ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

This Compensation Discussion and Analysis is designed to provide shareholders with a better understanding of our compensation philosophy, core principles, and decision making process. It explains the compensation-related actions taken with respect to the executive officers who are identified in the Summary Compensation Table (the “Named Executive Officers”). Details regarding the compensation paid to the Named Executive Officers for fiscal 2007 are found in the tables and narrative which follow them.

Executive Compensation Philosophy

Our long-term success depends on our ability to operate effectively and efficiently, offer appealing products for our customers and invest wisely for present and future success. To achieve these goals, we must attract, motivate, and retain highly talented individuals at all levels of the organization. The Compensation Committee strives to provide compensation which is appropriate to attract and retain such individuals.

All decisions relating to the compensation of the Named Executive Officers are made by the Compensation Committee in executive session, without management present. In assessing the compensation of the President and Chief Executive Officer, the Compensation Committee makes a qualitative assessment of our performance, his contribution to that performance, his expected performance in the future, and other factors (including tenure and experience, retention concerns, historical compensation and the relationship of his compensation to other executives in the Company). In evaluating the performance of other executive officers, the Compensation Committee considers the evaluations provided by the President and Chief Executive Officer.

As a general matter, over 50% of targeted annual compensation for Named Executive Officers takes the form of performance-dependent, incentive cash and equity programs. We believe that putting a significant portion of compensation at risk provides an incentive to better performance and more closely align the executives’ perspective with that of our shareholders.

As part of making any compensation decision, the Compensation Committee reviews market compensation levels for executive officers at other restaurant companies (for positions that are unique to our industry) or similarly-sized companies (for other positions) to determine whether the compensation components for our executive officers remain in the targeted ranges described in the following paragraph. With the assistance of our Human Resources department and a third party compensation consultant retained by the Compensation Committee, management collects and presents compensation data for our executive officers, including the Named Executive Officers. Information regarding the restaurant industry is obtained from the Chain Restaurant Compensation Association and the committee’s consultant. Information regarding compensation for executives at similarly-sized companies is obtained from the committee’s consultant and from published compensation surveys. The compensation surveys provide data on pay practices for executive positions at companies with similar revenue size, although they do not provide names of the reported companies. The compensation assessment that is presented to the Compensation Committee includes an evaluation of base salary, target annual incentive opportunities, long-term incentive grant values, and benefits for each executive officer relative to similar positions in the market.

## Table of Contents

The Compensation Committee sets total targeted compensation for executives who hold positions unique to the restaurant industry (such as EVP of Development) between the 50th and 75th percentiles of a set of restaurant companies of similar size. For other executive positions where both restaurant and general industry pay levels are relevant for staffing and retention (such as Chief Financial Officer), the Compensation Committee sets targeted total compensation between the 50th and 75th percentiles of comparable restaurant companies and at the 50th percentile of non-restaurant companies of a similar revenue size. The committee may vary from these percentiles based on such factors as historic compensation; individual skills, experience, contribution and performance; internal equity, retention concerns and other factors relevant to the individual executive. In addition, actual compensation (e.g., amounts earned and paid each year) may be higher or lower than targeted total compensation based on our performance or the assessment of the executive's performance.

## Components of Total Compensation

### Base Salary

We believe base salaries should be sufficient to attract and retain the executive talent needed to run our business. The Compensation Committee sets base salaries at market median levels for positions that are unique to the restaurant industry, and between the 50th and 75th percentile in the restaurant industry for other executive positions.

In setting base salaries for fiscal 2007, the Compensation Committee considered the following factors:

