QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended December 31, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

**Commission File Number 1-13783
Integrated Electrical Services, Inc.**

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

76-0542208

(I.R.S. Employer Identification No.)

1800 West Loop South, Suite 500, Houston, Texas 77027

(Address of principal executive offices and ZIP code)

Registrant's telephone number, including area code: (713) 860-1500

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

The number of shares outstanding as of February 5, 2009 of the issuer's common stock was 14,612,239.

Explanatory Paragraph

The purpose of this Amendment No. 1 on Form 10-Q/A to the Quarterly Report on Form 10-Q of Integrated Electrical Services, Inc. (we , us , our , or the Company) is to amend our Quarterly Report on Form 10-Q for the quarter ended December 31, 2008 filed on February 9, 2009 to correct the accounting treatment previously accorded certain transactions and to restate our condensed consolidated balance sheets as of December 31, 2008 and our condensed consolidated statements of operations and cash flows for the three months ended December 31, 2008.

These corrections primarily included recording of additional charges for certain accruals, medical claims and certain other expenses, and resultant tax effects, that should have been recorded at December 31, 2008.

Additional information on the effect of the correction to our financial statements as a result of this restatement is contained in Note 9 Restatement of Financial Statements in this report

In addition, the Company has amended Item 4, Controls and Procedures, to update the disclosure regarding disclosure controls and procedures and internal control over financial reporting.

As a result of the restatement, the Company has determined it to be necessary to amend the Original Form 10-Q. This Amendment No. 1 amends and restates in its entirety Part I, Items 1, 2 and 4 and Part II, Item 6 of the Original Form 10-Q. This Amendment No. 1 continues to reflect circumstances as of the date of the filing of the Original Form 10-Q and does not reflect events occurring after the filing of the Original Form 10-Q, or modify or update those disclosures in any way, except as required to reflect the effects of the restatement as described in Note 9 to the accompanying interim condensed consolidated financial statements.

DEFINITIONS

In this Amendment No. 1 to our quarterly report on Form 10-Q/A, the words IES , the Company , we , our , ours , refer to Integrated Electrical Services, Inc. and, except as otherwise specified herein, to our subsidiaries.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Amendment No. 1 to our quarterly report on Form 10-Q/A includes certain statements that may be deemed forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, all of which are based upon various estimates and assumptions that the Company believes to be reasonable as of the date hereof. These statements involve risks and uncertainties that could cause our actual future outcomes to differ materially from those set forth in such statements. Such risks and uncertainties include, but are not limited to:

- fluctuations in operating activity due to downturns in levels of construction, seasonality and differing regional economic conditions;
- competition in the construction industry, both from third parties and former employees, which could result in the loss of one or more customers or lead to lower margins on new contracts;
- our ability to successfully manage construction projects;
- possibility of errors when estimating revenue and progress to date on percentage-of-completion contracts;
- inaccurate estimates used when entering into fixed-priced contracts;
- challenges integrating new types of work or new processes into our divisions;
- the cost and availability of qualified labor, especially electricians and construction supervisors;
- accidents resulting from the physical hazards associated with our work and potential for vehicle accidents;
- success in transferring, renewing and obtaining electrical and construction licenses after the recent consolidation of our divisions;
- the possibility that our restructuring program will not be successfully executed;
- our ability to pass along increases in the cost of commodities used in our business, in particular, copper, aluminum, steel, fuel and certain plastics;
- potential supply chain disruptions due to credit or liquidity problems faced by our suppliers;
- loss of key personnel and effective transition of new management;
- warranty losses or other latent defect claims in excess of our existing reserves and accruals;
- warranty losses or other unexpected liabilities stemming from former divisions which we have sold or closed;
- growth in latent defect litigation in states where we provide residential electrical work for home builders not otherwise covered by insurance;
- limitations on the availability of sufficient credit or cash flow to fund our working capital needs;
- difficulty in fulfilling the covenant terms of our credit facilities;
- increased cost of surety bonds affecting margins on work and the potential for our surety providers to refuse bonding at their discretion;

Table of Contents

increases in bad debt expense and days sales outstanding due to liquidity problems faced by our customers; changes in the assumptions made regarding future events used to value our stock options and performance-based stock awards; uncertainties inherent in estimating future operating results, including revenues, operating income or cash flow; disagreements with taxing authorities with regard to tax positions we have adopted; complications associated with the incorporation of new accounting, control and operating procedures; the financial impact of new or proposed accounting regulations; our ability to optimize our new operating, accounting and financial systems; ability of our controlling shareholder to take action not aligned with our other shareholders; the possibility that certain of our net operating losses may be restricted or reduced in a change of control; our ability to retain our financing agreements and surety arrangements under a change in control; credit and capital market conditions, including changes in interest rates that affect the cost of construction financing and mortgages, and the inability for some of our customers to retain sufficient financing which could lead to project cancellations; and the sale or disposition of the shares of our common stock held by our majority shareholder, which, under certain circumstances, would trigger change of control provisions in contracts such as employment agreements, supply agreements, and financing and surety arrangements.

You should understand that the foregoing, as well as other risk factors discussed in Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008, could cause future outcomes to differ materially from those experienced previously or from those expressed in this quarterly report and our aforementioned annual report on Form 10-K/A. We undertake no obligation to publicly update or revise information concerning our restructuring efforts, borrowing availability, cash position or any forward-looking statements to reflect events or circumstances that may arise after the date of this report. Forward-looking statements are provided in this Amendment No. 1 to our quarterly report on Form 10-Q/A pursuant to the safe harbor established under the Private Securities Litigation Reform Act of 1995 and should be evaluated in the context of the estimates, assumptions, uncertainties, and risks described herein.

General information about us can be found at www.ies-co.com under Investor Relations. Our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, as well as any amendments to those reports, are available free of charge through our website as soon as reasonably practicable after we file them with, or furnish them to, the Securities and Exchange Commission. You may also contact our Investor Relations department at 713-860-1500, and they will provide you with copies of our public reports.

**INTEGRATED ELECTRICAL SERVICES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2008
(UNAUDITED)**

1. BUSINESS

Integrated Electrical Services, Inc., a Delaware corporation, was founded in June 1997 to create a leading national provider of electrical services, focusing primarily on the commercial, industrial, residential, low voltage and service and maintenance markets. The words IES, the Company, we, our, and us refer to Integrated Electrical Services, Inc. and, except as otherwise specified herein, to our subsidiaries.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed consolidated financial statements reflect, in the opinion of management, all adjustments necessary to present fairly the financial position as of, and the results of operations for, the periods presented. All adjustments are considered to be normal and recurring. Interim period results are not necessarily indicative of results of operations or cash flows for the full year. During interim periods, we follow the same accounting policies disclosed in Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008, with the exception of the adoption of Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* as described in the paragraphs that follow. Please refer to the Notes to Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008 when reviewing our interim financial results set forth herein.

On October 1, 2008, we adopted the provisions of SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 enhances the guidance for using fair value to measure assets and liabilities. In addition, SFAS 157 expands information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value and the effect of fair value measurements on earnings. This statement applies whenever other standards require (or permit) assets or liabilities to be measured at fair value, but it does not expand the use of fair value in any new circumstances. On February 12, 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position No. 157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2) that amends SFAS 157 to delay the effective date for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. FSP 157-2 defers the effective date of SFAS 157 to fiscal years beginning after November 15, 2008. We adopted SFAS 157 on October 1, 2008 for financial assets and liabilities measured on a recurring basis. See Note 7 for additional information on our adoption of SFAS 157.

Effective October 1, 2008, we adopted SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115*, which permits entities to elect to measure eligible items at fair value at specified dates. We did not elect the fair value option for any eligible items.

On October 1, 2007, we adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement 109* (FIN 48). FIN 48 created a single model to address accounting for uncertain income tax positions and established a minimum recognition threshold a tax position must meet before being recognized in the financial statements.

The evaluation of a tax position under FIN 48 is a two-step process. The first step is the recognition process to determine if it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authority, based on the technical merits of the position. The second step is a measurement process whereby a tax position that meets the more likely than not recognition threshold is calculated to determine the amount of benefit/expense to recognize in the financial statements. The tax position is measured at the largest amount of benefit/expense that is more likely than not of being realized upon ultimate settlement.

As the result of the adoption of FIN 48 and recognition of the cumulative effect of the adoption of the new accounting principal, we recorded an \$8.2 million decrease in contingent tax liabilities. The reduction of the contingent tax liabilities resulted in a \$7.8 million decrease in goodwill as prescribed by Statement of Position 90-7, *Financial Reporting by Entities in Reorganization Under the Bankruptcy Code* (SOP 90-7) and a \$0.4 million decrease in retained deficit. Upon the adoption of FIN 48, the total liability for unrecognized tax benefits was \$6.2 million, excluding accrued interest and penalties, which are discussed below. The liabilities for unrecognized tax benefits are a component of Other non-current liabilities in our consolidated balance sheet. The reversal of the liabilities for

unrecognized tax benefits would result in a \$6.1 million adjustment that would first go to reduce goodwill, then intangible assets and then additional paid-in capital as prescribed by SOP 90-7, as these represent amounts accrued prior to our emergence from bankruptcy. The remaining \$0.1 million would result in a decrease in the provision for income tax expense.

Table of Contents

We recognize interest and penalties related to unrecognized tax benefits as part of the provision for income taxes. Upon the adoption of FIN 48, we had approximately \$0.4 million in accrued interest and penalties included in liabilities for unrecognized tax benefits. The accrued interest and penalties are a component of Other non-current liabilities in our consolidated balance sheet. The reversal of the accrued interest and penalties would result in a \$0.2 million adjustment that would first go to reduce goodwill, then intangible assets and then additional paid-in capital as prescribed by SOP 90-7, as these represent amounts accrued prior to our emergence from bankruptcy. The remaining \$0.2 million would result in a decrease in the provision for income tax expense.

As of December 31, 2008 we have \$6.5 million of unrecognized tax benefit of which \$6.1 million would first go to reduce goodwill, then intangible assets and then additional paid-in capital as prescribed by SOP 90-7, as these represent amounts accrued prior to our emergence from bankruptcy. The remaining \$0.4 million would result in a decrease in the provision for income tax expense. We anticipate that approximately \$0.1 million of unrecognized tax benefits, including accrued interest, may reverse in the next twelve months. The reversal is predominately due to the expiration of the statutes of limitation for unrecognized tax benefits and the settlement of a state audit.

