TYSON FOODS, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1: ACCOUNTING POLICIES

BASIS OF PRESENTATION

The consolidated condensed financial statements have been prepared by Tyson Foods, Inc. (“Tyson,” “the Company,” “we,” “us” or “our”). Certain information and accounting policies and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations. Although we believe the disclosures contained herein are adequate to make the information presented not misleading, these consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our annual report on Form 10-K for the fiscal year ended September 29, 2012. Preparation of consolidated condensed financial statements requires us to make estimates and assumptions. These estimates and assumptions affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated condensed financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

We believe the accompanying consolidated condensed financial statements contain all adjustments, which are of a normal recurring nature, necessary to state fairly our financial position as of June 29, 2013, and the results of operations for the three and nine months ended June 29, 2013, and June 30, 2012. Results of operations and cash flows for the periods presented are not necessarily indicative of results to be expected for the full year.

CONSOLIDATION

The consolidated condensed financial statements include the accounts of all wholly-owned subsidiaries, as well as majority-owned subsidiaries over which we exercise control and, when applicable, entities for which we have a controlling financial interest or variable interest entities for which we are the primary beneficiary. All significant intercompany accounts and transactions have been eliminated in consolidation.

VARIABLE INTEREST ENTITIES

We have an investment in a joint venture, Dynamic Fuels LLC (Dynamic Fuels), in which we have a 50 percent ownership interest. Dynamic Fuels qualifies as a variable interest entity for which we consolidate as we are the primary beneficiary. At June 29, 2013, Dynamic Fuels had \$168 million of total assets, of which \$144 million was net property, plant and equipment, and \$111 million of total liabilities, of which \$100 million was long-term debt. At September 29, 2012, Dynamic Fuels had \$177 million of total assets, of which \$146 million was net property, plant and equipment, and \$124 million of total liabilities, of which \$100 million was long-term debt.

SHARE REPURCHASES

A summary of cumulative share repurchases of our Class A common stock is as follows (in millions):

	Three Months Ended				Nine Months Ended			
	June 29, 2013		June 30, 2012		June 29, 2013		June 30, 2012	
	Shares	Dollars	Shares	Dollars	Shares	Dollars	Shares	Dollars
Shares repurchased:								
Under share repurchase program	4.0	\$100	3.9	\$75	11.2	\$250	9.3	\$180
To fund certain obligations under equity compensation plans	0.4	10	0.4	6	2.3	48	1.6	29
Total share repurchases	4.4	\$110	4.3	\$81	13.5	\$298	10.9	\$209

As of June 29, 2013, 24 million shares remained available for repurchase under our share repurchase program. The share repurchase program has no fixed or scheduled termination date and the timing and extent to which we repurchase shares will depend upon, among other things, our working capital needs, market conditions, liquidity targets, our debt obligations and regulatory requirements. In addition to the share repurchase program, we purchase shares on the open market to fund certain obligations under our equity compensation plans.

Table of Contents**RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS**

In June 2011, the FASB issued guidance regarding the presentation of comprehensive income. This guidance is effective for annual periods, and interim periods within those years, beginning after December 15, 2011. We adopted this guidance in the first quarter of fiscal year 2013. The adoption required a separate statement of comprehensive income and additional disclosures on our consolidated condensed financial statements.

In February 2013, the FASB issued guidance clarifying disclosures related to amounts reclassified out of accumulated other comprehensive income by component. We adopted this guidance in the second quarter of fiscal year 2013. The adoption required additional disclosures on our consolidated condensed financial statements.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2011 and February 2013, the FASB issued guidance enhancing disclosures related to offsetting of certain assets and liabilities. This guidance is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. We do not expect the adoption will have a significant impact on our consolidated condensed financial statements.

NOTE 2: ACQUISITIONS

During the nine months of fiscal 2013, we acquired two value-added food businesses as part of our strategic expansion initiative which are included in our Prepared Foods segment. The aggregate purchase price of the acquisitions was \$106 million, which included \$50 million for property, plant and equipment, \$41 million allocated to Intangible Assets and \$12 million allocated to Goodwill.

NOTE 3: DISCONTINUED OPERATION

After conducting an assessment during fiscal 2013 of our long-term business strategy in China, we determined our Weifang operation (Weifang), which was part of our Chicken segment, was no longer core to the execution of our strategy given the capital investment it required to execute our future business plan. Consequently, in the second quarter of fiscal 2013, we conducted an impairment test and recorded a \$56 million impairment charge. In the third quarter of fiscal 2013, we entered into an agreement to sell Weifang, which resulted in reporting it as a discontinued operation. The sale was completed in July 2013 and did not result in a significant gain or loss.

The carrying amount of Weifang's assets and liabilities held for sale at June 29, 2013, were \$30 million and \$29 million and are recorded in Other current assets and Other current liabilities in our Consolidated Condensed Balance Sheets, respectively.

Weifang's prior periods results, including the impairment charge, have been reclassified and presented as a discontinued operation in our Consolidated Condensed Statements of Income. The following is a summary of the discontinued operation's results (in millions):

	Three Months Ended		Nine Months Ended	
	June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012
Sales	\$36	\$47	\$108	\$165
Pretax loss	(2) (6) (68) (16
Income tax expense	2	—	2	—
Loss from Discontinued Operation	\$(4) \$(6) \$(70) \$(16

NOTE 4: INVENTORIES

Processed products, livestock and supplies and other are valued at the lower of cost or market. Cost includes purchased raw materials, live purchase costs, growout costs (primarily feed, contract grower pay and catch and haul costs), labor and manufacturing and production overhead, which are related to the purchase and production of inventories. Total inventory consists of the following (in millions):

	June 29, 2013	September 29, 2012
Processed products:		
Weighted-average method – chicken and prepared foods	\$864	\$754
First-in, first-out method – beef and pork	628	611
Livestock – first-in, first-out method	1,003	952

Edgar Filing: TYSON FOODS INC - Form 10-Q

Supplies and other – weighted-average method	406	492
Total inventories	\$2,901	\$2,809

8

NOTE 6: OTHER CURRENT LIABILITIES

Other current liabilities are as follows (in millions):

	June 29, 2013	September 29, 2012
Accrued salaries, wages and benefits	\$381	\$382
Self-insurance reserves	272	274
Other	468	287
Total other current liabilities	\$1,121	\$943

NOTE 7: DEBT

The major components of debt are as follows (in millions):

	June 29, 2013	September 29, 2012
Revolving credit facility	\$—	\$—
Senior notes:		
3.25% Convertible senior notes due October 2013 (2013 Notes)	458	458
6.60% Senior notes due April 2016 (2016 Notes)	638	638
7.00% Notes due May 2018	120	120
4.50% Senior notes due June 2022 (2022 Notes)	1,000	1,000
7.00% Notes due January 2028	18	18
Discount on senior notes	(12)	(28)
GO Zone tax-exempt bonds due October 2033 (0.06% at 6/29/2013)	100	100
Other	85	126
Total debt	2,407	2,432
Less current debt	508	515
Total long-term debt	\$1,899	\$1,917

Revolving Credit Facility

We have a \$1.0 billion revolving credit facility that supports short-term funding needs and letters of credit. The facility will mature and the commitments thereunder will terminate in August 2017. After reducing the amount available by outstanding letters of credit issued under this facility, the amount available for borrowing at June 29, 2013, was \$944 million. At June 29, 2013, we had outstanding letters of credit issued under this facility totaling \$56 million, none of which were drawn upon. We had an additional \$146 million of bilateral letters of credit issued separately from the revolving credit facility, none of which were drawn upon. Our letters of credit are issued primarily in support of workers' compensation insurance programs, derivative activities and Dynamic Fuels' Gulf Opportunity Zone tax-exempt bonds.

Table of Contents

This facility is unsecured. However, if at any time (the Collateral Trigger Date) we shall fail to have (a) a corporate rating from Moody's Investors Service, Inc. (Moody's) of "Ba1" or better, (b) a corporate rating from Standard & Poor's Ratings Services, a Standard & Poor's Financial Services LLC business (S&P), of "BB+" or better, or (c) a corporate rating from Fitch Ratings, a wholly owned subsidiary of Fimalac, S.A. (Fitch), of "BB+" or better, we, any subsidiary that has guaranteed any material indebtedness of the Company, and substantially all of our other domestic subsidiaries shall be required to secure the obligations under the credit agreement and related documents with a first-priority perfected security interest in our and such subsidiary's cash, deposit and securities accounts, accounts receivable and related assets, inventory and proceeds of any of the foregoing (the Collateral Requirement).

If on any date prior to any Collateral Trigger Date we shall have (a) a corporate rating from Moody's of "Baa2" or better, (b) a corporate rating from S&P of "BBB" or better and (c) a corporate rating from Fitch of "BBB" or better, in each case with stable or better outlook, then the Collateral Requirement will no longer be effective.

This facility is fully guaranteed by Tyson Fresh Meats, Inc (TFM Parent), our wholly owned subsidiary, until such date TFM Parent is released from all of its guarantees of other material indebtedness. If in the future any of our other subsidiaries shall guarantee any of our material indebtedness, such subsidiary shall also be required to guarantee the indebtedness, obligations and liabilities under this facility.

2013 Notes

In September 2008, we issued \$458 million principal amount 3.25% convertible senior unsecured notes due October 15, 2013, with interest payable semi-annually in arrears on April 15 and October 15. At June 29, 2013, the conversion rate was 59.5866 shares of Class A stock per \$1,000 principal amount of notes, which is equivalent to a conversion price of \$16.78 per share of Class A stock. The conversion rate and conversion price of the 2013 Notes are subject to adjustments which include, among other events, making cash dividends or distributions to the holders of our Class A common stock during any quarterly fiscal period in excess of \$0.04 per share. Upon conversion, we will deliver cash up to the aggregate principal amount of the 2013 Notes to be converted and shares of our Class A stock in respect of the remainder, if any, of our conversion obligation in excess of the aggregate principal amount of the 2013 Notes being converted.

Conditions for early conversion were met in our third quarter of fiscal 2013, and thus, holders maintain the option to convert the 2013 Notes during our fourth quarter of fiscal 2013. On and after July 15, 2013, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert their notes at any time. Should the holders exercise the early conversion option on or after July 15, 2013, we would be required to make such delivery of cash and Class A stock, if any, at the October 15, 2013 maturity date. As of August 2, 2013, there were no significant early conversions.

The 2013 Notes were originally accounted for as a combined instrument because the conversion feature did not meet the requirements to be accounted for separately as a derivative financial instrument. However, we adopted new accounting guidance in the first quarter of fiscal 2010 and applied it retrospectively to all periods presented. This new accounting guidance required us to separately account for the liability and equity conversion features. Upon retrospective adoption, our effective interest rate on the 2013 Notes was determined to be 8.26%, which resulted in the recognition of a \$92 million discount to these notes with the offsetting after tax amount of \$56 million recorded to capital in excess of par value. This discount is being accreted over the five-year term of the convertible notes at the effective interest rate.

In connection with the issuance of the 2013 Notes, we entered into separate convertible note hedge transactions with respect to our Class A stock to minimize the potential economic dilution upon conversion of the 2013 Notes. We also entered into separate warrant transactions. We recorded the purchase of the note hedge transactions as a reduction to capital in excess of par value, net of \$36 million pertaining to the related deferred tax asset, and we recorded the proceeds of the warrant transactions as an increase to capital in excess of par value. Subsequent changes in fair value of these instruments are not recognized in the financial statements as long as the instruments continue to meet the criteria for equity classification.

We purchased call options in private transactions for \$94 million that permit us to acquire up to approximately 27 million shares of our Class A stock at the current strike price of \$16.78 per share, subject to adjustment. The call options allow us to acquire a number of shares of our Class A stock initially equal to the number of shares of Class A

stock issuable to the holders of the 2013 Notes upon conversion. These call options contractually expire upon the maturity of the 2013 Notes.

We sold warrants in private transactions for total proceeds of \$44 million. The warrants permit the purchasers to acquire up to approximately 27 million shares of our Class A stock at the current exercise price of \$22.17 per share, subject to adjustment. The warrants are exercisable on various dates from January 2014 through April 2014.

Table of Contents

The maximum amount of shares that may be issued to satisfy the conversion of the 2013 Notes is limited to 35.9 million shares. However, the convertible note hedge and warrant transactions, in effect, increase the conversion price of the 2013 Notes from \$16.78 per share to \$22.17 per share, thus reducing the potential future economic dilution associated with conversion of the 2013 Notes. If our share price is below \$22.17 upon exercise of the warrants, there is no economic net share impact. A 10% increase in our share price above the \$22.17 warrant exercise price would result in the issuance of 2.5 million incremental shares. At \$25.68, our closing share price on June 29, 2013, the incremental shares we would be required to issue upon exercise of the warrants would have resulted in 3.7 million shares. The 2013 Notes and the warrants have a dilutive effect on our earnings per share to the extent the price of our Class A stock during a given measurement period exceeds the respective exercise prices of those instruments. The call options are excluded from the calculation of diluted earnings per share as their impact is anti-dilutive.

