Table of Contents**NOTE 4 - CORRECTION OF AN ERROR**

We previously reported certain information related to our discontinued operations on our Condensed Consolidated Balance Sheets and our Condensed Consolidated Statements of Cash Flows in our Form 10-Q on the Original Filing Date that was calculated incorrectly. The correction of this error, impacts our Condensed Consolidated Balance Sheets as of August 31, 2015 and November 30, 2014 and our Condensed Consolidated Statements of Cash Flows for the nine months ended August 31, 2015 and 2014. There was no effect on our Condensed Consolidated Statements of Net Loss and Comprehensive Loss for the periods presented in the Form 10-Q on the Original Filing Date.

The effect of the correction of an error on the previously issued Condensed Consolidated Balance Sheets is as follows (in thousands):

	As originally reported at August 31, 2015		Adjustment		As restated at August 31, 2015
Current liabilities held for sale	\$ 4,623	\$	1,237	\$	5,860
Deferred rent	\$ 2,981	\$	(1,237)	\$	1,744

	As originally reported at November 30, 2014		Adjustment		As restated at November 30, 2014

Table of Contents

**NOTE 5 ADOPTION OF ACCOUNTING PRINCIPLES**

In April 2014, the Financial Accounting Standards Board, ( *FASB* ), issued Accounting Standards Update, ( *ASU* ) 2014-08, *Presentation of Financial Statements (Topic 205) and Property Plant and Equipment (Topic 360), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, ( *ASU 2014-08* ) which provides amended guidance on the presentation of financial statements and reporting discontinued operations and disclosures of disposals of components of an entity within property, plant and equipment. ASU 2014-08 amends the definition of a discontinued operation and requires entities to disclose additional information about disposal transactions that do not meet the discontinued operations criteria. The effective date of ASU 2014-08 is for disposals that occur in annual periods (and interim periods therein) beginning on or after December 15, 2014, with early adoption permitted. We are currently evaluating the impact, if any, that this amended guidance may have on our consolidated financial statements and related disclosures.

In May 2014, FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, ( *ASU 2014-09* ) which provides a single, comprehensive framework for all entities in all industries to apply in the determination of when to recognize revenue, and, therefore, supersedes virtually all existing revenue recognition requirements and guidance. This framework is expected to result in less complex guidance in application while providing a consistent and comparable methodology for revenue recognition. The core principle of the guidance is that an entity should apply the following steps: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract(s), (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract(s), and (v) recognize revenue when, or as, the entity satisfies a performance obligation. We are currently evaluating the impact that this amended guidance will have on our consolidated financial statements and related disclosures. In July 2015, the FASB reached a decision to defer the effective date of the amended guidance. In August 2015, ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, was issued which defers the effective date of ASU 2014-09 to December 15, 2017. Early adoption is not permitted.

In August 2014, FASB issued ASU No. 2014-15 to communicate amendments to FASB Accounting Standards Codification Subtopic 205-40, *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, (the *ASC amendments* ). The ASC amendments establish new requirements for management to evaluate a company's ability to continue as a going concern and to provide certain related disclosures. The ASC amendments are effective for the annual periods ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted, but we have not yet adopted such guidance.

In July 2015, FASB issued ASU 2015-11, *Inventory (Topic 330) - Simplifying the Measurement of Inventory*, which will require an entity to measure inventory at the lower of cost or net realizable value. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The guidance will be effective for us beginning with fiscal year 2018. Early adoption is permitted. We are currently evaluating the impact that this amended guidance will have on our consolidated financial statements and related disclosures.

**NOTE 6 FACTORED ACCOUNTS AND RECEIVABLES**

Factored accounts and receivables consist of the following (in thousands):

August 31, 2015

November 30, 2014

Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

Non-recourse receivables assigned to factor	\$	11,331	\$	14,314
Client recourse receivables		517		1,919
Total receivables assigned to factor		11,848		16,233
Allowance for customer credits		(3,330)		(5,128)
Due from factor	\$	8,518	\$	11,105
Non-factored accounts receivable	\$	1,101	\$	2,123
Allowance for customer credits		(788)		(766)
Allowance for doubtful accounts		(171)		(78)
Accounts receivable, net of allowance	\$	142	\$	1,279

Table of Contents

Of the total amount of receivables sold by us as of August 31, 2015 and November 30, 2014, we hold the risk of payment of \$517,000 and \$1,919,000, respectively, in the event of non-payment by the customers.

*CIT Commercial Services Amended and Restated Factoring Agreement*

On September 30, 2013, we entered into the Amended and Restated Factoring Agreement with CIT, which replaced all prior agreements relating to factoring and inventory security. The Amended and Restated Factoring Agreement provides that we sell and assign to CIT certain of our accounts receivable, including accounts arising from or related to sales of inventory and the rendition of services. We will pay a factoring rate of 0.50 percent for accounts for which CIT bears the credit risk, subject to discretionary surcharges, and 0.35 percent for accounts for which we bear the credit risk, but in no event less than \$3.50 per invoice. The Amended and Restated Factoring Agreement may be terminated by CIT upon 60 days' written notice or immediately upon the occurrence of an event of default as defined in the agreement. The accounts receivable agreement may be terminated by us upon 60 days' written notice prior to September 30, 2018 or annually with 60 days' written notice prior to September 30th of each year thereafter. The Amended and Restated Factoring Agreement remains effective until it is terminated.

In November 2014, we received an initial notice of default and event of default and demand for payment of default interest from Garrison, as term loan agent, under the term loan facility entered into on September 30, 2013. As a result of the event of default under the term loan facility, this also triggered a default and an event of default under the terms of the revolving credit facility with CIT entered into on September 30, 2013. As a result of such default and event of default, both of CIT and Garrison have reserved their respective rights to exercise any and all remedies available to them under their respective agreements and have demanded payment of interest under those agreements at the default rate of interest. On February 10, 2015, we received additional notices of default and events of default for failure to comply with certain financial and other covenants and a demand for continued payment of default interest from both Garrison and CIT.

On June 26, 2015, we entered into a CIT Forbearance Agreement with CIT as discussed above. See Note 2 - Subsequent Events for a further discussion of the Asset Sale, repayment of certain indebtedness under the agreements with Garrison and CIT and the entry into the A&R Revolving Credit Agreement.

As of August 31, 2015, our cash balance was \$368,000 and our borrowing base cash availability with CIT was approximately \$11,000,000. This amount with CIT fluctuates on a daily basis based upon invoicing and collection related activity by CIT for the receivables sold. See also Note 15 Debt for a further discussion of our debt arrangements with CIT and other lenders and Note 2 Subsequent Events for a discussion of our A&R Revolving Credit Agreement and the Amended and Restated Factoring Agreement with CIT.

**NOTE 7 INVENTORIES, NET**

Inventories are valued at the lower of cost or market with cost determined by the first-in, first-out method. Inventories consisted of the following (in thousands):

**August 31, 2015**

Work in progress		1,332		3,157
Raw materials		5,328		6,778
		16,697		25,944
Less reserves for obsolescence and slow moving items		(1,347)		(590)
	\$	15,350	\$	25,354

Table of Contents

**NOTE 8 LONG-LIVED AND INTANGIBLE ASSETS AND GOODWILL**

*Valuation of Long-lived and Intangible Assets and Goodwill*

We assess the impairment of identifiable intangibles, long-lived assets and goodwill annually or whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors considered important that could trigger an impairment review other than on an annual basis include the following:

- A significant underperformance relative to expected historical or projected future operating results;
- A significant change in the manner of the use of the acquired asset or the strategy for the overall business; or
- A significant negative industry or economic trend.

When we determine that the carrying value of long-lived assets may not be recoverable based upon the existence of one or more of the aforementioned factors and the carrying value exceeds the estimated undiscounted cash flows expected to be generated by the asset, impairment is measured based on a projected discounted cash flow method using a discount rate determined by management. These cash flows are calculated by netting future estimated sales against associated merchandise costs and other related expenses such as payroll, occupancy and marketing. An asset is considered to be impaired if we determine that the carrying value may not be recoverable based upon our assessment of the asset's ability to continue to generate income from operations and positive cash flow in future periods or if significant changes our strategic business objectives and utilization of the assets occurred. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the estimated fair value, which is determined based on discounted future cash flows. The impairment loss calculations require management to apply judgment in estimating future cash flows and the discount rates that reflect the risk inherent in future cash flows. Future expected cash flows for store assets are based on management's estimates of future cash flows over the remaining lease period or expected life, if shorter. We consider historical trends, expected future business trends and other factors when estimating each store's future cash flow. We also consider factors such as: the local environment for each store location, including mall traffic and competition; our ability to successfully implement strategic initiatives; and the ability to control variable costs such as cost of sales and payroll, and in some cases, renegotiate lease costs.

In the third and fourth quarter of fiscal 2014, we recorded store impairment charge of \$840,000 related to six of our retail stores. In the third quarter of fiscal 2015, we recorded store impairment charge of \$470,000 related to two of our retail stores. Based on the operating performance of these stores, we believed that we could not recover the carrying value of property and equipment located at these stores.

Business acquisitions are accounted for under the purchase method by assigning the purchase price to tangible and intangible assets acquired and liabilities assumed. Assets acquired and liabilities assumed are recorded at their fair values and the excess of the purchase price over the amounts assigned is recorded as goodwill. Purchased intangible assets with finite lives are amortized over their estimated useful lives. Goodwill and

intangible assets with indefinite lives are not amortized but are tested at least annually for impairment or whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

In fiscal 2007, we acquired through merger JD Holdings, which included all of the goodwill and intangible assets goodwill related to the Joe s®, Joe s Jeans and JD® logo and marks. On September 30, 2013, we acquired Hudson, which included all of the goodwill and intangible assets related to the Hudson® logos and marks. We have assigned an indefinite life to the remaining intangible assets relating to the trademarks acquired, and therefore, no amortization expenses are expected to be recognized. However, we will test the assets for impairment annually in accordance with our critical accounting policies. On September 11, 2015, we sold the Intellectual Property Assets of the Joe s Business to the IP Asset Purchaser. See Note 2 - Subsequent Events for a further discussion of the sale of these and other assets.

We evaluate goodwill for impairment at least annually or whenever events or changes in circumstances indicate that the carrying value may not be recoverable using a two-step process. The first step is to determine the fair value of each reporting unit and compare this value to its carrying value. If the fair value exceeds the carrying value, no further work is required and no impairment loss would be recognized. The second step is performed if the carrying value exceeds the fair value of the assets. The implied fair value of the reporting unit s goodwill must be determined and compared to the carrying value of the goodwill.

We review our other indefinite-lived intangible assets for impairment on an annual basis, or when circumstances indicate their carrying value may not be recoverable. We calculate the value of the indefinite-lived intangible assets using a discounted cash flow method, based on the relief from royalty concept.

Table of Contents

Our annual impairment testing date is September 30 of each year or when circumstances indicate their carrying value may not be recoverable. Based on our under-performance in the fourth quarter of fiscal 2014, we determined that it was appropriate to perform an impairment testing as of November 30, 2014. Based on our testing we determined that the goodwill allocated to our Hudson wholesale reporting unit was impaired by \$23,585,000, and there was no impairment of our other indefinite-lived intangible assets. As of February 28, 2015, we also determined that a triggering event had occurred due to the decline in our market capitalization and tested our goodwill and other indefinite-lived assets for impairment and determined that there was no impairment.

**NOTE 9 RELATED PARTY TRANSACTIONS**

*Joe Dahan*

Since the acquisition of the Joe s® brand as a result of a merger in October 2007 through February 18, 2013, Mr. Dahan was entitled to a certain percentage of our gross profit in any applicable fiscal year until October 2017. At the time of the acquisition, pursuant to ASC 805 *Business Combinations*, we assessed this original contingent consideration arrangement as compensatory and expensed such amounts over the term of the earn out period at the defined percentage amounts.

On February 18, 2013, we entered into a new agreement with Mr. Dahan that fixed the overall amount to be paid by us for the remaining months of year six through year 10 in the original merger agreement at \$9,168,000 through weekly installment payments beginning on February 22, 2013 until November 27, 2015. In the first quarter of fiscal 2013, we recorded a charge of \$8,732,000 as contingent consideration buy-out expense in connection with this agreement. This amount represented the net present value of the total fixed amount that Mr. Dahan would receive. The entire amount was expensed during the first quarter of fiscal 2013 as the amount payable represented a present obligation due to Mr. Dahan. On September 30, 2013, in connection with entry into new credit facilities relating to the acquisition of Hudson, Mr. Dahan, CIT, Garrison and all of our loan parties entered into an earn out subordination agreement, which provides, among other things, that any payment, whether in cash, in kind, securities or any other property, in connection with the our obligations to Mr. Dahan is expressly junior and subordinated in right of payment to all amounts due and owing upon any indebtedness outstanding under the revolving credit facility and the term loan facility. We were permitted to make certain amounts of weekly installment payments of our obligations in the absence of an insolvency proceeding or any event of default under the revolving credit agreement or the term loan credit agreement. As a result of our default under the revolving credit agreement or the term loan credit agreement, we did not make any payments to Mr. Dahan during fiscal 2015. In connection with the Asset Sale, Mr. Dahan was repaid a portion of the payments owed to him and the remainder is expected to be paid at the closing of the Merger and Merger Transactions.

See Note 13 Commitments and Contingencies - Contingent Consideration Payments, Buy Out Agreement and Earnout Subordination Agreement for a further discussion on these agreements with Mr. Dahan and Note 2 Subsequent Events for a discussion of Mr. Dahan s termination of employment and resignation from our Board of Directors.

*Ambre Dahan*

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

In January 2013, we entered in to a consulting arrangement with Ambre Dahan, the spouse of Mr. Dahan, for design director services that paid her \$175,000 per annum on a bi-weekly basis. For the three months ended August 31, 2015 and 2014, we paid Ms. Dahan \$0 and \$47,000, and for the nine months ended August 31, 2015 and 2014, we paid Ms. Dahan \$0 and \$135,000, respectively, under this arrangement. This arrangement was terminated effective as of November 17, 2014.

*Albert Dahan*

In October 2011, we entered into an agreement with Ever Blue LLC ( *Ever Blue* ), an entity for which Albert Dahan is the sole member, for the sale of children s products. Ever Blue has an exclusive right to produce, distribute and sell children s products bearing the Joe s® brand on a worldwide basis, subject to certain limitations on the channels of distribution. In exchange for the license, Ever Blue pays to us a royalty on net sales with certain guaranteed minimum sales for each term. In connection with this agreement, we provided initial funding to Ever Blue for inventory purchases, which such amount has been repaid in full. For the three months ended August 31, 2015 and 2014, we recognized \$0 and \$52,000, respectively, in royalty income under the license agreement. For the nine months ended August 31, 2015 and 2014, we recognized \$45,000 and \$360,000, respectively, in royalty income under the license agreement.

*Peter Kim*

We have entered into several agreements, including a stock purchase agreement, a convertible note, a registration rights agreement, an employment agreement and a non-competition agreement with Peter Kim, Chief Executive Officer of our Hudson subsidiary, in connection with the acquisition of Hudson. See Note 15 - Debt for a further discussion of those agreements. In connection with the Merger, we entered into the Rollover Agreement, the Employment Agreement and the Non-Competition Agreement. For a description of those agreements see Note 2 - Subsequent Events

Table of Contents

*Employment Agreements with Officers and Directors*

We have entered into employment agreements with Marc Crossman, our former President and Chief Executive Officer, Joe Dahan, our former Creative Director, Peter Kim, our Chief Executive Office of our Hudson subsidiary, and Hamish Sandhu, our Chief Financial Officer. Mr. Dahan was also a member of our Board of Directors until September 11, 2015.

*Marc Crossman*

On May 30, 2008, we entered into an employment agreement with Mr. Crossman to serve as our President and Chief Executive Officer. The employment agreement was effective as of December 1, 2007, the commencement of our 2008 fiscal year, had an initial term of two years and automatically renewed for additional two year periods on December 1, 2009, December 1, 2011 and December 1, 2013, respectively. The employment agreement continues to automatically renew for additional two year periods if neither we nor Mr. Crossman provides 180 days advanced notice of non-renewal prior to the end of the term or upon the occurrence of a change in control. Under the employment agreement, Mr. Crossman is entitled to an annual salary of \$429,300, an annual discretionary bonus targeted at 50 percent of his base salary based upon the achievement of financial and other performance criteria that the Compensation and Stock Option Committee of the Board of Directors, or Compensation Committee, may deem appropriate in its sole and absolute discretion, an annual grant of equity compensation pursuant to our stock incentive plans, life and disability insurance policies paid on his behalf and other discretionary benefits that the Compensation Committee may deem appropriate in its sole and absolute discretion. The employment agreement provides for severance payment of up to two years if terminated under certain circumstances.