We had approximately \$0.5 million and \$0.4 million accrued for the payment of interest and penalties at December 31, 2008 and 2007, respectively. We recognize interest and penalties related to unrecognized tax benefits as part of the provision for income taxes.

We are currently not under federal audit by the Internal Revenue Service. The tax years ended September 30, 2005 and forward are subject to audit as are tax years prior to September 30, 2005, to the extent of unutilized net operating losses generated in those years. Currently, one of our business units is under a state audit for the tax years ended September 30, 2002, 2003 and 2005.

USE OF ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with United States generally accepted accounting principles (GAAP) requires the use of estimates and assumptions by management in determining the reported amounts of assets and liabilities, disclosures of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates are primarily used in our revenue recognition for construction in progress. Other estimates consist of allowances for doubtful accounts receivable, inventory obsolescence reserves, fair value assumptions in analyzing goodwill and long-lived asset impairments and adjustments from fresh-start accounting, realizability of deferred tax assets, self-insured claims liabilities, and estimated forfeiture rates and projected earnings used to measure stock-based compensation awards.

SEASONALITY AND QUARTERLY FLUCTUATIONS

Our results of operations are seasonal, depending on weather trends, with higher revenues typically generated during spring and summer months which coincides with our third and fourth fiscal quarters, and lower revenues typically generated during fall and winter months, which coincides with our first and second fiscal quarters. In addition, the construction industry has historically been highly cyclical. Our volume of business may be adversely affected by declines in construction projects resulting from adverse regional or national economic conditions. Quarterly results may also be materially affected by the timing of new construction projects. Accordingly, operating results for any fiscal period are not necessarily indicative of results that may be achieved for any subsequent fiscal period.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued Statement No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)), which replaces SFAS No. 141 *Business Combinations* (SFAS 141). SFAS 141(R) requires an acquiring entity to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS 141(R) eliminates the step acquisition model, changes the recognition of contingent consideration from being recognized when it is probable to being recognized at the time of acquisition, disallows the capitalization of transaction costs, and changes when restructuring charges related to acquisitions can be recognized. Under SFAS 141 and SOP 90-7, which were in effect at the time of our financial reorganization, reductions to our income tax valuation allowance recorded prior to April 30, 2006 would reduce goodwill to the extent thereof, then reduce other intangible assets, and then reduce additional paid-in capital. Beginning October 1, 2009, under the provisions of SFAS 141(R), reductions in the valuation allowance attributable to all periods, if any should occur, will be recorded as an

adjustment to our income tax expense. SFAS 141(R) is effective for fiscal years beginning on or after December 15, 2008.

Table of Contents**STOCK-BASED COMPENSATION**

Stock-based compensation consists of expenses related to employee stock option awards, restricted stock grants and performance-based restricted stock grants (see Note 6). We recognize stock-based compensation expense in a pro-rata manner based on the value of stock-based payment awards that are expected to vest, reduced for estimated forfeitures. SFAS 123(R), *Share-Based Payment* (SFAS 123(R)) requires forfeitures to be estimated at the time of grant and revised in subsequent periods if actual forfeitures differ from those estimates. We used the modified prospective application method at the time SFAS 123(R) was adopted.

SFAS 123(R) does not require a specific valuation model to measure the value of stock options, and either a binomial or the Black-Scholes model may be used. We used a binomial option pricing model to measure the fair value of stock options awarded in our 2008 and 2009 fiscal years. We believe the binomial pricing model is a more precise measure of the value of our stock options; however, the difference in the values between the two methods was not material for the options that we granted.

The assumptions used in the binomial pricing model calculation for the three months ended December 31, 2008 and 2007 are as follows:

	Three Months Ended December 31,	
	2008	2007
Weighted average value per option granted during the period (1)	\$ 8.56	\$ 9.84
Assumptions:		
Stock price volatility	86.4%	51.0%
Risk free rate of return	1.3%	3.6%
Future forfeiture rate (2)	0.0%	0.0%
Expected term	6.0 years	6.0 years

(1) We do not pay dividends on our common stock.

(2) The forfeiture rate is assumed to be zero based on the limited number of employees who have been awarded stock options.

2. STRATEGIC ACTIONS*The 2007 Restructuring Plan*

During our 2008 fiscal year, we completed our restructuring of operations from our previous geographic structure into three major lines of business. This operational restructuring (the 2007 Restructuring Plan) was part of our long-term strategic plan to reduce our cost structure, reposition our business to better serve our customers, strengthen our financial controls and, as a result, position us to implement a market-based growth strategy. The 2007 Restructuring Plan consolidated certain leadership roles, administrative support functions and eliminated redundant functions that were previously performed at our 27 divisions. Since we began the 2007 Restructuring Plan in June 2007, we recorded

a total of \$5.6 million of restructuring charges.

The first component of the 2007 Restructuring Plan was initiated in our Industrial segment in June 2007. Under this portion of the restructuring, 5 of our divisions were integrated under the IES Industrial segment, and the support and administrative functions of those businesses were combined at an operating location in Houston, Texas. The second component of the 2007 Restructuring Plan was initiated in our Commercial segment in September 2007. Under this portion of the restructuring, 17 of our divisions were integrated under the IES Commercial segment, and the support and administrative functions of those businesses were combined at an operating location in Tempe, Arizona. The third component of the 2007 Restructuring Plan was initiated in our Residential segment in September 2007. Under this portion of the restructuring, 5 of our divisions were integrated under the IES Residential segment during our 2008 fiscal year, and the support and administrative functions of those businesses were combined at an operating location near Houston, Texas. Since the inception of the 2007 Restructuring Plan, we recognized \$0.5 million, \$2.2 million and \$0.2 million in severance liabilities for our Industrial, Commercial and Residential segments, respectively. In addition to the severance costs described above, we incurred other charges of approximately \$2.6 million predominately for consulting services associated with the 2007 Restructuring Plan. We also wrote off \$0.1 million of leasehold improvements at an operating location that we closed. These charges have been identified within the Restructuring Charges caption in the consolidated statement of operations.

Table of Contents*The 2009 Restructuring Plan*

As described above, during our 2008 fiscal year, we completed a previously announced operational restructuring from our previous geographic structure into three major lines of business: Commercial, Industrial and Residential. In the first quarter of our 2009 fiscal year, we began a new restructuring program (the 2009 Restructuring Plan) that is designed to consolidate operations within our three segments, and is the next level of our business optimization strategy. Our plan is to streamline our local project and support operations, which will be managed through regional operating centers, and to capitalize on the investments we made over the past year to further leverage our resources. Under the 2009 Restructuring Plan, we expect to incur pre-tax restructuring charges, including severance benefits and facility consolidations and closings, of approximately \$2.0 million to \$3.0 million, which will be implemented over approximately 12 months. During the three months ended December 31, 2008, we incurred \$0.5 million associated with the 2009 Restructuring Plan, of which \$0.3 million, \$0.1 million and \$0.1 million was charged to our Commercial, Industrial and Residential segments, respectively.

The following table summarizes the activities related to our restructuring activities by component (in thousands):

	Severance Charges	Consulting / Other Charges	Total
Restructuring liability at September 30, 2008	\$ 638	\$ 53	\$ 691
Restructuring charges incurred during the three months ended December 31, 2008	483		483
Less cash payments during the three months ended December 31, 2008	(547)	(53)	(600)
Restructuring liability at December 31, 2008	\$ 574	\$	\$ 574

Exit or Disposal Activities

On March 28, 2006, based on the recommendation of the Board of Directors, we committed to an exit plan with respect to five underperforming subsidiaries in our Commercial and Industrial segments. The exit plan committed to a shut-down or consolidation of the operations of these subsidiaries or, alternatively, the sale or other disposition of the subsidiaries, whichever came sooner. The exit plan is complete for the five subsidiaries that we selected to exit in March 2006, and the operations of these subsidiaries substantially ceased as of September 30, 2006. In June 2007, we shut down our Mid-States Electric division, located in Jackson, Tennessee. Mid-States was part of our Commercial segment prior to being classified as discontinued. In August 2008, we shut down our Haymaker division, located in Birmingham, Alabama. Haymaker was part of our Industrial segment prior to being classified as discontinued. The assets, liabilities and operating results for each of these shut down entities have been reclassified to discontinued operations for both current and prior periods. Remaining net working capital related to these subsidiaries was \$1.4 million and \$1.5 million at December 31, 2008 and September 30, 2008, respectively. As a result of inherent uncertainty in the exit plan and the monetization of these subsidiaries' working capital, we could experience additional losses of working capital. At December 31, 2008, we believe we have recorded adequate reserves to reflect the net realizable value of the working capital; however, subsequent events may impact our ability to collect. We have included the results of operations related to these business units in discontinued operations for the three months ended December 31, 2008, and all prior periods presented have been reclassified accordingly. Summarized financial data for all discontinued operations are outlined below (in thousands):

	Three Months Ended December 31,	
	2008	2007
Revenues	\$ 21	\$ 1,748

Edgar Filing: INTEGRATED ELECTRICAL SERVICES INC - Form 10-Q/A

Gross profit	\$	19	\$	404
Pre-tax income (loss)	\$	(29)	\$	252

3. DEBT AND LIQUIDITY

Debt consists of the following (in thousands):

	December 31, 2008	September 30, 2008
Term Loan, due May 15, 2013, bearing interest at 11.0%	\$ 25,000	\$ 25,000
Camden Note Payable, due July 1, 2010, bearing interest at 4.59%	3,736	4,419
Capital lease and other	196	225
Total debt	28,932	29,644
Less Short-term debt and current maturities of long-term debt	(2,717)	(2,905)
Total long-term debt	\$ 26,215	\$ 26,739

Future payments on debt at December 31, 2008 are as follows (in thousands):

2009	\$ 2,717
2010	1,207
2011	8
2012	
2013	25,000
Thereafter	
Total	\$ 28,932

For the three months ended December 31, 2008 and 2007, we incurred interest expense of \$1.0 million and \$4.2 million, respectively. Interest expense includes amortization of deferred financing charges of \$0.1 million and \$0.7 million for the three months ended December 31, 2008 and 2007, respectively, and prepayment penalties of \$2.1 million incurred during December 2007.

The Tontine Capital Partners Term Loan

On December 12, 2007, we entered into a \$25.0 million senior subordinated loan agreement (the Tontine Term Loan) with Tontine Capital Partners, L.P., a related party. The proceeds of the Tontine Term Loan, together with cash on hand, were used to fund the repayment of the Eton Park Term Loan (defined below).