- **Internal analysis.** This is the relative pay difference for different job levels. The Compensation Committee believes that the President and Chief Executive Officer position has the greatest opportunity to impact the Company, and so has typically set the base salary for this position at approximately two times that of the next highest executive. Similarly, the Compensation Committee has concluded that Mr. Blade, the Chief Financial Officer, is vital to our success, as he supervises not only the Finance and Accounting departments, but the Franchise and Supply Chain departments as well. Accordingly the Compensation Committee has typically set Mr. Blade's salary at approximately 20% above the next most highly compensated executive.
- **Individual performance.** Increases to base salaries can result from individual performance assessments as well as an evaluation of the market and the mix among various components of compensation. In setting Mr. Dunn's base salary for fiscal 2007, the committee considered that, although we had decreased employee turnover and drive-thru wait times and increased customer satisfaction as Mr. Dunn planned, improvement in these areas did not translate into improved sales or earnings. Accordingly, the Compensation Committee made no change to Mr. Dunn's base salary from fiscal 2006. This meant that his base salary was below the 50th percentile for Chief Executive Officers of similarly sized companies. When Mr. Dunn resigned in August 2007 and Mr. Gilman was appointed the Interim President and Chief Executive Officer, the Compensation Committee set Mr. Gilman's base salary at the same level as Mr. Dunn's.

The Compensation Committee also reviewed the performance of the other Named Executive Officers, ultimately concluding that, while their individual performances had been satisfactory, our overall disappointing performance in fiscal 2006 did not warrant an increase in base salaries. Instead, the Compensation Committee chose to focus more attention on increasing the incentive-related components of compensation. A discussion of the mix between the two components is in the "Annual Incentive Bonus" section below.

- **Market data.** As noted above, while the Compensation Committee uses industry and general market data to test for the reasonableness and competitiveness of base salaries, committee members exercise subjective judgment within the ranges in this data in view of our compensation objectives and individual performance and circumstances.

## Annual Incentive Bonus

For fiscal 2007 the Compensation Committee intentionally allocated a greater portion of targeted total compensation to the performance-dependent elements. One way in which it did this was to set what it believed to be aggressive, but reachable, targets for fiscal 2007 under our Incentive Bonus Plan.

Over 100 employees, including the Named Executive Officers, participated in the Incentive Bonus Plan in fiscal 2007. The Compensation Committee established a target incentive opportunity for each participant, expressed as a percent of base salary. Mr. Dunn's target bonus opportunity was set at 70% of his base salary, which weighted his pay mix more heavily toward performance-based compensation. The other executive officers had target bonus opportunities set at 30% - 40% of their base salaries. For the Named Executive Officers, the target annual incentives for fiscal 2007 were as follows:

Named Executive Officer	Target Bonus Incentive as a % of Base Salary
Mr. Gilman	70% <sup>a</sup>
Mr. Dunn	70%
Mr. Blade	40%
Mr. Schiller	40%
Mr. Reinwald	40%
Mr. Geiger	30%
Mr. Walker	40%

a Mr. Gilman was not eligible for the Bonus Plan until August 2007, when he became Interim President and Chief Executive Officer. Had the Company met the thresholds for paying a bonus in fiscal 2007 he would have received a payment based on the 70% opportunity for the pro rata portion of the fiscal year in which he served in that role.

To arrive at a payout number under the Incentive Bonus Plan, the target bonus opportunity for each participant is multiplied by a formula based on our performance as determined by targets for objective performance and measures and individual performance goals. In fiscal 2007 the corporate performance measures were growth in earnings before interest and taxes ("EBIT") and same store sales over the prior year. Individual performance was based on the successful completion of defined projects during the fiscal year. The individual performance modifier may result in further modification of the payout, since any upward adjustment for one participant must be offset by downward adjustments for others. The formula used to compute bonus payouts is set forth below:

$$\begin{array}{ccccc} \text{Target Bonus} & & \text{Corporate Performance} & & \text{Individual} \\ \text{Amount} & & \text{Modifier} & & \text{Performance} \\ & \text{X} & (0\% - 250\%) & \text{X} & \text{Modifier} \\ & & & & (75\% - 125\%) \end{array}$$

After the end of the fiscal year, the Compensation Committee evaluates the Company's performance against the specific targets set at the beginning of the year and modifies the bonus payout to 0% to 250% of the target. For fiscal 2007, the targets for growth in EBIT and same store sales were as follows:

Factors	Threshold(0%)	Target(100%)	Maximum(250%)
Same Store Sales	-1.4%	.6%	2.6%
EBIT	\$52.4M	\$55.2M	\$61M

In fiscal 2007, we did not achieve the targets at the threshold level for either the Same Store Sales or EBIT performance measures. Consequently, we made no payments under the Incentive Bonus Plan to any participant in fiscal 2007.

