FOR IMMEDIATE RELEASE

FactSet Research Systems Reports Record Second Quarter Results, Doubles its Dividend and Increases its Share Repurchase Program by \$100 Million

Norwalk, Connecticut March 20, 2007 FactSet Research Systems Inc. (NYSE: FDS), a leading provider of integrated financial information and analytical applications to the global investment community, today announced its results for the second quarter of fiscal 2007.

For the quarter ended February 28, 2007, revenues increased to \$116.3 million, up 24% compared to the prior year. Operating income for the second quarter rose to \$37.8 million from \$29.6 million in the same period of fiscal 2006. Net income advanced 38% to \$26.5 million as compared to \$19.2 million a year ago. Diluted earnings per share increased to \$0.52, up from \$0.38 in the same period of fiscal 2006. The effective tax rate for the quarter was 33.1%, down from 36.3% a year ago. Included in the second quarter was an income tax benefit of \$1.1 million, resulting in an increase in diluted earnings of \$0.03 per share. The tax benefit was caused by the reenactment of the U.S. Federal R&D tax credit in December 2006, retroactive to January 1, 2006.

To aid an investor's ability to make more precise interpretations of FactSet's financial results, a supplementary schedule is presented on page 7 of this press release to summarize revenues related to services that are not included in the calculation of FactSet's subscription value.

The Company also announced today that its Board of Directors approved increasing the quarterly cash dividend by 100% to \$0.12 per share, or \$0.48 per share per annum, beginning with the Company's next dividend payment in June 2007. The Board also approved an expansion of the existing share repurchase program by an additional \$100 million. There is no timeframe to complete the repurchase program and it is expected that share repurchases and cash dividends will be paid using existing and future cash generated by operations.

Recent Events and Business Outlook

The following forward-looking statements reflect FactSet's expectations as of March 20, 2007. Given the number of risk factors, uncertainties and assumptions discussed below, actual results may differ materially. The Company does not intend to update its forward-looking statements until its next quarterly results announcement, other than in publicly available statements.

Third Quarter Fiscal 2007 Expectations

- Revenues are expected to range between \$118 million and \$121 million. Included in this amount is a \$1.0 million reduction in non-subscription revenues compared to the just completed second quarter.

- Operating margins are expected to range between 31.5% and 33.5%.

- The effective tax rate is expected to range between 35.0% and 36.0%.

Full Year Fiscal 2007

- Capital expenditures are expected to range between \$35 million to \$39 million. The increase in capital expenditures is a result of accelerating our plan to expand and consolidate New York office space from the first quarter of fiscal 2008 to the fourth quarter of fiscal 2007.

Dividend Declaration

FactSet's Board of Directors approved an increase in the regular quarterly dividend to \$0.12 per share. The cash dividend will be paid on June 19, 2007 to holders of record of FactSet's common stock on May 31, 2007.
