ENTERPRISE FINANCIAL SERVICES CORP AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies used by Enterprise Financial Services Corp (the “Company” or “Enterprise”) in the preparation of the condensed consolidated financial statements are summarized below:

Business and Consolidation

Enterprise is a financial holding company that provides a full range of banking and wealth management services to individuals and corporate customers located in the St. Louis, Kansas City and Phoenix metropolitan markets through its banking subsidiary, Enterprise Bank & Trust (the “Bank”).

Operating results for the three months ended March 31, 2013 are not necessarily indicative of the results that may be expected for any other interim period or for the year ending December 31, 2013.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012.

Basis of Financial Statement Presentation

The condensed consolidated financial statements of the Company and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. They do not include all information and footnotes required by U.S. GAAP for annual financial statements. The condensed consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. All intercompany accounts and transactions have been eliminated. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Certain 2012 amounts in the consolidated financial statements have been reclassified to conform to the 2013 presentation. These reclassifications have no effect on Net income or Shareholders' equity as previously reported.

The Company has adopted the new accounting guidance surrounding comprehensive income by presenting a separate Statement of Comprehensive Income. The Statement of Comprehensive Income includes the amount and the related tax impact that have been reclassified from accumulated other comprehensive income to net income. The reclassification adjustment for unrealized gain on sale of securities included in net income has been recorded through the Gain on sale of investment securities line item, within Noninterest income, in the Company's Condensed Consolidated Statements of Operations.

NOTE 2 - EARNINGS PER SHARE

Basic earnings per common share data is calculated by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Common shares outstanding include common stock and restricted stock awards where recipients have satisfied the vesting terms. Diluted earnings per common share gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and the if-converted method for convertible trust preferred securities.

The following table presents a summary of per common share data and amounts for the periods indicated.

(in thousands, except per share data)	Three months ended March 31,	
	2013	2012
Net income as reported	\$10,040	\$6,185
Preferred stock dividend	—	(438)
Accretion of preferred stock discount	—	(203)
Net income available to common shareholders	\$10,040	\$5,544
Impact of assumed conversions		
Interest on 9% convertible trust preferred securities, net of income tax	354	371
Net income available to common shareholders and assumed conversions	\$10,394	\$5,915
Weighted average common shares outstanding	18,011	17,790
Incremental shares from assumed conversions of convertible trust preferred securities	1,439	1,439
Additional dilutive common stock equivalents	74	14
Weighted average diluted common shares outstanding	19,524	19,243
Basic earnings per common share:	\$0.56	\$0.31
Diluted earnings per common share:	\$0.53	\$0.31

There were 515,550 common stock equivalents (including 28,807 average common stock warrants) for the three months ended March 31, 2013, and 1.0 million common stock equivalents (including 324,074 common stock warrants) for the three months ended March 31, 2012 which were excluded from the earnings per share calculations because their effect was anti-dilutive.

NOTE 3 - INVESTMENTS

The following table presents the amortized cost, gross unrealized gains and losses and fair value of securities available-for-sale:

(in thousands)	March 31, 2013			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available for sale securities:				
Obligations of U.S. Government-sponsored enterprises	\$130,782	\$2,765	\$—	\$133,547
Obligations of states and political subdivisions	50,402	2,113	(608)) 51,907
Residential mortgage-backed securities	292,739	5,214	(400)) 297,553
	\$473,923	\$10,092	\$(1,008)) \$483,007
(in thousands)	December 31, 2012			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available for sale securities:				
Obligations of U.S. Government-sponsored enterprises	\$149,039	\$3,329	\$—	\$152,368
Obligations of states and political subdivisions	51,202	2,279	(478)) 53,003
Residential mortgage-backed securities	427,221	7,884	(264)) 434,841
	\$627,462	\$13,492	\$(742)) \$640,212

At March 31, 2013, and December 31, 2012, there were no holdings of securities of any one issuer in an amount greater than 10% of shareholders' equity, other than the U.S. government agencies and sponsored enterprises. The residential mortgage-backed securities are all issued by U.S. government sponsored enterprises. Available for sale securities having a fair value of \$317.8 million and \$359.3 million at March 31, 2013, and December 31, 2012, respectively, were pledged as collateral to secure deposits of public institutions and for other purposes as required by law or contract provisions.

The amortized cost and estimated fair value of debt securities classified as available for sale at March 31, 2013, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. The weighted average life of the mortgage-backed securities is approximately 4 years.

(in thousands)	Amortized Cost	Estimated Fair Value
Due in one year or less	\$1,594	\$1,608
Due after one year through five years	145,156	148,476
Due after five years through ten years	28,008	29,210
Due after ten years	6,426	6,160
Mortgage-backed securities	292,739	297,553
	\$473,923	\$483,007

The following table represents a summary of available-for-sale investment securities that had an unrealized loss:

(in thousands)	March 31, 2013					
	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Obligations of states and political subdivisions	\$ 10,042	\$ 259	\$ 3,051	\$ 349	\$ 13,093	\$ 608
Residential mortgage-backed securities	44,488	400	—	—	44,488	400
	\$ 54,530	\$ 659	\$ 3,051	\$ 349	\$ 57,581	\$ 1,008
(in thousands)	December 31, 2012					
	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Obligations of states and political subdivisions	6,434	122	3,389	356	9,823	478
Residential mortgage-backed securities	40,471	143	11,266	121	51,737	264
	\$ 46,905	\$ 265	\$ 14,655	\$ 477	\$ 61,560	\$ 742

The unrealized losses at both March 31, 2013, and December 31, 2012, were primarily attributable to changes in market interest rates since the securities were purchased. Management systematically evaluates investment securities for other-than-temporary declines in fair value on a quarterly basis. This analysis requires management to consider various factors, which include (1) the present value of the cash flows expected to be collected compared to the amortized cost of the security, (2) duration and magnitude of the decline in value, (3) the financial condition of the issuer or issuers, (4) structure of the security and (5) the intent to sell the security or whether it is more likely than not that the Company would be required to sell the security before its anticipated recovery in market value. At March 31, 2013, management performed its quarterly analysis of all securities with an unrealized loss and concluded no individual securities were other-than-temporarily impaired.

The gross gains and gross losses realized from sales of available-for-sale investment securities were as follows:

(in thousands)	Three months ended March 31,	
	2013	2012
Gross gains realized	\$ 866	\$ 1,075
Gross losses realized	(182) (53
Proceeds from sales	122,894	64,476

NOTE 4 - PORTFOLIO LOANS NOT COVERED BY LOSS SHARE ("Non-covered")

Below is a summary of Non-covered loans by category at March 31, 2013, and December 31, 2012:

(in thousands)	March 31, 2013	December 31, 2012
Real Estate Loans:

Portfolio loans, including unearned loan costs	\$ 2,085,872	\$ 2,106,039

The Company grants commercial, residential, and consumer loans primarily in the St. Louis, Kansas City and Phoenix metropolitan areas. The Company has a diversified loan portfolio, with no particular concentration of credit in any one economic sector; however, a substantial portion of the portfolio is concentrated in and secured by real estate. The ability of the Company's borrowers to honor their contractual obligations is partially dependent upon the local economy and its effect on the real estate market.

