PART 1 FINANCIAL INFORMATION

ITEM 1. Financial Statements

To the Board of Directors and Stockholders  
Eye Dynamics, Inc.  
Torrance, California

I have reviewed the accompanying consolidated balance sheets of Eye Dynamics, Inc. (a Nevada corporation) and its wholly-owned subsidiary, Oculokinetics, Inc. (a California corporation), as of June 30, 2000, and the related consolidated statements of operations for the three and six months ended June 30, 2000, and cash flows for the six months ended June 30, 2000, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management of Eye Dynamics, Inc.

A review consist principally of inquires of Company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, I do not express such an opinion.

## Edgar Filing: EYE DYNAMICS INC - Form 10QSB/A

Based on our review, I am not aware of any material modifications that should be made to the accompanying consolidated financial statements in order for them to be in conformity with generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in the Note 10 to the consolidated financial statements, the Company's significant operating losses, working capital deficiency and deficit in stockholders' equity raise substantial doubt about their abilities to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The accompanying financial statements for the six months ended June 30, 1999 were compiled by me in accordance with Statements of Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. A compilation is limited to presenting in the form of financial statements information that is the representation of management. I have not audited or reviewed the 1999 financial statements and, accordingly, I do not express an opinion or any other form of assurance on them.

### EYE DYNAMICS, INC. & SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### Presentation of Interim Information

In the Opinion of the management of Eye Dynamics, Inc. & Subsidiary (the Company), the accompanying unaudited consolidated financial statements include all normal adjustments considered necessary to present fairly the financial positions as of June 30, 2000 and 1999, and the results of operations for the three months and six months ended June 30, 2000 and 1999, and cash flows for the six months ended June 30, 2000 and 1999. Interim results are not necessarily indicative of results for a full year.

The consolidated financial statements and notes are presented as permitted by Form 10-QSB, and do not contain certain information included in the Company's audited consolidated financial statements and notes for the fiscal year ended December 31, 1999.

##### Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Oculokinetics, Inc. (a California corporation), after elimination of all material intercompany accounts and transactions.

##### Use of estimates

The preparation of the accompanying consolidated financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that directly affect the results of reported assets, liabilities, revenue, and expenses. Actual results may differ from these estimates.

## Edgar Filing: EYE DYNAMICS INC - Form 10QSB/A

### Cash Equivalents

For purposes of the statements of cash flows, the Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

### Accounts Receivable

Management of the Company considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made. There was no bad debt expense neither for 2000 nor 1999.

## EYE DYNAMICS, INC. & SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Inventories

Inventories consist of finished goods and are stated at the lower of cost or market, using the first-in, first-out method.

#### Property and Equipment

Property and Equipment are valued at cost. Maintenance and repair costs are charged to expenses as incurred. Depreciation is computed on the straight-line method based on the estimated useful lives of the assets. Depreciation expense was \$1,334 and \$1,264 for 2000 and 1999, respectively.

#### Research and Development

Research and development costs are expensed as incurred.

#### Income Taxes

The Company accounts income taxes in accordance with Financial Accounting standards Board Statement No. 109 "Accounting For Income Taxes" (SFAS No. 109). SFAS No. 109 requires a company to recognize deferred tax liabilities and assets for the expected future income tax consequences of events that have been recognized in the Company's financial statements. Under this method, deferred tax assets and liabilities are determined based on temporary differences between the financial carrying amounts and the tax bases of assets and liabilities using the enacted tax rates in effect in the years in which the temporary differences are expected to reverse.

#### Reclassification

Certain reclassifications have been made to the 1999 consolidated financial statements to conform with the 2000 consolidated financial statement presentation. Such reclassification had no effect on net loss as previously reported.

### NOTE 2 - LINE OF CREDIT

In 1998, the Company established a \$65,000 operating line of credit with Wells

## Edgar Filing: EYE DYNAMICS INC - Form 10QSB/A

Basic net loss per share for six months ended June 30, 2000 and 1999 is \$0.015 and \$0.011, respectively. Net loss per share does not include options as they would be anti-dilutive in 2000 and 1999 due to the net loss in those periods.

SFAS No. 131 "Disclosures about Segments of an Enterprise and Related Information" requires that a publicly traded company must disclose information about its operating segments when it presents a complete set of financial statements. Management is currently involved in active negotiations to convert a note payable of \$396,721 into equity, and actively increasing marketing efforts to increase revenues. The Company continued existence depends on its ability to meet its financing requirements and the success of its future operations. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

See Accompanying Notes and Accountant's Report

### ITEM 2. Management's Discussion and Analysis or Plan of Operation

New 'Windows' based software for the Infrared/Video ENG System was first shown at a major exhibition in Chicago in March 2000. Customers, both current and future prospects, expressed enthusiasm for this revised product. The development project is near completion with first shipment scheduled for late August 2000.

Our private label ENG business was very slow during May, June and into July, but as of this writing, the orders have increased and appear to be on an upward trend. Even with the temporary downturn in sales of the private label ENG product, year to date revenues were still 3% ahead of last at \$349,850 as opposed to \$341,205 for 1999.

Second quarter sales were \$29,000 less than second quarter of 1999. Gross profit percent on sales remains steady, but an extraordinary expense for consulting was resolved in April by issuance of shares in lieu of cash payment. This affected the profit/loss significantly by increasing our expenses for the quarter by approximately \$96,000.

This expense for financial and marketing consulting covered work done in the last half of 1999 through April of 2000 in one instance and July through December of 1999 in the other instance.

Operating profit was suitable as a percent of sales but not enough revenue was generated to offset these extraordinary expenses. A loss of \$113,056 was recorded for the second quarter as opposed to a loss of \$86,961 for the same period in 1999.

We are currently evaluating various products for marketing in order to increase sales , but with only a modest increase in fixed expenses.
