Our Business

Stake Technology Ltd. ("Stake" or the "Company") operates in three principal businesses; (1) natural food product sourcing, processing, and packaging, (2) distribution and recycling of environmentally responsible aggregate products and (3) engineering and marketing of a clean pulping system using patented steam explosion technology. The Company was incorporated under the laws of Canada on November 13, 1973. The principle executive offices are located at 2838 Highway 7, Norval, Ontario, Canada, L0P 1K0, telephone: (905) 455-1990, fax: (905) 455-2529, e-mail: info@staketech.com and web site: www.staketech.com.

SunRich Food Group, Inc. consists of four wholly owned subsidiaries, SunRich, Inc., Northern Food and Dairy, Inc., Nordic Aseptic, Inc. and Virginia Materials Inc. (Virginia Materials) plus 51% owned International Materials & Supplies, Inc. (International Materials). The first three companies, which operate under the management of the SunRich Food Group Inc., produce organic and non-GMO food ingredients with a specialization in soymilk and other soy products. The SunRich Food Group Inc. operates from five plants in Minnesota and one plant in each of Iowa and Wyoming. The two other US companies, Virginia Materials and International Materials operate under the management of the Environmental Industrial Group described below.

The Environmental Industrial Group includes BEI/PECAL, a division of the Company, Temisca, Inc., Virginia Materials and 51% of International Materials. This Group sells and distributes abrasives and other industrial materials from third party suppliers to the foundry, steel and marine/bridge cleaning industries and sources specialty sands from its Temisca property in Northern Quebec. This Group also recycles inorganic materials under a special permit from the Ministry of Environment and Energy of Ontario, at its Waterdown Ontario

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

site, one of two such licences issued in Canada's largest province. The Environmental Industrial Group operates from manufacturing and distribution facilities in Waterdown, Ontario; Hamilton, Ontario; New Orleans, Louisiana; Norfolk, Virginia and Keeseville, New York. The Group also has a warehouse and sales facility in Montreal, Quebec, and a sand quarry and processing facility located in Ville Marie, Quebec.

The StakeTech steam explosion business is a division of Stake Technology Ltd. and is located within the corporate office of the Company in Norval, Ontario. There are also separate buildings at this location, which contain a demonstration unit of this division's steam explosion technology process as well as laboratory facilities. This division holds numerous patents on its technology and is currently marketing this clean pulping system with a special focus on opportunities in China.

Acquisitions during 2000 and 2001

The SunRich Food Group

Jenkins & Gournoe, Inc.

On February 1, 2001, the Company acquired 100% of the common shares of Jenkins & Gournoe Inc., which operates under the name of First Light Foods. Consideration consisted of the issuance of 833,333 common shares, US \$300,000 in cash, a US \$700,000 note payable that is repayable quarterly over 2 years by payments of US \$87,500, plus interest at 8.5%, 35,000 warrants exercisable at US \$1.70 for five years to February, 2006 and acquisition costs of approximately US \$60,000. In addition, contingent consideration may be payable on this acquisition; (a) if certain predetermined profit targets are achieved by the acquired business up to an additional 140,000 warrants may be issued in 2002 through to 2005, and (b) a percentage of gross profits in excess of US \$1,100,000 per annum from 2001- 2005 will be paid to the vendors of First Light Foods.

3

First Light Foods owns several trademarked brands that are marketed as the private label brands of a major California food chain. The acquisition of First Light Foods complements the SunRich Food Group's strategy of becoming a vertically integrated group - from seed to merchandisable products of soymilk.

The acquisition of First Light Foods closed after December 31, 2000, therefore none of its operations or assets are included in the December 31, 2000 Form 10-KSB.

Northern Food and Dairy, Inc.

On September 15, 2000, the Company acquired 100% of the common shares of Northern Food and Dairy, Inc. (Northern) by the issuance of 7,000,000 common shares, 500,000 common share warrants exercisable at US\$1.50 for five years, and cash consideration of \$608,000 for a total purchase price of \$11,190,000. At the time of the issuance of the shares for acquisition (September 15, 2000) they represented approximately 24.5% of the outstanding common shares of the Company after the transaction, and resulted in Mr. Dennis Anderson, the principal vendor of Northern owning 19% of Stake, at December 31, 2000. Mr. Anderson remains the President of Northern and is the Executive Vice President of Operations of the SunRich Food Group.