2016 Notes

The 2016 Notes carry an interest rate at issuance of 6.60%, with an interest step up feature dependent on their credit rating. On February 11, 2013, S&P upgraded the credit rating of the 2016 Notes from "BBB-" to "BBB." This upgrade did not impact the interest rate on the 2016 Notes.

On June 7, 2012, Moody's upgraded the credit rating of the 2016 Notes from "Ba1" to "Baa3." This upgrade decreased the interest rate on the 2016 Notes from 6.85% to 6.60%, effective beginning with the six-month interest payment due October 1, 2012.

GO Zone Tax-Exempt Bonds

In October 2008, Dynamic Fuels received \$100 million in proceeds from the sale of Gulf Opportunity Zone tax-exempt bonds made available by the federal government to the regions affected by Hurricanes Katrina and Rita in 2005. These floating rate bonds are due October 1, 2033. In November 2008, we entered into an interest rate swap related to these bonds to mitigate our interest rate risk on a portion of the bonds for five years. We also issued a letter of credit as a guarantee for the entire bond issuance. If any amounts are disbursed related to this guarantee, we would seek recovery of 50% (up to \$50 million) from Syntroleum Corporation in accordance with our 2008 warrant agreement with Syntroleum Corporation.

Debt Covenants

Our revolving credit facility contains affirmative and negative covenants that, among other things, may limit or restrict our ability to: create liens and encumbrances; incur debt; merge, dissolve, liquidate or consolidate; dispose of or transfer assets; change the nature of our business; engage in certain transactions with affiliates; and enter into sale/leaseback or hedging transactions, in each case, subject to certain qualifications and exceptions. In addition, we are required to maintain minimum interest expense coverage and maximum debt-to-capitalization ratios.

Our 2022 Notes also contain affirmative and negative covenants that, among other things, may limit or restrict our ability to: create liens; engage in certain sale/leaseback transactions; and engage in certain consolidations, mergers and sales of assets.

We were in compliance with all debt covenants at June 29, 2013.

NOTE 8: INCOME TAXES

The effective tax rate for continuing operations was 35.4% and 40.2% for the third quarter of fiscal 2013 and 2012, respectively, and 32.6% and 35.9% for the nine months of fiscal 2013 and 2012, respectively. The effective tax rates for the third quarter and nine months of fiscal 2013 were impacted by such items as the domestic production deduction, state income taxes and losses in foreign jurisdictions for which no benefit is recognized. The effective tax rate for the nine months of fiscal 2013 was also impacted by the second quarter non-taxable currency translation adjustment gain and the retroactive extension of tax credits.

Unrecognized tax benefits were \$171 million and \$168 million at June 29, 2013, and September 29, 2012, respectively. The amount of unrecognized tax benefits, if recognized, that would impact our effective tax rate was \$151 million and \$154 million at June 29, 2013, and September 29, 2012, respectively.

We classify interest and penalties on unrecognized tax benefits as income tax expense. At June 29, 2013, and September 29, 2012, before tax benefits, we had \$63 million and \$64 million, respectively, of accrued interest and penalties on unrecognized tax benefits.

We are subject to income tax examinations for U.S. federal income taxes for fiscal years 2004 through 2012, for state and local income taxes for fiscal years 2003 through 2012 and for foreign income taxes for fiscal years 2002 through 2012. During the next twelve months, it is reasonably possible the amount of unrecognized tax benefits could decrease by \$15 million due to audit settlements and the expiration of statutes of limitations.

Table of Contents

NOTE 9: OTHER INCOME AND CHARGES

During the nine months of fiscal 2013, we recorded a \$19 million currency translation adjustment gain recognized in conjunction with the receipt of proceeds constituting the final resolution of our investment in Canada, which was recorded in the Consolidated Condensed Statements of Income in Other, net.

During the nine months of fiscal 2012, we recorded \$11 million of equity earnings in joint ventures and \$4 million in net foreign currency exchange gains, which were recorded in the Consolidated Condensed Statements of Income in Other, net.

NOTE 10: EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share (in millions, except per share data):

	Three Months Ended		Nine Months Ended		
	June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012	
Numerator:					
Income from continuing operations	\$249	\$79	\$589	\$411	
Less: Net income (loss) from continuing operations attributable to noncontrolling interest	(4) (3) 2	(3)
Net income from continuing operations attributable to Tyson	253	82	587	414	
Less Dividends Declared:					
Class A	14	12	74	36	
Class B	3	3	16	8	
Undistributed earnings	\$236	\$67	\$497	\$370	
Class A undistributed earnings	\$193	\$56	\$406	\$305	
Class B undistributed earnings	43	11	91	65	
Total undistributed earnings	\$236	\$67	\$497	\$370	
Denominator:					
Denominator for basic earnings per share:					
Class A weighted average shares	283	291	284	294	
Class B weighted average shares, and shares under the if-converted method for diluted earnings per share	70	70	70	70	
Effect of dilutive securities:					
Stock options and restricted stock	5	5	5	5	
Convertible 2013 Notes and Warrants	11	3	7	4	
Denominator for diluted earnings per share – adjusted weighted average shares and assumed conversions	369	369	366	373	
Net Income Per Share from Continuing Operations Attributable to Tyson:					
Class A Basic	\$0.73	\$0.23	\$1.69	\$1.16	
Class B Basic	\$0.66	\$0.20	\$1.52	\$1.04	
Diluted	\$0.69	\$0.22	\$1.61	\$1.11	
Net Income Per Share Attributable to Tyson:					
Class A Basic	\$0.72	\$0.21	\$1.49	\$1.11	
Class B Basic	\$0.64	\$0.19	\$1.34	\$1.00	
Diluted	\$0.68	\$0.21	\$1.42	\$1.07	

We had no stock-based compensation shares that were antidilutive for the three months ended June 29, 2013.

Approximately 4 million of our stock-based compensation shares were antidilutive for the nine months ended June 29, 2013. Approximately 4 million of our stock-based compensation shares were antidilutive for both the three and nine

months ended June 30, 2012. These shares were not included in the dilutive earnings per share calculation.

We have two classes of capital stock, Class A stock and Class B stock. Cash dividends cannot be paid to holders of Class B stock unless they are simultaneously paid to holders of Class A stock. The per share amount of cash dividends paid to holders of Class B stock cannot exceed 90% of the cash dividends paid to holders of Class A stock.

Table of Contents

We allocate undistributed earnings based upon a 1 to 0.9 ratio per share to Class A stock and Class B stock, respectively. We allocate undistributed earnings based on this ratio due to historical dividend patterns, voting control of Class B shareholders and contractual limitations of dividends to Class B stock.

NOTE 11: DERIVATIVE FINANCIAL INSTRUMENTS

Our business operations give rise to certain market risk exposures mostly due to changes in commodity prices, foreign currency exchange rates and interest rates. We manage a portion of these risks through the use of derivative financial instruments, primarily futures and options, to reduce our exposure to commodity price risk, foreign currency risk and interest rate risk. Forward contracts on various commodities, including grains, livestock and energy, are primarily entered into to manage the price risk associated with forecasted purchases of these inputs used in our production processes. Foreign exchange forward contracts are entered into to manage the fluctuations in foreign currency exchange rates, primarily as a result of certain receivable and payable balances. We also periodically utilize interest rate swaps to manage interest rate risk associated with our variable-rate borrowings.

Our risk management programs are periodically reviewed by our Board of Directors' Audit Committee. These programs are monitored by senior management and may be revised as market conditions dictate. Our current risk management programs utilize industry-standard models that take into account the implicit cost of hedging. Risks associated with our market risks and those created by derivative instruments and the fair values are strictly monitored, using Value-at-Risk and stress tests. Credit risks associated with our derivative contracts are not significant as we minimize counterparty concentrations, utilize margin accounts or letters of credit, and deal with credit-worthy counterparties. Additionally, our derivative contracts are mostly short-term in duration and we generally do not make use of credit-risk-related contingent features. No significant concentrations of credit risk existed at June 29, 2013. We recognize all derivative instruments as either assets or liabilities at fair value in the Consolidated Condensed Balance Sheets, with the exception of normal purchases and normal sales expected to result in physical delivery. The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, we designate the hedging instrument based upon the exposure being hedged (i.e., fair value hedge, cash flow hedge, or hedge of a net investment in a foreign operation). We qualify, or designate, a derivative financial instrument as a hedge when contract terms closely mirror those of the hedged item, providing a high degree of risk reduction and correlation. If a derivative instrument is accounted for as a hedge, depending on the nature of the hedge, changes in the fair value of the instrument either will be offset against the change in fair value of the hedged assets, liabilities or firm commitments through earnings, or be recognized in other comprehensive income (loss) (OCI) until the hedged item is recognized in earnings. The ineffective portion of an instrument's change in fair value is recognized in earnings immediately. We designate certain forward contracts as follows:

- **Cash Flow Hedges** – include certain commodity forward and option contracts of forecasted purchases (i.e., grains) and certain foreign exchange forward contracts.

- **Fair Value Hedges** – include certain commodity forward contracts related to firm commitments (i.e., livestock).

- **Net Investment Hedges** – include certain foreign currency forward contracts of permanently invested capital in certain foreign subsidiaries.

Cash flow hedges

Derivative instruments, such as futures and options, are designated as hedges against changes in the amount of future cash flows related to procurement of certain commodities utilized in our production processes. We do not purchase forward and option commodity contracts in excess of our physical consumption requirements and generally do not hedge forecasted transactions beyond 18 months. The objective of these hedges is to reduce the variability of cash flows associated with the forecasted purchase of those commodities. For the derivative instruments we designate and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of OCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses representing hedge ineffectiveness are recognized in earnings in the current period. Ineffectiveness related to our cash flow hedges was not significant for the three and nine months ended June 29, 2013, and June 30,

2012.

We had the following aggregated notional values of outstanding forward and option contracts accounted for as cash flow hedges (in millions, except soy meal tons):

	Metric	June 29, 2013	September 29, 2012
Commodity:			
Corn	Bushels	10	12
Soy meal	Tons	195,600	164,700
Foreign Currency	United States dollar	\$61	\$80

13

Table of Contents

As of June 29, 2013, the net amounts expected to be reclassified into earnings within the next 12 months are pretax losses of \$5 million related to grains and pretax losses of \$1 million related to foreign currency. During the three and nine months ended June 29, 2013, and June 30, 2012, we did not reclassify significant pretax gains/losses into earnings as a result of the discontinuance of cash flow hedges due to the probability the original forecasted transaction would not occur by the end of the originally specified time period or within the additional period of time allowed by generally accepted accounting principles.

The following table sets forth the pretax impact of cash flow hedge derivative instruments on the Consolidated Condensed Statements of Income (in millions):

		Gain/(Loss) Recognized in OCI On Derivatives Three Months Ended June 29, 2013	June 30, 2012	Consolidated Condensed Statements of Income Classification	Gain/(Loss) Reclassified from OCI to Earnings Three Months Ended June 29, 2013	June 30, 2012
Cash Flow Hedge – Derivatives designated as hedging instruments:						
Commodity contracts		\$(5) \$7	Cost of Sales	\$(2) \$1
Foreign exchange contracts		3	1	Other Income/Expense	(2) (1
Total		\$(2) \$8		\$(4) \$—

	Gain/(Loss) Recognized in OCI On Derivatives Nine Months Ended		Consolidated Condensed Statements of Income Classification	Gain/(Loss) Reclassified from OCI to Earnings Nine Months Ended	
	June 29, 2013	June 30, 2012		June 29, 2013	June 30, 2012
Cash Flow Hedge – Derivatives designated as hedging instruments:					
Commodity contracts	\$(28) \$13	Cost of Sales	\$(5) \$(15
Foreign exchange contracts	(2) (6) Other Income/Expense	(4) 4
Total	\$(30) \$7		\$(9) \$(11

Fair value hedges

We designate certain futures contracts as fair value hedges of firm commitments to purchase livestock for slaughter. Our objective of these hedges is to minimize the risk of changes in fair value created by fluctuations in commodity prices associated with fixed price livestock firm commitments. We had the following aggregated notional values of outstanding forward contracts entered into to hedge forecasted commodity purchases which are accounted for as a fair value hedge (in millions):

	Metric	June 29, 2013	September 29, 2012
Commodity:			
Live Cattle	Pounds	93	232
Lean Hogs	Pounds	264	239

For these derivative instruments we designate and qualify as a fair value hedge, the gain or loss on the derivative, as well as the offsetting gain or loss on the hedged item attributable to the hedged risk, are recognized in earnings in the same period. We include the gain or loss on the hedged items (i.e., livestock purchase firm commitments) in the same line item, Cost of Sales, as the offsetting gain or loss on the related livestock forward position.

