PRINCIPAL EXECUTIVE OFFICES:

**600 Albany Street
Dayton, Ohio 45408
(937) 221-1000**

Mailing Date: March 21, 2006

We are mailing this proxy statement along with the notice of annual meeting of shareholders of The Standard Register Company, to all holders of our stock as of February 27, 2006, which is the record date for the annual meeting. We had outstanding, on the record date, 24,111,494 shares of common stock (each share having one vote) and 4,725,000 shares of class A stock (each share having five votes). Shareholders as of the close of business on the record date are entitled to receive notice of and to vote at the annual meeting. The annual meeting will be held at our corporate headquarters, 600 Albany Street, Dayton, Ohio 45408, on Thursday, April 27, 2006, at 11:00 a.m. The proxies are solicited on behalf of our board of directors.

At the annual meeting, the shareholders will: (1) set the number of directors at eight and elect a board of directors; and (2) transact such other business as may properly come before the annual meeting.

VOTING YOUR SHARES

Standard Register offers electronic delivery of proxy materials and voting over the Internet to most shareholders. The enclosed proxy card describes how you may vote electronically, and register to receive future shareholder communications electronically. You may also vote by completing the proxy card and mailing it in the envelope provided.

All shareholder votes, properly cast in person or by proxy, and not revoked, will be counted in voting on the proposals at the annual meeting or any adjournment of the annual meeting. Your proxy will be voted in accordance with your instructions. If you do not specify how you wish your shares to be voted, they will be voted as recommended by the board of directors. Your proxy includes the authority to vote shares cumulatively for the election of directors.

Cumulative voting is explained in the section dealing with Proposal 1. Your proxy also includes the authority for the persons serving as proxies to use their best judgment to vote on any other matters that may be properly presented at the annual meeting, including, among other things, a motion to adjourn the meeting to a future time.

You may revoke your proxy at any time before its exercise, in two ways: (1) by timely delivery to us of a later-dated proxy, or (2) by notifying us of your revocation of proxy either in writing or in person at the annual meeting. Your presence at the meeting will not, by itself, serve to revoke your proxy.

Table of Contents**PROPOSALS****PROPOSAL 1: Election of Directors**

The board of directors is currently set at eight, and the board recommends maintaining that number of directors.

The eight persons named in this section are nominated by the board of directors to be elected as directors and to serve until either the next annual election or until their successors are elected and qualified.

The board of directors does not expect that any of the nominees will be unavailable for election. However, if any of them is unavailable, the persons voting your proxy will use their best judgment to vote for substitute nominees.

Cumulative voting is permitted by the laws of Ohio in voting for the election of directors. In the event a shareholder wishes to vote his or her shares cumulatively, the shareholder must give notice in writing to the President, a Vice President or Secretary of Standard Register not less than 48 hours before the time scheduled for the annual meeting. Once any shareholder has given notice of intent to vote cumulatively, then all shareholders present at the annual meeting and the persons voting the proxies shall have full discretion and authority to cumulate the voting power they possess. This means they can give one candidate as many votes as the number of directors to be elected multiplied by the number of votes which the shareholder or proxy is entitled to cast, or to distribute such votes on the same principle among two or more candidates, as they determine in their judgment.

Nominees receiving the highest number of votes cast for the positions to be filled will be elected. Abstentions and shares not voted by brokers and other entities holding shares on behalf of beneficial owners will not be counted and will have no effect on the outcome of the election.

The board of directors recommends that you vote FOR setting the number of directors at eight and FOR each of the following named nominees to serve as directors of Standard Register:

Retirement Plans

The Stanreco Retirement Plan is our qualified retirement plan. Prior to January 1, 2000, this Plan was funded in part by contributions from participants. After January 1, 2000, the Plan is funded entirely by Company contributions and investments earnings.

The traditional formula of the Stanreco Retirement Plan covers plan participants hired before January 1, 2000, and the pension equity plan formula (PEP) which became effective January 1, 2000, covers employees hired after January 1, 2000, and employees hired before that date who elected to be covered under the PEP formula. Under the traditional formula, participants are eligible for a retirement benefit equal to a percentage of final average earnings. Accruals under the PEP formula were frozen December 31, 2004, and no employees hired after that date can participate in the Stanreco Retirement Plan.