The Tontine Term Loan bears interest at 11.0% per annum and is due on May 15, 2013. Interest is payable quarterly in cash or in-kind at our option. Any interest paid in-kind will bear interest at 11.0% in addition to the loan principal. We may repay the Tontine Term Loan at any time prior to the maturity date at par, plus accrued interest without penalty. The Tontine Term Loan is subordinated to our existing Revolving Credit Facility (defined below) with Bank of America, N.A. The Tontine Term Loan is an unsecured obligation of the Company and its subsidiary borrowers. The Tontine Term Loan contains no financial covenants or restrictions on dividends or distributions to stockholders.

Camden Note Payable

On August 1, 2008, we financed an insurance policy with a \$4.6 million note payable from Camden Premium Finance, Inc. (the Camden Note Payable), bearing interest at 4.59%, through July 1, 2010. Under the terms of the Camden Note Payable, we are to make thirteen equal payments of \$243,525 (including principal and interest) beginning September 1, 2008 until October 1, 2009, followed by ten equal payments of \$167,589 (including principal and interest). The Camden Note Payable is collateralized by the gross unearned premiums on the policy and any payments on account of loss under the policy. As of December 31, 2008, we have a remaining liability of \$3.7 million under the Camden Note Payable which reflects future principal payments.

Table of Contents*The Revolving Credit Facility*

On May 12, 2006, we entered into an agreement, as amended (the *Loan and Security Agreement*), for a revolving credit facility (the *Revolving Credit Facility*) with Bank of America, N.A. and certain other lenders. On May 9, 2008, we renegotiated the terms of our Revolving Credit Facility and entered into an amended agreement with the same financial institutions. The Revolving Credit Facility provides access to revolving borrowings in the aggregate amount of up to \$60.0 million. At December 31, 2008, we had \$34.0 million in letters of credit issued against the Revolving Credit Facility and \$5.9 million available under the Revolving Credit Facility.

The Revolving Credit Facility is guaranteed by our subsidiaries and secured by first priority liens on substantially all of our and our subsidiaries' existing and future acquired assets, exclusive of collateral provided to our surety providers. The Revolving Credit Facility contains customary affirmative, negative and financial covenants that were modified in conjunction with its renewal and amendment on May 9, 2008. The financial covenants are described below in the section titled *Financial Covenants*. The Revolving Credit Facility also restricts us from paying cash dividends and places limitations on our ability to repurchase our common stock. The maturity date of the Revolving Credit Facility is May 12, 2010.

Under the renegotiated terms of our Revolving Credit Facility interest is calculated at LIBOR plus 3.0%, or the lender's prime rate (the *Base Rate*) plus 1.0% through September 30, 2008. Thereafter, interest is based on our total liquidity, which is calculated as cash on hand plus availability under the revolving credit facility, as shown in the following table.

Total Liquidity	Interest Rate
Greater than \$60 million	LIBOR plus 2.75% or Base Rate plus 0.75%
From \$40 million to \$60 million	LIBOR plus 3.00% or Base Rate plus 1.00%
Less than \$40 million	LIBOR plus 3.25% or Base Rate plus 1.25%

At December 31, 2008 our total liquidity was \$55.2 million. For the three months ended December 31, 2008, our weighted average interest rate under the Revolving Credit Facility was 5.0%. The letter of credit fee under the revised agreement was 3.25% through September 30, 2008, after which the letter of credit fee is based on the same factor as loans outstanding.

In addition, we are charged monthly in arrears (1) an unused line fee of either 0.5% or 0.375%, depending on the utilization of the credit line, and (2) certain other fees and charges as specified in the revolving credit agreement. Finally, the Revolving Credit Facility is subject to a prepayment fee of 0.5% until May 2009 and 0.25% until May 2010. We incurred a \$275,000 charge from Bank of America as a result of the amendment, of which \$200,000 is classified as a prepaid expense and is being amortized over 12 months and \$75,000 is classified as a deferred financing fee and is being amortized over 24 months.

Through May 9, 2008, loans under the Revolving Credit Facility bore interest at LIBOR plus 3.5% or the base rate plus 1.5% on the terms set in the credit agreement. In addition, we were charged monthly in arrears (1) an unused line fee of either 0.5% or 0.375%, depending on the utilization of the credit line, (2) a letter of credit fee equal to the applicable per annum LIBOR margin times the amount of all outstanding letters of credit, and (3) certain other fees and charges as specified in the revolving credit agreement.

Financial Covenants

The financial covenants for the Revolving Credit Facility as in effect on December 31, 2008, are described in the table that follows. As of December 31, 2008, we are in compliance with each of the following amended financial covenants under the Revolving Credit Facility:

Covenant	Requirement	Actual
Shutdown Subsidiaries	Cumulative loss not to exceed \$2.0 million	Cumulative loss of \$1.0 million
Earnings Before Interest and Taxes		
Fixed Charge Coverage Ratio	Minimum of 1.25:1.00	N/A ⁽¹⁾
Leverage Ratio	Maximum of 3.50:1.00	N/A ⁽¹⁾

- (1) This covenant requirement will not be in effect at any time our total liquidity, as defined in the Loan and Security Agreement, exceeds \$50 million.

As of December 31, 2007, we were also in compliance with all of our financial covenants under the Revolving Credit Facility.

Table of Contents*The Eton Park / Flagg Street Term Loan*

On May 12, 2006, we entered into a \$53.0 million senior secured term loan (the Eton Park Term Loan) with Eton Park Fund L.P. and certain of its affiliates and Flagg Street Partners L.P. and certain of its affiliates to refinance \$51.9 million in senior convertible notes then outstanding. On December 12, 2007, we terminated the Eton Park Term Loan by prepaying in full all outstanding principal and accrued interest on the loan. On the same day, we entered into the \$25 million Tontine Term Loan, as described above. Along with a prepayment penalty of \$2.1 million that was included in interest expense and accrued interest of \$1.0 million, the payoff amount under the Eton Park Term Loan was \$48.7 million. Finally, we wrote off previously unamortized debt issuance costs of \$0.3 million on the Eton Park Term Loan. Our weighted average interest rate under the Eton Park Term Loan was 10.75% for the period from October 1, 2007 to December 12, 2007.

4. EARNINGS PER SHARE

Our restricted shares granted under the 2006 Equity Incentive Plan participate in any dividends declared on our common stock. Accordingly, the restricted shares are considered participating securities under the two-class method as required by Emerging Issues Task Force Issue No. 03-6, *Participating Securities and the Two-class method under FASB Statement No. 128*. The two-class method is an earnings allocation formula that determines earnings for each class of common stock and participating securities according to dividends declared or accumulated and participation rights in undistributed earnings. Under the two-class method, net income is reduced by the amount of dividends declared in the current period for each class of stock and by the contractual amounts of dividends that must be paid for the current period. The remaining earnings are then allocated to common stock and participating securities to the extent that each security may share in earnings as if all of the earnings for the period had been distributed. Diluted earnings per share is calculated using the treasury stock and if converted methods for potential common stock. Basic earnings per share is calculated as income (loss) available to common stockholders, divided by the weighted average number of common shares outstanding during the period. If the effect is dilutive, participating securities are included in the computation of basic earnings per share. Our participating securities do not have a contractual obligation to share in the losses in any given period. As a result, these participating securities will not be allocated any losses in the periods of net losses, but will be allocated income in the periods of net income using the two-class method.

The tables that follow reconcile the components of the basic and diluted earnings per share for the three months ended December 31, 2008 and 2007 (in thousands, except per share and per share data):

	Three Months Ended December 31,

Table of Contents**5. OPERATING SEGMENTS**

In accordance with SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information* certain information is disclosed based on the way management organizes financial information for making operating decisions and assessing performance.

We manage and measure performance of our business in three distinct operating segments: Commercial, Industrial, and Residential. We also have a Corporate segment that provides general and administrative services to our three operating segments. The Commercial segment provides electrical and communications design, installation, renovation, engineering and maintenance and replacement services in facilities such as office buildings, high-rise apartments and condominiums, theaters, restaurants, hotels, hospitals and critical-care facilities, school districts, light manufacturing and processing facilities, military installations, airports, outside plant, network enterprises and switch network customers. The Industrial segment provides electrical design, installation, renovation and engineering and maintenance and replacement services in facilities such as manufacturing and distribution centers, water treatment facilities, refineries, petrochemical and power plants, and alternative energy facilities. In addition to these services, our Industrial segment also designs and assembles modular power distribution centers. The Residential segment consists of electrical installation, replacement and renovation services in single-family, condominium, townhouse and low-rise multifamily housing units. The Corporate segment includes expenses associated with our home office, which provides support services to the other segments.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies, see Note 2 to our Consolidated Financial Statements included in Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008. We evaluate performance based on income from operations of the respective business units prior to home office expenses. Management allocates costs between segments for selling, general and administrative expenses, goodwill impairment, depreciation expense, capital expenditures and total assets. Segment information for continuing operations for the three months ended December 31, 2008 and 2007 is as follows (in thousands):

	Three Months Ended December 31, 2008 (Unaudited) Restated				
	Commercial	Industrial	Residential	Corporate	Total

Table of Contents

We have no operations or long-lived assets in countries outside of the United States.

Total assets as of December 31, 2008 and 2007 exclude assets from discontinued operations of \$1.8 million and \$4.0 million, respectively.

6. STOCKHOLDERS EQUITY

On May 12, 2008, 10,555 shares of outstanding common stock that were reserved for issuance upon exchange of previously issued shares pursuant to our plan of reorganization were cancelled.

The 2006 Equity Incentive Plan (as amended, the 2006 Plan) became effective on May 12, 2006. The 2006 Plan provides for grants of both stock options and common stock, including restricted stock and performance-based restricted stock. We have approximately 1.1 million shares of common stock authorized for issuance under the 2006 Plan.

Treasury Stock

On December 12, 2007, we entered into an amendment to our Loan and Security Agreement. The amendment permitted us to pay off a senior secured term loan and enter into a new subordinated note agreement for a reduced principal amount. Further, the amendment allowed us to implement a stock repurchase program for up to one million shares of our common stock over the following 24 months. On December 12, 2007, our Board of Directors authorized the repurchase of up to one million shares of our common stock. This share repurchase plan is authorized through December 2009, and as of December 31, 2008, we have repurchased 886,360 shares at an average cost of \$16.24 per share. During the three months ended December 31, 2008 we repurchased 301,418 shares of common stock under the share repurchase program, we repurchased 661 shares of common stock from our employees to satisfy tax withholding requirements upon the vesting of restricted stock issued under the 2006 Plan, we issued 182,600 shares of treasury stock under our share-based compensation programs, and 120 unvested shares of restricted stock were forfeited by a former employee and returned to treasury stock.