	Consolidated Condensed Statements of Income Classification		Three Months Ended June 29, 2013		Nine Months Ended June 29, 2013	
			June 30, 2012		June 30, 2012	

in millions

Edgar Filing: TYSON FOODS INC - Form 10-Q

Gain/(Loss) on forwards	Cost of Sales	\$ 11	\$ 32	\$ 26	\$ 32
Gain/(Loss) on purchase contract	Cost of Sales	(11) (32) (26) (32

Ineffectiveness related to our fair value hedges was not significant for the three and nine months ended June 29, 2013, and June 30, 2012.

Table of Contents

Foreign net investment hedges

We utilize forward foreign exchange contracts to protect the value of our net investments in certain foreign subsidiaries. For derivative instruments that are designated and qualify as a hedge of a net investment in a foreign currency, the gain or loss is reported in OCI as part of the cumulative translation adjustment to the extent it is effective, with the related amounts due to or from counterparties included in other liabilities or other assets. We utilize the forward-rate method of assessing hedge effectiveness. Any ineffective portions of net investment hedges are recognized in the Consolidated Condensed Statements of Income during the period of change. Ineffectiveness related to our foreign net investment hedges was not significant for the three and nine months ended June 29, 2013, and June 30, 2012. At June 29, 2013, and September 29, 2012, we had \$0 and \$27 million, respectively, aggregate outstanding notional values related to our forward foreign currency contracts accounted for as foreign net investment hedges.

The following table sets forth the pretax impact of these derivative instruments on the Consolidated Condensed Statements of Income (in millions):

	Gain/(Loss) Recognized in OCI On Derivatives Three Months Ended		Consolidated Condensed Statements of Income Classification	Gain/(Loss) Reclassified from OCI to Earnings Three Months Ended	
	June 29, 2013	June 30, 2012		June 29, 2013	June 30, 2012

Net Investment Hedge – Derivatives
designated as hedging instruments:

Foreign exchange contracts	\$—	\$1	Other Income/Expense	\$—	\$—
----------------------------	-----	-----	----------------------	-----	-----

	Gain/(Loss) Recognized in OCI On Derivatives Nine Months Ended		Consolidated Condensed Statements of Income Classification	Gain/(Loss) Reclassified from OCI to Earnings Nine Months Ended	
	June 29, 2013	June 30, 2012		June 29, 2013	June 30, 2012

Net Investment Hedge – Derivatives
designated as hedging instruments:

Foreign exchange contracts	\$—	\$(1) Other Income/Expense	\$(4) \$—
----------------------------	-----	------	------------------------	------	-------

Undesignated positions

In addition to our designated positions, we also hold forward and option contracts for which we do not apply hedge accounting. These include certain derivative instruments related to commodities price risk, including grains, livestock, energy, foreign currency risk and interest rate risk. We mark these positions to fair value through earnings at each reporting date. We generally do not enter into undesignated positions beyond 18 months.

The objective of our undesignated grains, livestock and energy commodity positions is to reduce the variability of cash flows associated with the forecasted purchase of certain grains, energy and livestock inputs to our production processes. We also enter into certain forward sales of boxed beef and boxed pork and forward purchases of cattle and hogs at fixed prices. The fixed price sales contracts lock in the proceeds from a future sale and the fixed cattle and hog purchases lock in the cost. However, the cost of the livestock and the related boxed beef and boxed pork market prices at the time of the sale or purchase could vary from this fixed price. As we enter into fixed forward sales of boxed beef and boxed pork and forward purchases of cattle and hogs, we also enter into the appropriate number of livestock options and futures positions to mitigate a portion of this risk. Changes in market value of the open livestock options and futures positions are marked to market and reported in earnings at each reporting date, even though the economic impact of our fixed prices being above or below the market price is only realized at the time of sale or purchase. These positions generally do not qualify for hedge treatment due to location basis differences between the commodity exchanges and the actual locations when we purchase the commodities.

We have a foreign currency cash flow hedging program to hedge portions of forecasted transactions denominated in foreign currencies, primarily with forward and option contracts, to protect against the reduction in value of forecasted foreign currency cash flows. Our undesignated foreign currency positions generally would qualify for cash flow hedge accounting. However, to reduce earnings volatility, we normally will not elect hedge accounting treatment when the position provides an offset to the underlying related transaction that impacts current earnings.

Table of Contents

The objective of our undesignated interest rate swap is to manage interest rate risk exposure on a floating-rate bond. Our interest rate swap agreement effectively modifies our exposure to interest rate risk by converting a portion of the floating-rate bond to a fixed rate basis for the first five years, thus reducing the impact of the interest-rate changes on future interest expense. This interest rate swap does not qualify for hedge treatment due to differences in the underlying bond and swap contract interest-rate indices.

We had the following aggregate outstanding notional values related to our undesignated positions (in millions, except soy meal tons):

	Metric	June 29, 2013	September 29, 2012
Commodity:			
Corn	Bushels	17	19
Soy Meal	Tons	96,800	1,200
Soy Oil	Pounds	—	17
Live Cattle	Pounds	191	68
Lean Hogs	Pounds	12	108
Foreign Currency	United States dollars	\$83	\$165
Interest Rate	Average monthly notional debt	\$25	\$27

The following table sets forth the pretax impact of the undesignated derivative instruments on the Consolidated Condensed Statements of Income (in millions):

	Consolidated Condensed Statements of Income Classification	Gain/(Loss) Recognized in Earnings		Gain/(Loss) Recognized in Earnings	
		Three Months Ended		Nine Months Ended	
		June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012
Derivatives not designated as hedging instruments:					
Commodity contracts	Sales	\$(7) \$3	\$(19) \$(6
Commodity contracts	Cost of Sales	(8) (22) (15) 36
Foreign exchange contracts	Other Income/Expense	(2) —	—	—
Total		\$(17) \$(19) \$(34) \$30

Table of Contents

The following table sets forth the fair value of all derivative instruments outstanding in the Consolidated Condensed Balance Sheets (in millions):

	Fair Value June 29, 2013	September 29, 2012
Derivative Assets:		
Derivatives designated as hedging instruments:		
Commodity contracts	\$5	\$32
Derivatives not designated as hedging instruments:		
Commodity contracts	4	21
Foreign exchange contracts	1	1
Total derivative assets – not designated	5	22
Total derivative assets	\$10	\$54
Derivative Liabilities:		
Derivatives designated as hedging instruments:

Foreign exchange contracts	—	1
Total derivative liabilities – designated	9	7
Derivatives not designated as hedging instruments:		
Commodity contracts	64	96
Foreign exchange contracts	3	2
Interest rate contracts	—	—
Total derivative liabilities – not designated	67	98
Total derivative liabilities	\$76	\$105

Our derivative assets and liabilities are presented in our Consolidated Condensed Balance Sheets on a net basis. We net derivative assets and liabilities, including cash collateral when a legally enforceable master netting arrangement exists between the counterparty to a derivative contract and us. See Note 12: Fair Value Measurements for a reconciliation to amounts reported in the Consolidated Condensed Balance Sheets in Other current assets and Other current liabilities.

NOTE 12: FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

Level 1 — Unadjusted quoted prices available in active markets for the identical assets or liabilities at the measurement date.

Level 2 — Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly, including:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets in non-active markets;

Inputs other than quoted prices that are observable for the asset or liability; and

Inputs derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

Table of Contents

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The fair value hierarchy requires the use of observable market data when available. In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input significant to the fair value measurement in its entirety. Our assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability. The following tables set forth by level within the fair value hierarchy our financial assets and liabilities accounted for at fair value on a recurring basis according to the valuation techniques we used to determine their fair values (in millions):

June 29, 2013	Level 1	Level 2	Level 3	Netting (a)	Total
Assets:					
Commodity Derivatives	\$—	\$9	\$—	\$(1)	\$8
Foreign Exchange Forward Contracts	—	1	—	—	1
Available for Sale Securities:					
Current	—	81	—	—	81
Non-current	6	26	65	—	97
Deferred Compensation Assets	22	184	—	—	206
Total Assets	\$28	\$301	\$65	\$(1)	\$393
Liabilities:					
Commodity Derivatives	\$—	\$73	\$—	\$(72)	\$1
Foreign Exchange Forward Contracts	—	3	—	—	3
Total Liabilities	\$—	\$76	\$—	\$(72)	\$4
September 29, 2012	Level 1	Level 2	Level 3	Netting (a)	Total
Assets:					
Commodity Derivatives	\$—	\$53	\$—	\$(40)	\$13
Foreign Exchange Forward Contracts	—	1	—	(1)	—
Available for Sale Securities:					
Current	—	3	—	—	3
Non-current	6	25	86	—	117
Deferred Compensation Assets	31	149	—	—	180
Total Assets	\$37	\$231	\$86	\$(41)	\$313
Liabilities:					
Commodity Derivatives	\$—	\$102	\$—	\$(100)	\$2
Foreign Exchange Forward Contracts	—	3	—	—	3
Total Liabilities	\$—	\$105	\$—	\$(100)	\$5

Our derivative assets and liabilities are presented in our Consolidated Condensed Balance Sheets on a net basis. We net derivative assets and liabilities, including cash collateral, when a legally enforceable master netting (a) arrangement exists between the counterparty to a derivative contract and us. At June 29, 2013, and September 29, 2012, we had posted with various counterparties \$71 million and \$59 million, respectively, of cash collateral and held no cash collateral.

Table of Contents

The following table provides a reconciliation between the beginning and ending balance of debt securities measured at fair value on a recurring basis in the table above that used significant unobservable inputs (Level 3) (in millions):

	Nine Months Ended	
	June 29, 2013	June 30, 2012
Balance at beginning of year	\$86	\$83
Total realized and unrealized gains (losses):		
Included in earnings	1	1
Included in other comprehensive income (loss)	(1) (1
Purchases	14	20
Issuances	—	—
Settlements	(35) (21
Balance at end of period	\$65	\$82
Total gains (losses) for the nine-month period included in earnings attributable to the change in unrealized gains (losses) relating to assets and liabilities still held at end of period	\$—	\$—

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Derivative Assets and Liabilities: Our derivatives, including commodities, foreign exchange forward contracts and an interest rate swap, primarily include exchange-traded and over-the-counter contracts which are further described in Note 11: Derivative Financial Instruments. We record our commodity derivatives at fair value using quoted market prices adjusted for credit and non-performance risk and internal models that use as their basis readily observable market inputs including current and forward commodity market prices. Our foreign exchange forward contracts are recorded at fair value based on quoted prices and spot and forward currency prices adjusted for credit and non-performance risk. Our interest rate swap is recorded at fair value based on quoted LIBOR swap rates adjusted for credit and non-performance risk. We classify these instruments in Level 2 when quoted market prices can be corroborated utilizing observable current and forward commodity market prices on active exchanges, observable market transactions of spot currency rates and forward currency prices or observable benchmark market rates at commonly quoted intervals.

Available for Sale Securities: Our investments in marketable debt securities are classified as available-for-sale and are reported at fair value based on pricing models and quoted market prices adjusted for credit and non-performance risk. Short-term investments with maturities of less than 12 months are included in Other current assets in the Consolidated Condensed Balance Sheets and primarily include certificates of deposit and commercial paper. All other marketable debt securities are included in Other Assets in the Consolidated Condensed Balance Sheets and have maturities ranging up to 35 years. We classify our investments in U.S. government, U.S. agency, certificates of deposit and commercial paper debt securities as Level 2 as fair value is generally estimated using discounted cash flow models that are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other readily available relevant economic measures. We classify certain corporate, asset-backed and other debt securities as Level 3 as there is limited activity or less observable inputs into valuation models, including current interest rates and estimated prepayment, default and recovery rates on the underlying portfolio or structured investment vehicle. We also classified privately held redeemable preferred stock securities as Level 3 as there was limited activity or less observable inputs into valuation models, including interest rates and credit worthiness of the underlying private issuer. As of June 29, 2013, the privately held redeemable preferred stock had been fully redeemed. Significant changes to assumptions or unobservable inputs in the valuation of our Level 3 instruments would not have a significant impact to our consolidated condensed financial statements.

Additionally, we have 0.8 million shares of Syntroleum Corporation common stock and 0.4 million warrants, which expire in June 2015, to purchase an equivalent amount of Syntroleum Corporation common stock at an average price of \$28.70. We record the shares and warrants in Other Assets in the Consolidated Condensed Balance Sheets at fair value based on quoted market prices. We classify the shares as Level 1 as the fair value is based on unadjusted quoted prices available in active markets. We classify the warrants as Level 2 as fair value can be corroborated based on observable market data.