Table of Contents

We have a Non-Qualified Retirement Plan which supplements the Stanreco Retirement Plan. It provides retirement benefits that would have been payable from the Stanreco Retirement Plan but for the limits imposed by the Tax Reform Act of 1986. We also have an Officers Supplemental Non-Qualified Plan which pays retirement benefits in addition to the Stanreco Retirement Plan and Non-Qualified Retirement Plan based on the number of years of credited service as an officer in excess of five years. Standard Register does not currently fund or contribute to either the Non-Qualified Retirement Plan or the Officers Supplemental Non-Qualified Plan, but does accrue for projected benefit expense annually for both plans, and pays benefits from general corporate assets.

Retirement Plan Tables 1(A), 1(B) and 2

Table 1 shows the estimated annual retirement benefits payable from the Stanreco Retirement Plan and the Non-Qualified Retirement Plan to our employees for specified compensation levels and years of service. Table 1(A) shows the estimated benefits under the traditional formula. Table 1(B) shows estimated annual benefits at various retirement ages for the PEP formula, which is now frozen. The lump sum value of the PEP benefit increases at 4% per year. At retirement ages, it may be converted to an annuity based on current interest rates. The estimates below assume the conversion is based on 5% interest. Mr. Brown's, Ms. Lamme's, and Ms. Beladi's benefits will be calculated under Table 1(A). Messrs. Rediker's, Crescenzi's, and Morgan's benefits will be calculated under Table 1(B). Part of the estimated annual benefits on Table 1(A) include the return of and earnings on contributions made by employees during the time the Plan required employee contributions.

Table 2 shows the estimated annual retirement benefits payable from the Officers Supplemental Non-Qualified Plan to officers based on compensation and years of officer service (in excess of five years). Mr. Crescenzi is not eligible for retirement benefits from the Officers Supplemental Non-Qualified Plan due to the fact he did not retire from the company. His retirement benefit will be calculated solely from Table 1(B). Current officer's annual retirement benefit will be (i) the sum of the benefits from Tables 1(A) or 1(B), and Table 2, or (ii) 50% of the average of the highest five years of compensation, whichever is less.

With respect to the traditional formula, estimated annual benefits are based upon the assumption that the employee remains in the service of Standard Register until age 62. At age 62, the employee qualifies for the maximum retirement percentage benefit. Retirement before age 62 will result in actuarially reduced benefits. The estimated annual benefits are taxable income but are not subject to any deduction for social security benefits. No additional benefit can be earned from the Officers' Supplemental Non-Qualified Plan after the sixteenth year of officer service.

The table below shows the average of the highest five years of total compensation and the years of service and officer service earned to date for each executive officer listed in the Summary Compensation Table.

(1) Mr. Morgan's service as President and CEO of the Company's wholly owned subsidiary, SMARTworks, LLC, is counted for purposes of the retirement plans.

Mr. Rediker's Employment Contract

The Company has an employment contract with Mr. Rediker which supplements his benefits under the plans described above, in order to ensure that Mr. Rediker receives annual retirement benefits equal to a percentage of the average of base salary paid to him in his final three years of employment. The percentage specified in the contract

ranges from 35% of average base salary, to a maximum of 50% of average base salary depending on length of service. Mr. Rediker has served as Chief Executive Officer a sufficient number of years to qualify for supplemental retirement benefits totaling 50% of his average annual base salary. The contract provides that retirement benefits which Mr. Rediker receives from prior employment with other companies, shall be netted against Standard Register's obligation to pay 50% of average annual base salary. The contract also contains a change in control feature which entitles Mr. Rediker to one year of compensation, including base salary, bonus and the value of non-cash benefits, in the event a change in ownership of the company results in termination of his employment or less favorable terms of employment.

AUDIT COMMITTEE REPORT

The Audit Committee is responsible for monitoring and assuring the integrity of Standard Register's financial reporting process. It accomplishes this function by assessing the internal accounting and auditing practices of the Company, and the independent auditor's fulfillment of its role in the financial reporting process. The board of directors adopted a written charter for the Audit Committee in April 2000 further describing the role of the Committee. This Charter is reviewed annually by the Audit Committee and the review is reported to the board of directors. The Audit Committee Charter may be accessed on the Company Web site, www.standardregister.com, as indicated below.