A summary of the year-to-date activity in the allowance for loan losses and the recorded investment in Non-covered loans by portfolio class and category based on impairment method through March 31, 2013, and at December 31, 2012, is as follows:

(in thousands)	Commercial & Industrial	Commercial Real Estate Owner Occupied	Commercial Real Estate Investor Owned	Construction and Land Development	Residential Real Estate	Consumer & Other	Qualitative Adjustment	Total

There was one loan over 90 days past due and still accruing interest at March 31, 2013. If interest on impaired loans would have been accrued based upon the original contractual terms, such income would have been \$765,000 and \$846,000 for the three months ended March 31, 2013 and 2012, respectively. The cash amount collected and recognized as interest income on impaired loans was \$15,000 and \$126,000 for the three months ended March 31, 2013 and 2012, respectively. The amount recognized as interest income on impaired loans continuing to accrue interest was \$29,000 and \$160,000 for the three months ended March 31, 2013 and 2012, respectively. At March 31, 2013, there were \$127,000 of unadvanced commitments on impaired loans. Other Liabilities include approximately \$20,000 for estimated losses attributable to the unadvanced commitments on impaired loans.

The recorded investment in non-accrual, restructured, and 90 days past due and still accruing interest Non-covered loans by category at March 31, 2013, and December 31, 2012, is as follows:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt, such as current financial information, historical payment experience, credit documentation, and current economic factors among other factors. This analysis is performed on a quarterly basis. The Company uses the following definitions for risk ratings:

Grades 1, 2, and 3 - These grades include loans to borrowers with a continuous record of strong earnings, sound balance sheet condition and capitalization, ample liquidity with solid cash flow and whose management team has experience and depth within their industry.

Grade 4— This grade includes loans to borrowers with positive trends in profitability, satisfactory capitalization and balance sheet condition, and sufficient liquidity and cash flow.

Grade 5 – This grade includes loans to borrowers that may display fluctuating trends in sales, profitability, capitalization, liquidity, and cash flow.

Grade 6— This grade includes loans to borrowers where an adverse change or perceived weakness has occurred, but may be correctable in the near future. Alternatively, this rating category may also include circumstances where the

company is starting to reverse a negative trend or condition, or have recently been upgraded from a 7, 8, or 9 rating.

14

Grade 7 – Watch credits are companies that have experienced financial setback of a nature that are not determined to be severe or influence ‘ongoing concern’ expectations. Borrowers within this category are expected to turnaround within a 12-month period of time. Although possible, no loss is anticipated, due to strong collateral and/or guarantor support.

Grade 8 – Substandard credits will include those companies that are characterized by significant losses and sustained downward trends in balance sheet condition, liquidity, and cash flow. Repayment reliance may have shifted to secondary sources. Collateral exposure may exist and additional reserves may be warranted.

Grade 9 – Doubtful credits include borrowers that may show deteriorating trends that are unlikely to be corrected. Collateral values may appear insufficient for full recovery, therefore requiring a partial charge-off, or debt renegotiation with the borrower. Borrower may have declared bankruptcy or bankruptcy is likely in the near term. All doubtful rated credits will be on non-accrual.

The recorded investment by risk category of the Non-covered loans by portfolio class and category at March 31, 2013, which is based upon the most recent analysis performed, and December 31, 2012 is as follows:

NOTE 5 - PORTFOLIO LOANS COVERED BY LOSS SHARE ("Covered loans")

Purchased loans acquired in a business combination, including loans purchased in our FDIC-assisted transactions, are recorded at estimated fair value on their purchase date without a carryover of the related allowance for loan losses. Purchased credit-impaired loans are loans that have evidence of credit deterioration since origination and it is probable at the date of acquisition that the Company will not collect all contractually required principal and interest payments. Evidence of credit quality deterioration as of the purchase date may include factors such as past due and non-accrual status. The difference between contractually required payments at acquisition and the cash flows expected to be collected at acquisition is referred to as the non-accretable yield. Subsequent decreases to the expected cash flows will generally result in a provision for loan losses. Subsequent increases in cash flows result in a reversal of the provision for loan losses to the extent of prior charges or a reclassification of the difference from non-accretable to accretable

with a positive impact on interest income, prospectively. Further, any excess of cash flows expected at acquisition over the estimated fair value is referred to as the accretable yield and is recognized into interest income over the remaining life of the loan when there is a reasonable expectation about the amount and timing of such cash

flows. Acquired loans that have common risk characteristics are aggregated into pools. The Company updates its cash flow projections for credit-impaired acquired loans, including loans acquired from the FDIC, on a quarterly basis. Assumptions utilized in this process include projections related to probability of default, loss severity, prepayment, extensions and recovery lag. Projections related to probability of default and prepayment are calculated utilizing a loan migration analysis. The loan migration analysis is a matrix of probability that specifies the probability of a loan pool transitioning into a particular delinquency or liquidation state given its current state at the remeasurement date. Loss severity factors are based upon industry data.

Covered loans are also subject to the Company's internal and external credit review and are risk rated using the same criteria as loans originated by the Company. However, risk ratings are not always a clear indicator of the Company's losses on acquired loans as a majority of the losses are recoverable from the FDIC under the loss-sharing agreements.

Below is a summary of Covered loans by category at March 31, 2013, and December 31, 2012:

(in thousands)	March 31, 2013		December 31, 2012

Total	\$2,783	\$26,175	\$28,958	\$172,160	\$201,118

The accretable yield is accreted into interest income over the estimated life of the acquired loans using the effective yield method.

Changes in the accretable yield for purchased loans were as follows for the three months ended March 31, 2013, and 2012:

(in thousands)	March 31, 2013	March 31, 2012
Balance at beginning of period	\$78,768	\$63,335
Accretion	(7,112)	(7,082)
Disposals	(5,956)	(1,315)
Reclassifications from nonaccretable difference	599	45,386
Other	—	322
Balance at end of period	\$66,299	\$100,646

Other changes in the accretable yield include the impact of cash flow timing estimates, changes in variable interest rates, and other non-credit related adjustments. For the three months ended March 31, 2013 and 2012, the Company received payments of \$1.7 million and \$11.6 million, respectively, for loss share claims under the terms of the FDIC shared-loss agreements.

