#### NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2017

#### 1. CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of management, the unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the consolidated financial position of American River Bankshares (the "Company") at June 30, 2017 and December 31, 2016, the results of its operations and statement of comprehensive income for the three-month and six-month periods ended June 30, 2017 and 2016, its cash flows for the six-month periods ended June 30, 2017 and 2016 and its statement of changes in shareholders' equity for the six months ended June 30, 2017 and 2016 in conformity with accounting principles generally accepted in the United States of America.

Certain disclosures normally presented in the notes to the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The Company believes that the disclosures are adequate to make the information not misleading. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2016. The results of operations for the three-month and six-month periods ended June 30, 2017 may not necessarily be indicative of the operating results for the full year.

In preparing such financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ significantly from those estimates. Material estimates that are particularly susceptible to significant changes in the near term relate to the determination of the allowance for loan and lease losses, the provision for taxes, the valuation of goodwill and the estimated fair value of investment securities, impaired loans and other real estate owned.

Management has determined that since all of the banking products and services offered by the Company are available in each branch office of American River Bank, all branch offices are located within the same economic environment and management does not allocate resources based on the performance of different lending or transaction activities, it is appropriate to aggregate all of the branch offices and report them as a single operating segment. No client accounts for more than ten percent (10%) of revenues for the Company or American River Bank.

#### 2. STOCK-BASED COMPENSATION

#### **Equity Plans**

On March 17, 2010, the Board of Directors adopted the 2010 Equity Incentive Plan (the "2010 Plan"). The 2010 Plan was approved by the Company's shareholders on May 20, 2010. In 2000, the Board of Directors adopted and the Company's shareholders approved a stock option plan (the "2000 Plan"), under which 64,134 options remain outstanding at June 30, 2017. At June 30, 2017, under the 2010 Plan, there were 76,461 stock options and 79,474 restricted shares outstanding and the total number of authorized shares that remain available for issuance was 1,362,437. The 2010 Plan provides for the following types of stock-based awards: incentive stock options; nonqualified stock options; stock appreciation rights; restricted stock; restricted performance stock; unrestricted Company stock; and performance units. Awards under the 2000 Plan were either incentive stock options or nonqualified stock options. Under the 2010 Plan, the awards may be granted to employees and directors under incentive and nonqualified option agreements, restricted stock agreements, and other awards agreements. The unvested restricted stock under the 2010 Plan have dividend and voting rights. The 2010 Plan and the 2000 Plan (collectively the "Plans") require that the option price may not be less than the fair market value of the stock at the date the option is awarded. The option awards under the Plans expire on dates determined by the Board of Directors, but not later than ten years from the date of award. The vesting period is generally five years; however, the vesting period can be modified at the discretion of the Company's Board of Directors. Outstanding option awards under the Plans are exercisable until their expiration, however, no new options will be awarded under the 2000 Plan. New shares are issued upon exercise of an option.

The award date fair value of awards is determined by the market price of the Company's common stock on the date of award and is recognized ratably as compensation expense or director expense over the vesting periods. The shares of common stock awarded pursuant to such agreements vest in increments over one to five years from the date of award. The shares awarded to employees and directors under the restricted stock agreements vest on the applicable vesting dates only to the extent the recipient of the shares is then an employee or a director of the Company or one of its subsidiaries, and each recipient will forfeit all of the shares that have not vested on the date his or her employment or service is terminated.

#### **Equity Compensation**

For the three-month periods ended June 30, 2017 and 2016, the compensation cost recognized for equity compensation was \$100,000 and \$85,000, respectively. The recognized tax benefit for equity compensation expense was \$36,000 and \$30,000, respectively, for the three-month periods ended June 30, 2017 and 2016. For the six-month periods ended June 30, 2017 and 2016, the compensation cost recognized for equity compensation was \$201,000 and \$167,000, respectively. The recognized tax benefit for equity compensation expense was \$73,000 and \$59,000, respectively, for the six-month periods ended June 30, 2017 and 2016.

At June 30, 2017, the total unrecognized pre-tax compensation cost related to nonvested stock option awards was \$79,000. This amount will be recognized over the next 3.0 years and the weighted average period of recognizing these costs is expected to be 1.7 years. At June 30, 2017, the total unrecognized pre-tax compensation cost related to restricted stock awards was \$579,000. This amount will be recognized over the next 4.9 years and the weighted average period of recognizing these costs is expected to be 1.6 years.

#### **Other Equity Awards**

There were no stock appreciation rights; restricted performance stock; unrestricted Company stock; or performance units awarded during the three-month or six-month month periods ended June 30, 2017 or 2016 or outstanding at June 30, 2017 or December 31, 2016.

The intrinsic value used for stock options and restricted stock awards was derived from the market price of the Company's common stock of \$14.51 as of June 30, 2017.

#### 3. COMMITMENTS AND CONTINGENCIES

In the normal course of business there are outstanding various commitments to extend credit which are not reflected in the financial statements, including loan commitments of approximately \$10,658,000 and standby letters of credit of approximately \$191,000 at June 30, 2017 and loan commitments of approximately \$19,728,000 and standby letters of credit of approximately \$238,000 at December 31, 2016. Such commitments relate primarily to real estate construction loans, revolving lines of credit and other commercial loans. However, all such commitments will not necessarily culminate in actual extensions of credit by the Company during 2017 as some of these are expected to expire without being fully drawn upon.

