Unless the context requires otherwise, references in this document to "iLinc Communications," "iLinc" the "Company," "we," "us," and "our" refer to iLinc Communications, Inc.

Statements contained in this Annual Report on Form 10-K that involve words like "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates" and similar expressions are intended to identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended. These are statements that relate to future periods and include, but are not limited to, statements as to our ability to: sell our products and services; improve the quality of our software; derive overall benefits of our products and services; introduce new products and versions of our existing products; sustain and increase revenue from existing products; integrate current and emerging technologies into our product offerings; control our expenses including those related to sales and marketing, research and development, and general and administrative expenses; control changes in our customer base; support our customers and provide sufficient technological infrastructure; obtain sales or increase revenues; impact the results of legal proceedings; control and implement changes in our employee headcount; obtain sufficient cash flow; manage liquidity and capital resources; realize positive cash flow from operations; or realize net earnings.

Such forward-looking statements involve certain risks and uncertainties that could cause actual results to differ materially from anticipated results. These risks and uncertainties include, but are not limited to, our dependence on our products or services, market demand for our products and services, our ability to attract and retain customers and channel partners, our ability to expand our technological infrastructure to meet the demand from our customers, our ability to recruit and retain qualified employees, the ability of channel partners to successfully resell our products, the status of the overall economy, the strength of competitive offerings, the pricing pressures created by market forces and the risks discussed herein (see "Management's Discussion and Analysis of Financial Condition and Results of Operations"). All forward-looking statements included in this report are based on information available to us as of the date hereof. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein, to reflect any change in our expectations or in events, conditions or circumstances on which any such statement is based. Readers are urged to carefully review and consider the various disclosures made in this report and in our other reports filed with the SEC that attempt to advise interested parties of certain risks and factors that may affect our business. Our reports are available free of charge as soon as reasonably practicable after such material is electronically filed with the SEC and may be obtained through our Web site located at www.ilinc.com.

ILINC COMMUNICATIONS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. ORGANIZATION AND NATURE OF OPERATIONS

Headquartered in Phoenix, Arizona, iLinc Communications, Inc. is a leading provider of Web conferencing, audio conferencing and collaboration software and services. The Company develops and sells software that provides real-time collaboration and training using Web-based tools. The Company's four-product iLinc Suite, comprised of LearnLinc, MeetingLinc, ConferenceLinc, and SupportLinc, is an award winning virtual classroom, Web conferencing and collaboration suite of software. With its Web collaboration, conferencing and virtual classroom products, the Company provides what it believes to be simple, reliable and cost-effective tools for remote presentations, meetings and online events. The Company's software is based on a proprietary architecture and code that finds its origins as far back as 1994, in what it believes to be the beginnings of the Web collaboration industry. Versions of the iLinc Suite have been translated into six languages, and it is currently available in Version 9.0. The Company's customers may choose from several different pricing and licensing options for the iLinc Suite depending upon their needs. Uses for the four-product suite of Web collaboration software include online business meetings, sales presentations, training sessions, product demonstrations and technical support assistance. The Company sells its software solutions to large and medium-sized corporations inside and outside of the Fortune 1000. The Company markets its products using a direct sales force and an indirect distribution channel consisting of agents, distributors, value added resellers and OEM partners. The Company allows its customers to choose between purchasing

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

a perpetual license and subscribing to a term license, providing for flexibility in pricing and payment methods. The Company's revenues are a mixture of high margin perpetual and periodic licenses of software, monthly recurring revenues from annual maintenance, hosting and support agreements, audio conferencing services and other products and services.

The Company maintains corporate headquarters in Phoenix, Arizona and has occupied that 9,100 square foot Class A facility since the Company's inception in 1998. The Phoenix office can accommodate up to 50 employees and is fully equipped with up-to-date computer equipment and server facilities. The Phoenix lease requires a monthly rent and operating expenses of approximately \$25,000 and will expire on February 28, 2012.

The Company also maintains a 2,500 square foot Class B facility in Troy, New York with an emphasis in that location on research and development and technical support. On July 5, 2006, the Company amended the New York lease that now expires on June 30, 2009. The New York lease requires a monthly rent and operating expenses of approximately \$4,000.

In addition, the Company maintains offices in Springville, Utah, occupying a Class A facility in two adjacent buildings. The first building houses its administrative and IT functions, with 10,000 square feet of space, with the second housing the operator complex and support staff with 6,122 square feet. The Springville lease began in 2003 and has a term of five years that expires January 2, 2008. The Springville offices can accommodate up to 100 employees and is fully equipped with up-to-date computer equipment. The Springville lease requires a monthly rent and operating expenses of approximately \$15,000.

The Company began operations in March of 1998. Its formation included the simultaneous rollup of fifty private businesses (affiliated practices) and an initial public offering. The Company's initial goals included providing training enhancement services over the Internet using a browser based system. In 2002, the Company began shifting its focus away from its legacy business, settling on its current focus on Web conferencing and audio conferencing and in doing so ultimately changed its name to iLinc Communications, Inc. in February 2004.

The unaudited condensed consolidated financial statements included herein have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Pursuant to such regulations, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. The Company believes the presentation and disclosures herein are adequate to make the information not misleading, but do not purport to be a complete presentation inasmuch as all note disclosures required by generally accepted accounting principles are not included. In the opinion of management, the unaudited condensed consolidated financial statements reflect all elimination entries and normal recurring adjustments that are necessary for a fair statement of the results for the three months ended June 30, 2007 and 2006.

Fiscal operating results for interim periods are not necessarily indicative of the results for full years. It is suggested that these unaudited condensed consolidated financial statements be read in conjunction with the consolidated financial statements of the Company and related notes thereto, and

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

management's discussion and analysis related thereto, all of which are included in the Company's annual report on Form 10-K as of and for the year ended March 31, 2007, as filed with the SEC.

2. SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements of the Company include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. The more significant areas requiring use of estimates and judgment relate to revenue recognition, accounts receivable valuation reserves, realizability of intangible assets, realizability of deferred income tax assets and the evaluation of contingencies and litigation. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. The results of such estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may materially differ from these estimates under different assumptions or conditions.

CERTIFICATE OF DEPOSIT

The Company holds various certificates of deposit at financial institutions. These certificates have maturities of six months from the date of acquisition, which precludes them from being accounted for as a cash equivalent.

CUSTOMER CONCENTRATIONS

Account receivable balances for two customers totaled approximately 13% and 9% of the total balance outstanding, respectively at June 30, 2007 and accounts receivable balances for two customers totaled approximately 9% and 6% of the total balance outstanding at March 31, 2007.

STOCK-BASED COMPENSATION

In December 2004, the FASB issued SFAS No. 123R, SHARE-BASED PAYMENT ("SFAS 123R"). Under this new standard, companies will no longer be able to account for share-based compensation transactions using the intrinsic method in accordance with APB 25. Instead, companies are required to account for such transactions using a fair-value method and to recognize the expense over the service period. SFAS 123R became effective for the Company for periods beginning after March 31, 2006 and allows for several alternative transition methods. The Company adopted SFAS 123R, effective April 1, 2006, which requires recognition of compensation expense for all stock option or other equity-based awards that vest or become exercisable after the option's effective date. The Company elected the modified prospective application transition method of adoption and, as such, prior period financial statements have not been restated. Under this method, the fair value of all stock options granted or modified after adoption must be recognized in the Condensed Consolidated Statement of Operations and total compensation cost related to non-vested awards not yet recognized, as determined under the original provisions of SFAS 123, ACCOUNTING FOR STOCK-BASED COMPENSATION, must also be recognized in the Condensed Consolidated Statement of

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

Operations as vesting occurs.

8

Prior to April 1, 2006, the Company accounted for share-based compensation using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES, and related interpretations and elected the disclosure option of SFAS No. 123 as amended by SFAS No. 148, ACCOUNTING FOR STOCK-BASED COMPENSATION - COMPENSATION AND DISCLOSURE. Under the prior method, the Company measured compensation for stock options as the excess, if any, of the estimated fair market value of the Company's stock at the date of grant over the exercise price and provided pro forma disclosure of net income and earnings per share in the notes to the financial statements.

INCOME PER SHARE

Basic income per share is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for each reporting period presented. Diluted earnings per share are computed similar to basic earnings per share while giving effect to all potential dilutive common stock equivalents that were outstanding during each reporting period. For the three months ended June 30, 2007 and 2006, options and warrants to purchase 2,234,443 and 4,149,353 shares of common stock, respectively, were excluded from the computation of diluted earnings per share because of their anti-dilutive effect.

Additionally, for the three months ended June 30, 2007 and 2006, preferred stock and debt convertible into 9,780,000 and 10,450,000 shares of common stock, respectively, were excluded from the computation of diluted earnings per share because inclusion of such would be antidilutive. Furthermore, a restricted stock grant of 450,000 shares has been excluded from the income per share calculations for the three months ended June 30, 2007 and 2006 because the measurement date stock price exceeds the average stock price for all periods presented.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the Emerging Issues Task Force ("EITF") reached a consensus on EITF Issue No. 06-03 ("EITF 06-03"), "How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)." EITF 06-03 provides that the presentation of taxes assessed by a governmental authority that is directly imposed on a revenue-producing transaction between a seller and a customer on either a gross basis (included in revenues and costs) or on a net basis (excluded from revenues) is an accounting policy decision that should be disclosed. The provisions of EITF 06-03 became effective as of December 31, 2006. The Company's adoption of EITF 06-03 has not and is not expected to have a material effect on its consolidated financial position or results of operations.

In July 2006, the FASB issued FASB Interpretation No. 48, ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES - AN INTERPRETATION OF FASB STATEMENT NO. 109 (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for the Company and has been adopted beginning in the first quarter of fiscal 2008. After analysis of

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

the Company's income tax position, the Company has determined that the impact of the adoption of FIN 48 is not significant to the Company's financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, FAIR VALUE MEASUREMENTS (SFAS 157), which provides guidance on how to measure assets and liabilities that use fair value. SFAS 157 will apply whenever another US GAAP standard requires (or permits) assets or liabilities to be measured at fair value but does not expand the use of fair value to any new circumstances. This standard also will require additional disclosures in both annual and quarterly reports. SFAS 157 will be effective for fiscal 2009. The Company is currently evaluating the potential impact this standard may have on its financial position and results of operations.

On February 15, 2007, the FASB issued SFAS No. 159, THE FAIR VALUE OPTION FOR FINANCIAL ASSETS AND FINANCIAL LIABILITIES (SFAS No. 159). Under this Standard, the Company may elect to report financial instruments and certain other items at fair value on a contract-by-contract basis with changes in value reported in earnings. This election is irrevocable. SFAS No. 159 provides an opportunity to mitigate volatility in reported earnings that is caused by measuring hedged assets and liabilities that were previously required to use a different accounting method than the related hedging contracts when the complex provisions of SFAS No. 133 hedge accounting are not met. SFAS No. 159 is effective for years beginning after November 15, 2007. Early adoption within 120 days of the beginning of the company's 2008 fiscal year is permissible, provided the company has not yet issued interim financial statement for 2008 and has adopted SFAS No. 157. The Company is currently evaluating the potential impact of adopting this Standard.