Due to continued favorable projections in the expected cash flows of its Covered loans, the Company continues to anticipate that it will be required to pay the FDIC at the end of one of the loss share agreements. Accordingly, a liability

17

of \$879,000 has been recorded at March 31, 2013. As part of the remeasurement process, the Company recorded a \$304,000 adjustment to increase the liability through Other noninterest expense during the quarter ended March 31, 2013. The liability will continue to be adjusted as part of the quarterly remeasurement process through the end of the loss share agreement.

NOTE 6 - COMMITMENTS AND CONTINGENCIES

The Company issues financial instruments with off balance sheet risk in the normal course of the business of meeting the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments may involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheets.

The Company's extent of involvement and maximum potential exposure to credit loss under commitments to extend credit and standby letters of credit in the event of nonperformance by the other party to the financial instrument is represented by the contractual amount of these instruments.

The Company uses the same credit policies in making commitments and conditional obligations as it does for financial instruments included on its consolidated balance sheets. At March 31, 2013, there were \$127,000 of unadvanced commitments on impaired loans. Other liabilities include approximately \$20,000 for estimated losses attributable to the unadvanced commitments on impaired loans.

The contractual amounts of off-balance-sheet financial instruments as of March 31, 2013, and December 31, 2012, are as follows:

(in thousands)	March 31, 2013	December 31, 2012
Commitments to extend credit	\$741,843	\$722,325
Standby letters of credit	46,062	42,561

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments usually have fixed expiration dates or other termination clauses, may have significant usage restrictions, and may require payment of a fee. Of the total commitments to extend credit at March 31, 2013, and December 31, 2012, approximately \$39.3 million and \$50.7 million, respectively, represent fixed rate loan commitments. Since certain of the commitments may expire without being drawn upon or may be revoked, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower. Collateral held varies, but may include accounts receivable, inventory, premises and equipment, and real estate.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. These standby letters of credit are issued to support contractual obligations of the Company's customers. The credit risk involved in issuing letters of credit is essentially the same as the risk involved in extending loans to customers. The approximate remaining term of standby letters of credit range from 6 months to 5 years at March 31, 2013.

Contingencies

The Company and its subsidiaries are, from time to time, parties to various legal proceedings arising out of their businesses. Other than those described below, management believes that there are no such proceedings pending or threatened against the Company or its subsidiaries which, if determined adversely, would have a material adverse effect on the business, consolidated financial condition, results of operations or cash flows of the Company or any of its subsidiaries.

Distinctive Notes

The Bank, along with other co-defendants has been named as a defendant in two lawsuits filed by persons alleging to be clients of the Bank's Trust division who invested in promissory notes (the "Distinctive Notes") issued by Distinctive Properties (UK) Limited ("Distinctive Properties"), a company involved in the purchase and development of real estate in the United Kingdom.

19

Rosemann, et al. v. Martin Sigillito, et al.

In one of the lawsuits filed in United States District Court for the Eastern District of Missouri, the plaintiffs allege that the investments in the Distinctive Notes were part of a multi-million dollar Ponzi scheme. Plaintiffs allege to hold such promissory notes in accounts with the Trust division and that, among other things, the Bank was negligent and breached its contracts. Plaintiffs also allege that the Bank violated the Racketeer Influenced and Corrupt Organizations Act ("RICO"). Plaintiffs, in the aggregate, are seeking damages from defendants, including the Bank, in excess of \$44.0 million as well as their costs and attorneys' fees and trebled damages under RICO.

The case was stayed while criminal proceedings against Sigillito were completed. After a four week trial, Sigillito was found guilty of 20 counts of wire fraud, mail fraud, conspiracy, and money laundering. Following the verdict, the judge lifted the stay and set the case for a four week jury trial starting August 26, 2013. Discovery concluded on April 16, 2013 and dispositive motions were filed. The Company is unable to estimate a reasonably possible loss because there are significant legal issues to be determined and depending on the resolution of the legal issue, significant factual issues to be determined and resolved. The Company denies the Plaintiffs' allegations and intends to vigorously defend the lawsuit.

BJD, LLC and Barbara Dunning v. Enterprise Bank & Trust, et. al.

The Bank has also been named as a defendant in this case filed in the Circuit Court of St. Louis County, relating to BJD's investment in the Distinctive Notes. Plaintiffs allege that the Bank, and the other defendants breached their fiduciary duties and were negligent in allowing plaintiffs to invest in the Distinctive Notes because the loan program was allegedly never funded and the assets of the borrower did not exist or were overvalued. Plaintiffs are seeking approximately \$800,000 in damages, 9% interest, punitive damages, attorneys' fees and costs. Like Rosemann, this case was stayed while the Sigillito criminal case was pending. The court has now granted the Bank's motion to compel arbitration and stay proceedings. Arbitration proceedings are not yet underway. The Company is unable to estimate a reasonably possible loss because the proceedings are in early stages and there are significant factual issues to be determined and resolved. The Company denies Plaintiffs' allegations and intends to vigorously defend the lawsuit.

William Mark Scott v. Enterprise Financial Services Corp, et. al.

On April 10, 2012, a putative class action was filed in the United States District Court for the Eastern District of Missouri captioned William Mark Scott v. Enterprise Financial Services Corp, Peter F. Benoist, and Frank H. Sanfilippo. The complaint asserts claims for violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 on behalf of a putative class of purchasers of the Company's stock between April 20, 2010 and January 25, 2012, inclusive. The complaint alleges, among other things, that defendants made false and misleading statements and allegedly "failed to disclose that the Company was improperly recording income on loans covered under loss share agreements with the FDIC" and that, as a result, "the Company's financial statements were materially false and misleading at all relevant times." The action seeks unspecified damages and costs and expenses. On October 10, 2012, Plaintiff filed an amended complaint. The Company moved to dismiss the complaint on December 11, 2012. A hearing on the Company's motion to dismiss is currently set for early May 2013. The Company is unable to estimate a reasonably possible loss for the case because the proceeding is in an early stage and there are significant legal and factual issues to be determined and resolved. The Company denies plaintiffs' allegations and intends to vigorously defend the lawsuit.

NOTE 7 - DERIVATIVE FINANCIAL INSTRUMENTS

The Company is a party to various derivative financial instruments that are used in the normal course of business to meet the needs of its clients and as part of its risk management activities. These instruments include interest rate swaps and option contracts and foreign exchange forward contracts. The Company does not enter into derivative financial instruments for trading or speculative purposes.

Interest rate swap contracts involve the exchange of fixed and floating rate interest payment obligations without the exchange of the underlying principal amounts. The Company enters into interest rate swap contracts on behalf of its clients and also utilizes such contracts to reduce or eliminate the exposure to changes in the cash flows or fair value of hedged assets or liabilities due to changes in interest rates. Interest rate option contracts consist of caps and provide

20

for the transfer or reduction of interest rate risk in exchange for a fee. Foreign exchange forward contracts are agreements between two parties to exchange a specified amount of one currency for another currency at a specified foreign exchange rate on a future date. The Company enters into foreign exchange forward contracts with their clients and enters into an offsetting foreign exchange contract with established financial institution counterparties.