Standby letters of credit are commitments issued to guarantee the performance or financial obligation of a client to a third party. These guarantees are issued primarily relating to purchases of inventory, insurance programs, performance obligations to government agencies, or as security for real estate rents by commercial clients and are typically short-term in nature. Credit risk is similar to that involved in extending loan commitments to clients and accordingly, evaluation and collateral requirements similar to those for loan commitments are used. The majority of all such commitments are collateralized. The fair value of the liability related to these standby letters of credit, which represents the fees received for issuing the guarantees, was not significant at June 30, 2017 or December 31, 2016.

#### 4. EARNINGS PER SHARE COMPUTATION

Basic earnings per share is computed by dividing net income by the weighted average common shares outstanding for the period (6,346,650 and 6,454,864 shares for the three-month and six-month periods ended June 30, 2017 and 6,717,456 and 6,906,620 shares for the three-month and six-month periods ended June 30, 2016). Using the treasury stock method, diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options or restricted stock, result in the issuance of common stock. Diluted earnings per share is computed by dividing net income by the weighted average common shares outstanding for the period plus the dilutive effect of stock based awards. There were 81,372 and 85,801, respectively, dilutive shares for the three-month and six-month periods ended June 30, 2017 and 28,643 and 26,818, respectively, dilutive shares for the three-month and six-month periods ended June 30, 2016. For the three-month periods ended June 30, 2017 and 2016, there were 32,448 and 105,844 stock options, respectively, that were excluded from the calculation as they were considered antidilutive. For the six-month periods ended June 30, 2017 and 2016, there were 32,448 and 138,549 stock options, respectively, that were excluded from the calculation as they were considered antidilutive. Earnings per share is retroactively adjusted for stock dividends and stock splits, if applicable, for all periods presented.

Accounting Standards Codification ("ASC") 260, *Earnings per Share*, requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividends as a separate class of securities in calculating earnings per share. The Company has granted and expects to continue to grant to directors and employees restricted stock grants that contain non-forfeitable rights to dividends. Such grants are considered participating securities under ASC 260. As such, the Company is required to include these grants in the calculation of basic earnings per share and calculate basic earnings per share using the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. The Company has calculated earnings per share using the two-class method and has determined that there was no difference in earnings per share using the two-class method versus the treasury stock method and therefore the two-class method will not be presented.

There were no held-to-maturity investment securities with unrealized losses as of June 30, 2017 or December 31, 2016.

At June 30, 2017, the Company held 222 securities of which 67 were in a loss position for less than twelve months and four were in a loss position for twelve months or more. Of the 67 securities in a loss position for less than twelve months, 62 were U.S. Government Agencies and Sponsored Entities securities, four were obligations of states or political subdivisions, and one was a corporate bond and of the four securities that were in a loss position for greater than twelve months, three were U.S. Government Agencies and Sponsored Entities securities and one was an obligation of states or political subdivisions.

At December 31, 2016, the Company held 219 securities of which 70 were in a loss position for less than twelve months and three were in a loss position for twelve months or more. Of the three securities that were in a loss position for greater than twelve months, all were US Government Agencies and Sponsored Entities.

The unrealized loss on the Company's investment securities is primarily driven by interest rates. Because the decline in market value is attributable to a change in interest rates and not credit quality, and because the Company has the ability and intent to hold these investments until recovery of fair value, which may be until maturity, management does not consider these investments to be other-than-temporarily impaired.

#### 6. IMPAIRED AND NONPERFORMING LOANS AND LEASES AND OTHER REAL ESTATE OWNED

At June 30, 2017 and December 31, 2016, the recorded investment in nonperforming loans and leases was approximately \$12,000 and \$19,000, respectively. Nonperforming loans and leases include all such loans and leases that are either placed on nonaccrual status or are 90 days past due as to principal or interest but still accrue interest because such loans are well-secured and in the process of collection. The Company considers a loan to be impaired when, based on current information and events, it is probable that it will be unable to collect all amounts due (principal and interest) according to the contractual terms of the original loan agreement. At June 30, 2017, the recorded investment in loans and leases that were considered to be impaired totaled \$16,998,000, which includes

\$12,000 in nonaccrual loans and leases and \$16,986,000 in performing loans and leases. Of the total impaired loans of \$16,998,000, loans totaling \$9,088,000 were deemed to require no specific reserve and loans totaling \$7,910,000 were deemed to require a related valuation allowance of \$505,000. At December 31, 2016, the recorded investment in loans and leases that were considered to be impaired totaled \$17,297,000 with a related valuation allowance of \$421,000.

At June 30, 2017 and December 31, 2016, the balance in other real estate owned ("OREO") was \$1,348,000. During the first and second quarters of 2017, the Company did not add any new, impair, or sell any of the OREO properties. The June 30, 2017 OREO balance of \$1,348,000 consists of two properties, one of which is commercial real estate in the amount of \$386,000 and the other is commercial land in the amount of \$962,000.
