MGM MIRAGE is referred to as the Company or the Registrant, and together with our subsidiaries may also be referred to as we, us or our.

Overview

MGM MIRAGE is one of the largest gaming companies in the world and owns what we believe to be the world's finest collection of casino resorts. Our strategy is predicated on creating resorts of memorable character, treating our employees well and providing superior service for our guests. MGM MIRAGE was organized as MGM Grand, Inc. on January 29, 1986 and is a Delaware corporation. MGM MIRAGE acts largely as a holding company and its operations are conducted through its wholly-owned subsidiaries. The Company grew significantly in 2000 with the acquisition of Mirage Resorts, Incorporated and in 2005 with the acquisition of Mandalay Resort Group (Mandalay).

Our Operating Casino Resorts

We have provided below certain information about our casino resorts as of December 31, 2006. Except as otherwise indicated, we wholly own and operate the resorts shown below.

Table of Contents*Bellagio*

Bellagio is widely recognized as one of the premier destination resorts in the world. Located at the heart of the Las Vegas Strip, Bellagio has earned the prestigious Five Diamond award from the American Automobile Association (AAA) for the last six years. The resort is richly decorated, including a conservatory filled with unique botanical displays that change with the seasons. At the front of Bellagio is an eight-acre lake featuring over 1,000 fountains that come alive at regular intervals in a choreographed ballet of water, music and lights. Bellagio features 200,000 square feet of convention space for the discerning group planner. For both business and leisure customers, Bellagio's restaurants offer the finest choices, including Five Diamond award winners Picasso and Le Cirque. Entertainment options include *O*, produced and performed by Cirque du Soleil, the Light nightclub, and several other bars and lounges. Leisure travelers can also enjoy Bellagio's expansive pool, world-class spa and Gallery of Fine Arts.

MGM Grand Las Vegas

MGM Grand Las Vegas, located on the corner of the Las Vegas Strip and Tropicana Avenue, is one of the largest casino resorts in the world, and is the largest to receive the AAA's Four Diamond award. The resort's guest rooms feature unique themes, including: West Wing, an area offering boutique-style rooms; Skylofts, ultra-suites on the 29th floor featuring the ultimate in personal service and recently awarded a Five Diamond rating by AAA; and the exclusive Mansion for premium gaming customers. MGM Grand Las Vegas features an extensive array of restaurants, including two new restaurants by renowned chef Joël Robuchon, an AAA Five Diamond rating recipient, Craftsteak, NOBHILL, SeaBlue, Pearl, Shibuya and Fiamma Trattoria. Other amenities include the Studio 54 nightclub, Tabu, the Ultra Lounge, Teatro, numerous retail shopping outlets, a 380,000 square foot state-of-the-art conference center, and an extensive pool and spa complex.

MGM Grand Las Vegas features the spectacular show *KÀ*, by Cirque du Soleil, performed in a custom-designed theatre seating almost 2,000 guests. The MGM Grand Garden is a special events center with a seating capacity of over 16,000 that provides a venue for premier concerts, as well as championship boxing and other special events.

The Signature at MGM Grand is a condominium-hotel development that will ultimately feature three 576-unit towers. We own a 50% interest in the entity developing The Signature at MGM Grand and once each tower is complete, we manage the tower as a hotel for owners electing to rent their units. Tower 1 was completed in 2006, and unit sales closed and hotel occupancy commenced in mid-2006. Tower 2 is complete and the majority of unit sales are closed; hotel occupancy had commenced on a portion of the units at December 31, 2006. Tower 3 will be completed in 2007.

Mandalay Bay

Mandalay Bay is the first major resort on the Las Vegas Strip to greet visitors arriving by automobile from southern California. This AAA Four Diamond, South Seas-themed resort features numerous restaurants, such as Charlie Palmer's Aureole, Wolfgang Puck's Trattoria Del Lupo, China Grill, Hubert Keller's Fleur de Lys, and Border Grill. Mandalay Bay offers multiple entertainment venues that include a 12,000-seat special events arena, a 1,760-seat showroom featuring the Broadway hit *Mamma Mia!*, the House of Blues, and the Rumjungle restaurant and nightclub. In addition, Mandalay Bay features the Shark Reef, exhibiting sharks and rare sea predators. Mandalay Bay has an extensive pool and beach area, including a wave pool and Moorea, a European-style ultra beach, as well as a 30,000 square-foot spa.

Included within Mandalay Bay is a Four Seasons Hotel with its own lobby, restaurants and pool and spa, providing visitors with a luxury AAA Five-Diamond-rated hospitality experience. THEhotel is an all-suite hotel tower within the Mandalay Bay complex. THEhotel includes its own spa and fitness center, a lounge and two restaurants, including Mix Las Vegas, created by famed chef Alain Ducasse and located on the top floor of THEhotel.

The Mandalay Bay Conference Center is a convention and meeting complex adjacent to Mandalay Bay. The complex includes more than one million square feet of exhibit space. Including the Conference Center and Mandalay Bay's other convention areas, Mandalay Bay offers almost two million gross square feet of conference and exhibit space. Connecting Mandalay Bay to Luxor is Mandalay Place, a retail center that includes approximately 90,000 square feet of retail space and approximately 40 boutique stores and restaurants, including stores by Nike Golf and Urban Outfitters, restaurants by celebrity chefs Pierro Selvaggio, Hubert Keller and Rick Moonen, and the burlesque nightclub Forty Deuce.

Table of Contents

The Mirage

The Mirage is a luxurious, tropically-themed resort located on a site shared with TI at the center of the Las Vegas Strip. The Mirage is recognized by AAA as a Four Diamond resort. The exterior of the resort is landscaped with palm trees, abundant foliage and more than four acres of lagoons and other water features centered around a 54-foot volcano which erupts every evening at regular intervals, with flames that spectacularly illuminate the front of the resort. Inside the front entrance is an atrium with a tropical garden and additional water features capped by a 100-foot-high glass dome, designed to replicate the sights, sounds and fragrances of the South Seas. Located at the rear of the hotel, adjacent to the swimming pool area, is a dolphin habitat featuring Atlantic bottlenose dolphins and *The Secret Garden of Siegfried & Roy*, an attraction that allows guests to view the beautiful exotic animals of Siegfried & Roy, the world-famous illusionists.

The Mirage features a wide array of restaurants, including Kokomos, Japonais, Fin, Stack, Cravings, and Carnegie Deli. Several of these restaurants have been recently opened or renovated. Entertainment at The Mirage is highlighted by *Love*, the newest show from Cirque du Soleil and based on the works of the Beatles. The Mirage also features Danny Gans, the renowned singer/impersonator, and headline entertainment. Nightlife options at The Mirage include Jet, a 16,000 square-foot nightclub, and the Beatles-themed lounge Revolution. The Mirage also has numerous retail shopping outlets and 170,000 square feet of convention space, including the 90,000-square foot Mirage Events Center.

Luxor

Luxor is an Egyptian-themed hotel and casino complex situated between Mandalay Bay and Excalibur, which are all connected by a tram. Luxor offers 20,000 square feet of convention space, a 20,000-square-foot spa, and food and entertainment venues on three different levels beneath a soaring hotel atrium. Above the pyramid's casino, the property offers a special format motion base ride and an IMAX 2D/3D theater. Luxor's other public areas include restaurants, several cocktail lounges and a variety of specialty shops. The Luxor features headline entertainment, a show by the comedian Carrot Top, and the adult dance revue *Fantasy*.

Treasure Island (TI)

TI is a Caribbean-themed resort located next to The Mirage and also holds the AAA Four Diamond rating. TI and The Mirage are connected by a monorail and a pedestrian bridge links TI to the Fashion Show Mall. TI features several restaurants, including Social House, Isla Mexican Kitchen, Kahunaville and Canter's Deli. Bars and lounges at TI include Mist and Tangerine, which features indoor/outdoor space with views of the Las Vegas Strip and nightly burlesque entertainment. The showroom at TI features *Mystère*, produced and performed by Cirque du Soleil. The Sirens of TI Show is performed at the front of the resort, providing a significant presence to visitors on the Las Vegas Strip and beckoning visitors into TI.

New York-New York

New York-New York is located at the corner of the Las Vegas Strip and Tropicana Avenue. Pedestrian bridges link New York-New York with both MGM Grand Las Vegas and Excalibur. The architecture at New York-New York replicates many of New York City's landmark buildings and icons, including the Statue of Liberty, the Empire State Building, Central Park, the Brooklyn Bridge and a Coney Island-style roller coaster. The casino features highly themed interiors including *Park Avenue* with retail shops, a *Central Park* setting in the central casino area, and *Little Italy* with its traditional food court set inside a typical residential neighborhood. New York-New York also features several restaurants and numerous bars and lounges, including nationally recognized Coyote Ugly and ESPNZone and Nine Fine Irishmen, an authentic Irish Pub. New York-New York also features *Zumanity* by Cirque du Soleil.

Excalibur

Excalibur is a castle-themed hotel and casino complex situated immediately north of Luxor at the corner of the Las Vegas Strip and Tropicana Avenue. Excalibur's public areas include a Renaissance fair, a medieval village, an amphitheater with a seating capacity of nearly 1,000 where mock jousting tournaments and costume drama are presented nightly, two dynamic motion theaters, various artisans' booths and medieval games of skill. In addition, Excalibur has a buffet restaurant, several themed restaurants, as well as several snack bars, cocktail lounges and a variety of specialty shops. The property also features a 13,000-square-foot spa. Excalibur, Luxor and Mandalay are connected by a tram, allowing guests to travel easily among these resorts.

Table of Contents

Monte Carlo

Monte Carlo is located on the Las Vegas Strip adjacent to New York-New York. Monte Carlo was recently awarded its first Four Diamond rating by AAA. Monte Carlo has a palatial style reminiscent of the Belle Époque, the French Victorian architecture of the late 19th century. The resort has amenities such as fine dining at Andre's, a brew pub featuring live entertainment, a health spa, a beauty salon, and a 1,200-seat theatre featuring the world-renowned magician Lance Burton.

Circus Circus Las Vegas

Circus Circus Las Vegas is a circus-themed hotel and casino complex situated on the north end of the Las Vegas Strip. From a Big Top above the casino, Circus Circus Las Vegas offers its guests a variety of circus acts performed daily, free of charge. A mezzanine area overlooking the casino has a circus midway with carnival-style games and an arcade that offers a variety of amusements and electronic games. Specialty restaurants, a buffet, a coffee shop, snack bars, several cocktail bars and a variety of specialty shops are also available to guests. The Adventuredome, covering approximately five acres, offers theme park entertainment that includes thrills rides for adults and children, themed carnival-style midway games, an arcade, food kiosks and souvenir shops, all in a climate-controlled setting under a giant space-frame dome.

Primm Valley Resorts

The Primm Valley Resorts consist of three hotel-casinos on both sides of Interstate 15 at the California/Nevada state line in Primm, Nevada, approximately 40 miles south of Las Vegas. Buffalo Bill's Resort & Casino, Primm Valley Resort & Casino, Whiskey Pete's Hotel & Casino and three gas stations including the Primm Center (collectively, the Primm Valley Resorts) form a major destination location and offer visitors driving from California the first opportunity to wager upon entering Nevada and the last opportunity before leaving.

Primm Valley Resorts offer an array of amenities and attractions, including a 25,000-square foot conference center, numerous restaurants, and a variety of amusement rides. The 6,100-seat Star of the Desert Arena hosts top-name entertainers. Connected to Primm Valley Resorts is the Fashion Outlet of Las Vegas, a shopping mall containing approximately 400,000 square feet of retail space with over 100 retail outlet stores. The Fashion Outlet is owned and operated by a third party.

In October 2006, we entered into an agreement to sell the Primm Valley Resorts for \$400 million, subject to regulatory approval and other customary closing conditions. We expect the sale to be completed by the second quarter of 2007.

Circus Circus Reno

Circus Circus Reno is a circus-themed hotel and casino complex situated in downtown Reno, Nevada. Like its sister property in Las Vegas, Circus Circus Reno offers its guests a variety of circus acts performed daily, free of charge. A mezzanine area has a circus midway with carnival-style games and an arcade that offers a variety of amusements and electronic games. The property also has several restaurants, cocktail lounges, and retail shops.

Silver Legacy

Through a wholly-owned entity, we are a 50% participant with Eldorado Limited Liability Company in Circus and Eldorado Joint Venture, which owns and operates Silver Legacy, a hotel-casino and entertainment complex situated in downtown Reno, Nevada. Silver Legacy is located between Circus Circus Reno and the Eldorado Hotel & Casino, which is owned and operated by an affiliate of our joint venture partner at Silver Legacy. Silver Legacy is connected at the mezzanine level with Circus Circus Reno and the Eldorado by enclosed climate-controlled skyways above the streets between the respective properties. The resort's exterior is themed to evoke images of historical Reno. Silver Legacy features several restaurants and bars, a special events center, custom retail shops, a health spa and an outdoor pool and sun deck.

Gold Strike and Nevada Landing

We refer to Gold Strike and Nevada Landing collectively as the Jean Properties. Gold Strike is an "Old West"-themed hotel-casino located on the east side of Interstate-15 in Jean, Nevada. Jean is located approximately 25 miles south of Las Vegas and approximately 15 miles north of the California-Nevada state line. The property has, among other amenities, a swimming pool and spa, several restaurants, a banquet center, a gift shop and an arcade. The casino has a stage bar with regularly scheduled live entertainment and a casino bar.

Table of Contents

Nevada Landing is a turn-of-the-century riverboat-themed hotel-casino located in Jean across Interstate 15 from Gold Strike. Nevada Landing includes a specialty restaurant, a full-service coffee shop, a buffet, a snack bar, a gift shop, a swimming pool and spa and a 300-guest banquet facility.

In February 2007, we entered into an operating agreement with Jeanco Realty Development, LLC, a venture owned by American Nevada Corporation and Diamond Resorts, LLC, to form a 50/50 joint venture whose purpose is to develop a mixed-use community in Jean, Nevada. We will contribute the Jean properties and the surrounding land to the joint venture. We also determined in February 2007 that Nevada Landing would close in April 2007.

The Laughlin Properties

The Laughlin Properties consist of Colorado Belle and Edgewater. Colorado Belle is situated on the bank of the Colorado River in Laughlin, Nevada, approximately 90 miles south of Las Vegas. Colorado Belle features a 600-foot replica of a Mississippi riverboat, and also includes a buffet, a coffee shop, specialty restaurants, a microbrewery, snack bars and cocktail lounges, as well as a gift shop and other specialty shops. Edgewater is located adjacent to Colorado Belle along the Colorado River. Edgewater's facilities include a specialty restaurant, a coffee shop, a buffet, a snack bar and cocktail lounges.

In October 2006, we entered into an agreement to sell the Laughlin Properties for \$200 million, subject to regulatory approval and other customary closing conditions. We expect the sale to be completed by the second quarter of 2007.

Railroad Pass

Railroad Pass is located in Henderson, Nevada, a suburb located southeast of Las Vegas, and is situated along US Highway 93, the direct route between Las Vegas and Phoenix, Arizona. The property includes, among other amenities, full-service restaurants, a buffet, a gift shop, a swimming pool and a banquet facility. In contrast with our other Nevada properties, Railroad Pass caters to local residents, particularly from Henderson and Boulder City.

MGM Grand Detroit

MGM Grand Detroit is our interim casino facility in Detroit, Michigan. MGM Grand Detroit is one of three casinos licensed in Detroit and is operated by MGM Grand Detroit, LLC. MGM Grand Detroit, Inc., our wholly-owned subsidiary, holds a controlling interest in MGM Grand Detroit, LLC. A minority interest in MGM Grand Detroit, LLC is held by Partners Detroit, LLC, a Michigan limited liability company owned by residents and entities located in the Detroit metropolitan area. MGM Grand Detroit's interior is decorated in an Art Deco motif with themed bars, a VIP lounge and several restaurants. The site is conveniently located off the Howard Street exit from the John C. Lodge Expressway in downtown Detroit, and has parking for over 3,000 vehicles in two parking garages and additional on-site covered parking.

Beau Rivage

Beau Rivage reopened in August 2006, after being closed for one year due to Hurricane Katrina. Beau Rivage is located on a beachfront site where Interstate 110 meets the Gulf Coast in Biloxi, Mississippi. Beau Rivage features several new restaurants including Olives, BR Prime and Jia, a 1,550-seat state-of-the-art theatre, a state-of-the-art convention center, extensive pool and a world-class spa and salon.

Gold Strike-Tunica

Gold Strike-Tunica is a dockside casino located along the Mississippi River, 20 miles south of Memphis and approximately three miles west of Mississippi State Highway 61, a major north/south highway connecting Memphis with Tunica County. The property features an 800-seat showroom, a coffee shop, a specialty restaurant, a buffet, a snack bar and several cocktail lounges. Gold Strike-Tunica is part of a three-casino development covering approximately 72 acres. The other two casinos are owned and operated by unaffiliated third parties. We also own an undivided one-half interest in an additional 388 acres of land that may be used for future development.

Table of Contents

Borgata

The Borgata Hotel Casino and Spa is located at Renaissance Pointe in Atlantic City, New Jersey. In addition to its guest rooms and suites and extensive gaming floor, Borgata includes several specialty restaurants, retail shops, a European-style health spa, meeting space and unique entertainment venues. Borgata was the first new casino in Atlantic City in over 13 years when it opened in July 2003. Through a wholly-owned subsidiary, we own 50% of the limited liability company that owns Borgata. Boyd Gaming Corporation (Boyd) owns the other 50% and also operates the resort.

Borgata recently expanded its gaming and non-gaming amenities, with additional table games and slot machines, an expanded poker room and race book, and additional restaurant, entertainment and other amenities. Additionally, Borgata has plans to add another hotel tower, the Water Club at Borgata, featuring 800 guestrooms and suites, along with a new spa, parking garage and meeting rooms. This \$400 million project is expected to be completed in early 2008. Neither project is expected to require contributions from us, as existing operating cash flow and Borgata's recently renegotiated bank credit facility are anticipated to provide for the cost of the expansions.

Grand Victoria

Through wholly-owned entities, we are a 50% participant with RBG, L.P. in an entity which owns Grand Victoria, a Victorian-themed riverboat casino and land-based entertainment complex in Elgin, Illinois, a suburb approximately 40 miles northwest of downtown Chicago. The riverboat offers dockside gaming, which means its operation is conducted at dockside without cruising. The property also features a dockside complex that contains an approximately 83,000-square-foot pavilion with a buffet, a fine dining restaurant, a VIP lounge and a gift shop.

Golf Courses

We own and operate an exclusive world-class golf course, Shadow Creek, designed by Tom Fazio and located approximately ten miles north of our Las Vegas Strip resorts. Shadow Creek is ranked 3rd in Golf Digest's ranking of America's 100 Greatest Public Courses. We also own and operate the Primm Valley Golf Club, located four miles south of the Primm Valley Resorts in California, which includes two 18-hole championship courses. These golf courses were also designed by Tom Fazio. The Primm Valley Golf Club is not being sold as part of the transaction to sell the Primm Valley Resorts. We also own Fallen Oak, a championship golf course also designed by Tom Fazio, located approximately 20 miles from Beau Rivage. Fallen Oak opened in November 2006.

Future Development

The following sections discuss our current and potential development opportunities. We regularly evaluate possible expansion and acquisition opportunities in both the domestic and international markets. These opportunities may include the ownership, management and operation of gaming and other entertainment facilities in Nevada or in states other than Nevada or outside of the United States. We may undertake these opportunities either alone or in cooperation with one or more third parties. Development and operation of any gaming facility in a new jurisdiction is subject to many contingencies. Several of these contingencies are outside of our control and may include the passage of appropriate gaming legislation, the issuance of necessary permits, licenses and approvals, the availability of appropriate financing and the satisfaction of other conditions.