The Audit Committee held eleven meetings in 2005. Mr. Hudson is Chairman of the Audit Committee. Messrs. Clarke and Schiff, and Ms. Scavullo are the other members.

The Audit Committee in 2005 conducted an annual self-assessment of its overall operating effectiveness. The results of this self-assessment were analyzed and discussed by Audit Committee members in an effort to improve the overall quality of corporate governance and financial oversight provided to the Company.

The board of directors has determined the members of its Audit Committee meet the independence and financial literacy requirements of the New York Stock Exchange. In addition, the board has determined that one member in particular satisfies the Audit Committee financial expert qualifications contained in regulations issued pursuant to the Sarbanes-Oxley Act of 2002. Specifically, the board has concluded that Audit Committee Chairman Sherrill W. Hudson qualifies as an Audit Committee financial expert given his 37-year career with Deloitte & Touche, a firm of certified public accountants. Mr. Hudson's experience with respect to audits of financial statements of publicly held companies, internal controls, application of GAAP and audit committee functions, and his independence as a board member, meet the criteria for Audit Committee financial expert established by the board in conformity with the regulations and New York Stock Exchange Listing Standards.

Table of Contents

During 2005, the Audit Committee reviewed interim quarterly financial statements with management and the independent auditors. This review was conducted prior to filing of the Company's 10-Q reports containing the respective interim quarterly financial statements. In addition, the Committee reviewed and discussed the 2005 year-end audited financial statements with executive management, including the chief financial officer, and the independent auditors. This review took place prior to publication of the audited financial statements in the 10-K filing and annual report to shareholders. Each review was conducted with the understanding that management is responsible for preparing the Company's financial statements, and the independent auditors are responsible for examining the statements.

In further discharge of its responsibilities, the Audit Committee met with the independent auditors, both in the presence of management and privately. The Committee and independent auditors discussed those matters described in Statement of Auditing Standards No. 61, Communication with Audit Committee. These discussions included review of the scope of the audit performed with respect to the Company's financial statements. The Company's internal auditor also met with the Committee to review the effectiveness of the Company's internal controls and the internal auditor's responsibilities in that regard, and other compliance and audit matters. The Company has maintained an internal audit function for many years. In addition, the Committee conducted regular private meetings with General Counsel, and with management, including the chief financial officer and corporate controller.

The Audit Committee received and discussed periodic reports of management and the internal auditor, with respect to design and assessment of the Company's internal controls over the financial reporting process. The Committee further received and discussed the report of the independent auditors with respect to their audit of internal controls over financial reporting performed by the independent auditors in conjunction with the audit of the company's financial statements, as set forth in Public Company Accounting Oversight Board Auditing Standard No. 2.

The Audit Committee received the independent auditor's written statement required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees. This written statement described any relationships between the independent auditors and the Company that may reasonably be thought to bear on independence. Following receipt of this written statement and discussions of the matters described in it, the Committee was satisfied as to the auditor's independence.

Based upon the foregoing, the Audit Committee recommended to the board of directors that the audited financial statements be included in the Company's annual report on Form 10-K, for fiscal year ending January 1, 2006, for filing with the Securities and Exchange Commission.

The Audit Committee recommended, and the board adopted, the Company's Code of Ethics and re-emphasized that directors, and all Company employees, including principal executive officers and senior financial officers, are subject to the letter and spirit of the Code. The Code of Ethics covers such topics as conflicts of interest, confidentiality, compliance with legal requirements, and other business ethics subjects. It has been distributed to all employees and is made available on the Company's Web site, www.standardregister.com, by clicking on the "About SR" section. The Code of Ethics link appears in the left column, as does the link to the Committee's Charter. Printed copies of the Code of Ethics are available by contacting the Corporate Secretary's office, 600 Albany Street, Dayton, Ohio 45408.

The Audit Committee has established procedures for the receipt, retention and investigation of complaints regarding accounting, internal accounting controls or auditing matters. Any interested person may contact the Audit Committee directly through the Company's external Web site by clicking on "About SR" then

Corporate Governance and following the link to contact the Audit Committee. Company employees may contact the Audit Committee, anonymously if they wish, through a toll-free telephone number linked to a third party who will record complaints related to accounting and auditing matters and forward such complaints directly to the Audit Committee.