## Table of Contents

### Long-Term Incentives

Equity-based incentives are a significant element of total executive officer compensation, as we believe these forms of compensation align the interests of executives with those of our shareholders for periods greater than the single year focus of the Incentive Bonus Plan. They also encourage retention of employees. These equity-based incentives consist of stock options and restricted stock.

In making equity-based awards, the Compensation Committee also considers the executive's level of responsibility, prior experience, internal equity, retention concerns, individual performance, and market data for the particular position. The committee uses the value of these incentives as determined by accounting principles to provide targeted total compensation at the levels discussed above. If our shareholder returns exceed industry averages, our executives' compensation will likewise exceed industry averages. Likewise, if the shareholders do not realize competitive returns on their investments, our executives' compensation will fall below the industry average.

### Stock Options

Stock options reward the recipient for the increase in our stock price during the holding period. Options represent the high-risk and potential high-return component of our total long-term incentive program, as the potential value of each option can fall to zero if the price of our stock is lower than the exercise price when the options expire.

The size of stock option grants for executive officers is based primarily on the target dollar value of the award, translated into a number of option shares based on the estimated economic value of the award, as determined using the Black-Scholes option pricing formula. As a result, the number of shares underlying stock option awards will typically vary from year to year, as it is dependent on the price of our stock. Subject to limits imposed by Section 422 of the Code, options granted to all employees are incentive stock options.

In February 2007, the Compensation Committee approved annual grants of stock options to each of the Named Executive Officers. These options had an exercise price equal to the fair market value of our stock on the date of grant. They were granted under the 2006 Employee Stock Option Plan, which was approved by shareholders in February 2006. These options vest over four years, at a rate of 25% per year, beginning on the first anniversary of the grant. They expire ten years from the date of grant.

Stock options granted prior to February 2006 vest over a four year period, at a rate of 20% per year beginning on the date of grant. These options expire five years from the date of grant and contain a reload option feature. Reload options represent an option to purchase the same number of shares of our stock that were used by the grantee to pay the exercise price of any original option. We do not grant additional reload options upon the exercise of a reload option.

In the event of the death of an option recipient then his/her estate may exercise the option in full at any time prior to its expiration. In the event of an option recipient's retirement, he/she may exercise any vested options within three months from the date of retirement. Should an option recipient's employment end as a result of a disability, then he/she would be able to exercise the options as if the recipient had remained with the Company through: (i) cessation of payments under a disability pay plan of the Company, (ii) the recipient's death, or (iii) the recipient's 65th birthday.

We do not backdate options or grant options or other equity awards retroactively. In addition, we do not purposely schedule option awards or other equity grants prior to the disclosure of favorable information or after the announcement of unfavorable information. In general, equity-based incentive awards are made during the February Board meeting, with mid-year grants limited to newly hired or promoted employees.

## Table of Contents

### Restricted Stock

Restricted stock awards provide the recipient with shares of our stock, which the recipient may vote and for which he may receive dividends during the vesting period. The recipient may not transfer or assign the restricted shares for a period of three years after the date of grant, however, and if the recipient ceases to be our employee for any reason other than death, disability or retirement during that period the shares will be forfeited. If the recipient ceases being our employee during the vesting period as a result of retirement, death or disability then the recipient (or his/her estate) will receive a pro rata amount of shares reflective of the percent of the vesting period during which the recipient was employed.

Each award of restricted stock is issued in conjunction with a book unit. A book unit has a vesting schedule concurrent with the associated share of restricted stock. It provides for a cash payment at the end of the three-year vesting period equal to: (i) the aggregate of our earnings per share over the vesting period and (ii) any dividends paid over the vesting period. The cash provided by the book units is typically used by the recipient of restricted stock to pay the tax obligation that he/she incurs upon its vesting.