We cannot be sure that we will decide or be able to proceed with any acquisition or expansion opportunities. In addition, the projects discussed below involve risks and uncertainties. For instance, the design, timing and costs of the projects may change and are subject to risks attendant to large-scale projects.

CityCenter

We are developing CityCenter on the Las Vegas Strip, between Bellagio and Monte Carlo. CityCenter will feature a 4,000-room casino resort designed by world-famous architect Cesar Pelli; two 400-room non-gaming boutique hotels, one of which will be managed by luxury hotelier Mandarin Oriental; approximately 470,000 square feet of retail shops, dining and entertainment venues; and approximately 2.3 million square feet of residential space in approximately 2,700 luxury condominium and condominium-hotel units in multiple towers.

We believe CityCenter will cost approximately \$7 billion, excluding land costs. After estimated proceeds of \$2.5 billion from the sale of residential units, we believe the net project cost will be approximately \$4.5 billion. CityCenter is located on a 67-acre site with a carrying value of approximately \$1 billion. We expect CityCenter to open in late 2009.

Table of Contents

Detroit, Michigan

MGM Grand Detroit, LLC has operated an interim casino facility in downtown Detroit since July 1999. We are currently developing a permanent hotel-casino complex located near the site of our interim facility.

The permanent complex is expected to open in late 2007 at a cost of approximately \$750 million, excluding license and land costs, and will feature a 400-room hotel, 100,000-square foot casino, numerous restaurant and entertainment amenities, and spa and convention facilities. The permanent casino is located on a 25-acre site with a carrying value of approximately \$50 million. In addition, we recorded license rights with a carrying value of \$100 million as a result of MGM Grand Detroit's obligations to the City of Detroit in connection with the permanent casino development agreement.

Macau

We own 50% of MGM Grand Paradise Limited, an entity which is developing, and will operate, MGM Grand Macau, a hotel-casino resort in Macau S.A.R. Pansy Ho Chiu-king owns the other 50% of MGM Grand Paradise Limited. MGM Grand Macau will be located on a prime site and will feature at least 345 table games and 1,035 slots with room for significant expansion. Other features will include approximately 600 rooms, suites and villas, a luxurious spa, convertible convention space, a variety of dining destinations, and other attractions. MGM Grand Macau is estimated to cost \$850 million, excluding license and land rights costs. The subconcession agreement, which allows MGM Grand Paradise Limited to operate a casino in Macau, cost \$200 million and the land rights agreement with the government of Macau is estimated to cost \$60 million. Construction of MGM Grand Macau began in the second quarter of 2005 and the resort is anticipated to open in late 2007. We have invested \$266 million in the venture, and are committed to loaning the venture up to an additional \$9 million. The venture has obtained a \$700 million bank credit facility which, along with equity contributions and shareholder loans, is expected to be sufficient to fund the construction of MGM Grand Macau.

New York Racing Association

We have entered into a definitive agreement with the New York Racing Association (NYRA) to manage video lottery terminals (VLTs) at NYRA's Aqueduct horseracing facility in metropolitan New York. Subject to receipt of requisite New York State and Bankruptcy Court approvals, we will assist in the development of the facility, including providing project financing up to \$190 million, and will manage the facility for a term of five years (extended automatically if the financing provided by us is not fully repaid) for a fee. We believe, based on recent legislative changes, that our agreement with respect to installations of VLTs at Aqueduct would extend past the expiration of NYRA's current racing franchise and would be binding on any successor to NYRA in the event NYRA is not granted a new racing franchise. NYRA's recent filing for reorganization under Chapter 11 has introduced additional uncertainties, but we remain committed to the development once these uncertainties are resolved.

Atlantic City, New Jersey

We own approximately 130 acres on Renaissance Pointe in Atlantic City, New Jersey. We lease ten acres to Borgata under long-term leases for use in its current operations and for its expansion. Of the remaining 120 acres, approximately 72 acres are suitable for development. We lease nine of these developable acres to Borgata on a short-term basis for surface parking and a portion of the remaining acres consists of common roads, landscaping and master plan improvements which we designed and developed as required by our agreement with Boyd. We own an additional 15 developable acres in the Marina District near Renaissance Pointe.

We must apply for and receive numerous governmental permits and satisfy other conditions before construction of a new resort on the Renaissance Pointe site could begin. No assurance can be given that we will develop a casino resort in New Jersey, or its ultimate schedule, size, configuration or cost if we do develop a casino resort.

United Kingdom

The Gambling Act 2005 includes authorization for only one initial regional casino (unlimited table games and a maximum of 1,250 slot machines) and eight large casinos (unlimited table games and a maximum of 150 slot machines), a significant reduction from previous proposals. The Gambling Act 2005 allows for an increase in the number of regional casinos, but it is uncertain whether more regional casinos will be approved in the near term. In January 2007, the Casino Advisory Panel recommended that the first regional casino license should be awarded to Manchester. The Company continues to evaluate potential opportunities in the United Kingdom.

Mashantucket Pequot Tribal Nation

We have entered into a series of agreements to implement a strategic alliance with the Mashantucket Pequot Tribal Nation (MPTN), which owns and operates Foxwoods Casino Resort in Ledyard, Connecticut. Under the strategic alliance:

We are consulting with MPTN in the development of a new \$700 million casino resort currently under construction adjacent to the existing Foxwoods casino resort. The new resort will utilize the MGM Grand brand name and is scheduled to open in Spring 2008.

We have formed a jointly owned company with MPTN Unity Gaming, LLC to acquire or develop future gaming and non-gaming enterprises. We will provide a loan of up to \$200 million to finance a portion of MPTN s investment in joint projects.

Mubadala Development Company

We have signed a memorandum of understanding for a strategic relationship with Mubadala Development Company of Abu Dhabi, U.A.E., to pursue non-gaming luxury hotel development globally. The parties intend to create a joint venture to pursue the developments, originally targeting locations in Abu Dhabi, Las Vegas and the United Kingdom.

China

We have signed a memorandum of understanding with the Diaoyutai State Guesthouse in Beijing, People s Republic of China, to form a joint venture to develop luxury non-gaming hotels and resorts globally, initially targeting locations in the People s Republic of China. We are in advanced negotiations on the definite agreement.

Operations

We operate primarily in one segment, the operation of casino resorts, which includes offering gaming, hotel, dining, entertainment, retail and other resort amenities. Over half of our net revenue is now derived from non-gaming activities, a higher percentage than many of our competitors, as our operating philosophy is to provide a complete resort experience for our guests, including non-gaming amenities which command a premium price based on their quality. We believe that we own several of the premier casino resorts in the world, and a main focus of our strategy is to continually reinvest in these resorts to maintain our competitive advantage.

As a resort-based company, our operating results are highly dependent on the volume of customers at our resorts, which in turn impacts the price we can charge for our hotel rooms and other amenities. We also generate a significant portion of our operating income from the high-end gaming segment, which can cause variability in our results.

Most of our revenue is essentially cash-based, through customers wagering with cash or paying for non-gaming services with cash or credit cards. Our resorts, like many in the industry, generate significant operating cash flow. Our industry is capital intensive and we rely heavily on the ability of our resorts to generate operating cash flow to repay debt financing, fund maintenance capital expenditures and provide excess cash for future development.

Our results of operations do not tend to be seasonal in nature, though a variety of factors can affect the results of any interim period, including the timing of major Las Vegas conventions, the amount and timing of marketing and special events for our high-end customers, and the level of play during major holidays, including New Year and Chinese New Year. Our significant convention and meeting facilities allow us to maximize hotel occupancy and customer volumes during off-peak times such as mid-week or during traditionally slower leisure travel periods, which also leads to better labor utilization.

All of our casino resorts operate 24 hours a day, every day of the year, with the exception of Grand Victoria which operates 22 hours a day, every day of the year. At our wholly-owned resorts, our primary casino and hotel operations are owned and managed by us. Other resort amenities may be owned and operated by us, owned by us but managed by third parties for a fee, or leased to third parties. We generally have an operating philosophy that prefers ownership of amenities, since guests have direct contact with staff in these areas and we prefer to control all aspects of the guest experience. However, we do lease space to retail and food and beverage operators in certain situations, particularly for branding opportunities. We also operate many managed outlets, utilizing third party management for specific expertise in areas such as restaurants and nightclubs, as well as for branding opportunities. Since we believe that the number of walk-in customers also affects the success of our casino resorts, we design our facilities to maximize their

attraction to guests of other hotels.

Table of Contents

We utilize technology to maximize revenue and efficiency in our operations. We are in the process of implementing our Players Club program to the major Mandalay resorts. When the process is complete, Players Club will link our major resorts, and consolidate all slots and table games activity for customers with a Players Club account. Under the combined program, customers will qualify for benefits across all of these resorts, regardless of where they play. We believe that our Players Club enables us to more effectively market to our customers. A significant portion of the slot machines at our resorts operate with International Game Technology's EZ-Pay cashless gaming system, including the Mandalay resorts where we recently converted many of the slot machines to EZ-Pay. We believe that this system enhances the customer experience and increases the revenue potential of our slot machines.

Technology is a critical part of our strategy in non-gaming and administrative operations as well. Our hotel systems include yield management modules which allow us to maximize occupancy and room rates. Additionally, these systems capture charges made by our customers during their stay, including allowing customers of our resorts to charge meals and services at other MGM MIRAGE resorts to their hotel accounts. We are implementing a new hotel management system at most of our major resorts, started in 2006 and continuing in 2007 and 2008, which we expect will enhance our guest service and improve our yield management across our portfolio of resorts.

Marketing and Competition

General

Our casino resorts generally operate in highly competitive environments. We compete against other gaming companies as well as other hospitality and leisure and business travel companies. Our primary methods of competing successfully include:

- Locating our resorts in desirable leisure and business travel markets, and operating at superior sites within those markets.

- Constructing and maintaining high-quality resorts and facilities, including luxurious guestrooms along with premier dining, entertainment and retail amenities;

- Recruiting, training and retaining well-qualified and motivated employees who provide superior and friendly customer service;

- Providing unique, must-see entertainment attractions; and

- Developing distinctive and memorable marketing and promotional programs.

Customers and Competition

Our Las Vegas casino resorts compete for customers with a large number of other hotel-casinos in the Las Vegas area, including major hotel-casinos on or near the Las Vegas Strip, major hotel-casinos in the downtown area, which is about five miles from the center of the Strip, and several major facilities elsewhere in the Las Vegas area. Our Las Vegas Strip resorts also compete, in part, with each other. According to the Las Vegas Convention and Visitors Authority, there were approximately 132,600 guestrooms in Las Vegas at December 31, 2006, down slightly from approximately 133,200 rooms at December 31, 2005. Las Vegas visitor volume was 38.9 million in 2006, up slightly from the 38.6 million reported for 2005.

The principal segments of the Las Vegas gaming market are leisure travel; premium gaming customers; conventions, including small meetings and corporate incentive programs; and tour and travel. Our high-end properties, which include Bellagio, MGM Grand Las Vegas, Mandalay Bay, and The Mirage, appeal to the upper end of each market segment, balancing their business by using the convention and tour and travel segments to fill the mid-week and off-peak periods. Our marketing strategy for TI, New York-New York, Luxor and Monte Carlo is aimed at attracting middle- to upper-middle-income wagerers, largely from the leisure travel and, to a lesser extent, the tour and travel segments. Excalibur and Circus Circus Las Vegas generally cater to the value-oriented and middle-income leisure travel and tour and travel segments.

Table of Contents

Outside Las Vegas, our other wholly-owned Nevada operations compete with each other and with many other similar sized and larger operations. A significant portion of our customers at these resorts come from California. We believe the expansion of Native American gaming has had a negative impact on all of our Nevada resorts not located on the Las Vegas Strip, and additional expansion in California could have a further adverse effect on these resorts. Our Nevada resorts not located in Las Vegas appeal primarily to middle-income customers attracted by room, food and beverage and entertainment prices that are lower than those offered by major Las Vegas hotel-casinos. Our target customer for these resorts is the value-oriented leisure traveler and the value-oriented local customer.

Outside Nevada, our wholly-owned resorts mainly compete for customers in local gaming markets, where location is a critical success factor. In Tunica, Mississippi, one of our competitors is closer to Memphis, the area's principal market. In addition, we compete with gaming operations in surrounding jurisdictions and other leisure destinations in each region. For instance, in Detroit, Michigan we also compete with a casino in nearby Windsor, Canada. In Biloxi, Mississippi we also compete with regional riverboat and land-based casinos in Louisiana, Native American casinos in central Mississippi, the south Florida leisure market, and with casinos in the Bahamas.

Our unconsolidated affiliates mainly compete for customers against casino resorts in their respective markets, and in some cases against our wholly-owned operations. Much like our wholly-owned resorts, our unconsolidated affiliates compete through the quality of amenities, the value of the experience offered to guests, and the location of their resorts.

Our casino resorts also compete for customers with hotel-casino operations located in other areas of the United States and other parts of the world, and for leisure and business travelers with non-gaming tourist destinations such as Hawaii, Florida and cruise ships. Our gaming operations compete to a lesser extent with state-sponsored lotteries, off-track wagering, card parlors, and other forms of legalized gaming in the United States.

Marketing

We advertise on radio, television and billboards and in newspapers and magazines in selected cities throughout the United States and overseas, as well as on the Internet and by direct mail. We also advertise through our regional marketing offices located in major United States and foreign cities. A key element of marketing to premium gaming customers is personal contact by our marketing personnel. Direct marketing is also important in the convention segment. We maintain Internet websites which inform customers about our resorts and allow our customers to reserve hotel rooms, make restaurant reservations and purchase show tickets. We also operate call centers to allow customer contact by phone to make hotel and restaurant reservations and purchase show tickets.

We utilize our world-class golf courses in marketing programs at our Las Vegas Strip and other Nevada resorts. Our major Las Vegas resorts offer luxury suite packages that include golf privileges at Shadow Creek. In connection with our marketing activities, we also invite our premium gaming customers to play Shadow Creek on a complimentary basis. We use Primm Valley Golf Club for marketing purposes at our Las Vegas and Primm resorts, including offering room and golf packages at special rates. Marketing efforts at Beau Rivage will benefit from the newly opened Fallen Oak golf course just 20 minutes north of Beau Rivage.

Competitive Risks

The principal negative factors relating to our competitive position are:

Our limited geographic diversification — our major resorts are concentrated on the Las Vegas Strip and some of our largest competitors operate in more gaming markets than we do — though we feel it is important to selectively operate in markets with stable regulatory environments;

There are a number of gaming facilities located closer to where our customers live than our resorts;

Our guestroom, dining and entertainment prices are often higher than those of most of our competitors in each market, although we believe that the quality of our facilities and services is also higher;

Our hotel-casinos compete to some extent with each other for customers. Bellagio, MGM Grand Las Vegas, Mandalay Bay and The Mirage, in particular, compete for some of the same premium gaming customers; and

Additional new hotel-casinos and expansion projects at existing Las Vegas hotel-casinos are under construction or have been proposed. We are unable to determine to what extent increased competition will affect our future operating results.

Control Over Gaming Activities

General

In connection with the supervision of gaming activities at our casinos, we maintain stringent controls on the recording of all receipts and disbursements. These controls include:

Locked cash boxes on the casino floor;

Daily cash and coin counts performed by employees who are independent of casino operations;

Constant observation and supervision of the gaming area;

Observation and recording of gaming and other areas by closed-circuit television;

Constant computer monitoring of our slot machines; and

Timely analysis of deviations from expected performance.

Issuance of Markers

Marker play represents a significant portion of the table games volume at Bellagio, MGM Grand Las Vegas, Mandalay Bay and The Mirage. Our other facilities do not emphasize marker play to the same extent, although we offer markers to customers at certain of those casinos as well.

We maintain strict controls over the issuance of markers and aggressively pursue collection from those customers who fail to pay their marker balances timely. These collection efforts are similar to those used by most large corporations when dealing with overdue customer accounts, including the mailing of statements and delinquency notices, personal contacts, the use of outside collection agencies and civil litigation. A significant portion of our Company's accounts receivable, for amounts unpaid resulting from markers which are not collectible through banking channels, is owed by major casino customers from the Far East. The collectibility of unpaid markers is affected by a number of factors, including changes in currency exchange rates and economic conditions in the customers' home countries.

In Nevada, Mississippi, Michigan, and Illinois, amounts owed for markers which are not timely paid are enforceable under state laws. All other states are required to enforce a judgment for amounts owed for markers entered into in Nevada, Mississippi, Illinois or Michigan which are not timely paid, pursuant to the Full Faith and Credit Clause of the United States Constitution. Amounts owed for markers which are not timely paid are not legally enforceable in some foreign countries, but the United States assets of foreign customers may be reached to satisfy judgments entered in the United States.

Employees and Labor Relations

As of December 31, 2006, we had approximately 56,800 full-time and 13,200 part-time employees. At that date, we had collective bargaining contracts with unions covering approximately 30,000 of our employees. We consider our employee relations to be good. Our contract with the Culinary Union covering approximately 21,000 employees at most of our Las Vegas Strip properties expires in May 2007; the contract covering employees at MGM Grand does not expire in 2007. In addition, our contract with various unions covering approximately 1,700 employees at MGM Grand Detroit expires in October 2007.

Regulation and Licensing

The gaming industry is highly regulated, and we must maintain our licenses and pay gaming taxes to continue our operations. Each of our casinos is subject to extensive regulation under the laws, rules and regulations of the jurisdiction where it is located. These laws, rules and regulations generally concern the responsibility, financial stability and character of the owners, managers, and persons with financial interest in the gaming operations. Violations of laws in one jurisdiction could result in disciplinary action in other jurisdictions. A more detailed description of the regulations to which we are subject is contained in Exhibit 99 to this Annual Report on Form 10-K, which Exhibit is incorporated herein by reference.

Our businesses are subject to various federal, state and local laws and regulations in addition to gaming regulations. These laws and regulations include, but are not limited to, restrictions and conditions concerning

alcoholic beverages, environmental matters, employees, currency transactions, taxation, zoning and building codes, and marketing and advertising. Such laws and regulations could change or could be interpreted differently in the future, or new laws and regulations could be enacted. Material changes, new laws or regulations, or material differences in interpretations by courts or governmental authorities could adversely affect our operating results.

Forward-Looking Statements

(Cautionary Statements Under the Private Securities Litigation Reform Act of 1995)

This Form 10-K and our 2006 Annual Report to Stockholders contain some forward-looking statements. Forward-looking statements give our current expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They contain words such as anticipate, estimate, expect, project, intend, plan, believe, may, could, might, and other words or meaning in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, new projects, future performance, the outcome of contingencies such as legal proceedings, and future financial results. From time to time, we also provide oral or written forward-looking statements in our Forms 10-Q and 8-K, as well as press releases and other materials we release to the public. Any or all of our forward-looking statements in this Form 10-K, in our 2006 Annual Report to Stockholders and in any other public statements we make may turn out to be wrong. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties. Many factors mentioned in this Form 10-K for example, government regulation and the competitive environment will be important in determining our future results. Consequently, no forward-looking statement can be guaranteed. Our actual future results may differ materially.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our Forms 10-K, 10-Q and 8-K reports to the Securities and Exchange Commission (SEC). Also note that we provide the following discussion of risks, uncertainties and possible inaccurate assumptions relevant to our business. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

You should also be aware that while we from time to time communicate with securities analysts, we do not disclose to them any material non-public information, internal forecasts or other confidential business information. Therefore, you should not assume that we agree with any statement or report issued by any analyst, irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain projections, forecasts or opinions, those reports are not our responsibility.

Factors that May Affect Our Future Results

You should be aware that the occurrence of any of the events described in this section and elsewhere in this report or in any other of our filings with the SEC could have a material adverse effect on our business, financial position, results of operations and cash flows. In evaluating us, you should consider carefully, among other things, the risks described below.

