ITEM 1 - FINANCIAL STATEMENTS

The condensed financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

In the opinion of the Company, all adjustments, consisting of only normal recurring adjustments, necessary to present fairly the financial position of the Company as of September 30, 2005 and the results of its operations and changes in its financial position from December 31, 2004 through September 30, 2005 have been made. The results of its operations for the interim periods are not necessarily indicative of the results to be expected for the entire year.

Siclone Industries, Inc.
NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS
September 30, 2005
(Unaudited)

NOTE 1 - BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying unaudited condensed financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted in accordance with such rules and regulations. The information furnished in the interim condensed financial statements include normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. Although management believes the disclosures and information presented are adequate to make the information not misleading, it is suggested that these interim condensed financial statements be read in conjunction with the Company's most recent audited financial statements and notes thereto included in its December 31, 2004 Annual Report on Form 10-KSB of Siclone Industries, Inc. Operating results for the three months ended September 30, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, develop a reliable source of revenues, and achieve a profitable level of operations the Company will need, among other things, additional capital resources. Management's plans to continue as a going

Edgar Filing: SICLONE INDUSTRIES INC - Form 10-Q

concern include raising additional capital through sales of common stock. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustment that might be necessary if the Company is unable to continue as a going concern.

6

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Safe Harbor for Forwardlooking Statements

The discussion and analysis contained herein should be read in conjunction with the preceding financial statements and the information contained in the Company's Form 10-QSB and the Company's most recent Form 10-KSB. Except for the historical information contained herein, the matters discussed in this Form 10-QSB contain forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, including, among others (i) expected changes in the Company's revenues and profitability, (ii) the effects of cost-reduction measures, (iii) prospective business opportunities and (iv) the Company's strategy for improving and funding its business, that are based on management's beliefs and assumptions, current expectations, estimates, and projections. Statements that are not historical facts, including, without limitation, statements which are preceded by, followed by, or include the words "believes," "anticipates," "plans," "expects," "may," "should" or similar expressions are forward-looking statements. Many of the factors that will determine the Company's future results are beyond the ability of the Company to control or predict. These statements are subject to risks and uncertainties and, therefore, actual results may differ materially. All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on its behalf, are expressly qualified in their entirety by these cautionary statements. The Company disclaims any obligation to update any forward-looking statements whether as a result of new information, future events, or otherwise.

Description of Business

Siclone Industries, Inc. originally incorporated in Delaware on November 1, 1985 as McKinnely Investments, Inc. The Company changed its name to Accoline Industries, Inc. on November 5, 1986 and again changed its name to Siclone Industries, Inc. on May 24, 1988.

The Company has not had active business operations since its inception and is considered a development stage company.

Edgar Filing: SICLONE INDUSTRIES INC - Form 10-Q

The Company intends to seek, investigate, and if warranted, acquire an interest in a business opportunity. It will not restrict its search to any particular industry or geographical area and may, therefore, engage in essentially any business in any industry. Its management has unrestricted discretion in seeking and participating in a business opportunity, subject to the availability of such opportunities, economic conditions and other factors.

The selection of a business opportunity in which to participate is complex and extremely risky and will be made by management in the exercise of its business judgment. There is no assurance that it will be able to identify and acquire any business opportunity which will ultimately prove to be beneficial to the Company and its shareholders.

The Company's activities are subject to several significant risks which arise primarily as a result of the fact that it has no specific business and may acquire or participate in a business opportunity based on the decision of management which will, in all probability, act without the consent, vote, or approval of its shareholders.

7

Plan of Operations

Management intends to actively seek business opportunities during the next twelve months. If they identify a suitable business opportunity during the year, the need for capital may change dramatically. Should the Company require additional capital, it may seek additional advances from officers, sell common stock or find other forms of debt financing. To date the Company has not pursued any business opportunities and there can be no assurance that the management will identify a business venture suitable for acquisition in the future. In addition, it cannot assure that it will be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage any business venture it acquires.

The current operating plan is to continue searching for potential businesses, products, technologies and companies for acquisition and to handle the administrative and reporting requirements of a public company.

Sources of Opportunities

The Company anticipates that business opportunities may arise from various sources, including its officers and directors, professional advisers, securities broker-dealers, venture capitalists, members of the financial community, and others who may present unsolicited proposals.

The Company will seek potential business opportunities from all known sources, but will rely principally on the personal contacts of its officers and directors as well as indirect associations between them and other business and professional people. Although management does not anticipate engaging professional firms specializing in business acquisitions or reorganizations, such firms may be retained if management deems it in the Company's best interests. In some instances, the Company may publish notices or advertisements seeking a potential business opportunity in financial or trade publications.

Criteria

Edgar Filing: SICLONE INDUSTRIES INC - Form 10-Q

The Company will not restrict its search to any particular business, industry or geographical location. The Company may acquire or enter into a business in any industry and in any stage of development. This may include a business or opportunity involving a "start up" or new company. In seeking a business venture, management's decision will not be controlled by an attempt to take advantage of an anticipated or perceived appeal of a specific industry, management group, or product or industry, but will be based upon the business objective of seeking long-term capital appreciation in the real value of the Company.