Northern is a US based manufacturer and supplier of soymilk, other food products and ingredients that are produced in three production facilities in northern Minnesota and a fourth facility in Afton, Wyoming which commenced operations

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

late in 2001 to serve the western US market. Northern is the largest manufacturer of soy milk concentrate in the US with approximately 55% of the US soy milk market. Northern also produces and dries soy sauce, tofu and other specialty food ingredients such as dietary fibres, natural food preservatives, grain fractions, dried honey coatings, dried molasses, cheese flavours, starter media, margarine enhancement and dried meat flavours. In October, 2000, Northern started operation of one of these three plants in Minnesota to produce a natural food preservative under a long-term contact for a major European food company.

As the acquisition of Northern was completed on September 15, 2000, the net assets of Northern are included in the December 31, 2000 balance sheet. Northern's results of operations are included for the 106-day period of September 16 - December 31, 2000.

Nordic Aseptic, Inc.

In the second quarter of 2000, Northern and SunRich, Stake's only food company as at December 31, 1999 created a joint venture to purchase an aseptic packaging plant located in northern Minnesota to be known as Nordic Aseptic, Inc. (Nordic). This plant packages aseptic soymilk for Northern and SunRich's largest soymilk customer. The joint venture assumed management control of the plant in April 2000 and on August 15, 2000, Nordic acquired certain assets of Hoffman Aseptic Inc. by the assumption of certain debts, resulting in a purchase price of \$380,000.

Under the terms of the agreement, the joint venture partners were responsible for the operations of the plant from April 19, 2000 and therefore the operating results of Nordic are accounted for based on SunRich's 50% interest from April 19, 2000 to September 15, 2000. As Northern was acquired on September 15, 2000, 100% of Nordic's operating results are included for the period of September 16 - December 31, 2000. The net assets of Nordic are included in the December 31, 2000 balance sheet.

4

Environmental Industrial Group

PECAL

On February 29, 2000 Stake acquired 100% of the shares of George F. Pettinos (Canada) Limited, operating as PECAL, from US Silica Company for \$4,682,000 cash which was financed by the assumption of a new five-year term loan of \$2,600,000 and an expansion of the Company's Canadian line of credit from \$3,000,000 to \$5,000,000. On December 29, 2000, the Company renegotiated the Canadian debt agreement and as a result \$1,800,000 of the increased line of credit was reallocated to a long-term facility and reduced the Canadian line of credit from \$5,000,000 to \$4,000,000. The amount available on this line of credit is dependent on margin ratios of accounts receivable, inventory and the repayment of the five year term loan.

The acquisition of PECAL complements the business of the Company's division, Barnes Environmental International (now all part of the Environmental Industrial Group). PECAL was a direct competitor of BEI in the sand, coated sand, bentonite, chromite, and zircon businesses, and they have strengths in several other businesses that are closely related to BEI's existing markets. PECAL has added to the Environmental Industrial Group's product lines in several key areas and has helped to build sales in Ontario and the US.

The PECAL plant located in Hamilton, Ontario was retained and manufactures and produces coated sand, foundry mixes and provides wholesaler and distribution

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

service. The PECAL administration office located at a separate rented site was closed in May 2000 and certain employees relocated to the Environmental Industrial Group's Waterdown Head Office.

Temisca, Inc.

On October 31, 2000, the Company acquired Temisca, Inc. a private sand deposit and processing company in Ville Marie, Quebec. The purchase price was \$1,676,000 consisting of cash paid to the vendor and acquisition costs of \$926,000 and the issuance of a \$750,000 note payable which bears interest at 5% and is repayable over five years.

The acquisition of Temisca gives the Environmental Industrial Group its first directly controlled raw material source that will allow the Group to increase its sales to existing and new customers. The properties of the Temisca sands are suited to filtration, frac sand, golf course sand and abrasive applications. The acquisition of Temisca also provides the Environmental Industrial Group with better transportation opportunities due to the physical location of Temisca to the Environmental Industrial Group's suppliers and customers.