9

In September 2006, SEC issued SAB No. 108, CONSIDERING THE EFFECTS OF PRIOR YEAR MISSTATEMENTS WHEN QUANTIFYING CURRENT YEAR MISSTATEMENTS. SAB No. 108 requires analysis of misstatements using both an income statement (rollover) approach and a balance sheet (iron curtain) approach in assessing materiality and provides for a one-time cumulative effect transition adjustment. SAB No. 108 was effective for the Company's fiscal year 2007 annual financial statements. The Company adopted SAB 108 effective April 1, 2006.

3. INTANGIBLE ASSETS, NET

Intangible assets consisted of the following:

	JUNE 30, 2007			
	WEIGHTED AVERAGE REMAINING LIVES	GROSS CARRYING AMOUNT	ACCUMULATED AMORTIZATION	NET

Capitalized software development costs	3.00	367	--	
		\$ 3,997	\$ (2,441)	\$ 1,5

CAPITALIZATION OF SOFTWARE DEVELOPMENT COSTS

In May of 2006, the Company began production of version 9.0 of its Web collaboration software. In accordance with SFAS No. 86, ACCOUNTING FOR THE COSTS OF COMPUTER SOFTWARE TO BE SOLD, LEASED OR OTHERWISE MARKETED, the Company began capitalizing certain direct and indirect software development costs that included expenses related to employee payroll costs, consultant fees, dedicated computer hardware costs and specialized software license costs associated with this project. As of June 30, 2007, the Company had capitalized direct and indirect software development costs totaling \$631,000 since technological feasibility was achieved in May 2006. For the three months ended June 30, 2007, the Company had capitalized direct and indirect software development costs totaling \$264,000. Version 9.0 was completed and released to customers in June of 2007. The Company will begin amortization of these capitalized costs, using straight-line amortization over a three year period beginning July 1, 2007.

10

4. ACCRUED LIABILITIES

Accrued liabilities consisted of the following:

	=====	=====

In March 2002, the Company completed a private placement offering (the "Convertible Note Offering") raising capital of \$5,775,000 that was used to extinguish an existing line of credit. Under the terms of the Convertible Note Offering, the Company issued unsecured subordinated convertible notes (the "Convertible Notes"). The Convertible Notes bear interest at the rate of 12% per annum and require quarterly interest payments, with the principal due at maturity on March 29, 2012. The holders of the Convertible Notes may convert the principal into shares of the Company's common stock at the fixed price of \$1.00 per share. The Company may force redemption by conversion of the principal into common stock at the fixed conversion price, if at any time the 20 trading day average closing price of the Company's common stock exceeds \$3.00 per share. These notes are subordinated to any present or future senior indebtedness. As a part of the Convertible Note Offering the Company also issued warrants to purchase 5,775,000 shares of the Company's common stock for an exercise price of \$3.00 per share. Those warrants expired on March 29, 2005 without exercise. The fair value of the warrants was estimated using the Black-Scholes pricing model with the following assumptions: contractual and expected life of three years, volatility of 75%, dividend yield of 0% and a risk-free rate of 3.87%. A discount to the Convertible Notes of \$1,132,000 was recorded using this value, which is being amortized to interest expense over the 10-year term of the Convertible Notes. As the carrying value of the notes is less than the conversion value, a beneficial conversion feature of \$1,132,000 was calculated and recorded as an additional discount to the notes and is being amortized to interest expense over the ten year term of the Convertible Notes. Upon conversion, any remaining discount and beneficial conversion feature will be expensed in full at the time of conversion. During fiscal years 2004, 2005 and 2006, holders with a principal balance totaling \$675,000 converted their notes into 2,121,088 shares of the Company's common stock at prices from \$0.25 to \$0.30 per share. No conversion of debt or acceleration of amortization of costs occurred during the year ended March 31, 2007 or for the three months ended June 30, 2007.

In April of 2004, the Company completed a private placement offering of unsecured senior notes (the "2004 Senior Note Offering") that provided gross proceeds of \$4.25 million. Under the terms of the 2004 Senior Note Offering, the Company issued \$3,187,000 in unsecured senior notes and 1,634,550 shares of the Company's common stock. The senior notes were issued as a series of notes

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

pursuant to a unit purchase and agency agreement. The placement agent received a commission equal to 10% of the gross proceeds together with a warrant for the purchase of 163,455 shares of the Company's common stock with an exercise price equal to 120% of the price paid by investors. The senior notes originally bore an interest rate of 10% per annum and accrued interest is due and payable on a quarterly basis, with principal due at maturity on July 15, 2007. The senior notes are redeemable by the Company at 100% of the principal value at any time after July 15, 2005. The notes and common stock were originally issued with a debt discount of \$768,000. The fair value of the warrants was estimated and used to calculate a discount of \$119,000 of which \$68,000 was allocated to the notes and \$51,000 was allocated to equity. The total discount allocated to the notes of \$836,000 is being amortized as a component of interest expense over the original term of the notes which was thirty-nine months. The senior notes are unsecured obligations of the Company but are senior in right of payment to all existing and future indebtedness of the Company. The common stock issued in the 2004 Senior Note Offering was registered with the SEC pursuant to a resale prospectus dated August 2, 2005. Effective August 1, 2005, holders with a principal balance totaling \$225,000 converted their senior notes and accrued interest of \$800 into 903,205 shares of the Company's common stock at a price of \$0.25 per share. No conversion of debt to equity or acceleration of amortization of costs related to such conversions occurred during the year ended March 31, 2007. In December, 2006, the Company negotiated a modification of the terms of the senior notes to extend the maturity date from July 15, 2007 to July 15, 2010. In exchange for the extension, the interest rate increased from 10% per annum to 12% per annum, with the new increased interest rate to begin to accrue under the amendment on January 16, 2007, and continue thereafter at that rate until maturity or the senior notes are fully paid. All other terms and provisions of the senior notes remained unchanged. The direct expenses of the note amendment was \$101,000 and the estimated fair value of the warrant issued to the placement agent of \$42,000 were recorded as a deferred offering cost and both are being amortized as a component of interest expense over the term of the senior notes.

In connection with the Company's acquisition of Glyphics, the Company assumed an unsecured credit line with an original principal balance of \$400,000. On April 1, 2007, the note with a principal balance of \$398,000 was modified to provide for fixed payments of principal, due in 60 equal monthly installments plus variable interest, with the final payment due April 1, 2012. The note had a principle balance of \$387,000 at June 30, 2007.

The aggregate maturities of long-term debt excluding capital leases for each of the next five years subsequent to June 30, 2007 were as follows (IN THOUSANDS):

2008	\$ 130	
2009	74	
2010	80	
2011	3,049	
2012	5,178	
Thereafter	--	

	\$8,511

6. CAPITALIZATION

COMMON STOCK

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

On June 9, 2006, the Company completed a private placement of 5,405,405 unregistered, restricted shares of common stock providing \$2.0 million in gross cash proceeds. The Company has used the proceeds for working capital and general corporate purposes. The Company paid its placement agent an underwriting commission of \$185,000 of which \$25,000 was recorded as deferred offering costs, and incurred additional offering expenses of approximately \$103,000. Pursuant to the registration rights agreement between the parties, the Company filed a Registration Statement on Form S-3 to enable the resale of the shares by the investors which was declared effective on September 29, 2006.

7. INCOME TAX EXPENSE FROM CONTINUING OPERATIONS

The Company recorded deferred income tax expense of \$21,000 for the three months ended June 30, 2007. The expense resulted from the recognition of the deferred income tax liability related to the tax deductible goodwill recognized on the Company's purchase of Quisic and LearnLinc. The Company has recorded a valuation allowance for its deferred tax assets due to the lack of profitable operating history. Based on the financial results for the year ending

12

March 31, 2007 and the three months ended June 30, 2007, the Company has exhibited the ability to generate a taxable income. In the event that the Company determines that it would be able to realize its deferred tax assets in the future, an adjustment to the deferred tax asset would increase net income through a tax benefit in the period such a determination was made that the Company has met the more likely than not threshold for such recognition.

The Company adopted FIN 48 as of April 1, 2007. The adoption of FIN 48 has not had an impact on the Company's financial position or results of operations for the three months ended June 30, 2007. The Company has no unrecognized tax benefit, as described in FIN 48, as of June 30, 2007.

It is the Company's policy to recognize interest and penalties related to unrecognized tax benefits as a component of income tax expense. There are no interest or penalties accrued as of June 30, 2007. Furthermore, there were no interest or penalties recorded during the three months ended June 30, 2007.

The Company is subject to income tax examinations for U.S. Federal income taxes and state income taxes from fiscal 2005 forward. As of June 30, 2007, the Company is not undergoing an U.S. Federal or state tax audits. The Company does not anticipate that total unrecognized tax benefits will significantly change prior to March 31, 2008.

There was no current income tax expense for the three months ended June 30, 2007 and 2006 because net operating loss carry-forwards were utilized to eliminate taxable income.

8. STOCK OPTION PLANS AND WARRANTS

The Company grants stock options under its amended and restated 1997 Stock Compensation Plan (the "Plan"). The Company calculates the fair value of options on the day of grant and amortizes the fair value over the vesting period. Under the Plan, as amended, the Company is authorized to issue 5,500,000 shares of common stock pursuant to "Awards" granted to officers and key employees in the form of stock options.

There were 3,179,131 options outstanding under the Plan at June 30,

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

2007. The Compensation Committee of the Board of Directors administers the Plan. Stock options granted to employees have a contractual term of 10 years (subject to earlier termination in certain events) and have an exercise price no less than the fair market value of the Company's common stock on the date of grant. The options vest at varying rates over a one to five year period.

In accordance with SFAS 123R, the Company recognized \$36,000 and \$27,000, net of taxes, of compensation expense related to stock options and vesting of stock grants in the three months ended June 30, 2007 and 2006, respectively. The following table summarizes stock-based compensation expense related to employee stock options and vesting of employee stock grants under SFAS 123R for the three months ended June 30, 2007 and 2006, which was allocated as follows (in thousands except per share amounts):

	THREE MONTHS ENDED JUNE 30, 2007	THREE MONTHS ENDED JUNE 30, 2006
Stock-based compensation expense included:		
Cost of sales	\$ 4	\$ 2
Research and development	3	2
Sales and marketing	14	10
General and administrative	5	3
	26	17
Stock-based compensation expense related to employee stock grants included in general and administrative costs	10	10
	36	27
Stock-based compensation expense related to employee stock options and employee stock grants included in income from operations ...	--	--
Tax benefit	36	27
Stock-based compensation expense related to employee stock options and employee stock grants, net of tax	\$ 36	\$ 27
Decrease in basic earnings per share	\$ --	\$ --
Decrease in diluted earnings per share	\$ --	\$ --

13

As stock-based compensation expense recognized in the Condensed Consolidated Statement of Operations for the three months ended June 30, 2007 and 2006 is based on options ultimately expected to vest, it has been reduced for expected forfeitures. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience.

