 3.5%, with the undiscounted amount totaling \$63.3 million and \$59.5 million at September 30, 2016 and December 31, 2015, respectively. For certain locations where the Company is operating groundwater monitoring and/or remediation systems, prior owners or insurers have assumed all or most of the responsibility.

The amounts recorded represent our future remediation and other anticipated environmental liabilities. These liabilities typically arise during the normal course of our operational and environmental management activities or at the time of acquisition of the site, and are based on internal analysis as well as input from outside consultants. As evaluations proceed at each relevant site, changes in risk assessment practices, remediation techniques and regulatory requirements can occur, therefore such liability estimates may be adjusted accordingly. The timing and duration of remediation activities at these sites will be determined when evaluations are completed. Although it is difficult to quantify the potential financial impact of these remediation liabilities, management estimates (based on the latest available information) that there is a reasonable possibility that future environmental remediation costs associated with our past operations, in excess of amounts already recorded, could be up to approximately \$16 million before income taxes.

We believe that any sum we may be required to pay in connection with environmental remediation matters in excess of the amounts recorded would likely occur over a period of time and would not have a material adverse effect upon our results of operations, financial condition or cash flows on a consolidated annual basis although any such sum could have a material adverse impact on our results of operations, financial condition or cash flows in a particular quarterly reporting period.

Litigation

We are involved from time to time in legal proceedings of types regarded as common in our business, including administrative or judicial proceedings seeking remediation under environmental laws, such as the federal Comprehensive Environmental Response, Compensation and Liability Act, commonly known as CERCLA or

Superfund, products liability, breach of contract liability and premises liability litigation. Where appropriate, we may establish financial reserves for such proceedings. We also maintain insurance to mitigate certain of such risks. Costs for legal services are generally expensed as incurred.

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

Indemnities

We are indemnified by third parties in connection with certain matters related to acquired and divested businesses. Although we believe that the financial condition of those parties who may have indemnification obligations to the Company is generally sound, there can be no assurance that any party who may have obligations to indemnify us will adhere to their obligations and we may have to resort to legal action to enforce our rights under the indemnities. The Company may be subject to indemnity claims relating to properties or businesses it divested, including properties or businesses that Rockwood divested prior to the Acquisition Closing Date. In the opinion of management, and based upon information currently available, the ultimate resolution of any indemnification obligations owed to the Company or by the Company is not expected to have a material effect on the Company's financial condition, results of operations or cash flows.

Other

We have contracts with certain of our customers, which serve as guarantees on product delivery and performance according to customer specifications that can cover both shipments on an individual basis as well as blanket coverage of multiple shipments under certain customer supply contracts. The financial coverage provided by these guarantees is typically based on a percentage of net sales value.

NOTE 12—Segment Information:

Effective January 1, 2016, our former Performance Chemicals reportable segment was split into two reportable segments: (1) Lithium and Advanced Materials and (2) Bromine Specialties. In addition, on June 17, 2016, the Company signed a definitive agreement to sell its Chemetall Surface Treatment business to BASF SE. This business, a separate reportable segment, is classified as discontinued operations and its results are excluded from segment results for all periods presented. As a result, our three reportable segments include Lithium and Advanced Materials, Bromine Specialties and Refining Solutions. Each segment has a dedicated team of sales, research and development, process engineering, manufacturing and sourcing, and business strategy personnel and has full accountability for improving execution through greater asset and market focus, agility and responsiveness. The new business structure aligns with the markets and customers we serve through each of the segments. The new structure also facilitates the continued standardization of business processes across the organization, and is consistent with the manner in which information is presently used internally by the Company's chief operating decision maker to evaluate performance and make resource allocation decisions.

Summarized financial information concerning our reportable segments is shown in the following tables. Results for 2015 have been recast to reflect the change in segments noted above.

The "All Other" category comprises three operating segments that do not fit into any of our core businesses subsequent to the acquisition of Rockwood: minerals-based flame retardants and specialty chemicals, fine chemistry services and metal sulfides. During the first quarter of 2016, we completed the sales of the metal sulfides business and the minerals-based flame retardants and specialty chemicals businesses. For additional information about these businesses, see Note 3, "Divestitures."

The Corporate category is not considered to be a segment and includes corporate-related items not allocated to the reportable segments. Pension and OPEB service cost (which represents the benefits earned by active employees during the period) and amortization of prior service cost or benefit are allocated to the reportable segments, All Other, and Corporate, whereas the remaining components of pension and OPEB benefits cost or credit ("Non-operating pension and OPEB items") are included in Corporate. Segment data includes intersegment transfers of raw materials at cost and allocations for certain corporate costs.

The Company's chief operating decision maker uses earnings before interest, taxes, depreciation and amortization, as adjusted on a consistent basis for certain non-recurring or unusual items such as acquisition and integration related costs, utilization of inventory markup, gains or losses on sales of businesses, restructuring charges, facility divestiture charges, non-operating pension and OPEB items and other significant non-recurring items ("adjusted EBITDA"), in a

balanced manner and on a segment basis to assess the ongoing performance of the Company's business segments and to allocate resources. In addition, management uses adjusted EBITDA for business planning purposes and as a significant component in the calculation of performance-based compensation for management and other employees. The Company has reported adjusted EBITDA because management believes it provides transparency to investors and enables period-to-period comparability of financial performance. Adjusted EBITDA is a financial measure that is not required by, or presented in accordance with, U.S. GAAP. Adjusted EBITDA should not be considered as an alternative to Net income (loss) attributable to Albemarle Corporation, the

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

(a) See Note 2, “Acquisitions,” for additional information.

(b) Includes the write-off of fixed assets of \$1.4 million included in Research and development expenses, partially offset by a net gain of \$0.9 million on the sales of properties included in Other income, net.

(c) In connection with the acquisition of Rockwood, the Company valued Rockwood’s existing inventory at fair value as of the Acquisition Closing Date, which resulted in a markup of the underlying net book value of the inventory totaling approximately \$103.4 million. The inventory markup was expensed over the estimated remaining selling period. For the three-month and nine-month periods ended September 30, 2015, \$7.7 million and \$55.4 million, respectively, was included in Cost of goods sold, and Equity in net income of unconsolidated investments was reduced by \$9.1 million and \$26.9 million, respectively, related to the utilization of the inventory markup.

(d) Gain recognized upon the sale of land in Avonmouth, UK, which was utilized by the phosphorus flame retardants business we exited in 2012.

(e) See Note 3, “Divestitures,” for additional information.

(f) Financing-related fees expensed in connection with the acquisition of Rockwood.

NOTE 13—Pension Plans and Other Postretirement Benefits:

The components of pension and postretirement benefits cost (credit) from continuing operations for the three-month and nine-month periods ended September 30, 2016 and 2015 were as follows (in thousands):

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Pension Benefits Cost (Credit):				
Service cost	\$842	\$1,301	\$3,123	\$3,927
Interest cost	9,115	9,228	27,978	27,479
Expected return on assets	(9,920)	(11,111)	(30,429)	(33,076)
Actuarial gain	—	—	(50)	(51)
Amortization of prior service benefit	230	30	698	89
Total net pension benefits cost (credit)	\$267	\$(552)	\$1,320	\$(1,632)
Postretirement Benefits Cost (Credit):				
Service cost	\$29	\$36	\$86	\$107
Interest cost	620	643	1,862	1,930
Expected return on assets	(46)	(66)	(140)	(197)
Amortization of prior service benefit	(24)	(24)	(72)	(72)
Total net postretirement benefits cost	\$579	\$589	\$1,736	\$1,768
Total net pension and postretirement benefits cost ^(a)	\$846	\$37	\$3,056	\$136

For the three-month and nine-month periods ended September 30, 2016, \$3.7 million and \$4.9 million, respectively, of net pension and postretirement benefits cost are included in Income (loss) from discontinued operations (net of tax) in the consolidated statements of income. For the three-month and nine-month periods ended September 30, 2015, \$0.8 million and (\$0.4) million, respectively, of net pension and postretirement benefits cost (credit) are included in Income (loss) from discontinued operations (net of tax) in the consolidated statements of income. See Note 3, “Divestitures,” for additional information.

During the three-month and nine-month periods ended September 30, 2016, we made contributions of \$3.4 million and \$11.4 million, respectively, to our qualified and nonqualified pension plans related to continuing and discontinued operations. During the three-month and nine-month periods ended September 30, 2015, we made contributions of \$4.8 million and \$13.8 million, respectively, to our qualified and nonqualified pension plans related to continuing and

discontinued operations.

We paid \$0.7 million and \$2.3 million in premiums to the U.S. postretirement benefit plan during the three-month and nine-month periods ended September 30, 2016, respectively. During the three-month and nine-month periods ended September 30, 2015, we paid \$0.9 million and \$2.9 million, respectively, in premiums to the U.S. postretirement benefit plan.

Multiemployer Plan

Our contributions to the Pensionskasse Dynamit Nobel Versicherungsverein auf Gegenseitigkeit, Troisdorf (“DN Pensionskasse”) multiemployer plan for continuing and discontinued operations were €0.4 million and €1.3 million (approximately \$0.5 million and \$1.4 million) during the three-month and nine-month periods ended September 30, 2016,

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

respectively. During the three-month and nine-month periods ended September 30, 2015, we made contributions of €0.5 million and €1.2 million (approximately \$0.6 million and \$1.4 million), respectively, to the DN Pensionskasse multiemployer plan for continuing and discontinued operations.

Effective July 1, 2016, the DN Pensionskasse is subject to a financial improvement plan which expires on December 31, 2022. This financial improvement plan calls for increased capital reserves to avoid future underfunding risk.

NOTE 14—Fair Value of Financial Instruments:

In assessing the fair value of financial instruments, we use methods and assumptions that are based on market conditions and other risk factors existing at the time of assessment. Fair value information for our financial instruments is as follows:

Long-Term Debt—the fair values of our senior notes and other fixed rate foreign borrowings are estimated using Level 1 inputs and account for the majority of the difference between the recorded amount and fair value of our long-term debt. The carrying value of our remaining long-term debt reported in the accompanying condensed consolidated balance sheets approximates fair value as substantially all of such debt bears interest based on prevailing variable market rates currently available in the countries in which we have borrowings.