Restricted Stock

We granted 180,100 shares of restricted stock to our employees during the first three months of our 2009 fiscal year. These restricted shares were granted at prices ranging from \$8.44 to \$12.31 per share with a weighted average price of \$8.60 per share under various vesting terms.

We granted 91,900 shares of restricted stock to our employees during the first three months of our 2008 fiscal year of which 5,300 shares have been forfeited as of December 31, 2008. These restricted shares were granted at prices ranging from \$18.79 to \$19.98 per share with weighted average price of \$19.78 per share under various vesting terms. During the three months ended December 31, 2008 and 2007, we recognized \$0.4 million and \$0.7 million, respectively, in compensation expense related to these awards. As of December 31, 2008, the unamortized compensation cost related to outstanding unvested restricted stock was \$2.6 million. We expect to recognize \$1.0 million related to these awards during the remaining nine months of our 2009 fiscal year, and \$1.6 million thereafter.

All the restricted shares granted under the 2006 Plan (vested or unvested) participate in dividends, if any, issued to common shareholders.

Performance-Based Restricted Stock

During the year ended September 30, 2008, we granted 15 members of our senior management team performance-based phantom stock units (PSUs). Each PSU is convertible into shares of restricted common stock that will cliff vest on September 30, 2010, subject to the terms of the award. The aggregate size of the award is based on the Company achieving cumulative fully diluted earnings per share of \$2.30 over the course of our 2008 and 2009 fiscal years. At the time the award was made, the potential aggregate range of the award was between zero and 188,300 shares of restricted stock, depending on the actual cumulative earnings per share for this period. Due to one PSU forfeiture during fiscal year 2008, the current potential aggregate maximum award is 177,700 shares.

Table of Contents

At the time the PSU awards were granted, we forecasted that we would ultimately issue 94,150 restricted shares under the program, based on our achieving cumulative fully diluted earnings per share of \$2.30 over the course of our 2008 and 2009 fiscal years. Under SFAS 123(R), the estimated fair value of these PSUs on the date of grant was \$1.5 million. The awards vest over three years and are to be amortized on a straight-line basis throughout that period. We expensed \$0.3 million through the end of the nine month period ended June 30, 2008 based on this projection. During the fourth quarter of our 2008 fiscal year, we revised our 2009 projected earnings per share in conjunction with our year-end budget analysis, resulting in the reversal of all amounts previously expensed as we did not believe we would achieve the minimum cumulative earnings per share threshold of \$1.73 to issue any restricted shares under the program. We will not accrue any compensation expense under this award during our 2009 or 2010 fiscal years. However, any deviation in the cumulative fully diluted earnings per share that we achieve through the end of our 2009 fiscal year will result in a change in the actual amount of stock-based compensation that we recognize over the vesting period.

Stock Options

During the three months ended December 31, 2008, we granted 7,500 stock options at an exercise price of \$12.31 per share. These options vest on January 31, 2009 and expire ten years from the grant date if they are not exercised. We granted 11,000 stock options at an exercise price of \$18.79 per share during the three months ended December 31, 2007. These options vest over a three year period at a rate of one-third on the annual anniversary date of the grant and expire ten years from the grant date if they are not exercised.

During the three months ended December 31, 2008 and 2007, we recognized \$0.2 million and \$0.1 million, respectively, in compensation expense related to these awards. As of December 31, 2008, the unamortized compensation cost related to outstanding unvested stock options was \$0.6 million. We expect to recognize \$0.4 million related to these awards during the remaining nine months of our 2009 fiscal year, and \$0.2 million thereafter.

The following table summarizes activity under our stock option and incentive compensation plans.

	Shares	Weighted Average Exercise Price	
Outstanding, September 30, 2008	161,000	\$	19.87
Options granted	7,500		12.31
Exercised			
Expired			
Forfeited			
Outstanding, December 31, 2008	\$ 168,500	\$	19.53
Exercisable, December 31, 2008	\$ 83,668	\$	18.98

The following table summarizes all options outstanding and exercisable at December 31, 2008:

Range of Exercise Prices	Outstanding	Remaining Contractual		Weighted-Average		Weighted-Average	
		Life in Years	Weighted-Average Exercise Price	Exercisable	Weighted-Average Exercise Price		
\$12.31 \$18.79	123,500	7.9	\$ 17.02	70,334	\$	17.43	
\$20.75 \$33.55	45,000	8.5	26.44	13,334		27.15	
	168,500	8.0	\$ 19.53	83,668	\$	18.98	

Upon exercise of stock options, it is our policy to first issue shares from treasury stock, then to issue new shares. Unexercised options expire between July 2016 and January 2018.

Table of Contents**7. FAIR VALUE MEASUREMENTS***Investment in EPV Solar*

On December 24, 2008, we invested \$2.0 million in the form of a convertible note receivable and warrants to purchase common stock from EPV Solar (EPV), formerly Energy Photovoltaics, a privately-held company in which we continue to hold a minority interest. The EPV convertible note receivable has a \$2.7 million face value, an 8% interest rate under which interest is payable semi-annually on June 15 and December 15, and is due on June 15, 2010. The stock warrants allow us to purchase up to 533,333 common shares of EPV at a strike price of \$1.25 per share. These warrants expire on December 31, 2013. Under the terms of SFAS 115, *Accounting for Certain Investment in Debt and Equity Securities*, we allocated the \$2.0 million investment on a pro-rata basis based on the fair value of the note receivable and the warrants at the time we completed the purchase agreement. Accordingly, we recorded the note receivable at \$1,755,551 as of December 24, 2008, and we will accrete its value to \$2.0 million through the term date. We recorded the warrants at \$244,449 as of December 24, 2008. Collectively, this investment is included in our consolidated balance sheet as an Other Non-Current Asset.

Fair Value Measurement Accounting

We adopted SFAS 157 on October 1, 2008 for financial assets and liabilities measured on a recurring basis. SFAS 157 applies to all financial assets and financial liabilities that are being measured and reported on a fair value basis. There was no impact upon adoption of Statement 157 to our consolidated financial statements.

Under SFAS 157, fair value is considered the price to sell an asset, or transfer a liability, between market participants on the measurement date. Fair value measurements assume that the asset or liability is (1) exchanged in an orderly manner, (2) the exchange is in the principal market for that asset or liability, and (3) the market participants are independent, knowledgeable, able and willing to transact an exchange.

SFAS 157 establishes a framework for measuring fair value by creating a hierarchy for observable independent market inputs and unobservable market assumptions and expands disclosures about fair value measurements. Considerable judgment is required to interpret the market data used to develop fair value estimates. As such, the estimates presented herein are not necessarily indicative of the amounts that could be realized in a current exchange. The use of different market assumptions and/or estimation methods could have a material effect on the estimated fair value.

Financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2008 are summarized in the following table by the type of inputs applicable to the fair value measurements (in thousands).

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments in equity securities	\$ 293	\$ 49	\$	\$ 244
Total	\$ 293	\$ 49	\$	\$ 244

Below is a description of the inputs used to value the assets summarized in the preceding table.

Level 1 Inputs represent unadjusted quoted prices for identical assets exchanged in active markets.

Level 2 Inputs include directly or indirectly observable inputs other than Level 1 inputs such as quoted prices for similar assets exchanged in active or inactive markets; quoted prices for identical assets exchanged in inactive markets; and other inputs that are considered in fair value determinations of the assets.

Level 3 Inputs include unobservable inputs used in the measurement of assets. Management is required to use its own assumptions regarding unobservable inputs because there is little, if any, market activity in the assets or related observable inputs that can be corroborated at the measurement date. In order to estimate the fair value of our warrant position, our management utilizes the financial information of the company, along with a valuation model we have prepared which includes the following inputs: Risk-free interest rate, credit risk, volatility, and recent equity offerings

of the company.

The following table sets forth a reconciliation of assets measured at fair value on a recurring basis with the use of significant unobservable inputs (Level 3) from October 1, 2008 to December 31, 2008 follows (in thousands).

	Investments in equity securities
Balance at October 1, 2008	\$
Purchases	\$ 244
Balance at December 31, 2008	\$ 244

Table of Contents**8. COMMITMENTS AND CONTINGENCIES***Legal Matters*

In the construction business there are frequently claims and litigation. There are inherent claims and litigation risk associated with the number of people that work on construction sites and the fleet of vehicles on the road everyday. Additionally, latent defect litigation is normal for residential home builders in some parts of the country, and latent defect litigation is increasing in certain states where we perform work. We proactively manage such claims and litigation risks through safety programs, insurance programs, litigation management at the corporate and local levels, and a network of attorneys and law firms throughout the country. Nevertheless, claims are sometimes made and lawsuits filed for amounts in excess of their value or in excess of the amounts for which they are eventually resolved. Claims and litigation normally follow a predictable course of time to resolution. However, there may be periods of time in which a disproportionate amount of our claims and litigation are concluded in the same quarter or year. If multiple matters are resolved during a given period, then the cumulative effect of these matters may be higher than the ordinary level in any one reporting period. We believe that all such claims and litigation are either adequately covered by insurance or, if not so covered, should not ultimately result in any liability which would have a material adverse effect on our financial position, liquidity or results of operations. We expense routine legal costs related to proceedings as they are incurred.

Clark Construction v. IES Commercial, Inc. f/k/a J.W. Gray

In September 2008, Clark Construction (Clark) filed suit against us to recover the expenses incurred by Clark and its sub-guard surety to complete a project after Clark terminated J.W. Gray (Gray), one of our former divisions, from the project. During the five-month period ended September 30, 2006, Gray received approximately \$4.9 million in backcharges from Clark, which we disputed. We recorded \$0.4 million as a loss reserve, included in current liabilities, specifically related to these backcharges. The remaining claim associated with the backcharges is approximately \$4.5 million. We have not recorded any liability with respect to this amount. In 2006, we reversed previously recognized revenues related to this project of \$0.5 million and wrote off \$0.4 million of receivables and \$0.1 million in underbillings. Clark alleges the expenses were the result of delays caused by Gray s insufficient staffing of the project. We contend that delays were the result of Clark s failure to properly manage the project, delays of other subcontractors and issues not in the control of Gray. Clark claims that the cost to complete the project and other damages total \$4.5 million. We have filed an answer and a counterclaim seeking payment of the \$0.3 million due for work completed and an additional amount in excess of \$0.8 million for delay and productivity impact on our costs. While we believe Clark s charges may potentially be without merit, there can be no assurances that we will ultimately prevail in this dispute.

