CAUTIONARY NOTICE REGARDING FORWARD LOOKING STATEMENTS

We desire to take advantage of the "Safe Harbor" provisions of the Private Securities Litigation Reform Act of 1995. This Report on Form 10-QSB contains a number of forward-looking statements that reflect management's current views and expectations with respect to our business, strategies, products, future results and events and financial performance. All statements made in this Report other than statements of historical fact, including statements that address operating performance, events or developments that

Edgar Filing: EYE DYNAMICS INC - Form 10QSB

management expects or anticipates will or may occur in the future, including statements related to distributor channels, volume growth, revenues, profitability, new products, acquisitions, adequacy of funds from operations, statements expressing general optimism about future operating results and non-historical information, are forward-looking statements. In particular, the words "believe," "expect," "intend," "anticipate," "estimate," "may," "will," variations of such words, and similar expressions identify forward-looking statements, but are not the exclusive means of identifying such statements and their absence does not mean that the statement is not forward-looking. These forward-looking statements are subject to certain risks and uncertainties, including those discussed below. Our actual results, performance or achievements could differ materially from historical results as well as those expressed in, anticipated or implied by these forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Readers should not place undue reliance on these forward-looking statements, which are based on management's current expectations and projections about future events, are not guarantees of future performance, are subject to risks, uncertainties and assumptions (including those described below) and apply only as of the date of this Report. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below "Management's Discussion and Analysis and Plan of Operation," as well as those discussed elsewhere in this Report, and the risks discussed in our most recently filed Annual Report on Form 10-KSB and in the press releases and other communications to shareholders issued by us from time to time which attempt to advise interested parties of the risks and factors that may affect our business.

NOTES TO INTERIM UNAUDITED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS: Eye Dynamics, Inc. (the "Company") designs, develops, produces and markets diagnostic equipment that measures, tracks and records human eye movements, utilizing the Company's proprietary technology and computer software. The products perform separate, but related, functions and target two separate markets. First, the Company markets a neurological diagnostic product that tracks and measures eye movements during a series of standardized tests, as an aid in diagnosing problems of the vestibular (balance) system and other balance disorders. Second, the Company's impairment detection devices target the corporate and criminal justice markets and are designed to test individuals for impaired performance resulting from the influences of alcohol, drugs, illness, stress and other factors that affect eye and pupil performance. The Company is a Nevada corporation formed in 1989.

A summary of significant accounting policies follows:

Edgar Filing: EYE DYNAMICS INC - Form 10QSB

PRESENTATION OF INTERIM INFORMATION: The financial information at September 30, 2005 and for the three and nine months ended September 30, 2005 and 2004 is unaudited but includes all adjustments (consisting only of normal recurring adjustments) that the Company considers necessary for a fair presentation of the financial information set forth herein, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information, and with the instructions to Form 10-QSB. Accordingly, such information does not include all of the information and footnotes required by U.S. GAAP for annual financial statements. For further information refer to the Consolidated Financial Statements and footnotes thereto included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004.

The results for the three and nine months ended September 30, 2005 may not be indicative of results for the year ending December 31, 2005 or any future periods.

RECLASSIFICATION: Certain prior period balances have been reclassified to conform to the current period presentation.

NOTE 3 - RETIREMENT OF DEBT

In April 2005, the Company converted notes payable of \$40,000 and accrued interest of \$6,339 into 3,591,799 shares of common stock pursuant to the conversion privileges stated in the original note agreements. As a result, the Company did not recognize any gain or loss from these conversions.

NOTE 4 - INCOME TAXES

The Company accounts for income taxes using a balance sheet approach whereby deferred tax assets and liabilities are determined based on the differences in financial reporting and income tax basis of assets and liabilities. The differences are measured using the income tax rate in effect during the year of measurement.

The Company experienced significant net losses in prior fiscal years resulting in a net operating loss carryforward ("NOLC") for federal income tax purposes of approximately \$1.2 million at December 31, 2004. The Company's NOLC will expire through 2021. The Company also has state NOLC approximately of \$530,000. The state NOLC will expire through 2013.

NOTE 5 - NET INCOME (LOSS) PER SHARE

The following table sets forth the computation of basic and diluted net income (loss) per share:

NOTE 6 - STOCK OPTIONS

On January 3, 2005, the Board of Directors approved to issue stock options to current directors for their services rendered in the amount of 20,000 shares for each of the years from 1999 through 2004, pursuant to approval granted in 1998 at the annual shareholders' meeting. The total options for each of directors shall be 120,000 shares. The options are vesting immediately and exercisable at \$0.15 per share through January 3, 2007.