September 30, 2016		December 31, 2015	
Recorded	Fair Value	Recorded	Fair Value
Amount		Amount	
(In thousands)			

Long-term debt	\$3,464,193	\$3,638,142	\$3,834,217	\$3,793,179
----------------	-------------	-------------	-------------	-------------

Foreign Currency Forward Contracts—we enter into foreign currency forward contracts in connection with our risk management strategies in an attempt to minimize the financial impact of changes in foreign currency exchange rates. These derivative financial instruments are used to manage risk and are not used for trading or other speculative purposes. The fair values of our foreign currency forward contracts are estimated based on current settlement values. At September 30, 2016 and December 31, 2015, we had outstanding foreign currency forward contracts with notional values totaling \$465.5 million and \$217.7 million, respectively. Our foreign currency forward contracts outstanding at September 30, 2016 and December 31, 2015 were not designated as hedging instruments under Accounting Standards Codification (“ASC”) 815, Derivatives and Hedging. As of September 30, 2016 and December 31, 2015, \$0.2 million and \$0.3 million, respectively, was included in Accrued expenses associated with the fair value of our foreign currency forward contracts.

Gains and losses on foreign currency forward contracts are recognized in Other income, net; further, fluctuations in the value of these contracts are generally expected to be offset by changes in the value of the underlying exposures being hedged, which are also reported in Other income, net. For the three-month and nine-month periods ended September 30, 2016, we recognized gains (losses) of \$3.0 million and (\$1.9) million, respectively, in Other income, net, in our consolidated statements of income related to the change in the fair value of our foreign currency forward contracts. For the three-month and nine-month periods ended September 30, 2015, we recognized gains (losses) of \$2.5 million and (\$14.1) million, respectively, in Other income, net, in our consolidated statements of income related to the change in the fair value of our foreign currency forward contracts. Also, for the nine-month periods ended September 30, 2016 and 2015, we recorded losses of \$1.9 million and \$14.1 million, respectively, related to the change in the fair value of our foreign currency forward contracts, and net cash settlements of \$2.0 million and \$13.0 million, respectively, in Other, net, in our condensed consolidated statements of cash flows.

The counterparties to our foreign currency forward contracts are major financial institutions with which we generally have other financial relationships. We are exposed to, but do not anticipate, credit loss in the event of nonperformance by these counterparties.

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

NOTE 15—Fair Value Measurement:

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The inputs used to measure fair value are classified into the following hierarchy:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities

Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for Level 2 identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability

Level 3 Unobservable inputs for the asset or liability

We endeavor to utilize the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Transfers between levels of the fair value hierarchy are deemed to have occurred on the date of the event or change in circumstance that caused the transfer. There were no transfers between Levels 1 and 2 during the nine-month period ended September 30, 2016. The following tables set forth our financial assets and liabilities that were accounted for at fair value on a recurring basis as of September 30, 2016 and December 31, 2015 (in thousands):

	September 30, 2016	Quoted Prices in Active Markets for Identical Items (Level 1)	Quoted Prices in Active Markets for Similar Items (Level 2)	Unobservable Inputs (Level 3)
Assets:				
Investments under executive deferred compensation plan ^(a)	\$ 21,146	\$ 21,146	\$ —	\$ —
Private equity securities ^(b)	\$ 5,542	\$ 35	\$ —	\$ 5,507

Liabilities:

Obligations under executive deferred compensation plan ^(a)	\$ 21,146	\$ 21,146	\$ —	\$ —
Foreign currency forward contracts ^(c)	\$ 183	\$ —	\$ 183	\$ —

	December 31, 2015	Quoted Prices in Active Markets for Identical Items (Level 1)	Quoted Prices in Active Markets for Similar Items (Level 2)	Unobservable Inputs (Level 3)
Assets:				
Investments under executive deferred compensation plan ^(a)	\$ 21,631	\$ 21,631	\$ —	\$ —
Private equity securities ^(b)	\$ 2,626	\$ 31	\$ —	\$ 2,595

Liabilities:

Obligations under executive deferred compensation plan ^(a)	\$ 21,631	\$ 21,631	\$ —	\$ —
Foreign currency forward contracts ^(c)	\$ 250	\$ —	\$ 250	\$ —

(a) We maintain an Executive Deferred Compensation Plan (“EDCP”) that was adopted in 2001 and subsequently amended. The purpose of the EDCP is to provide current tax planning opportunities as well as supplemental funds upon the retirement or death of certain of our employees. The EDCP is intended to aid in attracting and retaining employees of exceptional ability by providing them with these benefits. We also maintain a Benefit Protection

Trust (the “Trust”), created to provide a source of funds to assist in meeting the obligations of the EDCP, subject to the claims of our creditors in the event of our insolvency. Assets of the Trust are consolidated in accordance with authoritative accounting guidance. The assets of the Trust consist primarily of mutual fund investments (which are accounted for as trading securities and are marked-to-market on a monthly basis through the consolidated statements of income) and cash and cash equivalents. As such, these assets and obligations are classified within Level 1.

Primarily consists of private equity securities classified as available-for-sale and are reported in Investments in the condensed consolidated balance sheets. The changes in fair value are reported in Other income, net, in our consolidated statements of income. Holdings in private equity securities are typically valued using the net asset valuations provided by the underlying private investment companies and as such are classified within Level 3.

As a result of our global operating and financing activities, we are exposed to market risks from changes in foreign currency exchange rates, which may adversely affect our operating results and financial position. When deemed appropriate, we minimize our risks from

NOTE 18—Recently Issued Accounting Pronouncements:

In May 2014, the Financial Accounting Standards Board (“FASB”) issued accounting guidance designed to enhance comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets. The core principle of the guidance is that revenue recognized from a transaction or event that arises from a contract with a customer should reflect the consideration to which an entity expects to be entitled in exchange for goods or services provided. To achieve that core principle the new guidance sets forth a five-step revenue recognition model that will

need to be applied consistently to all contracts with customers, except those that are within the scope of other topics in the ASC. Also required are new disclosures to help users of financial statements better understand the nature, amount, timing and uncertainty of revenues and cash flows from contracts with customers. The new disclosures include qualitative and quantitative information about contracts with customers, significant judgments made in applying the revenue guidance, and assets recognized related to the costs to obtain or fulfill a contract. In March 2016 and April 2016, the FASB issued amendments to this new guidance that provides clarification about principal versus agent considerations, identification of performance obligations and accounting for the licensing of intellectual property. In addition, in May 2016, the FASB issued an amendment to the guidance that provides clarification about collectibility, noncash consideration, presentation of sales tax, and transition. These new requirements become effective for annual and interim reporting periods beginning after December 15, 2017. Early adoption is permitted for annual and interim reporting periods beginning after December 15, 2016. The impact of these new requirements on our financial statements is being assessed and is not yet known.

Table of Contents

ALBEMARLE CORPORATION AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

In February 2015, the FASB issued accounting guidance that changes the analysis that reporting entities must perform to determine whether certain types of legal entities should be consolidated. Specifically, the amendments affect (a) limited partnerships and similar legal entities; (b) the consolidation analysis of reporting entities that are involved with variable interest entities, particularly those that have fee arrangements and related party relationships; and (c) certain investment funds. These amendments became effective on January 1, 2016 and did not have a material effect on our condensed consolidated financial statements.

In April and August 2015, the FASB issued accounting guidance that changes the balance sheet presentation of debt issuance costs (except for debt issuance costs related to line-of-credit arrangements). The guidance requires debt issuance costs relating to a recognized debt liability to be presented as a direct deduction from the carrying amount of the associated debt liability in the balance sheet. This new requirement became effective on January 1, 2016. See Note 10, "Long-Term Debt" for additional information.

In April 2015, the FASB issued accounting guidance that, among other things, provides for a practical expedient related to interim period remeasurements of defined benefit plan assets and obligations. The practical expedient permits entities to remeasure plan assets and obligations using the month-end that is closest to the date of the actual event. Disclosure of such election and related month-end remeasurement date is required. This guidance became effective on January 1, 2016 and did not have a material effect on our condensed consolidated financial statements.

In April 2015, the FASB issued accounting guidance which clarifies the proper method of accounting for fees paid in a cloud computing arrangement. The guidance requires software licenses included in a cloud computing arrangement to be accounted for consistently with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the arrangement should be accounted for as a service contract. This guidance became effective on January 1, 2016 and did not have a material effect on our condensed consolidated financial statements.

In May 2015, the FASB issued accounting guidance for which investments measured at net asset value per share (or its equivalent) using the practical expedient should no longer be categorized within the fair value hierarchy. Although removed from the fair value hierarchy, disclosure of the nature, risks and amount of investments for which fair value is measured using the practical expedient is still required. This guidance became effective on January 1, 2016 and did not have a material effect on our condensed consolidated financial statements.

In July 2015, the FASB issued accounting guidance that requires inventory to be measured at the lower of cost and net realizable value. The scope of this guidance excludes inventory measured using the last-in first-out method or the retail inventory method. This new requirement will be effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years, and is to be applied prospectively. Early adoption is permitted. We do not expect this guidance to have a significant impact on our financial statements.

In February 2016, the FASB issued accounting guidance that requires assets and liabilities arising from leases to be recorded on the balance sheet. Additional disclosures are required regarding the amount, timing, and uncertainty of cash flows from leases. This new guidance will be effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, and is to be applied using a modified retrospective approach. Early adoption is permitted. The impact of this new requirement on our financial statements is being assessed and is not yet known.

In March 2016, the FASB issued accounting guidance that simplifies several aspects of the accounting for share-based payment awards. Among other things, this guidance requires all tax effects related to share-based payment awards to be recognized as income tax expense or benefit on the income statement, thus eliminating all additional paid-in capital pools. An entity should recognize excess tax benefits regardless of whether the benefit reduces income taxes payable in the current period. For interim reporting purposes, excess tax benefits and tax deficiencies should be accounted for as discrete items in the reporting period in which they occur. Additionally, this new guidance requires all tax related cash flows resulting from share-based payments to be presented as an operating activity on the statement of cash flows rather than as a financing activity. This guidance will be effective for annual periods beginning after December 15,

2016, including interim periods within those fiscal years. Early adoption is permitted. The impact of this new requirement on our financial statements is being assessed and is not yet known.