Ward Transformer Site

The Ward Transformer Site (the Ward Site) was a facility to clean, service and refurbish transformers that operated from approximately 1964 to 2006. During the course of its operation, the Ward Site facility was contaminated by Polychlorinated Biphenyls (PCBs), a compound that has been classified as a persistent organic pollutant. These PCBs have been found to have migrated off the Ward Site. One of our divisions, Primo Electric Company utilized Ward for transformer work and has been identified as one of approximately 250 potential responsible parties for the clean-up of the site. There is an Emergency Removal Action and remediation ongoing at the Ward Site pursuant to a settlement agreement and Administrative Order on Consent entered into in September 2005. Neither we nor any of our subsidiaries is a party to that settlement agreement or Order on Consent. Significant costs will be incurred on the Emergency Removal Action with estimates ranging from \$12 million to \$72 million. There will be additional remediation and costs associated with remediation of the offsite contamination, and there could be additional contamination and remediation not yet identified. A preliminary allocation has been proposed by some of the potentially responsible parties based on the records and type of work performed at the Ward Site, and under that allocation 1.537% of the potential liability for the Ward Site has been attributed to us; however, we have not completed our own investigation to determine if this allocation is accurate. We have entered into a tolling agreement through March 16, 2009, and we are presently evaluating our exposure and potential indemnifications owed to us. As of December 31, 2008 we have not recorded a reserve for this matter as we are still considering both the likelihood of our responsibility for damages at the Ward Site and our potential range of exposure in the event that we are held

liable.

Table of Contents

Self-insurance

We are subject to large deductibles on our property and casualty insurance policies. As a result, many of our claims are effectively self-insured. Many claims against our insurance are in the form of litigation. At December 31, 2008, we had \$10.3 million accrued for self-insurance liabilities, including \$2.8 million for general liability coverage losses. We are also subject to construction defect liabilities, primarily within our Residential segment. We believe the likely range of our potential liability for construction defects is from \$0.5 million to \$1.0 million. As of December 31, 2008, we had reserved \$0.5 million for these claims, in accordance with SFAS 5, *Accounting for Contingencies*. Finally, for those legal proceedings not expected to be covered by insurance, we had accrued \$0.1 million at December 31, 2008.

Surety

Many of our customers require us to post performance and payment bonds issued by a surety. Those bonds guarantee the customer that we will perform under the terms of a contract and that we will pay our subcontractors and vendors. In the event that we fail to perform under a contract or pay subcontractors and vendors, the customer may demand the surety to pay or perform under our bond. Our relationship with our sureties is such that we will indemnify the sureties for any expenses they incur in connection with any of the bonds they issue on our behalf. We have not incurred any expenses to indemnify our sureties for expenses they incurred on our behalf. As of December 31, 2008, our cost to complete on projects covered by surety bonds was \$115.9 million. As of December 31, 2008, we utilized a combination of cash and letters of credit totaling \$25.6 million, which was comprised of \$21.0 million in letters of credit and \$4.6 million of cash and accumulated interest (as is included in Other Non-Current Assets), to collateralize our bonding programs.

On October 27, 2008, we entered into a Co-Surety Arrangement with two of our independent surety providers that increased our aggregate bonding capacity to \$325.0 million and reduced our bond premium to an average of \$11.25 per thousand dollars of contract costs for projects less than 24 months in duration. As is common in the surety industry, there is no commitment from these providers to guarantee our ability to issue bonds for projects as they are required. We believe that our relationships with these providers will allow us to provide surety bonds if and when they are required; however, we cannot guarantee that such bonds will be available. If surety bonds are not provided, there are situations in which claims or damages may result. Those situations occur when surety bonds are required for jobs that have been awarded, contracts are signed, work has begun or bonds may be required in the future by the customer according to terms of the contracts. If our subsidiaries are in one of those situations and not able to obtain a surety bond, then the result can be a claim for damages by the customer for the costs of replacing the subsidiary with another contractor. Customers are often reluctant to replace an existing contractor and may be willing to waive the contractual right or through negotiation be willing to continue the work on different payment terms. We evaluate our bonding requirements on a regular basis, including the terms and coverage offered by each provider. We believe we presently have adequate surety coverage.

Surety bond companies may also provide surety bonds at a cost including (i) payment of a premium, plus (ii) posting cash or letters of credit as collateral. The cost of cash collateral or letters of credit in addition to the selling, general and administrative costs and the industry practice of the customer retaining a percentage of the contract (5% - 10%) amount as retention until the end of the job, could make certain bonded projects uneconomical to perform.

Other Commitments and Contingencies

Some of the underwriters of our casualty insurance program require us to post letters of credit as collateral. This is common in the insurance industry. To date, we have not had a situation where an underwriter has had reasonable cause to effect payment under a letter of credit. At December 31, 2008, \$13.0 million of our outstanding letters of credit were utilized to collateralize our insurance program.

Table of Contents

Between October 2004 and September 2005, we sold all or substantially all of the assets of certain of our wholly owned subsidiaries. These sales were made to facilitate the business needs and purposes of the organization as a whole. Since we were a consolidator of electrical contracting businesses, often the best candidate to purchase these assets was a previous owner of the assets who usually was still associated with the subsidiary, often as an officer of that subsidiary, or otherwise. To facilitate the desired timing, the sales were made with more than ordinary reliance on the representations of the purchaser who is, in those cases, often the person most familiar with the business sold. There is the potential from selling assets net of liabilities, but retaining the entities from which they were sold, that if the purchaser is unwilling or unable to perform the transferred liabilities, we may be forced to fulfill obligations that were assigned or sold to others. If this were to occur, we would seek reimbursement from the purchasers. These potential liabilities will continue to diminish over time. To date, we have not been required to perform any projects sold under this divestiture program. From time to time, we may enter into firm purchase commitments for materials such as copper wire and aluminum wire among others which we expect to use in the ordinary course of business. These commitments are typically for terms less than one year and require us to buy minimum quantities of materials at specific intervals at a fixed price over the term. As of December 31, 2008, we had no open purchase commitments. We have committed to invest up to \$5.0 million in EnerTech Capital Partners II L.P. (EnerTech). EnerTech is a private equity firm specializing in investment opportunities emerging from the deregulation and resulting convergence of the energy, utility and telecommunications industries. Through December 31, 2008, we had invested \$4.9 million under our commitment to EnerTech.

9. Restatement of Condensed Consolidated Financial Statements (Unaudited)

The December 31, 2008 condensed consolidated financial statements included in our Original Form 10-Q filed on February 9, 2009, contained errors primarily related to additional charges for certain accruals, medical claims and certain other expenses, and resultant tax effects, that should have been recorded at December 31, 2008. Accordingly, the December 31, 2008 condensed consolidated financial statements have been restated to properly record these transactions. The effect of correcting these errors in our consolidated financial statements was as follows:

Condensed Consolidated Balance Sheets at December 31, 2008:

	As Reported	Adjustment	As Restated
Prepaid expenses and other current assets	\$ 6,530	\$ 17	\$ 6,547
Assets held for sale from discontinued operations	1,860	(67)	1,793
Total current assets	236,511	(50)	236,461
Property and equipment, net	24,991	297	25,288
Goodwill	4,383	497	4,880
Other non-current assets	20,999	(15)	20,984
Total assets	286,884	729	287,613
Accounts payable and accrued expenses	64,806	2,866	67,672
Total current liabilities	105,378	2,866	108,244
Other non-current liabilities	11,699	(190)	11,509
Total liabilities	143,292	2,676	145,968
Retained deficit	(11,570)	(1,947)	(13,517)
Total stockholders' equity	143,592	(1,947)	141,645
Total liabilities and stockholders' equity	\$ 286,884	\$ 729	\$ 287,613

Table of Contents**Condensed Consolidated Statements of Operations for the three months ended December 31, 2008:**

	As Reported	Adjustment	As Restated
Revenues	\$ 173,370	\$ (263)	\$ 173,107
Cost of services	143,710	1,420	145,130

Net cash used in investing activities	\$ (2,511)	\$ 77	\$ (2,434)

In addition, footnotes 4 and 5 have been restated to reflect the adjustments noted above.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion of our financial condition and results of operations in conjunction with our audited consolidated financial statements, the related Notes, and management's discussion and analysis included in Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008. This discussion contains forward-looking statements and involves numerous risks and uncertainties, including, but not limited to the risk factors discussed in the Risk Factors section of Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008 and in the Disclosures Regarding Forward-Looking Statements, and elsewhere in this Amendment No. 1 to our quarterly report on Form 10-Q/A. Actual results may differ materially from those contained in any forward-looking statements.

Restatement

The following discussion and analysis of our financial condition and results of operations includes the effects of the restated amounts as disclosed in Note 9 Restatement of Condensed Consolidated Financial Statements (Unaudited) included in Item I of this Amendment No. 1 to our Form 10-Q/A. For this reason, the data set forth in this section may not be comparable to discussions and data in our previously filed quarterly reports

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operation are based on our condensed consolidated financial statements, which have been prepared in accordance with GAAP. Preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses.

We have identified the accounting principles that we believe are most critical to our reported financial status by considering accounting policies that involve the most complex or subjective decisions or assessments. We identified our most critical accounting policies to be those related to revenue recognition, the assessment of goodwill impairment, our allowance for doubtful accounts receivable, the recording of our self-insurance liabilities and our estimation of the valuation allowance for deferred tax assets. These accounting policies, as well as others, are described in Note 2 of *Notes to Consolidated Financial Statements* in Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008.

During the first three months of our 2009 fiscal year, there has been only one change to our critical accounting policies and estimates from those described in Amendment No. 1 to our annual report Form 10-K/A for the year ended September 30, 2008. On October 1, 2008, we adopted the provisions of SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 enhances the guidance for using fair value to measure assets and liabilities. In addition, SFAS 157 expands information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value and the effect of fair value measurements on earnings. For additional analysis of our adoption of SFAS 157, see Item 1. *Condensed Consolidated Financial Statements* Note 1, *Business* of this report.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

We discuss recently adopted and issued accounting standards in Item 1. *Condensed Consolidated Financial Statements* Note 1, *Business* of this report, which is incorporated herein by reference.

RESTRUCTURING PROGRAMS

The 2007 Restructuring Plan

During our 2008 fiscal year, we completed our restructuring of operations from our previous geographic structure into three major lines of business. This operational restructuring (the 2007 Restructuring Plan) was part of our long-term strategic plan to reduce our cost structure, reposition our business to better serve our customers, strengthen our financial controls and, as a result, position us to implement a market-based growth strategy. The 2007 Restructuring Plan consolidated certain leadership roles, administrative support functions and eliminated redundant functions that were previously performed at our 27 divisions. Since we began the 2007 Restructuring Plan in June 2007, we recorded a total of \$5.6 million of restructuring charges.