All audit-related and tax fees paid to Battelle & Battelle, LLP, with respect to the 2005 audit year were pre-approved by the Audit Committee.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the board of directors is composed solely of independent directors, none of whom have any interlocking relationships with Standard Register that are subject to disclosure under the rules of the SEC relating to proxy statements. The Compensation Committee has the overall responsibility for determining specific compensation levels for executive officers and bonuses for executive officers and certain other employees. The Compensation Committee administers the following plans:

Standard Register's 1995 Stock Option Plan (the "Stock Option Plan") as approved by the shareholders on April 17, 1996

The Standard Register 2002 Equity Incentive Plan (the "Equity Incentive Plan"), as approved by the shareholders on April 17, 2002

Management Incentive Compensation Plan ("Incentive Plan") as approved by the shareholders on April 16, 1997, and amended by the shareholders on April 17, 2002

The Deferred Compensation Plan, and

The Officers' Supplemental Non-Qualified Retirement Plan.

The Compensation Committee held nine meetings in 2005. Mr. Clarke is Chairman of the Compensation Committee. Messrs. Begley, Hudson, and Sherman, and Ms. Scavullo are the other members.

Along with the full board of directors, the Compensation Committee in 2005 took part in an annual assessment of its overall operating effectiveness. As part of this assessment, members evaluated the Compensation Committee's performance and contributions, and held a thorough discussion of the results of the survey in an effort to improve the overall quality of corporate governance provided to the Company.

In 2005, the Committee adopted Guiding Principles for Executive Compensation, which codified the framework under which the Committee will continue to analyze and establish executive pay and incentives. The Guidelines address overall philosophy, compensation positioning and mix, competitive context, performance measurement, and other factors.

Standard Register's fundamental objective is the creation of sustainable shareholder value, through both stock price appreciation and maintenance of the company's dividend. The Compensation Committee's key charge is, therefore, to establish an executive compensation program that serves this objective. The Compensation Committee believes that

Table of Contents

the interests of management and shareholders can be most closely aligned by providing executives with market-competitive and internally fair levels of compensation that link executive pay to overall corporate performance and strategy.

As such, the Compensation Committee has adopted a multi-step method of determining executive officer pay levels. First, as is common practice among many public companies, it identifies the market values of total compensation and individual components of pay, e.g., base salaries, annual incentives, and long-term incentives. This market has been defined by the Compensation Committee as a comparator group of companies comprised of companies at or near Standard Register's size in the general industry, companies that are talent competitors, companies in Standard Register's industry, and companies of similar size with similar business characteristics to Standard Register.

Second, the Compensation Committee assigns to each executive officer role (not the incumbent himself or herself) a rating evaluating *strategic value to the Company*. In doing so, the Compensation Committee is indicating the degree to which a certain role either maintains, enables, or optimizes Standard Register's ability to meet its financial targets and strategic objectives. Pay for executive officer roles is targeted between the 35th and 75th percentiles of the competitive market based on this assessment of strategic value.

Finally, the Compensation Committee receives the evaluation of the Chief Executive Officer with respect to the performance of each incumbent officer. The Committee performs its own evaluation of the Chief Executive Officer.

The Compensation Committee retains the counsel of an independent executive compensation consulting firm in the design and implementation of this method of determining pay levels. The Compensation Committee works with its outside advisor to determine the relevant market for the Company's executive talent, link the appropriate drivers of successful strategy execution to executive pay levels, and set such pay levels to be both market-competitive and internally appropriate. The Committee has retained the counsel and services of this independent advisor with respect to incentive plan design and other related areas as well.

The compensation system developed by the Compensation Committee has been designed so that a relatively high percentage of total compensation is incentive-based. The Stock Option Plan and Equity Incentive Plan are designed to base a portion of the executive officers' compensation upon the total return to shareholders of Standard Register's stock. The Incentive Plan is designed to provide rewards to executives for hitting key financial objectives.

All executive compensation for 2005 was fully deductible for federal income tax purposes.