In analyzing prospective business opportunities, management will consider such matters as the available technical, financial and managerial resources; working capital and other financial requirements; the history of operations, if any; prospects for the future; the nature of present and expected competition; the quality and experience of management services which may be available and the depth of the management; the potential for further research, development or exploration; the potential for growth and expansion; the potential for profit; the perceived public recognition or acceptance of products, services, trade or service marks, name identification; and other relevant factors.

Generally, management will analyze all available factors in the circumstances and make a determination based upon a composite of available facts, without reliance upon any single factor as controlling.

8

Methods of Participation of Acquisition

Specific business opportunities will be reviewed and, on the basis of that review, the legal structure or method of participation deemed by management to be suitable will be selected. Such structures and methods may include, but are not limited to, leases, purchase and sale agreements, licenses, joint ventures, other contractual arrangements, and may involve a reorganization, merger or consolidation transaction. The Company may act directly or indirectly through an interest in a partnership, corporation, or other form of organization.

Procedures

As part of the ongoing investigation of business opportunities, officers and directors may meet personally with management and key personnel of the firm sponsoring the business opportunity, visit and inspect material facilities, obtain independent analysis or verification of certain information provided, check references of management and key personnel, and conduct other reasonable measures.

Management will generally request that it be provided with written materials regarding the business opportunity containing such items as a description of product, service and company history; management resumes; financial information; available projections with related assumptions upon which they are based; an explanation of proprietary products and services; evidence of existing patents, trademarks or service marks or rights thereto; present and proposed forms of compensation to management; a description of transactions between the prospective entity and its affiliates; relevant analysis of risks and competitive conditions; a financial plan of operation and estimated capital requirements; and other information deemed relevant.

Edgar Filing: SICLONE INDUSTRIES INC - Form 10-Q

Competition

The Company expects to encounter substantial competition in its efforts to acquire a business opportunity. The primary competition is from other companies organized and funded for similar purposes, small venture capital partnerships and corporations, small business investment companies and wealthy individuals.

Employees

The Company does not currently have any employees. It relies upon the efforts of its officers and directors to conduct its business.

Results of Operations for the Three-Month Period Ended September 30, 2005 and 2004

The Company has not generated any revenues since its inception on November 1, 1985. Expenses for the three-month period ended September 30, 2005 were \$4,267 compared to expenses of \$2,152, during the same period in 2004. Expenses during both periods consisted mainly of professional, legal and accounting costs related to the Company's public filings.

As a result of the foregoing factors, the Company realized a net loss of \$4,267 for the three-month period ended September 30, 2005, compared to a net loss of \$2,152 for the three-month period ended September 30, 2004.

9

Results of Operations for the Nine-Month Period Ended September 30, 2005 and 2004

Expenses for the nine-month period ended September 30, 2005 were \$10,083 compared to expenses of \$9,115, during the same period in 2004. Expenses during both periods consisted mainly of professional, legal and accounting costs related to the Company's public filings.

As a result of the foregoing factors, the Company realized a net loss of \$10,083 for the nine-month period ended September 30, 2005, compared to a net loss of \$9,115 for the nine-month period ended September 30, 2004.

Liquidity and Capital Resources

At September 30, 2005 the Company's total assets consisted of \$24 in cash. Total liabilities at September 30, 2005 were \$51,374 consisting of \$4,969 in accounts payable, \$36,412 in notes payable to an unrelated third party and \$9,993 in accrued interest.

In recent years the Company has relied on advances from the former president to cover its operating costs. The Company has little or no operations and no funds with which to develop operations. The Company is currently in the process of seeking short term capital while it investigates business opportunities to merge with or acquire. The Company currently has no agreement or arrangement of merger or acquisition.

There is no guarantee that the Company will be successful in developing any business opportunities or acquiring any operational capital. Any investment

Edgar Filing: SICLONE INDUSTRIES INC - Form 10-Q

in the Company would be a highly speculative investment and should only be made by those investors who are capable of bearing the risk of losing the entire value of their investment.

ITEM 3 - CONTROLS AND PROCEDURES.

(a) Evaluation of disclosure controls and procedures. The Company maintains disclosure controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934, is recorded, processed, summarized and reported within the time period specified in the rules and forms of the Securities and Exchange Commission. The Company's management including its principal executive officer and its principal financial officer, based on their evaluation of the Company's disclosure controls over financial reporting and procedures (as defined in Exchange Act Rules 13a-14c) in connection with the Annual Report on Form 10-KSB as of December 31, 2004, have concluded that the Company's disclosure controls over financial reporting and procedures are adequate and effective as of September 30, 2005 for the purposes set forth in the definition in Exchange Act rules.

(b) Changes in internal controls over financial reporting. There were not any significant changes in the Company's internal controls over financial reporting or in other factors that could materially affect or is reasonably likely to materially affect, or significantly affect the Company's internal controls subsequent to the date of their evaluation