Table of Contents

The first component of the 2007 Restructuring Plan was initiated in our Industrial segment in June 2007. Under this portion of the restructuring, 5 of our divisions were integrated under the IES Industrial segment, and the support and administrative functions of those businesses were combined at an operating location in Houston, Texas. The second component of the 2007 Restructuring Plan was initiated in our Commercial segment in September 2007. Under this portion of the restructuring, 17 of our divisions were integrated under the IES Commercial segment, and the support and administrative functions of those businesses were combined at an operating location in Tempe, Arizona. The third component of the 2007 Restructuring Plan was initiated in our Residential segment in September 2007. Under this portion of the restructuring, 5 of our divisions were integrated under the IES Residential segment during our 2008 fiscal year, and the support and administrative functions of those businesses were combined at an operating location near Houston, Texas. Since the inception of the 2007 Restructuring Plan, we recognized \$0.5 million, \$2.2 million and \$0.2 million in severance liabilities for our Industrial, Commercial and Residential segments, respectively. In addition to the severance costs described above, we incurred other charges of approximately \$2.6 million predominately for consulting services associated with the 2007 Restructuring Plan. We also wrote off \$0.1 million of leasehold improvements at an operating location that we closed. These charges have been identified within the Restructuring Charges caption in the consolidated statement of operations.

The 2009 Restructuring Plan

As described above, during our 2008 fiscal year, we completed a previously announced operational restructuring from our previous geographic structure into three major lines of business: Commercial, Industrial and Residential. On October 1, 2008, we began a new restructuring program (the 2009 Restructuring Plan) that is designed to consolidate operations within our three segments. The 2009 Restructuring Plan is the next level of our business optimization strategy. Our plan is to streamline our local project and support operations, which will be managed through regional operating centers, and to capitalize on the investments we made over the past year to further leverage our resources. Under the 2009 Restructuring Plan, we expect to incur pre-tax restructuring charges, including severance benefits and facility consolidations and closings, of approximately \$2.0 million to \$3.0 million, which will be implemented over approximately 12 months. During the three months ended December 31, 2008, we incurred \$0.5 million associated with the 2009 Restructuring Plan, of which \$0.3 million, \$0.1 million and \$0.1 million was charged to our Commercial, Industrial and Residential segments, respectively.

EXIT OR DISPOSAL ACTIVITIES

On March 28, 2006, based on the recommendation of the Board of Directors, we committed to an exit plan with respect to five underperforming subsidiaries in our Commercial and Industrial segments. The exit plan committed to a shut-down or consolidation of the operations of these subsidiaries or, alternatively, the sale or other disposition of the subsidiaries, whichever came sooner. In our assessment of the estimated net realizable value of the accounts receivable at these subsidiaries, in March 2006, we increased our general allowance for doubtful accounts having considered various factors, including the risk of collection and the age of the receivables. We believe this approach is reasonable and prudent. The exit plan is complete for the five subsidiaries that we selected to exit in March 2006, and the operations of these subsidiaries substantially ceased as of September 30, 2006.

In June 2007, we shut down our Mid-States Electric division, located in Jackson, Tennessee. Mid-States' operating equipment was either transferred to other IES divisions or sold to third parties. All project work was completed prior to closing Mid-States. Mid-States' assets, liabilities and operating results for both the current and prior periods have been reclassified to discontinued operations. Mid-States was part of our Commercial segment prior to being classified as discontinued.

In August 2008, we shut down our Haymaker division, located in Birmingham, Alabama. All project work was completed prior to closing Haymaker. Haymaker's assets, liabilities and operating results for both the current and prior periods have been reclassified to discontinued operations. Haymaker was part of our Industrial segment prior to being classified as discontinued.

Remaining net working capital related to these subsidiaries was \$1.4 million and \$1.5 million at December 31, 2008 and September 30, 2008, respectively. As a result of inherent uncertainty in the exit plan and the monetization of these subsidiaries' working capital, we could experience additional losses of working capital. At December 31, 2008, we believe we have recorded adequate reserves to reflect the net realizable value of the working capital; however,

subsequent events may impact our ability to collect.

Table of Contents**FINANCING***The Tontine Capital Partners Term Loan*

On December 12, 2007, we entered into a \$25.0 million senior subordinated loan agreement (the Tontine Term Loan) with Tontine Capital Partners, L.P., a related party. The Tontine Term Loan bears interest at 11.0% per annum and is due on May 15, 2013. Interest is payable quarterly in cash or in-kind at our option. Any interest paid in-kind will bear interest at the same rate (11.0%) in addition to the loan principal. We may repay the Tontine Term Loan at any time prior to the maturity date at par plus accrued interest without penalty. The Tontine Term Loan is subordinated to our Revolving Credit Facility (as defined below). The Tontine Term Loan is an unsecured obligation of the Company and its subsidiary borrowers. The Tontine Term Loan contains no financial covenants or restrictions on dividends or distributions to stockholders.

The Revolving Credit Facility

On May 12, 2006, we entered into an agreement (the Loan and Security Agreement) for a revolving credit facility (the Revolving Credit Facility) with Bank of America and certain other lenders. On May 9, 2008, we entered into an amended agreement governing the Revolving Credit Facility with the same financial institutions. The terms of the amended agreement are described in Item 1. *Condensed Consolidated Financial Statements* Note 3, *Debt and Liquidity* of this report, which is incorporated herein by reference.

The Revolving Credit Facility provides access to revolving borrowings in the aggregate amount of up to \$60.0 million. At December 31, 2008, we had \$5.9 million available under the Revolving Credit Facility and \$34.0 million in letters of credit issued against the Revolving Credit Facility. The maturity date of the Revolving Credit Facility is May 12, 2010.

SURETY

On October 27, 2008, we entered into a Co-Surety Arrangement with two of our independent surety providers that increased our aggregate bonding capacity to \$325.0 million and reduced our bond premium to an average of \$11.25 per thousand dollars of contract costs for projects less than 24 months in duration. As is common in the surety industry, there is no commitment from these providers to guarantee our ability to issue bonds for projects as they are required. We believe that our relationships with these providers will allow us to provide surety bonds if and when they are required; however, we cannot guarantee that such bonds will be available. If surety bonds are not provided, there are situations in which claims or damages may result. Those situations occur when surety bonds are required for jobs that have been awarded, contracts are signed, work has begun or bonds may be required in the future by the customer according to terms of the contracts. If our subsidiaries are in one of those situations and not able to obtain a surety bond, then the result can be a claim for damages by the customer for the costs of replacing the subsidiary with another contractor. Customers are often reluctant to replace an existing contractor and may be willing to waive the contractual right or through negotiation be willing to continue the work on different payment terms. We evaluate our bonding requirements on a regular basis, including the terms and coverage offered by each provider. We believe we presently have adequate surety coverage. As of December 31, 2008, our cost to complete on projects covered by surety bonds was \$115.9 million.

**RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED DECEMBER 31, 2008 COMPARED
TO THE THREE MONTHS ENDED DECEMBER 31, 2007**

The following tables present selected historical results of operations of IES and its subsidiaries with dollar amounts in millions. Percentages are expressed as a percent of revenues.

	Three Months Ended December 31, 2008		Three Months Ended December 31, 2007	
	\$	%	\$	%
	(Dollars in millions. Percentage of revenues.)			
Revenues	\$ 173.1	100.0%	\$ 197.1	100.0%
Cost of services (including depreciation)	145.1	83.9%	164.1	83.2%

Edgar Filing: INTEGRATED ELECTRICAL SERVICES INC - Form 10-Q/A

Table of Contents**Revenues**

	Three Months Ended December 31, 2008		Three Months Ended December 31, 2007	
	\$	%	\$	%
	(Dollars in millions. Percentage of revenues.)			
Commercial	\$ 101.7	58.8%	\$ 109.7	55.6%
Industrial	26.0	15.0%	32.1	16.3%
Residential	45.4	26.2%	55.3	28.1%
Total Consolidated	\$ 173.1	100.0%	\$ 197.1	100.0%

Consolidated revenues for the quarter ended December 31, 2008 were \$24.0 million less than the quarter ended December 31, 2007, a reduction of 12.2%. This decrease was the result of declines in volume at each of our three business segments, consistent with the national decline in construction activity.

Revenues in our Commercial segment decreased \$8.0 million during the quarter ended December 31, 2008, a 7.3% reduction compared to the quarter ended December 31, 2007. Nearly all of our Commercial operating locations experienced revenue shortfalls, as most industry sectors have begun to reduce, delay or cancel proposed construction projects, including high rise office towers, hotels, condominiums and casinos. We have also experienced increased competition from residential contractors who have been affected by the housing slowdown for less specialized retail work with lower barriers to entry.

Our Industrial segment posted a decrease in revenues of \$6.1 million during the quarter ended December 31, 2008, a decline of 19.0% as compared to the quarter ended December 31, 2007. During the quarter ended December 31, 2008, our Industrial segment has seen growth in transmission and distribution service projects; however, during this period we also experienced decreased construction at electrical substations, ethanol plants, and pulp and paper mills which was a key factor in our revenue decline, as many projects were deferred, cancelled or were awaiting financing. Also, several of our customers implemented extended holiday shut downs in response to current economic conditions.

The ongoing nationwide decline in demand for single-family homes has affected our Residential line of business, particularly in markets such as Southern California, Arizona, Georgia, Nevada and Texas. Due to the slowdown in housing construction, Residential revenues decreased \$9.9 million during the quarter ended December 31, 2008, down 17.9% as compared to the quarter ended December 31, 2007. We attribute the majority of this decrease to reductions in building activity throughout all the markets we serve, while the remaining portion of the decrease was attributable to the effect of lower prices in response to the competitive market conditions and falling input prices which affect the prices that we may pass along to our customers.

Gross Profit

	Three Months Ended December 31, 2008		Three Months Ended December 31, 2007	
	\$	%	\$	%
	(Dollars in millions. Percentage of revenues.)			
Commercial	\$ 14.4	14.1%	\$ 16.2	14.8%
Industrial	3.4	13.0%	\$ 5.9	18.3%
Residential	10.2	22.5%	\$ 10.9	19.7%
Total Consolidated	\$ 28.0	16.1%	\$ 33.0	16.8%

Table of Contents

The \$5.0 million decrease in our consolidated gross profit for the quarter ended December 31, 2008, as compared to the quarter ended December 31, 2007, was the result of lower consolidated revenues, as discussed above. Our overall gross profit percentage decreased to 16.1% during the quarter ended December 31, 2008 as compared to 16.8% during the quarter ended December 31, 2007.