In August 2016, the FASB issued accounting guidance which clarifies the proper presentation and classification of certain cash receipts and cash payments in the statement of cash flows. The new guidance addresses cash flow issues including, but not limited to, debt prepayment or debt extinguishment costs and distributions received from equity method investments. This guidance will be effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

years, and is to be applied on a retrospective basis. Early adoption is permitted. We do not expect this guidance to have a significant impact on our financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-looking Statements

Some of the information presented in this Quarterly Report on Form 10-Q, including the documents incorporated by reference, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on our current expectations, which are in turn based on assumptions that we believe are reasonable based on our current knowledge of our business and operations. We have used words such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "should," "will" and variations of such words and similar expressions to identify such forward-looking statements.

These forward-looking statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict and many of which are beyond our control. Therefore, there can be no assurance that our actual results will not differ materially from the results and expectations expressed or implied in the forward-looking statements. Factors that could cause actual results to differ materially include, without limitation:

- changes in economic and business conditions;
- changes in financial and operating performance of our major customers and industries and markets served by us;
- the timing of orders received from customers;
- the gain or loss of significant customers;
- competition from other manufacturers;
- changes in the demand for our products or the end-user markets in which our products are sold;
- limitations or prohibitions on the manufacture and sale of our products;
- availability of raw materials;
- changes in the cost of raw materials and energy, and our ability to pass through such increases;
- changes in our markets in general;
- fluctuations in foreign currencies;
- changes in laws and government regulation impacting our operations or our products;
- the occurrence of regulatory proceedings, claims or litigation;
- the occurrence of cyber-security breaches, terrorist attacks, industrial accidents, natural disasters or climate change;
- hazards associated with chemicals manufacturing;
- the inability to maintain current levels of product or premises liability insurance or the denial of such coverage;
- political unrest affecting the global economy, including adverse effects from terrorism or hostilities;
- political instability affecting our manufacturing operations or joint ventures;
- changes in accounting standards;
- the inability to achieve results from our global manufacturing cost reduction initiatives as well as our ongoing continuous improvement and rationalization programs;
- changes in the jurisdictional mix of our earnings and changes in tax laws and rates;
- changes in monetary policies, inflation or interest rates that may impact our ability to raise capital or increase our cost of funds, impact the performance of our pension fund investments and increase our pension expense and funding obligations;
- volatility and uncertainties in the debt and equity markets;
- technology or intellectual property infringement, including cyber-security breaches, and other innovation risks;
- decisions we may make in the future;
- the ability to successfully execute, operate and integrate acquisitions and divestitures, including the integration of Rockwood's operations, and realize anticipated synergies and other benefits, or the sale of the Chemetall Surface Treatment business; and
- the other factors detailed from time to time in the reports we file with the SEC.

Table of Contents

We assume no obligation to provide revisions to any forward-looking statements should circumstances change, except as otherwise required by securities and other applicable laws. The following discussion should be read together with our condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q. The following is a discussion and analysis of results of operations for the three-month and nine-month periods ended September 30, 2016 and 2015. A discussion of consolidated financial condition and sources of additional capital is included under a separate heading “Financial Condition and Liquidity” on page 44.

Overview

We are a leading global developer, manufacturer and marketer of highly-engineered specialty chemicals that meets customer needs across an exceptionally diverse range of end markets. The end markets we serve include the petroleum refining, consumer electronics, energy storage, construction, automotive, steel and aerospace, lubricants, pharmaceuticals, crop protection, household appliances, heating, ventilation, aluminum finishing, food safety and custom chemistry services. We believe that our commercial and geographic diversity, technical expertise, innovative capability, flexible, low-cost global manufacturing base, experienced management team and strategic focus on our core base technologies will enable us to maintain leading market positions in those areas of the specialty chemicals industry in which we operate.

Secular trends favorably impacting demand within the end markets that we serve combined with our diverse product portfolio, broad geographic presence and customer-focused solutions will continue to be key drivers to our future earnings growth. We continue to build upon our existing green solutions portfolio and our ongoing mission to provide innovative, yet commercially viable, clean energy products and services to the marketplace. We believe our disciplined cost reduction efforts, ongoing productivity improvements and the acquisition of Rockwood position us well to take advantage of strengthening economic conditions as they occur while softening the negative impact of the current challenging global economic environment.

Third Quarter 2016

During the third quarter of 2016:

We signed a definitive agreement to acquire the lithium hydroxide and lithium carbonate conversion assets of Jiangxi Jiangli New Materials Science and Technology Co. Ltd. The transaction is expected to close by the end of the first quarter of 2017, subject to regulatory approvals and other customary closing conditions.

We entered an agreement with Bolland Minera S.A., for the exclusive exploration and acquisition rights to a lithium resource in Antofalla, within the Catamarca Province of Argentina.

- Our board of directors declared a quarterly dividend of \$0.305 per share on July 11, 2016, which was paid on October 3, 2016 to shareholders of record at the close of business as of September 15, 2016.

Our net sales for the quarter were \$654.0 million, down 6% from net sales of \$693.2 million in the third quarter of 2015. Net sales from our reportable segments for the quarter were \$625.4 million, an increase of 7% from net sales of \$584.6 million in the third quarter of 2015.

Earnings per share from continuing operations were \$0.93 (on a diluted basis), an increase from third quarter 2015 results of \$0.48 per diluted share.

Cash provided by operating activities was \$199.9 million in the third quarter, an increase from \$183.7 million in the third quarter 2015.

Outlook

Effective January 1, 2016, the former Performance Chemicals segment was split into two reportable segments: (1) Lithium and Advanced Materials, which includes Performance Catalyst Solutions and Curatives (“PCS”), and (2) Bromine Specialties. Each segment has a dedicated team of sales, research and development, process engineering, manufacturing and sourcing, and business strategy personnel and has full accountability for improving execution through greater asset and market focus, agility and responsiveness. We expect this change to provide further clarity into the performance of each business.

On June 17, 2016, we entered into a definitive agreement to sell the Chemetall Surface Treatment business to BASF SE for consideration of approximately \$3.2 billion in cash, subject to adjustment with respect to certain pension liabilities, cash, working capital and indebtedness. The sale is expected to close in the fourth quarter of 2016.

The current global business environment presents a diverse set of opportunities and challenges in the markets we serve, from slow and uneven global growth, currency exchange volatility, significantly lower crude oil prices, a dynamic pricing environment in bromine derivatives and an ever-changing landscape in electronics, to the continuous need for cutting edge catalysts and technology by our refinery customers, diverse energy storage needs including exciting opportunities in electric

Table of Contents

vehicles, and increasingly stringent environmental standards. Amidst these dynamics, we believe our business fundamentals are sound and that we are strategically well-positioned as we remain focused on increasing sales volumes, significant deleveraging, optimizing and improving the value of our portfolio through pricing and product development, managing costs and delivering value to our customers. We believe that our businesses remain positioned to capitalize on new business opportunities and long-term trends driving growth within our end markets and to respond quickly to improved economic conditions. Additionally, we are well on track to exceed our initial expectations regarding synergies from the acquisition of the Rockwood businesses in 2015.

Lithium and Advanced Materials: We expect continued strong growth for the remainder of 2016, led by demand in battery-grade applications and continued price improvement in Lithium. PCS experienced strong growth in 2015 due to market demand in general and due to certain competitor outages. While we expect most of the PCS business to maintain a similar level of profitability in 2016, weakness in the curatives market and the bankruptcy filing of one of our customers is expected to result in a \$15 million impact to Income from continuing operations before income taxes and adjusted EBITDA over the course of the current year.

On a longer term basis, we believe that demand for lithium will continue to grow as new applications for lithium power continue to be developed and the use of plug-in hybrid electric vehicles and battery electric vehicles escalates. In addition, we expect growth in PCS to come from growing global demand for plastics driven by rising standards of living and infrastructure spending, particularly in Asia and the Middle East.

Bromine Specialties: We continue to expect the second half of 2016 results to be below first half on sales and profitability due to expected decline in demand for clear brine fluids used in offshore drilling projects, lower flame retardant volumes due to order timing and seasonality, and inventory rebalancing. Through working capital discipline and strong controls on costs, we expect to generate healthy cash flows in the Bromine business despite these second-half challenges. We believe that the combination of solid, long-term business fundamentals, with our strong cost position, product innovations and effective management of raw material costs will enable us to manage our business through end market challenges and to capitalize on opportunities that are expected with favorable market trends in select end markets.

On a longer term basis, we continue to believe that improving global standards of living, widespread digitization, increasing demand for data management capacity and the potential for increasingly stringent fire safety regulations in developing markets are likely to drive continued demand for fire safety products. Demand for drilling completion fluids in the first half of 2016 held up better than expected, but we have seen lower demand since mid-year as a result of sustained low oil prices impacting offshore drilling projects around the world. Longer term, absent an increase in regulatory pressure on offshore drilling, we would expect this business to follow a solid growth trajectory once oil prices recover from recent levels as we expect that deep water drilling will continue to increase around the world. Net sales of flame retardants were also stronger than expected in the first half of 2016 due to favorable bid results as well as customer order timing. We are focused on profitably growing our globally competitive bromine and derivatives production network to serve all major bromine consuming products and markets. We believe the global supply/demand gap will tighten as demand for existing and possible new uses of bromine expands over time.

Refining Solutions: In 2016, despite some near-term concerns about how the price of oil will continue to impact the crude slate used by refineries and the resulting demand for catalysts, we expect to see continued, sustained high level performance from heavy oil upgrading as well as improvement in clean fuels technology results due to increased change outs by refiners and an improved product mix, although certain domestic oil companies, among others, are expected to look for ways to delay catalysts change outs due to the current oil economic environment.

On a longer term basis, we believe increased global demand for transportation fuels and implementation of more stringent fuel quality requirements will drive growth in our Refining Solutions business. Delivering superior end-use performance continues to be the most effective way to create sustainable value in the refinery catalysts industry, and we believe our technologies continue to provide significant performance and financial benefits to refiners challenged to meet tighter regulations around the world, those managing new contaminants present in North America tight oil, and those in the Middle East and Asia seeking to use heavier feedstock while pushing for higher propylene yields. While lower oil prices may impact the overall crude slate for a period of time, longer term, we believe that the global crude supply will get heavier and more sour, trends that bode well for catalysts demand. Given this and based on our

technology, current production capacities and expected growth in end market demand, we believe that we remain well-positioned for the future.

All Other: During the first quarter of 2016, we closed the previously announced sales of the metal sulfides business and the minerals-based flame retardants and specialty chemicals business. The cash generated from the sale of these businesses was used to reduce borrowings outstanding under the September 2015 Term Loan Agreement.