### Perquisites and Benefits

Perquisites provided to executive officers include: (i) reimbursement for medical expenses of up to \$3,500 annually, (ii) amounts we pay to group life insurance premiums for coverage in excess of \$50,000, (iii) matching contributions we make under the 401(k) Plan and Deferred Compensation Plan, which equal 50% of up to 6% of total cash compensation deferred into these plans, (iv) personal use of a company car, (v) 75% of the cost of preparing tax returns, and (vi) amounts incurred for travel for service on charitable boards. See footnotes to the Summary Compensation Table below for the perquisites provided to each Named Executive Officer in fiscal 2007.

Our executive officers receive the same benefits provided to all employees. They include: 401(k) and deferred compensation plan, life insurance equal to their annual salary, group medical & dental plans, short- and long-term disability insurance, and a lunch discount of 50% at Steak n Shake restaurants on work days.

### Employment Agreements, Severance, and Change-in-Control Arrangements

#### Change in Control Agreements

In fiscal 2007, the Compensation Committee approved agreements with certain executive officers, including the Named Executive Officers, that provide for benefits in the event we experience a change in control (the "CIC Agreements"). In evaluating the terms of the CIC Agreements the Compensation Committee obtained benchmarking information from its compensation consultant, considered which individuals were vital to retain during any period of uncertainty, and evaluated the potential costs and benefits of the CIC Agreements. All of the Named Executive Officers except Mr. Gilman received a CIC Agreement in fiscal 2007. Mr. Reinwald received a CIC agreement that does not provide for the "stay payment" described below.

The primary terms of the CIC Agreements are provided below:

- **Stay Payment.** On the date of a Change in Control the CIC Agreements provide that Messrs. Blade, Schiller and Geiger will receive an immediate payment equal to 30% of their base salary.
- **Termination Following Change in Control.** In the event that the employment of the recipient of a CIC Agreement is terminated within one year of a change in control without "cause" by us or "good reason" by the employee, they will receive: (a) a severance payment equal to one year of their base salary, (b) coverage under the group medical plan for one year, (c) use of their Company-provided car for up to 60 days, (d) payment of a pro rata amount of the bonus to which they would have been entitled had they been employed through the applicable bonus computation period, and (e) reimbursement of up to \$15,000 for outplacement services.

- Executive's Obligations. Prior to obtaining any benefits under a CIC Agreement, the recipient must waive any claims against us. We may recover any benefits paid under the CIC Agreements if the recipient breaches any of his obligations under the CIC Agreement.

Table of Contents

Other Severance Agreements

At the inception of their employment, we agreed to pay Mr. Blade and Mr. Schiller a specified percentage of their base salary in the event we terminate their employment for any reason that would not disqualify them from obtaining unemployment compensation benefits under Indiana law. In the event of such a termination, both Mr. Blade and Mr. Schiller would receive 10 months of base salary (\$254,904 for Mr. Blade and \$212,420 for Mr. Schiller at their current salaries) and reimbursement for up to ten (10) months of outplacement services. These obligations would be superseded by the CIC Agreements in the event of a termination within one year of a change in control that would trigger the CIC severance benefits. At the inception of his employment we agreed to pay Mr. Gilman nine months of his salary in the event his employment is terminated for any reason except for retirement or commission of a crime. He has indicated that the salary that should be applicable to this separation agreement is that which was last in effect while he was Chief Executive Officer, \$500,000, as opposed to his current, temporary salary of \$600,000.

Effect of a Change in Control, Death, Disability or Retirement on Equity Grants

A description of the impact of death, disability or retirement on vesting or exercise of options or restricted stock is under the “Long-Term Incentives” section.

All restricted stock plans and the 2006 Steak n Shake Employee Stock Option Plan contain provisions that accelerate the vesting of the awards upon a change in control. Options granted under prior stock option plans may be accelerated upon a change in control at the discretion of the Board of Directors.

The number of unvested shares that would vest on a change in control, and the value of those shares as of the end of the fiscal year, is set forth in the table below entitled “Outstanding Stock and Option Awards” under the column entitled “Shares or Units of Stock that Have Not Vested.”