On January 19, 2015, our Board of Directors accepted the resignation of Mr. Crossman. The Board and Mr. Crossman also agreed that Mr. Crossman would become a consultant for a period of twelve (12) months pursuant to a consulting agreement. In exchange for a release of all claims related to Mr. Crossman's employment and the provision of consulting services by Mr. Crossman, we have agreed to pay Mr. Crossman the following: (i) payment of \$35,775 per month for a period of twelve (12) months; (ii) acceleration of the unvested equity awards previously granted to Mr. Crossman; (iii) granted him restricted common stock in the amount of 600,000 shares that vest 1/12th on a monthly basis over the twelve (12) month period; and (iv) agreed to reimburse him for health and dental COBRA payments for a period of twelve (12) months or until he is eligible for coverage under a successor employer's group health plan.

*Joe Dahan*

On October 25, 2007, we entered into an employment agreement for Mr. Dahan to serve as Creative Director for the Joe's brand. The initial term of employment was for five years, or until October 25, 2012, and then automatically renewed for successive one year periods unless terminated earlier in accordance with the agreement. Under the employment agreement, Mr. Dahan is entitled to an annual salary of \$300,000 and other discretionary benefits that the Compensation Committee may deem appropriate in its sole and absolute discretion. The employment agreement provides for severance payment of up to one year if terminated under certain circumstances. In connection with the separation and mutual release agreement entered into with Mr. Dahan, we agreed to pay him severance from September 11, 2015 until October 25, 2015. See Note 2 Subsequent Events for a discussion of the agreement.

*Peter Kim*

On September 30, 2013, we entered into an employment agreement with Mr. Kim to serve as Chief Executive Officer of our Hudson subsidiary for a term of three years. Under the employment agreement, Mr. Kim is entitled to a base salary of \$500,000 per year and is also eligible to receive an annual discretionary bonus targeted at 50 percent of his base salary, based on the satisfaction of criteria and performance standards as established in advance and agreed to by Mr. Kim and the Compensation Committee. Mr. Kim is also entitled to other discretionary benefits that the Compensation Committee may deem appropriate in its sole and absolute discretion. The employment agreement provides for severance payment of up to one year if terminated under certain circumstances. In connection with the Merger, we entered into the Employment Agreement and Non-Competition Agreement with Mr. Kim to be effective upon the completion of the Merger. See Note 2 Subsequent Events for details of the agreement.

Table of Contents

Hamish Sandhu

On July 2, 2015, we entered into an employment agreement with Mr. Sandhu to serve as our Chief Financial Officer for a term of one year with automatic renewal for successive one year periods unless terminated earlier in accordance with the agreement or advanced notice of non-renewal 90 days before the expiration of the current term. Under the employment agreement, Mr. Sandhu is entitled to an annual salary of \$325,000 and other cash and non-cash compensation, including an annual discretionary cash and equity bonus of not less than 10 percent of his base salary based upon the achievement of financial and other performance criteria as set forth in the employment agreement, premiums for health insurance paid on his behalf and for his family and life and disability insurance policies paid on his behalf. The employment agreement provides for severance payment of up to one year if terminated under certain circumstances.

**NOTE 10 EARNINGS PER SHARE**

Earnings per share are computed using weighted average common shares and dilutive common equivalent shares outstanding. Potentially dilutive shares consist of outstanding options, shares issuable upon the assumed conversion of Convertible Notes, restricted stock and unvested restricted stock units ( *RSUs* ). A reconciliation of the numerator and denominator of basic earnings per share and diluted earnings per share is as follows:

	Three months ended		Nine months ended	
	(in thousands, except per share data)		(in thousands, except per share data)	
	August 31, 2015	August 31, 2014	August 31, 2015	August 31, 2014
<b>Basic earnings (loss) per share computation:</b>				
Numerator:				
Income (loss) from continuing operations	\$ 6,712	\$ (488)	\$ (18,072)	\$ (2,292)
Income (loss) from discontinued operations	(1,053)	764	(1,213)	2,729

For the three months ended August 31, 2015, and 2014, currently exercisable options, the Convertible Notes, unvested restricted shares and unvested RSUs in the aggregate of 19,840,873 and 19,656,831, respectively, have been excluded from the calculation of the diluted loss per share as their effect would have been anti-dilutive.

For the nine months ended August 31, 2015, and 2014, currently exercisable options, the Convertible Notes, unvested restricted shares and unvested RSUs in the aggregate of 19,882,230 and 19,766,669, respectively, have been excluded from the calculation of the diluted loss per share as their effect would have been anti-dilutive.

### *Shares Reserved for Future Issuance*

As of August 31, 2015, shares reserved for future issuance include: (i) 88,333 shares of common stock issuable upon the exercise of stock options granted under the incentive plans; (ii) 448,103 shares of common stock issuable upon the vesting of RSUs; (iii) an aggregate of 2,642,271 shares of common stock available for future issuance under the Amended and Restated 2004 Stock Incentive Plan; and (iv) 19,095,794 shares of common stock issuable pursuant to the Convertible Notes.

Table of Contents**NOTE 11 INCOME TAXES**

A valuation allowance is required when it is more likely than not that all or a portion of a deferred tax asset will not be realized. Quarterly, management reassesses the need for a valuation allowance. Realization of deferred income tax assets is dependent upon taxable income in prior carryback years, estimates of future taxable income, tax planning strategies and reversals of existing taxable temporary differences. In determining the need for a valuation allowance, we reviewed all available evidence pursuant to the requirements of FASB ASC 740. Pursuant to ASC 740, we excluded the deferred income tax liabilities associated with identified indefinite long lived intangible assets as a source of income. For the first quarter of fiscal 2015, based upon our assessment of all available evidence, we have concluded that it is more likely than not that the net deferred tax assets, as of November 30, 2014, with the exception of certain deferred taxes associated with separate filing states for Hudson, will not be realized. For the first quarter of fiscal 2015, the valuation allowance associated with deferred taxes as of November 30, 2014, increased by \$14,481,000. Based on our prior assessment for fiscal 2014, 2013, and 2012, we had determined that the deferred tax assets were more likely than not to be realized with the exception of a valuation allowance of \$640,000, \$342,000 and \$0, respectively, that was recorded against a state net operating loss deferred tax asset. We considered all available evidence, both positive and negative, in our assessment of the valuation allowance needed as of February 28, 2015. Due to a review of operating performance for the quarter and a change in business strategy, which included the disposal of certain assets that have a fair value in excess of tax basis, we increased our valuation allowance by \$14,481,000 as of February 28, 2015. In calculating the amount of deferred tax assets subject to a valuation allowance, we have excluded the deferred tax liabilities associated with our trademarks from that amount. These intangible assets have an indefinite life and therefore, we cannot expect that the associated deferred tax liabilities will reverse over the same periods as our other net deferred tax assets. For the third quarter of fiscal 2015, based on our reassessment of the realizability of deferred taxes, due to the September 11, 2015 asset sale described in Note 2, the valuation allowance established during the first quarter is reduced by \$6,528,000. We determined that the net deferred taxes associated with that valuation allowance reduction (excluding the deferred tax liabilities for trademarks) were realized as part of the asset sale. The tax benefit for the three months ended August 31, 2015 consisted of the discrete reduction of \$6,528,000 to our valuation allowance established during the first quarter of fiscal 2015 and the recording of the tax benefit for the operating losses for the nine months ended August 31, 2015 for which no tax benefit was previously taken.

**NOTE 12 STOCKHOLDERS EQUITY***Stock Incentive Plans*

On June 3, 2004, we adopted the 2004 Stock Incentive Plan (the **2004 Incentive Plan**) and in October 2011, we adopted an Amended and Restated 2004 Stock Incentive Plan (the **Restated Plan**) to update it with respect to certain provisions and changes in the tax code since its original adoption. Under the Restated Plan, the number of shares authorized for issuance is 6,825,000 shares of common stock. After the adoption of the Restated Plan in October 2011, we no longer grant awards pursuant to the 2004 Incentive Plan; however, it remains in effect for awards outstanding as of the adoption of the Restated Plan. Under the Restated Plan, grants may be made to employees, officers, directors and consultants under a variety of awards based upon underlying equity, including, but not limited to, stock options, restricted common stock, restricted stock units or performance shares. The Restated Plan limits the number of shares that can be awarded to any employee in one year to 1,250,000. The exercise price for incentive options may not be less than the fair market value of our common stock on the date of grant and the exercise period may not exceed ten years. Vesting periods, terms and types of awards are determined by the Board of Directors and/or our Compensation Committee. The Restated Plan includes a provision for the acceleration of vesting of all awards upon a change of control as well as a provision that allows forfeited or unexercised awards that have expired to be available again for future issuance. Since fiscal 2008, we have issued both restricted common stock and RSUs to our officers, directors and employees pursuant to our various plans. The RSUs represent the right to receive one share of common stock for each unit on the vesting date provided that the employee continues to be employed by us. On the vesting date of the RSUs, we expect to issue the shares of common stock to each participant upon vesting and expect to withhold an equivalent number of shares at fair market value on the vesting date to fulfill tax withholding obligations. Any RSUs withheld or forfeited will be shares available for issuance in accordance with the terms of the Restated Plan.

The shares of common stock issued upon exercise of a previously granted stock option or a grant of RSUs are considered new issuances from shares reserved for issuance in connection with the adoption of the various plans. We require that the option holder provide a written notice of exercise in accordance with the option agreement and plan to the stock plan administrator and full payment for the shares be made prior to issuance. All issuances are made under the terms and conditions set forth in the applicable plan. As of August 31, 2015, 2,642,271 shares remained available for issuance under the Restated Plan.

For all stock compensation awards that contain graded vesting with time-based service conditions, we have elected to apply a straight-line recognition method to account for all of these awards. For existing grants that were not fully vested at November 30, 2014, there was a total of \$1,206,000 and \$938,000 of stock based compensation expense recognized during the nine months ended August 31, 2015 and 2014, respectively.

Table of Contents

The following summarizes option grants, restricted common stock and RSUs issued to members of the Board of Directors for the fiscal years 2002 through the third quarter of fiscal 2015 (in actual amounts) for service as a member:

Granted as of:	August 31, 2015		Exercise price
	Number of options		
2002	40,000	\$	1.00
2002	31,496	\$	1.27
2003	30,768	\$	1.30
2004	320,000	\$	1.58
2005	300,000	\$	5.91
2006	450,000	\$	1.02

	Number of restricted shares issued
2007	320,000
2008	473,455
2009	371,436
2010	131,828
2011	
2012	617,449
2013	
2014	219,678
2015	

Exercise prices for all options outstanding as of August 31, 2015 were as follows:

Exercise Price	Options Outstanding and Exercisable	
	Number of shares	Weighted-Average Remaining Contractual Life
\$ 0.38	13,333	9.4
\$ 1.02	75,000	0.7
	88,333	2.0

Weighted average per option fair value of options granted during the year		N/A		

Table of Contents

As of August 31, 2015, there was \$457,000 of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the 2004 Incentive Plan and the Restated Plan. That unrecognized compensation cost is expected to be recognized over a weighted-average period of 1.3 years.

A summary of the status of restricted common stock and RSUs as of November 30, 2014 and November 30, 2013, and changes during the nine months ended August 31, 2015 and 2014, are presented below (in actual amounts):

	Restricted Shares	Restricted Stock Units	Total Shares	Weighted-Average Grant-Date Fair Value	
				Restricted Shares	Restricted Stock Units
Outstanding at November 30, 2014	792,303	1,033,851	1,826,154	\$ 1.08	\$ 1.00
Granted	600,000		600,000	0.37	
Issued	(1,142,303)	(380,690)	(1,522,993)	0.87	1.02
Cancelled		(204,233)	(204,233)		0.93
Forfeited		(825)	(825)		0.70
Outstanding at August 31, 2015	250,000	448,103	698,103	\$ 0.37	\$ 0.98
Outstanding at November 30, 2013	954,798	1,661,330	2,616,128	\$ 0.90	\$ 0.93
Granted	288,121	362,242	650,363	1.49	1.49
Issued	(450,616)	(600,464)	(1,051,080)	0.95	1.07

Forfeited		(21,545)	(21,545)		0.72
Outstanding at August 31, 2014	792,303	1,088,771	1,881,074	\$ 1.08	\$ 1.03

In the three months ended August 31, 2015, we did not grant any shares of RSUs, options or restricted stock. In the nine months ended August 31, 2015, we did not grant any shares of RSUs and granted 40,000 options to purchase shares of our common stock and 600,000 shares of restricted stock. In the three months ended August 31, 2015, we (i) issued 284,318 shares of restricted stock and common stock to holders of RSUs, respectively, in connection with the granting of restricted stock or vesting of RSUs or restricted stock, and (ii) withheld, canceled or forfeited 84,748 RSUs. We did not retire into treasury any shares of restricted stock. In the nine months ended August 31, 2015, we (i) issued 1,522,993 shares of restricted stock and common stock to holders of RSUs, respectively, in connection with the granting of restricted stock or vesting of restricted stock or RSUs, (ii) withheld, canceled or forfeited 205,058 RSUs, and (iii) retired into treasury 309,842 shares of restricted stock.

In the three months ended August 31, 2014, we did not grant any shares of RSUs, options or restricted stock. In the nine months ended August 31, 2014, we granted 362,242 shares of RSUs and 288,121 shares of restricted stock. In the three months ended August 31, 2014, we (i) issued 248,070 shares of restricted stock and common stock to holders of RSUs, respectively, in connection with the granting of restricted stock or vesting of restricted stock or RSUs, (ii) withheld, canceled or forfeited 135,734 RSUs. We did not retire into treasury any shares of restricted stock. In the nine months ended August 31, 2014, we (i) issued 1,051,080 shares of restricted stock and common stock to holders of RSUs, respectively, in connection with the granting of restricted stock or vesting of restricted stock or RSUs, (ii) withheld, canceled or forfeited 334,337 RSUs, and (iii) retired into treasury 194,901 shares of restricted stock.

**NOTE 13 COMMITMENTS AND CONTINGENCIES**

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

### *Contingent Consideration Payments, Buy-Out Agreement and Earnout Subordination Agreement*

As part of the consideration paid in connection with the merger with JD Holdings in October of 2007 and without regard to continued employment, until February 12, 2013, Mr. Dahan was entitled to a certain percentage of the gross profit earned by us in any applicable fiscal year until October 2017. On February 18, 2013, we entered into an agreement with Mr. Dahan that provided certainty of payments to him by removing the contingencies related to the contingent consideration payments to be made to Mr. Dahan

Table of Contents

as an earn out under the original merger agreement. This agreement fixed the overall amount to be paid by us for the remaining months of year six through year 10 in the original merger agreement. The payments are now made over an accelerated time period until November 2015 instead of October 2017. Under the agreement, beginning on February 22, 2013 until November 27, 2015, Mr. Dahan is entitled to receive the total aggregate fixed amount of \$9,168,000 through weekly installment payments. In the first quarter of fiscal 2013, we recorded a charge of \$8,732,000 as contingent consideration buy-out expense in connection with this agreement. This amount represented the net present value of the total fixed amount that Mr. Dahan would receive. The entire amount was expensed during the first quarter of fiscal 2013 as the amount payable represented a present obligation due to Mr. Dahan. Mr. Dahan is not required to perform any services or remain employed to receive the fixed amount. Mr. Dahan also agreed to an additional restrictive covenant relating to non-competition and non-solicitation until November 30, 2016 that added to the original restrictive covenant in the merger agreement. As a result of our default under the Revolving Credit Agreement and the Term Loan Credit Agreement, we did not make any payments to Mr. Dahan during fiscal 2015. In connection with the Asset Sale, Mr. Dahan was repaid a portion of the payments owed to him and the remainder is expected to be paid at the closing of the Merger and Merger Transactions.

*Operating Leases*

We lease retail store locations and our corporate offices and warehouse under operating lease agreements expiring on various dates through 2024 or 3 to 10 years from the rent commencement date. Some of these leases require us to make periodic payments for property taxes, utilities and common area operating expenses. Certain retail store leases provide for rents based upon the minimum annual rental amount and a percentage of annual sales volume, generally ranging from 6 percent to 8 percent, when specific sales volumes are exceeded. Some leases include lease incentives, rent abatements and fixed rent escalations, which are amortized and recorded over the initial lease term on a straight-line basis. See Note 2 Subsequent Events for details related to the assignment of certain leases.

As of August 31, 2015, the future minimum rental payments under non-cancelable operating leases with lease terms in excess of one year were as follows (in thousands):

2015 Remainder of the year	\$	1,149
2016		4,437
2017		4,312
2018		4,073
2019		2,889
Thereafter		6,662
	\$	23,522

*Convertible Notes, Promissory Tax Notes, Revolving Credit Agreement and Term Loan Credit Agreement*

See Note 15 Debt for a further discussion on the commitments related to the acquisition of Hudson which included the issuance of the Convertible Notes, the tax notes, the Revolving Credit Agreement and the Term Loan Credit Agreement.