Table of Contents

In April 2016, we concluded that we would suspend efforts to sell the fine chemistry services business. This business will continue to be reported outside the Company's reportable segments.

Corporate: In the first quarter of 2016, we increased our quarterly dividend rate to \$0.305 per share. We continue to focus on cash generation, working capital management and process efficiencies. We expect our global effective tax rate for 2016 to be approximately 15.9%; however, our rate will vary based on the locales in which income is actually earned and remains subject to potential volatility from changing legislation in the U.S. and other tax jurisdictions.

We remain committed to evaluating the merits of any opportunities that may arise for acquisitions or other business development activities that will complement our business footprint. Additional information regarding our products, markets and financial performance is provided at our web site, www.albemarle.com. Our web site is not a part of this document nor is it incorporated herein by reference.

Table of Contents

Net Sales

For the three-month period ended September 30, 2016, we recorded net sales of \$654.0 million, a decrease of \$39.2 million, or 6%, compared to net sales of \$693.2 million for the three-month period ended September 30, 2015. On January 4, 2016, we closed the sale of the metal sulfides business and on February 1, 2016, we closed the sale of the minerals-based flame retardants and specialty chemicals business. The divestiture of these businesses reduced net sales by \$73.3 million as compared to the three-month period ended September 30, 2015. Excluding the impact of the divested businesses noted above, net sales increased by \$34.1 million due to \$31.2 million of higher volumes resulting from market demand and \$2.7 million of favorable currency exchange impacts.

Gross Profit

For the three-month period ended September 30, 2016, our gross profit increased \$19.9 million, or 9%, from the corresponding 2015 period. Gross profit includes charges of \$7.7 million in the three-month period ended September 30, 2015 for the utilization of the inventory markup recorded as part of purchase accounting for the acquisition of Rockwood. The divestiture of our metal sulfides and minerals-based flame retardants businesses in the first quarter of 2016 reduced gross profit by \$9.2 million as compared to the three-month period ended September 30, 2015. Excluding the inventory markup charges and the impact of divestitures, gross profit increased by \$21.4 million, or 9.8%, due primarily to higher overall sales volumes and \$4.6 million in lower variable and fixed costs. Overall, these factors contributed to a higher gross profit margin for the three-month period ended September 30, 2016 of 36.5%, up from 31.6% in the corresponding period in 2015. Excluding the inventory markup charges and the impact of divestitures, gross profit margin was 36.3% for the three-month period ended September 30, 2016 as compared to 34.9% in the corresponding period in 2015.

Selling, General and Administrative Expenses

For the three-month period ended September 30, 2016, our selling, general and administrative (“SG&A”) expenses increased \$5.3 million, or 7%, from the three-month period ended September 30, 2015. The increase is primarily due to timing of expenses and increased compensation costs, partially offset by a reduction in SG&A costs associated with the divested businesses. As a percentage of net sales, SG&A expenses were 13.2% for the three-month period ended September 30, 2016, compared to 11.7% for the corresponding period in 2015.

Research and Development Expenses

For the three-month period ended September 30, 2016, our research and development (“R&D”) expenses decreased \$0.9 million, or 4%, from the three-month period ended September 30, 2015. As a percentage of net sales, R&D expenses were 3.2% for the three-month periods ended September 30, 2016 and 2015.

Restructuring and Other, Net

Included in restructuring and other, net, for the third quarter of 2015 is a gain of \$6.8 million (\$4.7 million after income taxes) recognized upon the sale of the land in Avonmouth, UK, which was utilized by the phosphorus flame retardants business we exited in 2012.

Acquisition and Integration Related Costs

The three-month period ended September 30, 2016 includes \$6.3 million of integration costs resulting from the acquisition of Rockwood (mainly consisting of professional services, costs to achieve synergies, relocation costs, and other integration costs) and \$0.4 million of costs in connection with other significant projects. The three-month period ended September 30, 2015 includes \$35.5 million of acquisition and integration related costs directly related to the acquisition of Rockwood and \$1.0 million of costs in connection with other significant projects.

Interest and Financing Expenses

Interest and financing expenses for the three-month period ended September 30, 2016 decreased \$3.3 million to \$15.9 million from the corresponding 2015 period, due mainly to lower debt levels as well as the favorable impact of the refinancing of the senior notes assumed from Rockwood that was completed on October 15, 2015.

Other Income, Net

Other income, net, for the three-month period ended September 30, 2016 was \$3.0 million versus \$0.1 million for the corresponding 2015 period. The change was primarily due to a \$2.9 million gain in the fair value of our investment in private equity securities recorded during the third quarter of 2016.

Income Tax Expense

The effective income tax rate for the third quarter of 2016 was 11.1% compared to 19.5% for the third quarter of 2015. Our effective income tax rate differs from the U.S. federal statutory income tax rates in the comparative periods primarily due

Table of Contents

to the impact of earnings from outside the U.S. The decrease in the effective tax rate for the three-month period ended September 30, 2016 compared to the same period in 2015 was primarily driven by a tax discrete benefit of \$5.5 million related mainly to foreign provision to return adjustments.

Equity in Net Income of Unconsolidated Investments

Equity in net income of unconsolidated investments was \$15.0 million for the three-month period ended September 30, 2016 compared to \$5.7 million in the same period last year. Equity in net income of unconsolidated investments for the three-month period ended September 30, 2015 includes a \$9.1 million charge for utilization of fair value adjustments to inventories in connection with the Rockwood acquisition. Excluding this charge, equity in net income of unconsolidated investments increased by \$0.2 million primarily due to higher equity income reported by our Lithium and Advanced Materials segment joint venture Windfield Holdings Pty Ltd primarily due to higher sales volumes. This was partially offset by the sale of our ownership interest in Magnifin Magnesiaprodukte GmbH during 2016.

Income from Discontinued Operations

Income from discontinued operations, after income taxes, was \$23.2 million for the three-month period ended September 30, 2016 compared to \$11.0 million in the same period last year. The change was primarily due to favorable sales prices and volumes due to market demand, no depreciation and amortization expense in the three-month period ended September 30, 2016 because of discontinued operations accounting, as well as lower interest expense, partially offset by increased SG&A expenses of the Chemetall Surface Treatment business.

Net Income Attributable to Noncontrolling Interests

For the three-month period ended September 30, 2016, net income attributable to noncontrolling interests was \$9.5 million compared to \$5.5 million in the same period last year. This increase of \$4.0 million was due primarily to an increase in consolidated income related to our Jordanian joint venture from higher sales volumes.

Net Income Attributable to Albemarle Corporation

Net income attributable to Albemarle Corporation increased to \$128.2 million in the three-month period ended September 30, 2016, from \$65.4 million in the three-month period ended September 30, 2015. The three-month period ended September 30, 2015 included a \$13.6 million charge after income taxes for utilization of fair value adjustments to inventories. Excluding this charge, net income attributable to Albemarle increased by \$49.2 million. The increase is primarily due to higher gross profit associated with stronger business results, a reduction in acquisition and integration costs, lower interest associated with lower debt levels and the favorable impact of the refinancing that was completed on October 15, 2015, in addition to a lower overall effective tax rate, partially offset by the impact of the divestitures and higher SG&A expenses.

Other Comprehensive Income (Loss), Net of Tax

Total other comprehensive income (loss), after income taxes, was \$41.0 million for the three-month period ended September 30, 2016 compared to (\$70.4) million for the corresponding period in 2015. The majority of these amounts are the result of translating our foreign subsidiary financial statements from their local currencies to U.S. Dollars. In the 2016 period, other comprehensive income from foreign currency translation adjustments was \$47.7 million, mainly as a result of favorable movements in the European Union Euro of approximately \$38 million and the Korean Won of approximately \$8 million. The movement in the European Union Euro includes an adjustment of \$12.5 million to reduce the Foreign currency translation on our investment in the Windfield Holdings Pty Ltd joint venture related to the three month period ended March 31, 2016. Also included in total other comprehensive income for the 2016 period is a loss of \$7.4 million in connection with the revaluation of our €700.0 million senior notes which have been designated as a hedge of our net investment in foreign operations. In the 2015 period, other comprehensive loss from foreign currency translation adjustments was \$67.5 million, mainly as a result of unfavorable movements in the British Pound Sterling of approximately \$30 million, the Brazilian Real of approximately \$18 million, the Chinese Renminbi of approximately \$7 million, the Korean Won of approximately \$7 million, and a net unfavorable variance in various other currencies totaling approximately \$29 million (each approximately \$5 million or less), partially offset by a favorable movement in the European Union Euro of approximately \$25 million. Also included in total other comprehensive loss for the 2015 period is a loss of \$3.4 million in connection with the revaluation of our €700.0 million senior notes which have been designated as a hedge of our net investment in foreign operations.

Segment Information Overview. We have identified three reportable segments according to the nature and economic characteristics of our products as well as the manner in which the information is used internally by the Company's chief operating decision maker to evaluate performance and make resource allocation decisions. Our reportable business segments consist of: (1) Lithium and Advanced Materials, (2) Bromine Specialties and (3) Refining Solutions.

Summarized financial information concerning our reportable segments is shown in the following tables. Results for 2015 have been recast to reflect the change in segments previously noted. The "All Other" category is comprised of three operating

Table of Contents

segments that do not fit into any of our core businesses subsequent to the acquisition of Rockwood: minerals-based flame retardants and specialty chemicals, fine chemistry services and metal sulfides. During the first quarter of 2016, we completed the sales of the metal sulfides business and the minerals-based flame retardants and specialty chemicals business.

The Corporate category is not considered to be a segment and includes corporate-related items not allocated to the reportable segments. Pension and OPEB service cost (which represents the benefits earned by active employees during the period) and amortization of prior service cost or benefit are allocated to the segments, All Other, and Corporate, whereas the remaining components of pension and OPEB benefits cost or credit ("Non-operating pension and OPEB items") are included in Corporate. Segment data includes intersegment transfers of raw materials at cost and allocations for certain corporate costs.