Virginia Materials

Effective October 31, 2001, the Company acquired certain assets of Virginia Material and Supply, Inc. as well as 51% of International Materials and Supplies, Inc. (International Materials) for cash consideration and acquisition costs of approximately US \$1,835,000. The new business was incorporated, as Virginia Materials Inc. (Virginia Materials) and this company holds 51% of International Materials. Virginia Materials is a supplier of abrasives to the shipbuilding and repair industry, in particular to the Newport News Shipyard and also to the bridge repair and roofing granular markets. It has a production facility located in Norfolk, Virginia and a second plant is scheduled to open in 2002 in Baltimore, Maryland.

5

Virginia Materials also recycles spent abrasives, which are used in the production of portland cement and converts aluminum smelting waste into a roofing and abrasive product. International Materials produces industrial garnets as a by-product from a mining operation and processes these garnets for sale to the water filtration, water jet cutting and abrasives markets.

RISK FACTORS

The Common Shares offered hereby are speculative in nature and involve a high degree of risk. Accordingly, in analyzing an investment in these securities, prospective investors should carefully consider, along with other matters referred to herein, the risk factors set forth below. Prospective investors should carefully consider the following risk factors, together with all of the other information appearing, or incorporated by reference, in this Prospectus, in light of his or her particular financial circumstances and/or investment objectives.

Dependence on Key Personnel, including Directors and Officers

The Company is wholly dependent upon the personal efforts and abilities of its Officers and Directors. The loss or unavailability to the Company of the services of its officers, particularly Jeremy N. Kendall, Chairman and Chief Executive Officer of the Company, John Taylor, President and Chief Operating Officer of the Company and Allan Routh, President and Dennis Anderson, Executive Vice President and Director of Operations of SunRich Food Group, Inc., the

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

Company's wholly owned subsidiary, would have a materially adverse effect on the Company's business prospects, ability to raise funds and its potential earning capacity. If the Company were to lose the services of any of the aforementioned officers and directors before a qualified replacement could be obtained, its business could be materially and adversely affected.

Northern Food and Dairy, Inc. has key man insurance as required by bank covenants for Dennis Anderson in the amount of U.S. \$1,000,000. The beneficiary of this insurance is Northern. The Company does not carry any other insurance on other executives to compensate for any such loss. The ability of the Company to attract and retain qualified management and technical personnel as employees or consultants is critical to the operations of the Company. To date, the Company has been able to attract and retain sufficient professional employees and consultants, however, there can be no assurance that the Company will be able to do so in the future. If the Company were unable to employ the qualified employees and consultants needed, then its business would be materially and adversely affected.

Future Capital Needs

The costs associated with some of the growth of the Company's present business operations and to fund the acquisition strategies of the Company will require substantial capital, which may result in additional dilution to the Company's shareholders. The ability of the Company to raise such funds may delay or prevent the Company from meeting some of its strategic goals.

Competition

The Company and its subsidiaries carry on their businesses in competition with companies and individuals with financial resources and staffs larger than the Company's and the Company is, therefore, subject to competitive factors over which it has little control or can otherwise affect. Extreme competition for financial resources exists in our businesses and this competition for funds may also create risks for the Company if the Company is unable to raise funds needed to carry out its strategic plans.

6

Governmental Regulation and Policies

The Company and its subsidiaries are, and are expected to continue to be, subject to substantial federal, state, provincial and local environmental regulation. These regulations exist in virtually all the Company's operational business locations throughout North America and can present delays and costs that can adversely affect business development.

The SunRich Food Group is affected by governmental agricultural regulations and policies. State and federal fertilizer, pesticide, food processing, grain buying and warehousing, and wholesale food-handling regulations are examples of regulations that affect this Group. Government-sponsored price supports and acreage set aside programs are two examples of policies that may affect this Group. There can be no assurance that government regulations and policies will not change from time to time in a manner adverse to the SunRich Food Group's business or that may present delays and costs that could adversely affect this Group.

Consolidation Within the Food Group's Industry May Require Access to Greater Financial Resources

The SunRich Food Group, Inc., the Company's wholly owned subsidiary competes

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

with substantially larger companies in the natural food, grain and specialty grain markets who have greater financial resources than the Company. The SunRich Food Group's ability to retain market share is uncertain because these food businesses continue to consolidate leaving potentially less market share for smaller competitors.

