## Edgar Filing: AVIALL INC - Form 8-K

dated March 27, 2003, the following information is being furnished under Item 12 of Form 8-K. The information in this Form 8-K, including the exhibits, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and is not incorporated by reference into any filing of Aviall, Inc. (the "Company"), whether made before or after the date hereof, regardless of any general incorporation language in such filing.

On May 1, 2003, the Company issued a press release announcing its financial results for the quarter ended March 31, 2003. The press release is furnished as Exhibit 99.1 to this report and is incorporated by reference herein.

On May 1, 2003, management of the Company held a conference call concerning, among other things, its financial results for the quarter ended March 31, 2003. A transcript of the conference call is furnished as Exhibit 99.2 to this report and is incorporated by reference herein.

Exhibit 99.2 to this report includes a "non-GAAP financial measure" as defined in Item 10 of Regulation S-K of the Exchange Act. The non-GAAP financial measure is the percentage increase in the Company's net sales from the first quarter of 2002 to the first quarter of 2003, after including in the Company's net sales for the first quarter of 2002 approximately \$40.0 million of Rolls-Royce Model T56 ("RR T56") engine parts sales made directly by Rolls-Royce to the U.S. military during the RR T56 transition program, which ended in June 2002 (the "Net Sales Percentage Increase"). The Company received its full contractual margin from Rolls-Royce on these sales and would have booked these sales, but for the time required to transition shipments to the U.S. military from Rolls-Royce to the Company. The Company assumed responsibility for direct shipments to the U.S. military on Rolls-Royce's behalf at the end of the RR T56 transition program. As a result, management believes that including the approximately \$40.0 million of sales made directly by Rolls-Royce in calculating the percentage increase in the Company's net sales provides a more appropriate reference point for first quarter 2002 year-over-year comparisons than calculating the percentage increase strictly on a GAAP basis. Exhibit 99.2 includes a reconciliation of the Net Sales Percentage Increase to the most directly comparable financial measure calculated and presented in accordance with generally accepted accounting principles in the United States.