Base Compensation

Executive officers' salaries are reviewed and approved annually by the Compensation Committee. Salaries for each executive officer, including the Chief Executive Officer, are set at levels deemed by the Compensation Committee to be reasonable and fair, and reflective of both the importance of the role and individual performance. This includes a review of competitive industry practices, role criticality, individual job responsibilities, level of experience, and job performance. Job performance is judged on both a subjective and objective basis, the latter measured against objectives agreed upon at the outset of the year. At the request of executive management, the Committee made no base salary adjustments to officers for 2005, with the exception of Ms. Lamme, whose base salary was increased when she assumed responsibility for Human Resources as well as the Legal Department. Executive management made this request taking into account the Company's situation and recent performance.

In general, in years when executive officer salary adjustments are considered, the Compensation Committee's objective is to set and maintain levels of pay that are internally equitable and sufficient to attract and retain talented executives. As one input to the process of establishing salaries, the Compensation Committee's outside executive compensation consulting firm compiles and analyzes competitive pay levels. These competitive pay levels of officer salaries and bonus levels are established via the comparator group.

As discussed above, in order to help establish internally equitable and appropriate levels of pay, the Compensation Committee sets executive salary levels commensurate with each role's expected contribution to the advancement of Standard Register's overall business strategy. Further, the Compensation Committee will take into account the performance evaluation made by Mr. Rediker with respect to each non-CEO executive. Over the last two years, the Compensation Committee has targeted executive salaries at levels between the 35th and 75th percentiles of the competitive market salary values. For 2005, most of the executive officer salaries were between the 50th and 75th percentile. The data from these groups is compiled to arrive at a market value for each of the executive officers. Mr. Rediker's base salary for 2005 was also positioned consistent with this philosophy. However, Mr. Rediker declined to be considered for a salary increase in 2005. For further detail on Mr. Rediker's compensation, see section entitled Compensation of the Chief Executive Officer.

Table of Contents**Incentive Compensation**

The Compensation Committee administers the Incentive Plan, which became effective January 1, 1997. Six employees were covered by the Incentive Plan in 2005. The Compensation Committee selects the participants, determines the amount and terms of each incentive award and decides whether the award shall be made available in cash, Standard Register stock, or a combination of the two. The Incentive Plan, and its amendment, was approved by the shareholders, so as to preserve the tax-deductibility offered under Section 162(m) of the Internal Revenue Code for incentive compensation.

Incentive awards to the Incentive Plan participants are subject to objective performance goals established by the Compensation Committee. Goals are adjusted from year to year depending on the relevant business focus of the Company for the year. The Compensation Committee certifies to the board of directors each year the extent to which the performance objectives have been achieved.

The Compensation Committee adopted performance goals to measure short-term executive performance in 2005. At the recommendation of executive management, the target bonus for plan achievement was set at one-half the percentage of base salary that the Committee had previously determined was competitive and reasonable. This reduced the bonus potential for executive officers. The primary measure was earnings on operations, as adjusted for items such as impairment, restructuring and pension amortization. The Compensation Committee required that a threshold level of earnings per share be attained in order for any incentive awards to be earned by executives in 2005. This threshold level was attained and exceeded, resulting in the incentive awards listed in the Summary Compensation Table.

Stock Options and Stock Awards

The Compensation Committee also administers the Stock Option Plan, which became effective October 19, 1995, and the Equity Incentive Plan, which was approved by shareholders on April 17, 2002. The Stock Option Plan expired in December 2005. No further grants will be made from this Plan. Approximately 175 employees were granted options under the Stock Option Plan in 2005. Forty-one employees were granted stock awards in 2005. The objectives of the Stock Option Plan and Equity Incentive Plan are to focus executive officers and certain key employees of Standard Register to increase the long-term value of Standard Register's common stock by granting stock options and stock awards. The Stock Option Plan and Equity Incentive Plan also align the interests of participants with those of Standard Register's shareholders. Dividends are paid to grantees of restricted stock during the restricted period, and grantees may vote these shares.

The Stock Option Plan provides that options may be granted either as incentive stock options or as non-qualified stock options. Options may be granted for varying terms of from one to ten years. Options generally do not become exercisable until one year from the date of grant. Thereafter, the right to exercise options vests either: (a) in accordance with a schedule established at the time of grant, generally at a rate of 25% per year, cumulative to the extent not exercised in prior periods; or (b) on a schedule determined by achievement of specific performance factors. The exercise price for incentive stock options must be at least 100% of the last sale price on the exchange on which the stock is trading on the last trading day prior to the date of grant (fair market value) with a further exception that incentive options granted to persons owning more than 10% of the outstanding voting securities of Standard Register be a least 110% of such sale price.