All derivative financial instruments, whether designated as hedges or not, are recorded on the consolidated balance sheet at fair value within Other assets or Other liabilities. The accounting for changes in the fair value of a derivative in the consolidated statement of operations depends on whether the contract has been designated as a hedge and qualifies for hedge accounting. At March 31, 2013, and December 31, 2012, the Company did not have any derivatives designated as cash flow or fair value hedges.

Using derivative instruments means assuming counterparty credit risk. Counterparty credit risk relates to the loss the Company could incur if a counterparty were to default on a derivative contract. Notional amounts of derivative financial instruments do not represent credit risk, and are not recorded in the consolidated balance sheet. They are used merely to express the volume of this activity. The overall credit risk and exposure to individual counterparties is monitored. The Company does not anticipate nonperformance by any counterparties. The amount of counterparty credit exposure is the unrealized gains, if any, on such derivative contracts along with the value of foreign exchange forward contracts. At March 31, 2013, the Company had \$1.6 million of counterparty credit exposure on derivatives. At March 31, 2013, and December 31, 2012, the Company had pledged cash of \$3.1 million and \$3.3 million, respectively, as collateral in connection with our interest rate swap agreements.

Risk Management Instruments. The Company enters into certain derivative contracts to economically hedge state tax credits and certain loans.

Economic hedge of state tax credits. In November 2008, the Company paid \$2.1 million to enter into a series of interest rate caps in order to economically hedge changes in fair value of the State tax credits held for sale. In February 2010, the Company paid \$751,000 for an additional series of interest rate caps. See Note 8—Fair Value Measurements for further discussion of the fair value of the state tax credits.

The table below summarizes the notional amounts and fair values of the derivative instruments used to manage risk.

(in thousands)	Notional Amount		Asset Derivatives (Other Assets)		Liability Derivatives (Other Liabilities)	
			Fair Value		Fair Value	
	March 31, 2013	December 31, 2012	March 31, 2013	December 31, 2012	March 31, 2013	December 31, 2012
Non-designated hedging instruments						
Interest rate cap contracts	\$34,050	\$49,050	\$12	\$13	\$—	\$—

The following table shows the location and amount of gains and losses related to derivatives used for risk management purposes that were recorded in the condensed consolidated statements of operations for the three months ended March 31, 2013 and 2012.

(in thousands)	Location of Gain or (Loss) Recognized in Operations on Derivative	Amount of Gain or (Loss) Recognized in Operations on Derivative	
		Three months ended March 31, 2013	2012
Non-designated hedging instruments			
Interest rate cap contracts	Gain on state tax credits, net	\$(1) \$(26

Client-Related Derivative Instruments. As an accommodation to certain customers, the Company enters into interest rate swaps to economically hedge changes in fair value of certain loans. The table below summarizes the notional amounts and fair values of the client-related derivative instruments.

(in thousands)	Notional Amount		Asset Derivatives (Other Assets)		Liability Derivatives (Other Liabilities)	
			Fair Value		Fair Value	
	March 31, 2013	December 31, 2012	March 31, 2013	December 31, 2012	March 31, 2013	December 31, 2012
Non-designated hedging instruments						
Interest rate swap contracts	\$121,143	\$126,962	\$1,610	\$1,741	\$1,721	\$1,979

Changes in the fair value of client-related derivative instruments are recognized currently in operations. The following table shows the location and amount of gains and losses recorded in the condensed consolidated statements of operations for the three months ended March 31, 2013 and 2012.

(in thousands)	Location of Gain or (Loss) Recognized in Operations on Derivative	Amount of Gain or (Loss) Recognized in Operations on Derivative	
		Three months ended March 31, 2013	2012
Non-designated hedging instruments			
Interest rate swap contracts	Interest and fees on loans	\$(105) \$(141

NOTE 8 - FAIR VALUE MEASUREMENTS

Below is a description of certain assets and liabilities measured at fair value.

The following table summarizes financial instruments measured at fair value on a recurring basis as of March 31, 2013, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

(in thousands)	March 31, 2013			Total Fair Value
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Assets				
Securities available for sale				
Obligations of U.S. Government-sponsored enterprises	\$—	\$133,547	\$—	\$133,547
Obligations of states and political subdivisions	—	48,856	3,051	51,907
Residential mortgage-backed securities	—	297,553	—	297,553
Total securities available for sale	\$—	\$479,956	\$3,051	\$483,007
Portfolio loans	—	9,794	—	9,794
State tax credits held for sale	—	—	20,053	20,053
Derivative financial instruments	—	1,622	—	1,622
Total assets	\$—	\$491,372	\$23,104	\$514,476
Liabilities				
Derivative financial instruments	\$—	\$1,721	\$—	\$1,721
Total liabilities	\$—	\$1,721	\$—	\$1,721

Securities available for sale. Securities classified as available for sale are reported at fair value utilizing Level 2 and Level 3 inputs. The Company obtains fair value measurements from an independent pricing service. Fair values for Level 2 securities are based upon dealer quotes, market spreads, the U.S. Treasury yield curve, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions at the security level. At March 31, 2013, Level 3 securities available for sale consist primarily of three Auction Rate Securities that are valued based on the securities' estimated cash flows, yields of comparable securities, and live trading levels.

Portfolio Loans. Certain fixed rate portfolio loans are accounted for as trading instruments and reported at fair value. Fair value on these loans is determined using a third party valuation model with observable Level 2 market data inputs.

State tax credits held for sale. At March 31, 2013, of the \$55.9 million of state tax credits held for sale on the condensed consolidated balance sheet, approximately \$20.0 million were carried at fair value. The remaining \$35.9 million of state tax credits were accounted for at cost.

The Company is not aware of an active market that exists for the 10-year streams of state tax credit financial instruments. However, the Company's principal market for these tax credits consists of Missouri state residents who buy these credits and from local and regional accounting firms who broker them. As such, the Company employed a discounted cash flow analysis (income approach) to determine the fair value.

The fair value measurement is calculated using an internal valuation model with observable market data including discounted cash flows based upon the terms and conditions of the tax credits. If the underlying project remains in compliance with the various federal and state rules governing the tax credit program, each project will generate about

10 years of tax credits. The inputs to the discounted cash flow calculation include: the amount of tax credits generated each year, the anticipated sale price of the tax credit, the timing of the sale

23

and a discount rate. The discount rate is estimated using the LIBOR swap curve at a point equal to the remaining life in years of credits plus a 205 basis point spread. With the exception of the discount rate, the other inputs to the fair value calculation are observable and readily available. The discount rate is considered a Level 3 input because it is an “unobservable input” and is based on the Company’s assumptions. An increase in the discount rate utilized would generally result in a lower estimated fair value of the tax credits. Alternatively, a decrease in the discount rate utilized would generally result in a higher estimated fair value of the tax credits. Given the significance of this input to the fair value calculation, the state tax credit assets are reported as Level 3 assets.

