**FOR IMMEDIATE USE**

**INDEPENDENT BANK CORPORATION  
REPORTS 24% INCREASE IN EARNINGS PER SHARE**

IONIA, Michigan, April 25, 2005 . . . Independent Bank Corporation (Nasdaq: IBCP) (the "Company"), a Michigan-based bank holding company reported record first quarter 2005 net income of \$11.3 million or \$0.52 per diluted share. A year earlier, net income totaled \$8.4 million or \$0.42 per diluted share. Annualized return on average equity and annualized return on average assets were 19.38% and 1.47%, respectively in the first quarter of 2005 compared to 20.34% and 1.44%, respectively in 2004. 2005 results include the operations of Midwest Guaranty Bancorp, Inc. (which was acquired on May 31, 2004) and North Bancorp, Inc. (which was acquired on July 1, 2004).

The increase in earnings is primarily a result of increases in net interest income, service charges on deposits and real estate mortgage loan servicing fees (due primarily to a decline in the impairment reserve on capitalized mortgage loan servicing rights). Partially offsetting these items were increases in the provision for loan losses, non-interest expenses and income tax expense, as well as a decrease in securities gains.

Commenting on first quarter 2005 results, the Company's President and CEO, Michael M. Magee stated, "We are pleased with our first quarter 2005 results as earnings per share were up 24% over the first quarter of 2004. Michigan is currently facing serious economic challenges, however we remain optimistic that 2005 will be an excellent year for Independent Bank Corporation, and based upon our current business plan we still expect a range of \$2.10 to \$2.20 for full year diluted earnings per share.

The Company's tax equivalent net interest income totaled \$35.0 million during the first quarter of 2005, which represents an \$8.3 million or 31% increase from the comparable quarter one year earlier. The adjustments to determine tax equivalent net interest income were \$1.5 million and \$1.3 million for the first quarters of 2005 and 2004, respectively, and were computed using a 35% tax rate. The increase in tax equivalent net interest income primarily reflects a \$680.2 million increase in the balance of average interest-earning assets as well as a three basis point increase in the Company's tax equivalent net interest income as a percent of average interest-earning assets (the net interest margin). The increase in average interest-earning assets is due to the Midwest and North acquisitions as well as growth in commercial loans, finance receivables and investment securities. The net interest margin was equal to 4.92% during the first quarter of 2005 compared to 4.89% in the first quarter of 2004. This increase was due to a rise in the tax equivalent yield on average interest-earning assets to 6.92% in the first quarter of 2005 from 6.77% in the first quarter of 2004. This increase primarily reflects the recent rise in short-term interest rates that has resulted in variable rate loans re-pricing at higher rates. The increase in the tax equivalent yield on average interest-earning assets was partially offset by a 12 basis point rise in the Company's interest expense as a percentage of average interest-earning assets (the cost of funds) to 2.00% during the first quarter of 2005 from 1.88% during the first quarter of 2004. The increase in the Company's cost of funds also primarily reflects the recent rise in short-term interest rates that has resulted in higher rates on certain short-term and variable rate borrowings and somewhat higher rates on deposits.

Service charges on deposits totaled \$4.0 million in the first quarter of 2005, a \$0.4 million or 11% increase from the comparable period in 2004. The increase in deposit related service fees resulted primarily from the continued growth of checking accounts as well as the Midwest and North acquisitions.

## Edgar Filing: INDEPENDENT BANK CORP /MI/ - Form 8-K

Gains on the sale of real estate mortgage loans were \$1.4 million and \$1.1 million in the first quarters of 2005 and 2004, respectively. Real estate mortgage loan sales totaled \$87.9 million in the first quarter of 2005 compared to \$68.7 million in the first quarter of 2004. Real estate mortgage loans originated totaled \$147.0 million in the first quarter of 2005 compared to \$159.4 million in the comparable quarter of 2004, and loans held for sale were \$41.7 million at March 31, 2005 compared to \$38.8 million at December 31, 2004.

Securities losses totaled \$32,000 in the first quarter of 2005 compared to securities gains of \$0.5 million in the first quarter of 2004. The securities losses in the first quarter of 2005 are comprised of impairment charges of \$0.3 million that were partially offset by approximately \$0.25 million in net securities gains primarily from the sale of certain corporate and municipal securities. In the first quarter of 2005 the Company recorded an additional other than temporary impairment charge of \$0.1 million on various Fannie Mae and Freddie Mac preferred securities that it owns. In addition, the Company recorded a \$0.2 million other than temporary impairment charge on a mobile home asset-backed security. The net securities gains in 2004 were due primarily to the sale of certain corporate securities.