In an effort to further focus executives' efforts on the Company's results, and continue to align executives and shareholder interests, the Compensation Committee made awards of performance-based restricted stock in addition to stock options in early 2005 to executive officers. The grants were part of a three-year cycle, with the value of the grants split 60%/40% between performance restricted shares and stock options. The target value of these grants, taken together with the expected value of the 2005 stock option awards, is intended to provide each executive officer with the grant size determined appropriate based on the assessment of market and internally strategic value. The Compensation Committee has set the vesting of the performance-based restricted stock awards to be contingent upon the achievement of pre-established three-year corporate operating earnings targets. Portions of an individual's award may vest earlier than

2007 if the operating earnings targets are achieved prior to that year. No grants have vested to date. In the event the goal is not met by the end of the 2007 budget year, the grants are forfeited.

Grants of stock options were made to executive officers in February 2005. All were granted at the fair market value and with a vest schedule of 25% upon each of the first four anniversaries of the grant date. The term of these options is ten years.

Compensation of the Chief Executive Officer

Mr. Rediker informed the Committee prior to its December 2004 meeting of his desire that the Committee not consider granting him a salary increase for 2005. This request was made in light of Mr. Rediker's evaluation of the Company's 2004 financial and operating results. Thus, Mr. Rediker's salary was kept constant at its then-current level of \$700,000 per year, which was consistent with its 2002, 2003 and 2004 levels.

With respect to setting Mr. Rediker's total compensation, including incentive and stock awards, the Committee does not assign an internal value to his role. The Committee considers the role of President and CEO, unlike the roles of other executive officers, to have an intrinsically critical value that cannot strictly be measured against the internal value of other members of senior management. In establishing Mr. Rediker's compensation, the Compensation Committee took into account many factors, including the financial performance of the company, an assessment of his overall performance as a manager and leader, and the external market for chief executive officer compensation.

Incentive Compensation: For the fiscal year 2005, Mr. Rediker's target bonus (as a percentage of his base salary) was set at 37.5, which was half the normal competitive level previously determined by the Committee. The reduced target was set at Mr. Rediker's request. The Company met threshold levels for payment of incentive compensation, resulting in the payment to Mr. Rediker as disclosed in the Summary Compensation Table.

Stock awards: Mr. Rediker was granted restricted stock and stock options as long-term incentive. Vesting of the restricted stock is subject to performance measures, as described in the section "Stock Options and Stock Awards" above.

Benefits and Perquisites

The Compensation Committee has endeavored to adhere to a high level of propriety in managing executive benefits and perquisites. The Company does not provide for any type of permanent lodging or personal entertainment for any executive officer or employee, and the Company's health care and benefit programs offer substantially the same advantages to all full-time employees. The Committee has established cash perquisite accounts of \$18,000 for officers, including executive officers, to be used for club memberships, car expense, financial and tax planning and the like.

CORPORATE GOVERNANCE AND NOMINATING COMMITTEE REPORT

The Corporate Governance and Nominating Committee assists the board in defining board roles and developing processes to optimize board functioning. It also studies and recommends adoption by the board of directors of corporate governance processes intended to comply with applicable legal, regulatory and listing standard requirements. In addition, the Committee oversees the Company's succession planning process and director nomination process. The Corporate Governance and Nominating Committee met four times in 2005. Mr. Begley is Chairman of the Corporate Governance and Nominating Committee and Ms. Scavullo and Mr. Sherman are the other members.

In 2005, the Committee provided leadership to the board of directors and other committees in performing annual self-assessments. These self-assessments gave the board and Committees insight into how they are performing their roles in the corporate governance process. The Corporate Governance and Nominating Committee conducted an assessment of its own performance as part of this process.

The Committee assisted the board of directors in assessing the independence status of all directors. Using the "Independence Criteria" adopted by the board in conformity with New York Stock Exchange Listing Standards, as amended, the Committee recommended and the board adopted findings with respect to the

independence of each director. Directors Roy W. Begley, Jr., F. David Clarke, III, Sherrill W. Hudson, Ann Scavullo, John J. Schiff, Jr., and John Q. Sherman, II, were determined to be independent. Chairman Paul H. Granzow and CEO Dennis L. Rediker were considered not independent since they are employees of the Company.