The Company accounts for these options under the recognition and measurement principles of APB Opinion No. 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES, AND RELATED INTERPRETATIONS. No stock-based employee compensation cost is reflected in net loss, as all options granted had an exercise price equal to the market value of the underlying common stock on the grant date. The following table illustrates the effect on net loss and net loss per share if the Company had applied the fair value provisions of FASB Statement No. 123, ACCOUNTING FOR STOCK-BASED COMPENSATION, to stock-based employee compensation.

NOTE 8 - SEGMENT INFORMATION

SFAS No. 131 "Disclosures about Segments of an Enterprise and Related Information" requires that a publicly traded company must disclose information about its operating segments when it presents a complete set of financial statements. Since the Company has only one segment; accordingly, detailed information of the reportable segment is not presented.

NOTE 9 - CHANGE OF OFFICERS

On January 11, 2005, the Board of Directors elected the Chairman of the Board to be the Company's new Chief Executive Officer (CEO). The former CEO remains as the Company's chief financial officer and president.

NOTE 10 - GUARANTEES AND PRODUCT WARRANTIES

The Company from time to time enters into certain types of contracts that contingently require the Company to indemnify parties against third party claims. These contracts primarily relate to: (i) divestiture agreements, under which the Company may provide customary indemnifications to purchasers of the Company's businesses or assets; (ii) certain real estate leases, under which the Company may be required to indemnify property owners for environmental and other liabilities, and other claims arising from the Company's use of the applicable premises; and (iii) certain agreements with the Company's officers, directors and employees, under which the Company may be required to indemnify such persons for liabilities arising out of their employment relationship.

The terms of such obligations vary. Generally, a maximum obligation is not explicitly stated. Because the obligated amounts of these types of agreements often are not explicitly stated, the overall maximum amount of the obligations cannot be reasonably estimated. Historically, the Company has not been obligated to make significant payments for these obligations, and no liabilities have been recorded for these obligations on its balance sheet as of September 30, 2005.

In general, the Company offers a one-year warranty for most of the products it sold. To date, the Company has not incurred any material costs associated with these warranties. The Company provides reserves for the estimated costs of product warranties based on its historical experience of known product failure rates, use of materials to repair or replace defective products and service delivery costs incurred in correcting product failures. In addition, from time to time, specific warranty accruals may be made if unforeseen technical problems arise with specific products. The Company periodically assesses the adequacy of its recorded warranty liabilities and adjusts the amounts as necessary.

Edgar Filing: EYE DYNAMICS INC - Form 10QSB

The following table presents the changes in the Company's warranty reserve during the first nine months of 2005:

Balance as of January 1, 2005	\$ 8,884
Provision for warranty	2,456
Utilization of reserve	(3,882)

Balance as of September 30, 2005	\$ 7,458

NOTE 11 - PENDING BUSINESS ACQUISITIONS

On September 1, 2005, the Company entered into an Agreement and Plan of Merger to acquire all of the outstanding and issued shares of OrthoNetx, Inc., a Colorado-based provider of medical devices for osteoplastic surgery. The acquisition will be completed as a stock transaction in which OrthoNetx shareholders will receive equal number of the Company's outstanding shares at the closing date. The acquisition is subject to customary conditions, including certain regulatory approvals. As part of the transaction, the President and CEO of OrthoNetx will assume the position of CEO of the merged company. The acquisition is expected to be closed in the fourth quarter of 2005.

NOTE 12- SALES INCENTIVE AGREEMENTS

In April 2005, the Company entered into two individual agreements with the private label distributor and a special instrument dealer. The agreements provide that the Company will issue restricted common stock to the distributor and dealer as a sales incentive if certain conditions are reached pursuant to the agreements. As of September 30, 2005, none of these conditions has been satisfied and the Company has issued no shares.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

YOU SHOULD READ THE FOLLOWING DISCUSSION AND ANALYSIS IN CONJUNCTION WITH OUR CONSOLIDATED FINANCIAL STATEMENTS AND RELATED NOTES INCLUDED ELSEWHERE

Edgar Filing: EYE DYNAMICS INC - Form 10QSB

IN THIS REPORT. EXCEPT FOR HISTORICAL INFORMATION, THE FOLLOWING DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. SEE "CAUTIONARY NOTICE REGARDING FORWARD LOOKING STATEMENTS" ABOVE.