The Company's chief operating decision maker uses earnings before interest, taxes, depreciation and amortization, as adjusted on a consistent basis for certain non-recurring or unusual items such as acquisition and integration related costs, utilization of inventory markup, gains or losses on sales of businesses, restructuring charges, facility divestiture charges, non-operating pension and OPEB items and other significant non-recurring items ("adjusted EBITDA"), in a balanced manner and on a segment basis to assess the ongoing performance of the Company's business segments and to allocate resources. In addition, management uses adjusted EBITDA for business planning purposes and as a significant component in the calculation of performance-based compensation for management and other employees. The Company has reported adjusted EBITDA because management believes it provides transparency to investors and enables period-to-period comparability of financial performance. Adjusted EBITDA is a financial measure that is not required by, or presented in accordance with, U.S. GAAP. Adjusted EBITDA should not be considered as an alternative to Net income (loss) attributable to Albemarle Corporation, the most directly comparable financial measure calculated and reported in accordance with U.S. GAAP, or any other financial measure reported in accordance with U.S. GAAP.

(a) See “Acquisition and Integration Related Costs” on page 33 for a description of these costs.

(b) Includes the write-off of fixed assets of \$1.4 million included in Research and development expenses, partially offset by a net gain of \$0.9 million on the sales of properties included in Other income, net.

In connection with the acquisition of Rockwood, the Company valued Rockwood’s existing inventory at fair value as of the Acquisition Closing Date, which resulted in a markup of the underlying net book value of the inventory totaling approximately \$103.4 million. The inventory markup was expensed over the estimated remaining selling period. For the three-month period ended September 30, 2015, \$7.7 million was included in Cost of goods sold, and Equity in net income of unconsolidated investments was reduced by \$9.1 million, related to the utilization of the inventory markup.

(d) See “Restructuring and Other, Net” on page 33 for a description of these costs.

Lithium and Advanced Materials

Lithium and Advanced Materials segment net sales for the three-month period ended September 30, 2016 were \$240.4 million, up \$31.6 million, or 15%, in comparison to the same period in 2015. The increase was primarily driven by \$20.1 million of favorable Lithium price impacts due primarily to price increases in our battery grade lithium

carbonate and hydroxide applications, \$16.8 million of favorable Lithium sales volumes due to market demand, and \$1.5 million of favorable currency translation impacts, partially offset by \$6.8 million of unfavorable PCS volume and price impacts due primarily to weakness in the curatives market and the bankruptcy filing of one of our customers. Adjusted EBITDA for Lithium and Advanced Materials was up 18%, or \$14.3 million, to \$91.7 million for the three-month period ended September 30, 2016, compared to the same period in 2015, primarily due to higher overall sales volumes, favorable pricing and \$1.2 million of favorable currency translation impacts.

Bromine Specialties

Bromine Specialties segment net sales for the three-month period ended September 30, 2016 were \$194.5 million, up \$3.8 million, or 2%, in comparison to the same period in 2015. The increase was driven mainly by \$13.9 million of higher sales

Table of Contents

volumes due to market demand and \$1.7 million of favorable impacts from currency translation, partially offset by \$11.8 million unfavorable price impacts. Adjusted EBITDA for Bromine Specialties was down 12%, or \$7.0 million, to \$51.8 million for the three-month period ended September 30, 2016, compared to the same period in 2015, primarily due to unfavorable sales mix and price impacts offset partly by lower variable and fixed costs and \$1.3 million of favorable impacts from currency translation.

Refining Solutions

Refining Solutions segment net sales for the three-month period ended September 30, 2016 were \$190.5 million, an increase of \$5.4 million, or 3%, compared to the three-month period ended September 30, 2015. This increase was primarily due to \$10.8 million of higher Clean Fuels Technology volumes and \$3.9 million of favorable Clean Fuels Technology price impacts due to market conditions, partially offset by \$7.5 million of lower Heavy Oil Upgrading volumes and \$0.5 million of unfavorable currency exchange impacts. Refining Solutions adjusted EBITDA increased 19%, or \$10.4 million, to \$65.0 million for the three-month period ended September 30, 2016 in comparison to the corresponding period of 2015. This increase was due primarily to higher overall sales volumes, an improved Clean Fuels Technology sales mix, and \$1.6 million of lower variable and fixed costs.

All Other

On January 4, 2016, we closed the sale of the metal sulfides business, and on February 1, 2016, we closed the sale of the minerals-based flame retardants and specialty chemicals business. The divestiture of these businesses reduced net sales and adjusted EBITDA for the third quarter of 2016 as compared to the prior year period by \$73.3 million and \$8.7 million, respectively.

All Other net sales for the three-month period ended September 30, 2016 were \$28.3 million, a decrease of \$74.0 million, or 72%, compared to the three-month period ended September 30, 2015. Excluding the impact of the divested businesses noted above, All Other net sales decreased by \$0.7 million due to unfavorable fine chemistry services pricing impacts, partially offset by higher sales volumes. All Other adjusted EBITDA was down 13%, or \$0.8 million, for the three-month period ended September 30, 2016 in comparison to the corresponding period of 2015. Excluding the impact of the divested businesses noted above, All Other adjusted EBITDA increased by \$7.9 million due to favorable raw material and utility prices, lower SG&A expenses, and higher sales volumes, partially offset by unfavorable pricing impacts for fine chemistry services.

Corporate

Corporate adjusted EBITDA was a loss of \$25.6 million for the three-month period ended September 30, 2016, compared to a loss of \$16.3 million for the corresponding period of 2015. The change was primarily due to timing of SG&A expenses, as well as increased compensation costs.

Table of Contents

Net Sales

For the nine-month period ended September 30, 2016, we recorded net sales of \$2.0 billion, a decrease of \$123.3 million, or 6%, compared to net sales of \$2.1 billion for the nine-month period ended September 30, 2015. On January 4, 2016, we closed the sale of the metal sulfides business and on February 1, 2016, we closed the sale of the minerals-based flame retardants and specialty chemicals business. The divestiture of these businesses reduced net sales by \$194.4 million as compared to the nine-month period ended September 30, 2015. Excluding the impact of the divested businesses noted above, net sales increased by \$71.1 million due to \$67.8 million of higher volumes due to market demand, and \$4.9 million of favorable price impacts partially offset by \$1.6 million of unfavorable currency exchange impacts.

Gross Profit

For the nine-month period ended September 30, 2016, our gross profit increased \$107.2 million, or 17%, from the corresponding 2015 period. Gross profit includes charges of \$55.3 million in the nine-month period ended September 30, 2015 for the utilization of the inventory markup recorded as part of purchase accounting for the acquisition of Rockwood. The divestiture of our metal sulfides and minerals-based flame retardants businesses in the first quarter of 2016 reduced gross profit by \$28.9 million as compared to the nine-month period ended September 30, 2015. Excluding the inventory markup charges and the impact of divestitures, gross profit increased by \$80.8 million, or 11.9%, due primarily to higher overall sales volumes, favorable pricing impacts, and \$27.7 million in lower variable and fixed costs. Overall, these factors contributed to a higher gross profit margin for the nine-month period ended September 30, 2016 of 36.8%, up from 29.6% in the corresponding period in 2015. Excluding the inventory markup charges and the impact of divestitures, gross profit margin was 37.4% for the nine-month period ended September 30, 2016 as compared to 34.5% in the corresponding period in 2015.

Selling, General and Administrative Expenses

For the nine-month period ended September 30, 2016, our SG&A expenses increased \$2.3 million, or 1%, from the nine-month period ended September 30, 2015. The increase is primarily due to a \$2.3 million decrease in non-operating pension and OPEB gains and an increase in compensation costs, partially offset by a reduction in SG&A costs associated with the divested businesses. As a percentage of net sales, SG&A expenses were 12.9% for the nine-month period ended September 30, 2016, compared to 12.0% for the corresponding period in 2015.

Research and Development

For the nine-month period ended September 30, 2016, our R&D expenses decreased \$5.9 million, or 9%, from the nine-month period ended September 30, 2015. As a percentage of net sales, R&D expenses were 3.1% and 3.2% for the nine-month periods ended September 30, 2016 and 2015, respectively.

Restructuring and Other, Net

Included in Restructuring and other, net, for the nine-month period ended September 30, 2015 is a gain of \$6.8 million (\$4.7 million after income taxes) recognized upon the sale of land in Avonmouth, UK, which was utilized by the phosphorus flame retardants business we exited in 2012.

Gain on Sales of Businesses, Net

The nine-month period ended September 30, 2016 includes gains before income taxes of \$11.5 million and \$112.3 million related to the sales of the metal sulfides business and the minerals-based flame retardants and specialty chemicals business, respectively, both of which closed in the first quarter of 2016. In addition, Gain on sales of businesses, net, for the nine-month period ended September 30, 2016 includes a loss of \$1.5 million on the sale of our wafer reclaim business.

Acquisition and Integration Related Costs

The nine-month period ended September 30, 2016 includes \$42.4 million of integration costs resulting from the acquisition of Rockwood (mainly consisting of professional services, costs to achieve synergies, relocation costs, and other integration costs) and \$1.9 million of costs in connection with other significant projects. The nine-month period ended September 30, 2015 includes \$111.2 million of acquisition and integration related costs directly related to the acquisition of Rockwood and \$6.0 million of costs in connection with other significant projects.

Interest and Financing Expenses

Interest and financing expenses for the nine-month period ended September 30, 2016 decreased \$15.3 million to \$46.9 million from the corresponding 2015 period, due mainly to lower debt levels as well as the favorable impact of the refinancing of the senior notes assumed from Rockwood that was completed on October 15, 2015.

Table of Contents

Other Income, Net

Other income, net, for the nine-month period ended September 30, 2016 was \$0.7 million versus \$50.2 million for the corresponding 2015 period. The change was primarily due to \$54.1 million of favorable foreign currency translation gains in 2015. The foreign currency gains were primarily related to cash denominated in U.S. Dollars held by foreign subsidiaries where the European Union Euro serves as the functional currency. This was partially offset by a \$2.9 million gain in the fair value of our investment in private equity securities recorded during the third quarter of 2016 and \$4.4 million in amortization of bridge facility fees and other financing fees related to the acquisition of Rockwood recorded in 2015.

Income Tax Expense

The effective income tax rate for the first nine months of 2016 was 13.8% compared to 23.2% for the first nine months of 2015. Our effective income tax rate differs from the U.S. federal statutory income tax rates in the comparative periods primarily due to the impact of earnings from outside the U.S. The decrease in the effective tax rate for the nine-month period ended September 30, 2016 compared to the same period in 2015 is primarily driven by income of \$122.3 million from the sales of businesses with associated tax expense of \$6.7 million, that was subject to tax at a rate below our effective tax rate and changes in impacts of earnings from outside the U.S.