Table of Contents

The following table sets forth our available for sale securities' amortized cost basis, fair value and unrealized gain (loss) by significant investment category:

(in millions)	June 29, 2013			September 29, 2012		
	Amortized Cost Basis	Fair Value	Unrealized Gain/(Loss)	Amortized Cost Basis	Fair Value	Unrealized Gain/(Loss)
Available for Sale Securities:						
Debt Securities:						
U.S. Treasury and Agency	\$26	\$27	\$1	\$26	\$27	\$1
Certificates of Deposit and Commercial Paper	80	80	—	—	—	—
Corporate and Asset-Backed (a)	65	65	—	64	66	2
Redeemable Preferred Stock	—	—	—	20	20	—
Equity Securities:						
Common Stock and Warrants	9	6	(3)	9	7	(2)

(a) At June 29, 2013, and September 29, 2012, the amortized cost basis for Corporate and Asset-Backed debt securities had been reduced by accumulated other than temporary impairments of \$1 million and \$2 million, respectively.

Unrealized holding gains (losses), net of tax, are excluded from earnings and reported in OCI until the security is settled or sold. On a quarterly basis, we evaluate whether losses related to our available-for-sale securities are temporary in nature. Losses on equity securities are recognized in earnings if the decline in value is judged to be other than temporary. If losses related to our debt securities are determined to be other than temporary, the loss would be recognized in earnings if we intend, or more likely than not will be required, to sell the security prior to recovery. For debt securities in which we have the intent and ability to hold until maturity, losses determined to be other than temporary would remain in OCI, other than expected credit losses which are recognized in earnings. We consider many factors in determining whether a loss is temporary, including the length of time and extent to which the fair value has been below cost, the financial condition and near-term prospects of the issuer and our ability and intent to hold the investment for a period of time sufficient to allow for any anticipated recovery. We recognized no other than temporary impairments in earnings for the three and nine months ending June 29, 2013, and June 30, 2012. No other than temporary losses were deferred in OCI as of June 29, 2013, and September 29, 2012.

Deferred Compensation Assets: We maintain non-qualified deferred compensation plans for certain executives and other highly compensated employees. Investments are maintained within a trust and include money market funds, mutual funds and life insurance policies. The cash surrender value of the life insurance policies is invested primarily in mutual funds. The investments are recorded at fair value based on quoted market prices and are included in Other Assets in the Consolidated Condensed Balance Sheets. We classify the investments which have observable market prices in active markets in Level 1 as these are generally publicly-traded mutual funds. The remaining deferred compensation assets are classified in Level 2, as fair value can be corroborated based on observable market data. Realized and unrealized gains (losses) on deferred compensation are included in earnings.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

In addition to assets and liabilities that are recorded at fair value on a recurring basis, we record assets and liabilities at fair value on a nonrecurring basis. Generally, assets are recorded at fair value on a nonrecurring basis as a result of impairment charges. During the second quarter of fiscal 2013, we recorded a \$56 million impairment charge related to our Weifang operation in China. The impairment charge resulted from the completion of an assessment of our long-term business strategy in China, in which we determined Weifang was no longer core to the execution of our future business plan. Our valuation of these assets incorporated unobservable Level 3 inputs. We did not have any significant measurements of assets or liabilities at fair value on a nonrecurring basis subsequent to their initial recognition during the nine months ended June 30, 2012.

Other Financial Instruments

Edgar Filing: TYSON FOODS INC - Form 10-Q

Fair value of our debt is principally estimated using Level 2 inputs based on quoted prices for those or similar instruments. Fair value and carrying value for our debt are as follows (in millions):

	June 29, 2013		September 29, 2012	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Total Debt	\$2,535	\$2,407	\$2,596	\$2,432

NOTE 14: SEGMENT REPORTING

We operate in four segments: Chicken, Beef, Pork and Prepared Foods. We measure segment profit as operating income (loss).

Chicken: Chicken operations include breeding and raising chickens, as well as processing live chickens into fresh, frozen and value-added chicken products and logistics operations to move products through the supply chain. Products are marketed domestically to food retailers, foodservice distributors, restaurant operators, hotel chains and noncommercial foodservice establishments such as schools, healthcare facilities, the military and other food processors, as well as to international markets. It also includes sales from allied products and our chicken breeding stock subsidiary.

Beef: Beef operations include processing live fed cattle and fabricating dressed beef carcasses into primal and sub-primal meat cuts and case-ready products. This segment also includes sales from allied products such as hides and variety meats, as well as logistics operations to move products through the supply chain. Products are marketed domestically to food retailers, foodservice distributors, restaurant operators, hotel chains and noncommercial foodservice establishments such as schools, healthcare facilities, the military and other food processors, as well as to international markets.

Pork: Pork operations include processing live market hogs and fabricating pork carcasses into primal and sub-primal cuts and case-ready products. This segment also includes our live swine group, related allied product processing activities and logistics operations to move products through the supply chain. Products are marketed domestically to food retailers, foodservice distributors, restaurant operators, hotel chains and noncommercial foodservice

establishments such as schools, healthcare facilities, the military and other food processors, as well as to international markets.

Prepared Foods: Prepared Foods operations include manufacturing and marketing frozen and refrigerated food products and logistics operations to move products through the supply chain. Products include pepperoni, bacon, beef and pork pizza toppings, pizza crusts, flour and corn tortilla products, appetizers, prepared meals, ethnic foods, soups, sauces, side dishes, meat dishes and processed meats. Products are marketed domestically to food retailers, foodservice distributors, restaurant operators, hotel chains and noncommercial foodservice establishments such as schools, healthcare facilities, the military and other food processors, as well as to international markets. The results from Dynamic Fuels are included in Other.

Table of Contents

Information on segments and a reconciliation to income from continuing operations before income taxes are as follows (in millions):

(a) Includes \$19 million related to the recognized currency translation adjustment gain

(b) Includes \$167 million charge related to the early extinguishment of debt

The Beef segment had sales of \$59 million and \$49 million in the third quarter of fiscal 2013 and 2012, respectively, and sales of \$156 million and \$162 million in the nine months of fiscal 2013 and 2012, respectively, from transactions with other operating segments of the Company and Dynamic Fuels. The Pork segment had sales of \$220 million and \$164 million in the third quarter of fiscal 2013 and 2012, respectively, and sales of \$649 million and \$578 million in the nine months of fiscal 2013 and 2012, respectively, from transactions with other operating segments of the Company. The aforementioned sales from intersegment transactions, which were at market prices, were included in the segment sales in the above table.

NOTE 15: COMMITMENTS AND CONTINGENCIES**Commitments**

We guarantee obligations of certain outside third parties, which consist primarily of a lease and grower loans, which are substantially collateralized by the underlying assets. Terms of the underlying debt cover periods up to ten years, and the maximum potential amount of future payments as of June 29, 2013, was \$63 million. We also maintain operating leases for various types of equipment, some of which contain residual value guarantees for the market value of the underlying leased assets at the end of the term of the lease. The remaining terms of the lease maturities cover periods over the next seven years. The maximum potential amount of the residual value guarantees is \$57 million, of which \$51 million could be recoverable through various recourse provisions and an additional undeterminable recoverable amount based on the fair value of the underlying leased assets. The likelihood of material payments under these guarantees is not considered probable. At June 29, 2013, and September 29, 2012, no material liabilities for guarantees were recorded.

Table of Contents

We have cash flow assistance programs in which certain livestock suppliers participate. Under these programs, we pay an amount for livestock equivalent to a standard cost to grow such livestock during periods of low market sales prices. The amounts of such payments that are in excess of the market sales price are recorded as receivables and accrue interest. Participating suppliers are obligated to repay these receivables balances when market sales prices exceed this standard cost, or upon termination of the agreement. Our maximum obligation associated with these programs is limited to the fair value of each participating livestock supplier's net tangible assets. The potential maximum obligation as of June 29, 2013, was approximately \$310 million. The total receivables under these programs were \$50 million and \$25 million at June 29, 2013, and September 29, 2012, respectively, and are included, net of allowance for uncollectible amounts, in Accounts Receivable in our Consolidated Condensed Balance Sheets. Even though these programs are limited to the net tangible assets of the participating livestock suppliers, we also manage a portion of our credit risk associated with these programs by obtaining security interests in livestock suppliers' assets. After analyzing residual credit risks and general market conditions, we have recorded an allowance for these programs' estimated uncollectible receivables of \$16 million and \$10 million at June 29, 2013, and September 29, 2012, respectively.

Contingencies

We are involved in various claims and legal proceedings. We routinely assess the likelihood of adverse judgments or outcomes to those matters, as well as ranges of probable losses, to the extent losses are reasonably estimable. We record accruals for such matters to the extent that we conclude a loss is probable and the financial impact, should an adverse outcome occur, is reasonably estimable. Such accruals are reflected in the Company's consolidated condensed financial statements. In our opinion, we have made appropriate and adequate accruals for these matters and believe the probability of a material loss beyond the amounts accrued to be remote; however, the ultimate liability for these matters is uncertain, and if accruals are not adequate, an adverse outcome could have a material effect on the consolidated condensed financial condition or results of operations. Listed below are certain claims made against the Company and/or our subsidiaries for which the potential exposure is considered material to the Company's consolidated condensed financial statements. We believe we have substantial defenses to the claims made and intend to vigorously defend these matters.

We have pending against us a lawsuit styled *DeAsencio v. Tyson Foods, Inc.* (E.D. Pennsylvania, August 22, 2000) in which the plaintiffs allege that we failed to compensate certain poultry plant employees for the time it takes to engage in pre- and post-shift activities such as changing into and out of protective and sanitary clothing and walking to and from the changing area, work areas and break areas in violation of the Fair Labor Standards Act (FLSA). They seek back wages, liquidated damages, pre- and post-judgment interest, and attorneys' fees. Plaintiffs appealed a jury verdict and final judgment entered in our favor on June 22, 2006. On September 7, 2007, the U.S. Court of Appeals for the Third Circuit reversed the jury verdict and remanded the case to the District Court for further proceedings. We sought rehearing en banc, which was denied by the Court of Appeals on October 5, 2007. The United States Supreme Court denied our petition for a writ of certiorari on June 9, 2008. The new trial date has not been set.

We have twelve separate wage and hour actions involving Tyson Fresh Meats Inc.'s plants located in Garden City, Kansas (*Garcia, et al. v. Tyson Foods, Inc., Tyson Fresh Meats, Inc.*, D. Kansas, May 15, 2006), Emporia, Kansas (*Abdiaziz, et al. v. Tyson Foods, Inc., Tyson Fresh Meats, Inc.*, D. Kansas, September 30, 2011), Storm Lake, Iowa (*Bouaphakeo (f/k/a Sharp), et al. v. Tyson Foods, Inc.*, N.D. Iowa, February 6, 2007), Columbus Junction, Iowa (*Guyton (f/k/a Robinson), et al. v. Tyson Foods, Inc., d.b.a Tyson Fresh Meats, Inc.*, S.D. Iowa, September 12, 2007), Joslin, Illinois (*Murray, et al. v. Tyson Foods, Inc.*, C.D. Illinois, January 2, 2008; and *DeVoss v. Tyson Foods, Inc. d.b.a. Tyson Fresh Meats*, C.D. Illinois, March 2, 2011), Dakota City, Nebraska (*Gomez, et al. v. Tyson Foods, Inc.*, D. Nebraska, January 16, 2008), Madison, Nebraska (*Acosta, et al. v Tyson Foods, Inc. d.b.a Tyson Fresh Meats, Inc.*, D. Nebraska, February 29, 2008), Perry and Waterloo, Iowa (*Edwards, et al. v. Tyson Foods, Inc. d.b.a Tyson Fresh Meats, Inc.*, S.D. Iowa, March 20, 2008); Council Bluffs, Iowa (*Maxwell (f/k/a Salazar), et al. v. Tyson Foods, Inc. d.b.a Tyson Fresh Meats, Inc.*, S.D. Iowa, April 29, 2008); Logansport, Indiana (*Carter, et al. v. Tyson Foods, Inc. and Tyson Fresh Meats, Inc.*, N.D. Indiana, April 29, 2008); and Goodlettsville, Tennessee (*Abadeer v. Tyson Foods, Inc., and Tyson Fresh Meats, Inc.*, M.D. Tennessee, February 6, 2009). The actions allege we failed to pay employees for all hours worked, including overtime compensation for the time it takes to change into protective work uniforms, safety equipment and other sanitary and protective clothing worn by employees, and for walking to and from the

changing area, work areas and break areas in violation of the FLSA and analogous state laws. The plaintiffs seek back wages, liquidated damages, pre- and post-judgment interest, attorneys' fees and costs. Each case is proceeding in its jurisdiction.