Real estate mortgage loan servicing generated income of \$1.1 million in the first quarter of 2005 compared to an expense of \$0.7 million in the first quarter of 2004. This increase is primarily due to changes in the impairment reserve on capitalized mortgage loan servicing rights. Activity related to capitalized mortgage loan servicing rights is as follows:

	<b>Quarter Ended (in thousands)</b>	
	<b>3/31/05</b>	<b>3/31/04</b>
Balance at beginning of period	\$ 11,360	\$ 8,873
Originated servicing rights capitalized	755	690
Amortization	(479)	(436)
(Increase)/decrease in impairment reserve	619	(1,045)
Balance at end of period	\$ 12,255	\$ 8,082
Impairment reserve at end of period	\$ 147	\$ 1,767

The increase in originated servicing rights capitalized is due to the higher level of real estate mortgage loan sales in 2005 compared to 2004. The impairment reserve on capitalized mortgage loan servicing rights totaled \$0.1 million at March 31, 2005, compared to \$0.8 million at December 31, 2004. The changes in the impairment reserve reflect the valuation of capitalized mortgage loan servicing rights at each period end. At March 31, 2005, the Company was servicing approximately \$1.4 billion in real estate mortgage loans for others on which servicing rights have been capitalized. This servicing portfolio had a weighted average coupon rate of approximately 5.86% and a weighted average service fee of 25.9 basis points.

Non-interest expense totaled \$26.0 million in the first quarter of 2005, an increase of \$5.4 million compared to the first quarter of 2004. The increase in non-interest expense is primarily due to operating costs related to the addition of staff and branch offices from the Midwest and North acquisitions, increases in compensation and employee benefits, and an increase in professional fees. The increase in compensation and employee benefits expense is primarily attributable to merit pay increases that were effective January 1, 2005, staffing level increases associated with the expansion and growth of the organization and an increase in performance based compensation due in part to a higher expected funding level for the Company's Employee Stock Ownership Plan in 2005 compared to 2004.

## Edgar Filing: INDEPENDENT BANK CORP /MI/ - Form 8-K

A breakdown of non-performing loans by loan type is as follows:

Loan Type	3/31/2005	12/31/2004	3/31/2004
<b>(Dollars in Millions)</b>			
Commercial	\$ 6.0	\$ 5.4	\$ 4.9
Commercial guaranteed under federal program	1.2	1.1	0.9
Consumer	1.9	1.9	0.8
Mortgage	5.8	4.6	2.9
Finance receivables	3.1	2.1	1.2
<b>Total</b>	<b>\$ 18.0</b>	<b>\$ 15.1</b>	<b>\$ 10.7</b>
 Ratio of non-performing loans to total portfolio loans	 0.78%	 0.68%	 0.63%

Other real estate and repossessed assets totaled \$2.6 million at March 31, 2005, compared to \$2.1 million and \$3.7 million at December 31, 2004, and March 31, 2004, respectively. The provision for loan losses was \$1.6 million and \$0.8 million in the first quarters of 2005 and 2004, respectively. The level of the provision for loan losses in each period reflects the Company's assessment of the allowance for loan losses, taking into consideration factors such as loan mix, levels of non-performing and classified loans and net loan charge-offs. Net loan charge-offs were \$1.7 million (0.30% annualized of average loans) in the first quarter of 2005 compared to \$0.8 million (0.19% annualized of average loans) in the first quarter of 2004. The increase in net loan charge-offs in 2005 compared to 2004 primarily reflects a charge-off (based on an updated collateral analysis) related to a mortgage and commercial loan relationship with a particular borrower who recently declared bankruptcy. Despite the increases in net loan charge-offs and non-performing loans in the first quarter of 2005, the allowance for loan losses declined slightly due primarily to a decline in other adversely rated loans. At March 31, 2005, the allowance for loan losses totaled \$24.6 million, or 1.06% of portfolio loans compared to \$24.7 million, or 1.11% of portfolio loans at December 31, 2004.

Total assets were \$3.19 billion at March 31, 2005, compared to \$3.09 billion at December 31, 2004. Loans, excluding loans held for sale, increased to \$2.32 billion at March 31, 2005, from \$2.23 billion at December 31, 2004. The increase in loans reflects growth in commercial loans, real estate mortgage loans and finance receivables. Deposits totaled \$2.35 billion at March 31, 2005, an increase of \$171.1 million from December 31, 2004. This increase is primarily attributable to increases in savings and interest-bearing checking account deposits and brokered certificates of deposit. Stockholders' equity totaled \$239.1 million at March 31, 2005, or 7.50% of total assets, and represents a net book value per share of \$11.24.

### **About Independent Bank Corporation**

Independent Bank Corporation (Nasdaq: IBCP) is a Michigan-based bank holding company with total assets of over \$3 billion. Founded as First National Bank of Ionia in 1864, Independent Bank Corporation now operates over 100 offices across Michigan's Lower Peninsula through four state-chartered bank subsidiaries. These subsidiaries, Independent Bank, Independent Bank East Michigan, Independent Bank South Michigan and Independent Bank West Michigan, provide a full range of financial services, including commercial banking, mortgage lending, investments and title services. Financing for insurance premiums and extended automobile warranties is also available through Mepco Insurance Premium Financing, Inc., a wholly owned subsidiary of Independent Bank. Independent Bank Corporation is committed to providing exceptional personal service and value to its customers, stockholders and the communities it serves.