Stake's Steam Explosion Technology Group

The steam explosion technology group has yet to gain wide acceptance within the industry and consequently earnings fluctuate from quarter to quarter. Its patented steam technology, while proven, has yet to develop a firm customer base. The success of this division will depend upon its ability to promote commercial acceptance of Stake's steam explosion processes and equipment.

Lack of Dividends; Dividend Restrictions

Stake has never paid dividends on its common shares and we do not contemplate paying cash dividends in the foreseeable future. Moreover, Stake is precluded under the terms of various agreements with its creditors from paying dividends until the related indebtedness has been satisfied. We intend therefore to retain future earnings to fund our growth. Accordingly, you will not receive a return on your investment in our common shares through the payment of dividends in the foreseeable future and may not realize a return on your investment even if you sell your shares. Any future payment of dividends to our security holders will depend on decisions that will be made by our board of directors and will depend on then existing conditions, including our financial condition, contractual restrictions, capital requirements and business prospects. The receipt of cash dividends by United States shareholders from a Canadian corporation, such as Stake, is subject to a 15% Canadian withholding tax.

7

Your ownership interest in Stake will be diluted upon issuance of shares we have reserved for future issuance

As of December 31, 2001, the Company had 41,073,228 common shares outstanding. Due the exercise of 4,800 options into common shares by employees who exercised options and are not longer with the Company, at February 12, 2002 there are 41,078,028 common shares outstanding and 7,246,475 additional common shares were reserved for issuance and are detailed as follows:

- 1) Warrants to purchase 500,000 common shares exercisable at US \$1.50 expiring September 15, 2005 from the acquisition of Northern;
- 2) Warrants to purchase 35,000 common shares exercisable at US \$1.70 expiring February 28, 2006 from the acquisition of Jenkins & Gournoe Inc.;

- 6) Warrants to purchase 72,000 common shares, which may be acquired by the agent under the terms of the May 18, 2001 private placement agreement, which closed on June 8, 2003, if the 144,000 options (noted above in 5) are exercised. The warrants to purchase 72,000

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

- 7) common shares are exercisable at US \$2.40 expiring March 31, 2004; Warrants to purchase 2,250,000 common shares exercisable at US \$2.40 expiring September 30, 2004 from the private placement completed on September 28, 2001;
- 8) Option to acquire 150,000 common shares which may be acquired by the agent under the terms of the September 28, 2001 private placement agreement at US \$2.00 until September 28, 2003;
- 9) Warrants to purchase 112,500 common shares, which may be acquired by the agent under the terms of the September 28, 2001 private placement agreement if the 150,000 options (noted above in 8) are exercised. The warrants to purchase 112,500 common shares are exercisable at US \$2.40 expiring September 30, 2004; and
- 10) Options to acquire 2,077,225 common shares previously granted to employees, directors and consultants under various Company stock option plans.

In addition, if certain predetermined profit targets are achieved by the First Light Foods business, which was acquired in February 2001, up to an additional 140,000 warrants may be issued in 2002 through to 2005, at a rate of up to 35,000 per year.

The issuance of these additional common shares will reduce your percentage ownership in Stake.

Of the US\$5,911,000, transferred during 2001, US \$2,206,000 was specifically used to repay a line of credit due to the US Bank, as this line of credit was not renewed under the existing terms.

DESCRIPTION OF SECURITIES

The Company is authorized to issue an unlimited number of common shares, without par value and an unlimited number of Special Shares, without par value. As of December 31, 2001 Stake had 41,073,228 common shares outstanding. Due to the exercise of 4,800 options into common shares by employees who are not longer with the Company, at February 12, 2002 there are 41,078,028 common shares outstanding. There are no special shares issued and outstanding. The following is a brief summary of certain of the rights of the holders of the Company's capital stock.

Common Shares

The holder of each common share is entitled to one vote, either in person or by proxy, on all matters submitted to shareholders. Holders of common shares are entitled to share pro rata in such dividends as may be declared by the Board of Directors. In the event of liquidation, dissolution or winding up of the Company, holders of common shares are entitled to share pro rata in the assets of the Company available for distribution. Since shareholders do not have cumulative voting rights, holders of more than 50% of the outstanding voting shares can elect all of the directors of the Company if they choose to do so. In such event, holders of the remaining shares will be unable to elect any director. The common shares do not have conversion, subscription or preemptive rights, are not subject to redemption and do not have the benefit of any sinking fund provisions. All outstanding common shares are fully paid and non-assessable.