The Company calculates the value of each employee stock option, estimated on the date of grant, using the Black-Scholes model in accordance with SFAS 123R. The weighted average fair value of employee stock options granted during the three months ended June 30, 2007 and 2006 was \$0.64 per share and \$0.40 per share, respectively, using the following weighted-average assumptions:

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

	THREE MONTHS ENDED JUNE 30,	
	2007	2006
Risk free interest rate	4.6% - 5.0%	5.11%
Dividend yield	0%	0%
Volatility factors of the expected market price of the Company's common stock	90% - 93%	109%
Weighted-average expected life of Options	10 years	10 years

The Company estimates the fair value of stock options granted using the Black-Scholes option valuation model approach. The Company amortizes the fair value on a straight-line basis. All options are amortized over the requisite service periods of the awards, which are generally the vesting periods. The expected term of the options granted represents the period of time that they are outstanding. Management estimated the expected term of the options granted based on the period of time the options will be outstanding. Management has determined that there were no meaningful differences in option exercise activity based on the demographics tested. The Company estimates the volatility of its options at the date of grant based on the historic volatility of its common stock for the previous two years. The Company bases the risk-free interest rate that it uses in the Black-Scholes option valuation model on the implied yield in effect at the time of the option grant on U.S. Treasury bond issues with equivalent remaining terms. The Company has never paid a cash dividend on its common stock and does not anticipate paying any cash dividends in the foreseeable future. Consequently, the Company uses an expected dividend yield of zero in the Black-Scholes option valuation model. SFAS 123R requires the Company to estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. The Company uses historical data to estimate pre-vesting option forfeitures and records share-based compensation expense only for those awards that are expected to vest.

Stock options activity for the three months ended June 30, 2007 was as follows:

	SHARES SUBJECT TO OPTIONS	WEIGHTED AVERAGE EXERCISE PRICE	WEIGHTED AVERAGE CONTRACTUAL LIFE (IN YEARS)	INTRINSIC VALUE (IN DOLLARS)
Options outstanding at April 1, 2007.....	3,138,552	\$0.98		
Options granted.....	64,500	\$0.72		
Options exercised.....	--	\$0.00		
Options forfeited.....	(22,359)	\$0.46		
Options expired.....	(1,562)	\$0.36		
Options outstanding at June 30, 2007.....	3,179,131	\$0.98	5.95	
Options exercisable at June 30, 2007.....	2,464,553	\$1.13	5.07	

The aggregate intrinsic value in the table above represents total pretax intrinsic value (the difference between iLinc's closing stock price on June 30, 2007 and the exercise price, multiplied by the number of in-the-money

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

options) that would have been received by the option holders had all option holders exercised their options on June 30, 2007. This amount changes based on the fair market value of iLinc's stock. No options were exercised in the three

14

months ended June 30, 2007. The Company issues new shares of common stock upon the exercise of stock options. At June 30, 2007, 1,670,231 shares were available for future grants under the Company's 1997 Stock Compensation Plan. At June 30, 2007, the Company had approximately \$180,000 of total unrecognized compensation expense, net of estimated forfeitures, related to stock option plans that will be recognized over the weighted average period of 2.6 years.

The following table summarizes information about stock options outstanding at June 30, 2007:

OPTIONS OUTSTANDING						OPTIONS EXERCISABLE			
		WEIGHTED AVERAGE EXERCISE PRICE	NUMBER OF SHARES	WEIGHTED AVERAGE REMAINING CONTRACTUAL LIFE (YEARS)			NUMBER OF SHARES	WEIGHTED AVERAGE EXERCISE PRICE

1,847,664

=====

1,847,664

=====

In January 2005, in connection with the restructuring of the payments on loan obligations due in connection with the acquisition of Glyphics, the Company issued a warrant for 50,000 shares with an exercise price of \$0.55 to Dr. John D. Rhodes, III. The loan was guaranteed by Dr. Rhodes. The warrant was set to expire in January 2007. The fair value of the warrant of \$8,000 was estimated using the Black-Scholes pricing model with the following assumptions: contractual and expected life of two years, volatility of 72%, dividend yield of 0% and a risk-free rate of 3.1%. In June 2005, in connection with the restructuring of the payments and his continuing personal guarantee, the Company issued an additional warrant for 50,000 shares to Dr. Rhodes with an exercise price of \$0.32. The warrant was set to expire in June 2007. The fair value of the warrant of \$6,500 was estimated using the Black-Scholes pricing model with the following assumptions: contractual and expected life of two years, volatility of 71%, dividend yield of 0%, and a risk-free rate of 3.6%. On April 1, 2006 in connection with the restructuring of the payments and his continuing personal guarantee, the Company issued an additional warrant to Dr. Rhodes for 50,000 shares with an exercise price of \$0.40. The warrant expires in April 2009. The fair value of the warrant of \$15,000 was estimated using the Black-Scholes pricing model with the following assumptions: contractual and expected life of three years, volatility of 125%, dividend yield of 0% and a risk-free rate of 4.83%. In April 2006, the expiration dates of the warrants that had been issued in 2005 were extended to March 31, 2009. Based on an analysis using the Black-Scholes pricing model, no adjustment was made to the fair value of the two extended warrants. On April 1, 2007 in connection with the

15

restructuring of the payments and his continuing personal guarantee, the Company issued an additional warrant for 50,000 shares to Dr. Rhodes with an exercise price of \$0.66. The warrant expires in April 2010. The fair value of the warrant of \$21,000 was estimated using the Black-Scholes pricing model with the following assumptions: contractual and expected life of three years, volatility of 101%, dividend yield of 0% and a risk-free rate of 4.54%.

On July 1, 2006, the Company issued a warrant for up to 1,000,000 shares of the Company's common stock, par value \$0.001 per share, with an exercise price of \$0.55 per share to an agent of the Company in connection with an agent agreement effective June 30, 2006. The warrant expires on July 1, 2011. The warrant is subject to vesting provisions based on net collected revenue targets achieved through the agent and certain value added resellers over a five year period. As of June 30, 2007, none of the revenue targets had been achieved. Therefore, no expense was recorded in the three months ended June 30, 2007. In accordance with EITF 96-18, ACCOUNTING FOR EQUITY INSTRUMENTS THAT ARE ISSUED TO OTHER THAN EMPLOYEES FOR ACQUIRING, OR IN CONJUNCTION WITH SELLING, GOODS AND SERVICES, the Company recorded a prepaid asset and corresponding additional paid-in capital of \$466,000 as the fair value of the 1,000,000 shares at June 30, 2007 using the Black-Scholes pricing model with the following assumptions: contractual and expected life of 4.01 years, volatility of 94.8%, dividend yield of 0% and a risk-free rate of 4.92%.

9. COMMITMENTS AND CONTINGENCIES

The Company is subject to various commitments and contingencies as described in Note 13 to the consolidated financial statements in the Company's Annual Report on Form 10-K as of and for the year ended March 31, 2007. During

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

the three-month period ended June 30, 2007, the following changes occurred with respect to certain of the Company's commitments and contingencies:

LEASE COMMITMENTS

The Company used operating and capital leases to finance property and equipment acquisitions. Currently, the Company has capital leases for computer hardware and software ranging in terms from 3 to 5 years. The capital leases bear interest at varying rates ranging from 10.0% to 14.0% and require monthly payments. The Company's operating leases primarily consist of premise leases for the Phoenix, New York and Utah locations.

Assets recorded under capital leases, at June 30, 2007, consisted of the following (IN THOUSANDS):

Cost		\$ 337
Less: accumulated amortization		(33)

Total		\$ 304
		=====

Future minimum lease payments under capital leases and non-cancelable operating leases with initial or remaining terms of one or more years consisted of the following at June 30, 2007 (IN THOUSANDS):

	CAPITAL	OPERATING
	-----	-----
2008.....	\$ 103	\$ 503
2009.....	113	395
2010.....	102	347
2011.....	44	353
2012.....	42	235
Thereafter.....	7	--
	-----	-----
Total minimum obligations.....	411	\$ 1,833
		=====
Less: amount representing interest.....	(81)	

Present value of minimum obligations.....	330	
Less: current portion.....	(73)	

Long-term obligation at June 30, 2007.....	\$ 257	
	=====	

The Company's lease on its Phoenix, Arizona location expires on February 28, 2012. The Phoenix lease requires a monthly rent and operating expense of approximately \$25,000.

The Company's lease on its New York location expires on June 30, 2009 and requires a monthly rent and operating expenses of approximately \$4,000.

The lease related to the Utah location expires on January 2, 2008 and requires a monthly rent and operating expenses of approximately \$15,000.

SUBCONTRACTOR AGREEMENT

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

The Company has an agreement with its custom content subcontractor, Interactive Alchemy, that provides for the provision of custom content services to the Company's customers. The subcontractor agreement has a non-cancelable two-year term and expires on May 1, 2008. Under the agreement, its subcontractor provides custom content development services to the Company in exchange for a fixed percentage of the Company's custom content revenue. The amount to be paid under the agreement is limited to a cap of \$450,000 in Fiscal 2008. The Company records gross custom content revenue for its customers with a corresponding fixed percentage commission due to its subcontractor as a cost of sale.

ROYALTY AGREEMENTS

In conjunction with the acquisition of certain assets from Mentergy, Inc., the Company agreed to provide a royalty earn-out payment that is due upon collection of cash received from the sales of its Web conferencing software. The royalty earn-out was originally equal to 20% for all revenues collected from the sale of that Web conferencing software. On October 10, 2005, Mentergy and the Company executed a payment agreement. Through June 30, 2007, the Company had paid in full all amounts due to Mentergy under the agreement in accordance with the royalty and payment agreement and the royalty and payment agreements terminated.

10. DISCONTINUED OPERATIONS

Effective January 1, 2004, the Company discontinued its practice management services segment. In accordance with SFAS 144 ACCOUNTING FOR IMPAIRMENT ON DISPOSAL OF LONG-LIVED ASSETS, the Company has restated its historical results to reflect its practice management service business segment as a discontinued operation. For the three months ended June 30, 2007 and 2006, the Company had net income from discontinued operations of \$0 and \$11,000, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

STATEMENTS CONTAINED IN THIS QUARTERLY REPORT ON FORM 10-Q THAT INVOLVE WORDS LIKE "ANTICIPATES," "EXPECTS," "INTENDS," "PLANS," "BELIEVES," "SEEKS," "ESTIMATES" AND SIMILAR EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995, THE SECURITIES ACT OF 1933, AS AMENDED, AND THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED. SUCH FORWARD-LOOKING STATEMENTS INVOLVE CERTAIN RISKS AND UNCERTAINTIES THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM ANTICIPATED RESULTS. THESE RISKS AND UNCERTAINTIES INCLUDE, BUT ARE NOT LIMITED TO, OUR DEPENDENCE ON OUR PRODUCTS OR SERVICES, MARKET DEMAND FOR OUR PRODUCTS AND SERVICES, OUR ABILITY TO ATTRACT AND RETAIN CUSTOMERS AND CHANNEL PARTNERS, OUR ABILITY TO EXPAND OUR TECHNOLOGICAL INFRASTRUCTURE TO MEET THE DEMAND FROM OUR CUSTOMERS, OUR ABILITY TO RECRUIT AND RETAIN QUALIFIED EMPLOYEES, THE ABILITY OF CHANNEL PARTNERS TO SUCCESSFULLY RESELL OUR SERVICES, THE STATUS OF THE OVERALL ECONOMY, THE STRENGTH OF COMPETITIVE OFFERINGS, THE PRICING PRESSURES CREATED BY MARKET FORCES, AND THE OTHER RISKS DISCUSSED HEREIN. ALL FORWARD-LOOKING STATEMENTS INCLUDED IN THIS REPORT ARE BASED ON INFORMATION AVAILABLE TO US AS OF THE DATE HEREOF. WE EXPRESSLY DISCLAIM ANY OBLIGATION OR UNDERTAKING TO RELEASE PUBLICLY ANY UPDATES OR REVISIONS TO ANY FORWARD-LOOKING STATEMENTS CONTAINED HEREIN, TO REFLECT ANY CHANGE IN OUR EXPECTATIONS OR IN EVENTS, CONDITIONS OR CIRCUMSTANCES ON WHICH ANY SUCH STATEMENT IS BASED. OUR REPORTS ARE AVAILABLE FREE OF CHARGE AS SOON AS REASONABLY PRACTICABLE AFTER WE FILE THEM WITH THE SEC AND MAY BE OBTAINED THROUGH OUR WEB SITE.