BUSINESS OVERVIEW

Eye Dynamics (the "Company") designs, develops, produces and markets diagnostic equipment that measures, tracks and records human eye movements, utilizing its proprietary technology and computer software. The products perform separate, but related, functions and target two separate markets. First, the Company markets a neurological diagnostic product that tracks and measures eye movements during a series of standardized tests, as an aid in diagnosing problems of the vestibular (balance) system and other balance disorders. Second, the Company's impairment detection devices target the corporate and criminal justice markets, and are designed to test individuals for impaired performance resulting from the influence of alcohol, drugs, illness, stress and other factors that affect eye and pupil performance. Eye Dynamics is a Nevada corporation formed in 1989.

RESULTS OF OPERATIONS

Revenues from the sale of medical products during the third quarter were \$283,005, representing a 35% decrease in revenues compared to the same quarter in 2004. The decline in revenues resulted in a loss for the quarter of \$215,588, or \$.01 per share, compared with net income of \$59,645 (\$.01 per share) in the corresponding quarter in 2004. In addition to the effect of the decline in revenues, the loss stems largely from ongoing expenditures related to the pending acquisition of OrthoNetx, Inc., increased marketing costs associated with trade shows and sales related activities, and costs related to the Company's international marketing efforts. In addition, there were two extraordinary expenses arising out of the retirement of Charles E. Phillips, the Company's Chief Financial Officer. The first was accrued vacation pay of \$29,423, and the second was a bonus payment of \$60,000 arising out of the Company's profitable activity in the 2003 fiscal year. Mr. Phillips and the Company negotiated a payment equal to 50% of the amount to which he was entitled under his employment agreement.

Revenues for the nine month period of 2005 were \$1,002,699, compared to \$1,502,878 for the same period of 2004. After tax, the loss for the nine month period was \$251,469, compared to net income of \$267,746 for the corresponding period in 2004. Net loss per share was \$0.01 for the nine month period of 2005, compared to a net income of \$0.01 per share in 2004.

The Company has launched a number of initiatives to increase revenues and profitability. The first is a strengthening of the Company's network of sales agents. During the period the Company recruited several new special instrument dealers to represent its products and to increase market coverage. These dealers will augment the dealer network utilized by MedTrak Technologies, the Company's exclusive domestic marketing partner.

The second initiative is an expansion of the Company's international marketing efforts. On September 15th the Company announced the execution of an exclusive distribution agreement with MD International, the largest supplier of medical equipment to Latin America and the Caribbean, to increase its market penetration of these areas.

Edgar Filing: EYE DYNAMICS INC - Form 10QSB

The Company expects an increase in revenue from efforts launched by MedTrak in connection with a rental program (ScotTrak) now being rolled out nationally. This rental program offers new opportunities for the Company's VNG product line, which is incorporated into the package (i.e., ScotTrak Balance Assessment and Fall Rehabilitation Program).

With October's revenue estimated to be \$200,000, the Company believes that its efforts to bolster domestic marketing are beginning to produce results while, at the same time, taking advantage of international opportunities.

The Company continues to pursue commercialization of its Safety Scope(TM) worker impairment screening product. In July of 2005 the Company announced that it had retained the services of Circadian Technologies to conduct market research on the demand for that product. Preliminary data indicates that approximately 42% of the companies surveyed would be receptive to impairment screening of their workers.

As announced on March 24, 2005, Eye Dynamics signed a Letter of Intent to acquire OrthoNetx, Inc., of Superior, Colorado. The transaction is subject to certain customary conditions, including regulatory approvals. OrthoNetx issued a press release on August 1st related to receiving FDA approval for marketing of its GenerOs SB small bone generator, which incorporates the same patented technology as their FDA-approved GenerOs EX limb lengthener and GenerOs CF craniofacial bone generator. On September 6th, the Company announced the signing by both parties of a definitive Merger Agreement pursuant to the plan approved by the Boards of Directors of both companies.

On September 20th the Company held its 2005 Annual Meeting of Stockholders, at which certain matters relating to the proposed merger were approved by the Company's shareholders.

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents as of September 30, 2005 totaled \$739,068, which allows for payment of all outstanding invoices on a current basis. Accounts payable are current and the Company has not borrowed against credit lines. Inventory as of September 30, 2005 was \$264,000, which is generally comparable to prior quarters. Accounts receivable as of September 30, 2005 were \$101,458. The Company's aging amounts are a very favorable representation of its cash flow, and its collection experience has been very favorable.

The Company has placed a significant portion of its cash reserves into income producing products, such as money market funds and date-laddered certificates of deposit, to maximize return while protecting capital.

ITEM 3. CONTROLS AND PROCEDURES.

As of the end of the period covered by this quarterly report, the Company carried out an evaluation, under the supervision and participation of management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the

Edgar Filing: EYE DYNAMICS INC - Form 10QSB

disclosure controls and procedures are effective in timely alerting them to material information required to be included in periodic SEC filings. There has been no change during the quarter in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