We have significant indebtedness. At December 31, 2006, we had approximately \$13 billion of indebtedness. The interest rate on a large portion of our long-term debt will be subject to fluctuation based on changes in short-term interest rates and the level of debt-to-EBITDA (as defined) under the provisions of our senior credit facility. Our current senior credit facility and the indentures governing our debt securities do not prohibit us from borrowing additional funds in the future. Our interest expense could increase as a result of these factors. Additionally, our indebtedness could increase our vulnerability to general adverse economic and industry conditions, limit our flexibility in planning for or reacting to changes in our business and industry, limit our ability to borrow additional funds, and place us at a competitive disadvantage compared to other less leveraged competitors. Our ability to reduce our outstanding debt will be subject to our future cash flows, other capital requirements and other factors, some of which are not within our control.

Our casinos in Las Vegas and elsewhere are destination resorts that compete with other destination travel locations throughout the United States and the world. We do not believe that our competition is limited to a particular geographic area, and gaming operations in other states or countries could attract our customers. To the extent that new casinos enter our markets or hotel room capacity is expanded by others in major destination locations, competition will increase. Major competitors, including new entrants, have either recently expanded their hotel room capacity or are currently expanding their capacity or constructing new resorts in Las Vegas. Also, the recent growth of gaming in areas outside Las Vegas, including California, has increased the competition faced by our operations in Las Vegas and elsewhere. In particular, as large scale gaming operations in Native American tribal lands increase, competition will increase.

Table of Contents

The expansion of Native American gaming in California has already impacted our operations. According to the California Gambling Control Commission, more than 60 compacts with tribes had been approved by the federal government as of December 31, 2006, with more than 50 of the tribes legally operating casinos in California in accordance with these compacts. Additional expansion of gaming in California could have an adverse impact on our results of operations.

The ownership and operation of gaming facilities are subject to extensive federal, state and local laws, regulations and ordinances, which are administered by the relevant regulatory agencies in each jurisdiction. These laws, regulations and ordinances vary from jurisdiction to jurisdiction, but generally concern the responsibility, financial stability and character of the owners and managers of gaming operations as well as persons financially interested or involved in gaming operations. As such, our gaming regulators can require us to disassociate ourselves from suppliers or business partners found unsuitable by the regulators. In addition, unsuitable activity on our part or on the part of our domestic or foreign unconsolidated affiliates in any jurisdiction could have a negative impact on our ability to continue operating in other jurisdictions. For a summary of gaming regulations that affect our business, see Regulation and Licensing. The regulatory environment in any particular jurisdiction may change in the future and any such change could have a material adverse effect on our results of operations. In addition, we are subject to various gaming taxes, which are subject to possible increase at any time. For instance, the gaming tax rate in Michigan was increased in 2004. Also, in 2006, Illinois passed legislation requiring a revenue-based payment to a trust established for the benefit of the horse-racing industry in Illinois.

Our business is affected by economic and market conditions in the markets in which we operate and in the locations our customers reside. Bellagio, MGM Grand Las Vegas, Mandalay Bay and The Mirage are particularly affected by economic conditions in the Far East, and all of our Nevada resorts are affected by economic conditions in the United States, and California in particular. A recession or economic slowdown could cause a reduction in visitation to our resorts, which would adversely affect our operating results.

Certain of our casino properties are located in areas that may be subject to extreme weather conditions, including, but not limited to, hurricanes. Such extreme weather conditions may interrupt our operations, damage our properties, and reduce the number of customers who visit our facilities in such areas. Although we maintain both property and business interruption insurance coverage for certain extreme weather conditions, such coverage is subject to deductibles and limits on maximum benefits, including limitation on the coverage period for business interruption, and we cannot assure you that we will be able to fully insure such losses or fully collect, if at all, on claims resulting from such extreme weather conditions. Furthermore, such extreme weather conditions may interrupt or impede access to our affected properties and may cause visits to our affected properties to decrease for an indefinite period. For example, in August 2005, Hurricane Katrina caused significant damage to our Beau Rivage resort, which remained closed for a year. See Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Statement Impact of Hurricane Katrina.

We are a large consumer of electricity and other energy. Accordingly, increases in energy costs, such as those experienced recently may have a negative impact on our operating results. Additionally, higher energy and gasoline prices which affect our customers may result in reduced visitation to our resorts and a reduction in our revenues.

Many of our customers travel by air. As a result, the cost and availability of air service and the impact of any events which disrupt air travel, can affect our business. Additionally, there is one principal interstate highway between Las Vegas and Southern California, where a large number of our customers reside. Capacity constraints of that highway or any other traffic disruptions may affect the number of customers who visit our facilities.

Leisure and business travel, especially travel by air, are particularly susceptible to global geopolitical events, such as terrorist attacks or acts of war or hostility, which can create economic and political uncertainties that could adversely impact our business levels. Furthermore, although we have been able to purchase some insurance coverage for certain types of terrorist acts, insurance coverage against loss or business interruption resulting from war and some forms of terrorism continues to be unavailable.

Table of Contents

Our joint venture for the construction and operation of a hotel-casino in Macau S.A.R. involves significant risks. The facility, MGM Grand Macau, will be jointly owned and operated by the two shareholders. MGM Grand Macau's operations will be subject to unique risks, including risks related to: (a) Macau's regulatory framework; (b) our ability to adapt to the different regulatory and gaming environment in Macau while remaining in compliance with the requirements of the gaming regulatory authorities in the jurisdictions in which we currently operate, as well as other applicable federal, state, or local laws in the United States and Macau; (c) potential political or economic instability; and (d) the extreme weather conditions in the region.

Furthermore, any such operations in Macau or any future operations in which we may engage in any other foreign territories are subject to risk pertaining to international operations, including foreign currency risks, foreign government regulations that may make it difficult for us to operate in a profitable manner in such jurisdiction, inability to adequately enforce our rights in such jurisdiction, general geopolitical risks such as political and economic instability, hostilities with neighboring countries, and changes in diplomatic and trade relationships, and potentially adverse tax consequences.

Our plans for future construction can be affected by a number of factors, including time delays in obtaining necessary governmental permits and approvals and legal challenges. We may make changes in project scope, budgets and schedules for competitive, aesthetic or other reasons, and these changes may also result from circumstances beyond our control. These circumstances include weather interference, shortages of materials and labor, work stoppages, labor disputes, unforeseen engineering, environmental or geological problems, and unanticipated cost increases. Any of these circumstances could give rise to delays or cost overruns. Major expansion projects at our existing resorts can also result in disruption of our business during the construction period. Claims have been brought against us and our subsidiaries in various legal proceedings, and additional legal and tax claims arise from time to time. It is possible that our cash flows and results of operations could be affected by the resolution of these claims. We believe that the ultimate disposition of current matters will not have a material impact on our financial condition or results of operations. Please see the further discussion under Legal Proceedings.

Tracinda Corporation beneficially owned approximately 56% of our outstanding common stock as of December 31, 2006. As a result, Tracinda Corporation has the ability to elect our entire Board of Directors and determine the outcome of other matters submitted to our stockholders, such as the approval of significant transactions.

We contributed approximately seven acres of land adjacent to MGM Grand Las Vegas to the ventures that developed Towers 1 and 2, and are developing Tower 3, of The Signature at MGM Grand Las Vegas. The land for each tower was, and still is for Tower 3, collateralized for construction financing for the development. The financing for Tower 3 was for an amount up to \$186 million; at December 31, 2006, the outstanding balance on the Tower 3 financing was \$101 million.

Table of Contents

Silver Legacy occupies approximately five acres in Reno, Nevada, adjacent to Circus Circus Reno. The site is collateralized by a mortgage securing Silver Legacy's senior credit facility and 10.125% mortgage notes. As of December 31, 2006, \$160 million of principal of the 10.125% mortgage notes were outstanding.

Borgata occupies approximately 46 acres at Renaissance Pointe, including 19 acres we lease to Borgata. Borgata owns approximately 27 acres which are collateralized by a mortgage securing bank credit facilities in the amount of up to \$750 million. As of December 31, 2006, \$555 million was outstanding under the bank credit facility.

Other than as described above, none of our other assets serve as collateral.

Primm Valley Resorts are not served by a municipal water system. We have rights to water in various wells located on federal land in the vicinity of the Primm Valley Resorts and have received permits to pipe the water to the Primm Valley Resorts. These permits and rights are subject to the jurisdiction and ongoing regulatory authority of the U.S. Bureau of Land Management, the States of Nevada and California and local governmental units. We believe that adequate water for the Primm Valley Resorts is available; however, we cannot be certain that the future needs will be within the permitted allowance. Also, we can give no assurance that any future requests for additional water will be approved or that no further requirements will be imposed by governmental agencies on our use and delivery of water for the Primm Valley Resorts.

ITEM 3. LEGAL PROCEEDINGS

Boardwalk Shareholder Litigation

On September 28, 1999, a former stockholder of our subsidiary which owns and, until January 2006 operated, the Boardwalk Hotel and Casino filed a first amended complaint in a putative class action lawsuit in District Court for Clark County, Nevada against Mirage Resorts and certain former directors and principal stockholders of the Boardwalk subsidiary. The complaint alleged that Mirage Resorts induced the other defendants to breach their fiduciary duties to Boardwalk's minority stockholders by devising and implementing a scheme by which Mirage Resorts acquired Boardwalk at significantly less than the true value of its shares. The complaint sought an unspecified amount of compensatory damages from Mirage Resorts and punitive damages from the other defendants, whom we are required to defend and indemnify.

In June 2000, the court granted our motion to dismiss the complaint for failure to state a claim upon which relief may be granted. The plaintiff appealed the ruling to the Nevada Supreme Court. The parties filed briefs with the Nevada Supreme Court, and oral arguments were conducted in October 2001. In February 2003, the Nevada Supreme Court overturned the District Court's order granting our motion to dismiss the complaint and remanded the case to the District Court for further proceedings on the elements of the lawsuit involving wrongful conduct in approving the merger and/or in the valuation of the merged corporation's shares. The Nevada Supreme Court affirmed the District Court's dismissal of the plaintiff's claims for lost profits and mismanagement. The Nevada Supreme Court's ruling relates only to the District Court's ruling on our motion to dismiss and is not a determination of the merits of the plaintiff's case. The plaintiff filed an amended complaint, and in November 2003, the District Court certified the action as a class action.

In March 2005, the District Court for Clark County, Nevada granted summary judgment in our favor. In May 2005 plaintiffs filed an appeal of the dismissal to the Nevada Supreme Court. At a mediation conference mandated by court rule, the parties reached a settlement agreement on terms favorable to us, which was subject to final approval by the Nevada Supreme Court. On April 11, 2006 the Nevada Supreme Court on its own motion entered an order dismissing the appeal and cross-appeals as abandoned, and remanded the case to the District Court to conduct any further proceedings necessary to effectuate the parties' settlement agreement. On January 23, 2007, the Nevada District Court entered an order pursuant to stipulation of the parties that dismissed the case with prejudice.

Other

We and our subsidiaries are also defendants in various other lawsuits, most of which relate to routine matters incidental to our business. We do not believe that the outcome of this other pending litigation, considered in the aggregate, will have a material adverse effect on the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of our security holders during the fourth quarter of 2006.

Table of Contents**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES****Common Stock Information**

Effective May 2, 2005, our common stock is traded on the New York Stock Exchange under the symbol MGM. Formerly our stock trading symbol was MGG. The following table sets forth, for the calendar quarters indicated, the high and low sale prices of our common stock on the New York Stock Exchange Composite Tape. These prices, along with all share and per share information in this Form 10-K, have been adjusted for a 2-for-1 stock split effected in May 2005.

Third quarter	41.28	34.20	46.75	39.30
Fourth quarter	59.52	39.28	44.75	35.30

There were approximately 3,864 record holders of our common stock as of February 16, 2007.

We have not paid dividends on our common stock in the last two fiscal years. We intend to retain our earnings to fund the operation of our business, to service and repay our debt, to make strategic investments in high return growth projects at our proven resorts, to repurchase shares of common stock and to reserve our capital to raise our capacity to capture investment opportunities overseas and in emerging domestic markets. Furthermore, as a holding company with no independent operations, our ability to pay dividends will depend upon the receipt of dividends and other payments from our subsidiaries. Our senior credit facility contains financial covenants that could restrict our ability to pay dividends. Our Board of Directors periodically reviews our policy with respect to dividends, and any determination to pay dividends in the future will be at the sole discretion of the Board of Directors.

Equity Compensation Plan Information

The following table includes information about our stock option plans at December 31, 2006:

	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans
	(in thousands, except per share data)		
Equity compensation plans approved by security holders	30,532	\$ 25.37	4,717

Our share repurchases are only conducted under repurchase programs approved by our Board of Directors and publicly announced. There were no share repurchases during the period from October 1, 2006 through December 31, 2006, other than approximately 3,000 shares surrendered by certain recipients of restricted shares, who elected to use a portion of the shares on which restrictions lapsed in October 2006 to pay required withholding taxes. At December 31, 2006 there were 8 million shares available for purchase under the July 2004 repurchase program which allows for the repurchase of up to 20 million shares with no expiration.

The following events/transactions affect the year-to-year comparability of the selected financial data presented above:

Discontinued Operations

In June 2003, we ceased operations of PLAYMGMMIRAGE.com, our online gaming website (Online).

In January 2004, we sold the Golden Nugget Las Vegas and the Golden Nugget Laughlin including substantially all of the assets and liabilities of those resorts (the Golden Nugget Subsidiaries).

In July 2004, we sold the subsidiaries that owned and operated MGM Grand Australia.

In October 2006, we entered into agreements to sell the Primm Valley Resorts and the Colorado Belle and Edgewater resorts in Laughlin, Nevada (the Laughlin Properties).

The results of the above operations are classified as discontinued operations for all periods presented.

Acquisitions

The Mandalay acquisition closed on April 25, 2005.

Other

Beau Rivage was closed from August 2005 to August 2006 due to Hurricane Katrina.

Beginning January 1, 2006, we began to recognize stock-based compensation in accordance with Statement of Financial Accounting Standards, No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)). For the year ended December 31, 2006, incremental expense resulting from the adoption of SFAS 123(R) was \$70 million (pre-tax). During 2006, we began to recognize our share of profits from the sale of condominium units at The Signature at MGM Grand. For the year ended December 31, 2006, we recognized \$117 million (pre-tax) of such income. In the fourth quarter of 2006 we recognized \$86 million (pre-tax) of income for insurance recoveries related to Hurricane Katrina.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Executive Overview

Current Operations

At December 31, 2006, our operations consisted of 23 wholly-owned casino resorts and 50% investments in three other casino resorts, including:

Las Vegas, Nevada:	Bellagio, MGM Grand Las Vegas, Mandalay Bay, The Mirage, Luxor, TI, New York-New York, Excalibur, Monte Carlo, Circus Circus Las Vegas and Slots-A-Fun.
Other domestic:	The Primm Valley Resorts (Whiskey Pete's, Buffalo Bill's and Primm Valley Resort) in Primm, Nevada; Circus Circus Reno and Silver Legacy (50% owned) in Reno, Nevada; Colorado Belle and Edgewater in Laughlin, Nevada (the Laughlin Properties); Gold Strike and Nevada Landing in Jean, Nevada (the Jean Properties); Railroad Pass in Henderson, Nevada; MGM Grand Detroit; Beau Rivage in Biloxi, Mississippi and Gold Strike Tunica in Tunica, Mississippi; Borgata (50% owned) in Atlantic City, New Jersey; and Grand Victoria (50% owned) in Elgin, Illinois.

Other operations include the Shadow Creek golf course in North Las Vegas; two golf courses at Primm Valley; Fallen Oak golf course in Saucier, Mississippi; a 50% investment in The Signature at MGM Grand, a condominium-hotel development adjacent to MGM Grand Las Vegas; and a 50% investment in MGM Grand Paradise Limited, which is constructing a casino resort in Macau.

In October 2006, we agreed to sell the Primm Valley Resorts, not including the two golf courses, and the Laughlin Properties. In February 2007, we entered into an agreement to contribute the Jean Properties to a joint venture. See Other Factors Affecting Liquidity.

Mandalay Acquisition

On April 25, 2005, we closed our merger with Mandalay Resort Group (Mandalay) under which we acquired Mandalay for \$71 in cash for each share of common stock of Mandalay. The total acquisition cost of \$7.3 billion included equity value of approximately \$4.8 billion, the assumption or repayment of outstanding Mandalay debt with a fair value of approximately \$2.9 billion and \$0.1 billion of transaction costs, offset by the \$0.5 billion received by Mandalay from the sale of its interest in MotorCity Casino in Detroit, Michigan.

The Mandalay acquisition expanded our portfolio of resorts on the Las Vegas Strip, expanded our employee and customer bases significantly, and provided additional sites for future development. These factors resulted in the recognition of certain intangible assets and significant goodwill. We did not incur any significant employee termination costs or other exit costs in connection with the Mandalay acquisition.

Key Performance Indicators

We operate primarily in one segment, the operation of casino resorts, which includes offering gaming, hotel, dining, entertainment, retail and other resort amenities. Over half of our net revenue is now derived from non-gaming activities, a higher percentage than many of our competitors, as our operating philosophy is to provide a complete resort experience for our guests, including non-gaming amenities which command a premium price based on their quality. Our significant convention and meeting facilities allow us to maximize hotel occupancy and customer volumes during off-peak times such as mid-week or during traditionally slower leisure travel periods, which also leads to better labor utilization. We believe that we own several of the premier casino resorts in the world, and a main focus of our strategy is to continually reinvest in these resorts to maintain our competitive advantage.

As a resort-based company, our operating results are highly dependent on the volume of customers at our resorts, which in turn impacts the price we can charge for our hotel rooms and other amenities. We also generate a significant portion of our operating income from the high-end gaming customers, which can cause variability in our results. Key performance indicators related to revenue are:

Gaming revenue indicators table games drop and slots handle (volume indicators); win or hold percentage, which is not fully controllable by us. Our normal table games win percentage is in the range of 18% to 22% of table games drop and our normal slots win percentage is in the range of 6.5% to 7.5% of slots handle;

Hotel revenue indicators hotel occupancy (volume indicator); average daily rate (ADR , price indicator); revenue per available room (REVPAR), a summary measure of hotel results, combining ADR and occupancy rate.

Table of Contents

Most of our revenue is essentially cash-based, through customers wagering with cash or paying for non-gaming services with cash or credit cards. Our resorts, like many in the industry, generate significant operating cash flow. Our industry is capital intensive and we rely heavily on the ability of our resorts to generate operating cash flow to repay debt financing, fund maintenance capital expenditures and provide excess cash for future development.

We generate a majority of our net revenues and operating income from our resorts in Las Vegas, Nevada, which exposes us to certain risks outside of our control, such as competition from other recently opened or expanded Las Vegas resorts, and the impact from expansion of gaming in California. We are also exposed to risks related to tourism and the general economy, including national and global economic conditions and terrorist attacks or other global events.

Our results of operations do not tend to be seasonal in nature, though a variety of factors may affect the results of any interim period, including the timing of major Las Vegas conventions, the amount and timing of marketing and special events for our high-end customers, and the level of play during major holidays, including New Year and Chinese New Year. We market to different customer segments to manage our hotel occupancy, such as targeting large conventions to ensure mid-week occupancy. Our results do not depend on key individual customers, though our success in marketing to customer groups, such as convention customers, or the financial health of customer segments, such as business travelers or high-end gaming customers from a particular country or region, can impact our results.

Overall Outlook

We believe we will continue to benefit in 2007 from the strategic capital investments we have made in our resorts over the past several years. Our Las Vegas Strip resorts require ongoing capital investment to maintain their competitive advantages. We believe these investments in additional non-gaming amenities have enhanced our ability to generate increased visitor volume and allow us to charge premium prices for our amenities. We expect to continue to re-invest in our core assets on a targeted basis in 2007.

In 2006, we completed many capital improvements at a variety of resorts, including:

New restaurants such as Stripsteak at Mandalay Bay, Social House at TI and Japonais at The Mirage.