After a trial in the Garcia case involving our Garden City, Kansas facility, a jury verdict in favor of the plaintiffs was entered on March 17, 2011. Exclusive of pre- and post-judgment interest, attorneys' fees and costs, the jury found violations of federal and state laws for pre- and post-shift work activities and awarded damages in the amount of \$503,011. Plaintiffs' counsel filed an application for attorneys' fees and expenses which we contested. On December 7, 2012, the court granted plaintiffs' counsel's application and awarded a total of \$3,609,723. We filed an appeal with the Tenth Circuit Court of Appeals on December 27, 2012.

A jury trial was held in the Bouaphakeo case, which involves our Storm Lake, Iowa pork plant, which resulted in a jury verdict in favor of the plaintiffs for violations of federal and state laws for pre- and post-shift work activities. The trial court also awarded the plaintiffs liquidated damages, resulting in total damages awarded in the amount of \$5,784,758. We have appealed the jury's verdict and trial court's award. The plaintiffs' counsel has also filed an application for attorneys' fees and expenses in the amount of \$2,692,145.

Table of Contents

A jury trial was held in the Guyton case, which involves our Columbus Junction, Iowa pork plant, which resulted in a jury verdict in favor of Tyson on April 25, 2012. The plaintiffs have appealed to the Eighth Circuit Court of Appeals. The Maxwell case, which involves our Council Bluffs, Iowa plant, has been resolved by the parties for \$970,000, and all payments required by the settlement have been paid and the claims dismissed.

A bench trial was held in the Acosta case, which involves our Madison, Nebraska pork plant, in January 2013. The trial court filed its findings of fact and conclusions of law on May 31, 2013, and awarded \$5,733,943 for unpaid overtime wages. The court ordered each party to submit an updated back pay calculation reflecting payroll data through the date of its order. A judgment has not yet been entered.

A jury trial in the Gomez case, which involves our Dakota City, Nebraska beef plant, was held, and the jury found in favor of the plaintiffs on April 3, 2013. The trial court has not determined the amount of damages.

The trial court in the Edwards case, which involves the Perry and Waterloo, Iowa facilities, split the case into two trials. The trial involving the Perry facility is scheduled to begin October 7, 2013, and the trial involving the Waterloo facility is scheduled to begin December 9, 2013.

The Carter case, which involves our Logansport, Indiana pork plant, has been resolved by the parties for \$950,000. The parties' joint motion for approval of the settlement is pending.

We have pending one wage and hour action involving our Tyson Prepared Foods plant located in Jefferson, Wisconsin (Weissman, et al. v. Tyson Prepared Foods, Inc., Jefferson County (Wisconsin) Circuit Court, October 20, 2010). The plaintiffs allege that employees should be paid for the time it takes to engage in pre- and post-shift activities such as changing into and out of protective and sanitary clothing and the associated time it takes to walk to and from their workstations post-donning and pre-doffing of protective and sanitary clothing. Six named plaintiffs seek to act as state law class representatives on behalf of all current and former employees who were allegedly not paid for time worked and seek back wages, liquidated damages, pre- and post-judgment interest, and attorneys' fees and costs. On May 16, 2011, the plaintiffs filed a motion to certify a state law class of all hourly employees who have worked at the Jefferson plant from October 20, 2008, to the present. We filed motions for summary judgment seeking dismissal of the claims, or, in the alternative, to limit the claims made for non-compensable clothes changing activities. The court granted summary judgment in favor of Tyson on August 31, 2012, and the plaintiffs filed a notice of appeal on October 5, 2012. On August 1, 2013, the appeals court reversed and remanded the case to the trial court, concluding that the applicable activities at this plant are compensable, subject to certain defenses.

On June 19, 2005, the Attorney General and the Secretary of the Environment of the State of Oklahoma filed a complaint in the U.S. District Court for the Northern District of Oklahoma against us, three of our subsidiaries and six other poultry integrators. The complaint, which was subsequently amended, asserts a number of state and federal causes of action including, but not limited to, counts under Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Resource Conservation and Recovery Act (RCRA), and state-law public nuisance theories. The amended complaint asserts that defendants and certain contract growers who are not named in the amended complaint polluted the surface waters, groundwater and associated drinking water supplies of the Illinois River Watershed (IRW) through the land application of poultry litter. Oklahoma asserts that this alleged pollution has also caused extensive injury to the environment (including soils and sediments) of the IRW and that the defendants have been unjustly enriched. Oklahoma's claims cover the entire IRW, which encompasses more than one million acres of land and the natural resources (including lakes and waterways) contained therein. Oklahoma seeks wide-ranging relief, including injunctive relief, compensatory damages in excess of \$800 million, an unspecified amount in punitive damages and attorneys' fees. We and the other defendants have denied liability, asserted various defenses, and filed a third-party complaint that asserts claims against other persons and entities whose activities may have contributed to the pollution alleged in the amended complaint. The district court has stayed proceedings on the third party complaint pending resolution of Oklahoma's claims against the defendants. On October 31, 2008, the defendants filed a motion to dismiss for failure to join the Cherokee Nation as a required party or, in the alternative, for judgment as a matter of law based on the plaintiffs' lack of standing. This motion was granted in part and denied in part on July 22, 2009. In its ruling, the district court dismissed Oklahoma's claims for cost recovery and for natural resources damages under CERCLA and for unjust enrichment under Oklahoma common law. This ruling also narrowed the scope of Oklahoma's remaining claims by dismissing all damage claims under its causes of action for

Oklahoma common law nuisance, federal common law nuisance, and Oklahoma common law trespass, leaving only its claims for injunctive relief for trial. On August 18, 2009, the Court granted partial summary judgment in favor of the defendants on Oklahoma's claims for violations of the Oklahoma Registered Poultry Feeding Operations Act. Oklahoma later voluntarily dismissed the remainder of this claim. On September 2, 2009, the Cherokee Nation filed a motion to intervene in the lawsuit. Its motion to intervene was denied on September 15, 2009, and the Cherokee Nation filed a notice of appeal of that ruling in the Tenth Circuit Court of Appeals on September 17, 2009. A non-jury trial of the case began on September 24, 2009. At the close of Oklahoma's case-in-chief, the Court granted the defendants' motions to dismiss claims based on RCRA, nuisance per se, and health risks related to bacteria. The defense rested its case on January 13, 2010, and closing arguments were held on February 11, 2010. On September 21, 2010, the Court of Appeals affirmed the district court's denial of the Cherokee Nation's motion to intervene. On October 6, 2010, the Cherokee Nation and the State of Oklahoma filed a petition for rehearing or en banc review seeking reconsideration of this ruling. The Court of Appeals denied this petition. The district court has not yet rendered its decision from the trial, which ended in February 2010.

Table of Contents

In late 2010, the United States Environmental Protection Agency (EPA) Region 7 began a Clean Air Act investigation of the Company related to operation and maintenance of ammonia refrigeration equipment at multiple facilities. The EPA subsequently referred the matter, which involves allegations of potential non-compliance with the Clean Air Act's Risk Management Plan requirements at 23 Tyson facilities in Kansas, Missouri, Iowa and Nebraska, to the United States Department of Justice (DOJ). We reached a settlement agreement with the EPA and DOJ in which we agreed to pay \$3,950,000 in civil penalties and fund \$300,000 in supplemental environmental projects related to the purchase of emergency response equipment for certain communities in which we have operations. We also agreed to conduct third party audits of the 23 facilities. Pursuant to this settlement, the DOJ filed the complaint and consent decree, which contains the terms of the settlement agreement, with the federal district court in the Eastern District of Missouri. The Court has entered the consent decree, which has become a final settlement of this matter.

NOTE 16: CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

TFM Parent, our wholly-owned subsidiary, has fully and unconditionally guaranteed the 2016 Notes. Additionally, TFM Parent has fully and unconditionally guaranteed the 2022 Notes until such date TFM Parent has been released of its guarantee of both (i) Tyson's \$1.0 billion revolving credit facility and (ii) the 2016 Notes, at which time TFM Parent's guarantee of the 2022 Notes is permanently released. The following financial information presents condensed consolidating financial statements, which include Tyson Foods, Inc. (TFI Parent); TFM Parent; the Non-Guarantors Subsidiaries (Non-Guarantors) on a combined basis; the elimination entries necessary to consolidate TFI Parent, TFM Parent and the Non-Guarantors; and Tyson Foods, Inc. on a consolidated basis, and is provided as an alternative to providing separate financial statements for the guarantor. This presentation has been revised from the financial presentation disclosed in periods prior to September 29, 2012, to reflect changes in the subsidiary guarantees associated with the permanent release of certain subsidiary guarantors upon the retirement of the 10.50% Senior Notes due 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

RESULTS OF OPERATIONS

Description of the Company

We are one of the world's largest meat protein companies and the second-largest food production company in the Fortune 500 with one of the most recognized brand names in the food industry. We produce, distribute and market chicken, beef, pork, prepared foods and related allied products. Our operations are conducted in four segments: Chicken, Beef, Pork and Prepared Foods. Some of the key factors influencing our business are customer demand for our products; the ability to maintain and grow relationships with customers and introduce new and innovative products to the marketplace; accessibility of international markets; market prices for our products; the cost of live cattle and hogs, raw materials and feed; and operating efficiencies of our facilities.

Overview

General – We had strong operating income in the third quarter of fiscal 2013, which was led by record earnings in our Chicken segment and a rebound in our Beef segment.

We continued to execute our strategy of accelerating growth in domestic value-added chicken sales, prepared food sales and international chicken production, innovating products, services and customer insights and cultivating our talent development to support Tyson's growth and future.

We also maintained focus on maximizing our margins through margin management and operational efficiency improvements. Margin management improvements occurred in the areas of mix, export sales, price optimization and value-added product initiatives. The operational efficiencies occurred in areas of yields, chicken live performance, cost reduction and labor management.

Market environment – Our Chicken segment delivered record results in the third quarter of fiscal 2013 driven by strong demand and favorable domestic market conditions. The Chicken segment experienced increased feed costs but was able to offset the impact with operational, mix and price improvements. Our Beef segment's operating performance rebounded in the third quarter of fiscal 2013 due to improved operational execution and less volatile live cattle markets. Our Pork segment results were down slightly in the third quarter of fiscal 2013 due to decreased volumes as a result of balancing our supply with customer demand and reduced exports. Our Prepared Foods segment was challenged by product mix and rapidly increasing raw material prices.

Discontinued Operation - After conducting an assessment during fiscal 2013 of our long-term business strategy in China, we determined our Weifang operation (Weifang), which was part of our Chicken segment, was no longer core to the execution of our strategy given the capital investment it required to execute our future business plan. In the third quarter we entered into an agreement to sell Weifang, which was subsequently completed in July 2013.

Weifang's results are reported as a discontinued operation for all periods presented.

Our total operating margins were 4.8% in the third quarter of fiscal 2013. The following is a summary of operating margins by segment:

Chicken – 7.0% Beef – 3.1% Pork – 5.0% Prepared Foods – 3.0%

Debt and Liquidity – During the third quarter of fiscal 2013, we generated \$542 million of operating cash flows.

Additionally, we repurchased, as part of our share repurchase program, 4 million shares of our Class A common stock for \$100 million. At June 29, 2013, we had approximately \$2 billion of liquidity, which includes availability under our credit facility, \$943 million of cash and cash equivalents and \$81 million of short-term investments.

Summary of Results

Sales

in millions

	Three Months Ended		Nine Months Ended	
	June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012
Sales	\$8,731	\$8,261	\$25,480	\$24,740
Change in sales volume	2.2	%	(0.7)%
Change in average sales price	3.7	%	4.1	%
Sales growth	5.7	%	3.0	%

Third quarter – Fiscal 2013 vs Fiscal 2012

- Average Sales Price – Sales were positively impacted by higher average sales prices, which accounted for an increase of \$286 million. All segments experienced increased average sales prices, largely due to continued tight domestic availability of protein and increased live and raw material costs.

Sales Volume – Sales were positively impacted by higher sales volume, which accounted for an increase of \$184 million. All segments, with the exception of the Pork segment, had an increase in sales volume.

Nine months – Fiscal 2013 vs Fiscal 2012

Average Sales Price – Sales were positively impacted by higher average sales prices, which accounted for an increase of \$864 million. The Chicken and Beef segments experienced increased average sales prices, largely due to continued tight domestic availability of protein and increased live and raw material costs, partially offset by a decrease in average sales price in the Pork segment which was driven by lower live and raw material costs.