COMPANY OVERVIEW

We sell our software solutions to large and medium-sized corporations inside and outside of the Fortune 1000. We market our products using a direct

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

sales force and a distribution channel consisting of agents, distributors, value added resellers and OEM partners. We allow customers to choose between purchasing a perpetual license and subscribing to a term license, thereby providing flexibility in pricing and payment methods. Our revenues are derived from a mixture of sales of licenses of software, monthly recurring revenues from annual maintenance, hosting and support agreements and from audio conferencing products and services.

17

Our Web collaboration software is sold on a perpetual license or periodic license basis. A customer may choose to acquire a one-time perpetual license (the "Purchase Model") or may rent our software on a periodic basis on either a per-seat, per-month or per-minute basis (the "Subscription Model"). Should the customer choose to acquire the software using the Purchase Model, then it may either elect to host our software behind its own firewall or it may choose to have iLinc host it for the customer, depending upon the customer's preferences, budget and IT capabilities. Customers who select the Purchase Model, whether hosted by iLinc or the customer, may also subscribe for ongoing customer support and maintenance and software upgrade services, by entering into a support and maintenance contract with a term from one to five years. The annual maintenance and support fee charged is initially based upon a percentage of the purchase price that varies between 12% and 18% of the license fee paid for the perpetual licenses, with the percentage depending upon the contractual length and the timing of payment of the annual maintenance and support agreement. If a customer chooses to have iLinc host its Purchase Model licenses, then the customer is also charged an annual hosting fee equal to 10% of the Purchase Model license fee that was paid for the perpetual license.

During fiscal 2006, iLinc launched its Enterprise Unlimited perpetual licensing model that enables customers to pay a one-time up-front fee for unlimited, organization-wide Web conferencing, as well as a named-user model that permits a host to subscribe for a limited use room. Those customers who qualify for the iLinc Enterprise Unlimited site license may subscribe to an unlimited use license. The initial iLinc Enterprise Unlimited license fee is determined based upon the number of employees within the customer's organization and various other factors. The annual maintenance and support fees and hosting fees associated with an iLinc Enterprise Unlimited license are then based upon a fixed price or upon an associated rate per-seat license that is active on each annual anniversary of the iLinc Enterprise Unlimited license agreement. Customers may expand the number of active seats available to them at any time with a corresponding increase in annual maintenance and hosting fees being charged.

Customers choosing the Subscription Model pay a fee per seat (concurrent connection) on either a per-month or per-year basis depending upon the length and term of the subscription agreement. Hosting and maintenance are included as a part of the monthly or annual rental fees. Customers may also obtain Web conferencing and audio conferencing on a per-minute basis using the iLinc On-Demand product. Those choosing the iLinc On-Demand product pay on a monthly basis typically without contractual commitment.

In addition to the Web conferencing and audio conferencing products and services, we offer custom content development services through a subcontractor relationship and an off-the-shelf online library of content that includes an online mini-MBA program co-developed with the Tuck School of Business at Dartmouth College. These other services are a small portion of our overall revenue base and will likely phase out as an offered service over the next three

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

years.

PRODUCTS AND SERVICES

WEB CONFERENCING AND WEB COLLABORATION

The iLinc Suite is a four-product suite of software that addresses the most common business collaboration needs.

LearnLinc is an Internet-based software that is designed for training and education of remote students. With LearnLinc, instructors and students can collaborate and learn remotely providing an enhanced learning environment that replicates and surpasses traditional instructor-led classes. Instructors can create courses and classes, add varied agenda items, enroll students, deliver live instruction and deliver content that includes audio, video and interactive multimedia. In combination with TestLinc, LearnLinc permits users to administer comprehensive tests, organize multiple simultaneous breakout sessions and record, edit, play back and archive entire sessions for future use.

MeetingLinc is an online collaboration software designed to facilitate the sharing of documents, PowerPoint(TM) presentations, graphics and applications between meeting participants without leaving their desks. MeetingLinc allows business professionals, government employees and educators to communicate more effectively and economically through interactive online meetings using Voice-over IP technology to avoid the expense of travel and long distance charges. MeetingLinc allows remote participants to give presentations, demonstrate their products and services, annotate on virtual whiteboards, edit documents simultaneously and take meeting participants on a Web tour. Like all of the Web collaboration products in the Suite, MeetingLinc includes integrated voice and video conferencing services.

18

ConferenceLinc is a presentation software designed to deliver the message in a one-to-many format providing professional management of Web conferencing events. ConferenceLinc manages events such as earnings announcements, press briefings, new product announcements, corporate internal mass communications and external marketing events. ConferenceLinc is built on the MeetingLinc software platform and code to combine the best interactive features with an easy-to-use interface providing meaningful and measurable results to presenters and participants alike. Its design includes features that take the hassle out of planning and supporting a hosted Web seminar. ConferenceLinc includes automatic email invitations, "one-click join" capabilities, online confirmations, update notifications and customized attendee registration. With ConferenceLinc, presenters may not only present content, but may also gain audience feedback using real-time polling, live chat, question and answer sessions and post-event assessments. The entire presentation is easily recordable for viewing offline and review after the show with the recorder capturing the content and the audio, video and participant feedback.

SupportLinc is an online technical support and customer sales support software designed to give customer service organizations the ability to provide remote hands-on support for products, systems or software applications. SupportLinc manages the support call volume and enhances the effectiveness of traditional telephone-based customer support systems. SupportLinc's custom interface is designed to be simple to use so as to improve the interaction and level of support for both customers and their technical support agents.

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

AUDIO CONFERENCING

The Company also delivers comprehensive audio conferencing solutions that help businesses provide virtual meetings, corporate events, distance learning programs and daily conference calls. Our audio conferencing offering includes a wide array of services and products that include the following:

- o AUDIO ON-DEMAND (NO RESERVATIONS NEEDED): With pre-established calling accounts for each user, you can create or participate in conference calls with no advance notice, 24/7;
- o RESERVED AUTOMATED: The solution for recurring calls, each participant has a permanent number and passcode;
- o OPERATOR ASSISTED: For important calls, this service includes an iLinc conference operator to host, monitor and coordinate the call; and,
- o ONLINE SEMINARS: High-quality event services that include invitation and user management, scripting, presentation preparation, post show distribution and dedicated operator assistance from iLinc.

Customers may purchase our audio conferencing products and services without an annual contract commitment on a monthly recurring usage basis, and often subscribe for a fixed per-minute rate.

OTHER PRODUCTS AND SERVICES

In addition to the iLinc Suite of products and audio conferencing services, we offer to our customers custom content development services through a subcontractor relationship and an off-the-shelf online library of content that includes an online mini-MBA program co-developed with the Tuck School of Business at Dartmouth College. These other services are a small portion of our overall revenue base and will likely phase out as an offered service over the next three years.

SALES AND MARKETING FOCUS

Our organization continually creates new marketing and sales campaigns that focus in four target markets.

- o We sell to prospects that are using other Web conferencing service providers that are ready to migrate to Web conferencing software. We find that these organizations appreciate the cost and feature advantages that our technology offers.
- o We target organizations that have a natural fit for highly secure Web conferencing software such as government, military and financial organizations as well as the companies that supply to these entities.

- o We target organizations looking to deploy live, Web-based training. Our software was originally built for training and we have maintained a competitive technology advantage in this area.

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

- o We continue to cross sell all of our products and services to our large database of existing customers.

Marketing has developed a plan that incorporates public relations, tradeshow, Web events, Web marketing initiatives and direct marketing (mail and email) efforts in campaigns that speak to the needs of our specific target markets. The goal of our marketing strategy is to drive new business into our customer base and then cross sell our synergistic Web, audio and event product and drive usage of all products to increase the propensity for our customers to make additional purchases.

The direct sales team is organized by geographic territory and is broken down into distinct groups: Direct Sales sells to organizations that are not yet iLinc customers; Enterprise Sales sells into large existing accounts; and our Event Sales team sells our High-Touch Event Services offering to all sizes of organizations. All of these groups focus their outbound activity on our specific vertical markets of financial services, high technology and professional service organizations. We believe that the target vertical markets have a commonality of meeting four criteria: we have an established customer base in the market; our product feature set is specifically appropriate to the needs of the market; analysts have identified a need within that market for increasing use of Web and audio conferencing; and we believe that we have the potential to capture a portion of the share of such markets.

iLinc has formed relationships with organizations that market and sell our products and services through their sales distribution channels. The relationships can be categorized into those that act as agents which sell on behalf of iLinc and value added resellers (VAR's) that actively sell our products and provide product support typically to their own existing customer base. As of June 30, 2007, we had over 35 organizations selling our products providing indirect sales in the United States and in countries outside the United States, including Canada, the United Kingdom, The Netherlands, France, Germany, Colombia, Mexico, India, Greece, Chile and Japan. Our value added resellers execute agreements to resell our products to their customers through direct sales and in some cases through integration of our products into their products or service offerings. Our distribution agreements typically have terms of one to three years and are automatically renewed for an additional like term unless either party terminates the agreement for breach or other financial reasons. In most of these agreements, the VAR licenses the product from us and resells the product to its customers. Under those VAR agreements, we record only the amount paid to us by the VAR as revenue and recognize revenue when all revenue recognition criteria have been met.

PERFORMANCE MEASURES AND INDICATORS

In evaluating our operating performance, we consider levels of revenues, gross profit, operating income and net income to be important indicators. Over the past three fiscal years, we have succeeded in increasing revenues at a faster rate than our cost of revenues and operating expenses. Therefore, while revenues, cost of revenues and operating expenses all have increased during this period, total cost of revenues as a percentage of revenues and operating expenses as a percentage of revenues each have decreased over the past three fiscal years. Our goal is for this trend to continue as we seek to manage increases in expenses at the same time we seek to increase revenues.

In evaluating our liquidity, we evaluate levels of current assets, current liabilities and accounts receivable, aging of accounts receivable and maturities of debt and obligations under long term leases. Our levels of current assets, including accounts receivable, at June 30, 2007 were approximately \$536,000 higher than our levels of current assets at March 31, 2007. Our current liabilities at June 30, 2007 were approximately \$528,000 higher than our level of current liabilities at March 31, 2007, \$241,000 of the increase related to an

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

increase in deferred revenue. As a result, we had working capital of \$920,000 at June 30, 2007 compared to working capital of \$912,000 at March 31, 2007. Our accounts receivable, net of allowance for doubtful accounts, were \$3.0 million and \$2.5 million at June 30, 2007 and March 31, 2007, respectively. Accounts receivable increased, which was consistent with increased revenues when comparing the first quarter of fiscal 2008 to the fourth quarter of fiscal 2007. The aging of receivables has remained consistent when comparing June 30, 2007 to March 31, 2007, with accounts receivable under 30 days making up 89% and 87% of the total receivable balance, respectively. As indicated below, in the table under the caption "Contractual Obligations" at June 30, 2007 long term debt due in less than one year, capital lease obligations due in less than one year, interest expense for the coming year and operating lease obligations for the coming year aggregated \$130,000, \$73,000, \$1.0 million and \$503,000 respectively. We anticipate that cash flow from operations should be sufficient to allow us to meet these obligations without raising additional capital.

