Notes to Financial Statements  
December 31, 2002

## NOTE 1 - Organization

The Company was organized on June 4, 1926 under the laws of the state of Utah using the name of M.M. Lead Company. On February 22, 1980 a Certificate of Amendment was filed with the state of Utah changing the name to Basic Energy, Inc. The Company has been dormant for many years and is considered to be a development stage company.

## NOTE 2 - Significant Accounting Policies

- A. The Company uses the accrual method of accounting.
- B. Revenues and directly related expenses are recognized in the period when the goods are shipped to the customer.
- C. The Company considers all short term, highly liquid investments that are readily convertible, within three months, to known amounts as cash equivalents. The Company currently has no cash equivalents.
- D. Primary Earnings Per Share amounts are based on the weighted average number of shares outstanding at the dates of the financial statements. Fully Diluted Earnings Per Shares shall be shown on stock options and other convertible issues that may be exercised within ten years of the financial statement dates.
- E. Estimates: The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

## NOTE 3 - Stockholders= Equity - Common Stock

During the year ended June 30, 2002, the Company issued 792,196 shares to officers and directors for services and out of pocket expenses. The shares were issued at \$0.10 per share.

## NOTE 4 - Going Concern

The Company has had recurring operating losses since inception and is dependent upon financing to continue operations. These factors indicate that the Company may be unable to continue in existence. These financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue its existence. These financial statements do not include any adjustments that might result from the outcome of this uncertainty. It is the intent of the Company to find additional capital funding and/or a profitable business venture to acquire or merge.