Deductibility Cap on Executive Compensation

Section 162(m) of the Code prohibits publicly-held companies from taking a tax deduction for certain compensation paid in excess of \$1 million to any of the five most highly compensated employees. Performance-based compensation remains deductible. To qualify as performance-based compensation, the program under which it is provided must be approved by shareholders and meet other requirements. Our policy is, where feasible, to attempt to qualify our compensation plans for full deductibility. Pursuant to that policy, we have taken steps to qualify compensation under the 2006 Incentive Bonus Plan and all stock option plans as “performance-based compensation.”

We may make payments that are not fully deductible if, in the judgment of the Compensation Committee, such payments are otherwise necessary to achieve compensation objectives. In fiscal 2007, we did not pay compensation that was not deductible under Section 162(m).

## Award Exercise and Vesting

The following table sets forth the number of options exercised in fiscal 2007, along with the value received as a result of the exercise. It also shows the number of shares of restricted stock that vested during the year, with concurrent vesting of book units, and the resulting value realized by the Named Executive Officer.

## OPTION EXERCISES AND STOCK VESTED

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise	Value Realized upon Exercisa	Number of Shares Acquired on Vesting	Value Realized on Vestingb
Mr. Gilman	41,681	\$112,004	12,500	\$248,625
Mr. Dunn	—	—	20,000	\$397,800
Mr. Blade	—	—	8,500	\$170,170
Mr. Geiger	7,500	—	4,000	\$79,560
Mr. Schiller	—	—	—	—
Mr. Reinwald	32,000	\$160,320	9,000	\$179,010
Mr. Walker	15,400	\$61,226	7,000	\$139,230

a. This amount reflects the difference between the exercise price and the closing price on the date of exercise. The exercise price of Mr. Geiger's options was slightly above the fair value on the date of the exercise of the option, as he exercised the options to receive the reload associated with them.

b. Mr. Blade's stock awards vested on March 15, 2007; all others vested on October 1, 2006. The amount in this column includes the value of the restricted stock on the date of vesting, based on the closing price of our common stock which on both dates was \$16.89, and the value of book units which vested in conjunction with the shares of restricted stock. The book units associated with Mr. Blade's shares were \$3.13; the remainder of the book units were valued at \$3.00 each.

## Retirement Benefits

We maintain two plans that provide retirement income to all eligible employees, including the Named Executive Officers:

## 401(k) Plan

The 401(k) Plan is available to all qualified Associates, including the Named Executive Officers. We match participant contributions in an amount equal to 50% of each participant's voluntary contributions to the 401(k) Plan of up to 6% of the participant's total cash compensation. Participant contributions may consist of salary or cash compensation from the 2006 Incentive Bonus Plan. Matching contributions vest over the first six years of employment at a rate of 20% per year, beginning on the second anniversary of a participant's employment. Participants may invest their contributions and the matching contributions in a variety of investment options provided by Fidelity Investments and their partner funds. The Named Executive Officers and other "highly compensated employees" are limited to contributing 1% of their cash compensation to the 401(k) Plan.

Table of Contents

## Deferred Compensation Plan

The Deferred Compensation Plan is available to all highly compensated employees including the Named Executive Officers. Investment options offered under the Deferred Compensation Plan are identical to those offered in the 401(k) Plan. Before a Participant may make contributions under the Deferred Compensation Plan, the participant must first contribute 1% of their earnings to the 401(k) Plan. We will match Participant contributions in the amount of 50% of the aggregate deferrals into both plans, up to 6% of the Participant's cash compensation. Deferrals under both plans are limited to 20% of the aggregate of a participant's salary and annual incentive bonus, which means that as a result of the 1% of compensation deferred to the 401(k) Plan, the most a participant may defer to the Deferred Compensation Plan is 19% of total cash compensation. Matching contributions under the Deferred Compensation Plan vest over the first six years of employment, at a rate of 20% per year beginning on the second anniversary of employment. A participant's account balance will be distributed at a time directed by the participant at the time the deferrals are made. Participants may elect that distributions be made in a lump sum or in equal annual installments over a period of up to ten (10) years. Withdrawals from the Deferred Compensation Plan are limited to the withdrawal of Participant contributions in cases of financial hardship.