Derivatives. Derivatives are reported at fair value utilizing Level 2 inputs. The Company obtains counterparty quotations to value its interest rate swaps and caps. In addition, the Company validates the counterparty quotations with third party valuation sources. Derivatives with negative fair values are included in Other liabilities in the consolidated balance sheets. Derivatives with positive fair value are included in Other assets in the consolidated balance sheets.

Level 3 financial instruments

The following table presents the changes in Level 3 financial instruments measured at fair value on a recurring basis for the periods ended March 31, 2013 and 2012, respectively.

Purchases, sales, issuances and settlements, net. There were no Level 3 purchases during the quarter ended March 31, 2013 or 2012.

Transfers in and/or out of Level 3. The transfer out of Level 3 during the period ended March 31, 2012 was related to a mortgage-backed security purchased in the fourth quarter of 2011 which was originally priced using Level 3 assumptions. In the first quarter of 2012, a third party pricing service, utilizing Level 2 assumptions, became available as more data was available on the new security.

(in thousands)	Securities available for sale, at fair value	
	Three months ended March 31,	
	2013	2012
Beginning balance	\$3,049	\$6,763
Total gains (losses):		
Included in other comprehensive income	2	(3)
Purchases, sales, issuances and settlements:		
Purchases	—	—
Transfer in and/or out of Level 3	—	(3,736)
Ending balance	\$3,051	\$3,024
Change in unrealized gains relating to assets still held at the reporting date	\$2	\$(3)

(in thousands)	State tax credits held for sale	
	Three months ended March 31,	
	2013	2012
Beginning balance	\$23,020	\$26,350
Total gains:		
Included in earnings	156	171
Purchases, sales, issuances and settlements:		
Sales	(3,123)	(1,868)
Ending balance	\$20,053	\$24,653
Change in unrealized gains relating to assets still held at the reporting date	\$(674)	\$(283)

From time to time, the Company measures certain assets at fair value on a nonrecurring basis. These include assets that are measured at the lower of cost or fair value that were recognized at fair value below cost at the end of the period. The following table presents financial instruments and non-financial assets measured at fair value on a non-recurring basis as of March 31, 2013:

(in thousands)	(1) Total Fair Value	(1) Quoted Prices in Active Markets for Identical Assets (Level 1)	(1) Significant Other Observable Inputs (Level 2)	(1) Significant Unobservable Inputs (Level 3)	Total (losses) gains for the three months ended March 31, 2013
Impaired loans	\$7,654	\$—	\$—	\$7,654	\$(4,780)
Other real estate	4,699	—	—	4,699	(544)
Total	\$12,353	\$—	\$—	\$12,353	\$(5,324)

(1) The amounts represent only balances measured at fair value during the period and still held as of the reporting date.

Impaired loans are reported at the fair value of the underlying collateral or by determining the net present value of future cash flows. Fair values for collateral dependent impaired loans are obtained from current appraisals by qualified licensed appraisers or independent valuation specialists. Fair values of impaired loans that are not collateral dependent are determined by using a discounted cash flow model to determine the net present value of future cash flows. Other real estate owned is adjusted to fair value upon foreclosure of the loan collateral. Subsequently, foreclosed assets are carried at the lower of carrying value or fair value less costs to sell. Fair value of other real estate is based upon the current appraised values of the properties as determined by qualified licensed appraisers and the Company's judgment of other relevant market conditions.

Following is a summary of the carrying amounts and fair values of the Company's financial instruments on the consolidated balance sheets at March 31, 2013, and December 31, 2012.

(in thousands)	March 31, 2013		December 31, 2012	
	Carrying Amount	Estimated fair value	Carrying Amount	Estimated fair value
Balance sheet assets

Other borrowings	—	245,224	—	245,224

NOTE 9 - SEGMENT REPORTING

The Company has two primary operating segments, Banking and Wealth Management, which are delineated by the products and services that each segment offers. The segments are evaluated separately on their individual performance, as well as their contribution to the Company as a whole.

The Banking operating segment consists of a full-service commercial bank, with locations in St. Louis, Kansas City, and Phoenix. The majority of the Company’s assets and income result from the Banking segment. All banking locations have the same product and service offerings, have similar types and classes of customers and utilize similar service delivery methods. Pricing guidelines and operating policies for products and services are the same across all regions.

The Banking operating segment also includes activities surrounding the assets acquired under FDIC loss share agreements.

The Wealth Management segment includes the Trust division of the Bank and the state tax credit brokerage activities. The Trust division provides estate planning, investment management, and retirement planning as well as strategic

planning and management succession issues. State tax credits are part of a fee initiative designed to augment the Company's wealth management segment and banking lines of business.

The Company's Corporate and Intercompany activities represent the elimination of items between segments as well as Corporate related items that management feels are not allocable to either of the two respective segments.

The financial information for each business segment reflects that information which is specifically identifiable or which is allocated based on an internal allocation method. There were no material intersegment revenues among the two segments. Management periodically makes changes to methods of assigning costs and income to its business segments to better reflect operating results. When appropriate, these changes are reflected in prior year information presented below.

Following are the financial results for the Company's operating segments.

(in thousands)	Banking	Wealth Management	Corporate and Intercompany	Total

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Some of the information in this report contains "forward-looking statements" within the meaning of and are intended to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements typically are identified with use of terms such as "may," "might," "will," "should," "expect," "plan," "anticipate," "b," "estimate," "predict," "potential," "could," "continue" and the negative of these terms and similar words, although some forward-looking statements are expressed differently. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. You should be aware that our actual results could differ materially from those contained in the forward-looking statements due to a number of factors, including, but not limited to: credit risk; changes in the appraised valuation of real estate securing impaired loans; outcomes of litigation and other contingencies; exposure to general and local economic conditions; risks associated with rapid increases or decreases in prevailing interest rates; consolidation within the banking industry; competition from banks and other financial institutions; our ability to attract and retain relationship officers and other key personnel; burdens imposed by federal and state regulation; changes in regulatory requirements; changes in accounting regulation or standards applicable to banks; and other risks discussed under the caption "Risk Factors" of our most recently filed Form 10-K and within this Form 10-Q, all of which could cause the Company's actual results to differ from those set forth in the forward-looking statements.

Readers are cautioned not to place undue reliance on our forward-looking statements, which reflect management's analysis and expectations only as of the date of such statements. Forward-looking statements speak only as of the date they are made, and the Company does not intend, and undertakes no obligation, to publicly revise or update forward-looking statements after the date of this report, whether as a result of new information, future events or otherwise, except as required by federal securities law. You should understand that it is not possible to predict or identify all risk factors. Readers should carefully review all disclosures we file from time to time with the Securities and Exchange Commission which are available on our website at www.enterprisebank.com.