Equity in Net Income of Unconsolidated Investments

Equity in net income of unconsolidated investments was \$44.8 million for the nine-month period ended September 30, 2016 compared to \$20.0 million in the same period last year. Equity in net income of unconsolidated investments for the nine-month period ended September 30, 2015 includes a \$26.9 million charge for utilization of fair value adjustments to inventories in connection with the Rockwood acquisition. Excluding this charge, equity in net income of unconsolidated investments decreased by \$2.1 million primarily due to the sale of our ownership interest in Magnifin Magnesiaprodukte GmbH during the nine-month period ended September 30, 2016. This was partially offset by higher equity income reported by our Refining Solutions segment joint venture Nippon Ketjen Company Limited primarily due to higher sales volumes.

(Loss) income from Discontinued Operations

(Loss) income from discontinued operations, after income taxes, was (\$357.8) million for the nine-month period ended September 30, 2016 compared to \$19.1 million in the same period last year. The change was primarily due to a non-recurring, non-cash tax charge of \$411.3 million related to the change in the Company's assertion over book and tax basis differences for certain entities included in the sale of the Chemetall Surface Treatment business recorded in 2016, no depreciation and amortization expense in the three-month period ended September 30, 2016 because of discontinued operations accounting and a \$20.0 million charge of fair value adjustments to inventories in connection with the Rockwood acquisition in 2015, partially offset by favorable sales prices and volumes due to market demand, as well as lower interest expense.

Net Income Attributable to Noncontrolling Interests

For the nine-month period ended September 30, 2016, net income attributable to noncontrolling interests was \$28.9 million compared to \$16.7 million in the same period last year. This increase of \$12.2 million was due primarily to an increase in consolidated income related to our Jordanian joint venture from higher sales volumes.

Net Income Attributable to Albemarle Corporation

Net income attributable to Albemarle Corporation decreased to \$41.6 million in the nine-month period ended September 30, 2016, from \$160.7 million in the nine-month period ended September 30, 2015. The nine-month period ended September 30, 2015 includes a \$64.4 million charge after income taxes for utilization of fair value adjustments to inventories and the current year includes a non-recurring, non-cash tax charge of \$411.3 million related to the decision sell the Chemetall Surface Treatment business and a \$115.6 million gain after income taxes on sales of businesses. Excluding these items, net income attributable to Albemarle increased by \$112.2 million. The increase was primarily due to higher gross profit associated with stronger business results, a reduction in acquisition and integration costs, lower interest associated with lower debt levels and the favorable impact of the refinancing that was completed on October 15, 2015, and a lower overall effective tax rate, partially offset by \$54.1 million of favorable foreign currency translation gains in 2015 related to cash denominated in U.S. Dollars held by foreign subsidiaries where the European Union Euro serves as the functional currency and the impact of the divestitures.

Other Comprehensive Income (Loss), Net of Tax

Total other comprehensive income (loss), after income taxes, was \$87.3 million for the nine-month period ended September 30, 2016 compared to (\$324.5) million for the corresponding period in 2015. The majority of these amounts were the result of translating our foreign subsidiary financial statements from their local currencies to U.S. Dollars. In the 2016 period, other comprehensive income from foreign currency translation adjustments was \$95.4 million, mainly as a result of favorable movements in the European Union Euro of approximately \$82 million, the Brazilian Real of approximately \$14

Table of Contents

million, the Korean Won of approximately \$7 million, the Japanese Yen of approximately \$6 million and a net favorable variance in various other currencies totaling approximately \$11 million (each approximately \$4 million or less), partially offset by unfavorable movements in the British Pound Sterling of approximately \$19 million and the Chinese Renminbi of approximately \$5 million. Also included in total other comprehensive income for the 2016 period is a loss of \$10.3 million in connection with the revaluation of our €700.0 million senior notes which have been designated as a hedge of our net investment in foreign operations. In the 2015 period, other comprehensive loss from foreign currency translation adjustments was \$365.8 million, mainly as a result of unfavorable movements in the European Union Euro of approximately \$226 million, the British Pound Sterling of approximately \$55 million, the Brazilian Real of approximately \$30 million, the Turkish Lira of approximately \$12 million, the Korean Won of approximately \$10 million, the Chinese Renminbi of approximately \$6 million, the South African Rand of approximately \$6 million and a net unfavorable variance in various other currencies totaling approximately \$20 million (each approximately \$5 million or less). Also included in total other comprehensive loss for the 2015 period is income of \$39.7 million in connection with the revaluation of our €700.0 million senior notes which have been designated as a hedge of our net investment in foreign operations.

Segment Information Overview. Summarized financial information concerning our reportable segments is shown in the following tables. Results for 2015 have been recast to reflect the change in segments previously noted. The “All Other” category is comprised of three operating segments that do not fit into any of our core businesses subsequent to the acquisition of Rockwood: minerals-based flame retardants and specialty chemicals, fine chemistry services and metal sulfides. During the first quarter of 2016, we completed the sales of the metal sulfides business and the minerals-based flame retardants and specialty chemicals business.

The Corporate category is not considered to be a segment and includes corporate-related items not allocated to the reportable segments. Pension and OPEB service cost (which represents the benefits earned by active employees during the period) and amortization of prior service cost or benefit are allocated to the segments, All Other, and Corporate, whereas the remaining components of pension and OPEB benefits cost or credit (“Non-operating pension and OPEB items”) are included in Corporate. Segment data includes intersegment transfers of raw materials at cost and allocations for certain corporate costs.

The Company’s chief operating decision maker uses earnings before interest, taxes, depreciation and amortization, as adjusted on a consistent basis for certain non-recurring or unusual items such as acquisition and integration related costs, utilization of inventory markup, gains or losses on sales of businesses, restructuring charges, facility divestiture charges, non-operating pension and OPEB items and other significant non-recurring items (“adjusted EBITDA”), in a balanced manner and on a segment basis to assess the ongoing performance of the Company’s business segments and to allocate resources. In addition, management uses adjusted EBITDA for business planning purposes and as a significant component in the calculation of performance-based compensation for management and other employees. The Company has reported adjusted EBITDA because management believes it provides transparency to investors and enables period-to-period comparability of financial performance. Adjusted EBITDA is a financial measure that is not required by, or presented in accordance with, U.S. GAAP. Adjusted EBITDA should not be considered as an alternative to Net income (loss) attributable to Albemarle Corporation, the most directly comparable financial measure calculated and reported in accordance with U.S. GAAP, or any other financial measure reported in accordance with U.S. GAAP.

(a) See “Gain on Sales of Businesses, Net” on page 39 for a description of these items.

(b) See “Acquisition and Integration Related Costs” on page 39 for a description of these costs.

(c) Includes the write-off of fixed assets of \$1.4 million included in Research and development expenses, partially offset by a net gain of \$0.9 million on the sales of properties included in Other income, net.

(d) In connection with the acquisition of Rockwood, the Company valued Rockwood’s existing inventory at fair value as of the Acquisition Closing Date, which resulted in a markup of the underlying net book value of the inventory totaling approximately \$103.4 million. The inventory markup was expensed over the estimated remaining selling period. For the nine-month period ended September 30, 2015, \$55.4 million was included in Cost of goods sold,

and Equity in net income of unconsolidated investments was reduced by \$26.9 million, related to the utilization of the inventory markup.

(e) See “Restructuring and Other, Net” on page 39 for a description of these items.

(f) Financing-related fees expensed in connection with the acquisition of Rockwood.

Lithium and Advanced Materials

Lithium and Advanced Materials segment net sales for the nine-month period ended September 30, 2016 were \$690.0 million, up \$69.4 million, or 11%, in comparison to the same period in 2015. The increase was primarily driven by \$61.1 million of favorable Lithium sales volumes due to market demand and \$30.3 million of favorable Lithium price impacts due primarily to price increases in our battery grade lithium carbonate and hydroxide applications, partially offset by \$21.8 million of unfavorable PCS volume and price impacts due primarily to weakness in the curatives market and the bankruptcy filing of one of our customers, and \$0.2 million of unfavorable currency translation impacts. Adjusted EBITDA for Lithium and Advanced Materials was up 11%, or \$25.9 million, to \$260.9 million for the nine-month period ended September 30, 2016, compared to the same period in 2015, primarily due to higher overall sales volumes and favorable price impacts.

Table of Contents

Bromine Specialties

Bromine Specialties segment net sales for the nine-month period ended September 30, 2016 were \$597.9 million, down \$6.4 million, or 1%, in comparison to the same period in 2015. The decrease was driven mainly by \$8.9 million of unfavorable price impacts, partially offset by \$1.4 million of higher sales volumes due to market demand and \$1.2 million of currency translation impacts. Adjusted EBITDA for Bromine Specialties was down less than 1%, or \$0.5 million, to \$180.0 million for the nine-month period ended September 30, 2016, compared to the same period in 2015, primarily due to unfavorable sales mix and price impacts, partially offset by \$12.9 million of lower variable and fixed costs and \$1.3 million of favorable currency translation impacts.

Refining Solutions

Refining Solutions segment net sales for the nine-month period ended September 30, 2016 were \$539.0 million, an increase of \$10.2 million, or 2%, compared to the nine-month period ended September 30, 2015. This increase was primarily due to \$11.8 million of higher Heavy Oil Upgrading volumes due to continued strong demand partly offset by \$2.6 million of unfavorable currency translation impacts. Refining Solutions adjusted EBITDA increased 25%, or \$36.7 million, to \$181.6 million for the nine-month period ended September 30, 2016 in comparison to the corresponding period of 2015. This increase was due primarily to \$15.4 million of lower variable and fixed costs, higher Heavy Oil Upgrading volumes, and a favorable Clean Fuels Technology sales mix impact.

All Other

On January 4, 2016, we closed the sale of the metal sulfides business, and on February 1, 2016, we closed the sale of the minerals-based flame retardants and specialty chemicals business. The divestiture of these businesses reduced net sales and adjusted EBITDA for the nine-month period ended September 30, 2016 as compared to the prior year period by \$194.4 million and \$26.4 million, respectively.

All Other net sales for the nine-month period ended September 30, 2016 were \$151.0 million, a decrease of \$187.0 million, or 55%, compared to the nine-month period ended September 30, 2015. Excluding the impact of the divested businesses noted above, All Other net sales increased by \$7.4 million due to higher sales volumes from the fine chemistry services business. All Other adjusted EBITDA was down 50%, or \$14.7 million, for the nine-month period ended September 30, 2016 in comparison to the corresponding period of 2015. Excluding the impact of the divested businesses noted above, All Other adjusted EBITDA increased by \$11.7 million due to higher overall sales volumes and lower raw material costs from the fine chemistry services business.