Table of Contents

*Convertible Notes*

The Convertible Notes were issued with different interest rates and conversion features for Hudson's management stockholders and Fireman, respectively. Interest on the Convertible Notes is paid in a combination of cash and additional PIK Notes. Convertible notes in an aggregate principal amount of approximately \$22,885,000 (face amount) were issued to Hudson's management stockholders, are structurally and contractually subordinated to our senior debt and mature on March 31, 2019. All of the notes are expressly junior and subordinated in right of payment to all amounts due and owing upon any indebtedness outstanding under the revolving credit facility and the term loan facility (as discussed below).

The management notes accrue interest quarterly on the outstanding principal amount (i) from September 30, 2013 until the earlier to occur of the date of conversion of the notes or November 30, 2014 at a rate of 10 percent per annum, which is payable 7.68 percent in cash and 2.32 percent in PIK Notes, (ii) from December 1, 2014 until the earlier to occur of the date of conversion of the notes or September 30, 2016 at a rate of 10 percent per annum payable in cash, and (iii) from October 1, 2016 until the earlier to occur of the date of conversion of the notes or the date such principal amount is paid in full at a rate of 10.928 percent per annum payable in cash. Payment of interest at the cash pay rate under clause (ii) or (iii), as applicable, for any payment date will be subject to satisfaction of certain financial conditions for us. As of December 1, 2014, we did not meet such financial conditions, and therefore, the interest continues to accrue quarterly at a rate of 10 percent per annum, which is payable 7.68 percent in cash and 2.32 percent in PIK notes. In addition, because we are prohibited from making any payments under the Convertible Notes, as of January 1, 2015, we began to accrue an additional two percent interest under the default rate in cash. The management notes become convertible by each of the holders beginning on September 30, 2015 until maturity on March 31, 2019 into shares of our common stock, cash, or a combination of cash and common stock, with the settlement choice at our election.

The approximately \$9,560,000 (face amount) in aggregate principal amount of the Convertible Notes issued to Fireman are structurally and contractually subordinated to our senior debt and mature on March 31, 2019. The Fireman note accrues interest quarterly on the outstanding principal amount (i) from September 30, 2013 until the earlier to occur of the date of conversion of the notes or November 30, 2014 at a rate of 6.5 percent per annum, which is payable 3 percent in cash and 3.5 percent in PIK Notes, (ii) from December 1, 2014 until the earlier to occur of the date of conversion of the notes or September 30, 2016 at a rate of 6.5 percent per annum payable in cash, and (iii) from October 1, 2016 until the earlier to occur of the date of conversion of the notes or the date such principal amount is paid in full at a rate of 7 percent per annum payable in cash. Payment of interest at the cash pay rate under clause (ii) or (iii), as applicable, for any payment date will be subject to satisfaction of certain financial conditions for us. As of December 1, 2014, we did not meet such financial conditions, and therefore, the interest continues to accrue quarterly at a rate of 6.5 percent per annum, which is payable 3 percent in cash and 3.5 percent in PIK notes. In addition, because we are prohibited from making any payments under the Convertible Notes, as of January 1, 2015, we began to accrue an additional two and a half percent interest under the default rate in cash. The Fireman note becomes convertible by the holder on October 14, 2014 until maturity on March 31, 2019 into shares of common stock, cash, or a combination of cash and common stock, with the settlement choice at our election.

Each of the notes is convertible, in whole but not in part, at a conversion price of \$1.78 per share, subject to certain adjustments, into approximately 18,200,000 shares of our common stock. The Fireman note may be converted at its sole election and the management notes may be converted at either a majority of the holders' election or individually, depending on the holder. If we elect to pay cash with respect to a conversion of the notes, the amount of cash to be paid per share will be equal to (a) the number of shares of common stock issuable upon such conversion multiplied by (b) the average of the closing prices for the common stock over the 20 trading day period immediately preceding the notice of conversion. We will have the right to prepay all or any portion of the principal amount of the notes at any time by paying 103 percent of the principal amount of the portion of any management note subject to prepayment or 100 percent of the principal amount of the portion of the Fireman note subject to prepayment.

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

The holders of the Convertible Notes also have demand and piggyback registration rights associated with their notes in a separate agreement pursuant to which they have the right to require us to prepare and file a registration statement on Form S-1 or S-3 or any similar form or successor to such forms under the Securities Act, or any other appropriate form under the Securities Act or the Exchange Act, for the resale of all or part of their shares that may be issued under the Convertible Notes.

### *Embedded Conversion Derivative*

FASB ASC Topic 470, *Accounting for Convertible Debt Instruments That May be Settled in Cash upon Conversion (Including Partial Cash Settlement)* ( **ASC 470** ) requires the issuer of convertible debt that may be settled in shares or cash upon conversion at their option, such as our Convertible Notes, to account for their liability and equity components separately by bifurcating the embedded conversion derivative, or the derivative, from the host debt instrument. Although ASC 470 has no impact on our actual past or future cash flows, it requires us to record non-cash interest expense as the debt discount is amortized.

Table of Contents

As a result of the issuance of the Convertible Notes in September 2013, the total potential shares of common stock that could be issued exceeded the amount of shares we were eligible to issue under NASDAQ rules as of that date. Therefore, we were required to value the derivative and recognize the fair value as a long-term liability. The fair value of this derivative at the time of issuance of the Convertible Notes was \$5,496,000 and was recorded as the original debt discount for the purposes of accounting for the debt component of the Convertible Notes. This debt discount on the Fireman and management notes are being amortized as interest expense using an effective interest rate of 8.32 percent and 4.31 percent, respectively, over the remaining 5.5 year term of the Convertible Notes.

On May 8, 2014, we obtained stockholder approval for our ability to issue the common stock underlying the Convertible Notes in compliance with NASDAQ rules. The derivative liability has been reassessed and it was determined that it should be reclassified to stockholders' equity as of May 8, 2014. We determined the fair value of the derivative using a binomial lattice model at that date. The key assumptions for determining the fair value at May 8, 2014 included the remaining time to maturity of approximately four years and ten months, volatility of 60 percent, and the risk-free interest rate of 1.63 percent. The fair value of the embedded conversion derivative was \$5,700,000 and \$3,430,000 at November 30, 2013 and May 8, 2014, respectively. The decrease in the fair value of the embedded conversion derivative from November 30, 2013 to May 8, 2014 resulted in a gain of \$2,268,000, which has been recorded as other income. The primary reason for the decrease in fair value was due to the change in our stock price as compared to the conversion price.

The following table (in thousands) is a summary of the recorded value of the convertible note as of August 31, 2015. The value of the convertible note reflects the present value of the contractual cash flows from the Convertible Notes and resulted in an original issue discount of \$10,490,000 including the additional original discount attributed to the embedded conversion derivative of \$5,496,000, that were recorded on September 30, 2013, the issuance date.

	<b>Balance August 31, 2015</b>
Convertible notes - Face value	\$ 32,445
Less: Original issue discount	(4,994)
Less: Debt discount related to the embedded derivative liability	(5,496)
Convertible notes recorded value on issue date	21,955
Add: PIK notes issued	1,546
Accretion of debt discounts	3,261
Convertible notes value	26,762

The following table (in thousands) is a summary of our total interest expense as follows:

	<b>Three months ended</b>		<b>Nine months ended</b>	
	<b>August 31, 2015</b>	<b>August 31, 2014</b>	<b>August 31, 2015</b>	<b>August 31, 2014</b>
Contractual coupon interest	\$ 1,243	\$ 868	\$ 3,280	\$ 2,580
Amortization of discount and deferred financing costs	457	411	1,357	1,216
Total interest expense	\$ 1,700	\$ 1,279	\$ 4,637	\$ 3,796

*Promissory Notes*

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

In connection with the acquisition of Hudson, we issued approximately \$1,235,000 in aggregate principal amount of promissory notes bearing no interest that were paid on April 1, 2014 to certain option holders of Hudson.

### *Revolving Credit Agreement*

The Revolving Credit Agreement with CIT provided us with a revolving credit facility up to \$50,000,000 comprised of a revolving A-1 commitment of up to \$1,000,000 and a revolving A commitment of up to \$50,000,000 minus the revolving A-1 commitment. Our actual maximum credit availability under the revolving facility varied from time to time and was determined by calculating a borrowing base, which was based on the value of the eligible accounts receivable and eligible inventory minus reserves imposed by CIT. The revolving facility also provided for swingline loans, up to \$5,000,000 sublimit, and letters of credit, up to

Table of Contents

\$1,000,000 sublimit. Proceeds from advances under the revolving facility could be used for working capital needs and general corporate purposes and were initially used to pay a portion of the consideration for the acquisition of Hudson and fees and expenses associated with the acquisition of Hudson. As of August 31, 2015, \$19,587,000 was outstanding under our revolving credit facility and cash availability of approximately \$11,000,000.

The revolving facility was guaranteed by us and all of our subsidiaries, and secured by liens on substantially all assets owned by us, including a first- priority lien on certain property, including principally trade accounts, inventory, certain related assets and proceeds of the foregoing, subject to permitted liens and exceptions, and a second-priority lien on all other assets, including intellectual property owned by us, which secured the term loan facility on a first-priority basis.

All unpaid loans under the revolving credit facility were to mature on September 30, 2018.

As of August 31, 2015, we were not in compliance with certain covenants under the Revolving Credit Agreement as a result of an event of default under the Term Loan Credit Agreement.

In connection with the Asset Sale, a portion of our indebtedness under the Revolving Credit Agreement was repaid, and on September 11, 2015, we entered into the A&R Revolving Credit Agreement. Among other things, the A&R Revolving Credit Agreement (i) amended and restated the Revolving Credit Agreement as it had been amended from time to time and (ii) waived the Existing Defaults and Forbearance Defaults (each as defined under the CIT Forbearance Agreement) and certain other defaults. See Note 2- Subsequent Events for a discussion of forbearance agreements and A&R Revolving Credit Agreement.

*Term Loan Credit Agreement*

The Term Loan Credit Agreement with Garrison provided for term loans of up to \$60,000,000 and was fully funded to us as of September 30, 2013.

Table of Contents

Amounts outstanding under the Term Loan Credit Agreement were guaranteed by us and all of our subsidiaries and were secured by liens on substantially all assets owned by us, including a first-priority lien on intellectual property owned by us and a second-priority lien on the revolving credit priority collateral. The term loan was to mature on September 30, 2018. As of August 31, 2015, we were not in compliance with certain financial and maintenance covenants under the term loan credit agreement.

A portion of the proceeds from the Asset Sale were used to repay all of our indebtedness outstanding under the Term Loan Credit Agreement. For a discussion of the forbearance agreements and the repayment of the Term Loan Credit Agreement in connection with the Asset Sale, see Note 2 - Subsequent Events.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.****Forward-Looking Statements**

When used in this Quarterly Report on Form 10-Q, or Quarterly Report, the words may, will, expect, anticipate, intend, estimate, continue to believe, plan, project, will be, will continue, will likely result, and similar expressions are intended to identify forward-looking statements. Similarly, statements that describe our future expectations, objectives and goals or contain projections of our future results of operations or financial condition are also forward-looking statements. Statements looking forward in time are included in this Quarterly Report pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially, including, without limitation, the risk that we are in default of our financing agreements entered into in connection with the acquisition of Hudson Clothing Holdings, Inc. and its subsidiaries, or collectively Hudson, and that if we are unable to secure a resolution, which could restrict our ability to operate as a going concern or cause us to become bankrupt or insolvent; the risk that we incurred substantial indebtedness to finance the acquisition of Hudson, and it may be necessary to refinance or extend our indebtedness, which may decrease our business flexibility and adversely affect our financial results; the risk that we pledged all our tangible and intangible assets as collateral under our financing agreements; the risk that our auditors have reported that there are substantial doubts as to our ability to continue as a going concern; the risk that the resignation of our president and chief executive officer, the appointment of our interim chief executive officer, and any potential search for, and appointment of, a long term chief executive officer could have a material adverse impact on our business; the risk that we are currently not in compliance with The Nasdaq Stock Market LLC's (NASDAQ), continued listing requirements, which may cause us to be delisted; the risk that we incurred and may continue to incur significant transaction and acquisition related costs in connection with the acquisition and integration of Hudson into our business plan; the risk that our existing stockholders may be diluted if we choose to settle the Convertible Notes by issuing shares of our common stock; the risk that we will be unsuccessful in integrating Hudson and achieving our intended results as a result of the acquisition of Hudson; the risk that our foreign sourcing of our products and the implementation of foreign production for Hudson's products may adversely affect our business; the risk that we will be unsuccessful in gauging fashion trends and changing customer preferences; the risk that changes in general economic conditions, consumer confidence or consumer spending patterns will have a negative impact on our financial performance or strategies; the risks associated with leasing retail space and operating our own retail stores; the highly competitive nature of our business in the United States and internationally and our dependence on consumer spending patterns, which are influenced by numerous other factors; our ability to respond to the business environment and fashion trends; continued acceptance of our brands in the marketplace; our reliance on a small number of large customers; successful implementation of any growth or strategic plans; effective inventory management; the risk of cyber attacks and other system risks; our ability to continue to have access on favorable terms to sufficient sources of liquidity necessary to fund ongoing cash requirements of our operations, which access may be adversely impacted by a number of factors, including the reduced availability of credit, generally, and the substantial tightening of the credit markets, including lending by financial institutions, who are sources of credit for us, the recent increase in the cost of capital, the level of our cash flows, which will be impacted by the level of consumer spending and retailer and consumer acceptance of its products; our ability to generate positive cash flow from operations; competitive factors, including the possibility of major customers sourcing product overseas in competition with our products; the risk that acts or omissions by our third party vendors could have a negative impact on our reputation; a possible oversupply of denim in the marketplace; the respective parties' ability to close the proposed merger, including, the receipt and terms and conditions of any required governmental approval of the proposed merger that could reduce anticipated benefits or cause the parties to abandon the proposed merger, the diversion of management's time and attention from our ongoing business during this time period; the impact of the proposed merger on our stock price; the anticipated benefits of the proposed merger on our financial results, business performance and product offerings; our ability to successfully integrate the Robert Graham business and realize cost savings and any other synergies in connection with the proposed merger; the risk that the credit ratings of the combined company or its subsidiaries may be different from what we expect; and the risk factors contained in our reports filed with the Securities and Exchange Commission, or SEC, pursuant to the Securities Exchange Act of 1934, as amended (the *Exchange Act*), including our Annual Report on Form 10-K for the year ended November 30, 2014, or Annual Report, and in Part II, Item 1A of this Quarterly Report on Form 10-Q under the heading Risk Factors. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Our future results, performance or achievements could differ materially from those expressed or implied in these forward-looking statements. We do not undertake any obligation to publicly revise these forward-looking statements to reflect events or circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events, except as required by law.

**Introduction**

This discussion and analysis summarizes the significant factors affecting our results of operations and financial conditions during the three and nine month periods ended August 31, 2015 and 2014. This discussion should be read in conjunction with our Audited Consolidated Financial Statements and the related notes thereto contained in our Annual Report and our Condensed Consolidated Financial Statements, Notes to Unaudited Condensed Consolidated Financial Statements and supplemental information contained in this Quarterly Report.

Table of Contents

**Executive Overview and Subsequent Events, Including Discontinued Operations**

Our principal business activity is the design, development and worldwide marketing of apparel products, which include denim jeans, related casual wear and accessories that bear the brands Joe s® and Hudson®. Joe s® was established in 2001 and the brand is recognized in the premium denim industry, an industry term for denim jeans with price points generally of \$120 or more, for its quality, fit and fashion-forward designs. We completed an Asset Sale related to our Joe s® brand in September 2015. Hudson was established in 2002, and is similarly recognized as a premier designer and marketer of women s and men s premium branded denim apparel. Because we focus on design, development and marketing, we rely on third parties to manufacture our apparel products. We sell our products through our own retail stores and to numerous retailers, which include major department stores, specialty stores and distributors around the world.

On September 30, 2013, we acquired all of the outstanding equity interests in Hudson for an aggregate purchase price consisting of approximately \$65,416,000 in cash and approximately \$27,451,000 in convertible notes, net of discount. We also issued promissory notes, bearing no interest, for approximately \$1,235,000 in aggregate principal amount that was paid on April 1, 2014 to certain option holders of Hudson. This acquisition provided us with an additional proven premium denim brand and enhanced our prospects for growth across wholesale, retail and e-commerce, both domestically and overseas, and created the potential for improved purchasing authority with current and future vendors and other operational efficiencies. As of the acquisition date, the acquired business represented approximately 40 percent of our consolidated total assets at November 30, 2013 and approximately three percent of consolidated net loss for the year ended November 30, 2013.

Our Hudson® product line includes women s, men s and children s denim jeans, pants, jackets and other bottoms. Similar to the evolution of Joe s®, we expect to evaluate offering a range of products under the Hudson® brand name. Our Joe s® product line, which was sold pursuant to the Asset Sale, included women s and men s denim jeans, pants, shirts, sweaters, jackets and other apparel products. We also offered under our Joe s® brand women s handbags and clutches, women s intimates, children s products, shoes, belts and leather goods produced by us or under various license agreements and we receive royalty payments based upon net sales from licensees.

