- (1) Assumes conversion of all of the holder's debentures at a conversion rate of 9.5111 shares of common stock per \$1,000 principal amount at maturity of the debentures. This conversion rate is subject to adjustment, however, as described under "Description of Debentures--Conversion Rights--Adjustments to Conversion Rate" beginning on page 22 of the prospectus. As a result, the number of shares of common stock issuable upon conversion of the debentures may increase or decrease in the future.
- (2) Calculated based on Rule 13d-3(d) (i) of the Exchange Act using 481,958,088 shares of common stock outstanding as of September 30, 2001. In calculating this amount, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that particular holder's debentures. However, we did not assume the conversion of any other holder's debentures.
- (3) Information concerning other selling holders of debentures or underlying common stock will be set forth in prospectus supplements from time to time, if required.
- (4) Assumes that any other holders of debentures, or any future transferees, pledgees, donees or successors of or from any such other holders of debentures do not beneficially own any common stock other than the common stock issuable upon conversion of the debentures at the initial conversion rate.