Introduction

The following discussion describes the significant changes to the financial condition of the Company that have occurred during the first three months of 2013 compared to the financial condition as of December 31, 2012. In addition, this discussion summarizes the significant factors affecting the results of operations, liquidity and cash flows of the Company for the three months ended March 31, 2013, compared to the same period in 2012. This discussion should be read in conjunction with the accompanying consolidated financial statements included in this report and our Annual Report on Form 10-K for the year ended December 31, 2012.

Executive Summary

The Company reported net income of \$10.0 million for the three months ended March 31, 2013, compared to net income of \$6.2 million for the same period in 2012. The Company diluted earnings per share of \$0.53, compared to \$0.31 for the prior year period.

Below are highlights of our Banking and Wealth Management segments. For more information on our segments, see Note 9 –Segment Reporting.

Banking Segment

Loans - Portfolio loans totaled \$2.3 billion at March 31, 2013, flat with December 31, 2012 and up \$81.9 million, or 4% from March 31, 2012. Loans covered under FDIC shared loss agreements ("Covered loans") were \$182.8 million at March 31, 2013, a decrease of \$18.3 million or 9% from December 31, 2012 and a decrease of \$86.4 million or

32% from March 31, 2012.

Portfolio loans excluding covered loans ("Noncovered loans") decreased \$20.2 million, or 1%, from December 31, 2012. Commercial & Industrial loans decreased \$13.7 million or 1% and Construction Real Estate loans decreased

29

\$4.7 million or 3%, while Residential Real Estate loans increased \$2.7 million or 2%. The nominal decrease in loans at March 31, 2013 compared to December 31, 2012 reflected a significant amount of loan fundings in late December of 2012. Average loans in the first quarter of 2013, increased \$88.2 million, or 4%, from average loans in the fourth quarter of 2012. Noncovered loans increased \$168.3 million or 9% from March 31, 2012. Commercial and Industrial loans increased \$157.1 million or 20% while Residential and Construction Real Estate loans declined \$1.8 million or 1%.

See Note 4 – Portfolio Loans Not Covered by Loss Share and Note 5 – Portfolio Loans Covered by Loss Share for more information.

Deposits – Total deposits at March 31, 2013 were \$2.5 billion, a decrease of \$164.1 million, or 6%, and \$209.4 million, or 8%, from December 31, 2012 and March 31, 2012, respectively. The decrease is mainly due to a decline in certificates of deposit as the Company continues to force a decline through lower cost pricing. Demand deposits decreased \$81.3 million or 12% from December 31, 2012 and increased \$13.4 million or 2% from March 31, 2012 while interest bearing transaction accounts decreased \$33.9 million or 2% from December 31, 2012 and \$34.0 million or 2% from March 31, 2012. The decrease in the demand and interest bearing deposits from December 31, 2012 is mainly due to seasonality and the expiration of the FDIC's Transaction Account Guarantee ("TAG") program.

Asset quality – Nonperforming loans were \$32.2 million at March 31, 2013, compared to \$38.7 million at December 31, 2012 and \$47.2 million at March 31, 2012. Nonperforming loans represented 1.54% of total Noncovered loans at March 31, 2013 versus 1.84% at December 31, 2012 and 2.46% at March 31, 2012. Excluding non-accrual loans and Covered loans, portfolio loans that were 30-89 days delinquent at March 31, 2013 remained at very low levels, representing 0.12% of the portfolio compared to 0.10% at December 31, 2012 and 0.62% at March 31, 2012.

Provision for loan losses not covered under FDIC loss share was \$1.9 million in the first quarter of 2013, compared to \$1.7 million in the first quarter of 2012. See Note 4 – Portfolio Loans Not Covered by Loss Share and Provision and Allowance for Loan Losses and Nonperforming Assets in this section for more information.

Interest rate margin – The net interest rate margin was 5.10% for the first quarter of 2013, compared to 5.39% for the fourth quarter of 2012 and 4.33% in the first quarter of 2012. See Net Interest Income in this section for more information.

Covered loans and other assets covered under FDIC shared loss agreements - The following table illustrates the net revenue contribution of covered assets for the most recent five quarters.

(in thousands)	For the Quarter ended				
	March 31, 2013	December 31, 2012	September 30, 2012	June 30, 2012	March 31, 2012
Accretion income	\$7,112	\$7,442	\$7,995	\$7,155	\$7,081
Accelerated cash flows	7,209	9,778	7,446	5,315	2,691
Other	324	419	103	106	130

Wealth Management Segment

Fee income from the Wealth Management segment includes Wealth Management revenue and income from state tax credit brokerage activities. Wealth Management revenue was \$1.9 million in the first quarter of 2013, an increase of \$168,000, or 9%, over the linked fourth quarter and an increase of \$234,000, or 14%, over the period ended March 31, 2012. See Noninterest Income in this section for more information.

Net Interest Income

Three months ended March 31, 2013 and 2012

Net interest income (on a tax equivalent basis) was \$37.4 million for the three months ended March 31, 2013 compared to \$31.0 million for the same period of 2012, an increase of \$6.5 million, or 21%. Total interest income increased \$4.9 million and total interest expense decreased \$1.6 million.

Average interest-earning assets increased \$98.8 million, or 3%, to \$3.0 billion for the quarter ended March 31, 2013 from \$2.9 billion for the quarter ended March 31, 2012. Average loans increased \$119.4 million, or 5%, to \$2.3 billion for the quarter ended March 31, 2013, from \$2.2 billion for the quarter ended March 31, 2012. Noncovered loans increased \$209.9 million while Covered loans decreased \$90.5 million. Average securities increased \$17.6 million or 3%, while short-term investments decreased \$38.3 million or 30% from the first quarter of 2012. Interest income on earning assets decreased \$1.3 million primarily due to lower volume on Covered loans and increased \$6.2 million primarily due to higher yields on Covered loans, for a net increase of \$4.9 million versus the first quarter of 2012.

For the quarter ended March 31, 2013, average interest-bearing liabilities decreased \$94.4 million, or 4%, to \$2.4 billion compared to \$2.5 billion for the quarter ended March 31, 2012. The decrease resulted from a \$230.1 million decrease in average interest-bearing deposits, partially offset by a \$135.7 million increase in borrowed funds from customer repurchase agreements. The decrease in average interest-bearing deposits is due to a \$213.6 million decrease in certificates of deposit, and a \$32.9 million decrease in average money market accounts and savings accounts, partially offset by an increase of \$16.4 million in interest-bearing transaction accounts. For the first quarter of 2013, interest expense on interest-bearing liabilities decreased \$1.2 million due to declining rates and \$355,000 due to the impact of lower volumes, for a total decrease of \$1.6 million versus the first quarter of 2012.