During the first half of fiscal 2015, our business was impacted by a decrease in overall sales in both our wholesale and retail segments. During fiscal 2014, our business was impacted by a decline in our overall Joe s® business, but offset by the addition of sales from the acquisition of Hudson. On a comparative basis, sales of our men s and women s denim bottoms were, and continue to be, impacted by a weakening in the overall denim market, as consumer preference shifts to non-denim bottoms. Both brands have been focused on designing new products in a variety of fits and washes with new and innovative fabrics to give the customer a reason to purchase a new pair of jeans. Beginning in fiscal 2012, we also offered a line, else , that had price points starting at \$68 and was created to reach young women who are looking for a premium denim-like product at a more affordable price. The increases and decreases in sales related to this brand impacted our comparative sales during fiscal 2013 and 2014. We sold the else trademark pursuant to the Asset Sale and at the time of the sale, the else brand had a very limited assets and distribution in the international market.

During fiscal 2014 and 2015, we believed that our growth potential relied on the integration of the Hudson and Joe s Jeans operations. We did not achieve the desired level of integration on our original timetable. As a result, we failed to meet certain financial covenants set forth in our

term loan agreement with our term loan lender. On November 6, 2014, we received a notice of default and demand for payment of default interest from Garrison Loan Agency Service LLC, as term loan agent, under the Term Loan Credit Agreement. As a result of the default under the Term Loan Credit Agreement, we were also in default under the terms of our Revolving Credit Agreement and our factoring facility with CIT and we were prohibited from making payments under the Convertible Notes and the obligations to Mr. Dahan.

On January 19, 2015, our President and Chief Executive Officer, Marc. B. Crossman, resigned. As a result of the defaults and the resignation of our CEO, our Board determined that it was in the best interests of the company and our stockholders to explore all of strategic alternatives to remedy the defaults with our lenders and to find a new CEO to lead us. On January 29, 2015, we engaged Carl Marks Advisory Group Inc. ( *Carl Marks* ) to help us explore all of our alternatives to resolve our financial condition. In March 2015, Carl Marks launched its strategic transaction process seeking proposals for transactions that would generate enough funds that would allow us to repay the term loan in full. The indications of interest were for a wide variety of transactions including a partial refinancing, IP sale/license transaction, asset sale transaction and a merger/recapitalization transaction. As part of the process, on September 8, 2015, we entered into various definitive agreements, pursuant to which we agreed to (i) the Asset Sale, which was completed September 11, 2015, whereby we sold certain of our operating and intellectual property assets related to the Joe s Business to two separate purchasers for an aggregate purchase price of \$80 million, (ii) combine our remaining business operated under the Hudson brand with RG pursuant to the Merger Agreement, (iii) issue and sell \$50 million of our Series A Preferred Stock in a private placement to an affiliate of TCP pursuant to the

Table of Contents

Stock Purchase Agreement and (iv) exchange our outstanding Convertible Notes for a combination of cash, shares of our common stock and the Modified Convertible Notes. On September 11, 2015, the proceeds of the Asset Sales were used to repay all of our indebtedness outstanding under the term loan credit agreement and a portion of our indebtedness outstanding under our revolving credit agreement. As a result, the term loan credit agreement was paid in full and terminated on September 11, 2015 and we entered in an amended and restated revolving credit agreement with CIT, which provides for a maximum credit availability of \$7.5 million and waived certain defaults. The Joe's business is presented as held for sale (discontinued operations) in our condensed consolidated financial statements for all periods presented. See Note 3 Discontinued Operations, to our condensed consolidated financial statements for further discussion of the operating results of our discontinued businesses. See Note 2 Subsequent Events for more information regarding the Merger and the Merger Transactions.

During the time period from November 2014 while we were working on securing the Asset Sale, the Merger and the Merger Transactions, in June 2015, we entered into a Forbearance and Amendment No. 3 to Revolving Credit Agreement with CIT (the *CIT Forbearance Agreement*) and a substantially similar forbearance agreement with Garrison (the *Garrison Forbearance Agreement*, and together with the CIT Forbearance Agreement, the *Forbearance Agreements*) that also amended the Term Loan Credit Agreement. The Forbearance Agreements required the lenders to forbear from exercising certain of their respective rights and remedies with respect to each existing default (generally defined as existing and certain future anticipated or possible events of default) under the Revolving Credit Agreement during the forbearance period and further amended the Revolving Credit Agreement. As noted above, the Forbearance Agreements also provided for amendments to the Revolving Credit Agreement and Term Loan Credit Agreement whereby we were provided with reduced minimum availability requirements and eligible account percentages were expanded. However, in July 2015, we failed to comply with the sale/recapitalization process milestones set forth in the Garrison Forbearance Agreement, which required us to, among other things, meet certain deadlines in the sale/recapitalization process. As a result, the forbearance period terminated; provided, however, that such termination had no impact on our amendments to the Revolving Credit Agreement and Term Loan Credit Agreement.

Because of our net working capital deficiency due to the debt covenant violations and our recurring losses from operations, our independent auditors, Moss Adams LLP, in their audit report on our annual 2014 financial statements dated February 13, 2015, expressed their substantial doubt about our ability to continue as a going concern. All financial statements and information were prepared assuming that we will continue as a going concern.

We have retained and continue to operate the 32 Joe's® brand retail stores after the closing of the Operating Asset Purchase Agreement and the IP Asset Purchase Agreement and expect to proceed with the disposition of certain stores; provided, however that, certain retail stores designated by Operating Assets Purchaser will be transferred to the Operating Assets Purchaser on or prior to December 31, 2016 for no additional consideration. The retail stores being transferred have been included as part of our discontinued operations for all periods presented. Subject to certain limitations on our aggregate net liability with respect to the net costs and expenses related to the operation of the retail stores if the Merger does not close, such costs and expenses will be borne by us, the IP Assets Purchaser and the Operating Assets Purchaser. The Operating Assets Purchaser will supply Joe's® branded merchandise to the retail stores for resale under a license from the IP Assets Purchaser.

For the remainder of 2015, we believe that our growth drivers will be dependent upon the completion of the Merger and the Merger Transactions, cost saving measures related to the operation of our Hudson subsidiary, the performance of our Hudson brand and the performance of the Joe's® brand retail stores which we still own and operate. Upon completion of the Merger it will be necessary for us to integrate the operations of RG in order to reduce expenses and achieve the synergies that we expect as a result of the acquisition of RG.

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

Our business is seasonal. The majority of the marketing and sales orders take place from late fall to late spring. The greatest volume of shipments and actual sales are generally made from summer through early fall, which coincides with our third and fourth fiscal quarters, and accordingly, our cash flow is strongest in those quarters. Due to the seasonality of our business, as well as the evolution and changes in our business and product mix, including our acquisition of Hudson and the Asset Sale, our quarterly or yearly results are not necessarily indicative of the results for the next quarter or year. Furthermore, because of the growing number of full-price retail and outlet stores opened at different points during the past few fiscal years, we continue to assess the seasonality of our business on our retail segment and its potential impact on our financial results.

Our reportable business segments are Wholesale and Retail. We manage, evaluate and aggregate our operating segments for segment reporting purposes primarily on the basis of business activity and operation. As of August 31, 2015, our Wholesale segment was comprised of sales of Hudson® products to retailers, specialty stores and international distributors, revenue from licensing agreements and includes expenses from sales, trade shows, distribution, product samples and customer service departments. As of August 31, 2015, our Retail segment was comprised of sales to consumers through ten full-price retail stores, 11 outlet stores and through our online retail site at *www.hudsonjeans.com*. Our Corporate and other is comprised of expenses from corporate operations, which include the executive, finance, legal, human resources, design and production departments and general advertising expenses associated with our products. Sales of our Joe s® products are presented as discontinued operations as a result of the sale of those assets in our condensed consolidated financial statements for all periods presented.

Table of Contents**Comparison of Three Months Ended August 31, 2015 to Three Months Ended August 31, 2014**

	Three months ended ( dollar values in thousands )			
	August 31, 2015	August 31, 2014	\$ Change	% Change

Table of Contents**Three Months Ended August 31, 2015 Overview**

The following table sets forth certain statements of operations data by our reportable segments for the periods as indicated:

	<b>Three months ended</b> <b>( dollar values in thousands )</b>			
	<b>August 31, 2015</b>	<b>August 31, 2014</b>	<b>\$ Change</b>	<b>% Change</b>
<b>Net sales:</b>				
Wholesale	\$ 16,022	\$ 22,100	\$ (6,078)	(28)%
Retail	2,843	3,618	(775)	(21)%
	\$ 18,865	\$ 25,718	\$ (6,853)	(27)%
<b>Gross profit:</b>				
Wholesale	\$ 6,385	\$ 9,965	\$ (3,580)	(36)%
Retail	1,938	2,474	(536)	(22)%
	\$ 8,323	\$ 12,439	\$ (4,116)	(33)%
<b>Operating income (loss):</b>				
Wholesale	\$ 3,530	\$ 7,233	\$ (3,703)	(51)%
Retail	(1,018)	(574)	(444)	(77)%
Corporate and other	(6,901)	(6,042)	(859)	(14)%
	\$ (4,389)	\$ 617	\$ (5,006)	811%

For the three months ended August 31, 2015, or the third quarter of fiscal 2015, our net sales decreased to \$18,865,000 from \$25,718,000 for the three months ended August 31, 2014, or the third quarter fiscal 2014, a 27 percent decrease. We had an operating loss of \$4,389,000 compared to operating income of \$617,000 for the third quarter of fiscal 2014.

**Net Sales**

Our overall net sales decreased to \$18,865,000 for the third quarter of fiscal 2015 from \$25,718,000 for the third quarter of fiscal 2014, a 27 percent decrease. Sales of our men's and women's denim bottoms continue to be impacted by a weakening in the overall denim market, as consumer preference shifts to non-denim bottoms. We have been focusing on designing new products in a variety of fits and washes with new and innovative fabrics to give the customer a reason to purchase a new pair of jeans.

More specifically, our wholesale net sales decreased to \$16,022,000 for the third quarter of fiscal 2015 from \$22,100,000 for the third quarter of fiscal 2014, a 28 percent decrease. This decrease in our wholesale sales is primarily attributed to a decrease to sales in the off price channel of distribution within our wholesale business. In the third quarter of fiscal 2014, we had significant increase in sales to the off price channel of distribution, which we did not have in the third quarter of fiscal 2015, which contributed to our overall decline.

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

Our retail net sales decreased to \$2,843,000 for the third quarter of fiscal 2015 from \$3,618,000 for the third quarter of fiscal 2014, a 21 percent decrease. The primary reason for this decrease included a \$600,000 decrease in retail sales from Joe's® retail stores mostly due to lower traffic and the lease expiration for our Melrose store at the end of the second quarter of fiscal 2015. Also contributing to the decrease was a \$175,000 decrease in Hudson's® e-shop sales. Same store sales for our brick and mortar Joe's® stores decreased by 16 percent. Same store sales for our Hudson® e-shop decreased by 30 percent.

### **Gross Profit**

Our gross profit decreased to \$8,323,000 for the third quarter of fiscal 2015 from \$12,439,000 for the third quarter of fiscal 2014, a 33 percent decrease. Our overall gross margin percentage decreased to 44 percent for the third quarter of fiscal 2015 from 48 percent for the third quarter of fiscal 2014. Our overall gross margin percentage for the third quarter of fiscal 2015 was negatively impacted by liquidation sales related to aged inventory.

Table of Contents

Our wholesale gross profit decreased to \$6,385,000 for the third quarter of fiscal 2015 from \$9,965,000 for the third quarter of fiscal 2014, a 36 percent decrease. Our wholesale gross profit decreased for the third quarter of fiscal 2015 compared to the third quarter of fiscal 2014 mostly due to lower wholesale sales and liquidation sales related to aged inventory. Our wholesale gross margin percentage for the third quarter of fiscal 2015 decreased to 40 percent compared to 45 percent for the prior year comparable period. The decrease in gross margin percentage is mostly attributed to liquidation sales related to aged inventory.

Our retail gross profit decreased to \$1,938,000 for the third quarter of fiscal 2015 from \$2,474,000 for the third quarter of fiscal 2014, a 22 percent decrease. Our gross margin percentage was comparable at 68 percent for both the third quarter of fiscal 2015 and 2014.

**Selling, General and Administrative Expense, including Depreciation and Amortization and Retail Store Impairment**

Selling, general and administrative, or SG&A, expenses, including depreciation and amortization and retail store impairment, increased to \$12,712,000 for the third quarter of fiscal 2015 from \$11,822,000 for the third quarter of fiscal 2014, an eight percent decrease. Our SG&A expenses were impacted by additional fees of \$2,180,000 in connection with investment banking, restructuring and legal advice related to the evaluation of our strategic alternatives in connection with the default under our Term Loan Credit Agreement and Revolving Credit Agreement. Our SG&A includes expenses related to employee and employee related benefits, sales commissions, contingent consideration expense, advertising, sample production, facilities and distribution related costs, professional fees, stock-based compensation, factor and bank fees, fees associated with the evaluation of our strategic alternatives related to the default under our Term Loan Credit Agreement and Revolving Credit Agreement, expenses related to Hudson's operation as our subsidiary and also includes depreciation and amortization and retail store impairment. In the third quarter of fiscal 2015 and 2014, we recorded a retail store impairment charge of \$470,000 and \$332,000, respectively, related to the property and equipment at two of our retail stores, respectively. Based on the operating performance of these stores, we believed that we could not recover the carrying value of the property and equipment at these stores.

Our wholesale SG&A expense increased to \$2,855,000 for the third quarter of fiscal 2015 from \$2,732,000 for the third quarter of fiscal 2014, or a five percent increase. Our wholesale SG&A expense was slightly higher in the third quarter of fiscal 2015 mostly due to additional trade show costs.

Our retail SG&A expense decreased to \$2,956,000 for the third quarter of fiscal 2015 from \$3,048,000 for the third quarter of fiscal 2014, a three percent decrease. In addition, in the third quarter of fiscal 2015 and 2014, we recorded an impairment charge of \$470,000 and \$332,000, respectively, related to the property and equipment at two of our retail stores, respectively. Our overall retail SG&A decreased mostly due to the lease expiration for our Melrose store at the end of the second fiscal quarter of 2015.

Our corporate and other SG&A expense increased to \$6,901,000 for the third quarter of fiscal 2015 from \$6,042,000 for the third quarter of fiscal 2014, a 14 percent increase. Our corporate and other SG&A expense includes general overhead associated with our operations, including Joe's corporate and Hudson. Our increase in SG&A expense was attributable to lower corporate operating expenses, which were mostly offset by additional fees of \$2,180,000 in connection with investment banking, restructuring and legal advice related to strategic alternatives in connection with the default under our Term Loan Credit Agreement and Revolving Credit Agreement.

**Operating (Loss) Income from Continuing Operations**

We had operating loss of \$4,389,000 for the third quarter of fiscal 2015 compared to \$617,000 for the third quarter of fiscal 2014. Our increase in operating loss was primarily due to lower wholesale sales, gross profit and higher SG&A expenses as discussed above.

Our wholesale operating income decreased to \$3,530,000 in the third quarter of fiscal 2015 from \$7,233,000 for the third quarter of fiscal 2014, a 51 percent decrease. We had a retail operating loss of \$1,018,000 in the third quarter of fiscal 2015 compared to \$574,000 in the third quarter of fiscal 2014. Corporate operating loss increased to \$6,901,000 for the third quarter of fiscal 2015 from \$6,042,000 for the third quarter of fiscal 2014.

### **Interest Expense**

Our interest expense increased to \$1,700,000 for the third quarter of fiscal 2015 from \$1,279,000 for the third quarter of fiscal 2014. Our interest expense is primarily associated with interest expense from our Term Loan Credit Agreement and Revolving Credit Agreement with Garrison and CIT, interest expense and PIK interest from the Convertible Notes and amortization of debt discounts and deferred financing costs associated with the finance arrangements resulting from the Hudson acquisition. Effective retroactively to October 1, 2014, we began paying additional interest to both CIT and Garrison, respectively, due to the default under the respective agreements. We paid to CIT an additional two percent interest and to Garrison an additional two percent interest.

Table of Contents**Income Tax**

Our effective tax rate from continuing operations was a benefit of 210 percent for the third quarter of fiscal 2015 compared to an expense of 26 percent for the third quarter of fiscal 2014. The decreased effective tax rate for the third quarter of fiscal 2015 was primarily due to a reduction in the valuation allowance as a result of the September 11, 2015 Asset Sale. This tax benefit consisted of a discrete reduction of \$6,528,000 to our valuation allowance established during the first quarter of fiscal 2015 and the recording of the tax benefit for the operating losses for the nine months ended August 31, 2015 for which no tax benefit was previously taken. For third quarter of fiscal 2015, we recorded an income tax benefit on discontinued operations of \$793,000.