Our Commercial segment's gross profit was \$14.4 million during the quarter ended December 31, 2008, down \$1.8 million from the quarter ended December 31, 2007. The gross margin percentage decreased by 70 basis points primarily due to lower project volume.

Gross profit at our Industrial segment declined \$2.5 million during the quarter ended December 31, 2008 as compared to the quarter ended December 31, 2007. The reduced gross profit in our Industrial sector resulted from the aforementioned lower project volumes and a mix of lower margin projects.

During the quarter ended December 31, 2008, our Residential segment experienced a \$0.7 million reduction in gross profit as compared to the quarter ended December 31, 2007. This decline resulted from the aforementioned \$9.9 million decrease in revenues related to the reduction in demand for single-family homes. However, our gross margin percentage in the Residential segment improved approximately 280 basis points to 22.5% during the quarter ended December 31, 2008 in spite of the revenue declines. We attribute much of the improvement in our Residential gross margin to improved execution in our multi-family division. In addition to improved profitability at our multi-family housing division, we also benefited from a stabilization of material costs and the ability to increase and decrease labor to meet project demands.

Selling, General and Administrative Expenses

	Three Months Ended December 31, 2008		Three Months Ended December 31, 2007	
	\$	%	\$	%
	(Dollars in millions. Percentage of revenues.)			
Commercial	\$ 8.4	8.3%	\$ 11.0	10.0%
Industrial	1.6	6.2%	2.5	7.7%
Residential	8.7	19.2%	8.5	15.4%
Corporate	10.2		8.4	
Total Consolidated	\$ 28.9	16.7%	\$ 30.4	15.4%

Selling, general and administrative expenses include costs not directly associated with performing work for our customers. These costs consist primarily of compensation and benefits related to corporate and business unit management, occupancy and utilities, training, professional services, consulting fees, travel, and certain types of depreciation and amortization.

During the quarter ended December 31, 2008, our selling, general and administrative expenses were \$28.9 million, a decrease of \$1.5 million, or 4.9%, as compared to the quarter ended December 31, 2007. This decrease was due primarily to our strategic efforts to restructure our operations and to eliminate redundant positions and facilities. Since our restructuring program began we have eliminated approximately 160 administrative positions. In addition, we have also been able to reduce many of our professional fees as we have improved our operating and financial controls and completed many of our turnaround efforts. Notable declines in our selling, general and administrative costs during the first quarter of our 2009 fiscal year as compared to the first quarter of our 2008 fiscal year, include: (i) a \$0.4 million decrease in employment expenses, (ii) a \$0.3 million reduction in occupancy costs, and (iii) a \$0.3 million reduction in other general business expenses at our divisions.

As previously indicated, we completed our operational restructuring plan in fiscal 2008, whereby we integrated 27 companies into three business segments. As a result, we experienced a \$3.3 million reduction in our combined Commercial, Industrial and Residential selling, general and administrative expenses, while our Corporate selling, general and administrative expenses have increased as a result of our investments in systems and organizational capabilities which have yielded savings and productivity throughout the business. We have completed the

implementation of new software programs and work processes which include: 1) a comprehensive project management system that is being utilized across our divisions to standardize our project management and reporting processes and provides our businesses near real-time visibility into project performance, 2) an accounting consolidation and reporting system that supplies management more robust financial data and improved transparency, and 3) outsourced our payroll processing to a leading national provider and employed technology to capture labor utilization more real time. In addition, we have invested in new sales capabilities which includes hiring and on boarding costs.

Table of Contents**Restructuring Charges**

As previously discussed in this report, we have restructured our operations from our previously decentralized structure into three major lines of business: Commercial, Industrial and Residential. Each of these lines of business is now supported by its own dedicated administrative shared services center which has consolidated many of the back office functions into a centralized location. This integration has enabled us to eliminate a number of redundant functions.

In conjunction with our restructuring program, we recognized the following costs during the three months ended December 31, 2008 and 2007 (in thousands):

	Three Months Ended December 31, 2008 2007 (Dollars in thousands)	
Severance compensation	\$ 483	\$ 629
Consulting and other charges		665
Total restructuring charges	\$ 483	1,294

Interest and Other Expense, Net

	Three Months Ended December 31, 2008 2007 (Dollars in thousands)	
Interest expense	\$ 921	\$ 1,459
Deferred financing charges	64	738
Debt prepayment penalty		2,052
Total interest expense	985	4,249
Interest income	\$ 160	\$ 1,120
Other income	61	426
Total interest and other expense, net	\$ 764	\$ 2,703

During the three months ended December 31, 2008, we incurred interest expense of \$1.0 million on an average debt balance of \$25.0 million for the Tontine Term Loan, and an average letter of credit balance of \$34.0 million and an average unused line of credit balance of \$26.0 million under the Revolving Credit Facility. This compares to interest expense of \$1.5 million for the three months ended December 31, 2007, on a combined average debt balance of \$41.5 million for the Eton Park Term Loan and the Tontine Term Loan, an average letter of credit balance of \$40.5 million under the Revolving Credit Facility and an average unused line of credit balance of \$39.5 million.

As described in Item 1. *Condensed Consolidated Financial Statements* Note 3, *Debt and Liquidity* of this report, on December 12, 2007, we repaid our Eton Park Term Loan using cash on hand and the proceeds from the Tontine Term Loan. We incurred a prepayment penalty of \$2.1 million on the Eton Park Term Loan, and we recognized previously unamortized debt issuance costs of \$0.3 million. During the quarter ended December 31, 2008, we recorded \$0.1 million of deferred financing charges, which reflect the amortization of fees incurred on the Tontine Term Loan. During the quarter ended December 31, 2007, we had deferred financing charges of \$0.7 million, which reflects the amortization of fees incurred on the Eton Park Term Loan.

During the three months ended December 31, 2008, total interest expense was offset by \$0.2 million in interest income on an average cash and cash equivalents balance of \$55.2 million, as compared to \$1.1 million in interest income on an average cash and cash equivalents balance of \$86.9 million during the three months ended December 31, 2007. In addition to reduced cash balances, interest income was also impacted by interest rates which averaged 1.2% during the quarter ended December 31, 2008 and 5.2% during the quarter ended December 31, 2007.

Table of Contents**Provision for Income Taxes**

On May 12, 2006, we had a change in ownership as defined in Internal Revenue Code Section 382. As such, our net operating loss utilization after the change date will be subject to Section 382 limitations for federal income taxes and some state income taxes. We have provided valuation allowances on all net operating losses where it is determined it is more likely than not that they will expire without being utilized.

The provision for income taxes from continuing operations decreased from a benefit of \$0.4 million for the three months ended December 31, 2007 to a benefit of \$.9 million for the three months ended December 31, 2008. The decrease in the provision for income taxes for the three months ended December 31, 2008 is attributable to the increase in the loss from continuing operations for the three months ended December 31, 2008, and an increase in state income taxes.

Income (Loss) from Discontinued Operations

As discussed earlier in this report, since March 2006 we have shut down seven underperforming subsidiaries. While this exit plan is substantially complete, there are still some revenues and expenses associated with the wind down of these subsidiaries. Such income statement amounts are classified as discontinued operations.

Revenues at these subsidiaries were \$21 thousand and \$1.7 million for the three months ended December 31, 2008 and the three months ended December 31, 2007, respectfully; earnings after tax at these subsidiaries was a net loss of \$15 thousand during the three months ended December 31, 2008 and net income of \$0.1 million during the three months ended December 31, 2007.

Working Capital

	December 31, 2008	September 30, 2008
	(Dollars in millions)	
CURRENT ASSETS:		
Cash and cash equivalents	\$ 49.3	64.7
Accounts receivable		
Trade, net of allowance of \$3.1 and \$2.6 respectively	122.7	132.3
Retainage	31.2	30.8
Inventories	12.3	12.9
Costs and estimated earnings in excess of billings on uncompleted contracts	12.6	14.7
Prepaid expenses and other current assets	6.5	6.7
Assets from discontinued operations	1.8	2.0
Total current assets	\$ 236.4	\$ 264.1
CURRENT LIABILITIES:		
Current maturities of long-term debt	\$ 2.7	\$ 2.9
Accounts payable and accrued expenses	67.7	99.9
Billings in excess of costs and estimated earnings on uncompleted contracts	37.5	33.7
Liabilities from discontinued operations	0.4	0.5
Total current liabilities	\$ 108.2	\$ 137.0
Working capital	\$ 128.2	\$ 127.1

During the quarter ended December 31, 2008, working capital increased by \$1.1 million, or 1.0%, as compared to September 30, 2008, reflecting a \$27.7 million decrease in current assets and a \$28.8 million decrease in current liabilities.

During the quarter ended December 31, 2008, our current assets decreased by \$27.8 million, or 10.5%, to \$236.4 million, as compared to \$264.2 million as of September 30, 2008. Cash and cash equivalents decreased by \$15.4 million during the quarter ended December 31, 2008 as compared to September 30, 2008. Trade accounts receivables, net, decreased by \$9.6 million at December 31, 2008 as compared to September 30, 2008, as days sales outstanding increased to 64 days as of December 31, 2008 from 63 days as of September 30, 2008. Within the current financial environment, we continue to monitor the collectability of our receivables closely. We also experienced a \$0.4 million increase in retainage and a \$2.1 million decrease in costs in excess of billings during the quarter ended December 31, 2008 as compared to September 30, 2008. Inventories decreased by \$0.6 million during the quarter ended December 31, 2008 as compared to September 30, 2008, reflecting the continued success of our strategic efforts to better manage our supply chain through utilization of just-in-time systems and improved material management. Prepaid expenses and other current assets decreased by a total of \$0.2 million, and assets from discontinued operations decreased \$0.2 million during the quarter ended December 31, 2008 as compared to September 30, 2008.

Table of Contents

During the quarter ended December 31, 2008, our total current liabilities decreased by \$28.8 million, to \$108.2 million, compared to \$137.0 million as of September 30, 2008. During the quarter ended December 31, 2008, accounts payable and accrued expenses decreased \$32.2 million as a result of reduced operating activities and due to the effects of our cash management efforts at the end of our 2008 fiscal year. Billings in excess of costs increased \$3.8 million during the quarter ended December 31, 2008 as compared to the year ended September 30, 2008, due to our efforts to reduce days-sales-outstanding increase the reduction in operating levels. Finally, current maturities of long-term debt decreased \$0.2 million and liabilities at our discontinued operations decreased by \$0.1 million during the quarter ended December 31, 2008 as compared to September 30, 2008.

