The cost and unrealized appreciation (depreciation) of investments of the Fund at March 31, 2009, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 361,390,264
Gross unrealized appreciation Gross unrealized depreciation	\$ 14,163,298 (54,045,279)
Net unrealized depreciation	\$ (39,881,981)

Written call options activity for the fiscal year to date ended March 31, 2009 was as follows:

	Number of Contracts	Premiums Received
Outstanding, beginning of period	3,688	\$ 14,192,036
Options written	11,460	31,961,437
Options terminated in closing purchase transactions	(11,358)	(36,947,175)
Outstanding, end of period	3,790	\$ 9,206,298

All of the assets of the Fund are subject to segregation to satisfy the requirements of the escrow agent. At March 31, 2009, the Fund had sufficient cash and/or securities to cover commitments under these contracts.

The Fund is subject to equity price risk in the normal course of pursuing its investment objective. The Fund generally intends to write index call options above the current value of the index to generate premium income. In writing index call options, the Fund in effect, sells potential appreciation in the value of the applicable index above the exercise price in exchange for the option premium received. The Fund retains the risk of loss, minus the premium received, should the price of the underlying index decline.

At March 31, 2009, the aggregate fair value of derivative instruments in an asset position and in a liability position and whose primary underlying risk exposure is equity price risk was none and \$10,789,700, respectively.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements , established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At March 31, 2009, the inputs used in valuing the Fund s investments, which are carried at value, were as follows:

	Valuation Inputs		Investments in Securities		Other Financial Instruments*		
Level 1	Quoted Prices	\$	321,508,283	\$	(10,789,700)		
	Other Significant Observable						
Level 2	Inputs						
Level 3	Significant Unobservable Inputs						
Total		\$	321,508,283	\$	(10,789,700)		

^{*} Other financial instruments include written call options.

The Fund held no investments or other financial instruments as of December 31, 2008 whose fair value was determined using Level 3 inputs.

Exchange-traded options are valued at the last sale price for the day of valuation as quoted on any exchange on which the option is listed or, in the absence of sales on such date, at the mean between the closing bid and asked prices therefore as reported by the Options Price Reporting Authority. Over-the-counter options are valued based on broker quotations, when available and deemed reliable.

For additional information on the Fund s policy regarding valuation of investments and other significant accounting policies, please refer to the Fund s most recent financial statements included in its semiannual or annual report to shareholders.