The following table describes the contributions, earnings, and balance at the end of Fiscal 2007 for each of the Named Executive Officers who participate in the Deferred Compensation Plan.

## Potential Payments Upon Termination of Employment

As discussed above in “Compensation Discussion and Analysis – Employment Agreements, Severance and Change-in-Control Arrangements,” some of our equity awards accelerate upon a change in control or upon the retirement, death or disability of the holder. Also, some of the Named Executive Officers have agreements that would provide them with benefits upon the occurrence of one or more of these events. The following table sets forth, for each of the Named Executive Officers other than Messrs. Dunn and Walker, the aggregate value that the individual would receive as a result of any of the foregoing events if they had occurred on September 26, 2007. For amounts that were paid, or are payable, to Messrs. Dunn and Walker in connection with their termination of employment, see the "All Other Compensation" column of the Summary Compensation Table.

COMPENSATION OF DIRECTORS

We compensate non-employee directors with annual cash retainers, cash meeting attendance fees and grants of stock options and restricted stock, as well as reimbursement of certain expenses as explained in this section. With the exception of the Chairmen of the Audit, Compensation and Nominating/Corporate Governance Committees, (whose retainers are summarized below) we paid retainers of \$22,000 for fiscal 2007. Meeting fees for non-employee directors were set as follows:

- \$3,500 for each in-person Board meeting attended;
- \$1,250 for each Committee meeting attended that was not held in conjunction with a Board meeting;
- \$1,000 for meetings, travel and interviews with candidates for Board positions;
- \$500 for each Committee meeting attended that was held in conjunction with a Board of Directors' meeting; and
- \$500 for any meeting (Board or Committee) held telephonically.

The Chairman of the Audit Committee receives an annual retainer of \$42,000. The Chairman of the Executive Committee and Lead Outside Director receives a retainer of \$47,000. The Chairman of the Compensation Committee receives an annual retainer of \$37,000. The Chairman of the Nominating/Corporate Governance Committee receives an annual retainer of \$37,000. Because directors who are employees are not paid for their services on the Board, Messrs. Gilman and Kelley do not receive compensation for their Board service.

In addition, the ordinary and necessary expenses the members of the Board of Directors incurred in attending board and committee meetings are reimbursed by us. All non-employee directors are also eligible to participate in our medical reimbursement plan, which provides reimbursement for unreimbursed medical bills in an amount of up to \$3,500 per year, which amount is increased or "grossed up" in an amount equal to the estimated taxes payable by the directors for this benefit. Finally, all non-employee directors are entitled to reimbursement of 75% of the cost of their personal tax preparation, up to a maximum reimbursable amount of \$1,000.

In addition to the foregoing payments, directors may participate in the Nonqualified Deferred Compensation Plan. There are no matching payments made to Directors under the Nonqualified Deferred Compensation Plan and no guaranteed return is offered. Instead, it provides directors with an opportunity to defer the receipt of retainer and/or meeting fees and obtain them at a later date together with the gains or losses associated with investments against which they choose to track their accounts.

We compensate our non-employee directors with equity-based awards, the value of which are tied to increases in the value of our common stock. We have had director stock option plans in place since 1990. These plans provide for non-discretionary grants of nonqualified stock options to our non-employee directors at a price equal to the fair market value of our common stock on the date of grant. Options granted prior to November 7, 2005 are exercisable at a rate of 20% on the date of grant and on each anniversary thereof until fully exercisable and expire five years from the date of grant. Options granted after November 7, 2005 are exercisable at a rate of 25% on the first anniversary of the grant and each year thereafter until fully vested. Finally, newly appointed or elected directors receive a grant of 1,000 shares of restricted stock. These shares have a three year restriction on transfer, and if a recipient ceases serving as a director for any reason other than death, disability or retirement during this period he/she will forfeit the stock.

## Pre-approval Policy

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent auditor. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent auditor and management are required to report periodically to the Audit Committee regarding the extent of services provided by the independent auditor in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis. In fiscal 2007, the Audit Committee pre-approved the services reported above as audit-related services and tax fees and Deloitte did not provide any non-audit services during such year.