The Beatles-themed Cirque du Soleil show, *Love*, at The Mirage.

Various other amenities such as re-designed restaurants and lounges, new Starbucks outlets at several resorts, and slot machine upgrades at Mandalay resorts.

In addition to entertainment offerings and several restaurants, we have invested heavily in our room product in the past few years. In 2007, we expect to complete a suite remodel at Bellagio, and standard room remodels at Mandalay Bay, MGM Grand Las Vegas and Excalibur. These improvements, along with other amenities and improvements projected to open in 2007, are expected to lead to continued increases in REVPAR and increased customer volumes in gaming areas, restaurants, shops, entertainment venues and our other resort amenities.

We began recognizing our share of profits from condominium sales at The Signature at MGM Grand in 2006 and will continue to do so in 2007. Sales of all units in Tower 1 and 87% of units in Tower 2 were sold and closed by the end of 2006. In 2007, we expect to close on the remaining units in Tower 2 and most or all the Tower 3 units. In addition to the income we will recognize in 2007 related to Towers 2 and 3, we have begun to rent out units in Towers 1 and 2 for owners who have elected to participate in the rental program. Rental of these units will provide additional revenues and also provide additional customer volumes at MGM Grand Las Vegas.

In addition to the activity at our Las Vegas Strip resorts, we expect the permanent MGM Grand Detroit casino resort to open in late 2007. The permanent facility will feature a significantly larger casino and a 400-room hotel, as well as additional restaurants and other amenities. Also, Beau Rivage re-opened in August 2006 and we believe its operations, as well as additional income from insurance recoveries, will benefit results in 2007. MGM Grand Macau is on target to open in the fourth quarter of 2007 and we are anticipating significant earnings from this venture once opened.

Financial Statement Impact of Hurricane Katrina

Beau Rivage closed in late August 2005 due to significant damage sustained as a result of Hurricane Katrina and re-opened in August 2006. The Company maintained insurance covering both property damage and business interruption as a result of the storm. The deductible under this coverage was approximately \$15 million, based on the

amount of damage incurred. Business interruption coverage covered lost profits and other costs incurred during the period of closure and up to six months following the reopening of the facility.

Table of Contents

As of December 31, 2006, we had received interim insurance recoveries in excess of the net book value of damaged assets and post-storm costs incurred. The costs incurred to date were less than the anticipated business interruption proceeds. Therefore, all post-storm costs and expected recoveries have been recorded net within General and administrative expenses in the accompanying consolidated statements of income, except for depreciation of non-damaged assets, which is classified as Depreciation and amortization. Insurance recoveries received in excess of the amount of damaged assets and post-storm costs incurred of \$86 million have been recognized as income related to property damage and included in Property transactions, net within the accompanying consolidated statements of income.

Cash received for insurance recoveries are treated in the statement of cash flows as cash flows from investing activities if the recoveries relate to property damage, and cash flows from operations if the recoveries relate to business interruption. During 2006, we received \$309 million in insurance recoveries. We classified \$200 million as investing cash flows related to property damage and \$109 million as operating cash flows.

References to same-store throughout Management's Discussion and Analysis exclude the Mandalay resorts, Monte Carlo and Beau Rivage, including income from insurance recoveries, for all periods. We owned 50% of Monte Carlo prior to the Mandalay acquisition and acquired the other 50% in the Mandalay acquisition.

On a consolidated basis, the most important factors and trends contributing to our performance over the last three years have been:

The addition of Mandalay's resorts on April 25, 2005. For the year ended December 31, 2006, net revenue for these operations was \$2.7 billion and operating income was \$657 million. For the eight months we owned the Mandalay resorts in 2005, net revenue for these operations was \$1.8 billion and operating income was \$426 million.

Our ongoing capital investments in our resorts, which we believe is allowing us to market more effectively to visitors, capture a greater share of our visitors' increased travel budgets, and generate premium pricing for our resorts' rooms and other amenities.

The overall positive economic environment in the United States since 2004, particularly in the leisure and business travel segments, resulting in increases in room pricing and increased visitation, particularly at our Las Vegas Strip resorts.

The labor contract covering employees at our Las Vegas Strip resorts since mid-2002, which provides for significant annual wage and benefits increases through mid-2007.

The adoption of Statement of Financial Accounting Standards No. 123(R), Share-Based Payment (SFAS 123(R)). We recorded \$70 million of additional stock compensation expense in 2006 as a result of adopting SFAS 123(R). Prior to January 1, 2006, we did not recognize expense for employee stock options.

The closure of Beau Rivage in August 2005 after Hurricane Katrina and subsequent reopening in August 2006. As a result, operating income at Beau Rivage was \$104 million, \$40 million, and \$60 million in 2006, 2005 and 2004, respectively. 2006 operating income includes income from insurance recoveries of \$86 million.

Recognition of our share of profits from the closings of condominium units of Tower 1 and Tower 2 of The Signature at MGM Grand. The venture records revenue and cost of sales as units close. Tower 1 was completed in May 2006 and 100% of unit sales had been recognized through December 31, 2006. Tower 2 was completed in November 2006 and 87% of the unit sales for Tower 2 had been recognized through December 31, 2006. For the year, we recognized income of approximately \$102 million related to our share of the venture's profits and \$15 million of deferred profit on land contributed to the venture. These amounts are classified in Income from unconsolidated affiliates in the accompanying consolidated statements of income.

Table of Contents

As a result of the above factors, our net revenues increased 17% in 2006, and 53% in 2005. Operating margins were 25% in 2006 compared to 22% in 2005, and 23% in 2004. See further discussion of operating income and operating margins in Operating Results below. The increase in income from continuing operations generally resulted from the increased operating income, offset in part by increased interest expense, discussed below in Non-operating Results.

Operating income	\$ 1,758,248	32%	\$ 1,330,065	43%	\$ 932,613

The 2006 and 2005 increase in net revenues resulted primarily from the addition of Mandalay. Net revenues for 2006 includes a full year of operations for Mandalay resorts and 2005 includes approximately 8 months of operations for Mandalay resorts. On a same-store basis, net revenues increased 5% in 2006 on top of a 12% increase in 2005. Additionally, net revenues increased significantly at many of our resorts in both 2006 and 2005 as a result of stronger year-over-year room pricing and increased volumes in gaming and across all non-gaming areas. These trends were particularly prominent at Bellagio, The Mirage and MGM Grand Las Vegas as a result of new and expanded amenities at those resorts.

Operating income for 2006 increased 32% over 2005; same store operating income increased 15%, partially due to the increases in revenues discussed above with continued strong operating margins. In addition, we recognized income of \$102 million from our share of profits from The Signature at MGM Grand along with a \$15 million gain on land contributed to the venture. Partially offsetting these items was the \$70 million of incremental stock-based compensation expense. Excluding these items, same store operating income increased 10%, with an operating margin of 22% in 2006 compared to 21% in 2005.

In 2005, operating income did not increase to the same extent as net revenues, largely due to already strong operating margins, a lower-than-normal bad debt provision in 2004, higher corporate expense and higher preopening, restructuring and property transactions, net. This resulted in an operating margin of 21% versus 24% in 2004. Corporate expense increased as a percentage of revenue due primarily to merger integration costs.

Operating margins in 2007 will be positively impacted by additional profits on the sale of the remaining condominium units at The Signature at MGM Grand and any income recognized for additional insurance recoveries related to Hurricane Katrina. Excluding these items from both 2007 and 2006, we expect margins will remain relatively consistent between periods.

Table of Contents

On a same-store basis, table games revenue, including baccarat, increased 7% over 2005 with strong baccarat volume up 4% and a somewhat higher hold percentage. In 2005, table games revenue, including baccarat, was flat on a same-store basis. A 4% increase in table games volume was offset by a slightly lower hold percentage. Hold percentages were within our normal range for all three years presented.

On a same-store basis, slots revenue increased 3% in 2006 as a result of significant increases at MGM Grand Las Vegas and TI. In addition, Mandalay Bay, Luxor and Excalibur benefited from upgraded slot machines and the roll-out of our Players Club loyalty program. In 2005, slots revenue increased 11% on a same-store basis. Additional volume in 2005 was generated by the Spa Tower at Bellagio. Bellagio's slots revenue increased over 30% and the traffic generated by *KÀ* and other amenities at MGM Grand Las Vegas, where slots revenue increased almost 10%.

Hotel revenue increased 22% in 2006 with a 3% increase in company-wide REVPAR. On a same-store basis, hotel revenue increased 4% in 2006 over 2005 due to strong room pricing. A 7% increase in same-store REVPAR was the result of ADR increasing from \$164 in 2005 to \$174 in 2006 and occupancy of 97% versus 96% in the prior year. In 2005, hotel revenue increased 20% on a same-store basis. We had more rooms available as a result of the Bellagio expansion and 2004 room remodel activity at MGM Grand Las Vegas, and our company-wide same-store REVPAR increased 12% to \$157. The increase in REVPAR in 2005 was mainly rate-driven, as same-store occupancy was consistent at 96%.

Other non-gaming revenue increased 17% over prior year. Same-store entertainment revenues increased 9% due to revenues generated from *Love*, the Beatles-themed Cirque du Soleil show at The Mirage. In 2005, other non-gaming revenue increased significantly, with *KÀ* leading to a 35% increase in same-store entertainment revenue and several new restaurants and bars at MGM Grand Las Vegas, Bellagio, TI and The Mirage leading to a 15% increase in same-store food and beverage revenue. We expect these increases to continue in 2007, as we continue to invest in new amenities at our resorts, particularly at Mandalay Bay, where among other new amenities we will complete a major pool area renovation in mid-2007.

Operating Results Details of Certain Charges

Stock compensation expense is recorded within the department of the recipient of the stock compensation award. In periods prior to January 1, 2006, such expense consisted only of restricted stock amortization and expense associated with stock options granted to non-employees. Beginning January 1, 2006, stock compensation expense includes the cost of all stock-based awards to employees under SFAS 123(R).

The following table shows the amount of incremental compensation related to employee stock-based awards included within each income statement expense caption:

Preopening and start-up expenses for CityCenter will continue to increase each year as the project nears its expected completion in late 2009. MGM Grand Macau preopening and start-up expenses relate to our share of that venture's preopening costs and will increase significantly in 2007 as the project is expected to open in late 2007. MGM Grand Detroit preopening and start-up expenses will also increase significantly in 2007 as the resort is expected to open in the fourth quarter of 2007. Preopening and start-up costs for The Signature at MGM Grand relate to our costs associated with preparing the towers for rental operations.

Restructuring costs (credit) consisted of the following:

	Year Ended December 31,

	(In thousands)		
Contract termination costs	\$	\$	\$ 3,693
Other	1,035	(59)	1,932
	\$ 1,035	\$ (59)	\$ 5,625

There were no material restructuring activities in 2006 and 2005. At December 31, 2006, there were no material restructuring accruals—all material restructuring costs have been fully paid or otherwise resolved. In 2004, restructuring costs include \$3 million for contract termination costs related to the Aqua restaurant at Bellagio and \$2 million of workforce reduction costs at MGM Grand Detroit as a result of our efforts to minimize the impact of a gaming tax increase in Michigan.

Property transactions, net consisted of the following:

Other net losses on asset sales or disposals	3,823	3,037	704
	\$ (40,980)	\$ 37,021	\$ 8,234

Impairments in 2006 included \$22 million related to the write-off of the tram connecting Bellagio and Monte Carlo, including the stations at both resorts, in preparation for construction of CityCenter. Other impairments related to assets being replaced in connection with several smaller capital projects, primarily at MGM Grand Las Vegas, Mandalay Bay and The Mirage, as well as the \$4 million write-off of Luxor's investment in the *Hairspray* show. Insurance recoveries in 2006 relate to the interim insurance recoveries received related to property damage from Hurricane Katrina in excess of the book value of the damaged assets and post-storm costs incurred as of December 31, 2006—see Financial Statement Impact of Hurricane Katrina.

In 2005, impairments related primarily to assets removed from service in connection with capital projects at several resorts, including Bellagio, TI, The Mirage and Mandalay Bay. The amounts recorded were based on the net book value of the disposed assets. Demolition costs related primarily to room remodel activity at MGM Grand Las Vegas and the new showroom at The Mirage.

Demolition costs in 2004 related primarily to preparation for the Bellagio standard room remodel, Bellagio expansion and KÀ theatre at MGM Grand Las Vegas.

End-of-year ratio of fixed-to-floating debt	66/34	61/39	99/1
Weighted average interest rate	7.1%	6.8%	7.3%

Table of Contents

Interest costs increased in 2006 over 2005 due to higher average outstanding debt due to a full year of debt outstanding related to the Mandalay acquisition, incremental borrowings in 2006 to fund capital investments, and a slightly higher average interest rate. Capitalized interest increased in 2006 as we continued to capitalize interest on the CityCenter construction and our investment in MGM Grand Macau. The increase in our weighted average interest rate was due to slightly higher market rates, which affects our variable rate debt.

Interest cost was higher in 2005 due to the funding of the cash consideration in the Mandalay acquisition through senior credit facility borrowings, and the assumption of debt in the Mandalay acquisition. While variable market interest rates continued to increase in 2005, our effective interest rate decreased due to a more normalized ratio of variable rate debt in 2005; our variable interest rate under our senior credit facility has been lower than the interest rates on our fixed-rate borrowings. Capitalized interest increased in 2005 as we began capitalizing interest on CityCenter and our investment in MGM Grand Macau.

The following table summarizes information related to our income taxes:

	Year Ended December 31,		
	2006	2005	2004
	(In thousands)		
Income from continuing operations before income tax	\$977,926	\$667,085	\$548,810
Income tax provision	341,930	231,719	203,601
Effective income tax rate	35.0%	34.7%	37.1%
Cash paid for income taxes	\$369,450	\$ 75,776	\$128,393

The effective income tax rate in 2006 was slightly higher than 2005. Tax reserves that were no longer required, primarily due to guidance issued by the Internal Revenue Service related to the deductibility of certain complimentary, were reversed during 2006, but such reversal was less than the one-time tax benefit recognized in 2005 due to the repatriation of foreign earnings from Australia see below.

The effective income tax rate in 2005 was lower than in 2004 due primarily to a tax benefit realized from the repatriation of foreign earnings from Australia as a result of the provisions of the American Jobs Creation Act of 2004 that provided for a special one-time deduction of 85 percent on certain repatriated earnings of foreign subsidiaries. Additionally, in 2004 the Company accrued additional state deferred taxes related to capital investments in New Jersey and incurred non-deductible costs related to a Michigan ballot initiative; neither of these items recurred in 2005.

Cash paid for income taxes increased significantly in 2006 due primarily to the payment of taxes on the gain on Mandalay's sale of MotorCity Casino, taxable income associated with the sales of units at the Signature at MGM Grand, and an increase in pre-tax income resulting from the Mandalay merger and continued improvements in operating results.

In 2005, taxes paid were lower than 2004 in part due to increased tax benefits from stock option exercises and one-time benefit plan deductions, partially offset by decreased accelerated tax depreciation deductions and increased pre-tax income. In addition, a federal tax overpayment from 2004 was applied to 2005, reducing the 2005 tax payments.

Cash Flows Operating Activities

Trends in our operating cash flows tend to follow trends in our operating income, excluding non-cash charges, since our business is primarily cash-based. Cash flow from operations has increased in each of the last two years as a result of higher operating income offset by higher interest and tax payments tax payments in particular increased to \$369 million in 2006 versus \$76 million in 2005. In addition, \$109 million of insurance recoveries has been reflected as operating cash inflows in 2006 and \$90 million of spending on CityCenter residential projects has been reflected as operating cash outflows in 2006. In 2006, the \$48 million excess tax benefit from stock-based compensation is included as cash flows from financing activities; in prior years, this amount was included in operating cash flows.

At December 31, 2006 and 2005, we held cash and cash equivalents of \$453 million and \$378 million, respectively. We require a certain amount of cash on hand to operate our resorts. The amount required on hand increased in 2006 due to the reopening of Beau Rivage and the implementation of ticket and ATM kiosks on our gaming floors, which increase efficiency for customer transactions but require more cash on hand. Beyond our cash on hand, we utilize a company-wide cash management system to minimize the amount of cash held in banks. Funds are swept from accounts at our resorts daily into central bank accounts, and excess funds are invested overnight or are

used to repay borrowings under our bank credit facilities.

Cash Flows Investing Activities

In 2006, we spent \$1.4 billion, excluding capitalized interest on development projects, including the non-residential components of CityCenter, the permanent MGM Grand Detroit resort and the rebuilding of Beau Rivage. Remaining capital expenditures of \$500 million consisted of capital expenditures at existing resorts, including spending on the new theatre and new restaurants at The Mirage, and capitalized interest. Investments in unconsolidated affiliates of \$86 million in the 2006 period represent partial funding of a required loan, in an amount up to \$100 million (including accrued interest), to MGM Grand Macau. We are accounting for the loan as additional capital investment due to the subordinated nature of our repayment rights under the loan. Also, construction payables increased due to an increase in construction activity at CityCenter, which is included in Other in the above table. Offsetting these expenditures was \$200 million in insurance proceeds related to Hurricane Katrina.

In 2005, capital expenditures were \$760 million, and included room enhancements and other projects at MGM Grand Las Vegas, expenditures for The Mirage theatre, and preliminary expenditures for CityCenter and the permanent casino in Detroit. Also in the 2005 period, we completed the acquisition of Mandalay, with net cash paid of \$4.4 billion, and invested \$183 million in MGM Grand Macau.

Table of Contents

Capital expenditures in 2004 consisted of capital projects, such as the Bellagio expansion and the *KÀ* theatre at MGM Grand Las Vegas, and maintenance capital activities, such as room remodel projects at New York New York and MGM Grand Las Vegas and new restaurant and entertainment amenities at several resorts. The sale of the Golden Nugget Subsidiaries closed in January 2004 with net proceeds to the Company of \$210 million. The sale of MGM Grand Australia closed in July 2004 with net proceeds to the Company of \$136 million.

Cash Flows Financing Activities

We borrowed net debt of \$662 million in 2006. The increase in net debt was due primarily to the level of capital expenditures, investments in unconsolidated affiliates and share repurchases. At December 31, 2006 our senior credit facility had a balance of \$4.4 billion, with available liquidity of \$2.6 billion. We had the following issuances of senior notes in 2006:

In April 2006, we issued \$500 million of 6.75% senior notes due 2013 and \$250 million of 6.875% senior notes due 2016.

In December 2006, we issued \$750 million of 7.625% senior notes due 2017.

In 2006, we repaid at their scheduled maturity our \$200 million 6.45% senior notes and our \$245 million 7.25% senior notes.

Our primary financing activities in 2005 related to the Mandalay acquisition. The cash purchase price of Mandalay was funded from borrowings under our senior credit facility. We also issued \$875 million of fixed rate debt in various issuances:

In June 2005, we issued \$500 million of 6.625% senior notes due 2015;

In September 2005, we issued \$375 million of 6.625% senior notes due 2015.

In the first quarter of 2005, we repaid at their scheduled maturity two issues of senior notes at their maturity \$176.4 million of 6.625% senior notes and \$300 million of 6.95% senior notes and redeemed one issue of senior notes due in 2008 \$200 million of 6.875% senior notes. The redemption of the 2008 senior notes resulted in a loss on early retirement of debt of \$20 million, which is classified as Other, net in the accompanying consolidated statements of income. In addition, in the second quarter of 2005 we initiated a tender offer for several issuances of Mandalay's senior notes and senior subordinated notes totaling \$1.5 billion. Holders of \$155 million of Mandalay's senior notes and senior subordinated notes redeemed their holdings. Holders of Mandalay's floating rate convertible senior debentures with a principal amount of \$394 million had the right to redeem the debentures for \$566 million through June 30, 2005. \$388 million of principal of the convertible debentures were tendered for redemption and redeemed for \$558 million.