Sales Volume – Sales were negatively impacted by lower sales volume, which accounted for a decrease of \$124 million. The Beef and Pork segments experienced lower sales volumes, partially offset by increases in sales volume in the Chicken and Prepared Foods segments.

Cost of Sales

in millions

	Three Months Ended		Nine Months Ended	
	June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012
Cost of sales	\$8,049	\$7,695	\$23,791	\$23,140
Gross margin	\$682	\$566	\$1,689	\$1,600
Cost of sales as a percentage of sales	92.2	% 93.1	% 93.4	% 93.5

Third quarter – Fiscal 2013 vs Fiscal 2012

Cost of sales increased \$354 million. Higher input cost per pound increased cost of sales \$183 million, while higher sales volume increased cost of sales \$171 million.

The \$183 million impact of higher input cost per pound was primarily driven by:

Increases in live cattle and live hog costs of \$85 million and \$20 million, respectively.

Increase in feed costs of \$105 million in our Chicken segment.

The \$171 million impact of higher sales volume was driven by increases in sales volume in our Chicken, Beef, and Prepared Foods segments, partially offset by a decrease in sales volume in our Pork segment.

Nine months – Fiscal 2013 vs Fiscal 2012

Cost of sales increased \$651 million. Higher input cost per pound increased cost of sales \$792 million, while lower sales volume decreased cost of sales \$141 million.

The \$792 million impact of higher input cost per pound was primarily driven by:

Increase in live cattle costs of \$350 million, partially offset by a decrease in live hog costs of \$80 million.

Increase in feed costs of \$440 million in our Chicken segment.

The \$141 million impact of lower sales volume was driven by decreases in sales volume in our Beef and Pork segments, partially offset by increases in sales volume in our Chicken and Prepared Foods segment.

Table of ContentsSelling, General and Administrative
in millions

	Three Months Ended		Nine Months Ended	
	June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012
Selling, general and administrative expense	\$263	\$224	\$730	\$668
As a percentage of sales	3.0	% 2.7	% 2.9	% 2.7

Third Quarter - Fiscal 2013 vs Fiscal 2012

• Increase of \$22 million related to employee costs including payroll and stock-based and incentive-based compensation.

• Increase of \$13 million related to advertising and sales promotions.

Nine months – Fiscal 2013 vs Fiscal 2012

• Increase of \$30 million related to employee costs including payroll and stock-based and incentive-based compensation.

• Increase of \$25 million related to advertising and sales promotions.

• Increase of \$7 million primarily related to reduced investment returns on deferred compensation plans.

Interest Expense

in millions

	Three Months Ended		Nine Months Ended	
	June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012
Cash interest expense	\$29	\$39	\$88	\$120
Loss on early extinguishment of debt	—	167	—	167
Non-cash interest expense	7	9	21	29
Total Interest Expense	\$36	\$215	\$109	\$316

Third quarter and nine months – Fiscal 2013 vs Fiscal 2012

Cash interest expense includes interest expense related to the coupon rates for senior notes and commitment/letter of credit fees incurred on our revolving credit facilities. The decrease is due to lower average coupon rates for our senior notes compared to fiscal 2012.

Loss on early extinguishment of debt during the third quarter and nine months of fiscal 2012 include the amount paid exceeding the par value of debt, unamortized discount and unamortized debt issuance costs related to the completion of our tender offer to purchase any and all of the outstanding 10.50% Senior Notes due 2014 (2014 Notes).

• Non-cash interest expense primarily includes interest related to the amortization of debt issuance costs and discounts/premiums on note issuances.

Other (Income) Expense, net

	\$—	\$(3)	\$(19)	\$(17)

Nine months of fiscal 2013

• Included \$19 million related to a currency translation adjustment gain recognized in conjunction with the receipt of proceeds constituting the final resolution of our investment in Canada.

Nine months of fiscal 2012

• Included \$11 million of equity earnings in joint ventures and \$4 million in net foreign currency exchange gains.

Table of Contents

Effective Tax Rate

Three Months Ended		Nine Months Ended	
June 29, 2013	June 30, 2012	June 29, 2013	June 30, 2012
35.4	% 40.2	% 32.6	% 35.9

Third quarter and nine months of fiscal 2013 – The effective tax rate for continuing operations was impacted by:

- state income taxes;
- the domestic production deduction; and
- losses in foreign jurisdictions for which no benefit is recognized.

Third quarter and nine months of fiscal 2012 – The effective tax rate for continuing operations was impacted by a lower level of pretax income for the quarter combined with:

- state income taxes;
- the domestic production deduction; and
- losses in foreign jurisdictions for which no benefit is recognized.

Segment Results

We operate in four segments: Chicken, Beef, Pork and Prepared Foods. The following table is a summary of sales and operating income (loss), which is how we measure segment income.

Table of Contents

Chicken Segment Results

in millions	Three Months Ended			Nine Months Ended		
	June 29, 2013	June 30, 2012	Change	June 29, 2013	June 30, 2012	Change
Sales	\$3,158	\$2,855	\$303	\$9,136	\$8,410	\$726
Sales Volume Change			4.4			1.8
Average Sales Price Change			6.0			6.7
Operating Income	\$220	\$159	\$61	\$471	\$346	\$125
Operating Margin	7.0	% 5.6	%	5.2	% 4.1	%

Third quarter and nine months – Fiscal 2013 vs Fiscal 2012

Sales and Operating Income –

Sales Volume – Sales volume grew due to increased domestic and international production driven by stronger demand for chicken products.

Average Sales Price – The increase in average sales price in the third quarter and nine months of fiscal 2013 was primarily due to mix changes and price increases associated with higher input costs. Since many of our sales contracts are formula based or shorter-term in nature, we were able to offset rising input costs through improved pricing and mix.

Operating Income – Operating income was positively impacted by increased average sales price and volume, improved live performance and operational execution, as well as improved performance in our foreign-produced operations. These increases were partially offset by increased feed costs of \$105 million and \$440 million for the third quarter and nine months of fiscal 2013, respectively.

Beef Segment Results

in millions	Three Months Ended			Nine Months Ended		
	June 29, 2013	June 30, 2012	Change	June 29, 2013	June 30, 2012	Change
Sales	\$3,723	\$3,487	\$236	\$10,655	\$10,323	\$332
Sales Volume Change			3.8			(3.6)
Average Sales Price Change			2.9			7.1
Operating Income	\$114	\$71	\$43	\$134	\$101	\$33
Operating Margin	3.1	% 2.0	%	1.3	% 1.0	%

Third quarter and nine months – Fiscal 2013 vs Fiscal 2012

Sales and Operating Income –

Fed cattle supplies decreased which drove up average sales price and livestock cost. Sales volumes increased in the third quarter due to increased demand for our beef products. Sales volumes decreased in the nine months of fiscal 2013 due to a reduction in outside trim and tallow purchases. Operating income increased in the third quarter and nine months of fiscal 2013 due to improved operational execution and less volatile live cattle markets.

Table of Contents**Pork Segment Results**

in millions	Three Months Ended			Nine Months Ended		
	June 29, 2013	June 30, 2012	Change	June 29, 2013	June 30, 2012	Change
Sales	\$1,332	\$1,344	\$(12)	\$4,006	\$4,191	\$(185)
Sales Volume Change			(4.7)%			(3.0)%
Average Sales Price Change			4.0 %			(1.4)%
Operating Income	\$67	\$69	\$(2)	\$264	\$349	\$(85)
Operating Margin	5.0	% 5.1	%	6.6	% 8.3	%

Third quarter and nine months – Fiscal 2013 vs Fiscal 2012

Sales and Operating Income –

For the third quarter of fiscal 2013, demand for pork products improved, which drove up average sales price and livestock cost despite a slight increase in live hog supplies. For the nine months of fiscal 2013, live hog supplies increased, which drove down average sales price and livestock cost. Sales volumes decreased as a result of balancing our supply with customer demand and reduced exports. While reduced compared to prior year, operating income remained strong in the nine months of fiscal 2013 despite brief periods of imbalance in industry supply and customer demand.

Derivative Activities – Operating results in fiscal 2012 included gains of \$18 million and \$51 million for the three and nine months ended, respectively, for commodity risk management activities related to futures contracts. These amounts exclude the impact from related physical sale and purchase transactions, which impact current and future period operating results. Our operating results in fiscal 2013 were not significantly impacted by these activities.

Third quarter and nine months – Fiscal 2013 vs Fiscal 2012

Sales and Operating Income –

Operating income decreased, despite increased sales volumes, as the result of product mix, increased raw material costs and additional costs incurred as we invested in our lunchmeat business. Because many of our sales contracts are formula based or shorter-term in nature, we are typically able to offset rising input costs through pricing. However, there is a lag time for price increases to take effect.

Table of Contents

Outlook

In fiscal 2014, we expect overall domestic protein production (chicken, beef, pork and turkey) to increase approximately 1% from fiscal 2013 levels. The recent favorable weather conditions and more ideal planting environment should increase 2014 grain supplies, which should result in lower input costs as well as decreased costs for cattle and hog producers. The following is a summary of the fiscal 2014 outlook for each of our segments, as well as an outlook on sales, capital expenditures, net interest expense, debt and liquidity and share repurchases for the remainder of fiscal 2013 and fiscal 2014:

Chicken – Current USDA data shows U.S. chicken production to increase 2-3% in fiscal 2014 compared to fiscal 2013. Based on current futures prices, we expect lower feed costs in fiscal 2014 compared to fiscal 2013 of approximately \$500 million. Many of our sales contracts are formula based or shorter-term in nature, which allows us to adjust pricing when input costs fluctuate. However, there may be a lag time for price changes to take effect. For fiscal 2014, we believe our Chicken segment will be in or above its normalized range of 5.0%-7.0%.

Beef – We expect to see a reduction of industry fed cattle supplies of 2-3% in fiscal 2014 as compared to fiscal 2013. Although we generally expect adequate supplies in regions we operate our plants, there may be periods of imbalance of fed cattle supply and demand. For fiscal 2014, we believe our Beef segment's profitability will be similar to fiscal 2013, but could be below its normalized range of 2.5%-4.5%.

Pork – We expect industry hog supplies to be flat and exports to improve compared to fiscal 2013. For fiscal 2014, we believe our Pork segment will be in its normalized range of 6.0%-8.0%.

Prepared Foods – We expect operational improvements and pricing to offset increased raw material costs. Because many of our sales contracts are formula based or shorter-term in nature, we are typically able to offset rising input costs through increased pricing. For fiscal 2014, we believe our Prepared Foods segment could be slightly below its normalized range of 4.0%-6.0% as we continue to invest in our growth platforms.

Sales – We expect fiscal 2013 sales to approximate \$34.5 billion mostly resulting from price increases related to decreases in domestic availability of certain protein and increased raw material costs. We expect fiscal 2014 sales to approximate \$36 billion as we continue to execute our strategy of accelerating growth in domestic value-added chicken sales, prepared food sales and international chicken production.

Capital Expenditures – We expect fiscal 2013 capital expenditures will approximate \$550-\$600 million. We expect fiscal 2014 capital expenditures to approximate \$650-\$700 million.

Net Interest Expense – We expect net interest expense will approximate \$140 million and \$100 million for fiscal 2013 and 2014, respectively.

Debt and Liquidity – Our next significant debt maturity is scheduled for October 2013, which we currently plan to use cash on hand and/or cash flows from operations for payment. We may also use additional available cash to repurchase notes when available at attractive rates. Total liquidity at June 29, 2013, was \$2 billion, well above our goal to maintain liquidity in excess of \$1.2 billion.

Share Repurchases – We expect to continue repurchasing shares under our share repurchase program. As of June 29, 2013, 24 million shares remain authorized for repurchases. The timing and extent to which we repurchase shares will depend upon, among other things, our working capital needs, market conditions, liquidity targets, our debt obligations and regulatory requirements.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

Our cash needs for working capital, capital expenditures, growth opportunities, upcoming debt maturities, the repurchases of senior notes and share repurchases are expected to be met with current cash on hand, cash flows provided by operating activities, or short-term borrowings. Based on our current expectations, we believe our liquidity and capital resources will be sufficient to operate our business. However, we may take advantage of opportunities to generate additional liquidity or refinance existing debt through capital market transactions. The amount, nature and timing of any capital market transactions will depend on: our operating performance and other circumstances; our then-current commitments and obligations; the amount, nature and timing of our capital requirements; any limitations imposed by our current credit arrangements; and overall market conditions.

