## 3. Long-term Incentive Equity Awards for 2007 Performance

The CGNC authorized grants to PPL Electric's named executive officers of long-term incentive equity awards pursuant to PPL Corporation's Incentive Compensation Plan, as indicated in the following table. These grants consisted of (i) two PPL Corporation restricted stock unit awards with a three-year restriction period, based on the achievement of criteria established by the CGNC in March 2007 (as previously disclosed by PPL Electric) and measured by the Committee at its January 2008 meeting, and (ii) one PPL Corporation stock option award.

- (1) The number of restricted stock units awarded is equivalent to the dollar value of the award divided by \$47.55, the closing price of PPL Corporation's common stock on The New York Stock Exchange on the date of grant.
- (2) The exercise price of the stock option awards is \$47.55, the closing price of PPL Corporation's common stock on The New York Stock Exchange on the date of grant. The stock options become exercisable over a three-year period from the date of grant in equal installments and expire no later than January 24, 2018.
- (3) Messrs. Spence, DeCampli and Farr also were granted 20,960, 5,540 and 12,490 restricted stock units, respectively, pursuant to the terms of PPL Corporation's Cash Incentive Premium Exchange Program, which program is described in foot note 1 to the table in item 2 above.

In addition to the equity awards presented in the table, the named executive officers received grants of performance units, a new form of incentive award intended to encourage and reward future performance. Performance units represent a target number of shares ("Target Award") of PPL Corporation's common stock that the officer would receive upon attainment of the applicable performance goal. Performance is determined based on the "total shareowner return" (increase in market value of a share of PPL Corporation's common stock plus the value of all dividends paid on a share of the common stock during the applicable performance period, divided by the price of the common stock at the beginning of the performance period) during a three-year performance period (in this case, January 1, 2008 through

December 31, 2010). At the end of the performance period, payout is determined by comparing PPL Corporation's performance to the total shareowner return of the companies included in the S&P Electric Utilities Index ("Index Group"). Awards are payable on a graduated basis within the following ranges: If PPL Corporation's performance is at or above the 85th percentile of the Index Group, the award is paid at 200 percent of the Target Award; at the 50th percentile of the Index Group, the award is paid at 100% of the Target Award; at the 40th percentile of the Index Group, the award is paid at 50% of the Target Award; and below the 40th percentile, no award is payable. The CGNC determined that, beginning in 2009, grants of performance units will replace the portion of restricted unit grants related to achievement of strategic objective results as a component of Long-term Incentive Awards.

The performance units awarded were as follows: Mr. Spence – 6,310 units; DeCampli - 1,860 units; Mr. Farr – 4,160 units; Mr. Simmons – 1,100 units and Mr. Abel – 1,210 units.

## 4. Incentive Award Targets for 2008 Performance

The CGNC established the short-term and long-term incentive award targets for 2008 performance for the named executive. The CGNC plans to establish the performance goals and business criteria for these incentive awards in March 2008, and it will measure the achievement of the performance goals and business criteria and determine any resulting incentive awards for the named executive and other officers in January 2009.

## Targets for Short-term Incentive Cash Awards

For the annual incentive cash awards to be made pursuant to PPL Corporation's Short-term Incentive Plan, the following award targets as a percentage of base salary have been established: David G. DeCampli-50%; J. Matt Simmons, Jr.-40%; and James E. Abel-40%. The annual incentive cash awards will be made by applying these target percentages to the percentage of goal attainment as determined by the CGNC.

## Targets for Long-term Incentive Equity Awards

For the annual long-term incentive equity awards to be made pursuant to PPL Corporation's Incentive Compensation Plan, the following award targets as a percentage of base salary have been established: David G. DeCampli-145%; J. Matt Simmons, Jr. -105%; and James E. Abel-105%. Beginning with awards granted in January of 2009, the total awards will be allocated (i) 40% to a restricted stock unit award with a three-year restriction period, based on the achievement of criteria to be established and measured by the CGNC, (ii) 20% to a performance unit award (as described in item 3 above) with a three-year cumulative performance period, and (iii) 40% to a stock option award. The exercise price of the stock option awards will be the closing price of the Company's common stock on The New York Stock Exchange on the date of grant. The following table provides the award targets, based on a percentage of base salary.