In 2004, we issued \$1.5 billion of fixed rate debt in various issuances:

In February and March 2004, we issued \$525 million of 5.875% senior notes due 2014;

In August 2004, we issued \$550 million of 6.75% senior notes due 2012;

In September 2004, we issued \$450 million of 6% senior notes due 2009 at a premium to yield 5.65%.

In 2004, we repaid a net \$1.6 billion on our bank credit facilities with the proceeds from the above offerings.

Our share repurchases are only conducted under repurchase programs approved by our Board of Directors and publicly announced. At December 31, 2006, we had 8 million shares available for repurchase under the July 2004 authorization. Our share repurchase activity was as follows:

	Year Ended December 31,		
	2006	2005	2004
	(In thousands)		
November 2003 authorization (16 million shares purchased)	\$	\$	\$ 348,895

Average price of shares repurchased	\$ 37.98	\$ 39.51	\$ 21.80
-------------------------------------	----------	----------	----------

We received \$89 million, \$146 million and \$136 million in proceeds from the exercise of employee stock options in the years ended December 31, 2006, 2005 and 2004, respectively.

Table of Contents*Principal Debt Arrangements*

Our long-term debt consists of publicly held senior and subordinated notes and our senior credit facility. We pay fixed rates of interest ranging from 5.875% to 10.25% on the senior and subordinated notes. We pay variable interest based on LIBOR on our senior credit facility. Our current senior credit facility is a \$7.0 billion, five-year credit facility with a syndicate of banks led by Bank of America, N.A., and consists of a \$4.5 billion revolving credit facility and a \$2.5 billion term loan facility. As of December 31, 2006, we had approximately \$2.6 billion of available liquidity under our senior credit facility.

All of our principal debt arrangements are guaranteed by each of our material subsidiaries, excluding MGM Grand Detroit, LLC and our foreign subsidiaries. MGM Grand Detroit is a guarantor under the senior credit facility, but only to the extent that MGM Grand Detroit, LLC borrows under such facilities. None of our assets serve as collateral for our principal debt arrangements.

Other Factors Affecting Liquidity

Long-term Debt Payable in 2007. We have a total of \$1.4 billion in senior notes and senior subordinated notes that we expect to repay at maturity in the second and third quarters of 2007.

Distributions from The Signature at MGM Grand. Tower 1 of The Signature at MGM Grand was completed in the second quarter of 2006. We received distributions totaling \$51 million related to Tower 1. Distributions for Tower 2 began in 2006 and as of December 31, 2006, we had received \$43 million of such distributions. We expect to receive additional distributions on Tower 2, as well as Tower 3, in 2007. Tower 3 is expected to be completed in April 2007 and closings will begin shortly thereafter.

Sale of Primm Valley Resorts and Laughlin Properties. In October 2006, we entered into an agreement to sell Colorado Belle and Edgewater for \$200 million and an agreement to sell the Primm Valley Resorts for \$400 million. We will use the net proceeds from the sales to repay borrowings under our senior credit facility. Both agreements are subject to regulatory approval and other customary closing conditions, and we expect both sales to be completed by the second quarter of 2007, at which time we expect to record substantial gains on both sales.

CityCenter. In November 2004 we announced a plan to develop a multi-billion dollar urban metropolis, CityCenter, on the Las Vegas Strip between Bellagio and Monte Carlo. CityCenter will feature a 4,000-room casino resort designed by world-famous architect Cesar Pelli; two 400-room boutique hotels, one of which will be managed by luxury hotelier Mandarin Oriental; approximately 470,000 square feet of retail shops, dining and entertainment venues; and approximately 2.3 million square feet of residential space in approximately 2,700 luxury condominium and condominium-hotel units in multiple towers.

We believe CityCenter will cost approximately \$7 billion, excluding land costs. After estimated proceeds of \$2.5 billion from the sale of residential units, we believe the net project cost will be approximately \$4.5 billion. CityCenter is located on a 67-acre site with a carrying value of approximately \$1 billion. We expect the project to open in late 2009.

Detroit Permanent Casino. The permanent casino at MGM Grand Detroit is expected to open in late 2007 at a cost of approximately \$750 million, excluding license and land costs, and will feature a 400-room hotel, 100,000-square foot casino, numerous restaurant and entertainment amenities, and spa and convention facilities. The permanent casino is located on a 25-acre site with a carrying value of approximately \$50 million. In addition, we recorded license rights with a carrying value of \$100 million as a result of MGM Grand Detroit's obligations to the City of Detroit in connection with the permanent casino development agreement.

Macau. We own 50% of MGM Grand Paradise Limited, an entity which is developing, and will operate, MGM Grand Macau, a hotel-casino resort in Macau S.A.R. Pansy Ho Chiu-king owns the other 50% of MGM Grand Paradise Limited. MGM Grand Macau will be located on a prime site and will feature at least 345 table games and 1,035 slots with room for significant expansion. Other features will include approximately 600 rooms, suites and villas, a luxurious spa, convention space, a variety of dining destinations, and other attractions. MGM Grand Macau is estimated to cost approximately \$850 million, excluding license and land rights costs. The subconcession agreement, which allows MGM Grand Paradise Limited to operate a casino in Macau, cost \$200 million and the land rights agreement with the government of Macau is estimated to cost \$60 million. Construction of MGM Grand Macau began in the second quarter of 2005 and the resort is anticipated to open in late 2007. We have invested \$266 million in the

venture and are committed to loaning the venture up to an additional \$9 million. The venture has obtained a \$700 million bank credit facility which, along with equity contributions and shareholder loans, is expected to be sufficient to fund the construction of MGM Grand Macau.

Table of Contents

MGM Grand Paradise Limited recently announced that it has been engaged in discussions with the Government of Macau S.A.R concerning the development of its second major resort project in Macau to be located in Cotai. The site, scope and financing related to this project are still being evaluated.

Beau Rivage Rebuilding. Beau Rivage reopened in August 2006. The resort's guest rooms, casino floor and most public areas opened in August, and three restaurants and the showroom opened in December. In addition, Fallen Oak, a Tom Fazio-designed golf course, opened in November 2006.

We believe that a large portion of the costs to rebuild Beau Rivage will be covered under our insurance policies. However, we cannot determine the exact amount of reimbursement until we submit our claims and receive notice of approval from our insurers. It is also uncertain as to the timing of such reimbursements, and we have been funding the rebuilding costs in advance of receiving reimbursements from our insurers.

New York Racing Association. We have entered into a definitive agreement with the New York Racing Association (NYRA) to manage video lottery terminals (VLTs) at NYRA's Aqueduct horseracing facility in metropolitan New York. Subject to receipt of requisite New York State approvals, we will assist in the development of the facility, including providing project financing up to \$190 million, and will manage the facility for a term of five years (extended automatically if the financing provided by us is not fully repaid) for a fee. We believe, based on recent legislative changes, that our agreement with respect to installation of VLTs at Aqueduct would extend past the expiration of NYRA's current racing franchise and would be binding on any successor to NYRA in the event NYRA is not granted a new racing franchise. NYRA's recent filing for reorganization under Chapter 11 has introduced additional uncertainties, but we remain committed to the development once these uncertainties are resolved.

Mashantucket Pequot Tribal Nation. We have agreed to enter a strategic alliance, subject to definitive agreements, with the Mashantucket Pequot Tribal Nation (MPTN). The strategic alliance has several elements, one of which calls for the creation of a 50/50 joint venture to seek future development opportunities. We have agreed to provide a development subsidiary of MPTN with a loan of up to \$200 million intended to fund a portion of that subsidiary's matching investment in any future joint development projects.

Jean Properties. We have entered into an operating agreement to form a 50/50 joint venture with Jeanco Realty Development, LLC. The venture will master plan and develop a mixed-use community in Jean, Nevada. We will donate the Jean Properties and surrounding land to the joint venture. The value of this contribution per the operating agreement will be \$150 million. We expect to receive a distribution of \$55 million upon transfer of the Jean Properties and surrounding land to the venture, which is subject to the venture obtaining necessary regulatory and other approvals, and \$20 million no later than August 2008. Nevada Landing is expected to close in April 2007.

Off Balance Sheet Arrangements

Our off balance sheet arrangements consist primarily of investments in unconsolidated affiliates, which currently consist primarily of our investments in Borgata, Grand Victoria, Silver Legacy, MGM Grand Macau and The Signature at MGM Grand. We have not entered into any transactions with special purpose entities, nor have we engaged in any derivative transactions other than straightforward interest rate swaps. Our joint venture and unconsolidated affiliate investments allow us to realize the benefits of owning a full-scale resort in a manner that minimizes our initial investment. We provided a guaranty for up to 50% of the interest and principal payment obligations on the construction financing for The Signature at MGM Grand. Otherwise, we have not guaranteed financing obtained by our investees, nor are there any other provisions of the venture agreements which are unusual or subject us to risks to which we would not be subjected if we had full ownership of the resort.

At December 31, 2006, we had outstanding letters of credit totaling \$59 million, of which \$50 million support bonds issued by the Economic Development Corporation of the City of Detroit. These bonds are recorded as a liability in our consolidated balance sheets. This obligation was undertaken to secure our right to develop a permanent casino in Detroit.

Table of Contents*Commitments and Contractual Obligations*

The following table summarizes our scheduled contractual commitments as of December 31, 2006:

	2007	2008	2009	2010	2011	Thereafter
	(In millions)					
Long-term debt	\$ 1,402	\$ 377	\$ 1,276	\$ 1,123	\$ 4,914	\$ 3,860
Estimated interest payments on long-term debt (1)	865	772	733	630	548	1,013
Capital leases	2	1				
Operating leases (2)	16	14	12	11	11	355
Long-term liabilities (3)	116	5	54	5	2	17
Other purchase obligations:						
Construction commitments (4)	1,012	249	30	3		100
Employment agreements	134	74	40	4		
Entertainment agreements (5)	128	30	15			
Other (6)	190	49	3	1		4
	\$ 3,865	\$ 1,571	\$ 2,163	\$ 1,777	\$ 5,475	\$ 5,349

(1) Estimated interest payments on long-term debt are based on principal amounts outstanding at December 31, 2006 and forecasted LIBOR rates for our bank credit facility.

(2) The majority of these amounts relate to ground leases for land in Primm, Nevada. These lease obligations are included in the pending sale of the Primm Valley Resorts.

(3) Includes our obligation to

support
\$50 million of
bonds issued by
the Economic
Development
Corporation of
the City of
Detroit as part
of our
development
agreement with
the City. The
bonds mature in
2009. Also
includes the

provisions.

- (4) Included in
construction
commitments is
\$1 billion
related to
CityCenter.
While we have
entered into a
contract with a
general
contractor for
the construction
of most of
CityCenter, we
are not
committed to
any component

of the project until we request and approve a guaranteed maximum price (GMP) for the component with the general contractor. We expect to approve GMPs for most or all of the components of CityCenter in 2007.

- (5) Our largest entertainment commitments consist of minimum contractual payments to Cirque du Soleil, which performs shows at several of our resorts. We are generally contractually committed for a period of 12 months based on our ability to exercise certain termination rights; however, we expect these shows to continue for longer periods.

- (6) The amount for 2007 includes approximately \$88 million of open purchase orders. Other commitments

are for various
contracts,
including
corporate
aircraft
purchases,
maintenance
and other
service
agreements and
advertising
commitments.

Summary of Expected Sources and Uses of Funds

In addition to the contractual obligations disclosed above, other significant operating uses of cash in 2007 include tax payments and uncommitted capital spending on CityCenter residential projects. Other significant investing uses of cash flow in 2007 include uncommitted capital expenditures, expected to be approximately \$1.5 billion, excluding capitalized interest and the residential components of CityCenter.

We plan to fund our contractual obligations and other estimated spending through a combination of operating cash flow, available borrowings under our senior credit facility and potential issuances of fixed rate long-term debt. We generated almost \$1.2 billion in operating cash flow in 2006, which included deductions for interest payments, tax payments and certain contractually committed payments reflected in the above table, including operating leases, employment agreements and entertainment agreements.

Critical Accounting Policies and Estimates

Management's discussion and analysis of our results of operations and liquidity and capital resources are based on our consolidated financial statements. To prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, we must make estimates and assumptions that affect the amounts reported in the consolidated financial statements. We regularly evaluate these estimates and assumptions, particularly in areas we consider to be critical accounting estimates, where changes in the estimates and assumptions could have a material impact on our results of operations, financial position or cash flows. Senior management and the Audit Committee of the Board of Directors have reviewed the disclosures included herein about our critical accounting estimates, and have reviewed the processes to determine those estimates.

Table of Contents*Allowance for Doubtful Casino Accounts Receivable*

Marker play represents a significant portion of the table games volume at Bellagio, MGM Grand Las Vegas, Mandalay Bay and The Mirage. Our other facilities do not emphasize marker play to the same extent, although we offer markers to customers at those casinos as well.

We maintain strict controls over the issuance of markers and aggressively pursue collection from those customers who fail to pay their marker balances timely. These collection efforts are similar to those used by most large corporations when dealing with overdue customer accounts, including the mailing of statements and delinquency notices, personal contacts, the use of outside collection agencies and civil litigation. Markers are generally legally enforceable instruments in the United States. At December 31, 2006 and 2005, approximately 48% and 44%, respectively, of our casino accounts receivable was owed by customers from the United States. Markers are not legally enforceable instruments in some foreign countries, but the United States assets of foreign customers may be reached to satisfy judgments entered in the United States. At December 31, 2006 and 2005, approximately 37% and 42%, respectively, of our casino accounts receivable was owed by customers from the Far East.

We maintain an allowance, or reserve, for doubtful casino accounts at all of our operating casino resorts. The provision for doubtful accounts, an operating expense, increases the allowance for doubtful accounts. We regularly evaluate the allowance for doubtful casino accounts. At resorts where marker play is not significant, the allowance is generally established by applying standard reserve percentages to aged account balances. At resorts where marker play is significant, we apply standard reserve percentages to aged account balances under a specified dollar amount and specifically analyze the collectibility of each account with a balance over the specified dollar amount, based on the age of the account, the customer's financial condition, collection history and any other known information. We also monitor regional and global economic conditions and forecasts to determine if reserve levels are adequate.

The collectibility of unpaid markers is affected by a number of factors, including changes in currency exchange rates and economic conditions in the customers' home countries. Because individual customer account balances can be significant, the allowance and the provision can change significantly between periods, as information about a certain customer becomes known or as changes in a region's economy occur.

The following table shows key statistics related to our casino receivables:

	2006	At December 31, 2005 (In thousands)	2004
Casino accounts receivable	\$248,044	\$221,873	\$174,713
Allowance for doubtful casino accounts receivable	83,327	68,768	57,111
Allowance as a percentage of casino accounts receivable	34%	31%	33%
Median age of casino accounts receivable	46 days	39 days	33 days
Percentage of casino accounts outstanding over 180 days	21%	19%	15%

The allowance for doubtful accounts as a percentage of casino accounts receivable has increased slightly in the current year due to aging of accounts. At December 31, 2006, a 100 basis-point change in the allowance for doubtful accounts as a percentage of casino accounts receivable would change net income by \$1.6 million, or less than \$0.01 per share.

Fixed asset capitalization and depreciation policies

Property and equipment are stated at cost. For the majority of our property and equipment, cost has been determined based on estimated fair values in connection with the Mandalay acquisition and the May 2000 Mirage Resorts acquisition. Maintenance and repairs that neither materially add to the value of the property nor appreciably prolong its life are charged to expense as incurred. Depreciation and amortization are provided on a straight-line basis over the estimated useful lives of the assets. We account for construction projects in accordance with Statement of Financial Accounting Standards No. 67, Accounting for Costs and Initial Rental Operations of Real Estate Projects. When we construct assets, we capitalize direct costs of the project, including fees paid to architects and contractors, property taxes, and certain costs of our design and construction subsidiaries.

Table of Contents

We must make estimates and assumptions when accounting for capital expenditures. Whether an expenditure is considered a maintenance expense or a capital asset is a matter of judgment. When constructing or purchasing assets, we must determine whether existing assets are being replaced or otherwise impaired, which also may be a matter of judgment. Our depreciation expense is highly dependent on the assumptions we make about our assets' estimated useful lives. We determine the estimated useful lives based on our experience with similar assets, engineering studies, and our estimate of the usage of the asset. Whenever events or circumstances occur which change the estimated useful life of an asset, we account for the change prospectively.

In accordance with Statement of Financial Accounting Standards No. 34, *Capitalization of Interest Cost* (SFAS 34), interest cost associated with major development and construction projects is capitalized as part of the cost of the project. Interest is typically capitalized on amounts expended on the project using the weighted-average cost of our outstanding borrowings, since we typically do not borrow funds directly related to a development project. Capitalization of interest starts when construction activities, as defined in SFAS 34, begin and ceases when construction is substantially complete or development activity is suspended for more than a brief period.

Impairment of Long-lived Assets

We evaluate our property and equipment and other long-lived assets for impairment in accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. For assets to be disposed of, we recognize the asset at the lower of carrying value or fair market value less costs of disposal, as estimated based on comparable asset sales, offers received, or a discounted cash flow model. For assets to be held and used, we review for impairment whenever indicators of impairment exist. We then compare the estimated future cash flows of the asset, on an undiscounted basis, to the carrying value of the asset. If the undiscounted cash flows exceed the carrying value, no impairment is indicated. If the undiscounted cash flows do not exceed the carrying value, then an impairment is recorded based on the fair value of the asset, typically measured using a discounted cash flow model. If an asset is still under development, future cash flows include remaining construction costs. All recognized impairment losses, whether for assets to be disposed of or assets to be held and used, are recorded as operating expenses.

There are several estimates, assumptions and decisions in measuring impairments of long-lived assets. First, management must determine the usage of the asset. To the extent management decides that an asset will be sold, it is more likely that an impairment may be recognized. Assets must be tested at the lowest level for which identifiable cash flows exist. This means that some assets must be grouped, and management has some discretion in the grouping of assets. Future cash flow estimates are, by their nature, subjective and actual results may differ materially from our estimates.

On a quarterly basis, we review our major long-lived assets to determine if events have occurred or circumstances exist that indicate a potential impairment. We estimate future cash flows using our internal budgets. When appropriate, we discount future cash flows using our weighted-average cost of capital, developed using a standard capital asset pricing model.

See *Results of Operations* for discussion of write-downs and impairments recorded in 2006, 2005 and 2004. In October 2006, we entered into agreements to sell Primm Valley Resorts and Laughlin Properties. The fair value less costs to sell exceeds the carrying value, therefore no impairment was indicated. In February 2004, we entered into an agreement to sell MGM Grand Australia. The fair value less costs to sell exceeded the carrying value, therefore no impairment was indicated. Other than the above items, we are not aware of events or circumstances through December 31, 2006 that would cause us to review any material long-lived assets for impairment.

Income taxes

We are subject to income taxes in the United States, and in several states and foreign jurisdictions in which we operate. We account for income taxes in accordance with Statement of Financial Accounting Standards No. 109,

Accounting for Income Taxes (SFAS 109). SFAS 109 requires the recognition of deferred tax assets, net of applicable reserves, related to net operating loss carryforwards and certain temporary differences. The standard requires recognition of a future tax benefit to the extent that realization of such benefit is more likely than not. Otherwise, a valuation allowance is applied.

At December 31, 2006, we had \$144 million of deferred tax assets and \$3.5 billion of deferred tax liabilities. Except for certain New Jersey state net operating losses, certain other New Jersey state deferred tax assets, a foreign tax credit carryforward and certain foreign deferred tax assets, we believe that it is more likely than not that our deferred tax assets are fully realizable because of the future reversal of existing taxable temporary differences and future projected taxable income. The valuation allowance at December 31, 2006 related to the New Jersey deferred tax assets, the foreign tax credit carryforward and foreign deferred tax assets were \$6 million, \$2 million and \$2 million, respectively.