Corporate

Corporate adjusted EBTIDA was a loss of \$66.4 million for the nine-month period ended September 30, 2016, compared to a loss of \$8.4 million for the corresponding period of 2015. The change was primarily due to \$54.1 million of foreign currency translation gains in 2015 and \$3.1 million of foreign currency translation losses in 2016.

Financial Condition and Liquidity

Overview

The principal uses of cash in our business generally have been capital investments, funding working capital, acquisitions and repayment of debt. We also make contributions to our defined benefit pension plans, pay dividends to our shareholders and repurchase shares of our common stock. Historically, cash to fund the needs of our business has been principally provided by cash from operations, debt financing and equity issuances.

We are continually focused on working capital efficiency particularly in the areas of accounts receivable and inventory. We anticipate that cash on hand, cash provided by operating activities, divestitures and long-term borrowings will be sufficient to pay our operating expenses, satisfy debt service obligations, fund capital expenditures and other investing activities, fund pension contributions and pay dividends for the foreseeable future.

Cash Flow

During the first nine months of 2016, cash on hand, cash provided by operations and \$310.6 million of net proceeds from divestitures funded \$382.7 million of debt repayments, \$141.3 million of capital expenditures for plant, machinery and equipment, and dividends to shareholders of \$101.1 million. Our operations provided \$452.4 million of cash flows during the first nine months of 2016, as compared to \$316.9 million for the first nine months of 2015. Our cash from operations included an outflow from working capital changes of \$79.7 million, primarily due to tax

payments made during the year and the increase in receivables from higher sales in certain regions with longer payment terms. Overall, our cash and cash equivalents increased by approximately \$19.9 million to \$233.6 million at September 30, 2016, up from \$213.7 million at December 31, 2015.

Table of Contents

Net current assets were \$480.9 million and \$214.3 million at September 30, 2016 and December 31, 2015, respectively, with the increase being largely due to the reduction in the current portion of long-term debt using proceeds from divestitures completed in the first quarter of 2016. Included in net current assets at September 30, 2016 and December 31, 2015 is \$119.8 million and \$312.3 million, respectively, of assets held for sale, net of related liabilities. Other changes in the components of net current assets are due to the timing of the sale of goods and other normal transactions leading up to the balance sheet dates and are not the result of any policy changes by the Company, nor do they reflect any change in either the quality of our net current assets or our expectation of success in converting net working capital to cash in the normal course of business.

Capital expenditures for the nine-month period ended September 30, 2016 of \$141.3 million, \$15.5 million of which related to discontinued operations, were associated with property, plant and equipment additions. We expect our capital expenditures to approximate \$185 million from continuing operations in 2016 for capacity increases, cost reduction and continuity of operations projects.

On June 17, 2016, we entered into a definitive agreement to sell the Chemetall Surface Treatment business to BASF SE for proceeds of approximately \$3.2 billion in cash, subject to adjustment with respect to certain pension liabilities, cash, working capital and indebtedness. We intend to use the proceeds to significantly reduce leverage, invest heavily in growth in remaining businesses and return capital to shareholders. In connection with the agreement to sell the Chemetall Surface Treatment business, we have recorded a deferred tax liability of \$411.3 million related to the outside basis difference of the investment in this business. The sale is expected to close in the fourth quarter of 2016, at which time, any difference between the sales price and the proportionate carrying value of the interests being sold would be recognized and will become a cash liability.

On February 26, 2016, we increased our quarterly dividend rate to \$0.305 per share, a 5% increase from the quarterly rate of \$0.29 per share paid in 2015.

At September 30, 2016 and December 31, 2015, our cash and cash equivalents included \$228.9 million and \$200.7 million, respectively, held by our foreign subsidiaries. For our continuing operations, the majority of these foreign cash balances are associated with earnings that we have asserted are indefinitely invested and which we plan to use to support our continued growth plans outside the U.S. through funding of capital expenditures, acquisitions, research, operating expenses or other similar cash needs of our foreign operations. As a result of the agreement to sell the Chemetall Surface Treatment business, our assertion of indefinite reinvestment of the earnings of the foreign Chemetall Surface Treatment businesses changed, and resulted in a discrete non-cash charge of \$29.8 million in 2016. From time to time, we repatriate cash associated with earnings from our foreign subsidiaries to the U.S. for normal operating needs through intercompany dividends, but only from subsidiaries whose earnings we have not asserted to be indefinitely invested or whose earnings qualify as “previously taxed income” as defined by the Internal Revenue Code. During the first nine months of 2016 and 2015, we repatriated approximately \$27.3 million and \$122.4 million of cash, respectively, as part of these foreign cash repatriation activities.

While we continue to closely monitor our cash generation, working capital management and capital spending in light of continuing uncertainties in the global economy, we believe that we will continue to have the financial flexibility and capability to opportunistically fund future growth initiatives. Additionally, we anticipate that future capital spending including business acquisitions, share repurchases and other cash outlays should be financed primarily with cash flow provided by operations and cash on hand, with additional cash needed, if any, provided by borrowings. The amount and timing of any additional borrowings will depend on our specific cash requirements.

Long-Term Debt

We currently have the following senior notes outstanding:

Issue Month/Year	Principal (in millions)	Interest Rate	Interest Payment Dates	Maturity Date
December 2014	€700.0	1.875%	December 8	December 8, 2021
November 2014	\$250.0	3.00%	June 1 December 1	December 1, 2019
November 2014	\$425.0	4.15%	June 1 December 1	December 1, 2024
November 2014	\$350.0	5.45%	June 1 December 1	December 1, 2044
December 2010	\$350.0	4.50%	June 15 December 15	December 15, 2020

Our senior notes are senior unsecured obligations and rank equally with all our other outstanding senior unsecured indebtedness. The senior notes are effectively subordinated to any of our existing or future secured indebtedness and to the existing and future indebtedness of our subsidiaries. As is customary for such long-term debt instruments, each senior note has terms that allow us to redeem it before its maturity, in whole at any time or in part from time to time, at a redemption price

Table of Contents

equal to the greater of (i) 100% of the principal amount of the senior notes to be redeemed, or (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis using the comparable government rate (as defined in the indentures governing the senior notes) plus between 25 and 40 basis points, depending on the note, plus, in each case, accrued interest thereon to the date of redemption. Holders may require us to purchase such notes at 101% upon a change of control triggering event, as defined in the indentures. The senior notes are subject to typical events of default, including bankruptcy and insolvency events, nonpayment and the acceleration of certain subsidiary indebtedness of \$40 million or more caused by a nonpayment default.

The Company entered into a new term loan agreement with JPMorgan Chase Bank, N.A. (the “Administrative Agent”) and certain other lenders on September 14, 2015 (the “September 2015 Term Loan Agreement”). The September 2015 Term Loan Agreement provided for borrowings under a 364-day term loan facility (the “364-Day Facility”) and a five-year term loan facility (the “Five-Year Facility”). During the nine-month period ended September 30, 2016, we repaid the 364-Day Facility in full and we repaid \$81 million of borrowings under the Five-Year Facility, each primarily with proceeds from the sale of the Company’s metal sulfides business and the sale of the Company’s minerals-based flame retardants and specialty chemicals business, both of which closed in the first quarter of 2016. As of September 30, 2016, the aggregate amount outstanding under the Five-Year Facility was \$869.0 million, excluding unamortized debt issuance costs. Borrowings under the facilities bear interest equal to, at the option of the Company: (a) the London Inter-Bank Offered Rate (“LIBOR”) plus a margin ranging from 1.000% to 1.875% per annum depending upon the long-term, unsecured, senior, non-credit enhanced debt rating of the Company, or (b) a base rate (defined as the highest of (i) the Federal Funds Rate plus 0.50%; (ii) the rate of interest in effect for such day as publicly announced from time to time by the Administrative Agent as its “prime rate”; or (iii) one-month LIBOR plus 1.00%) plus a margin of 0.000% to 0.875% per annum depending upon the long-term, unsecured, senior, non-credit enhanced debt rating of the Company. As of September 30, 2016, the interest rate on the Five-Year Facility was LIBOR plus 1.375%.

Borrowings under the Five-Year Facility are required to be repaid in equal quarterly installments on the last business day of each March, June, September and December, beginning with September 30, 2016, and ending with the last such day to occur prior to the fifth anniversary after initial funding (each a “Payment Date”), in an aggregate principal amount equal to (a) in the case of each Payment Date occurring on or after the first anniversary and prior to the second anniversary of initial funding, 1.25% of the aggregate principal amount of such loans, and (b) in the case of each Payment Date occurring on or after the second anniversary of initial funding, equal to 2.5% of the aggregate principal amount of such loans. As a result of the repayments to the Five-Year Facility noted above, we will not be required to make a quarterly installment until December 31, 2017. On the fifth anniversary after initial funding, any remaining amounts outstanding under the Five-Year Facility become due and payable. Borrowings under the September 2015 Term Loan Agreement are subject to customary affirmative and negative covenants, including a maximum leverage ratio requirement that is aligned with the maximum leverage ratio requirement of our February 2014 Credit Agreement.

Our revolving, unsecured credit agreement dated as of February 7, 2014, as amended, (the “February 2014 Credit Agreement”) currently provides for borrowings of up to \$1.0 billion and matures on February 7, 2020. Borrowings bear interest at variable rates based on the LIBOR for deposits in the relevant currency plus an applicable margin which ranges from 1.000% to 1.700%, depending on the Company’s credit rating from Standard & Poor’s Ratings Services, Moody’s Investors Services and Fitch Ratings. The applicable margin on the facility was 1.300% as of September 30, 2016. There were no borrowings outstanding under the February 2014 Credit Agreement as of September 30, 2016. Borrowings under the February 2014 Credit Agreement are conditioned upon compliance with the following covenants: (a) consolidated funded debt, as defined in the agreement, must be less than or equal to 3.50 times consolidated EBITDA, as defined in the agreement, which reflects adjustments for certain non-recurring or unusual items such as acquisition and integration related costs, utilization of inventory markup, gains or losses on sales of businesses, restructuring charges, facility divestiture charges and other significant non-recurring items (herein “consolidated adjusted EBITDA” or “adjusted EBITDA”) as of the end of any fiscal quarter; (b) with the exception of certain liens as specified in the agreement, liens may not attach to assets when the aggregate amount of all

indebtedness secured by such liens plus unsecured subsidiary indebtedness, other than indebtedness incurred by our subsidiaries under the February 2014 Credit Agreement, would exceed 20% of consolidated net worth, as defined in the agreement; and (c) with the exception of certain indebtedness as specified in the agreement, subsidiary indebtedness may not exceed the difference between 20% of consolidated net worth, as defined in the agreement, and indebtedness secured by liens permitted under the agreement. On August 15, 2014, certain amendments were made to the February 2014 Credit Agreement which includes, among other things, an increase in the maximum leverage ratio (as described above) from 3.50 to 4.50 for the first four quarters following the completion of the acquisition of Rockwood, stepping down by 0.25 on a quarterly basis thereafter until reaching 3.50.