Liquidity and Capital Resources

As of December 31, 2008, we had cash and cash equivalents of \$49.3 million, working capital of \$128.2 million, \$25.0 million in outstanding borrowings under our Tontine Term Loan, and \$34.0 million of letters of credit outstanding and \$5.9 million of available capacity under our Revolving Credit Facility.

During the three months ended December 31, 2008, we used \$8.2 million in cash in our operating activities principally due to the timing of our account payables and payment of year-end accrued bonuses in December 2008. We also had combined cash outflow of \$7.2 million for our investing and financing activities during the three months ended December 31, 2008. This included \$0.6 million in capital expenditures primarily for computer equipment used in our new operating, management and financial reporting systems, a \$2.0 million investment in debt and warrants of an unconsolidated affiliate, \$0.7 million of payments on long term debt, and \$4.0 million for the acquisition of treasury stock.

Bonding Capacity

At December 31, 2008, we have adequate surety bonding capacity under our surety agreements. Our ability to access this bonding capacity is at the sole discretion of our surety providers. As of December 31, 2008, the expected cumulative cost to complete for projects covered by our co-surety providers was \$115.9 million. We also had \$19.2 million in aggregate face value of bonds issued by an individual surety provider. We believe we have adequate remaining available bonding capacity to meet our current needs, subject to the sole discretion of our surety providers. For more information, please refer to Item 2. *Surety* of this report.

Off-Balance Sheet Arrangements and Contractual Obligations

As is common in our industry, we have entered into certain off-balance sheet arrangements that expose us to increased risk. Our significant off-balance sheet transactions include commitments associated with non-cancelable operating leases, letter of credit obligations, firm commitments for materials and surety guarantees.

We enter into non-cancelable operating leases for many of our vehicle and equipment needs. These leases allow us to retain our cash when we do not own the vehicles or equipment, and we pay a monthly lease rental fee. At the end of the lease, we have no further obligation to the lessor. We may determine to cancel or terminate a lease before the end of its term. Typically, we are liable to the lessor for various lease cancellation or termination costs and the difference between the then fair market value of the leased asset and the implied book value of the leased asset as calculated in accordance with the lease agreement.

Some of our customers and vendors require us to post letters of credit as a means of guaranteeing performance under our contracts and ensuring payment by us to subcontractors and vendors. If our customer has reasonable cause to effect payment under a letter of credit, we would be required to reimburse our creditor for the letter of credit. Depending on the circumstances surrounding a reimbursement to our creditor, we may have a charge to earnings in that period. At December 31, 2008, \$21.0 million of our outstanding letters of credit were to collateralize our customers and vendors.

Some of the underwriters of our casualty insurance program require us to post letters of credit as collateral, as is common in the insurance industry. To date, we have not had a situation where an underwriter has had reasonable cause to effect payment under a letter of credit. At December 31, 2008, an additional \$13.0 million of our outstanding letters of credit were to collateralize our insurance programs.

Table of Contents

From time to time, we may enter into firm purchase commitments for materials such as copper wire and aluminum wire, among others, which we expect to use in the ordinary course of business. These commitments are typically for terms less than one year and require us to buy minimum quantities of materials at specified intervals at a fixed price over the term. As of December 31, 2008, we did not have any open purchase commitments.

Many of our customers require us to post performance and payment bonds issued by a surety. Those bonds guarantee the customer that we will perform under the terms of a contract and that we will pay subcontractors and vendors. In the event that we fail to perform under a contract or pay subcontractors and vendors, the customer may demand the surety to pay or perform under our bond. Our relationship with our sureties is such that we will indemnify the sureties for any expenses they incur in connection with any of the bonds they issues on our behalf. To date, we have not incurred significant costs to indemnify our sureties for expenses they incurred on our behalf. As of December 31, 2008, we utilized a combination of cash, accumulated interest thereon and letters of credit totaling \$25.6 million to collateralize our bonding programs.

In April 2000, we committed to invest up to \$5.0 million in EnerTech. EnerTech is a private equity firm specializing in investment opportunities emerging from the deregulation and resulting convergence of the energy, utility and telecommunications industries. Through December 31, 2008, we had invested \$4.9 million under our commitment to EnerTech.

As of December 31, 2008, our future contractual obligations due by September 30 of each of the following fiscal years include (in thousands) (1):

	2009	2010	2011	2012	2013	Thereafter	Total
Long-term debt obligations	\$ 2,581	\$ 1,155	\$	\$	\$ 25,000	\$	\$ 28,736
Operating lease obligations	\$ 6,251	\$ 6,214	\$ 4,039	\$ 1,900	\$ 249	\$ 117	\$ 18,770
Capital lease obligations	\$ 136	\$ 52	\$ 8	\$	\$	\$	\$ 196

(1) The tabular amounts exclude the interest obligations that will be created if the debt and capital lease obligations are outstanding for the periods presented.

Our other commercial commitments expire by September 30 of each of the following fiscal years (in thousands):

	2009	2010	2011	2012	2013	Thereafter	Total
Letters of credit	\$	\$	\$	\$	\$	\$	\$
Other commercial commitments							
(2)	\$	\$ 150	\$	\$	\$	\$	\$ 150

(2) Balance of investment

commitment in
EnerTech.

Outlook

We anticipate that the combination of cash on hand, cash flows and available capacity under our Revolving Credit Facility will provide sufficient cash to enable us to meet our working capital needs, debt service requirements, capital expenditures for property and equipment, and our share buy back through the next twelve months. We expect capital expenditures to be approximately \$5.0 million to \$6.0 million for the fiscal year ending on September 30, 2009, as we invest in our infrastructure to improve management information and project management systems. Our ability to generate cash flow is dependent on our successful completion of our restructuring efforts and many other factors, including demand for our products and services, the availability of projects at margins acceptable to us, the ultimate collectability of our receivables, and our ability to borrow on our Revolving Credit Facility.

Inflation

During the three months ended December 31, 2008, we experienced decreases in fuel prices and related travel costs, as well as reductions in steel and copper prices, which have fallen off of the recent historical highs in early 2008. These price declines have contributed to some gross margin improvement; however, due to the slowdown in the overall construction sector, we have also had to reduce our pricing as our input prices have fallen. Over the long-term, we will adjust our pricing to incorporate these conditions and other inflationary factors.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Management is actively involved in monitoring exposure to market risk and continues to develop and utilize appropriate risk management techniques. Our exposure to significant market risks includes fluctuations in commodity prices for copper, aluminum, steel and fuel. Commodity price risks may have an impact on our results of operations due to the fixed nature of many of our contracts. We are also exposed to interest rate risk with respect to our outstanding debt obligations.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act of 1934, as amended (Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the Security and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed under the Exchange Act is accumulated and communicated to management, including the principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

In connection with the restatement discussed above in the explanatory note to this Form 10-Q/A and in Note 9 to our condensed consolidated financial statements, under the direction of our Chief Executive Officer and Chief Financial Officer, we reevaluated our disclosure controls and procedures. We identified a material weakness in our internal control over financial reporting with respect to our account reconciliation process at the Corporate office. Specifically, the Company's procedures and personnel resources responsible for accounting for miscellaneous accruals, medical claims and certain other expenses were not effective. Solely as a result of this material weakness, we concluded that our disclosure controls and procedures were not effective as of December 31, 2008.

Changes in Internal Control Over Financial Reporting

In an effort to remediate the material weakness at the Corporate office, during 2009, we strengthened our internal controls over financial reporting by improving the Corporate office account reconciliation process and implementing several staffing changes. We believe these changes will remediate the material weakness discussed above.

Prior to the three months ended December 31, 2008, we had completed the implementation of two separate software programs which have since been integrated into our daily work processes and materially impacted our internal controls. The first program is a comprehensive project management system that is being utilized across our divisions and at our shared service centers to standardize our project management and reporting processes and provides our businesses near real-time visibility into project performance. The second program is an accounting consolidation and reporting system that provides management more robust financial data and improved transparency. In addition to these new systems, we have also outsourced our payroll processing to a leading national provider and employed technology to capture labor utilization more real time. Each of these new processes has materially changed our internal controls over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

For additional information, please refer to Part 1, Item 1, Condensed Consolidated Financial Statements Note 8, *Commitments and Contingencies - Legal Matters*, which is incorporated herein by reference. We are not aware of any litigation or pending litigation that we believe will have a material impact on our results of operations or our financial position other than what is already disclosed in Note 8.

ITEM 1A. RISK FACTORS

Except as set forth below, there have been no material changes to the risk factors disclosed under Item 1A *Risk Factors* in Amendment No. 1 to our annual report on Form 10-K/A for the year ended September 30, 2008.

Due to the recent financial and credit crisis, we may not be able to obtain funding, or obtain funding on acceptable terms, to meet our future capital needs, which could negatively affect our business, results of operations and financial condition.

The recent credit crisis and the related turmoil in the global financial system have had an adverse impact on our business and financial condition, and we may face challenges if conditions in the financial markets do not improve. Due to the financial crisis, financing may not be available to us on acceptable terms or at all, including under our Revolving Credit Facility. If additional funding is not available, or is available only on unfavorable terms, we may be unable to make necessary capital expenditures, withstand a downturn in our business or the economy in general, or take advantage of business opportunities that may arise. Any curtailment of our operations would have an adverse effect on our revenues and results of operations. In addition, current economic conditions have led to reduced demand for electrical services, and a sustained decline in demand would adversely affect our business, results of operations and financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Purchases of Equity Securities by the Issuer and Affiliated Purchases**

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (1)	Maximum of shares that may yet be purchased under the plans or programs
October 1, 2008 to October 31, 2008	301,418	\$ 13.36	886,360	113,640
November 1, 2008 to November 1, 2008		\$	886,360	113,640
December 1, 2008 to December 31, 2008		\$	886,360	113,640
Total for period	301,418	\$ 13.36		

(1) On December 12, 2007, we announced that our Board of Directors authorized the

repurchase of up to one million shares of our common stock.

This share repurchase plan is authorized through December 2009.

This share repurchase table does not include 661 shares of common Stock withheld to satisfy tax withholding requirements related to restricted stock issued under the Amended and Restated 2006 Equity Incentive Plan. The average cost of those shares was \$8.76 per share.