Table of Contents

Our income tax returns are subject to examination by the Internal Revenue Service (IRS) and other tax authorities. While positions taken in tax returns are sometimes subject to uncertainty in the tax laws, we do not take such positions unless we have substantial authority to do so under the Internal Revenue Code and applicable regulations. We may take positions on our tax returns based on substantial authority that are not ultimately accepted by the IRS.

We assess such potential unfavorable outcomes based on the criteria of Statement of Financial Accounting Standards No. 5, Accounting for Contingencies (SFAS 5). We establish a tax reserve if an unfavorable outcome is probable and the amount of the unfavorable outcome can be reasonably estimated. We assess the potential outcomes of tax uncertainties on a quarterly basis. In determining whether the probable criterion of SFAS 5 is met, we presume that the taxing authority will focus on the exposure and we assess the probable outcome of a particular issue based upon the relevant legal and technical merits. We also apply our judgment regarding the potential actions by the tax authorities and resolution through the settlement process.

We maintain required tax reserves until such time as the underlying issue is resolved. When actual results differ from reserve estimates, we adjust the income tax provision and our tax reserves in the period resolved. For tax years that are examined by taxing authorities, we adjust tax reserves in the year the tax examinations are settled. For tax years that are not examined by taxing authorities, we adjust tax reserves in the year that the statute of limitations expires. In addition, resolution of uncertainties may occur upon the issuance of specific IRS guidance on the issue. Our estimate of the potential outcome for any uncertain tax issue is highly judgmental, and we believe we have adequately provided for any reasonable and foreseeable outcomes related to uncertain tax matters. See also Recently Issued Accounting Standards Uncertain Tax Positions.

In the third quarter of 2006, we reversed tax reserves of \$6 million that were no longer required based upon guidance issued by the IRS during the quarter related to the deductibility of certain complimentary, resulting in a reduction in our provision for income taxes. In the third quarter of 2004, the statute of limitations expired for our 2000 tax return, resulting in a reduction of our tax reserves of \$6 million and a corresponding reduction in our provision for income taxes.

The IRS is in the final stages of auditing our 2001 and 2002 tax returns and has initiated an audit of the 2003 and 2004 tax returns. The tax returns for subsequent years are also subject to possible future examination. The statutes of limitation for assessing tax have expired on all years prior to 2001.

We classify reserves for tax uncertainties within Other accrued liabilities in the accompanying consolidated balance sheets, separate from any related income tax payable or deferred income taxes. Reserve amounts may relate to the deductibility of an item, as well as potential interest associated with those items.

A portion of our tax reserves was assumed in the Mirage Resorts and Mandalay acquisitions. Any future adjustments to the acquired Mirage Resorts and Mandalay tax reserves will be recorded as an adjustment to goodwill.

Stock-based Compensation

We account for stock-based compensation in accordance with SFAS 123(R). We measure fair value of share-based awards using the Black-Scholes model. There are several management assumptions required to determine the inputs into the Black-Scholes model. We have determined that our volatility and expected term assumptions can significantly impact the fair value of stock-based awards. The extent of the impact will depend, in part, on the extent of stock-based awards in any given year. In 2006, we granted 1.9 million stock appreciation rights with a total fair value of \$28 million. In 2005, we granted 14.6 million stock options and stock appreciation rights with a total fair value of \$186 million.

For 2006 awards, a 10% change in the volatility assumption (33% for 2006; for sensitivity analysis, volatility was assumed to be 30% and 36%) would have resulted in a \$1.8 million, or 6%, change in fair value. A 10% change in the expected term assumption (4.1 years for 2006; for sensitivity analysis, expected term was assumed to be 3.7 years and 4.5 years) would have resulted in a \$1.5 million, or 5%, change in fair value. These changes in fair value would have been recognized over the five-year vesting period of such awards. It should be noted change that a change in the expected term would cause other changes, since the risk-free rate and volatility assumptions are specific to the term; we did not attempt to adjust those assumptions in performing the sensitivity analysis above.

Business Combinations

We account for business combinations in accordance with Statement of Financial Accounting Standards No. 141, Accounting for Business Combinations (SFAS 141) and Statement of Financial Accounting Standards No. 142, Accounting for Goodwill and Other Intangible Assets (SFAS 142), and related interpretations. SFAS 141 requires that we record the net assets of acquired businesses at fair value, and we must make estimates and assumptions to determine the fair value of these acquired assets and assumed liabilities.

Table of Contents

The determination of the fair value of acquired assets and assumed liabilities in the Mandalay acquisition required us to make certain fair value estimates, primarily related to land, property and equipment and intangible assets. These estimates require significant judgment and include a variety of assumptions in determining the fair value of acquired assets and assumed liabilities, including market data, estimated future cash flows, growth rates, current replacement cost for similar capacity for certain fixed assets, market rate assumptions for contractual obligations and settlement plans for contingencies and liabilities.

Recently Issued Accounting Standards*Uncertain Tax Positions*

In July 2006, the Financial Accounting Standards Board issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* – an Interpretation of FASB Statement No. 109, (*FIN 48*). *FIN 48* requires that tax positions be assessed using a two-step process. A tax position is recognized if it meets a *more likely than not* threshold and is measured at the largest amount of benefit that is greater than 50 percent likely of being realized. Uncertain tax positions must be reviewed at each balance sheet date. Liabilities recorded as a result of this analysis must generally be recorded separately from any current or deferred income tax accounts, and are classified based on the time until expected payment.

FIN 48 also requires additional disclosures related to uncertain tax positions, including a reconciliation of changes in the beginning and ending aggregate amounts of liability recorded for uncertain tax positions. *FIN 48* is effective for fiscal years beginning after December 15, 2006.

Upon adoption of *FIN 48* in the first quarter of 2007, we expect to record an adjustment to stockholders' equity as a cumulative effect of change in accounting principle and a reclassification between deferred income taxes and other accrued liabilities. We have completed an initial evaluation of the impact of the adoption of *FIN 48* and determined that adoption will not have a material impact on our financial position or results of operations.

Materiality of Financial Statement Misstatements

In September 2006, the Securities and Exchange Commission (*SEC*) issued Staff Accounting Bulletin No. 108 (*SAB 108*), which documents the SEC staff's views regarding the process of quantifying financial statement misstatements. Under *SAB 108*, we must evaluate the materiality of an identified unadjusted error by considering the impact of both the current year error and the cumulative error, if applicable. This also means that both the impact on the current period income statement and the period-end balance sheet must be considered.

SAB 108 is effective for fiscal years ending after November 15, 2006. Any past adjustments required to be recorded as a result of adopting *SAB 108* are recorded as a cumulative effect adjustment to the opening balance of retained earnings. The adoption of *SAB 108* had no impact on our financial position or results of operations.

Planned Major Maintenance Activities

In September 2006, the Financial Accounting Standards Board issued FASB Staff Position No. AUG AIR-1, *Accounting for Planned Major Maintenance Activities*, (*FSP AUG AIR-1*). *FSP AUG AIR-1* prohibits the use of the *accrue-in-advance* method of accounting for planned major maintenance activities, previously one of four acceptable methods included in the AICPA Industry Audit Guide for Airlines. *FSP AUG AIR-1* is effective for fiscal years beginning after December 15, 2006.

We do not believe the adoption of *FSP AUG AIR-1* will have any impact on our financial position or results of operations. We expense planned major maintenance activities at our operating resorts as incurred. For our corporate aircraft, we apply the *deferral* method of accounting to planned engine overhauls; the *deferral* method is one of the three remaining acceptable methods included in the Industry Audit Guide for Airlines. Under the *deferral* method, the cost of each engine overhaul is capitalized and amortized over the estimated period to the next required overhaul.

Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our long-term debt. We attempt to limit our exposure to interest rate risk by managing the mix of our long-term fixed rate borrowings and short-term borrowings under our bank credit facilities.

As of December 31, 2006, long-term fixed rate borrowings represented approximately 66% of our total borrowings. Based on December 31, 2006 debt levels, an assumed 100 basis-point change in LIBOR would cause our

annual interest cost to change by approximately \$44 million.

Disclosure Controls and Procedures

Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that the design and operation of our disclosure controls and procedures are effective as of December 31, 2006. This conclusion is based on an evaluation conducted under the supervision and with the participation of Company management. Disclosure controls and procedures are those controls and procedures which ensure that information required to be disclosed in this filing is accumulated and communicated to management and is recorded, processed, summarized and reported in a timely manner and in accordance with Securities and Exchange Commission rules and regulations.

Changes in Internal Control over Financial Reporting

During the quarter ended December 31, 2006, we had the following changes in our internal control over financial reporting that materially affected, or are reasonably likely to affect, our internal control over financial reporting, all of which relate to changes made at Mandalay resorts since our acquisition of Mandalay in April 2005:

We implemented a new slot accounting system and the Players Club point-loyalty program at the major Mandalay resorts;

We consolidated the accounts payable processing functions at most Mandalay resorts into our existing shared services function;

We added accounting and finance staff to many of the Mandalay resorts, adopting our legacy practices of having 1) a chief financial officer at each resort, 2) functional controllers over the different revenue areas at each resort, and 3) financial analysis staff at each resort.

In addition to the above significant changes, we made other changes to systems, policies and processes that were not considered significant. For instance, Mandalay historically used the same general ledger accounting system as we did, but we modified the Mandalay chart of accounts to make it consistent with ours. We also changed Mandalay's banking structure to fit with our legacy structure, including moving bank accounts to a consolidated vendor. We did not consider these changes, or changes of a similar nature, to be significant since they are relatively routine when integrating a significant acquisition such as Mandalay.

There were no other changes in our internal control over financial reporting that materially affected, or are reasonably likely to affect, our internal control over financial reporting.

**MANAGEMENT'S ANNUAL REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management's Responsibilities

Management is responsible for establishing and maintaining adequate internal control over financial reporting for MGM MIRAGE and subsidiaries (the Company).

Objective of Internal Control Over Financial Reporting

In establishing adequate internal control over financial reporting, management has developed and maintained a system of internal control, policies and procedures designed to provide reasonable assurance that information contained in the accompanying consolidated financial statements and other information presented in this annual report is reliable, does not contain any untrue statement of a material fact or omit to state a material fact, and fairly presents in all material respects the financial condition, results of operations and cash flows of the Company as of and for the periods presented in this annual report. Significant elements of the Company's internal control over financial reporting include, for example:

- Hiring skilled accounting personnel and training them appropriately;
- Written accounting policies;
- Written documentation of accounting systems and procedures;
- Segregation of incompatible duties;
- Internal audit function to monitor the effectiveness of the system of internal control;
- Oversight by an independent Audit Committee of the Board of Directors.

Management's Evaluation

Management has evaluated the Company's internal control over financial reporting using the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on its evaluation as of December 31, 2006, management believes that the Company's internal control over financial reporting is effective in achieving the objectives described above.

Report of Independent Registered Public Accounting Firm

Deloitte & Touche LLP audited the Company's consolidated financial statements as of and for the period ended December 31, 2006 and issued their report thereon, which is included in this annual report. Deloitte & Touche LLP has also issued an attestation report on management's assessment and on the effectiveness of the Company's internal control over financial reporting and such report is also included in this annual report.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
of MGM MIRAGE

We have audited management's assessment, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting, that MGM MIRAGE and subsidiaries (the Company) maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that the Company maintained effective internal control over financial reporting as of December 31, 2006, is fairly stated, in all material respects, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2006 of the Company and our report dated February 28, 2007 expressed an unqualified opinion on those financial statements and financial statement schedule and included an explanatory paragraph regarding the adoption of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
of MGM MIRAGE

We have audited the accompanying consolidated balance sheets of MGM MIRAGE and subsidiaries (the Company) as of December 31, 2006 and 2005, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2006. Our audits also included the financial statement schedule of Valuation and Qualifying Accounts included in Item 15(a)(2). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of MGM MIRAGE and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 14 to the consolidated financial statements, on January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 28, 2007 expressed an unqualified opinion on management's assessment of the effectiveness of the Company's internal control over financial reporting and an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

MGM MIRAGE AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 ORGANIZATION

MGM MIRAGE (the Company) is a Delaware corporation, incorporated on January 29, 1986. As of December 31, 2006, approximately 56% of the outstanding shares of the Company's common stock were owned by Tracinda Corporation, a Nevada corporation wholly owned by Kirk Kerkorian. MGM MIRAGE acts largely as a holding company and, through wholly-owned subsidiaries, owns and/or operates casino resorts. On April 25, 2005, the Company completed its merger with Mandalay Resort Group (Mandalay) see Note 3.

The Company owns and operates the following casino resorts in Las Vegas, Nevada: Bellagio, MGM Grand Las Vegas, Mandalay Bay, The Mirage, Luxor, Treasure Island (TI), New York-New York, Excalibur, Monte Carlo, Circus Circus Las Vegas and Slots-A-Fun. The Company owns three resorts in Primm, Nevada, at the California/Nevada state line Whiskey Pete's, Buffalo Bill's and the Primm Valley Resort (the Primm Valley Resorts) as well as two championship golf courses located near the resorts. Other Nevada operations include Circus Circus Reno, Colorado Belle and Edgewater in Laughlin, Gold Strike and Nevada Landing in Jean (the Jean Properties), and Railroad Pass in Henderson. The Company has a 50% investment in Silver Legacy in Reno, which is adjacent to Circus Circus Reno. In addition, the Company owns a 50% interest in the entity developing The Signature at MGM Grand, which is adjacent to MGM Grand Las Vegas. The Signature is a condominium-hotel development, with one tower open, one tower completed and in the closing process, and a final tower currently under construction. The Company also owns Shadow Creek, an exclusive world-class golf course located approximately ten miles north of its Las Vegas Strip resorts.

In October 2006, the Company entered into an agreement to sell Colorado Belle and Edgewater (the Laughlin Properties) for \$200 million, and an agreement to sell the Primm Valley Resorts, not including the two golf courses, for \$400 million. The Company expects to complete the sale of the Laughlin Properties and Primm Valley Resorts by the second quarter of 2007. Both agreements are subject to regulatory approval and other customary closing conditions. See Note 4 for further information regarding these discontinued operations.

In February 2007, the Company entered into an agreement to form a 50/50 joint venture whose purpose is to develop a mixed-use community in Jean, Nevada. The Company will contribute the Jean Properties and surrounding land to the venture. Nevada Landing is expected to close in April 2007. See Note 21 for further discussion.

The Company and its local partners own MGM Grand Detroit, LLC, which operates a casino in an interim facility located in downtown Detroit, Michigan. MGM Grand Detroit, LLC is currently developing a permanent casino facility, expected to open in late 2007 at a cost of approximately \$750 million, excluding license and land costs. The permanent casino is located on a 25-acre site with a carrying value of approximately \$50 million. In addition, the Company recorded license rights with a carrying value of \$100 million as a result of MGM Grand Detroit's obligations to the City of Detroit in connection with the permanent casino development agreement. The Company also owns and operates two resorts in Mississippi Beau Rivage in Biloxi and Gold Strike-Tunica. Beau Rivage reopened in August 2006, after having been closed due to damage sustained as a result of Hurricane Katrina in 2005. The Company has 50% interests in two resorts outside of Nevada Borgata and Grand Victoria. Borgata is a casino resort located on Renaissance Point in the Marina area of Atlantic City, New Jersey. Boyd Gaming Corporation owns the other 50% of Borgata and also operates the resort. Grand Victoria is a riverboat in Elgin, Illinois an affiliate of Hyatt Gaming owns the other 50% of Grand Victoria and also operates the resort.

The Company owns 50% of MGM Grand Paradise Limited, a joint venture with Pansy Ho Chiu-king that is constructing and will operate a hotel-casino resort, MGM Grand Macau, in Macau S.A.R. MGM Grand Macau is estimated to cost approximately \$850 million, excluding license and land rights costs. The subconcession agreement, which allows MGM Grand Paradise Limited to operate a casino in Macau, cost \$200 million and the land rights agreement with the government of Macau is estimated to cost \$60 million. The resort is anticipated to open in late 2007.

The Company is developing CityCenter on the Las Vegas Strip, between Bellagio and Monte Carlo. CityCenter will feature a 4,000-room casino resort designed by world-famous architect Cesar Pelli; two 400-room non-gaming boutique hotels, one of which will be managed by luxury hotelier Mandarin Oriental; approximately 470,000 square

feet of retail shops, dining and entertainment venues; and approximately 2.3 million square feet of residential space in approximately 2,700 luxury condominium and condominium-hotel units in multiple towers. The overall cost of CityCenter is estimated at approximately \$7 billion, excluding land costs. After estimated proceeds of \$2.5 billion from the sale of residential units, net project cost is estimated at approximately \$4.5 billion. CityCenter is located on a 67-acre site with a carrying value of approximately \$1 billion. CityCenter is expected to open in late 2009.

Table of Contents**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION**

Principles of consolidation. The consolidated financial statements include the accounts of the Company and its subsidiaries. Investments in unconsolidated affiliates which are 50% or less owned and do not meet the consolidation criteria of Financial Accounting Standards Board Interpretation No. 46(R) (as amended), Consolidation of Various Interest Entities an Interpretation of ARB No. 51 (FIN 46(R)), are accounted for under the equity method. All significant intercompany balances and transactions have been eliminated in consolidation. The Company's operations are primarily in one segment operation of casino resorts. Other operations, and foreign operations, are not material.

Management's use of estimates. The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. Those principles require the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Financial statement impact of Hurricane Katrina. The Company maintained insurance covering both property damage and business interruption as a result of wind and flood damage sustained at Beau Rivage. The deductible under this coverage was \$15 million, based on the amount of damage incurred. The net book value of damaged assets was \$126 million and the Company incurred \$34 million in clean-up and demolition costs.

Business interruption coverage covered lost profits and other costs incurred during the construction period and up to six months following the re-opening of the facility. Costs during the interruption period were less than the anticipated business interruption proceeds. As of December 31, 2006, the Company had received insurance recoveries of \$355 million. This amount is in excess of the net book value of damaged assets, clean-up and demolition costs, and post-storm costs of \$99 million incurred through December 31, 2006. Post-storm costs and expected recoveries are recorded net within General and administrative expenses in the accompanying consolidated statements of income, except for depreciation of non-damaged assets, which is classified as Depreciation and amortization. The excess non-refundable insurance recoveries have been recognized as income related to property damage and have therefore been classified as Property transactions, net in the accompanying consolidated statements of income. The Company has treated these amounts as related to property damage based on its current estimate of the total claim for property damage and business interruption compared to the recoveries received to date. Insurance recoveries of \$10 million were submitted to the Company under reservation of rights and have therefore been deferred and included in Other accrued liabilities in the accompanying consolidated balance sheet as of December 31, 2006.

Insurance proceeds are classified in the statement of cash flows based on the coverage the proceeds relate to; however, the Company's insurance policy includes undifferentiated coverage for both property damage and business interruption. The Company treated insurance recoveries as being related to property damage, and therefore classified the proceeds as an investing cash flow, until the full \$160 million of damaged assets and demolition costs were recovered. The Company treated additional recoveries up to the amount of the post-storm costs incurred as being related to business interruption, and therefore classified these proceeds as an operating cash flow. As explained above, the insurance recoveries in excess of the damaged assets, demolition costs, and post-storm costs have been treated as related to property damage and are therefore classified as investing cash flows in the accompanying consolidated statement of cash flows.

Cash and cash equivalents. Cash and cash equivalents include investments and interest bearing instruments with maturities of three months or less at the date of acquisition. Such investments are carried at cost which approximates market value. Book overdraft balances resulting from the Company's cash management program are recorded as accounts payable.

Accounts receivable and credit risk. Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of casino accounts receivable. The Company issues markers to approved casino customers following background checks and investigations of creditworthiness. At December 31, 2006, a substantial portion of the Company's receivables were due from customers residing in foreign countries. Business or economic conditions or other significant events in these countries could affect the collectibility of such receivables.