**Income (Loss) from Continuing Operations**

We generated income from continuing operations of \$6,712,000 for the third quarter of fiscal 2015 compared to a loss of \$488,000 for the third quarter of fiscal 2014. The income tax benefit of \$12,801,000 was the primary reason for our income from continuing operations for the third quarter of fiscal 2015.

**Income (Loss) from Discontinued Operations**

We generated a loss from discontinued operations of \$1,053,000 for the third quarter of fiscal 2015 compared to income of \$764,000 for the third quarter of fiscal 2014.

**Net Income (Loss) and Comprehensive Income (Loss)**

We generated net income of \$5,659,000 for the third quarter of fiscal 2015 compared to \$276,000 for the third quarter of fiscal 2014. The income tax benefit of \$12,801,000 was the primary reason for our net income for the third quarter of fiscal 2015.

**Comparison of Nine Months Ended August 31, 2015 to Nine Months Ended August 31, 2014**

Table of Contents**Nine Months Ended August 31, 2015 Overview**

The following table sets forth certain statements of operations data by our reportable segments for the periods as indicated:

	Nine months ended ( dollar values in thousands )				
	August 31, 2015	August 31, 2014	\$ Change	% Change	
<b>Net sales:</b>					
Wholesale	\$ 50,800	\$ 57,296	\$ (6,496)	(11)%	
Retail	10,466	11,661	(1,195)	(10)%	
	\$ 61,266	\$ 68,957	\$ (7,691)	(11)%	
<b>Gross profit:</b>					
Wholesale	\$ 18,907	\$ 24,749	\$ (5,842)	(24)%	
Retail	7,169	7,907	(738)	(9)%	
	\$ 26,076	\$ 32,656	\$ (6,580)	(20)%	
<b>Operating income (loss):</b>					
Wholesale	\$ 10,199	\$ 16,817	\$ (6,618)	(39)%	
Retail	(1,362)	(1,116)	(246)	(22)%	
Corporate and other	(20,574)	(17,325)	(3,249)	(19)%	
	\$ (11,737)	\$ (1,624)	\$ (10,113)	(623)%	

For the nine months ended August 31, 2015, our net sales decreased to \$61,266,000 from \$68,957,000 for the nine months ended August 31, 2014, an 11 percent decrease. We had an operating loss of \$11,737,000 for the nine months ended August 31, 2015 compared to \$1,624,000 for the nine months ended August 31, 2014.

**Net Sales**

Our net sales decreased to \$61,266,000 for the nine months ended August 31, 2015 from \$68,957,000 for the nine months ended August 31, 2014, an 11 percent decrease. Sales of our men's and women's denim bottoms continue to be impacted by a weakening in the overall denim market, as consumer preference shifts to non-denim bottoms. We have been focusing on designing new products in a variety of fits and washes with new and innovative fabrics to give the customer a reason to purchase a new pair of jeans.

More specifically, our wholesale net sales decreased to \$50,800,000 for the nine months ended August 31, 2015 compared to \$57,296,000 for the nine months ended August 31, 2014, a 11 percent decrease. This decrease in our wholesale sales is primarily attributed to a decrease in both our domestic men's and women's wholesale and international sales.

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

Our retail net sales decreased to \$10,466,000 for the nine months ended August 31, 2015 compared to \$11,661,000 for the nine months ended August 31, 2014, a ten percent decrease, mostly due to lower traffic and the lease expiration for our Melrose store at the end of the second quarter of fiscal 2015 and our Northpark store in March 2014. Our Joe s® retail store sales decreased by \$1,104,000 and Hudson s® e-shop sales decreased by \$91,000. Same store sales for our brick and mortar Joe s® stores decreased by 10 percent. Same store sales for our Hudson® e-shop increased by four percent.

Table of Contents

**Gross Profit**

Our gross profit decreased to \$26,076,000 for the nine months ended August 31, 2015 compared to \$32,656,000 for the nine months ended August 31, 2014, a 20 percent decrease. Our overall gross margin was 43 percent for the nine months ended August 31, 2015 compared to 47 percent for the nine months ended August 31, 2014.

Our wholesale gross profit decreased to \$18,907,000 for the nine months ended August 31, 2015 compared to \$24,749,000 for the nine months ended August 31, 2014, a 24 percent decrease. Our wholesale gross profit decreased for the nine months ended August 31, 2015 compared to the nine months ended August 31, 2014 due to lower wholesale sales, \$2,723,000 of additional inventory write down for finished goods and fabric, and liquidation sales related to aged inventory. Our wholesale gross margin percentage for the nine months ended August 31, 2015 decreased to 37 percent compared to 43 percent for the prior year comparable period. The decrease in gross margin percentage is mostly attributed to additional inventory write down for finished goods and fabric, as we continue to monitor and make adjustments, as necessary, and liquidation sales related to aged inventory.

Our retail gross profit decreased to \$7,169,000 for the nine months ended August 31, 2015 compared to \$7,907,000 for the nine months ended August 31, 2014, a 9 percent decrease. Our gross margin percentage was comparable at 68 percent for both the nine months ended August 31, 2015 and 2014.

**Selling, General and Administrative Expense, including Depreciation and Amortization and Retail Store Impairment**

SG&A expenses increased to \$37,813,000 for the nine months ended August 31, 2015 compared to \$34,280,000 for the nine months ended August 31, 2014, a 10 percent increase. Our SG&A expenses were impacted by additional fees of \$3,690,000 in connection with investment banking, restructuring and legal advice related to the evaluation of our strategic alternatives in connection with the default under our Term Loan Credit Agreement and Revolving Credit Agreement. Our SG&A includes expenses related to employee and employee related benefits, sales commissions, contingent consideration expense, advertising, sample production, facilities and distribution related costs, professional fees, stock-based compensation, factor and bank fees, fees associated with the evaluation of our strategic alternatives related to the default under our Term Loan Credit Agreement and Revolving Credit Agreement, expenses related to Hudson's operation as our subsidiary and also includes depreciation and amortization and retail store impairment. Due to these additional expenses, our SG&A expenses increased correspondingly for the nine months ended August 31, 2015.

Our wholesale SG&A expense increased to \$8,708,000 for the nine months ended August 31, 2015 compared to \$7,932,000 for the nine months ended August 31, 2014, a ten percent increase. Our wholesale SG&A expense was higher in the nine months ended August 31, 2015 mostly due to higher samples, tradeshow and bad debt expense.

Our retail SG&A expense decreased to \$8,531,000 for the nine months ended August 31, 2015 compared to \$9,023,000 for the nine months ended August 31, 2014, a five percent decrease. Our retail SG&A expense decreased mostly due to the costs associated with operating one less store between the end of the nine months ended August 31, 2014 and the end of nine months ended August 31, 2015, which included additional store payroll, store rents and depreciation expense. In the nine months ended August 31, 2015 and 2014, we recorded a retail store impairment charges of \$470,000 and \$332,000, respectively, related to the property and equipment at two of our retail stores, respectively. Based on the

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

operating performance of these stores, we believed that we could not recover the carrying value of the property and equipment at these stores. Due to this impairment and the additional expense for operations, our SG&A expenses increased correspondingly for the nine month ended August 31, 2015.

Our corporate and other SG&A expense increased to \$20,574,000 for the nine months ended August 31, 2015 compared to \$17,325,000 for the nine months ended August 31, 2014, a 19 percent increase. Our corporate and other SG&A expense includes general overhead associated with our operations, including Hudson. Our increase in SG&A expenses was attributable to additional fees of \$3,690,000 in connection with investment banking, restructuring and legal advice related to strategic alternatives in connection with the default under our Term Loan Credit Agreement and Revolving Credit Agreement.

### **Operating (Loss) Income from Continuing Operations**

We had an operating loss of \$11,737,000 for the nine months ended August 31, 2015 compared to \$1,624,000 for the nine months ended August 31, 2014. Our increase in operating loss was primarily due to lower wholesale sales, gross profit and higher SG&A expenses as discussed above.

Our wholesale operating income decreased to \$10,199,000 for the nine months ended August 31, 2015 from \$16,817,000 in the nine months ended August 31, 2014, a 39 percent decrease. We generated a retail operating loss of \$1,362,000 for the nine months ended August 31, 2015 compared to \$1,116,000 in the nine months ended August 31, 2014. Corporate operating loss increased to \$20,574,000 for the nine months ended August 31, 2015 from \$17,325,000 for the nine months ended August 31, 2014.

Table of Contents

**Interest Expense**

Our interest expense increased to \$4,637,000 for the nine months ended August 31, 2015 from \$3,796,000 for the nine months ended August 31, 2014. Our interest expense is primarily associated with interest expense from our Term Loan Credit Agreement and Revolving Credit Agreement with Garrison and CIT, interest expense and PIK interest from the Convertible Notes and amortization of debt discounts and deferred financing costs associated with the finance arrangements resulting from the Hudson acquisition. Effective retroactively to October 1, 2014, we began paying additional interest to both CIT and Garrison, respectively, due to the default under the respective agreements. We paid to CIT an additional two percent interest and to Garrison an additional two percent interest.

**Other Income**

Other income represents the income due to the change in fair value of the embedded conversion derivative from November 30, 2014 to May 31, 2014 of \$2,268,000 for the six months ended May 31, 2014.

**Income Tax**

Our effective tax rate from continuing operations was an expense of negative 10 percent for the nine months ended August 31, 2015 compared to 27 percent for the nine months ended August 31, 2014. The decreased effective tax rate for the nine months ended August 31, 2015 resulted from the discrete adjustments related to the valuation allowance. For the first quarter of fiscal 2015, the valuation allowance associated with deferred taxes as of November 30, 2014, increased by \$14,481,000. We considered all available evidence, both positive and negative, in our assessment of the valuation allowance needed as of February 28, 2015. Due to a review of operating performance for the quarter and a change in business strategy, which included the disposal of certain assets that have a fair value in excess of tax basis, we increased our valuation allowance by \$14,481,000 as of February 28, 2015. On September 11, 2015, we completed the Asset Sale which was a new asset disposition and resulted in the utilization of certain deferred taxes. We decreased our valuation allowance by \$6,528,000 for these utilized deferred taxes. In addition to these discrete adjustments, the tax benefit also included the recording of the tax benefit for the operating losses for the nine months ended August 31, 2015 for which no tax benefit was previously taken. For the nine months ended August 31, 2015, we recorded an income tax benefit on discontinued operations of \$793,000.

**Loss from Continuing Operations**

We generated a loss from continuing operations of \$18,072,000 for the nine months ended August 31, 2015 compared to a loss of \$2,292,000 for the nine months ended August 31, 2014.

**Loss from Discontinued Operations**

We generated a loss from discontinued operations of \$1,213,000 for the nine months ended August 31, 2015 compared to \$2,729,000 for the nine months ended August 31, 2014.

#### **Net (Loss) Income and Comprehensive (Loss) Income**

Our net loss was \$19,285,000 for the nine months ended August 31, 2015 compared to net income of \$437,000 for the nine months ended August 31, 2014.

#### **Liquidity and Capital Resources**

Until the acquisition of Hudson on September 30, 2013, our primary sources of liquidity were: (i) cash from sales of our products; (ii) sales from accounts receivable factoring facilities and advances against inventory; and (iii) utilizing existing cash balances. Beginning September 30, 2013, in connection with the acquisition of Hudson, we entered into an amended and restated accounts receivable factoring facility and Revolving Credit Agreement with CIT that provided advances to us for eligible accounts receivable and eligible inventory up to \$50,000,000, based upon the value of the eligible accounts receivable and inventory less any reserves imposed by CIT. The initial proceeds from the advances under this revolving credit facility, which included accounts receivable and inventory borrowing, were used to pay a portion of the consideration for the acquisition and fees and expenses associated with the acquisition and the remainder was used to repay our existing factor loans and for working capital and other general corporate purposes. In connection with the Asset Sale, we repaid a portion of our indebtedness under the Revolving Credit Agreement with CIT and the A&R Revolving Credit Agreement. The A&R Revolving Credit Agreement matures on December 31, 2015.

Table of Contents

In addition, in connection with the acquisition of Hudson, we entered into the Term Loan Credit Agreement for \$60,000,000 with Garrison to finance the remainder of the purchase price required for the acquisition. Under the Term Loan Credit Agreement, we paid interest to Garrison and were required to make prepayments under certain circumstances. The term loan was set to mature on September 30, 2018. We used a portion of the proceeds of the Asset Sale to repay all of our indebtedness outstanding under the Term Loan Credit Agreement. As a result, the Term Loan Credit Agreement was paid in full and terminated on September 11, 2015.

Both of these agreements, along with the Convertible Notes issued in connection with the acquisition of Hudson are discussed in more detail below under *Financing Arrangements Related to the Acquisition of Hudson*.

For the nine months ended August 31, 2015, we generated \$11,701,000 of cash flow from operations mostly from the collection of receivables and liquidation of aged inventory. Cash flow used in financing activities consisted of \$11,751,000 of repayments under our revolving credit facility. We made payments of \$68,000 for taxes on restricted stock units and we purchased \$117,000 in restricted stock. We used \$451,000 in investing activities for the purchase of property and equipment. Our cash balance decreased to \$368,000 as of August 31, 2015.

Under the amended and restated factoring agreement entered into on September 30, 2013 (the *Amended and Restated Factoring Agreement*), we continue to sell or assign to CIT certain of our accounts receivable, including accounts arising from or related to sales of inventory and the rendition of services. We pay a factoring rate of 0.50 percent for accounts for which CIT bears the credit risk, subject to discretionary surcharges and 0.35 percent for accounts for which we bear the credit risk, but in no event less than \$3.50 per invoice. The interest rate associated with borrowings equals the interest rate then in effect for Revolving A Loans pursuant to the revolving credit agreement. As of August 31, 2015, that interest rate was approximately 2.75 percent. The amended and restated factoring agreement may be terminated by CIT upon 60 days written notice or immediately upon the occurrence of an event of default as defined in the agreement. In connection with the Asset Sale, we also entered into the Reassignment and Termination Agreement, pursuant to which Joe's Jeans Subsidiary, Inc. (*Joe's Jeans Subsidiary*) was terminated as a party to the Amended and Restated Factoring Agreement and CIT reassigned to Joe's Jeans Subsidiary all of its accounts factored with CIT which were outstanding as of the date of the Reassignment and Termination Agreement. The accounts receivable agreement may be terminated by us upon 60 days written notice prior to September 30, 2018 or annually with 60 days written notice prior to September 30th of each year thereafter and remains effective until terminated.

As of August 31, 2015, our cash balance was \$368,000 and our borrowing base cash availability with CIT was approximately \$11,000,000. This amount with CIT fluctuates on a daily basis based upon invoicing and collection related activity by CIT on our behalf. As of August 31, 2015, our revolving credit facility had a balance of \$19,587,000.

For the remainder of fiscal 2015, our primary capital needs are for: (i) operating expenses; (ii) payments, including interest, required to be made under our amended and restated factoring facility, A&R Revolving Credit Agreement, and Convertible Notes (defined below), which the convertible notes continue to accrue additional interest at the default rates; (iii) working capital necessary to fund inventory purchases; (iv) payments related to restructuring and advice of our financial and legal advisors related to strategic alternatives, including the Asset Sale and the completion of the Merger and Merger Transaction; (v) financing extensions of trade credit to our customers; (vi) payment for the fixed amount paid to Mr. Dahan pursuant to our agreement with him, including any additional payments not made during the period we were prohibited from making payments; and (vii) payments for expenses associated with restructuring our operations in connection with the Asset Sale and the completion of the Merger and Merger Transaction. We anticipate funding our operations through working capital generated by the following: (i) cash flow from sales of our products from the combined companies; (ii) managing our operating expenses and inventory levels; (iii) maximizing trade payables with our domestic and international suppliers; (iv) increasing collection efforts on existing accounts receivables; (v) utilizing our A&R Revolving Credit Agreement with CIT, which includes the Amended and Restated Factoring Agreement; and (vi) proceeds from the Asset Sale.

Based on our cash on hand, cash flow from operations and the expected borrowing availability under the A&R Revolving Credit Agreement with CIT based upon our borrowing base and sales forecasts, we believe that we have the working capital resources necessary to meet our projected operational needs for the remainder of fiscal 2015. However, if we require more capital for growth and integration or if we experience a decline in sales and/or operating losses, we believe that it will be necessary to obtain additional working capital through additional credit arrangements. However, there can be no assurance that other financings will be available if needed. Our inability to fulfill any interim working capital requirements raises a substantial doubt about our ability to continue as a going concern for a reasonable period of time.

We believe that the rate of inflation over the past few years has not had a significant adverse impact on our net sales or income from continuing operations.