The Corporate Governance and Nominating Committee, and the board of directors, in performing their director-nomination function, identify director candidates from a range of sources. Primary among these sources are recommendations from current directors and major shareholders. The board has not engaged a third party to assist in the director nomination process, and has paid no fees in that regard.

Table of Contents

Director candidates are evaluated by reference to criteria such as integrity, candor, judgment, skills, and experience with respect to the industry in which the company operates, leadership, strategic understanding, and independence. These factors are considered in the context of the current composition of the board. A candidate is evaluated against these criteria regardless of the source of the recommendation.

The policy of the Committee and board is to consider recommendations for director candidates from any interested party, especially shareholders. Shareholders who wish to recommend a director candidate should submit the recommendation in writing addressed to The Standard Register Company Corporate Governance and Nominating Committee, in care of the Corporate Secretary, 600 Albany Street, Dayton, Ohio 45408. The communication should state the name of the candidate, his or her qualifications, and contact information for the shareholder and candidate. The submission of shareholder candidates must be received by the Corporate Secretary by November 17, 2006, for consideration in the 2007 director nomination process.

The Company's directors all stand for election or reelection at each annual meeting of shareholders. Directors make every effort to attend the annual meetings, and, in fact, all directors have been in attendance at the last three annual meetings of shareholders. While the board does not have a formal policy in this regard, its clear practice is for all directors to be present at the annual meeting of shareholders.

The board is always receptive to communications from shareholders. Shareholders wishing to communicate with the board of directors may send communications to The Standard Register Company Board of Directors, in care of the Corporate Secretary, 600 Albany Street, Dayton, Ohio 45408. Shareholders may also communicate with the presiding director of the non-management meetings of the board by sending such communications to the Corporate Secretary. The board has selected director John Q. Sherman, II, to preside at the meetings of non-management directors to be held in 2006. All communications to the board or to Mr. Sherman will be copied and forwarded by the Corporate Secretary.

Shareholders and investors may also communicate with the presiding director of non-management meetings of the board and with the Audit Committee through the company's Web site, www.standardregister.com, at the About SR section by clicking on Corporate Governance. The charters of all Committees, the Corporate Governance Guidelines, and the Code of Ethics may also be accessed on the company's Web site at the About SR, Corporate Governance section. Printed copies of Committee Charters, the Corporate Governance Guidelines, and the Code of Ethics are available upon request by contacting the Corporate Secretary's office, 600 Albany Street, Dayton, Ohio 45408.

Certain Transactions

John Q. Sherman, a director of the Company, has represented A. Rifkin Company as an independent manufacturer's representative since 1985. A. Rifkin Company supplies certain security bag products to the banking industry. One of the customers to which Mr. Sherman represented A. Rifkin Company from 1985 to 2005 was The Fifth Third Bank (Fifth Third). Fifth Third's trust department holds shares in the Company as disclosed in the Voting Securities and Principal Holders table. Fifth Third was a customer of A. Rifkin Company for many years prior to 1985, as well. In 2005, A. Rifkin Company's revenue from Fifth Third was approximately \$177,000, on which Mr. Sherman received a sales commission. In 2004, Mr. Sherman also began to directly sell certain transfer cases to Fifth Third, under a written agreement that runs through August 2007. In 2005, these direct sales resulted in approximately \$32,600 of gross revenue to Mr. Sherman.

In October 2005, the Company's contracted with Fifth Third to provide a broad range of services to Fifth Third, including purchasing, inventory management, fulfillment, distribution and other services in addition to its traditional role of supplying printed materials. As part of this expanded relationship, the Company

assumed responsibility for sourcing and purchasing for Fifth Third the products provided by both A. Rifkin Company and Mr. Sherman. In late 2005, therefore, the Company began to purchase these items from A. Rifkin Company and Mr. Sherman for resale to Fifth Third. In future years, the resulting revenues and commissions to Mr. Sherman from the Company are expected to continue in approximately the same amounts.

The Company sells Fifth Third printed products, banking documents, and services, in the ordinary course of business and on terms and conditions similar to those offered other Company customers.