Trade receivables, including casino and hotel receivables, are typically non-interest bearing and are initially recorded at cost. Accounts are written off when management deems the account to be uncollectible. Recoveries of

accounts previously written off are recorded when received. An estimated allowance for doubtful accounts is maintained to reduce the Company's receivables to their carrying amount, which approximates fair value. The allowance is estimated based on specific review of customer accounts as well as historical collection experience and current economic and business conditions. Management believes that as of December 31, 2006, no significant concentrations of credit risk existed for which an allowance had not already been recorded.

Inventories. Inventories consist of food and beverage, retail merchandise and operating supplies, and are stated at the lower of cost or market. Cost is determined primarily by the average cost method for food and beverage and supplies and the retail inventory or specific identification methods for retail merchandise.

Table of Contents

Real estate under development. Real estate under development represents capitalized costs of wholly-owned real estate projects to be sold, which consist entirely of condominium and condominium-hotel developments. Real estate under development includes land, direct construction and development costs, and capitalized property taxes and interest.

Property and equipment. Property and equipment are stated at cost. Gains or losses on dispositions of property and equipment are included in the determination of income. Maintenance costs are expensed as incurred. Property and equipment are generally depreciated over the following estimated useful lives on a straight-line basis:

Buildings and improvements	30 to 45 years
Land improvements	10 to 20 years
Furniture and fixtures	3 to 10 years
Equipment	3 to 20 years

We evaluate our property and equipment and other long-lived assets for impairment in accordance with the Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. For assets to be disposed of, we recognize the asset to be sold at the lower of carrying value or fair value less costs of disposal. Fair value for assets to be disposed of is estimated based on comparable asset sales, offers received, or a discounted cash flow model.

For assets to be held and used, we review fixed assets for impairment whenever indicators of impairment exist. If an indicator of impairment exists, we compare the estimated future cash flows of the asset, on an undiscounted basis, to the carrying value of the asset. If the undiscounted cash flows exceed the carrying value, no impairment is indicated. If the undiscounted cash flows do not exceed the carrying value, then an impairment is measured based on fair value compared to carrying value, with fair value typically based on a discounted cash flow model. If an asset is still under development, future cash flows include remaining construction costs. For a discussion of recognized impairment losses, see Note 17.

Capitalized interest. The interest cost associated with major development and construction projects is capitalized and included in the cost of the project. When no debt is incurred specifically for a project, interest is capitalized on amounts expended on the project using the weighted-average cost of the Company's outstanding borrowings. Capitalization of interest ceases when the project is substantially complete or development activity is suspended for more than a brief period.

Goodwill and other intangible assets. Goodwill represents the excess of purchase price over fair market value of net assets acquired in business combinations. Goodwill and indefinite-lived intangible assets must be reviewed for impairment at least annually and between annual test dates in certain circumstances. The Company performs its annual impairment test for goodwill and indefinite-lived intangible assets in the fourth quarter of each fiscal year. No impairments were indicated as a result of the annual impairment reviews for goodwill and indefinite-lived intangible assets in 2006, 2005 or 2004.

Revenue recognition and promotional allowances. Casino revenue is the aggregate net difference between gaming wins and losses, with liabilities recognized for funds deposited by customers before gaming play occurs (casino front money) and for chips in the customers' possession (outstanding chip liability). Hotel, food and beverage, entertainment and other operating revenues are recognized as services are performed. Advance deposits on rooms and advance ticket sales are recorded as accrued liabilities until services are provided to the customer.

Gaming revenues are recognized net of certain sales incentives, including discounts and points earned in point-loyalty programs. The retail value of accommodations, food and beverage, and other services furnished to guests without charge is included in gross revenue and then deducted as promotional allowances. The estimated cost of providing such promotional allowances is primarily included in casino expenses as follows:

	Year Ended December 31,

Table of Contents

Revenue for residential sales is deferred until closing occurs, which is when title, possession and other attributes of ownership have been transferred to the buyer and the Company is not obligated to perform activities after the sale. Prior to closing, customer deposits are treated as liabilities. Costs associated with residential sales are also deferred, except for indirect selling costs and general and administrative expense, which are expensed as incurred. For the year ended December 31, 2006, the Company expensed \$6 million of such costs; no such costs were incurred in 2005 or 2004. Capitalized costs will be charged to cost of sales upon closing based on relative sales value to the project as a whole.

Point-loyalty programs. The Company operates various point-loyalty programs. The Company's primary point-loyalty program, in operation at its major resorts, is Players Club. In Players Club, customers earn points based on their slots play, which can be redeemed for cash or free play at any of the Company's participating resorts. The Company records a liability based on the points earned times the redemption value and records a corresponding reduction in casino revenue. The expiration of unused points results in a reduction of the liability. Customers' overall level of table games and slots play is also tracked and used by management in awarding discretionary complimentary free rooms, food and beverage and other services for which no accrual is recorded. Other loyalty programs at the Company's resorts generally operate in a similar manner, though they generally are available only to customers at the individual resorts. At December 31, 2006 and 2005, the total company-wide liability for point-loyalty programs was \$47 million and \$43 million, respectively, including amounts classified as liabilities related to assets held for sale.

Mandalay operated its own loyalty program, One Club, which was largely phased out through 2006 and early 2007. In One Club, customers earned points based on both their slots and table games play through July 2006, with slots play contributing to a points balance which could be redeemed for cash and both table games and slots play contributing to a points balance which could be redeemed for complimentary. After July 2006, customers stopped earning points which could be redeemed for complimentary. The Company recorded a liability based on the points earned times the redemption value. For cash points, the redemption value was the cash value, and the offsetting entry was a reduction in casino revenue. For complimentary points, the redemption value was based on the average departmental cost of the free rooms, food and beverage and other services and estimated redemption patterns, and the offsetting entry was a casino operating expense.

Advertising. The Company expenses advertising costs the first time the advertising takes place. Advertising expense of continuing operations, which is generally included in general and administrative expenses, was \$119 million, \$98 million and \$52 million for 2006, 2005 and 2004, respectively.

Corporate expense. Corporate expense represents unallocated payroll and aircraft costs, professional fees and various other expenses not directly related to the Company's casino resort operations. In addition, corporate expense includes the costs associated with the Company's evaluation and pursuit of new business opportunities, which are expensed as incurred until development of a specific project has become probable.

Preopening and start-up expenses. The Company accounts for costs incurred during the preopening and start-up phases of operations in accordance with Statement of Position 98-5, Reporting on the Costs of Start-up Activities. Preopening and start-up costs, including organizational costs, are expensed as incurred. Costs classified as preopening and start-up expenses include payroll, outside services, advertising, and other expenses related to new or start-up operations and new customer initiatives.

Property transactions, net. The Company classifies transactions related to long-lived assets such as write-downs and impairments, demolition costs, and normal gains and losses on the sale of fixed assets as Property transactions, net in the accompanying consolidated statements of income. See Note 17 for a detailed discussion of these amounts.

Income per share of common stock. The weighted-average number of common and common equivalent shares used in the calculation of basic and diluted earnings per share consisted of the following:

Currency translation. The Company accounts for currency translation in accordance with Statement of Financial Accounting Standards No. 52, Foreign Currency Translation. Balance sheet accounts are translated at the exchange rate in effect at each balance sheet date. Income statement accounts are translated at the average rate of exchange prevailing during the period. Translation adjustments resulting from this process are charged or credited to other comprehensive loss.

Comprehensive income. Comprehensive income includes net income and all other non-stockholder changes in equity, or other comprehensive income. Elements of the Company's other comprehensive income are reported in the accompanying consolidated statement of stockholders' equity, and the cumulative balance of these elements consisted of the following:

	At December 31,	
	2006	2005
	(In thousands)	
Derivative loss from unconsolidated affiliate, net	\$ 137	\$ 134
Foreign currency translation adjustments	278	(935)
	\$ 415	\$ (801)

Reclassifications. The consolidated financial statements for prior years reflect certain reclassifications, which have no effect on previously reported net income, to conform to the current year presentation.

NOTE 3 ACQUISITION

On April 25, 2005, the Company closed its merger with Mandalay under which the Company acquired 100% of the outstanding common stock of Mandalay for \$71 in cash for each share of Mandalay's common stock. The acquisition expanded the Company's portfolio of resorts on the Las Vegas Strip, provided additional sites for future development and expanded the Company's employee and customer bases significantly. These factors resulted in the recognition of certain intangible assets, discussed below, and significant goodwill. The total acquisition cost included (in thousands):

Cash consideration for Mandalay's outstanding shares and stock options	\$ 4,831,944
Estimated fair value of Mandalay's long-term debt	2,849,225
Transaction costs and expenses and other	111,944
	7,793,113
Less: Net proceeds from the sale of MotorCity Casino	(526,597)
	\$ 7,266,516

Cash paid, net of cash acquired, was \$4.4 billion. The transaction was accounted for as a purchase and, accordingly, the purchase price was allocated to the underlying assets acquired and liabilities assumed based upon their estimated fair values.

The following table sets forth the allocation of purchase price (in thousands):

Current assets (including cash of \$134,245)	\$ 413,502
Property and equipment	7,130,376
Goodwill	1,221,990
Other intangible assets	245,940
Other assets	340,930
Assumed liabilities, excluding long-term debt	(591,113)
Deferred taxes	(1,495,109)

\$ 7,266,516

The amount allocated to intangible assets includes the recognition of customer lists with an estimated value of \$12 million and an estimated useful life of five years and trade names and trademarks with an estimated value of \$234 million and an indefinite life. Goodwill and indefinite-lived intangible assets are not amortized.

Table of Contents

The operating results for Mandalay are included in the accompanying consolidated statements of income from the date of the acquisition. The following unaudited pro forma consolidated financial information for the Company has been prepared assuming the Mandalay acquisition had occurred on January 1, 2004.

NOTE 4 DISCONTINUED OPERATIONS

In January 2004, the Company completed the sale of the Golden Nugget Las Vegas in downtown Las Vegas and the Golden Nugget Laughlin in Laughlin, Nevada (the Golden Nugget Subsidiaries), with net proceeds to the Company of \$210 million. In July 2004, the Company completed the sale of the subsidiaries that owned and operated MGM Grand Australia with net proceeds to the Company of \$136 million. Included in discontinued operations for the year ended December 31, 2004 is a gain on the sale of the Golden Nugget Subsidiaries of \$8 million and a gain on sale of MGM Grand Australia of \$74 million. In October 2006, the Company entered into an agreement to sell the Laughlin Properties for \$200 million, and an agreement to sell the Primm Valley Resorts, not including the two golf courses, for \$400 million. Both agreements are subject to regulatory approval and other customary closing conditions. These resorts had a combined carrying value of approximately \$329 million, including assigned goodwill, at December 31, 2006.

The results of the Laughlin Properties, Primm Valley Resorts, the Golden Nugget Subsidiaries, and MGM Grand Australia are classified as discontinued operations in the accompanying consolidated statements of income for all periods presented, as applicable. Net revenues of discontinued operations were \$412 million, \$353 million, and \$281 million, respectively, for the years ended December 31, 2006, 2005 and 2004. Included in income from discontinued operations is an allocation of interest expense based on the ratio of the net assets of the discontinued operations to the total consolidated net assets and debt of the Company. Interest allocated to discontinued operations was \$18 million, \$15 million and \$13 million for the years ended December 31, 2006, 2005 and 2004, respectively. The cash flows of discontinued operations are included with the cash flows of continuing operations in the accompanying consolidated statements of cash flows.

The following table summarizes the assets and liabilities of discontinued operations (the Laughlin Properties and Primm Valley Resorts) as of December 31, 2006, included as assets held for sale and liabilities related to assets held for sale in the accompanying consolidated balance sheet:

NOTE 7 INVESTMENTS IN UNCONSOLIDATED AFFILIATES

The Company has investments in unconsolidated affiliates accounted for under the equity method. Under the equity method, carrying value is adjusted for the Company's share of the investees' earnings and losses, as well as capital contributions to and distributions from these companies. Investments in unconsolidated affiliates consisted of the following:

\$ 1,092,257 \$ 923,754

The Company's investment in MGM Grand Paradise Limited consists of equity and subordinated debt. The Company is committed to loaning the venture up to an additional \$9 million, which will be treated as an additional investment in the venture.

As of December 31, 2006, The Signature at MGM Grand had closed sales on all the units of Tower 1 and a portion of the units in Tower 2. The Company's share of the profits from these transactions totaled \$102 million for the year ended December 31, 2006. The Company also recognized a \$15 million gain in 2006 on land contributed to the venture for Towers 1 and 2. As of December 31, 2006 and 2005, the Company had deferred income related to its land contributions of \$9 million and \$16 million, respectively, which is classified as "Other long-term obligations" in the accompanying consolidated balance sheets. As of December 31, 2005 the Company had a negative investment balance due to cumulative distributions exceeding the book value of land contributed. Therefore, the investment balance in 2005 was classified in "Other long-term obligations."

Amounts due within one year of the balance sheet date are classified as long-term in the accompanying consolidated balance sheets because the Company has both the intent and ability to repay these amounts with available borrowings under the senior credit facility.

Total interest incurred during 2006, 2005 and 2004 was \$900 million, \$686 million and \$404 million, respectively, of which \$122 million, \$30 million and \$23 million, respectively, was capitalized and \$18 million, \$15 million, and \$13 million, respectively, was allocated to discontinued operations.

In October 2006, the Company entered into an amended and restated senior credit facility. The initial total capacity of the senior credit facility remains at \$7 billion, with the maturity extended to 2011. The Company has the ability to solicit additional lender commitments to increase the capacity to \$8 billion. The components of the senior credit facility also changed, with the term loan facility increasing to \$2.5 billion and the revolving credit facility decreasing to \$4.5 billion. Interest on the senior credit facility is based on the bank reference rate or Eurodollar rate. The

Company's borrowing rate on the senior credit facility was approximately 6.5% at December 31, 2006 and 5.3% at December 31, 2005. Stand-by letters of credit totaling \$59 million were outstanding as of December 31, 2006, thereby reducing the availability under the senior credit facility. At December 31, 2006, the Company had approximately \$2.6 billion of available borrowings under the senior credit facility.

In February 2006, the Company repaid the \$200 million 6.45% senior notes at their maturity. In October 2006, the Company repaid the \$244.5 million 7.25% senior notes at their maturity. The Company repaid both issuances of senior notes with borrowings under the senior credit facility.

In April 2006, the Company issued \$500 million of 6.75% senior notes due 2013 and \$250 million of 6.875% senior notes due 2016. In December 2006, the Company issued \$750 million of 7.625% senior notes due 2017. The proceeds of the April 2006 and December 2006 issuances were used to repay outstanding borrowings under the senior credit facility.

Table of Contents

In June 2005, the Company issued \$500 million of 6.625% senior notes due 2015 and in September 2005, the Company issued an additional \$375 million of 6.625% senior notes due 2015. In 2004, the Company issued \$525 million of 5.875% senior notes due 2014, \$550 million of 6.75% senior notes due 2012, and \$450 million of 6% senior notes due 2009.

In May 2005, the Company initiated a tender offer for several issuances of Mandalay's senior notes and senior subordinated notes totaling \$1.5 billion, as required by the change of control provisions contained in the respective indentures. Holders of \$155 million of Mandalay's senior notes and senior subordinated notes redeemed their holdings, resulting in a gain on early retirement of debt of \$1 million, classified as Other, net in the accompanying consolidated statements of income. Holders of Mandalay's floating rate convertible senior debentures with a principal amount of \$394 million had the right to redeem the debentures for \$566 million through June 30, 2005. \$388 million of principal of the convertible senior debentures were tendered for redemption and redeemed for \$558 million.

In February 2005, the Company redeemed all of its outstanding 6.875% senior notes due February 2008 at the present value of future interest payments plus accrued interest at the date of redemption. The Company recorded a loss on retirement of debt of \$20 million in the first quarter of 2005, classified as Other, net in the accompanying consolidated statements of income.

In August 2003, the Company's Board of Directors authorized the repurchase of up to \$100 million of the Company's public debt securities. In 2004, the Company repurchased \$49 million of its senior notes for \$52 million. This resulted in a loss on early retirement of debt of \$6 million related to repurchase premiums and unamortized debt issuance costs. The loss is classified as Other, net in the accompanying consolidated statements of income. In December 2004, the Company's Board of Directors renewed its authorization for up to \$100 million of additional debt securities.

The Company attempts to limit its exposure to interest rate risk by managing the mix of its long-term fixed rate borrowings and short-term borrowings under its bank credit facilities. In the past, the Company has also utilized interest rate swap agreements to manage this risk. At December 31, 2006, the Company had no outstanding interest rate swaps. All of the Company's interest rate swaps have met the criteria for using the shortcut method allowed under Statement of Financial Accounting Standards No. 133. The amounts received for the termination of past interest rate swaps, including the last \$100 million swap terminated in May 2005, have been added to the carrying value of the related debt obligations and are being amortized and recorded as a reduction of interest expense over the remaining life of that debt.

The Company and each of its material subsidiaries, excluding MGM Grand Detroit, LLC and the Company's foreign subsidiaries, are directly liable for or unconditionally guarantee the senior credit facility, senior notes, senior debentures, and senior subordinated notes. MGM Grand Detroit, LLC is a guarantor under the senior credit facility, but only to the extent that MGM Grand Detroit, LLC borrows under such facilities. See Note 19 for consolidating condensed financial information of the subsidiary guarantors and non-guarantors. None of the Company's assets serve as collateral for its senior credit facility, senior notes, or other long-term debt.

The Company's long-term debt obligations contain customary covenants requiring the Company to maintain certain financial ratios. At December 31, 2006, the Company was required to maintain a maximum leverage ratio (debt to EBITDA, as defined) of 6.5:1 and a minimum coverage ratio (EBITDA to interest charges, as defined) of 2.0:1. As of December 31, 2006, the Company's leverage and interest coverage ratios were 5.0:1 and 2.8:1, respectively.

Maturities of the Company's long-term debt as of December 31, 2006 are as follows:

Table of Contents

The estimated fair value of the Company's long-term debt at December 31, 2006 was approximately \$13 billion, consistent with its book value. At December 31, 2005, the estimated fair value of the Company's long-term debt was approximately \$12.5 billion, versus its book value of \$12.4 billion. The estimated fair value of the Company's public debt securities was based on quoted market prices on or about December 31, 2006 and 2005. The estimated fair value of the Company's senior credit facility was assumed to approximate book value due to the short-term nature of the borrowings.

NOTE 11 INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS 109). SFAS 109 requires the recognition of deferred income tax assets, net of applicable reserves, related to net operating loss carryforwards and certain temporary differences. The standard requires recognition of a future tax benefit to the extent that realization of such benefit is more likely than not. Otherwise, a valuation allowance is applied.

The income tax provision attributable to continuing operations and discontinued operations is as follows:

For federal income tax purposes, the Company has a foreign tax credit carryforward of \$2 million that will expire in 2015 if not utilized.

For state income tax purposes, the Company has a New Jersey net operating loss carryforward of \$98 million, which equates to a deferred tax asset of \$6 million, after federal tax effect, and before valuation allowance. The New Jersey net operating loss carryforwards began to expire in 2005.

At December 31, 2006, there is a \$6 million valuation allowance provided on certain New Jersey state net operating loss carryforwards and other New Jersey state deferred tax assets, a valuation allowance of \$2 million on the foreign tax credit, and a \$2 million valuation allowance related to certain foreign deferred tax assets because management believes these assets do not meet the "more likely than not" criteria for recognition under SFAS 109. Management believes all other deferred tax assets are more likely than not to be realized because of the future reversal of existing taxable temporary differences and expected future taxable income. Accordingly, there are no other valuation allowances provided at December 31, 2006.