Table of Contents

**Financing Arrangements Related to the Acquisition of Hudson**

As discussed above, in connection with the acquisition of Hudson we entered into a Revolving Credit Agreement with CIT and the Term Loan Credit Agreement with Garrison. We also issued approximately \$32,445,000 in Convertible Notes (face amount) and promissory notes, bearing no interest, for approximately \$1,235,000 in aggregate principal amount that was paid on April 1, 2014 to certain option holders of Hudson.

**The Convertible Notes**

The Convertible Notes were issued with different interest rates and conversion features for Hudson's management stockholders and Fireman, respectively. Interest on the Convertible Notes is paid in a combination of cash and additional paid-in-kind notes, (the *PIK notes*). Convertible Notes in an aggregate principal amount of approximately \$22,885,000 (face amount) were issued to Hudson's management stockholders, are structurally and contractually subordinated to our senior debt and mature on March 31, 2019. All of the notes are expressly junior and subordinated in right of payment to all amounts due and owing upon any indebtedness outstanding under the revolving credit facility and the term loan facility (as discussed below). Due to the defaults and events of default under the revolving credit facility and term loan facility, we are prohibited from making any payments under the Convertible Notes.

The management notes accrue interest quarterly on the outstanding principal amount (i) from September 30, 2013 until the earlier to occur of the date of conversion of the notes or November 30, 2014 at a rate of 10 percent per annum, which is payable 7.68 percent in cash and 2.32 percent in PIK notes, (ii) from December 1, 2014 until the earlier to occur of the date of conversion of the notes or September 30, 2016 at a rate of 10 percent per annum payable in cash, and (iii) from October 1, 2016 until the earlier to occur of the date of conversion of the notes or the date such principal amount is paid in full at a rate of 10.928 percent per annum payable in cash. Payment of interest at the cash pay rate under clause (ii) or (iii), as applicable, for any payment date will be subject to satisfaction of certain financial conditions for us. As of December 1, 2014, we did not meet such financial conditions, and therefore, the interest continues to accrue quarterly at a rate of 10 percent per annum, which is payable 7.68 percent in cash and 2.32 percent in PIK notes. In addition, because we are prohibited from making any payments under the Convertible Notes, as of January 1, 2015, we began to accrue an additional two percent interest under the default rate in cash. The management notes become convertible by each of the holders beginning on September 30, 2015 until maturity on March 31, 2019 into shares of our common stock, cash, or a combination of cash and common stock, with the settlement choice at our election.

The approximately \$9,560,000 (face amount) in aggregate principal amount of the Convertible Notes issued to Fireman Capital CPF Hudson Co-Invest LP ( *Fireman* ) are structurally and contractually subordinated to our senior debt and mature on March 31, 2019. The Fireman note accrues interest quarterly on the outstanding principal amount (i) from September 30, 2013 until the earlier to occur of the date of conversion of the notes or November 30, 2014 at a rate of 6.5 percent per annum, which is payable 3 percent in cash and 3.5 percent in PIK notes, (ii) from December 1, 2014 until the earlier to occur of the date of conversion of the notes or September 30, 2016 at a rate of 6.5 percent per annum payable in cash, and (iii) from October 1, 2016 until the earlier to occur of the date of conversion of the notes or the date such principal amount is paid in full at a rate of 7 percent per annum payable in cash. Payment of interest at the cash pay rate under clause (ii) or (iii), as applicable, for any payment date will be subject to satisfaction of certain financial conditions for us. As of December 1, 2014, we did not meet such financial conditions, and therefore, the interest continues to accrue quarterly at a rate of 6.5 percent per annum, which is payable 3 percent in cash and 3.5 percent in PIK notes. In addition, because we are prohibited from making any payments under the Convertible Notes, as of January 1, 2015, we accrue an additional two and a half percent interest under the default rate in cash. The Fireman note became convertible by the holder on October 14, 2014 until maturity on March 31, 2019 into shares of common stock, cash, or a combination of cash and common stock, with the settlement choice at our election.

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

Each of the notes is convertible, in whole but not in part, at a conversion price of \$1.78 per share, subject to certain adjustments, into approximately 18,200,000 shares of our common stock. The Fireman note may be converted at its sole election and the management notes may be converted at either a majority of the holders' election or individually, depending on the holder. If we elect to pay cash with respect to a conversion of the notes, the amount of cash to be paid per share will be equal to (a) the number of shares of common stock issuable upon such conversion multiplied by (b) the average of the closing prices for the common stock over the 20 trading day period immediately preceding the notice of conversion. We will have the right to prepay all or any portion of the principal amount of the notes at any time by paying 103 percent of the principal amount of the portion of any management note subject to prepayment or 100 percent of the principal amount of the portion of the Fireman note subject to prepayment.

In connection with the quarterly interest payments payable on January 1, 2014, April 1, 2014, July 1, 2014, October 1, 2014, January 1, 2015 and April 1, 2015 we issued a total of approximately \$218,000, \$215,000, \$219,000, \$223,000, \$225,000 and \$221,000, respectively, in the aggregate principal amount of Convertible Notes as PIK notes to the holders of the Convertible Notes. In addition, because we are prohibited from making any payments under the Convertible Notes, we did not pay the quarterly interest payment on January 1, 2015 and are accruing at an additional two or two and one-half percent interest under the default rate of the agreements, respectively.

Table of Contents

On September 8, 2015, we entered into the Rollover Agreement with the holders of our Convertible Notes, pursuant to which the holders of the Convertible Notes have agreed to contribute to us the Convertible Notes in exchange for the following:

- issuance by us of a number of shares of common stock with a value per share of \$11.10 of the our common stock equal to the sum (i) of a specified percentage of the principal amount of Convertible Notes held by such noteholder, which principal amount, as of July 1, 2015, is an aggregate of \$33,990,538 and will be increased by any PIK interest payable in accordance with the terms of the Convertible Notes until the Effective Time (the **Rollover Time** ), and (without duplication) and (ii) all accrued interest, including default interest as applicable, owing on 50% of the principal amount of such Convertible Notes in accordance with the terms of the Convertible Notes as of the Rollover Time, which amount, as of July 1, 2015, is an aggregate of \$1,936,617 and which will continue to accrue interest in accordance with the terms of the Convertible Notes until the Rollover Time. The holders of Convertible Notes will receive in the aggregate approximately 14.0% of our Common Stock outstanding immediately after consummation of the Merger ;
- a cash payment by us to each noteholder equal to 25% of the principal amount of Convertible Notes as of the Rollover Time held by each such holder of the Convertible Notes, which principal amount, as of July 1, 2015, is an aggregate of \$33,990,538, which will be increased by any PIK interest payable in accordance with the terms of the Convertible Notes until the Rollover Time; and
- Modified Convertible Notes, each with a principal amount equal to the sum of (i) a specified percentage of the principal amount of Convertible Notes as of the Rollover Time held by each holder of the Convertible Notes, which principal amount, as of July 1, 2015, is an aggregate of \$33,990,538 and will be increased by any PIK interest payable in accordance with the terms of the Convertible Notes until the Rollover Time, and (without duplication) (ii) all accrued interest, including default interest as applicable, owing on 50% of the principal amount of the Convertible Notes in accordance with the terms of the Convertible Notes as of the Rollover Time, which amount, as of July 1, 2015, is an aggregate of \$1,936,617 and which will continue to accrue interest in accordance with the terms of the Convertible Notes until the Rollover Time. The holders of Convertible Notes will receive in the aggregate approximately \$16.4 million outstanding principal amount of Modified Convertible Notes.

The Rollover Agreement will be automatically terminated upon termination of the Merger Agreement prior to the Rollover Time. The Rollover Agreement may also be terminated by us or by Mr. Kim and Fireman if the Rollover Time has not occurred prior to April 8, 2016.

The Modified Convertible Notes are structurally and contractually subordinated to our senior debt and will mature five and a half years following the date of such note. The Modified Convertible Notes accrue interest quarterly on the outstanding principal amount at a rate of 6.5% per annum (to be increased to 7% as of October 1, 2016 with respect to the Modified Convertible notes issued to Fireman), which will be payable 50% in cash and 50% in additional notes; provided, however, that we may, in our sole discretion, elect to pay 100% of such interest in cash. Beginning upon the date of issuance, the Modified Convertible Notes will be convertible by each of the holders into shares of our common stock, cash, or a combination of cash and common stock, at our election.

If we elect to issue only shares of common stock upon conversion of the Modified Convertible Notes, each of the Modified Convertible Notes would be convertible, in whole but not in part, into a number of shares equal to the conversion amount divided by the market price. The conversion amount is (a) the product of (i) the market price, multiplied by (ii) the quotient of (A) the principal amount, divided by (B) the conversion price, minus (b) the aggregate optional prepayment amounts paid to the holder. The market price is the average of the closing prices for our common stock over the 20 trading day period immediately preceding the notice of conversion. If we elect to pay cash with respect to a conversion of the Modified Convertible Notes, the amount of cash to be paid per share will be equal to the conversion amount. We will have the right to prepay all or any portion of the principal amount of the Modified Convertible Notes at any time so long as it makes a pro rata prepayment on all of the Modified Convertible Notes.

### **Revolving Credit Agreement**

The Revolving Credit Agreement with CIT provided us with a revolving credit facility up to \$50,000,000 comprised of a revolving A-1 commitment of up to \$1,000,000 and a revolving A commitment of up to \$50,000,000 minus the revolving A-1 commitment. Our actual maximum credit availability under the revolving facility varied from time to time and was determined by calculating a borrowing base, which was based on the value of the eligible accounts and eligible inventory minus reserves imposed by CIT. The revolving facility also provided for swingline loans, up to \$5,000,000 sublimit, and letters of credit, up to \$1,000,000 sublimit. Proceeds from advances under the revolving facility were to be used for working capital needs and general corporate purposes and were initially used to pay a portion of the consideration for the acquisition and fees and expenses associated with the acquisition and to repay our existing factor loans.

Table of Contents

As of August 31, 2015, we were not in compliance with the covenants under the Revolving Credit Agreement as a result of an event of default under the Term Loan Credit Agreement. As of November 30, 2014, February 28, 2015 and May 31, 2015, we were out of compliance with (i) the minimum fixed charge coverage ratio of 1.09x; (ii) the covenant to timely deliver the financial plan and forecast for 2015; (iii) the minimum fixed charge coverage ratio of 1.15x; and (iv) the minimum fixed charge coverage ratio of 1.20x. See Subsequent Events above for a discussion of the forbearance agreements and amendments to the Revolving Credit Agreement and Term Loan Credit Agreement.

In connection with the Asset Sale, a portion of our indebtedness under the Revolving Credit Agreement was repaid, and on September 11, 2015, we entered into the A&R Revolving Credit Agreement. Among other things, the A&R Revolving Credit Agreement (i) amended and restated the Revolving Credit Agreement as it had been amended from time to time and (ii) waived the Existing Defaults and Forbearance Defaults (each as defined under the CIT Forbearance Agreement) and certain other defaults. Pursuant to a separate consent and agreement, CIT and the lenders consented to the Asset Sale.

The A&R Revolving Credit Agreement provides for a Revolving Facility with a Revolving Commitment of up to \$10,000,000. Our actual maximum credit availability under the Revolving Facility varies from time to time and is equal to the lesser of (i) the Revolving Commitment minus an availability block of \$2.5 million, or \$7.5 million, and (ii) a calculated borrowing base, which is based on the value of the eligible accounts and eligible inventory minus the availability block of \$2.5 million minus reserves imposed by the revolving lenders, all as specified in the A&R Revolving Credit Agreement. The Revolving Facility provides for swingline loans, up to \$1 million sublimit, and letters of credit, up to \$1 million sublimit, within such credit availability limits. Proceeds from advances under the Revolving Facility may be used (i) to pay fees and expenses in connection with the Amended and Restated Revolving Credit Agreement and the Asset Sale and (ii) for working capital needs and general corporate purposes.

All unpaid loans under the Revolving Facility mature on December 31, 2015. We have the right at any time and from time to time to (i) terminate the commitments under the Revolving Facility in full and (ii) prepay any borrowings under the Revolving Facility, in whole or in part, without terminating or reducing the commitment under the Revolving Facility.

The Revolving Facility is guaranteed by us and all of our subsidiaries, and is secured by liens on substantially all assets owned by the borrowers and guarantors party thereto, subject to permitted liens and exceptions. In connection with the Asset Sale, the Guarantee and Collateral Agreement, dated as of September 30, 2013, by and among Joe's Jeans Subsidiary, Inc. and Hudson, us, certain of our subsidiaries party thereto and CIT, as administrative agent and collateral agent, as amended (the **Guarantee and Collateral Agreement**), was further amended pursuant to the Reaffirmation and Amendment of Collateral Documents, dated as of September 11, 2015, by and among CIT, us, Joe's Jeans Subsidiary, Hudson, Innovo West Sales, Inc., Joe's Jeans Retail Subsidiary, Inc., Hudson Clothing Holdings, Inc., and HC Acquisition Holdings, Inc (the **Reaffirmation and Amendment of Collateral Documents**), providing for among other things, the addition of the factor as a secured party under the Guarantee and Collateral Agreement.

Advances under the Revolving Facility are in the form of either base rate loans or LIBOR rate loans. The interest rate for base rate loans under the Revolving Commitment fluctuates and is equal to (x) the greatest (the **Alternate Base Rate**) of (a) JPMorgan Chase Bank prime rate; (b) the Federal funds rate plus 0.50%; and (c) the rate per annum equal to the 90 day LIBOR published in the New York City edition of the Wall Street Journal under Money Rates (the **90-Day LIBO Rate**) plus 1.0%, in each case, plus (y) 3.50%. The interest rate for LIBOR rate loans under the Revolving Commitment is equal to the 90-Day LIBO Rate per annum plus 4.50%. Interest on the Revolving Facility is payable on the first day of each calendar month and the maturity date. Among other fees, we will pay a commitment fee of 0.25% per annum (due quarterly) on the average daily amount of the unused revolving commitment under the Revolving Facility. We also must pay fees with respect to any letters of credit issued under the Revolving Facility.

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

The Revolving Facility contains usual and customary negative covenants for transactions of this type, including, but not limited to, restrictions on our and our subsidiaries' ability to create or incur indebtedness; create liens; consolidate, merge, liquidate or dissolve; sell, lease or otherwise transfer any of its assets (with the Asset Sale expressly permitted); substantially change the nature of its business; make investments or acquisitions; pay dividends; enter into transactions with affiliates; amend material documents, prepay certain indebtedness and make capital expenditures. The negative covenants are subject to certain exceptions as specified in the A&R Revolving Credit Agreement.

Additionally, in connection with the Asset Sale, Joe's Jeans Subsidiary, Hudson, the Operating Assets Purchaser and CIT entered into the Reassignment and Termination Agreement, pursuant to which, Joe's Jeans Subsidiary was terminated as a party to the Factoring Agreement. Subject to the terms and conditions provided in the Reassignment and Termination Agreement, CIT reassigned to Joe's Jeans Subsidiary all of its accounts factored with CIT which were outstanding as of the date of the Reassignment and Termination Agreement.

Table of Contents

**Term Loan Credit Agreement**

Our indebtedness outstanding under the Term Loan Credit Agreement was fully repaid with a portion of the proceeds of the Asset Sale. As a result, the Term Loan Credit Agreement was paid in full and terminated on September 11, 2015. The Term Loan Credit Agreement with Garrison provided for term loans of up to \$60,000,000 and was fully funded to us as of September 30, 2013. The term loan proceeds were used to finance a portion of the consideration for the acquisition of Hudson and to pay fees and expenses associated with the acquisition.

The term loan was to mature on September 30, 2018. We were allowed to prepay the term loan at any time, in whole or in part, subject to the payment of a prepayment fee if we prepay prior to September 30, 2016. The prepayment fee was 2 percent at the time we repaid the loan. In addition, while the loan was outstanding, we were required to make prepayments out of extraordinary receipts, certain percentage of the excess cash flow and certain net proceeds of certain asset sales or equity issuances, in each case (other than a prepayment in connection with excess cash flow), subject to the payment of the prepayment fee.

The Term Loan Credit Agreement was guaranteed by us and all of our subsidiaries, and was secured by liens on substantially all assets owned by us, including a first- priority lien on intellectual property owned by us and a second-priority lien on the revolving credit priority collateral.

The interest rate for the term loan fluctuated and was equal to the rate per annum equal to the British Banker Association Interest Settlement Rate for deposits in Dollars with a term of three months, as appears on the Bloomberg BBAM Screen, plus 10.75 percent. Interest was payable on the first day of each calendar month and the maturity date. In addition, because we were in default under the term loan agreement, we were paying an additional two percent interest under the default rate. Our average interest rate, including the default rate, was approximately 14 percent.