20

As indicators of future financial performance, our management evaluates current number of seats (concurrent license) sold, average sales price per transaction, average sales cycle, quota achievement by the direct sales staff, the number of current transactions, the average sales amount per transaction, the percentage each product sold contributes to total revenue and the trends indicated by these factors.

External factors that our management considers in analyzing our performance include projected growth rates for our industry, rates of penetration of use of our product categories in the corporate sector and telecommunications growth and rate structures. We consider these factors important since they permit us to better project capital needs and growth trends that support our assertions of profitability and cash flow. Analysis of these trends indicates that we are having increasing success from our direct sales staff, which with that success is likely to translate into increasing revenue and an increasing bottom line should overhead trends remain consistent with historical patterns. We expect overhead to remain relatively flat, except for incremental increases in sales and marketing costs associated and in proportion to revenue growth. We see increasing demand for audio conferencing and Web conferencing usage in the business, education and government sectors alike, and we expect these trends to continue over the next three years.

The following table shows certain items from our income statement as a percentage of revenues:

	THREE MONTHS ENDED JUNE 30, 2007		THREE MONTHS ENDED JUNE 30, 2006	
Revenues				
Software licenses.....	\$ 1,152	27.9%	\$ 1,234	34.2%

RESULTS OF OPERATIONS

The operations of the Company involve many risks, which, even through a combination of experience, knowledge, and careful evaluation, may not be overcome. These risks include the fact that the market for Web conferencing products and services is in the early stages of development and may not grow to a sufficient size or at a sufficient rate to sustain our business. We also face intense competition from other Web conferencing and audio conferencing providers and may be unable to compete successfully. Many of our existing and potential competitors have longer operating histories and significantly greater financial, technical and other resources and therefore may be able to more quickly respond to changing opportunities or customer requirements. Please read also the section entitled "Risk Factors."

21

REVENUES FROM CONTINUING OPERATIONS

Total revenues generated from continuing operations for the three months ended June 30, 2007 and 2006 were \$4.1 million and \$3.6 million, respectively, an increase of \$519,000 or 14%. Software license revenues decreased \$82,000 or 7% from \$1.2 million in the three months ended June 30, 2006 to \$1.1 million in the three months ended June 30, 2007. The decrease was the result of a decrease in OEM and channel sales of \$104,000 based on agreements with OEM and channel sales of \$166,000 in the quarter ended June 30, 2006 as compared to sales of \$62,000 in the quarter ended June 30, 2007. The decrease in OEM and channel sales was partially offset by an increase in direct sales of \$15,000. Subscription and audio services revenues increased \$556,000 or 31% from \$1.8 million in the quarter ended June 30, 2006 to \$2.3 million in the quarter ended June 30, 2007, as the result of increased audio per minute usage of \$488,000 and an increase in hosting revenues of \$58,000, which are driven by increases in license sales year on year and sustaining the customer base. Maintenance and professional services revenues increased \$45,000 or 7% from \$603,000 in the three months ended June 30, 2006 to \$648,000 in the three months ended June 30, 2007, as the result of an increase in maintenance fees of \$59,000

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

from renewals as the customer base continues to grow. In addition, we recognized an increase in training, storage and recording revenues of \$51,000. The increases were partially offset by a decrease in our custom content revenues of \$44,000. This is a variable component of our revenues related to work performed by our subcontractor, Interactive Alchemy. For the three months ended June 30, 2007, software license revenues were 28% of total revenue, subscription and audio services revenues were 56% of total revenue and maintenance and professional services revenues were 16% of total revenue, as compared to 34%, 49% and 17%, respectively, for the three months ended June 30, 2006. We expect software license revenues and indirect subscription license revenue to continue to become a larger percentage of total revenues as total revenues increase given our focus on the software Purchase Model and indirect sales model. We expect sales from custom content services and off-the-shelf license sales to decline.

COST OF REVENUES FROM CONTINUING OPERATIONS

Cost of software license revenues is driven by the types of software licenses sold. It consists of royalty fees paid on certain off-the-shelf products, if any, sold, and sales rebates to distribution partners on the sale of certain software products. Cost of software license revenues for the three months ended June 30, 2007 and 2006 were \$67,000 and \$45,000, respectively, an increase of \$22,000 or 49%. The increase was related to costs associated with one license sale as part of a specific arrangement with the customer. Cost of software license revenue was approximately 2% of total revenues in the quarter ended June 30, 2007 and approximately 1% of total revenues in the quarter ended June 30, 2006. We expect the cost of software license revenues to remain a very small percentage of total license revenue, which will arise only from royalties which may be due from the sale of off-the-shelf courseware or specific arrangements with customers. We expect the cost of revenue for license sales to remain a very small fraction of license revenue that is not likely to exceed 2%.

Cost of subscription and audio services revenue uses a fully allocated overhead method that includes an allocation of salaries and allocable expenses resulting from the delivery of our hosted Web conferencing services, together with all expenses associated with the delivery of our audio conferencing services. Expenses related to our audio conferencing services that are accrued as cost of revenues include salaries and allocable expenses of our telephone operators, allocated facilities costs, allocated technical support costs for support services, together with all direct telecommunication expenses for long distance and local dial tone connectivity, and finally allocable depreciation and amortization expense related to our audio conferencing assets. Cost of subscription and audio services for the three months ended June 30, 2007 and 2006 were \$1.0 million and \$976,000, respectively, an increase of \$26,000 or 3%. The increase was primarily a result of an increase in salaries and benefits expense of \$127,000, an increase in telecommunications costs of \$22,000 and an increase in office expense of \$17,000. The increase was partially offset by decreases in depreciation expense of \$117,000 as a result of the complete depreciation in May 2006 of certain audio conferencing and computer equipment, which resulted in a decrease in depreciation expense in the three months ended June 30, 2007 as compared to the three months ended June 30, 2006. Overall, we expect the cost of audio conferencing services to rise with increases in audio conferencing revenue and the percentage to remain relatively consistent. Cost of subscription and audio conferencing revenue was approximately 24% of total revenues in the three months ended June 30, 2007 and approximately 27% of total revenues in the three months ended June 30, 2006.

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

Cost of maintenance and professional services revenue includes an allocation of technical support personnel and facilities costs allocable to those services revenues consisting primarily of a portion of our facilities costs, communications and depreciation expenses. However, by far the largest and most variable component of the cost of maintenance and professional services arises from the amount due to our third-party subcontractor which is a fixed proportion of the custom content revenue earned. The cost of maintenance and professional services for the three months ended June 30, 2007 and 2006 was \$184,000 and \$170,000, respectively, an increase of \$14,000 or 8%. Cost of maintenance was slightly higher as maintenance revenues continue to increase period over period. Cost of maintenance and professional services revenue was approximately 5% of total revenues in each of the three months ended June 30, 2007 and 2006. We expect that the increase in cost of maintenance and professional services revenue will vary proportionately and directly with the amount of professional services revenue earned in a quarter.

Amortization of acquired and developed software consists of amortization of acquired software technology and other assets acquired in the Mentergy, Glyphics and Quisic acquisitions. Amortization of acquired and developed software for the three months ended June 30, 2007 and 2006 was \$45,000 and \$67,000, respectively, a decrease of \$22,000 which is related to the full amortization in May 2007 of the software technology from the Glyphics acquisition.

GROSS PROFIT

As a result of the foregoing, the Company's gross profit (total revenues less total cost of revenues) increased from \$2.3 million for the three months ended June 30, 2006 to \$2.8 million for the three months ended June 30, 2007. We expect to see gross profit increase as revenues increase in dollar amount and as a percentage as revenues rise since most of the cost of sales are either fixed (amortization) or are associated only with audio conferencing and custom-content revenue.

OPERATING EXPENSES FROM CONTINUING OPERATIONS

Total operating expenses consist of research and development expenses, sales and marketing expenses and general and administrative expenses. We incurred operating expenses of \$2.3 million in the three months ended June 30, 2007, an increase of \$553,000 or 31% from \$1.8 million in the three months ended June 30, 2006. This increase is due to increases in research and development expense of \$81,000, in sales and marketing expenses of \$394,000 and in general and administrative expenses of \$78,000. Total operating expenses were 57% and 50% of total revenues in the three months ended June 30, 2007 and 2006, respectively.

Research and development expenses represent expenses incurred in connection with the continued development and enhancement of our software products and new versions of our software. Those costs consist primarily of salaries and benefits, telecommunication allocations, rent allocations, computer equipment allocations and allocated depreciation and amortization expense. Research and development expenses for the three months ended June 30, 2007 and 2006 were \$385,000 and \$304,000, respectively, an increase of \$81,000 or 27%. During the first quarter of fiscal 2007, we began capitalizing identified direct expenses associated with a specific software development upon achieving technological feasibility for version 9.0 of our Web collaboration software in accordance with SFAS No. 86, ACCOUNTING FOR THE COSTS OF COMPUTER SOFTWARE TO BE SOLD, LEASED, OR OTHERWISE MARKETED. We have continued to capitalize those direct costs through June 2007 when the new software product was released for distribution and sale to our customers. We will amortize these software development costs over a three year period beginning in July 2007. The increase in research and development costs is primarily related to an increase in office

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

expense of \$59,000 as a result of an annual quality assurance service contract accounted for as a prepaid asset, that began to be amortized in the fourth quarter of fiscal 2007, as well as other new annual subscription software contracts during the period. Salary and benefit expense attributable to research and development expense in the three months ended June 30, 2007 increased by \$18,000 as headcount increased. Taking into account the release of version 9.0 in June and thus the completion of capitalizing those particular software development costs and the increase in expense anticipated from amortization of those costs in fiscal 2008, accompanied by an increase in salary and benefit expense since a portion of that expense had been capitalized in fiscal 2007, we expect cost of sales and research and development costs to increase in fiscal 2008. Research and development expense was approximately 9% of total revenues in the three months ended June 30, 2007 and approximately 8% of total revenues in the three months ended June 30, 2006.

Sales and marketing expenses consist primarily of sales and marketing salaries and benefits, and also include allocated travel and entertainment costs, allocated advertising and other marketing expenses. Sales and marketing expenses were \$1.3 million and \$858,000 for the three months ended June 30, 2007 and 2006, respectively, an increase of \$394,000 or 46%. The increase was a result of planned increases in expenses in advertising and marketing of \$178,000 related to lead generation, in salaries expense of \$176,000 associated with increased headcount and compensation structure, in professional services of

23

\$12,000 and in indirect commissions and rebates of \$19,000. Sales and marketing expenses were 30% of total revenue in the three months ended June 30, 2007 and 24% of total revenue in the three months ended June 30, 2006. We expect sales and marketing expenses to increase in amount as revenues increase, but expect the percentage of sales and marketing expenses incurred in relation to total revenue to remain consistent.