The United States Treasury issued guidance during 2005 that clarified provisions of the American Job Creation Act of 2004 (the Act) that provide for a special one-time deduction of 85 percent on certain repatriated earnings of foreign subsidiaries. This guidance clarified for the Company that the planned repatriation of the net proceeds of its Australia operations would qualify for the one-time deduction. Consequently, the Company repatriated the net proceeds during 2005 and secured the benefits of the deduction. Since the Company provided deferred taxes in 2004 on the basis that the net proceeds would be repatriated without the benefit of the one-time deduction, a tax benefit of \$10 million was recorded in 2005 to reflect the benefit of the Act. The Company considered the earnings of its Australia operations permanently reinvested prior to the sale of such operations in 2004.

NOTE 12 COMMITMENTS AND CONTINGENCIES

Leases. The Company leases real estate and various equipment under operating and, to a lesser extent, capital lease arrangements. Certain real estate leases provide for escalation of rent based upon a specified price index and/or based upon periodic appraisals.

Table of Contents

At December 31, 2006, the Company was obligated under non-cancelable operating leases and capital leases to make future minimum lease payments as follows:

	Operating Leases	Capital Leases
	(In thousands)	
Years ending December 31,		
2007	\$ 16,367	\$ 1,800
2008	13,796	808

Less: Amounts representing interest		(238)
Total obligations under capital leases		3,058

The majority of the operating lease amounts relate to ground leases for land in Primm, Nevada. These lease obligations are included in the pending sale of the Primm Valley Resorts. The current and long-term obligations under capital leases are included in Other accrued liabilities and Other long-term obligations, respectively, in the accompanying consolidated balance sheets. Rental expense for operating leases, including rental expense of discontinued operations, was \$29 million, \$28 million and \$13 million for the years ended December 31, 2006, 2005 and 2004, respectively.

Detroit Development Agreement. Under the August 2002 revised development agreement with the City of Detroit, MGM Grand Detroit, LLC and the Company are subject to certain obligations in exchange for the ability to develop a permanent casino complex. The Company recorded an intangible asset (development rights, deemed to have an indefinite life) in connection with its obligations under the revised development agreement. Outstanding obligations include continued letter of credit support for \$50 million of bonds issued by the Economic Development Corporation of the City of Detroit, which mature in 2009. In addition, the City required an indemnification of up to \$20 million for certain litigation related to the permanent casino process, of which \$2.5 million had been paid as of December 31, 2006. In April 2005, the Sixth Court of Appeals ruled on all outstanding aspects of the Lac Vieux-related litigation, including approving the settlement agreement among Lac Vieux, MotorCity Casino and Greektown Casino, dismissing Lac Vieux's request for a reselection process for the subsidiary's MGM Grand Detroit's casino franchise and lifting the injunction prohibiting the City and the casino developers from commencing construction of the permanent hotel-casino complexes. At December 31, 2006 the Company has an accrual of \$2.5 million for the remaining litigation subject to the indemnification. In addition to the above obligations, the Company began paying the City of Detroit 2% of gaming revenues beginning January 1, 2006.

New York Racing Association. The Company has entered into a definitive agreement with the New York Racing Association (NYRA) to manage video lottery terminals (VLTs) at NYRA's Aqueduct horseracing facility in metropolitan New York. Subject to receipt of requisite New York State approvals, the Company will assist in the development of the facility, including providing project financing up to \$190 million, and will manage the facility for a term of five years (extended automatically if the financing provided by the Company is not fully repaid) for a fee. The Company believes that its agreement with respect to installation of VLTs at Aqueduct would extend past the

expiration of NYRA's current racing franchise and would be binding on any successor to NYRA in the event NYRA is not granted a new racing franchise. NYRA's recent filing for reorganization under Chapter 11 has introduced additional uncertainties, but the Company remains committed to the development once these uncertainties are resolved.

The Signature at MGM Grand. The Company provided guarantees for the debt financing on Towers 1, 2 and 3 of The Signature at MGM Grand. The loan amounts for Towers 1 and 2 have been completely repaid as of December 31, 2006, relieving the Company's guaranty obligation for Towers 1 and 2. The Company's obligation on Tower 3 generally provides for a guaranty of 50% of the principal and interest, with the guaranty decreasing by 50% relative to the principal when construction is 50% complete. The remaining 50% of interest and principal obligations is guaranteed by affiliates of the venture's other investor. The Company and the affiliates have also jointly and severally provided a completion guaranty.

The maximum borrowings allowed for Tower 3 is \$186 million. At December 31, 2006, the Company had recorded a guaranty obligation liability of \$1 million for Tower 3, classified in Other long-term obligations in the accompanying consolidated balance sheets.

Other guarantees. The Company is party to various guarantee contracts in the normal course of business, which are generally supported by letters of credit issued by financial institutions. The Company's senior credit facility limits the amount of letters of credit that can be issued to \$250 million, and the amount of available borrowings under the senior credit facility is reduced by any outstanding letters of credit. At December 31, 2006, the Company had provided a \$50 million letter of credit to support the Economic Development Corporation of the City of Detroit bonds referred to above, which are a liability of the Company.

Mashantucket Pequot Tribal Nation. The Company has agreed to enter a strategic alliance, subject to definitive agreements, with the Mashantucket Pequot Tribal Nation (MPTN). The strategic alliance has several elements, one of which calls for the creation of a 50/50 joint venture to seek future development opportunities. The Company has agreed to provide a development subsidiary of MPTN with a loan of up to \$200 million intended to fund a portion of that subsidiary's matching investment in any future joint development projects.

Litigation. The Company is a party to various legal proceedings, most of which relate to routine matters incidental to its business. Management does not believe that the outcome of such proceedings will have a material adverse effect on the Company's financial position or results of operations.

NOTE 13 STOCKHOLDERS' EQUITY

Stock split. In May 2005, the Company completed a 2-for-1 stock split effected in the form of a 100% stock dividend. All share and per share data in the accompanying financial statements and notes thereto have been restated for all periods presented to reflect the 100% stock dividend.

Stock repurchases. Share repurchases are only conducted under repurchase programs approved by the Board of Directors and publicly announced. Share repurchase activity was as follows:

	Year Ended December 31,		
	2006	2005	2004
	(In thousands)		
November 2003 authorization (16 million shares purchased)	\$	\$	\$ 348,895

Average price of shares repurchased	\$ 37.98	\$ 39.51	\$ 21.80

At December 31, 2006, the Company had 8 million shares available for repurchase under the July 2004 authorization.

Table of Contents**NOTE 14 STOCK-BASED COMPENSATION**

Adoption of SFAS 123(R). Effective January 1, 2006, the Company accounts for stock-based compensation in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)). The Company previously accounted for stock-based compensation in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and the Financial Accounting Standards Board's Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25, and disclosed supplemental information in accordance with Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (SFAS 123). Under these standards, the Company did not incur compensation expense for employee stock options when the exercise price was at least 100% of the market value of the Company's common stock on the date of grant. SFAS 123(R) requires that all stock-based compensation, including shares and share-based awards to employees, be valued at fair value. The Company measures fair value of share-based awards using the Black-Scholes model.

Under SFAS 123(R), compensation is attributed to the periods of associated service. For awards granted prior to January 1, 2006, such expense is being recognized on an accelerated basis since that is the method the Company previously applied in its supplemental disclosures. Beginning with awards granted on January 1, 2006, such expense is being recognized on a straight-line basis over the vesting period of the awards. Forfeitures are estimated at the time of grant, with such estimate updated periodically and with actual forfeitures recognized currently to the extent they differ from the estimate.

The Company adopted SFAS 123(R) by applying the modified-prospective transition method. Under this method, the Company began applying the valuation and other criteria of SFAS 123(R) on January 1, 2006, and began recognizing expense for the unvested portion of previously issued grants at the same time, based on the valuation and attribution methods originally used to calculate the disclosures.

The impact of adopting SFAS 123(R) was as follows, due to the incremental compensation cost recognized for employee stock options and stock appreciation rights:

	Year Ended December 31, 2006 (In thousands, except per share amounts)
Incremental stock-based compensation under SFAS123(R)	\$ 71,186
Less: Amounts capitalized	(798)
Total stock-based compensation recognized as expense	\$ 70,388
Recorded in continuing operations	\$ 69,121
Recorded in discontinued operations	\$ 1,267
Reduction of income from continuing operations	\$ 45,090
Reduction in net income	\$ 45,914
Reduction in basic earnings per share	\$ 0.16
Reduction in diluted earnings per share	\$ 0.16

In addition, SFAS 123(R) requires the excess tax benefits from stock option exercises tax deductions in excess of compensation cost recognized to be classified as a financing activity. Previously, all tax benefits from stock option exercises were classified as operating activities. Had the Company not adopted SFAS 123(R), the \$48 million of excess tax benefits classified as a financing cash inflow would have been classified as an operating cash inflow.

Information about the Company's share-based awards. The Company adopted an omnibus incentive plan in 2005 which allows for the granting of stock options, stock appreciation rights, restricted stock, and other stock-based awards to eligible directors, officers and employees. The plans are administered by the Compensation and Stock Option Committee (the "Committee") of the Board of Directors. Salaried officers, directors and other key employees of the Company and its subsidiaries are eligible to receive awards. The Committee has discretion under the omnibus plan regarding which type of awards to grant, the vesting and service requirements, exercise price and other conditions, in all cases subject to certain limits, including:

The omnibus plan allowed for the issuance of up to 20 million shares or share-based awards;

For stock options and stock appreciation rights, the exercise price of the award must equal the fair market value of the stock on the date of grant and the maximum term of such an award is ten years.

To date, the Committee has only awarded stock options and stock appreciation rights under the omnibus plan. The Company's practice has been to issue new shares upon the exercise of stock options. Under the Company's previous plans, the Committee had issued stock options and restricted stock. Stock options and stock appreciation rights granted under all plans generally have either 7-year or 10-year terms, and in most cases are exercisable in either four or five equal annual installments. Restrictions on restricted shares granted under a previous plan lapsed 50% on the third anniversary date after the grant and 50% on the fourth anniversary date after the grant.

As of December 31, 2006, the aggregate number of share-based awards available for grant under the omnibus plan was 4.7 million. A summary of activity under the Company's share-based payment plans for the year ended December 31, 2006 is presented below:

Stock options and stock appreciation rights

	Shares (000's)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (\$000's)
Outstanding at January 1, 2006	34,825	\$ 22.93		
Granted	1,914	42.54		
Exercised	(5,623)	15.85		
Forfeited or expired	(584)	27.95

Exercisable at December 31, 2006	10,602	18.89	5.2	\$ 407,700

The total intrinsic value of stock options and stock appreciation rights exercised during the year ended December 31, 2006, 2005 and 2004 was \$166 million, \$256 million, and \$115 million, respectively. The Company received proceeds from the exercise of employee stock options of \$89 million, \$146 million and \$136 million for the years ended December 31, 2006, 2005 and 2004, respectively. The total income tax benefits from stock option exercises during the year ended December 31, 2006, 2005 and 2004 were \$56 million, \$89 million and \$39 million, respectively. As of December 31, 2006, there was a total of \$99 million of unamortized compensation related to stock options and stock appreciation rights, which cost is expected to be recognized over a weighted-average period of 2.3 years.

Table of Contents

During the year ended December 31, 2006, restrictions lapsed with respect to 830,000 shares with a total fair value of \$15 million. During the year ended December 31, 2005, restrictions lapsed with respect to 852,000 shares with a total fair value of \$15 million. In the year ended December 31, 2006 and 2005, certain recipients of restricted shares elected to use a portion of the shares in which restrictions lapsed to pay required withholding taxes. Approximately 280,000 and 261,000 shares, respectively, were surrendered in the years ended December 31, 2006 and 2005. As of December 31, 2006, there was no unamortized compensation related to restricted stock.

Recognition of compensation cost. The following table shows information about compensation cost recognized:

	Year Ended December 31,		
	2006	2005	2004
	(In thousands)		
Compensation cost:			
Stock options and stock appreciation rights	\$ 71,386	\$ 139	\$ 78
Restricted stock	3,038	7,184	7,092
Total compensation cost	74,424	7,323	7,170
Less: Compensation cost capitalized	(798)		
Compensation cost recognized as expense	73,626	7,323	7,170
Less: Related tax benefit	(24,901)	(1,204)	(1,326)
Compensation expense, net of tax benefit	\$ 48,725	\$ 6,119	\$ 5,844

Compensation cost for stock options and stock appreciation rights was based on the fair value of each award, measured by applying the Black-Scholes model on the date of grant, using the following weighted-average assumptions (assumptions in 2005 were used to compute the pro forma compensation for disclosure purposes only):

	Year Ended December 31,		
	2006	2005	2004
	(In thousands)		
Expected volatility	33%	37%	42%
Expected term	4.1 years	4.3 years	5.0 years
Expected dividend yield	0%	0%	0%
Risk-free interest rate	4.9%	3.8%	3.4%
Forfeiture rate	4.6%	0%	0%
Weighted-average fair value of options granted	\$ 14.50	\$ 12.73	\$ 9.55

Expected volatility is based in part on historical volatility and in part on implied volatility based on traded options on the Company's stock. The expected term considers the contractual term of the option as well as historical exercise and forfeiture behavior. The risk-free interest rate is based on the rates in effect on the grant date for US Treasury instruments with maturities matching the relevant expected term of the award.

Pro forma disclosures. Had the Company accounted for these plans during 2005 and 2004 under the fair value method allowed by SFAS 123, the Company's net income and earnings per share would have been reduced to recognize the fair value of employee stock options, as follows:

Year Ended December 31,	
2005	2004
(In thousands)

Table of Contents**NOTE 15 EMPLOYEE BENEFIT PLANS**

Employees of the Company who are members of various unions are covered by union-sponsored, collectively bargained, multi-employer health and welfare and defined benefit pension plans. The Company recorded an expense of \$189 million in 2006, \$161 million in 2005 and \$86 million in 2004 under such plans. The plans sponsors have not provided sufficient information to permit the Company to determine its share of unfunded vested benefits, if any.

The Company is self-insured for most health care benefits for its non-union employees. The liability for claims filed and estimates of claims incurred but not reported \$24 million and \$28 million at December 31, 2006 and 2005, respectively is included in Other accrued liabilities in the accompanying consolidated balance sheets.

The Company has retirement savings plans under Section 401(k) of the Internal Revenue Code for eligible employees. The plans allow employees to defer, within prescribed limits, up to 30% of their income on a pre-tax basis through contributions to the plans. The Company matches, within prescribed limits, a portion of eligible employees contributions. In the case of certain union employees, the Company contributions to the plan are based on hours worked. The Company recorded charges for 401(k) contributions of \$27 million in 2006, \$19 million in 2005 and \$12 million in 2004.

The Company maintains a nonqualified deferred retirement plan for certain key employees. The plan allows participants to defer, on a pre-tax basis, a portion of their salary and bonus and accumulate tax deferred earnings, plus investment earnings on the deferred balances, as a retirement fund. Participants receive a Company match of up to 4% of salary, net of any Company match received under the Company's 401(k) plan. All employee deferrals vest immediately. The Company matching contributions vest ratably over a three-year period. The Company recorded charges for matching contributions of \$2 million in 2006 and 2005 and \$1 million in 2004.

The Company implemented a supplemental executive retirement plan (SERP) for certain key employees effective January 1, 2001. The SERP is a nonqualified plan under which the Company makes quarterly contributions which are intended to provide a retirement benefit that is a fixed percentage of a participant's estimated final five-year average annual salary, up to a maximum of 65%. Company contributions and investment earnings on the contributions are tax-deferred and accumulate as a retirement fund. Employees do not make contributions under this plan. A portion of the Company contributions and investment earnings thereon vests after three years of SERP participation and the remaining portion vests after both five years of SERP participation and 10 years of continuous service. The Company recorded expense under this plan of \$7 million in 2006, \$6 million in 2005 and \$5 million in 2004.

NOTE 16 RESTRUCTURING COSTS

Restructuring costs (credit) consisted of the following:

	Year Ended December 31,		
	2006	2005	2004

Contract termination costs	\$	\$	\$ 3,693
Other	1,035	(59)	1,932
	\$ 1,035	\$ (59)	\$ 5,625

There were no material restructuring activities in 2006 and 2005. At December 31, 2006, there were no material restructuring accruals as all material restructuring costs have been fully paid or otherwise resolved. In 2004, restructuring costs include \$3 million for contract termination costs related to the Aqua restaurant at Bellagio and \$2 million of workforce reduction costs at MGM Grand Detroit as a result of the Company's efforts to minimize the impact of a gaming tax increase in Michigan.

Other net losses on asset sales or disposals	3,823	3,037	704
	\$ (40,980)	\$ 37,021	\$ 8,234

Impairments in 2006 included \$22 million related to the write-off of the tram connecting Bellagio and Monte Carlo, including the stations at both resorts, in preparation for construction of CityCenter. Other impairments related to assets being replaced in connection with several smaller capital projects, primarily at MGM Grand Las Vegas, Mandalay Bay and The Mirage, as well as the \$4 million write-off of Luxor's investment in the *Hairspray* show. Insurance recoveries in 2006 relate to the interim insurance recoveries received related to property damage from Hurricane Katrina in excess of the book value of the damaged assets and post-storm costs incurred as of December 31, 2006. See Note 2 under "Financial statement impact of Hurricane Katrina" for further discussion.

In 2005, recognized impairments relate primarily to assets removed from service in connection with new capital projects at several resorts, including Bellagio, TI, The Mirage and Mandalay Bay. The amount of the impairments was based on the net book value of the disposed assets. Demolition costs related primarily to room remodel activity at MGM Grand Las Vegas and the new showroom at The Mirage.

Demolition costs in 2004 primarily relate to the Bellagio room remodel and expansion projects and the *KÀ* theatre at MGM Grand Las Vegas.

NOTE 18 RELATED PARTY TRANSACTIONS

Borgata leases 10 acres from the Company on a long-term basis for use in its current operations and for its expansion, and nine acres from the Company on a short-term basis for surface parking. Total payments received from Borgata under these lease agreements were \$6 million, \$4 million, and \$1 million for the years ended December 31, 2006, 2005, and 2004, respectively.

Prior to the Mandalay merger the Company made payments to Monte Carlo for lost business as a result of closing the tram between Bellagio and Monte Carlo in preparation for the Bellagio expansion. These payments totaled \$1 million and \$4 million in 2005 and 2004, respectively.

The Company pays legal fees to a firm affiliated with the Company's general counsel. Payments to the firm totaled \$8 million, \$13 million, and \$4 million for the years ended December 31, 2006, 2005, and 2004, respectively. At December 31, 2006, the Company owed the firm \$5 million.

The Company has occasionally chartered aircraft from its majority shareholder, Tracinda, and pays Tracinda at market rates. Payments to Tracinda for the use of its aircraft totaled \$2 million for the year ended December 31, 2006; amounts in 2005 and 2004 were not material.

Because income per share amounts are calculated using the weighted average number of common and dilutive common equivalent shares outstanding during each quarter, the sum of the per share amounts for the four quarters may not equal the total income per share amounts for the year. Quarterly financial results for the first, second, and third quarters of 2006 and all four quarters in 2005 have been restated to reflect discontinued operations related to the pending sales of Primm Valley Resorts and the Laughlin Properties.

As disclosed in Note 2, Beau Rivage closed in August 2005 due to damage sustained from Hurricane Katrina and re-opened one year later. In addition, we recorded income from insurance recoveries of \$86 million, pre-tax, in the fourth quarter of 2006. The impact on diluted net income per share of the insurance recoveries was \$0.19 for the fourth quarter and full year of 2006.

NOTE 21 SUBSEQUENT EVENT

In February 2007, the Company entered into an operating agreement to form a 50/50 joint venture with Jeanco Realty Development, LLC. The venture will master plan and develop a mixed-use community in Jean, Nevada. The Company will contribute the Jean Properties and surrounding land to the joint venture. Nevada Landing is expected to close in April 2007.