Cash Flows from Operating Activities

in millions

	Nine Months Ended	
	June 29, 2013	June 30, 2012
Net income	\$519	\$395
Non-cash items in net income:		
Depreciation and amortization	387	369
Deferred income taxes	(21)) 75
Loss on early extinguishment of debt	—	167
Other, net	80	(1)
Changes in working capital	(193) (286)
Net cash provided by operating activities	\$772	\$719

Cash flows associated with Loss on early extinguishment of debt includes the amount paid exceeding the par value of debt, unamortized discount and unamortized debt issuance costs related to the completion of our tender offer to purchase any and all of the outstanding 2014 Notes.

Cash flows associated with changes in working capital for the nine months ended:

June 29, 2013 – Decreased primarily due to higher inventory and accounts receivable balances and lower accounts payable. The increased inventory and accounts receivable balances are largely due to increased raw material costs and timing of sales.

June 30, 2012 – Decreased primarily due to a higher inventory balance and lower accounts payable, accrued salaries, wages and benefits and interest payable. The increased inventory balance was largely due to increased raw material costs. The decreased interest payable balance was primarily due to the payment of accrued interest related to the 2014 Notes upon extinguishment.

Cash Flows from Investing Activities

in millions

	Nine Months Ended	
	June 29, 2013	June 30, 2012
Additions to property, plant and equipment	\$(425) \$(530)
(Purchases of)/Proceeds from marketable securities, net	(101) (9)
Acquisitions, net of cash acquired	(106) —
Other, net	36	19
Net cash used for investing activities	\$(596) \$(520)

Additions to property, plant and equipment included acquiring new equipment, upgrading our facilities to maintain competitive standing and positioning us for future opportunities.

Capital spending for fiscal 2013 is expected to approximate \$550-\$600 million, and includes spending on our operations for production and labor efficiencies, yield improvements and sales channel flexibility, as well as expansion of our foreign operations.

Purchases of marketable securities in the nine months of fiscal 2013 included \$80 million related to the purchase of short-term investments and \$18 million related to the funding of deferred compensation plans.

Acquisitions - During the nine months of fiscal 2013, we acquired two value-added food businesses as part of our strategic expansion initiative. The aggregate purchase price of the acquisitions was \$106 million, which included \$50 million for property, plant and equipment, \$41 million allocated to Intangible Assets and \$12 million allocated to

Goodwill.

Table of ContentsCash Flows from Financing Activities
in millions

	Nine Months Ended	
	June 29, 2013	June 30, 2012
Payments on debt	\$(69)	\$(919)
Net proceeds from borrowings	48	1,082
Purchases of Tyson Class A common stock	(298)	(209)
Dividends	(87)	(44)
Stock options exercised	93	32
Other, net	13	(26)
Net cash used for financing activities	\$(300)	\$(84)

During the nine months of fiscal 2012, we received net proceeds of \$995 million from the issuance of the 4.50% Senior Notes due 2022. We used the net proceeds towards the extinguishment of the 2014 Notes, including the payments of accrued interest and related premiums, and general corporate expenses.

During the nine months of fiscal 2013, we received proceeds of \$40 million and paid \$66 million related to borrowings at our foreign operations. Total debt related to our foreign operations was \$66 million at June 29, 2013 (\$42 million current, \$24 million long-term).

Purchases of Tyson Class A common stock included:

\$250 million and \$180 million for shares repurchased pursuant to our share repurchase program during the nine months ended June 29, 2013, and June 30, 2012, respectively; and

\$48 million and \$29 million for shares repurchased to fund certain obligations under our equity compensation plans during the nine months ended June 29, 2013, and June 30, 2012, respectively.

Dividends during the nine months of fiscal 2013 included a 25% increase to our quarterly dividend rate. Additionally, we declared and paid special dividends per share of \$0.10 and \$0.09 to holders of Class A stock and Class B stock, respectively, during the nine months of fiscal 2013.

Liquidity
in millions

	Commitments Expiration Date	Facility Amount	Outstanding Letters of Credit (no draw downs)	Amount Borrowed	Amount Available
Cash and cash equivalents					\$943
Short-term investments					\$81
Revolving credit facility	August 2017	\$1,000	\$56	\$—	\$944
Total liquidity					\$1,968

Short-term investments include marketable debt securities with maturities of less than 12 months, primarily certificates of deposit and commercial paper, classified as available-for-sale.

The revolving credit facility supports our short-term funding needs and letters of credit. The letters of credit issued under this facility are primarily in support of workers' compensation insurance programs and derivative activities.

Our 3.25% Convertible Senior Notes due 2013 (2013 Notes) may currently be converted to Class A stock early during any fiscal quarter in the event certain conditions are met. In this event, any note holders electing early conversion would be paid the conversion value up to the principal value in cash, which totaled \$458 million at June 29, 2013.

Any conversion premium would be paid in shares of Class A stock. The conditions for early conversion were met in our third quarter of fiscal 2013, and thus, holders maintain the option to convert the 2013 Notes during our fourth quarter of fiscal 2013. On and after July 15, 2013, until the close of business on the second scheduled trading day immediately preceding the maturity date, which is October 15, 2013, holders may convert their notes at any time.

Should the holders exercise the early conversion option on or after July 15, 2013, we would be required to make such delivery of cash and Class A stock, if any, at the October 15, 2013 maturity date. As of August 2, 2013, there were no significant early conversions. We presently plan to use cash on hand and/or cash flows from operations for payment

on the 2013 Notes on October 15, 2013.

39

Table of Contents

At June 29, 2013, approximately 32% of our cash was held in the international accounts of our foreign subsidiaries. Generally, we do not rely on the foreign cash as a source of funds to support our ongoing domestic liquidity needs, but rather we manage our worldwide cash requirements by reviewing available funds among our foreign subsidiaries and the cost effectiveness with which those funds can be accessed. The repatriation of cash balances from certain of our subsidiaries could have adverse tax consequences or be subject to regulatory capital requirements; however, those balances are generally available without legal restrictions to fund ordinary business operations. Our U.S. income taxes, net of applicable foreign tax credits, have not been provided on undistributed earnings of foreign subsidiaries. Our intention is to reinvest these earnings permanently or to repatriate the earnings only when it is tax effective to do so.

Our current ratio was 1.88 to 1 and 1.91 to 1 at June 29, 2013, and September 29, 2012, respectively.

Capital Resources**Revolving Credit Facility**

Cash flows from operating activities and current cash on hand are our primary sources of liquidity for funding debt service, capital expenditures, dividends and share repurchases. We also have a revolving credit facility, with a committed maximum capacity of \$1.0 billion, to provide additional liquidity for working capital needs, letters of credit and a source of financing for growth opportunities. As of June 29, 2013, we had outstanding letters of credit totaling \$56 million issued under this facility, none of which were drawn upon, which left \$944 million available for borrowing. Our revolving credit facility is funded by a syndicate of 43 banks, with commitments ranging from \$0.3 million to \$90 million per bank. The syndicate includes bank holding companies that are required to be adequately capitalized under federal bank regulatory agency requirements.

Capitalization

To monitor our credit ratings and our capacity for long-term financing, we consider various qualitative and quantitative factors. We monitor the ratio of our debt to our total capitalization as support for our long-term financing decisions. At June 29, 2013, and September 29, 2012, the ratio of our debt-to-total capitalization was 27.8% and 28.7%, respectively. For the purpose of this calculation, debt is defined as the sum of current and long-term debt. Total capitalization is defined as debt plus Total Shareholders' Equity.

Credit Ratings**2016 Notes**

On February 11, 2013, Standard & Poor's Ratings Services, a Standard & Poor's Financial Services LLC business (S&P), upgraded the credit rating of the 2016 Notes from "BBB-" to "BBB." This upgrade did not impact the interest rate on the 2016 Notes.

On June 7, 2012, Moody's Investors Service, Inc. (Moody's) upgraded the credit rating of the 2016 Notes from "Ba1" to "Baa3." This upgrade decreased the interest rate on the 2016 Notes from 6.85% to 6.60%, effective beginning with the six-month interest payment due October 1, 2012.

A one-notch downgrade by Moody's would increase the interest rates on the 2016 Notes by 0.25%. A two-notch downgrade from S&P would increase the interest rates on the 2016 Notes by 0.25%.

Revolving Credit Facility

S&P's corporate credit rating for Tyson Foods, Inc. is "BBB." Moody's senior, unsecured, subsidiary guaranteed long-term debt rating for Tyson Foods, Inc. is "Baa3." Fitch Ratings', a wholly owned subsidiary of Fimalac, S.A. (Fitch), issuer default rating for Tyson Foods, Inc. is "BBB." The below table outlines the fees paid on the unused portion of the facility (Facility Fee Rate) and letter of credit fees (Undrawn Letter of Credit Fee and Borrowing Spread) depending on the rating levels of Tyson Foods, Inc. from S&P, Moody's and Fitch.

Ratings Level (S&P/Moody's/Fitch)	Facility Fee Rate	Undrawn Letter of Credit Fee and Borrowing Spread	
BBB+/Baa1/BBB+ or above	0.150	% 1.125	%
BBB/Baa2/BBB (current level)	0.175	% 1.375	%
BBB-/Baa3/BBB-	0.225	% 1.625	%
BB+/Ba1/BB+	0.275	% 1.875	%

Edgar Filing: TYSON FOODS INC - Form 10-Q

BB/Ba2/BB or lower or unrated	0.325	% 2.125	%
-------------------------------	-------	---------	---

In the event the rating levels are split, the applicable fees and spread will be based upon the rating level in effect for two of the rating agencies, or, if all three rating agencies have different rating levels, the applicable fees and spread will be based upon the rating level that is between the rating levels of the other two rating agencies.

Table of Contents

Debt Covenants

Our revolving credit facility contains affirmative and negative covenants that, among other things, may limit or restrict our ability to: create liens and encumbrances; incur debt; merge, dissolve, liquidate or consolidate; make acquisitions and investments; dispose of or transfer assets; pay dividends or make other payments in respect of our capital stock; amend material documents; change the nature of our business; make certain payments of debt; engage in certain transactions with affiliates; and enter into sale/leaseback or hedging transactions, in each case, subject to certain qualifications and exceptions. In addition, we are required to maintain minimum interest expense coverage and maximum debt-to-capitalization ratios.

Our 2022 Notes also contain affirmative and negative covenants that, among other things, may limit or restrict our ability to: create liens; engage in certain sale/leaseback transactions; and engage in certain consolidations, mergers and sales of assets.

We were in compliance with all debt covenants at June 29, 2013.

RECENTLY ADOPTED/ISSUED ACCOUNTING PRONOUNCEMENTS

Refer to the discussion of recently adopted/issued accounting pronouncements under Part I, Item 1, Notes to Consolidated Condensed Financial Statements, Note 1: Accounting Policies.

CRITICAL ACCOUNTING ESTIMATES

We consider accounting policies related to: contingent liabilities; marketing and advertising costs; accrued self insurance; impairment of long-lived assets; impairment of goodwill and other intangible assets; and income taxes to be critical policies. These policies are summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended September 29, 2012.

CAUTIONARY STATEMENTS RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Certain information in this report constitutes forward-looking statements. Such forward-looking statements include, but are not limited to, current views and estimates of our outlook for fiscal 2013 and 2014, other future economic circumstances, industry conditions in domestic and international markets, our performance and financial results (e.g., debt levels, return on invested capital, value-added product growth, capital expenditures, tax rates, access to foreign markets and dividend policy). These forward-looking statements are subject to a number of factors and uncertainties that could cause our actual results and experiences to differ materially from anticipated results and expectations expressed in such forward-looking statements. We wish to caution readers not to place undue reliance on any forward-looking statements, which speak only as of the date made. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Among the factors that may cause actual results and experiences to differ from anticipated results and expectations expressed in such forward-looking statements are the following: (i) the effect of, or changes in, general economic conditions; (ii) fluctuations in the cost and availability of inputs and raw materials, such as live cattle, live swine, feed grains (including corn and soybean meal) and energy; (iii) market conditions for finished products, including competition from other global and domestic food processors, supply and pricing of competing products and alternative proteins and demand for alternative proteins; (iv) successful rationalization of existing facilities and operating efficiencies of the facilities; (v) risks associated with our commodity purchasing activities; (vi) access to foreign markets together with foreign economic conditions, including currency fluctuations, import/export restrictions and foreign politics; (vii) outbreak of a livestock disease (such as avian influenza (AI) or bovine spongiform encephalopathy (BSE)), which could have an adverse effect on livestock we own, the availability of livestock we purchase, consumer perception of certain protein products or our ability to access certain domestic and foreign markets; (viii) changes in availability and relative costs of labor and contract growers and our ability to maintain good relationships with employees, labor unions, contract growers and independent producers providing us livestock; (ix) issues related to food safety, including costs resulting from product recalls, regulatory compliance and any related claims or litigation; (x) changes in consumer preference and diets and our ability to identify and react to consumer trends; (xi) significant marketing plan changes by large customers or loss of one or more large customers; (xii) adverse results from litigation; (xiii) risks associated with leverage, including cost increases due to rising interest rates or changes in debt ratings or outlook; (xiv) compliance with and changes to regulations and laws (both domestic

and foreign), including changes in accounting standards, tax laws, environmental laws, agricultural laws and occupational, health and safety laws; (xv) our ability to make effective acquisitions or joint ventures and successfully integrate newly acquired businesses into existing operations; (xvi) effectiveness of advertising and marketing programs; and (xvii) those factors listed under Item 1A. "Risk Factors" included in our Annual Report filed on Form 10-K for the year ended September 29, 2012.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk relating to our operations results primarily from changes in commodity prices, interest rates and foreign exchange rates, as well as credit risk concentrations. To address certain of these risks, we enter into various derivative transactions as described below. If a derivative instrument is accounted for as a hedge, depending on the nature of the hedge, changes in the fair value of the instrument either will be offset against the change in fair value of the hedged assets, liabilities or firm commitments through earnings, or be recognized in other comprehensive income (loss) until the hedged item is recognized in earnings. The ineffective portion of an instrument's change in fair value is recognized immediately. Additionally, we hold certain positions, primarily in grain and livestock futures that either do not meet the criteria for hedge accounting or are not designated as hedges. With the exception of normal purchases and normal sales that are expected to result in physical delivery, we record these positions at fair value, and the unrealized gains and losses are reported in earnings at each reporting date. Changes in market value of derivatives used in our risk management activities relating to forward sales contracts are recorded in sales. Changes in market value of derivatives used in our risk management activities surrounding inventories on hand or anticipated purchases of inventories are recorded in cost of sales.