General and administrative expenses consist of company-wide expenses that are not directly related to research and development or sales and marketing activities, with the bulk of those general and administrative expenses comprised of salaries, rent and the costs directly associated with being a public company, including accounting costs, legal costs and fees. During the three months ended June 30, 2007 and 2006, general and administrative expenses from continuing operations were \$712,000 and \$634,000, respectively, an increase of \$78,000 or 12%. The increase is primarily a result of increased office expenses of \$46,000 resulting from investments in annual software subscriptions for a new accounting general ledger package, an equity administration package and a human resources package, originally recorded as prepaid assets and amortized to office expense. General and administrative expenses also consisted of increased salaries and benefits of \$47,000, an increase in other taxes of \$25,000 as we paid the State of Utah sales tax due related to the Glyphics acquisition, increased professional services of \$15,000, increased legal fees of \$11,000 and increased board and investor relations fees of \$11,000. These increases were partially offset by a decrease in bad debt expense of \$37,000, decreased insurance expense of \$19,000, decreased accounting fees of \$15,000 and decreased telecommunications expenses of \$5,000. General and administrative expenses from continuing operations were 17% of total revenues in the three months ended June 30, 2007 and 18% of total revenues in the three months ended June 30, 2006.

EARNINGS FROM OPERATIONS

For the three months ended June 30, 2007, we reported earnings from

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

operations of \$477,000 as compared to earnings from operations of \$551,000 for the three months ended June 30, 2006, a decrease of \$74,000, or 13%. We expect to increase earnings from operations in fiscal 2008 by increasing revenues at a faster rate than our increases in expenses.

INTEREST EXPENSE FROM CONTINUING OPERATIONS

Interest expense from continuing operations paid on outstanding debt instruments for the three months ended June 30, 2007 and June 30, 2006 was \$270,000 and \$251,000, respectively, an increase of \$19,000 or 8%. This increase resulted from an increase in the interest rate payable on our senior unsecured notes due 2010 ("Senior Notes") from 10% to 12% beginning in January 2007. Non-cash interest expense, arising from the beneficial conversion feature of our debt, for the three months ended June 30, 2007 and June 30, 2006 was \$81,000 and \$150,000, respectively, a decrease of \$69,000 or 46%. This decrease resulted from an acceleration of the beneficial conversion feature in the third quarter of fiscal 2007 based on the extension of the Senior Notes being accounted for as a debt extinguishment.

We expect interest expense from continuing operations to increase slightly in fiscal 2008 as the result of the increased interest rate accruing on our Senior Notes due 2010 from 10% to 12% per annum (which began in January 2007) in connection with the agreement of the holders of those Senior Notes to extend the Senior Notes' maturity from July 15, 2007 to July 15, 2010. We expect non-cash interest expense resulting from the beneficial conversion feature of our debt to remain consistent in fiscal 2008, because the amortization is straight-line. Should there be any debt conversions in fiscal 2008, the interest will increase in order to accelerate the beneficial conversion feature related to the proportion of debt converted.

INCOME TAX EXPENSE FROM CONTINUING OPERATIONS

We recorded tax expense of \$21,000 for the three months ended June 30, 2007. The expense resulted from the recognition of the deferred income tax liability related to the tax deductible goodwill recognized on the Company's purchase of Quisic and LearnLinc. We have recorded a valuation allowance for our deferred tax assets due to the lack of profitable operating history. Based on the financial results for the year ending March 31, 2007 and the three months ended June 30, 2007, we have exhibited the ability to produce a taxable income. As a result, we will continue to analyze the deferred tax asset and the valuation allowance associated with that deferred tax asset. We believe that we will begin to recognize a portion of that deferred tax asset as we continue to earn taxable income with recognition likely in this fiscal year. In the event that we determine that we would be able to realize our deferred tax assets in the future, an adjustment to the deferred tax asset would increase net income through a tax benefit in the period such a determination was made that we have met the more likely than not threshold for such recognition.

24

We recorded no tax expense for the three months ended June 30, 2006 because we had net operating loss carry-forwards to reduce taxable income.

LIQUIDITY AND CAPITAL RESOURCES

Historically, we have generated cash from capital raising activities and from cash flow from operations. We have used cash to fund our operations and for research and development activities. In June 2006, we raised \$2.0 million of

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

gross proceeds in a private placement our common stock.

At June 30, 2007, we had a working capital surplus of \$920,000 compared to a working capital surplus of \$912,000 at March 31, 2007. Total current assets were \$5.4 million at June 30, 2007 compared to \$4.9 million at March 31, 2007. The increase in total current assets was due to an increase of approximately \$440,000 in accounts receivable which resulted from increased levels of sales. In addition, cash and cash equivalents increased by \$117,000. Our accounts receivable, net of allowance for doubtful accounts were \$3.0 million and \$2.5 million at June 30, 2007 and March 31, 2007, respectively. The increase in receivables is consistent with an increase in revenues quarter on quarter. The aging of receivables has remained consistent at June 30, 2007 when compared to March 31, 2007, with accounts under 30 days comprising 89% and 87% of the total receivable balance, respectively. Total current liabilities were \$4.5 million at June 30, 2007 compared to \$4.0 million at March 31, 2007. Contributing to the increase in current liabilities were a \$241,000 in deferred revenue from \$1.5 million at March 31, 2007 to \$1.7 million at June 30, 2007 as the result of increased license sales and renewals based on sustaining our customer base. Accounts payable and accrued liabilities increased by \$272,000 from \$2.3 million at March 31, 2007 to \$2.6 millions at June 30, 2007 primarily related to accrued salaries and benefits relating to increased headcount and accrued bonuses.

CONTRACTUAL OBLIGATIONS

The following schedule details all of the Company's indebtedness and the required payments related to such obligations at June 30, 2007 (IN THOUSANDS):

	TOTAL	DUE IN LESS THAN ONE YEAR	DUE IN YEAR TWO	DUE IN YEAR THREE	DUE IN YEAR FOUR
Long term debt*	\$ 8,511	\$ 130	\$ 74	\$ 80	\$ 80
Capital lease obligations*	330	73	86	88	88
Interest expense	4,147	1,032	1,011	997	997
Operating lease obligations	1,833	503	395	347	347
Insurance premiums	67	67	--	--	--
Base salary commitments under employment agreements	990	575	415	--	--
Total contractual obligations ...	\$ 15,878	\$ 2,380	\$ 1,981	\$ 1,512	\$ 1,512

*Excludes interest.

We plan to continue to focus on managing overhead while increasing revenue in an effort to maintain profitability and improve cash flow. We believe that we will have sufficient working capital and liquidity to meet our operating needs, fund our planned research and development activities and to satisfy our contractual obligations in the next 12 months without the need to raise additional capital.

RESULTS OF DISCONTINUED OPERATIONS

Effective January 1, 2004, we discontinued our dental practice management services. Results of operations from this segment are presented as discontinued for the three months ended June 30, 2007 and 2006 in accordance with SFAS 146, ACCOUNTING FOR COSTS ASSOCIATED WITH EXIT OF DISPOSAL ACTIVITIES. Income from discontinued operations was \$0 and \$11,000 for the three months ended June 30, 2007 and 2006, respectively. We do not expect to recognize

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

further income or incur further expenses related to our discontinued legacy practice management business.

25

CASH FLOWS FROM CONTINUING OPERATIONS

Cash provided by operating activities was \$484,000 for the three months ended June 30, 2007 and cash used in operating activities was \$138,000 for the three months ended June 30, 2006. In the three months ended June 30, 2007, cash provided by operating activities was primarily attributable to non-cash expenses of depreciation and amortization of \$192,000, non-cash accretion of debt discount to interest expense of \$51,000, income from continuing operations of \$78,000, non-cash stock option expense of \$36,000, non-cash warrant expense of \$21,000, provision for bad debts of \$3,000, a decrease in prepaid expenses and other current assets of \$12,000, deferred income tax expense of \$21,000, an increase in accounts payable and accrued expenses of \$272,000 and an increase of \$242,000 in deferred revenue. These items were offset by increases in accounts receivable of \$444,000.

Cash used in operating activities from continuing operations was \$138,000 during the three months ended June 30, 2006. Cash used in operating activities from continuing operations during the three months ended June 30, 2006 was primarily attributable to decreases in accounts payable and accrued expenses of \$552,000, increases in accounts receivable of \$263,000 and increases in prepaid expenses of \$49,000. These items were partially offset by net income from continuing operations of \$123,000, increases in deferred revenue of \$81,000, provision for bad debts of \$40,000, depreciation and amortization of \$330,000, non-cash accretion of debt discount to interest expense of \$110,000, stock compensation expense of \$27,000 and warrant expense of \$15,000.

CASH FLOWS FROM INVESTING ACTIVITIES

Cash used in investing activities was \$294,000, and \$1.1 million in the three months ended June 30, 2007 and 2006, respectively. Cash used in investing activities during the three months ended June 30, 2007 was primarily due to \$38,000 in capital expenditures, \$264,000 in capitalized software development and \$6,000 in investments in certificates of deposit. These items were partially offset by a \$14,000 repayment of a note receivable. Cash used in investing activities during the three months ended June 30, 2006 was primarily due to investments of \$1.0 million in certificates of deposit, capital expenditures of \$17,000 and capitalized software development costs of \$82,000.

CASH PROVIDED BY FINANCING ACTIVITIES

Cash used in financing activities was \$73,000 during the three months ended June 30, 2007. Cash provided by financing activities was \$1.7 million during the three months ended June 30, 2006. Cash used in financing activities in the three months ended June 30, 2007 was attributable to payment of Series A and B preferred stock dividends of \$35,000, repayment of long-term debt of \$31,000 and repayment of capital lease liabilities of \$7,000. Cash provided by financing activities for the three months ended June 30, 2006 was attributable to \$2.0 million in gross proceeds from the issuance of common stock in a private placement and additional proceeds from the exercise of stock options of \$3,000, partially offset by stock issuance expenses of \$160,000, repayment of \$62,000 in long-term debt and capital leases and payment of \$39,000 in preferred dividends.

OUTSTANDING INDEBTEDNESS AND PREFERRED STOCK

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

The Company currently has outstanding unsecured subordinated convertible notes of \$5,100,000 due March 29, 2012, 115,000 issued and outstanding shares of Series A Convertible Preferred Stock and 59,500 issued and outstanding shares of Series B Convertible Preferred Stock, together with \$2,962,000 in principal amount of Senior Notes due July 15, 2010. All of the foregoing securities were issued in connection with the Company's capital raising activities. A detailed discussion of the terms of these securities and the impact of issuance of and certain events surrounding these securities on our financial statements follows.