Special Shares

The special shares are issuable in series. Subject to the Company's Articles of Amalgamation, the Board of Directors is authorized to fix, before issuance, the designation, rights, privileges, restrictions and conditions

attached to the shares of each series. The special shares would rank prior to the common shares with respect to dividends and return of capital on dissolution. Except with respect to matters as to which the holders of special shares are entitled to vote as a class, the holders of special shares will not be entitled to vote at meetings of shareholders.

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

The Articles of Amalgamation, as amended, and the By-Laws of the Company and the Canada Business Corporations Act govern the rights of holders of the common shares. The Articles of Amalgamation and By-Laws may be amended so as to modify such rights and major corporate changes (such as amalgamation, reorganization and sale of all or substantially all assets) may be effected, by not less than two-thirds of the votes cast by the shareholders voting in person or by proxy at a general meeting of the Company.

The selling security holders and any brokers participating in the sales of the Shares may be deemed to be underwriters within the meaning of the Securities Act.

Any commissions paid or any discounts or concessions allowed to any broker, dealer, underwriter, agent or market maker and, if any broker, dealer, underwriter, agent or market maker purchases any of the Shares as principal, any profits received on the resale of those Shares, may be deemed to be underwriting commissions or discounts under the Securities Act.

These provisions may restrict certain activities of, and limit the timing of purchases and sales of any of the Shares by, the selling security holders or any other such person. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from

simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. All of these limitations may affect the marketability of the Shares offered by this Prospectus.

Compliance With State Law

In jurisdictions where the state securities laws require it, the selling security holders' Shares offered by this Prospectus may be sold only through registered or licensed brokers or dealers. In addition, in some states the Shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and has been complied with.

INDEMNIFICATION OF DIRECTORS AND OFFICERS

Our officers and directors are covered by the provisions of the Canada Business Corporations Act ("CBCA"), the Articles of Amalgamation, the bylaws and insurance policies, which serve to indemnify them against liabilities, which they may incur in such capacities. These various provisions are described below.

Indemnification and Insurance. Under the CBCA, we have the right, under specified circumstances to indemnify a present or former director or officer or a person who acts or acted at our request as a director or officer of a corporation of which we are or were a shareholder or creditor, and his or her legal representatives if such director or officer acted honestly and in good faith with a view to our best interests and, in the case of a criminal or administrative action or proceeding where the penalty could result in a fine, if he or she had reasonable grounds for believing his or her conduct was lawful. In the latter case, we have the obligation to indemnify such person if he or she complies with the foregoing requirements. We also have the right with the approval of a court to indemnify such persons in respect of an action by or on behalf of the corporation or body corporate to procure a judgment in its favor, to which he is made a party by reason of being or having been a director or an officer of the corporation or body corporate, against all costs, charges and expenses reasonably incurred by him in connection with such action if he fulfills the foregoing requirements.

However, no such indemnification relieves a director or officer from the duty to act in accordance with the requirement of the CBCA honestly and in good faith with a view to our best interests, and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The bylaws generally provide for mandatory indemnification of our directors and officers to the full extent provided by the CBCA.

We have purchased and intend to maintain insurance on behalf of any person who is or was a director or officer of Stake, or is or was a director or officer of Stake serving at our request as a director, officer, employee or agent of another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, so long as the director or officer acted honestly and in good faith with a view to our best interests.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or controlling persons pursuant to the foregoing provisions, those provisions are, in the opinion of the SEC, against public policy as expressed in the Securities Act of 1933 and are therefore unenforceable.

ENFORCEABILITY OF CIVIL LIABILITIES

The Company is a Canada corporation. A majority of its officers and directors, as well as certain of the experts named herein, are residents of Canada and a substantial portion of the assets of the Company and of such persons are located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States upon the Company or such persons or to enforce, in United States courts judgments against them obtained in such courts predicated upon the civil liability provisions of the United States federal securities laws. The Company has been advised by its Canadian counsel Mann & Gahtan LLP of Toronto, Ontario, that there is doubt as to whether Canadian courts would: (a) enforce judgments of United States courts obtained in

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

actions against the Company or such persons predicated upon the civil liability provisions of the United States federal securities laws; or (b) enforce, in original actions, liabilities against the Company or such persons predicated solely upon the United States federal securities laws.