The sensitivity analyses presented below are the measures of potential losses of fair value resulting from hypothetical changes in commodity prices, interest rates and foreign exchange rates. Sensitivity analyses do not consider the actions we may take to mitigate our exposure to changes, nor do they consider the effects such hypothetical adverse changes may have on overall economic activity. Actual changes in market prices may differ from hypothetical changes.

Commodities Risk: We purchase certain commodities, such as grains and livestock, in the course of normal operations. As part of our commodity risk management activities, we use derivative financial instruments, primarily futures and options, to reduce the effect of changing prices and as a mechanism to procure the underlying commodity. However, as the commodities underlying our derivative financial instruments can experience significant price fluctuations, any requirement to mark-to-market the positions that have not been designated or do not qualify as hedges could result in volatility in our results of operations. Contract terms of a hedge instrument closely mirror those of the hedged item providing a high degree of risk reduction and correlation. Contracts designated and highly effective at meeting this risk reduction and correlation criteria are recorded using hedge accounting. The following table presents a sensitivity analysis resulting from a hypothetical change of 10% in market prices as of June 29, 2013, and September 29, 2012, on the fair value of open positions. The fair value of such positions is a summation of the fair values calculated for each commodity by valuing each net position at quoted futures prices. The market risk exposure analysis includes hedge and non-hedge derivative financial instruments.

Effect of 10% change in fair value	June 29, 2013	in millions September 29, 2012
Livestock:		
Cattle	\$14	\$42
Hogs	21	37
Grain	14	30

Interest Rate Risk: At June 29, 2013, we had variable rate debt of \$177 million with a weighted average interest rate of 3.4%. A hypothetical 10% increase in interest rates effective at June 29, 2013, and September 29, 2012, would have a minimal effect on interest expense.

Additionally, changes in interest rates impact the fair value of our fixed-rate debt. At June 29, 2013, we had fixed-rate debt of \$2.2 billion with a weighted average interest rate of 6.0%. Market risk for fixed-rate debt is estimated as the potential increase in fair value, resulting from a hypothetical 10% decrease in interest rates. A hypothetical 10% decrease in interest rates would have increased the fair value of our fixed-rate debt by approximately \$18 million at June 29, 2013, and \$16 million at September 29, 2012. The fair values of our debt were estimated based on quoted market prices and/or published interest rates.

Foreign Currency Risk: We have foreign exchange exposure from fluctuations in foreign currency exchange rates primarily as a result of certain receivable and payable balances. The primary currencies we have exposure to are the

Brazilian real, the British pound sterling, the Canadian dollar, the Chinese renminbi, the European euro and the Mexican peso. We periodically enter into foreign exchange forward and option contracts to hedge some portion of our foreign currency exposure. A hypothetical 10% change in foreign exchange rates effective at June 29, 2013, and September 29, 2012, related to the foreign exchange forward and option contracts would have a \$11 million and \$21 million impact, respectively, on pretax income. In the future, we may enter into more foreign exchange forward and option contracts as a result of our international growth strategy.

Concentration of Credit Risk: Refer to our market risk disclosures set forth in the 2012 Annual Report filed on Form 10-K for a detailed discussion of quantitative and qualitative disclosures about concentration of credit risks, as these risk disclosures have not changed significantly from the 2012 Annual Report.

Table of Contents

Item 4. Controls and Procedures

An evaluation was performed, under the supervision and with the participation of management, including the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on that evaluation, management, including the CEO and CFO, has concluded that, as of June 29, 2013, our disclosure controls and procedures were effective.

In the third quarter ended June 29, 2013, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Refer to the description of certain legal proceedings pending against us under Part I, Item 1, Notes to Consolidated Condensed Financial Statements, Note 15: Commitments and Contingencies, which discussion is incorporated herein by reference. Listed below are certain additional legal proceedings involving the Company and/or its subsidiaries. On May 8, 2008, a lawsuit was filed against the Company and two of our employees in the District Court of McCurtain County, Oklahoma styled *Armstrong, et al. v. Tyson Foods, Inc., et al.* (the *Armstrong Case*). The lawsuit was brought by a group of 52 poultry growers who allege that certain of our live production practices in Oklahoma constitute fraudulent inducement, fraud, unjust enrichment, negligence, gross negligence, unconscionability, violations of the Oklahoma Business Sales Act, Deceptive Trade Practice violations, violations of the Consumer Protection Act, and conversion, as well as other theories of recovery. The plaintiffs sought damages in an unspecified amount. On October 30, 2009, 20 additional growers represented by the same attorney filed a lawsuit against us in the same court asserting the same or similar claims, which is styled *Clardy, et al. v. Tyson Foods, Inc., et al.* (the *Clardy Case*). In both of these cases we have denied all allegations of wrongdoing. In June 2009, the plaintiffs in the *Armstrong case* requested an expedited trial date for a smaller group of plaintiffs they claimed were facing imminent financial peril. The Court ultimately severed a group of 10 plaintiffs from the *Armstrong Case*, and a trial began on March 15, 2010. On April 1, 2010, the jury returned a verdict against us and one of our employees, and on April 2, 2010, the Court entered a judgment in the amount of \$8,655,735, which included punitive damages. Subsequent to the trial, the presiding judge disqualified from the cases and the Oklahoma Supreme Court appointed a new judge to the cases. Following this appointment, the trial court granted our motions for change of venue and to stay all future trials of plaintiffs in the *Armstrong Case* and the *Clardy Case* pending the outcome of our appeal of the initial *Armstrong Case* verdict. The trial court took under advisement the sizes of groupings of plaintiffs in future trials in response to our motion to sever the plaintiffs' claims into individual cases. We appealed the initial *Armstrong Case* verdict to the Oklahoma Supreme Court based on numerous irregularities and rulings during the trial, and the Oklahoma Supreme Court reversed the verdict and remanded the case back to the trial court. The new trial in the *Armstrong Case* is scheduled for September 2013, though due to the current procedural posture of the case and outstanding pre-trial issues, a postponement of the trial date may occur. The new trial date has not been scheduled for the *Clardy Case*. Other Matters: We currently have approximately 115,000 employees and, at any time, have various employment practices matters outstanding. In the aggregate, these matters are significant to the Company, and we devote significant resources to managing employment issues. Additionally, we are subject to other lawsuits, investigations and claims (some of which involve substantial amounts) arising out of the conduct of our business. While the ultimate results of these matters cannot be determined, they are not expected to have a material adverse effect on our consolidated results of operations or financial position.

Item 1A. Risk Factors

There have been no material changes to the risk factors listed in Part I, "Item 1A. Risk Factors" in the Annual Report on Form 10-K for the year ended September 29, 2012. These risk factors should be considered carefully with the information provided elsewhere in this report, which could materially adversely affect our business, financial condition or results of operations. Additional risks and uncertainties not currently known or we currently deem to be immaterial also may materially adversely affect our business, financial condition or results of operations.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below provides information regarding our purchases of Class A stock during the periods indicated.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
March 31, 2013 to April 27, 2013	164,208	\$24.30	—	28,000,134
April 28, 2013 to June 1, 2013	2,065,995	24.91	1,879,800	26,120,334
June 2, 2013 to June 29, 2013	2,175,734	25.33	2,099,332	24,021,002
Total	4,405,937 ⁽²⁾	\$25.09	3,979,132	⁽³⁾ 24,021,002

On February 7, 2003, we announced our Board of Directors approved a program to repurchase up to 25 million shares of Class A common stock from time to time in open market or privately negotiated transactions. The program has no fixed or scheduled termination date. On May 3, 2012, our Board of Directors approved an increase of 35 million shares authorized for repurchase under this program.

We purchased 426,805 shares during the period that were not made pursuant to our previously announced stock repurchase program, but were purchased to fund certain Company obligations under our equity compensation plans. These transactions included 385,935 shares purchased in open market transactions and 40,870 shares withheld to cover required tax withholdings on the vesting of restricted stock.

(3) These shares were purchased during the period pursuant to our previously announced stock repurchase program.

Item 5. Other Information

On and effective August 1, 2013, the board of directors of the Company amended and restated the Company's Bylaws (the "Bylaws" and, as amended and restated, the "Amended Bylaws"). The following is a brief summary of the material changes effected by adoption of the Amended Bylaws, which is qualified in its entirety by reference to the Amended Bylaws filed as Exhibit 3.2 hereto.

(1) The Amended Bylaws added certain advance notice and other requirements for stockholders to propose director nominations or other business to be brought before an annual or special meeting of stockholders, which requirements include, among other things, the following:

(a) stockholder proposals must be brought by stockholders who are stockholders of record as of the date of delivery of the required notice and as of the record date for determination of stockholders entitled to notice of and to vote at the applicable annual or special meeting;

(b) a stockholder must give notice of any action to be brought before an annual meeting or any director nominee not less than 90 nor more than 120 days prior to the first anniversary of the preceding year's annual meeting;

(c) in addition to the information specified in the prior version of the Company's Bylaws, a stockholder's advance notice with respect to any stockholder proposals or director nominations must set forth:

(i) the class and number of all shares of stock of the Company owned beneficially or of record by the stockholder or any affiliates or associates of such stockholder;

(ii) any material interest in such business of the stockholder and the beneficial owners, if any, on whose behalf the proposal is made;

(iii) specified information relating to the interests of the stockholder and any identified beneficial owners and their affiliates and associates in derivatives, hedges and other economic and voting interests with respect to stock of the Company;

(iv) a representation that the stockholder intends to appear in person or by proxy at the meeting to bring the proposed business or nomination before the meeting;

(v) a representation whether the stockholder intends to deliver a proxy statement and/or form of proxy to stockholders or to solicit proxies or votes from stockholders in support of the proposal or nominees for election as directors; and

(vi) any other information relating to the stockholder and any identified beneficial owners and their affiliates and associates that would be required to be disclosed in a proxy statement or other filings required to be made in connection with the solicitation of proxies by such person with respect to the proposed business or the election of directors, or that may otherwise be required, pursuant to proxy solicitation rules of the United States Securities and Exchange Commission (the "SEC");

(d) in addition to the information specified in the prior version of the Company's Bylaws, a stockholder's advance notice with respect to director nominations, must set forth the following information about each proposed nominee for election as a director:

(i) the class and number of all shares of stock of the Company which are owned beneficially or of record by such person and by any affiliates or associates of such person;

(ii) any other information relating to such person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to SEC rules and regulations; and

(e) a proposed director nominee will be required to furnish to the Company a written questionnaire with respect to the background and qualifications of such nominee to be eligible for election.

(2) The Amended Bylaws also provide that in the event of a contested election of directors, the directors receiving a plurality of the votes will be elected.

(3) Other substantive changes included in the Amended Bylaws are the following: (i) special meetings of stockholders may only be called by the senior chairman of the board (if there is one), the chairman of the board, resolution adopted by a majority of the entire board, or the secretary upon request of a majority of stockholders, (ii) a director meeting at which a quorum is initially present may continue to transact business notwithstanding the withdrawal of directors if any action taken is approved by at least a majority of the required quorum for that meeting,

and (iii) the age limitation for service by a director has been changed from 70 to 72.
