Item 1.01 Entry into Material Definitive Agreement

On December 15, 2011, Systemax Inc. (the “Company”) and certain of its direct and indirect wholly owned subsidiaries entered into an amendment (the “Amendment”) of its Second Amended and Restated Credit Agreement with JPMorgan Chase Bank N.A. as US Administrative Agent for itself, HSBC Bank USA, N.A. and Wells Fargo Capital Finance LLC, in order to amend the facility to better reflect the Company’s current domestic and international business organization. The Amendment i) increases maximum availability under the US revolving loan component of the facility by \$25 million to a total of \$125 million (subject to further increase to up to \$200 million), ii) eliminates the Company’s unneeded \$25 million UK revolving loan component of the facility and releases the related UK assets that were pledged to secure this component (other than certain cash collateral securing outstanding letters of credit issued for the UK operations), iii) removes the Company’s UK subsidiary from the facility (other than for its existing obligations thereunder), and removes the UK assets from calculation of the borrowing base formula under the facility, iv) adds new holding company subsidiaries as guarantors of the loan and adds their assets to the collateral pledge, v) includes a pledge of the equity in all US subsidiaries as collateral and of certain of the equity in foreign subsidiaries which are directly owned by US companies as collateral, vi) amends the US borrowing base formula for determining the adjustments to be made to the applicable margin added to interest rates under the facility, and vii) provides for the lenders’ consent to various internal ownership transfers and entity reorganizations being effected to permit the Company to implement certain administrative and operational changes to streamline its domestic and international corporate subsidiary holding company structure.

Item Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a
