- GBP British Pound Sterling
- * In U.S. dollars unless otherwise indicated.
- (1) Senior floating-rate interests (Senior Loans) often require prepayments from excess cash flows or permit the borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, Senior Loans will have an expected average life of approximately two to four years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a

premium. These base lending rates are primarily the London-Interbank Offered Rate (LIBOR), and secondarily the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by commercial lenders.

- (2) Represents a payment-in-kind security which may pay all or a portion of interest/dividends in additional par/shares.
- (3) Unfunded or partially unfunded loan commitments. The Fund may enter into certain credit agreements all or a portion of which may be unfunded. The Fund is obligated to fund these commitments at the borrower s discretion.
- (4) Defaulted security.
- (5) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (6) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At January 31, 2009, the aggregate value of the securities is \$101,784,674 or 7.7% of the Fund s net assets.
- (7) Adjustable rate mortgage.
- (8) Weighted average fixed-rate coupon that changes/updates monthly.
- (9) Variable rate security. The stated interest rate represents the rate in effect at January 31, 2009.
- (10) Non-income producing security.
- (11) Restricted security.
- (12) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of January 31, 2009. Net income allocated from the Investment in Cash Management Portfolio for the fiscal year to date ended January 31, 2009 was \$313,877.

47

Table of Contents

A summary of financial instruments outstanding at January 31, 2009 is as follows:

Forward Foreign Currency Exchange Contracts

Sales

Settlement Date	Deliver	In Exchange For		Net Unrealized Appreciation (Depreciation)		
2/27/09	British Pound Sterling 13,926,159	United States Dollar 19,860,931	\$	(313,218)		
2/27/09	Euro 44,643,360	United States Dollar 59,031,915		1,891,600		
			\$	1.578.382		

At January 31, 2009, the Fund had sufficient cash and/or securities to cover commitments under these contracts. The cost and unrealized appreciation (depreciation) of investments of the Fund at January 31, 2009, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 2,772,012,341
Gross unrealized appreciation Gross unrealized depreciation	\$ 18,055,518 (635,169,057)
Net unrealized depreciation	\$ (617,113,539)

Restricted Securities

At January 31, 2009, the Fund owned the following securities (representing 0.1% of net assets applicable to common shares) which were restricted as to public resale and not registered under the Securities Act of 1933 (excluding Rule 144A securities). The Fund has various registration rights (exercisable under a variety of circumstances) with respect to these securities. The value of these securities is determined based on valuations provided by brokers when available, or if not available, they are valued at fair value using methods determined in good faith by or at the direction of the Trustees.

Table of Contents

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements, effective May 1, 2008. FAS 157 established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At January 31, 2009, the inputs used in valuing the Fund s investments, which are carried at value, were as follows:

	Valuation Inputs	Investments in Securities	Other Financial Instruments *
Level 1	Quoted Prices	\$ 15,104,878	\$
	Other Significant Observable		
Level 2	Inputs	2,131,475,044	1,578,382
Level 3	Significant Unobservable Inputs	8,318,880	
Total		\$ 2,154,898,802	\$ 1,578,382

^{*} Other financial instruments are forward foreign currency exchange contracts not reflected in the Portfolio of Investments, which are valued at the unrealized appreciation (depreciation) on the instrument.

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

	Investments in Securities		
Balance as of April 30, 2008	\$ 11,687,566		
Realized gains (losses)	(154)		
Change in net unrealized appreciation (depreciation)	(3,847,068)		
Net purchases (sales)	495,350		
Accrued discount (premium)	(6)		
Net transfer to (from) Level 3	(16,808)		
Balance as of January 31, 2009	\$ 8,318,880		

Debt obligations, including listed securities and securities for which quotations are available, will normally be valued on the basis of reported trades or market quotations provided by independent pricing services, where in the services judgment, these prices are representative of the securities market values. For debt securities where market quotations are not readily available, the pricing services will use various techniques that consider factors including, but not limited to, prices or yields of securities with similar characteristics, benchmark yields, broker/dealer quotes, issuer spreads, as well as industry and economic events. Credit default swaps are normally valued using valuations provided by pricing vendors. The pricing vendors employ electronic data processing techniques to determine the present value based on credit spread quotations obtained from broker/dealers and expected default recovery rates determined by the

pricing vendor using proprietary models. Investments for which valuations or market quotations are not readily available are valued at fair value using methods determined in good faith by or at the direction of the Trustees of the Fund in a manner that most fairly reflects the security s value, or the amount that the Fund might reasonably expect to receive for the security upon its current sale in the ordinary course. Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. These factors may include, but are not limited to, the type of security, the existence of any contractual restrictions on the security s disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies, quotations or relevant information obtained from broker-dealers or other market participants, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the company s financial condition, and an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

For additional information on the Fund s policy regarding the valuation of investments and other significant accounting policies, please refer to the Fund s most recent financial statements included in its semiannual or annual report to shareholders.