Item 15. Indemnification of Directors and Officers

Section 124 of the Canada Business Corporations Act ("CBCA") provides, in pertinent part, as follows:

(1) Indemnification. Except in respect of an action by or on behalf of the corporation or body corporate to procure a judgment in its favor, a corporation may indemnify a director or officer of the corporation, a former director or officer of the corporation or a person who acts or acted at the corporation's request as a director or officer of a body corporate of which the corporation is or was a shareholder or creditor, and his heirs and legal representatives, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by him in respect of any civil, criminal or administrative action or proceeding to which he is made a party by reason of being or having been a director or officer of such corporation or body corporate, if

- (a) he acted honestly and in good faith with a view to the best interests of the corporation; and
- (b) in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, he had reasonable grounds for believing that his conduct was lawful.

(2) Indemnification in derivative actions. A corporation may with the approval of a court indemnify a person referred to in subsection (1) in respect of an action by or on behalf of the corporation or body corporate to procure a judgment in its favor, to which he is made a party by reason of being or having been a director or an officer of the corporation or body corporate, against all costs, charges and expenses reasonably incurred by him in connection with such action if he fulfills the conditions set out in paragraphs (1)(a) and (b).

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

II-1

(3) Indemnity as of right. Notwithstanding anything in this section, a person referred to in subsection (1) is entitled to indemnity from the corporation in respect of all costs, charges and expenses reasonably incurred by him in connection with the defence of any civil, criminal or administrative action or proceeding to which he is made a party by reason of being or having been a director or officer of the corporation or body corporate, if the person seeking indemnity

(a) was substantially successful on the merits in his defence of the action or proceeding, and

(b) fulfills the conditions set out in paragraphs (1)(a) and (b).

(4) Directors' and officers' insurance. A corporation may purchase and maintain insurance for the benefit of any person referred to in subsection (1) against any liability incurred by him.

(a) in his capacity as a director or officer of the corporation, except where the liability relates to his failure to act honestly and in good faith with a view to the best interests of the corporation; or

(b) in his capacity as a director or officer of another body corporate where he acts or acted in that capacity at the corporation's request, except where the liability relates to his failure to act honestly and in good faith with a view to the best interests of the body corporate.

Pursuant to its By-Laws, the Company shall indemnify any person, and his or her heirs and legal representatives who is or was a director or officer of the Company, or who acts or acted at the request of the Company as a director or officer of a body corporate of which the Company is or was a shareholder or creditor, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by such person in respect of any civil, criminal or administrative action or proceeding to which such person is made a party by reason of being or having been a director or officer of the Company or such body corporate, if such person acted honestly and in good faith with a view to the best interests of the Company, and, in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, such person had reasonable grounds for believing that his or her conduct was lawful. No director or officer of the Company shall be indemnified by the Company in respect of any liability, costs, charges or expenses that such person sustains or incurs in or about any action, suit or other proceeding as a result of which he or she is adjudged to be in breach of any duty or responsibility imposed upon him or her under the CBCA or under any other statute unless, in an action brought against him or her in their capacity as director or officer, he or she have achieved complete or substantial success as a defendant. Subject to the limitations contained in the CBCA, the Company may purchase, maintain or participate in such insurance for the benefit of such persons as the board of directors may, from time to time, determine.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "Act"), may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the United States Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is therefore unenforceable. The Company is subject, insofar as its Articles of Amalgamation and internal affairs are concerned, to the laws of Canada, and it has been advised by its Canadian counsel, Messrs. Mann & Gahtan LLP, that, in their opinion, Canadian courts would allow

Edgar Filing: STAKE TECHNOLOGY LTD - Form S-3

indemnification for liabilities arising under the Act, provided that the indemnification came within the limits of the above quoted sections of the CBCA, since such provisions are not contrary to the public policy of Canada. (See "Enforceability of Civil Liabilities.")

- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

II-3

- (b) The undersigned Registrant hereby further undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