The tax-equivalent net interest rate margin was 5.10% for the first quarter of 2013, compared to 5.39% for the fourth quarter of 2012 and 4.33% in the first quarter of 2012. In the first quarter of 2013, Covered loans yielded 31.38% primarily due to cash flows on paid off loans that exceeded expectations.

Average Balance Sheet

The following table presents, for the periods indicated, certain information related to our average interest-earning assets and interest-bearing liabilities, as well as, the corresponding interest rates earned and paid, all on a tax equivalent basis.

(in thousands)	Three months ended March 31, 2013			2012

Net interest income	\$ 37,422			\$ 30,971		
Net interest spread		4.92	%		4.17	%
Net interest rate margin (4)		5.10			4.33	

(1) Average balances include non-accrual loans. The income on such loans is included in interest but is recognized only upon receipt. Loan fees, net of amortization of deferred loan origination fees and costs, included in interest income are approximately \$504,000 and \$319,000 for the three months ended March 31, 2013 and 2012, respectively.

Non-taxable income is presented on a fully tax-equivalent basis using a 39% tax rate in 2013 and 36% tax rate in (2)2012. The tax-equivalent adjustments were \$523,000 and \$342,000 for the three months ended March 31, 2013 and 2012, respectively.

(3) Covered loans are loans covered under FDIC shared-loss agreements.

(4) Net interest income divided by average total interest-earning assets.

Rate/Volume

The following table sets forth, on a tax-equivalent basis for the periods indicated, a summary of the changes in interest income and interest expense resulting from changes in yield/rates and volume.

(in thousands)	2013 compared to 2012		
	Three months ended March 31,		
	Increase (decrease) due to		Net
	Volume(1)	Rate(2)	
Interest earned on:

Certificates of deposit	(771) (70)) (841)
Subordinated debentures	—	(197)) (197)
Borrowed funds	458	(384)) 74
Total interest-bearing liabilities	(355) (1,220)) (1,575)
Net interest income	\$966) \$7,417) \$6,451

(1) Change in volume multiplied by yield/rate of prior period.

(2) Change in yield/rate multiplied by volume of prior period.

(3) Nontaxable income is presented on a fully tax-equivalent basis using the combined statutory federal and state income tax rate in effect for each year.

NOTE: The change in interest due to both rate and volume has been allocated to rate and volume changes in proportion to the relationship of the absolute dollar amounts of the change in each.

Provision and Allowance for Loan Losses

The provision for loan losses not covered under FDIC loss share was \$1.9 million in the first quarter of 2013 compared to \$1.7 million in the first quarter of 2012.

For Covered loans, the Company remeasures contractual and expected cash flows on a quarterly basis. When the remeasurement process results in a decrease in expected cash flows, typically due to an increase in expected credit

losses, impairment is recorded through provision for loan losses. The provision for loan losses on Covered loans was \$2.3 million in both the first quarter of 2013 and 2012.

Excluding the Covered loans, the allowance for loan losses was 1.56% of total loans at March 31, 2013, compared to 1.63% at December 31, 2012, and 1.96% at March 31, 2012. Management believes that the allowance for loan losses is adequate to absorb inherent losses in the loan portfolio.

Excluding the Covered loans, net charge-offs in the first quarter of 2013 were \$3.7 million, representing an annualized rate of 0.72% of average loans, compared to net charge-offs of \$2.1 million, an annualized rate of 0.45% of average loans, in the first quarter of 2012. Approximately 5% of the net charge-offs in the first quarter of 2013 were related to Construction and Land Development loans, 81% were related to Commercial Real Estate loans, 15% were related to Residential Real Estate Loans, 1% were related to Consumer and Other loans and there were 2% net recoveries in Commercial & Industrial loans.

The following table summarizes changes in the allowance for loan losses arising from loans charged off and recoveries on loans previously charged off, by loan category, and additions to the allowance charged to expense.

(in thousands)	Three months ended March 31,	
	2013	2012

Nonperforming assets to total assets (1)	1.26	2.06		
Allowance for loans not covered under FDIC loss share to nonperforming loans	101	% 80		%

(1) Excludes assets covered under FDIC shared-loss agreements, except for their inclusion in total assets.

Nonperforming loans

Nonperforming loans exclude Covered loans that are accounted for on a pool basis, as the pools are considered to be performing. See Note 5 – Portfolio Loans covered under loss share for more information on these loans.

Nonperforming loans, were \$32.2 million at March 31, 2013, a decrease from \$38.7 million at December 31, 2012, and \$47.2 million at March 31, 2012. The nonperforming loans are comprised of approximately 32 relationships with the largest being a \$4.7 million Commercial and Industrial loan. Five relationships comprise 51% of the nonperforming loans. Approximately 33% were located in the St. Louis market, 38% of the nonperforming loans were located in the Kansas City market, and 29% were located in the Arizona market. At March 31, 2013, there were no performing restructured loans that have been excluded from the nonperforming loan amounts.

Nonperforming loans represented 1.54% of Noncovered loans at March 31, 2013, versus 1.84% at December 31, 2012 and 2.46% at March 31, 2012.

Nonperforming loans based on Call Report codes were as follows:

(in thousands)	2013	2012	3rd Qtr	2nd Qtr	1st Qtr
	1st Qtr	4th Qtr			
Construction and Land Development	\$5,387	\$4,695	\$10,095	\$11,278	\$12,109

Moved to Other real estate	(225)	(4,874)	(4,488)	(1,059)	(3,816)
Moved to performing	(1,818)	(1,403)	—	(303)	—
Loans past due 90 days or more and still accruing interest	1,843	—	—	—	(755)
Nonperforming loans end of period	\$32,222	\$38,727	\$32,058	\$40,555	\$47,184

Other real estate

Other real estate at March 31, 2013, was \$24.8 million, compared to \$26.5 million at December 31, 2012, and \$45.4 million at March 31, 2012. Approximately 71% of total Other real estate, or \$17.6 million, is covered by FDIC loss share agreements.

The following table summarizes the changes in Other real estate.

(in thousands)	2013	2012	3rd Qtr	2nd Qtr	1st Qtr
	1st Qtr	4th Qtr			
Other real estate beginning of period	\$26,500	\$31,359	\$37,275	\$45,380	\$53,688
Additions and expenses capitalized to prepare property for sale	225	4,874	4,488	2,109	3,816
Additions from FDIC assisted transactions	3,369	1,811	1,830	4,234	3,322
Writedowns in value	(1,080)	(1,149)	(620)	(1,012)	(2,052)
Sales	(4,207)	(10,395)	(11,614)	(13,436)	(13,394)
Other real estate end of period	\$24,807	\$26,500	\$31,359	\$37,275	\$45,380

At March 31, 2013, Other real estate was comprised of 15% residential lots, 6% completed homes, and 79% commercial real estate. Of the total Other real estate, 54%, or 41 properties, are located in the Kansas City region, 15%, or 11 properties, are located in the St. Louis region and 31%, or 13 properties, are located in the Arizona region. All 13, or \$7.7 million of the Arizona Other real estate properties and 32, or \$9.9 million, of the Kansas City Other real estate are covered under FDIC loss share. None of the St. Louis region properties are covered under FDIC loss

share agreements.

