 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Section 8 - Other Events

Item 8.01 Other Events

On August 12, 2014, Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU" and, together with LG&E, the "Companies") issued a press release announcing that they will withdraw their proposal to build a new natural gas combined-cycle generating unit in western Kentucky, but will continue with plans to build a solar generation facility in central Kentucky. The decision is based upon revised estimates of future capacity timing requirements for the Companies following the election by certain of KU's municipal customers to terminate their wholesale power contracts in 2019.

The withdrawn project had been anticipated to be constructed at KU's Green River generating station by 2018 for an estimated cost of approximately \$700 million. The Companies will continue with their plans for construction of an estimated 10MW solar generation facility, anticipated to cost approximately \$36 million, at KU's E.W. Brown generating station. Subject to regulatory applications, permitting and construction schedules, such facility is planned to be operational in 2016.

A copy of the Companies' press release is filed herewith as Exhibit 99.1 and incorporated herein by reference.

Section 9 - Financial Statements and Exhibits

Item 9.01 Financial Statements and Exhibits

(d) Exhibits

- 99.1 - Press Release dated August 12, 2014 of Louisville Gas and Electric Company and Kentucky Utilities Company announcing the withdrawal of their proposal to build a new natural gas combined-cycle generating unit.

Statements in this report and the accompanying press release, including statements with respect to future events and their timing, as well as statements as to future costs or expenses, regulation, corporate strategy and performance, are "forward-looking statements" within the meaning of the federal securities laws. Although PPL Corporation, LG&E and KU Energy LLC and the Companies believe that the expectations and assumptions reflected in these forward-looking statements are reasonable, these expectations, assumptions and statements are subject to a number of risks and uncertainties, and actual results may differ materially from the results discussed in the statements. The following are among the important factors that could cause actual results to differ materially from the forward-looking statements: regulatory and construction approvals and permitting; customer and market demand and prices for electricity; political, regulatory or economic conditions in states and regions where PPL Corporation, LG&E and KU Energy LLC and the Companies conduct business; and the progress of actual construction, including the cost of the relevant equipment, assets or facilities. Any such forward-looking statements should be considered in light of such important factors and in conjunction with PPL Corporation's, LG&E and KU Energy LLC's and the Companies' Form 10-K and other reports on file with the Securities and Exchange Commission.