The Term Loan Credit Agreement contained usual and customary negative covenants for transactions of this type, including, but not limited to: restrictions on our ability and our subsidiaries' ability to create or incur indebtedness; create liens; consolidate, merge, liquidate or dissolve; sell, lease or otherwise transfer any of its assets; substantially change the nature of its business; make investments or acquisitions; pay dividends; enter into transactions with affiliates; amend material documents, prepay certain indebtedness and make capital expenditures. The negative covenants are subject to certain exceptions as specified in the Term Loan Credit Agreement.

In addition, the Term Loan Credit Agreement also required us to maintain (a) (i) at all times, availability under the revolving credit facility of not less than \$5,000,000 and (ii) at all times as tested on each date that a borrowing certificate is delivered, the sum of availability under the revolving credit facility plus up to \$2,500,000 of unrestricted cash of not less than \$7,500,000; (b) a minimum fixed charge coverage ratio; (c) a minimum EBITDA; and (d) a leverage ratio not more than the maximum leverage coverage ratio as set forth in the Term Loan Credit Agreement.

As of August 31, 2015, we were not in compliance with the covenants under the Term Loan Credit Agreement. Under the Term Loan Credit Agreement, an event of default had occurred. The minimum EBITDA for the twelve fiscal months ending (i) September 30, 2014 of \$22,136,300; (ii) October 31, 2014 of \$22,991,900; (iii) November 30, 2014 of \$23,417,800 were not met; and (iv) the financial plan and forecast for 2015 was not timely delivered. In addition, as of November 30, 2014, February 28, 2015 and May 31, 2015, we were out of compliance with the (i) minimum fixed charge coverage ratio of 1.09x; (ii) maximum leverage ratio of 3.21x; (iii) minimum fixed charge

coverage ratio of 1.15x; (iv) maximum leverage ratio of 3.00x; (v) minimum fixed charge coverage ratio of 1.20x; and (vi) maximum leverage ratio of 2.75x.

See Subsequent Events above for a discussion of the forbearance agreements and amendments to the Revolving Credit Agreement and Term Loan Credit Agreement entered into with CIT and Garrison.

**Off Balance Sheet Arrangements**

We do not have any off balance sheet arrangements.

Table of Contents

**Management's Discussion of Critical Accounting Policies**

We believe that the accounting policies discussed below are important to an understanding of our financial statements because they require management to exercise judgment and estimate the effects of uncertain matters in the preparation and reporting of financial results. Accordingly, we caution that these policies and the judgments and estimates they involve are subject to revision and adjustment in the future. While they involve less judgment, management believes that the other accounting policies discussed in Notes to Consolidated Financial Statements - Note 2 Summary of Significant Accounting Policies included in our Annual Report previously filed with the SEC are also important to an understanding of our financial statements. We believe that the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

*Revenue Recognition*

Wholesale revenues are recorded on the accrual basis of accounting when title transfers to the customer, which is typically at the shipping point. We record estimated reductions to revenue for customer programs, including co-op advertising, other advertising programs or allowances, based upon a percentage of sales. We also allow for returns based upon pre-approval or in the case of damaged goods. Such returns are estimated based on historical experience and an allowance is provided at the time of sale.

Retail store revenue is recognized net of estimated returns at the time of sale to consumers. E-commerce sales of products ordered through our retail internet site known as [www.joesjeans.com](http://www.joesjeans.com) are recognized upon estimated delivery and receipt of the shipment by the customers. E-commerce revenue is also reduced by an estimate of returns. Retail store revenue and E-commerce revenue exclude sales taxes. Revenue from licensing arrangements are recognized when earned in accordance with the terms of the underlying agreements, generally based upon the higher of (a) contractually guaranteed minimum royalty levels and (b) estimates of sales and royalty data received from our licensees. Payments received in consideration of the grant of a license or advanced royalty payments are recognized ratably as revenue over the term of the license agreement. The revenue recognized ratably over the term of the license agreement will not exceed royalty payments received. The unrecognized portion of the upfront payments are included in deferred royalties and accrued expenses depending on the long or short term nature of the payments to be recognized. As of August 31, 2015, we have recognized all of the advanced payments under our licensing agreements as income.

*Factored Accounts and Receivables, Allowance for Customer Credits and Doubtful Allowances*

We evaluate our ability to collect on accounts receivable and charge-backs (disputes from the customer) based upon a combination of factors. Whether a receivable is past due is based on how recently payments have been received and in certain circumstances where we are aware of a specific customer's inability to meet its financial obligations (e.g., bankruptcy filings, substantial downgrading of credit sources). A specific reserve for bad debts is taken against amounts due to reduce the net recognized receivable to the amount reasonably expected to be collected. Amounts are charged off against the reserve once it is established that amounts are not likely to be collected. We recognize reserves for charge-backs based on our historical collection experience.

The balance in the allowance for customer credits and doubtful accounts as of August 31, 2015 and November 30, 2014 was \$959,000 and \$844,000, respectively, for non-factored accounts receivables.

*Inventory*

We continually evaluate the composition of our inventories by assessing slow-turning, ongoing product as well as product from prior seasons. Market value of distressed inventory is valued based on historical sales trends on our individual product lines, the impact of market trends and economic conditions, and the value of current orders relating to the future sales of this type of inventory. Significant changes in market values could cause us to record additional inventory markdowns.

*Valuation of Long-lived and Intangible Assets and Goodwill*

We assess the impairment of identifiable intangibles, long-lived assets and goodwill annually or whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors considered important that could trigger an impairment review other than on an annual basis include the following:

- A significant underperformance relative to expected historical or projected future operating results;
- A significant change in the manner of the use of the acquired asset or the strategy for the overall business; or
- A significant negative industry or economic trend.

Table of Contents

When we determine that the carrying value of long-lived assets may not be recoverable based upon the existence of one or more of the aforementioned factors and the carrying value exceeds the estimated undiscounted cash flows expected to be generated by the asset, impairment is measured based on a projected discounted cash flow method using a discount rate determined by management. These cash flows are calculated by netting future estimated sales against associated merchandise costs and other related expenses such as payroll, occupancy and marketing. An asset is considered to be impaired if we determine that the carrying value may not be recoverable based upon our assessment of the asset's ability to continue to generate income from operations and positive cash flow in future periods or if significant changes our strategic business objectives and utilization of the assets occurred. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the estimated fair value, which is determined based on discounted future cash flows. The impairment loss calculations require management to apply judgment in estimating future cash flows and the discount rates that reflect the risk inherent in future cash flows. Future expected cash flows for store assets are based on management's estimates of future cash flows over the remaining lease period or expected life, if shorter. We consider historical trends, expected future business trends and other factors when estimating each store's future cash flow. We also consider factors such as: the local environment for each store location, including mall traffic and competition; our ability to successfully implement strategic initiatives; and the ability to control variable costs such as cost of sales and payroll, and in some cases, renegotiate lease costs.

In the third and fourth quarter of fiscal 2014, we recorded store impairment charge of \$840,000 related to six of our retail stores. In the third quarter of fiscal 2015, we recorded store impairment charge of \$470,000 related to two of our retail stores. Based on the operating performance of these stores, we believed that we could not recover the carrying value of property and equipment located at these stores.

Business acquisitions are accounted for under the purchase method by assigning the purchase price to tangible and intangible assets acquired and liabilities assumed. Assets acquired and liabilities assumed are recorded at their fair values and the excess of the purchase price over the amounts assigned is recorded as goodwill. Purchased intangible assets with finite lives are amortized over their estimated useful lives. Goodwill and intangible assets with indefinite lives are not amortized but are tested at least annually or whenever events or changes in circumstances indicate that the carrying value may not be recoverable for impairment.

In fiscal 2007, we acquired through merger JD Holdings, which included all of the goodwill and intangible assets goodwill related to the Joe's®, Joe's Jeans and JD® logo and marks. On September 30, 2013, we acquired Hudson, which included all of the goodwill and intangible assets related to the Hudson® logos and marks. We have assigned an indefinite life to the remaining intangible assets relating to the trademarks acquired, and therefore, no amortization expenses are expected to be recognized. However, we will test the assets for impairment annually in accordance with our critical accounting policies. As of September 11, 2015, we sold the Joe's®, Joe's Jeans and JD® logo and marks in connection with the Asset Sale.

We evaluate goodwill for impairment at least annually or whenever events or changes in circumstances indicate that the carrying value may not be recoverable using a two-step process. The first step is to determine the fair value of each reporting unit and compare this value to its carrying value. If the fair value exceeds the carrying value, no further work is required and no impairment loss would be recognized. The second step is performed if the carrying value exceeds the fair value of the assets. The implied fair value of the reporting unit's goodwill must be determined and compared to the carrying value of the goodwill.

We review our other indefinite-lived intangible assets for impairment on an annual basis, or when circumstances indicate their carrying value may not be recoverable. We calculate the value of the indefinite-lived intangible assets using a discounted cash flow method, based on the relief from royalty concept.

Our annual impairment testing date is September 30 of each year or when circumstances indicate their carrying value may not be recoverable. Based on our under-performance in the fourth quarter of fiscal 2014, we determined that it was appropriate to perform an impairment testing as of November 30, 2014. Based on our testing we determined that the goodwill allocated to our Hudson wholesale reporting unit was impaired by \$23,585,000, and there was no impairment of our other indefinite-lived intangible assets. As of February 28, 2015, we also determined that a triggering event had occurred due to the decline in our market capitalization and tested our goodwill and other indefinite-lived assets for impairment and determined that there was no impairment.

*Additional Merger Consideration*

In connection with the merger with JD Holdings, we agreed to pay to Mr. Dahan the following contingent consideration in the applicable fiscal year for 120 months following October 25, 2007:

- No contingent consideration if the gross profit is less than \$11,250,000 in the applicable fiscal year;
- 11.33% of the gross profit from \$11,251,000 to \$22,500,000;

Table of Contents

- 3% of the gross profit from \$22,501,000 to \$31,500,000;
- 2% of the gross profit from \$31,501,000 to \$40,500,000; and
- 1% of the gross profit above \$40,501,000.

The additional merger consideration, or contingent consideration, was paid in advance on a monthly basis based upon estimates of gross profits after the assumption that the payments were likely to be paid. At the end of each quarter, any overpayments were offset against future payments and any significant underpayments were made.

Under the Financial Accounting Standards Board ( *FASB* ) Accounting Standards Codification ( *ASC* ), accounting for consideration transferred to settle a contingency based on earnings or other performance measures, certain criteria is used to determine whether contingent consideration based on earnings or other performance measures should be accounted for as (1) adjustment of the purchase price of the acquired enterprise or (2) compensation for services, use of property or profit sharing. The determination of how to account for the contingent consideration is a matter of judgment that depends on the relevant facts and circumstances. The advanced contingent consideration payments are accounted for as operating expense.

On February 18, 2013, we entered into a new agreement with Mr. Dahan that provided certainty of payments to him by removing the contingencies related to the contingent consideration payments described above. This agreement fixed the overall amount to be paid by us for the remaining months of year six through year 10 with payments being made over an accelerated time period until November 2015 instead of October 2017. Under the agreement, the total aggregate amount Mr. Dahan will receive is \$9,168,000. We recorded a one-time charge as an expense for the full amount in the first quarter of fiscal 2013. In addition, Mr. Dahan agreed to a restrictive covenant relating to non-competition and non-solicitation until November 30, 2016 in addition to the restrictive covenant in the original merger agreement. As a result of our defaults pursuant the Term Loan Credit Agreement and Revolving Credit Agreement, we did not make any buy-out payments to Mr. Dahan during fiscal 2015. In connection with the Asset Sale, Mr. Dahan was repaid a portion of the buy-out payment owed to him and the remainder is expected to be paid at the closing of the Merger and Merger Transactions.

*Income Taxes*

As part of the process of preparing our consolidated financial statements, management is required to estimate income taxes in each of the jurisdictions in which we operate. The process involves estimating actual current tax expense along with assessing temporary differences resulting from differing treatment of items for book and tax purposes. These timing differences result in deferred tax assets and liabilities, which are included in our consolidated balance sheet. Management records a valuation allowance to reduce its deferred tax assets to the amount that is more likely than not to be realized. Management has considered future taxable income and ongoing tax planning strategies in assessing the need for the valuation allowance. Increases in the valuation allowance result in additional expense to be reflected within the tax provision in the consolidated statement of income. Reserves are also estimated for ongoing audits regarding federal and state issues that are currently unresolved. We routinely monitor the potential impact of these situations.

*Contingencies*

We record an estimated loss from a loss contingency when information available prior to issuance of our financial statements indicates that it is probable that an asset has been impaired or a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Accounting for contingencies such as legal and income tax matters requires management to use judgment. Many of these legal and tax contingencies can take years to be resolved. Generally, as the time period increases over which the uncertainties are resolved, the likelihood of changes to the estimate of the ultimate outcome increases. Management believes that the accruals for these matters are adequate. Should events or circumstances change, we could have to record additional accruals.

*Stock Based Compensation*

We account for stock-based compensation in accordance with the ASC standards. We elected the modified prospective method where prior periods are not revised for comparative purposes. Under the fair value recognition provisions, stock based compensation is measured at grant date based upon the fair value of the award and expense is recognized on a straight-line basis over the vesting period. We use the Black-Scholes option pricing model to determine the fair value of stock options, which requires management to use estimates and assumptions. The determination of the fair value of stock based option awards on the date of grant is based upon the exercise price as well as assumptions regarding subjective variables. These variables include our expected life of the option, expected stock price volatility over the term of the award, determination of a risk free interest rate and an estimated dividend

Table of Contents

yield. We estimate the expected life of the option by calculating the average term based upon historical experience. We estimate the expected stock price volatility by using implied volatility in market traded stock over the same period as the vesting period. We base the risk-free interest rate on zero coupon yields implied from United States Treasury issues with remaining terms similar to the term on the options. We do not expect to pay dividends in the foreseeable future and therefore use an expected dividend yield of zero. If factors change or we employ different assumptions for estimating fair value of the stock option, our estimates may be different than future estimates or actual values realized upon the exercise, expiration, early termination or forfeiture of those awards in the future. At this time, we believe that our current method for accounting for stock based compensation is reasonable. Furthermore, an entity may elect either an accelerated recognition method or a straight-line recognition method for awards subject to graded vesting based on a service condition, regardless of how the fair value of the award is measured. For all stock based compensation awards that contain graded vesting based on service conditions, we have elected to apply a straight-line recognition method to account for these awards. However, guidance is relatively new and the application of these principles over time may be subject to further interpretation or refinement. See Notes to Consolidated Financial Statements Note 2 Summary of Significant Accounting Policies Stock-Based Compensation and Notes to Consolidated Financial Statements Note 12 Stockholders Equity Stock Incentive Plans in our Annual Report for additional discussion.

*Recent Accounting Pronouncements*

In April 2014, FASB issued ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property Plant and Equipment (Topic 360), Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, ( **ASU 2014-08** ) which provides amended guidance on the presentation of financial statements and reporting discontinued operations and disclosures of disposals of components of an entity within property, plant and equipment. ASU 2014-08 amends the definition of a discontinued operation and requires entities to disclose additional information about disposal transactions that do not meet the discontinued operations criteria. The effective date of ASU 2014-08 is for disposals that occur in annual periods (and interim periods therein) beginning on or after December 15, 2014, with early adoption permitted. We are currently evaluating the impact, if any, that this amended guidance may have on our consolidated financial statements and related disclosures.

In May 2014, FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, ( **ASU 2014-09** ) which provides a single, comprehensive framework for all entities in all industries to apply in the determination of when to recognize revenue, and, therefore, supersedes virtually all existing revenue recognition requirements and guidance. This framework is expected to result in less complex guidance in application while providing a consistent and comparable methodology for revenue recognition. The core principle of the guidance is that an entity should apply the following steps: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract(s), (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract(s), and (v) recognize revenue when, or as, the entity satisfies a performance obligation. We are currently evaluating the impact that this amended guidance will have on our consolidated financial statements and related disclosures. In July 2015, the FASB reached a decision to defer the effective date of the amended guidance. In August 2015, ASU 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*, was issued which defers the effective date of ASU 2014-09 to December 15, 2017. Early adoption is not permitted.

In August 2014, FASB issued ASU No. 2014-15 to communicate amendments to FASB Accounting Standards Codification Subtopic 205-40, *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, (the **ASC amendments** ). The ASC amendments establish new requirements for management to evaluate a company's ability to continue as a going concern and to provide certain related disclosures. The ASC amendments are effective for the annual periods ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted, but we have not yet adopted such guidance.

In July 2015, FASB issued ASU 2015-11, *Inventory (Topic 330) - Simplifying the Measurement of Inventory*, which will require an entity to measure inventory at the lower of cost or net realizable value. Net realizable value is defined as the estimated selling prices in the ordinary

## Edgar Filing: TD AMERITRADE HOLDING CORP - Form 8-K

course of business, less reasonably predictable costs of completion, disposal and transportation. The guidance will be effective for us beginning with fiscal year 2018. Early adoption is permitted. We are currently evaluating the impact that this amended guidance will have on our consolidated financial statements and related disclosures.