Table of Contents

On May 29, 2013, we entered into agreements to initiate a commercial paper program on a private placement basis under which we may issue unsecured commercial paper notes (the “Commercial Paper Notes”) from time-to-time up to a maximum aggregate principal amount outstanding at any time of \$750.0 million. The proceeds from the issuance of the Commercial Paper Notes are used for general corporate purposes, including the repayment of other debt of the Company. Our February 2014 Credit Agreement is available to repay the Commercial Paper Notes, if necessary. Aggregate borrowings outstanding under the February 2014 Credit Agreement and the Commercial Paper Notes will not exceed the \$1.0 billion current maximum amount available under the February 2014 Credit Agreement. The Commercial Paper Notes may be sold at a discount from par, or alternatively, at par, and bear interest at rates that varies based upon market conditions at the time of issuance. The maturities of the Commercial Paper Notes vary but may not exceed 397 days from the date of issue. The definitive documents relating to the commercial paper program contain customary representations, warranties, default and indemnification provisions. At September 30, 2016, we had \$400.9 million of Commercial Paper Notes outstanding bearing a weighted-average interest rate of approximately 1.38% and a weighted-average maturity of 39 days. The Commercial Paper Notes are classified as Current portion of long-term debt in our condensed consolidated balance sheets at September 30, 2016 and December 31, 2015. The non-current portion of our long-term debt was \$3.0 billion at September 30, 2016 and \$3.1 billion at December 31, 2015. In addition, at September 30, 2016, we had the ability to borrow \$599.1 million under our commercial paper program and the February 2014 Credit Agreement, and \$223.7 million under other existing lines of credit, subject to various financial covenants under our February 2014 Credit Agreement. We have the ability and intent to refinance our borrowings under our other existing credit lines with borrowings under the February 2014 Credit Agreement, as applicable. Therefore, the amounts outstanding under those credit lines, if any, are classified as long-term debt. We believe that as of September 30, 2016, we were, and currently are, in compliance with all of our debt covenants.

Off-Balance Sheet Arrangements

In the normal course of business with customers, vendors and others, we have entered into off-balance sheet arrangements, including bank guarantees and letters of credit, which totaled approximately \$60.0 million at September 30, 2016. None of these off-balance sheet arrangements has, or is likely to have, a material effect on our current or future financial condition, results of operations, liquidity or capital resources.

Other Obligations

Total expected 2016 contributions to our domestic and foreign qualified and nonqualified pension plans from continuing and discontinued operations, including our SERP, approximate \$16.6 million. We may choose to make additional pension contributions in excess of this amount. We have made contributions of \$11.4 million to our domestic and foreign pension plans (both qualified and nonqualified) during the nine-month period ended September 30, 2016.

The liability related to uncertain tax positions, including interest and penalties, recorded in Other noncurrent liabilities totaled \$99.1 million at September 30, 2016 and \$101.7 million at December 31, 2015. Related assets for corresponding offsetting benefits recorded in Other assets totaled \$50.7 million at September 30, 2016 and \$50.9 million at December 31, 2015. We cannot estimate the amounts of any cash payments associated with these liabilities for the remainder of 2016 or the next twelve months, and we are unable to estimate the timing of any such cash payments in the future at this time.

We are subject to federal, state, local and foreign requirements regulating the handling, manufacture and use of materials (some of which may be classified as hazardous or toxic by one or more regulatory agencies), the discharge of materials into the environment and the protection of the environment. To our knowledge, we are currently complying and expect to continue to comply in all material respects with applicable environmental laws, regulations, statutes and ordinances. Compliance with existing federal, state, local and foreign environmental protection laws is not expected to have a material effect on capital expenditures, earnings or our competitive position, but the costs associated with increased legal or regulatory requirements could have an adverse effect on our results.

Among other environmental requirements, we are subject to the federal Superfund law, and similar state laws, under which we may be designated as a potentially responsible party (“PRP”) and may be liable for a share of the costs associated with cleaning up various hazardous waste sites. Management believes that in cases in which we may have

liability as a PRP, our liability for our share of cleanup is de minimis. Further, almost all such sites represent environmental issues that are quite mature and have been investigated, studied and in many cases settled. In de minimis situations, our policy generally is to negotiate a consent decree and to pay any apportioned settlement, enabling us to be effectively relieved of any further liability as a PRP, except for remote contingencies. In other than de minimis PRP matters, our records indicate that unresolved PRP exposures should be immaterial. We accrue and expense our proportionate share of PRP costs. Because management has been actively involved in evaluating environmental matters, we are able to conclude that the outstanding environmental liabilities for unresolved PRP sites should not have a material adverse effect upon our results of operations or financial condition.

Liquidity Outlook

We anticipate that cash on hand, cash provided by operating activities, divestitures and borrowings will be sufficient to pay our operating expenses, satisfy debt service obligations, fund any capital expenditures and share repurchases, make pension contributions and pay dividends for the foreseeable future. Our main focus over the next three years, in terms of uses of cash, will be deleveraging to restore our borrowings to more normal levels, capital expenditures for business growth and capturing synergies related to the integration of Rockwood. Additionally, we will continue to evaluate the merits of any opportunities that may arise for acquisitions of businesses or assets, which may require additional liquidity.

Our cash flows from operations may be negatively affected by adverse consequences to our customers and the markets in which we compete as a result of moderating global economic conditions and reduced capital availability.

While we maintain business relationships with a diverse group of financial institutions, an adverse change in their credit standing could lead them to not honor their contractual credit commitments, decline funding under existing but uncommitted lines of credit, not renew their extensions of credit or not provide new financing. While the global corporate bond and bank loan markets remain strong, periods of elevated uncertainty related to global economic and/or geopolitical concerns may limit efficient access to such markets for extended periods of time. If such concerns heighten, we may incur increased borrowing costs and reduced credit capacity as our various credit facilities mature. When the U.S. Federal Reserve or similar national reserve banks in other countries decide to tighten the monetary supply in response, for example, to improving economic conditions, we may incur increased borrowing costs as interest rates increase on our variable rate credit facilities, as our various credit facilities mature or as we refinance any maturing fixed rate debt obligations.

Overall, with generally strong cash-generative businesses and no significant long-term debt maturities before 2019, we believe we have and will maintain a solid liquidity position.

We had cash and cash equivalents totaling \$233.6 million as of September 30, 2016, of which \$228.9 million is held by our foreign subsidiaries. This cash represents an important source of our liquidity and is invested in short-term investments including time deposits and readily marketable securities with relatively short maturities. Substantially all of this cash is held, and intended for use, outside of the U.S. We anticipate that any needs for liquidity within the U.S. in excess of our cash held in the U.S. can be readily satisfied with borrowings under our existing U.S. credit facilities or our commercial paper program.

Recent Accounting Pronouncements

For a description of recent accounting pronouncements, see Item 1 Financial Statements – Note 18, “Recently Issued Accounting Pronouncements.”

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes in our interest rate risk, foreign currency exchange rate exposure, marketable securities price risk or raw material price risk from the information we provided in our Annual Report on Form 10-K for the year ended December 31, 2015.

We had variable interest rate borrowings of \$1.3 billion outstanding at September 30, 2016, bearing a weighted average interest rate of 1.64% and representing approximately 38% of our total outstanding debt. A hypothetical 10% change (approximately 16 basis points) in the interest rate applicable to these borrowings would change our annualized interest expense by approximately \$2.2 million as of September 30, 2016. We may enter into interest rate swaps, collars or similar instruments with the objective of reducing interest rate volatility relating to our borrowing costs.

Our financial instruments which are subject to foreign currency exchange risk consist of foreign currency forward contracts with an aggregate notional value of \$465.5 million and with a fair value representing a net liability position of approximately \$0.2 million at September 30, 2016. Fluctuations in the value of these contracts are generally offset by the value of the underlying exposures being hedged. We conducted a sensitivity analysis on the fair value of our foreign currency hedge portfolio assuming an instantaneous 10% change in select foreign currency exchange rates from their levels as of September 30, 2016, with all other variables held constant. A 10% appreciation of the U.S. Dollar against foreign currencies that we hedge would result in a increase of approximately \$14.0 million in the fair value of our foreign currency forward contracts. A 10% depreciation of the U.S. Dollar against these foreign

currencies would result in an decrease of approximately \$16.3 million in the fair value of our foreign currency forward contracts. The sensitivity of the fair value of our foreign currency hedge portfolio represents changes in fair values estimated based on market conditions as of September 30, 2016, without reflecting the effects of underlying anticipated transactions. When those anticipated transactions are realized, actual effects of changing foreign currency exchange rates could have a material impact on our earnings and cash flows in future periods.

Item 4. Controls and Procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act), as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

No change in internal controls over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) occurred during the third quarter ended September 30, 2016 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are involved from time to time in legal proceedings of types regarded as common in our business, including administrative or judicial proceedings seeking remediation under environmental laws, such as Superfund, products liability, breach of contract liability and premises liability litigation. Where appropriate, we may establish financial reserves for such proceedings. We also maintain insurance to mitigate certain of such risks. Additional information with respect to this Item 1 is contained in Note 11 to the Notes to the Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors.

While we attempt to identify, manage and mitigate risks and uncertainties associated with our business to the extent practical under the circumstances, some level of risk and uncertainty will always be present. The risk factors set forth in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 describes some of the risks and uncertainties associated with our business. These risks and uncertainties have the potential to materially affect our results of operations and our financial condition. We do not believe that there have been any material changes to the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.