Outstanding Indebtedness

In March 2002, the Company completed a private placement offering (the "Convertible Note Offering") raising capital of \$5,775,000 that was used to extinguish an existing line of credit. Under the terms of the Convertible Note Offering, the Company issued unsecured subordinated convertible notes (the "Convertible Notes"). The Convertible Notes bear interest at the rate of 12% per annum and require quarterly interest payments, with the principal due at maturity on March 29, 2012. The holders of the Convertible Notes may convert the principal into shares of the Company's common stock at the fixed price of \$1.00 per share. The Company may force redemption by conversion of the principal into

26

common stock at the fixed conversion price, if at any time the 20 trading day average closing price of the Company's common stock exceeds \$3.00 per share. These notes are subordinated to any present or future senior indebtedness. As a part of the Convertible Note Offering the Company also issued warrants to purchase 5,775,000 shares of the Company's common stock for an exercise price of \$3.00 per share. Those warrants expired on March 29, 2005 without exercise. The fair value of the warrants was estimated using the Black-Scholes pricing model with the following assumptions: contractual and expected life of three years, volatility of 75%, dividend yield of 0% and a risk-free rate of 3.87%. A discount to the Convertible Notes of \$1,132,000 was recorded using this value, which is being amortized to interest expense over the 10-year term of the Convertible Notes. As the carrying value of the notes is less than the conversion value, a beneficial conversion feature of \$1,132,000 was calculated and recorded as an additional discount to the notes and is being amortized to interest expense over the ten year term of the Convertible Notes. Upon conversion, any remaining discount and beneficial conversion feature will be expensed in full at the time of conversion. During fiscal years 2004, 2005 and 2006, holders with a principal balance totaling \$675,000 converted their notes into 2,121,088 shares of the Company's common stock at prices from \$0.25 to \$0.30 per share. No conversion of debt or acceleration of amortization of costs occurred during the year ended March 31, 2007 or for the three months ended June 30, 2007.

In April of 2004, the Company completed a private placement offering of unsecured senior notes (the "2004 Senior Note Offering") that provided gross proceeds of \$4.25 million. Under the terms of the 2004 Senior Note Offering, the Company issued \$3,187,000 in unsecured senior notes and 1,634,550 shares of the Company's common stock. The senior notes were issued as a series of notes pursuant to a unit purchase and agency agreement. The placement agent received a commission equal to 10% of the gross proceeds together with a warrant for the purchase of 163,455 shares of the Company's common stock with an exercise price equal to 120% of the price paid by investors. The senior notes originally bore an interest rate of 10% per annum and accrued interest is due and payable on a

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

quarterly basis, with principal due at maturity on July 15, 2007. The senior notes are redeemable by the Company at 100% of the principal value at any time after July 15, 2005. The notes and common stock were originally issued with a debt discount of \$768,000. The fair value of the warrants was estimated and used to calculate a discount of \$119,000 of which \$68,000 was allocated to the notes and \$51,000 was allocated to equity. The total discount allocated to the notes of \$836,000 is being amortized as a component of interest expense over the original term of the notes which was thirty-nine months. The senior notes are unsecured obligations of the Company but are senior in right of payment to all existing and future indebtedness of the Company. The common stock issued in the 2004 Senior Note Offering was registered with the SEC pursuant to a resale prospectus dated August 2, 2005. Effective August 1, 2005, holders with a principal balance totaling \$225,000 converted their senior notes and accrued interest of \$800 into 903,205 shares of the Company's common stock at a price of \$0.25 per share. No conversion of debt to equity or acceleration of amortization of costs related to such conversions occurred during the year ended March 31, 2007. In December, 2006, the Company negotiated a modification of the terms of the senior notes to extend the maturity date from July 15, 2007 to July 15, 2010. In exchange for the extension, the interest rate increased from 10% per annum to 12% per annum, with the new increased interest rate to begin to accrue under the amendment on January 16, 2007, and continue thereafter at that rate until maturity or the senior notes are fully paid. All other terms and provisions of the senior notes remained unchanged. The direct expenses of the note amendment was \$101,000 and the estimated fair value of the warrant issued to the placement agent of \$42,000 were recorded as a deferred offering cost and both will be amortized as a component of interest expense over the term of the senior notes.

Preferred Stock

On September 16, 2003, the Company completed its private placement of Series A convertible preferred stock with detachable warrants to purchase 750,000 shares of common stock, providing \$1,500,000 in gross proceeds. The Company originally issued 150,000 shares of Series A Preferred Stock that converts to 3,000,000 shares of common stock, if all converted. The warrants were immediately exercisable at a price of \$1.50 per share and expired on September 16, 2006. The Company pays an 8% dividend to holders of the Series A Preferred Stock, and the dividend is cumulative. The Series A Preferred Stock is non-voting and non-participating. The shares of Series A Preferred Stock will not be registered under the Securities Act of 1933, as amended, and were offered in a private placement providing exemption from registration. The cash proceeds of the private placement of Series A Preferred Stock were allocated pro-rata between the relative fair values of the Series A Preferred Stock and warrants at issuance using the Black-Scholes valuation model for valuing the warrants. The aggregate value of the warrants and the beneficial conversion discount of \$247,000 were considered a deemed dividend in the calculation of loss per share. During fiscal year 2005 and 2006, holders of 35,000 shares converted to 700,000 shares of common stock. The underlying common stock that would be issued upon conversion of the preferred stock and upon exercise of the associated warrants has been registered with the SEC and may be sold pursuant to a resale prospectus.

On September 30, 2005, the Company completed its private placement of Series B convertible preferred stock, with detachable warrants. The Company originally issued 70,000 shares of Series B Preferred Stock that converts to 2,800,000 shares of common stock, if all converted and warrants to purchase 700,000 shares of common stock. The Series B Preferred Stock bears an 8%

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

dividend. The dividend is cumulative and the Series B Preferred Stock is non-voting and non-participating. The shares of Series B Preferred Stock will not be registered under the Securities Act of 1933, as amended, and were offered in a private placement providing exemption from registration. The Warrants that are exercisable at an exercise price equal to \$0.50 per share expire on September 30, 2008. The aggregate value of the warrants of \$55,000 is considered a deemed dividend in the calculation of earnings/loss per share. During the 2007 fiscal year, holders of 10,500 shares of Series B Preferred Stock converted those shares into 420,000 shares of the Company's common stock. The underlying common stock that would be issued upon conversion of the preferred stock and upon exercise of the associated warrants has been registered with the SEC and may be sold pursuant to a resale prospectus.

On June 9, 2006, the Company completed a private placement of 5,405,405 unregistered, restricted shares of common stock providing \$2.0 million in gross cash proceeds. The Company has used the proceeds for working capital and general corporate purposes. The Company paid its placement agent an underwriting commission of \$185,000 of which \$25,000 was recorded as deferred offering costs, and incurred additional offering expenses of approximately \$103,000. Pursuant to the registration rights agreement between the parties, the Company filed a Registration Statement on Form S-3 to enable the resale of the shares by the investors which was declared effective on September 29, 2006.

OFF BALANCE SHEET TRANSACTIONS

There are no off-balance sheet transactions, arrangements, obligations (including contingent obligations) or other relationships of the Company with unsolicited entities or other persons that have or may have a material effect on financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources of the Company.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. The more significant areas requiring use of estimates relate to revenue recognition, accounts receivable and notes receivable valuation reserves, realizability of intangible assets, realizability of deferred income tax assets and the evaluation of contingencies and litigation. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. The results of such estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may materially differ from these estimates under different assumptions or conditions.

The Company considers an accounting policy to be critical if it requires an accounting estimate that requires the Company to make assumptions about matters that are highly uncertain at the time the accounting estimate is made. In addition, different estimates that the Company reasonably could have used for the accounting estimate in the current period, or changes in the accounting estimate that are reasonably likely to occur from period to period would have a material impact on the presentation of the Company's financial condition, changes in financial condition or results of operations. The Company believes there are a number of accounting policies that are critical to understanding our historical and future performance. The critical accounting policies include revenue recognition, sales reserves, allowance for doubtful

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

accounts, software development costs, intangible assets, income taxes and stock-based compensation.

Our critical accounting policies and estimates are included in the Company's annual report on Form 10-K for the year ended March 31, 2007 as filed with the SEC.

28

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The following discusses our exposure to market risk related to changes in interest rates, equity prices and foreign currency exchange rates. Market risk generally represents the risk of loss that may result from the potential change in the value of a financial instrument as a result of fluctuations in interest rates and market prices. We have not traded or otherwise bought and sold derivatives nor do we expect to in the future. We also do not invest in market risk sensitive instruments for trading purposes.

We provide our products and services to customers in the United States, Europe and elsewhere throughout the world. Sales are predominately made in U.S. Dollars, however, we have sold products that were payable in Euros and Canadian Dollars. A strengthening of the U.S. Dollar could make our products and services less competitive in foreign markets.

The primary objective of the Company's investment activity is to preserve principal while at the same time maximizing yields without significantly increasing risk. To achieve this objective, the Company maintains its portfolio of cash equivalents in a variety of money market funds.

As of June 30, 2007, the carrying value of our outstanding convertible redeemable subordinated notes and unsecured senior notes was approximately \$8.1 million at a fixed interest rate of 12%. In certain circumstances, we may redeem this long-term debt. Our other components of indebtedness of \$449,000 bear interest rates of 6% to 10.25%. Increases in interest rates could increase the interest expense associated with future borrowings, if any. We do not hedge against interest rate increases.

ITEM 4. CONTROLS AND PROCEDURES

The Company evaluated the design and operation of its disclosure controls and procedures to determine whether they are effective in ensuring that it discloses the required information in a timely manner and in accordance with the Securities Exchange Act of 1934, as amended (the "Exchange Act") and the rules and forms of the Securities and Exchange Commission. Management, including its principal executive officer and principal financial officer, supervised and participated in the evaluation. The principal executive officer and principal financial officer concluded, based on their review, that its disclosure controls and procedures, as defined by Exchange Act Rules 13a-15(e) and 15d-15(e), are effective and ensure that (i) it discloses the required information in reports that it files under the Exchange Act and that the filings are recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and (ii) information required to be disclosed in reports that it files under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

During the first quarter ended June 30, 2007, no changes were made to its internal controls over financial reporting that materially affected or were reasonably likely to materially affect these controls subsequent to the date of their evaluation.

PART II--OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None

ITEM 1A. RISK FACTORS

You should carefully consider the risks described below. The risks and uncertainties described below are not the only ones we face. If any of the following risks actually occur, our business, financial condition or results of operations could be materially and adversely affected. In that case, the trading price of our common stock could be adversely affected.

WE FACE RISKS INHERENT IN INTERNET-RELATED BUSINESSES AND MAY BE UNSUCCESSFUL IN ADDRESSING THESE RISKS.

29

We face risks frequently encountered by companies in new and rapidly evolving markets such as Web conferencing and audio conferencing. We may fail to adequately address these risks and, as a consequence, our business may suffer. To address these risks among others, we must successfully introduce and attract new customers to our products and services; successfully implement our sales and marketing strategy to generate sufficient sales and revenues to sustain operations; foster existing relationships with our customers to provide for continued or recurring business and cash flow; and successfully address and establish new products and technologies as new markets develop. We may not be able to sufficiently address and overcome risks inherent in our business strategy.

OUR QUARTERLY OPERATING RESULTS ARE UNCERTAIN AND MAY FLUCTUATE SIGNIFICANTLY.

Our operating results have varied significantly from quarter to quarter and are likely to continue to fluctuate as a result of a variety of factors, many of which we cannot control. Factors that may adversely affect our quarterly operating results include: the dependence upon software purchase license sales as opposed to the more ratable subscription model, the size and timing of product orders; the mix of revenue from custom services and software products; the market acceptance of our products and services; our ability to develop and market new products in a timely manner; the timing of revenues and expenses relating to our product sales; and revenue recognition rules. Expense levels are based, in part, on expectations as to future revenue and to a large extent are fixed in the short term. To the extent we are unable to predict future revenue accurately, we may be unable to adjust spending in a timely manner to compensate for any unexpected revenue shortfall.