### *Going Concern*

The accompanying financial statements have been prepared assuming that we will continue as a going concern. While management has been evaluating all options to cure the defaults under our Term Loan Credit Agreement and Revolving Credit Agreement, including refinancing, extending the indebtedness and exploring alternatives for other sources of capital for ongoing cash needs, there can be no assurance that we will be able to secure a resolution or refinance or extend the indebtedness and, accordingly, our liquidity and ability to operate could be adversely affected. We have engaged Carl Marks to assist us as we explore all alternatives. While we have had discussions with our creditors and as of September 11, 2015, we repaid all of our indebtedness under the Term Loan Credit Agreement and partially repaid the indebtedness under the Revolving Credit Agreement, while simultaneously entering into the A&R Revolving Credit Agreement, our ability to continue as a going concern is dependent upon us resolving all of our outstanding indebtedness. Our financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary should we be unable to continue as a going concern.

### *Correction of an Error*

We previously reported certain information related to our discontinued operations on our Condensed Consolidated Balance Sheets and our Condensed Consolidated Statements of Cash Flows issued in our Form 10-Q on the Original Filing Date that was calculated incorrectly. The restatement, which is treated as a correction of an error, impacts our Condensed Consolidated Balance Sheets as of August 31, 2015 and November 30, 2014 and our Condensed Consolidated Statements of Cash Flows for the nine months ended August 31, 2015 and 2014. There was no effect on our Condensed Consolidated Statements of Net Loss and Comprehensive Loss for the periods presented in our Form 10-Q on the Original Filing Date.

Table of Contents

**Item 3. Quantitative and Qualitative Disclosure About Market Risk.**

*Foreign Currency Risk*

Foreign currency exposures arise from transactions, including firm commitments and anticipated contracts, denominated in a currency other than an entity's functional currency and from foreign-denominated revenues translated into U.S. dollars. Changes in currency exchange rates may affect the relative prices at which we and our foreign competitors sell products in the same market and collect receivables from such sales. We generally sell our products in U.S. dollars. However, we sell a limited amount of our products to certain countries in Euros. We currently do not hedge our exposure to changes in foreign currency exchange rates as the amount of products sold would not be significantly impacted by rate fluctuations. We cannot assure you that foreign currency fluctuations will not have a material adverse impact on our financial condition and results of operations in the future. Management believes the exposure to adverse changes in exchange rates are not sufficiently material to warrant a hedging program.

We also source most of our products outside of the United States. However, we generally purchase our products in U.S. dollars. The cost of these products may be affected by changes in the value of the relevant currencies; however, our exposure to currency exchange rates is limited as a result of such companies outside of the United States accepting payment in U.S. dollars.

*Credit Risk*

We are exposed to credit risk primarily on our accounts receivable. We provide credit to customers in the ordinary course of business and perform ongoing credit evaluations. We believe that our exposure to concentrations of credit risk with respect to trade receivables is largely mitigated by our customer base. We believe that our allowance for doubtful accounts is sufficient to cover customer credit risks as of August 31, 2015.

*Inflation*

Inflationary factors such as increases in the cost of our product and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations in recent periods, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of net revenues if the selling prices of our products do not increase with these increased costs.

*Interest Rate Risk*

Our obligations under our revolving credit agreement and term loan agreement bear interest at floating rates. As a result, we are sensitive to changes in prevailing interest rates. We believe that a one percent increase or decrease in market interest rates that affect our financial instruments may have an impact on earnings or cash flow during the next fiscal year, depending on the outstanding principal balance subject to such interest rates.

**Item 4. Controls and Procedures.**

*Evaluation of Disclosure Controls and Procedures*

As of August 31, 2015, the end of the period covered by this periodic report, our management carried out an evaluation, with the participation of our Interim Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) and 15d-15(b) under the Exchange Act.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms. In addition, disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that the information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to management, including our principal executive and principal financial officers or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosures. Management recognizes that a control system, no matter how well conceived and operated, can provide only reasonable assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues within the company have been detected. Therefore, assessing the costs and benefits of such controls and procedures necessarily involves the exercise of judgment by management. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives.

Table of Contents

As of the end of the period covered by this report, our Interim Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

*Changes in Internal Control Over Financial Reporting*

We made no change in our internal control over financial reporting during the third quarter of the fiscal year covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings.**

We are a party to lawsuits and other contingencies in the ordinary course of our business. We do not believe that we are a party to any material pending legal proceedings or that it is probable that the outcome of any individual action would have an adverse effect in the aggregate on our financial condition. We do not believe that it is likely that an adverse outcome of individually insignificant actions in the aggregate would be sufficient enough, in number or in magnitude, to have a material adverse effect in the aggregate on our financial condition.

**Item 1A. Risk Factors.**

In addition to the other information set forth below or elsewhere in this Quarterly Report, you should carefully consider the factors discussed under Risk Factors in our Annual Report as filed with the SEC. These risks could materially and adversely affect our business, financial condition and results of operations. The risks described in our Annual Report are not the only risks we face. Our operations could also be affected by additional factors that are not presently known to us or by factors that we currently consider immaterial to our business.

*The Merger may not achieve its intended results and could adversely affect our financial results.*

We entered into various agreements in connection with the Merger with the expectation that the Merger would result in various benefits, including, among other things, cost savings, operating efficiencies, growth opportunities and the alleviation of certain issues related to our liquidity. Our ability to achieve the anticipated benefits of the Merger is subject to a number of uncertainties, including whether the business of RG is combined with Hudson in an efficient and effective manner. Failure to achieve these anticipated benefits could result in increased costs, decreases in the amount of expected revenues generated by the combined company and diversion of management's time and energy and could have an adverse effect on the combined company's business, financial results and prospects.

Additionally, the Merger is subject to a number of conditions beyond our control that may prevent, delay or otherwise have a material adverse effect on its completion. We cannot predict whether and when these conditions will be satisfied. Any delay in completing the Merger could cause the combined company not to realize the benefits that we expect to achieve if the Merger is successfully completed within its expected timeframe.

Moreover, our future financial results will depend in part on our ability to profitably manage our core businesses, including any growth related to our combination with RG. Over the past several years, both we and RG have engaged in the identification of, and competition for, growth and expansion opportunities. In order to achieve those initiatives, we will need to, among other things, recruit, train, retain and effectively manage employees and expand our operations and financial control systems. If we are unable to manage our businesses effectively and profitably, including, without limitation, in connection with the wind down of certain retail leases as discussed below, our business and financial results could suffer.

***The combined company may be unable to integrate the businesses of us and RG successfully or realize the anticipated benefits of the Merger and the future business and financial results of the combined company may be negatively impacted.***

The combined company is expected to incur substantial expenses in connection with the Merger and the integration of the businesses of us and RG. There are a large number of processes, policies, procedures, operations, technologies and systems that must

Table of Contents

be integrated. While we have assumed that a certain level of expenses will be incurred, there are many factors beyond our control that could affect the total amount or the timing of the integration expenses. Moreover, many of the expenses that will be incurred are, by their nature, difficult to estimate accurately. These expenses could, particularly in the near term, exceed the savings that the combined company expects to achieve from the elimination of duplicative expenses and the realization of cost savings. These integration expenses likely will result in the combined company taking significant charges against earnings following the completion of the Merger, and the amount and timing of such charges are uncertain at present. There can be no assurance that the elimination of duplicative costs or the realization of any other efficiencies related to the combination of the businesses will allow us to offset transaction-related costs in the near term, or at all.

The combined company's ability to operate profitably depends on its ability to implement its strategic plan with success, including its ability to successfully and efficiently integrate the businesses operations and personnel of us and RG. In order to achieve a successful integration of the RG and the Hudson businesses, the combined company will need to, among other things, retain and effectively manage employees. The combined company's success will be dependent on its ability to attract, retain and motivate qualified management, designers, administrative talent and sales associates to support existing operations and future growth. Competition for qualified talent in the apparel and fashion industry is intense, and we compete for these individuals with other companies that in many cases have greater financial and other resources. If the combined company experiences a large-scale loss of employees as a result of the combination, the combined company may be unable to manage its business effectively and profitably, and its business and financial results could suffer. Even if integration is successful, the financial performance of the combined business may not be as expected and there can be no assurance the combined company will realize the benefits that we expect to achieve. Failure to achieve the anticipated benefit could result in increased costs or decreases in the amount of expected revenues and could adversely affect the combined company's future business, financial condition, operating results and prospects.

Following the Merger, the business of the combined company will expand beyond the current businesses of each of us and RG individually. The combined company's future success depends, in part, upon its ability to manage this expanded business, which will pose substantial challenges for management, including challenges related to the management and monitoring of new operations and associated increased costs and complexity. There can be no assurances that the combined company will be successful or that it will realize the expected operating efficiencies, cost savings, revenue enhancements or other benefits currently anticipated from the Merger.

***Our current stockholders will have a minority ownership and voting interest after the Merger which, together with the rights of the holders of the Series A Convertible Preferred Stock and the concentration of ownership among affiliates of TCP, will substantially reduce our current stockholders' ability to influence management of the Company, including through the election of directors, and may result in decisions that do not always coincide with their interests.***

In connection with the Merger and the Merger Transactions, we will effect the Reverse Stock Split and issue or reserve for issuance 16,986,684 shares of our common stock consisting of (1) 8,870,968 shares of common stock issuable pursuant to the Merger Agreement, (2) up to 4,504,504 shares of common stock issuable upon conversion of the Series A Convertible Preferred Stock, (3) 1,160,432 shares of common stock issuable pursuant to the Rollover Agreement and (4) 2,450,779 shares of common stock issuable upon conversion of the Modified Convertible Notes, based on the market price of common stock as of September 30, 2015. It is anticipated that, upon the closing of the Merger, on a fully diluted basis and assuming the Modified Convertible Notes are converted and calculated at the market price on September 30, 2015, our current stockholders will own approximately 13.5 % of the outstanding voting power of the combined company and affiliates of TCP will own an aggregate of approximately 47% of the outstanding voting power of the combined company.

The holders of the Series A Convertible Preferred Stock, which upon the closing of the Merger will be an affiliate of TCP, will, for so long as they represent, upon conversion, the lowest percentage of the shares of Series A Convertible

Preferred Stock allowed by NASDAQ, have certain rights and privileges, such as the election of three (3) Series A Directors. Additionally, the holders of the Series A Convertible Preferred Stock will be entitled to vote, on an as converted basis, on all matters presented to the common stockholders for approval. Accordingly, the ability of our current stockholders following the Merger to influence management of the combined company, including through the election of directors, will be substantially reduced. At the same time, affiliates of TCP will be in a position to exert significant control over the combined company and will have the ability to substantially influence all matters submitted to our stockholders for approval, including the election and removal of directors, any merger, consolidation or sale of all or substantially all of our assets, an increase in the number of shares authorized for issuance under our stock option plans, and to exert significant control over the management and affairs of the combined company, which may have the effect of delaying, deferring or preventing a change in or discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control of the business of the combined company, even if such a transaction would be beneficial to other stockholders.

Additionally, under the terms of the Modified Convertible Notes that will be issued pursuant to the Rollover Agreement, we will choose how we settle the conversion of the Modified Convertible Notes. We will be able to settle by issuing shares of common stock, cash, or a combination of cash and common stock, at the combined company's election. If the combined company settles through the issuance of common stock, the ownership interest held by its then existing stockholders will be reduced.

Table of Contents

*The pendency of the Merger could have an adverse effect on the trading price of our common stock and the business, financial condition, results of operations or business prospects of us, RG or the combined company.*

The pendency of the Merger could disrupt our and RG's business in the following ways, including:

- third parties may seek to terminate or renegotiate their relationships with us or RG as a result of the Merger, whether pursuant to the terms of their existing agreements with us or RG or otherwise;
- the attention of our and RG's management may be directed toward completion of the Merger and related matters and may be diverted from day-to-day business operations of their respective companies, including from other opportunities that otherwise might be beneficial to us and RG;
- current and prospective employees of us and RG may experience uncertainty about their future roles following the Merger, which may materially adversely affect each company's ability to attract and retain key personnel during the pendency of the Merger; and
- due to operating covenants in the merger agreement, we and RG may be unable, during the pendency of the Merger, to pursue strategic transactions, undertake significant capital projects, undertake certain significant financing or other specified transactions or pursue actions that are not in the ordinary course of business, even if such actions would prove beneficial.

Any of these matters could adversely affect the trading price of our common stock or harm the financial condition, results of operations or business prospects of us, RG and the combined company.

*The Merger may create a market overhang of our common stock.*

Sales of shares of our common stock after the completion of the Merger may cause the market price of our common stock to fall. We will issue 8,870,968 shares of common stock, after giving effect to the Reverse Stock Split, in connection with the Merger to RG's direct or indirect equity holders. Some of these holders may decide to sell the shares of our common stock that they will receive in the Merger. Such sales of our common stock could have the effect of depressing the market price for our common stock and may take place promptly following the Merger.

*The Merger Agreement contains provisions that could discourage a potential competing acquirer of the Company.*

The Merger Agreement contains no solicitation provisions that, subject to limited exceptions, restrict our ability to solicit, initiate or facilitate or encourage any third party proposals for the acquisition of the Company. Further, even if we receive an unsolicited superior proposal, RG must be given the opportunity to offer to modify the terms of the Merger in response to such competing proposal before our Board may withdraw its recommendation with respect to the Merger. In addition, if we breach the covenant on non-solicitation contained in the Merger Agreement, we may be required to pay RG a termination fee of \$5.25 million.

These provisions could discourage a potential third party acquirer from considering or proposing an acquisition of our Company, even if it were prepared to pay consideration with a higher per share cash or market value than the market value proposed to be received or realized in the Merger. These provisions might also result in a potential third-party acquirer proposing to pay a lower price to the shareholders than it might otherwise have proposed to pay because of the added expense of the termination fee that may become payable in certain circumstances. If the Merger Agreement is terminated and we determine to seek another business combination, we may not be able to negotiate a transaction with another party on terms comparable to, or better than, the terms of the Merger.

***Although we expect to file a listing application with respect to our common stock to be issued in connection with the Merger on The Nasdaq Capital Market, there can be no assurance that the common stock will be so listed or, if listed, that we will be able to comply with the continued listing standards.***

We expect to file an application to list our common stock on The Nasdaq Capital Market upon consummation of the Merger as required by The Nasdaq Capital Market. As part of the listing process, we will be required to evidence that it meets the initial listing requirements rather than the continued listing requirements because the former equity holders of RG will hold in the aggregate the largest percentage of our common stock immediately following the Merger. In certain respects the initial listing requirements are more onerous than the continued listing requirements, such as the minimum bid price of the common stock of \$4.00 per share for initial listing compared to \$1.00 per share for continued listing. There can be no assurance that we will be able to meet the initial listing standards of The Nasdaq Capital Market or any other exchange or, if its stock is listed, that we will be able to maintain such listing.

Table of Contents

In addition, if after listing The Nasdaq Capital Market delists the our common stock from trading on its exchange for failure to meet the continued listing standards, we and our stockholders could face significant material adverse consequences including:

- a limited availability of market quotations for its securities;
- a determination that its common stock is a penny stock which will require brokers trading in its common stock to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for its common stock;
- a limited amount of analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

*There can be no assurance that RG will be able to secure the funds necessary to enable the combined company to pay the cash portion of the Merger consideration and refinance certain existing indebtedness of us and RG on acceptable terms, in a timely manner, or at all.*

We intend to fund the cash consideration in the Merger and to refinance certain of the parties' existing indebtedness with a combination of cash on hand of the companies and debt financing. To this end, RG has entered into a term commitment letter containing commitments as of the date of this Quarterly Report on Form 10-Q for a term loan facility in an aggregate amount of up to \$50 million. As of the date of this Quarterly Report on Form 10-Q, RG is engaging in discussions with a lender to provide a secured asset-based revolving credit facility at the closing of the Merger. Furthermore, as of the date of this Quarterly Report on Form 10-Q, neither RG nor any of its subsidiaries have entered into definitive agreements for such debt financing. There can be no assurance that RG will be able to secure such debt financing pursuant to the term commitment letter.

In the event that the debt financing contemplated by the term commitment letter and a secured asset-based revolving credit facility are not available, other financing may not be available on acceptable terms, in a timely manner, or at all. If RG is unable to secure alternative financing, the Merger and related transactions may not be completed and, so long as we are not in breach of certain obligations related to obtaining the financing, RG must pay us a reverse termination fee of \$7.5 million, less certain expenses that may have been previously reimbursed by RG to us.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

**Item 3. Defaults upon Senior Securities.**

None.

**Item 4. Mine Safety Disclosure.**

Not Applicable.

**Item 5. Other Information.**

(a) None.

(b) There have been no material changes to the procedures by which security holders may recommend nominees to our board of directors, including adoption of procedures by which our stockholders may recommend nominees to our board of directors.