WE HAVE LIMITED FINANCIAL RESOURCES.

We have limited financial resources at our disposal. We have long-term obligations that are due in 2010 and 2012 that we may not be able to satisfy

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

from existing working capital. If we are unable to remain profitable, we will face increasing demands for capital. We may not be successful in raising additional debt or equity capital. As a result, we may not have sufficient financial resources to satisfy our obligations as they come due in the short term.

DILUTION TO EXISTING STOCKHOLDERS WILL OCCUR UPON ISSUANCE OF SHARES WE HAVE RESERVED FOR FUTURE ISSUANCE.

On June 30, 2007, 33,585,431 shares of our common stock were issued and outstanding, net of treasury shares. An additional 16,209,295 shares of our common stock were reserved for issuance that would be issued as the result of the exercise of warrants or the conversion of convertible notes and/or convertible preferred stock. The issuance of these additional shares will reduce the percentage ownership of our existing stockholders. The existence of these reserved shares coupled with other factors, such as the relatively small public float, could adversely affect prevailing market prices for our common stock and our ability to raise capital through an offering of equity securities.

THE LOSS OF THE SERVICES OF OUR SENIOR EXECUTIVES AND KEY PERSONNEL WOULD LIKELY CAUSE OUR BUSINESS TO SUFFER.

Our success depends to a significant degree on the performance of our senior management team. The loss of any of these individuals could harm our business. We do not maintain key person life insurance for any officers or key employees other than on the life of James M. Powers, Jr., our Chairman, President and CEO, with that policy providing a death benefit to the Company of \$1.0 million. Our success also depends on the ability to attract, integrate, motivate and retain additional highly skilled technical, sales and marketing and professional services personnel. To the extent we are unable to attract and retain a sufficient number of additional skilled personnel, our business will suffer.

OUR INTELLECTUAL PROPERTY MAY BECOME SUBJECT TO LEGAL CHALLENGES, UNAUTHORIZED USE OR INFRINGEMENT, ANY OF WHICH COULD DIMINISH THE VALUE OF OUR PRODUCTS AND SERVICES.

Our success depends in large part on our proprietary technology. If we fail to successfully enforce our intellectual property rights, the value of these rights, and consequently, the value of our products and services to our customers, could diminish substantially. It may be possible for third parties to copy or otherwise obtain and use our intellectual property or trade secrets without our authorization, and it may also be possible for third parties to independently develop substantially equivalent intellectual property. Currently, we do not have patent protection in place related to our products and services. Litigation may be necessary in the future to enforce our intellectual property rights, to protect trade secrets or to determine the validity and scope of the proprietary rights of others. While we have not received any notice of any claim

of infringement of any of our intellectual property, from time to time we may receive notice of claims of infringement of other parties' proprietary rights. Such claims could result in costly litigation and could divert management and technical resources. These types of claims could also delay product shipment or require us to develop non-infringing technology or enter into royalty or licensing agreements, which agreements, if required, may not be available on reasonable terms, or at all.

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

COMPETITION IN THE WEB CONFERENCING AND AUDIO CONFERENCING SERVICES MARKET IS INTENSE AND WE MAY BE UNABLE TO COMPETE SUCCESSFULLY.

The markets for Web conferencing and audio conferencing products and services are relatively new, rapidly evolving and intensely competitive. Competition in our market will continue to intensify and may force us to reduce our prices, or cause us to experience reduced sales and margins, loss of market share and reduced acceptance of our services. Many of our competitors have larger and more established customer bases, longer operating histories, greater name recognition, broader service offerings, more employees and significantly greater financial, technical, marketing, public relations and distribution resources than we do. We expect that we will face new competition as others enter our market to develop Web conferencing and audio conferencing services. These current and future competitors may also offer or develop products or services that perform better than ours. In addition, acquisitions or strategic partnerships involving our current and potential competitors could harm us in a number of ways.

FUTURE REGULATIONS COULD BE ENACTED THAT EITHER DIRECTLY RESTRICT OUR BUSINESS OR INDIRECTLY IMPACT OUR BUSINESS BY LIMITING THE GROWTH OF INTERNET-BASED BUSINESS AND SERVICES.

As commercial use of the Internet increases, federal, state and foreign agencies could enact laws or adopt regulations covering issues such as user privacy, content and taxation of products and services. If enacted, such laws or regulations could limit the market for our products and services. Although they might not apply to our business directly, we expect that laws or rules regulating personal and consumer information could indirectly affect our business. It is possible that such legislation or regulation could expose us to liability which could limit the growth of our Web conferencing and audio conferencing products and services. Such legislation or regulation could dampen the growth in overall Web conferencing usage and decrease the Internet's acceptance as a medium of communications and commerce.

WE DEPEND LARGELY ON ONE-TIME SALES TO GROW REVENUES WHICH MAKE OUR REVENUES DIFFICULT TO PREDICT.

While audio conferencing provides a more recurring revenue base, a high percentage of our revenue is attributable to one-time purchases by our customers rather than long-term, recurring, conferencing subscription type contracts. As a result, our inability to continue to obtain new agreements and sales may result in lower than expected revenue, and therefore, harm our ability to achieve or sustain operations or profitability on a consistent basis, which could also cause our stock price to decline. Further, because we face competition from larger, better-capitalized companies, we could face increased downward pricing pressure that could cause a decrease in our gross margins. Additionally, our sales cycle varies depending on the size and type of customer considering a purchase. Potential customers frequently need to obtain approvals from multiple decision makers within their company and may evaluate competing products and services before deciding to use our services. Our sales cycle, which can range from several weeks to several months or more, combined with the license purchase model makes it difficult to predict future quarterly revenues.

OUR OPERATING RESULTS MAY SUFFER IF WE FAIL TO DEVELOP AND FOSTER OUR VALUE ADDED RESELLER OR DISTRIBUTION RELATIONSHIPS.

We have an existing channel and distribution network that provides growing revenues and contributes to our high margin software sales. These distribution partners are not obligated to distribute our services at any minimum level. As a result, we cannot accurately predict the amount of revenue we will derive from our distribution partners in the future. The inability or

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

unwillingness of our distribution partners to sell our products to their customers and increase their distribution of our products could result in significant reductions in our revenue, and therefore, harm our ability to achieve or sustain profitability on a consistent basis.

31

SALES IN FOREIGN JURISDICTIONS BY OUR INTERNATIONAL DISTRIBUTOR NETWORK AND US MAY RESULT IN UNANTICIPATED COSTS.

We have limited experience in international operations and may not be able to compete effectively in international markets. We face certain risks inherent in conducting business internationally, such as:

- o our inability to establish and maintain effective distribution channels and partners;
- o the varying technology standards from country to country;
- o our inability to effectively protect our intellectual property rights or the code to our software;
- o our inexperience with inconsistent regulations and unexpected changes in regulatory requirements in foreign jurisdictions;
- o language and cultural differences;
- o fluctuations in currency exchange rates;
- o our inability to effectively collect accounts receivable; or,
- o our inability to manage sales and other taxes imposed by foreign jurisdictions.

THE GROWTH OF OUR BUSINESS SUBSTANTIALLY DEPENDS ON OUR ABILITY TO SUCCESSFULLY DEVELOP AND INTRODUCE NEW SERVICES AND FEATURES IN A TIMELY MANNER.

With our focus on our Web and audio conferencing products and services, our growth depends on our ability to continue to develop new features, products and services around that software and product line including the ability to operate our software in non-Windows based operating systems (e.g., MAC and Linux). We may not successfully identify, develop, and market new products and features in a timely and cost-effective manner. If we fail to develop and maintain market acceptance of our existing and new products to offset our continuing development costs, then our net losses will increase and we may not be able to achieve or sustain profitability on a consistent basis.

IF WE FAIL TO OFFER COMPETITIVE PRICING, WE MAY NOT BE ABLE TO ATTRACT AND RETAIN CUSTOMERS.

Because the Web conferencing market is relatively new and still evolving, the prices for these services are subject to rapid and frequent changes. In many cases, businesses provide their services at significantly reduced rates, for free or on a trial basis in order to win customers. Due to competitive factors and the rapidly changing marketplace, we may be required to significantly reduce our pricing structure, which would negatively affect our revenue, margins and our ability to achieve or sustain profitability on a consistent basis. We have an existing channel and distribution network that provides growing revenues and contributes to our high margin software sales. These distribution partners are not obligated to distribute our services at any particular minimum level. As a result, we cannot accurately predict the amount of revenue we will derive from our distribution partners in the future. The inability of our distribution partners to sell our products to their customers and increase their distribution of our products could result in significant reductions in our revenue, and, therefore, harm our ability to achieve or

Edgar Filing: ILINC COMMUNICATIONS INC - Form 10-Q

sustain profitability on a consistent basis.

IF WE ARE UNABLE TO COMPLETE OUR ASSESSMENT AS TO THE ADEQUACY OF OUR INTERNAL CONTROLS OVER FINANCIAL REPORTING AS REQUIRED BY SECTION 404 OF THE SARBANES-OXLEY ACT OF 2002, INVESTORS COULD LOSE CONFIDENCE IN THE RELIABILITY OF OUR FINANCIAL STATEMENTS, WHICH COULD RESULT IN A DECREASE IN THE VALUE OF OUR COMMON STOCK.

As directed by Section 404 of the Sarbanes-Oxley Act of 2002, the Securities and Exchange Commission adopted rules requiring non-accelerated public companies to include in their annual reports on Form 10-K for fiscal years ending after December 15, 2007 a report of management on their company's internal control over financial reporting, including management's assessment of the effectiveness of their company's internal control over financial reporting as of the company's fiscal year end. In addition, the accounting firm auditing a public company's financial statements must also attest to and report on management's assessment of the effectiveness of the company's internal control over financial reporting, as well as, the operating effectiveness of the company's internal controls for fiscal years ending after December 15, 2008. There is a risk that we may not comply with all of its requirements. If we do not timely complete our assessment or if our accounting firm determines that our internal controls are not designed or operating effectively as required by Section 404, our accounting firm may either disclaim its opinion as it is related to management's assessment of the effectiveness of its internal controls or may issue a qualified opinion on the effectiveness of our internal controls. If our accounting firm disclaims its opinion or qualifies its opinion as to the effectiveness of our internal controls, then investors may lose confidence in the reliability of our financial statements, which could cause the market price of our common stock to decline.

32

WE MAY ACQUIRE OTHER BUSINESSES THAT COULD NEGATIVELY AFFECT OUR OPERATIONS AND FINANCIAL RESULTS AND DILUTE EXISTING STOCKHOLDERS.

We may pursue additional business relationships through acquisitions which may not be successful. We may have to devote substantial time and resources in order to complete acquisitions and we therefore may not realize the benefits of those acquisitions. Further, these potential acquisitions entail risks, uncertainties and potential disruptions to our business. For example, we may not be able to successfully integrate a company's operations, technologies, products and services, information systems and personnel into our business. These risks could harm our operating results and could adversely affect prevailing market prices for our common stock.