37

The writedowns in fair value were recorded in Loan legal and other real estate expense or are charged-off existing loan balances based on current market activity shown in the appraisals. In addition, for the three months ended March 31, 2013, the Company realized a net gain of \$728,000 on the sale of other real estate and recorded these gains as part of Noninterest income.

Noninterest Income

Noninterest income decreased \$1.1 million, or 27%, in the first quarter of 2013 compared to the first quarter of 2012. The decrease is primarily due to decreases in income related to changes in the FDIC Receivable and lower gains on the sale of other real estate partially offset by higher gains on the sale of state tax credits.

Wealth Management revenue – For the quarter ended March 31, 2013, Wealth Management revenue from the Trust division increased \$234,000, or 14%, compared to the same period in 2012. The increase is due to increased life insurance product sales, as well as steady growth in client asset and fee revenue categories. Assets under administration were \$1.9 billion at March 31, 2013, a 13% increase from March 31, 2012, due primarily to general market appreciation.

Service charges and other fee income – For the quarter ended March 31, 2013, service charges and other fee income increased \$256,000 compared to the same period in 2012, primarily due to increased revenue from service charges on business accounts.

Sale of Other real estate – For the quarter ended March 31, 2013, we sold \$4.2 million of Other real estate for a gain of \$728,000 which included a gain of \$39,000 from Other real estate not covered by loss share agreements and a gain of \$689,000 from Other real estate covered by loss share agreements. For the same period in 2012, we sold \$13.4 million of Other real estate for a net gain of \$1.2 million.

State tax credit brokerage activities – For the quarter ended March 31, 2013, the Company recorded a gain of \$867,000 compared to a gain of \$337,000 in the first quarter of 2012. The increase is due to higher sales volume of client purchases of the state tax credits, partially offset by mark-to-market adjustments on those tax credits held at fair value. For more information on the fair value treatment of the state tax credits, see Note 8 – Fair Value Measurements.

- Sale of investment securities – During the first three months of 2013, the Company realized approximately \$122.9 million of proceeds on the sale of investment securities, generating a net gain of \$684,000.

Change in FDIC loss share receivable – Income related to changes in the FDIC loss share receivable decreased \$1.1 million during the first quarter of 2013 compared to the same period in 2012. The decrease in income related to the FDIC loss share receivable was primarily due to higher loan pay-offs in which the losses on the loans were less than expected. During the first quarter of 2013 the change in FDIC loss share receivable was comprised of \$3.0 million of negative accretion from accelerated cash flows, \$1.8 million of income related to provision for loan losses on Covered loans, and \$2.9 million of negative base accretion. During the first quarter of 2012 the change in FDIC loss share receivable was comprised of \$712,000 of negative accretion from accelerated cash flows, \$1.9 million of income related to the provision for loan losses on Covered loans, and \$4.2 million of negative base accretion.

Noninterest Expense

Noninterest expenses were \$20.5 million in the first quarter of 2013, a decrease of \$847,000, or 4%, from the same quarter of 2012. The decrease over the prior year period was primarily due to a decrease in loan related legal expense and other real estate expenses of \$2.0 million, including approximately \$1.2 million of reduction related to the timing of reimbursements under FDIC loss share arrangements. This decrease was partially offset by an increase of \$1.0

million in salaries and benefits costs related to higher expense for long-term incentive plans, the accrual of higher variable compensation expense, and higher other employee benefits expenses.

The Company's efficiency ratio, which measures noninterest expense as a percentage of total revenue, was 51.5% for the quarter ended March 31, 2013 compared to 61.7% for the prior year period. The improvements in the efficiency ratio compared to the linked quarter and prior year period were primarily due to increased revenue from assets under FDIC loss share agreements, as well as reduced noninterest expenses during the current period.

Income Taxes

For the quarter ended March 31, 2013, the Company's income tax expense, which includes both federal and state taxes, was \$5.1 million compared to \$3.1 million for the same period in 2012. The combined federal and state effective income tax rates were relatively consistent at 33.9% and 33.1% for the quarters ended March 31, 2013, and 2012, respectively.

Liquidity and Capital Resources

Liquidity management

The objective of liquidity management is to ensure we have the ability to generate sufficient cash or cash equivalents in a timely and cost-effective manner to meet our commitments as they become due. Typical demands on liquidity are run-off from demand deposits, maturing time deposits which are not renewed, and fundings under credit commitments to customers. Funds are available from a number of sources, such as from the core deposit base and from loans and securities repayments and maturities.

Additionally, liquidity is provided from sales of the securities portfolio, fed fund lines with correspondent banks, the Federal Reserve and the FHLB, the ability to acquire large and brokered deposits, and the ability to sell loan participations to other banks. These alternatives are an important part of our liquidity plan and provide flexibility and efficient execution of the asset-liability management strategy.

Our Asset-Liability Management Committee oversees our liquidity position, the parameters of which are approved by the Bank's Board of Directors. Our liquidity position is monitored monthly by producing a liquidity report, which measures the amount of liquid versus non-liquid assets and liabilities. Our liquidity management framework includes measurement of several key elements, such as the loan to deposit ratio, a liquidity ratio, and a dependency ratio. The Company's liquidity framework also incorporates contingency planning to assess the nature and volatility of funding sources and to determine alternatives to these sources. While core deposits and loan and investment repayments are principal sources of liquidity, funding diversification is another key element of liquidity management and is achieved by strategically varying depositor types, terms, funding markets, and instruments.

Parent Company liquidity

The parent company's liquidity is managed to provide the funds necessary to pay dividends to shareholders, service debt, invest in subsidiaries as necessary, and satisfy other operating requirements. The parent company's primary funding sources to meet its liquidity requirements are dividends and payments from the Bank and proceeds from the issuance of equity (i.e. stock option exercises, stock offerings). Another source of funding for the parent company includes the issuance of subordinated debentures. Management believes our current level of cash at the holding company of approximately \$9.5 million will be sufficient to meet all projected cash needs for at least the next year.

On September 16, 2011, the Company filed a shelf registration statement on Form S-3 registering up to \$40.0 million of common stock, preferred stock, debt securities, and various other securities, including combinations of such securities. The registration statement became effective on September 29, 2011. The Company's ability to offer securities pursuant to the registration statement depends on market conditions and the Company's continuing eligibility to use the Form S-3 under rules of the Securities and Exchange Commission.

On November 6, 2012, the parent company entered into a \$12.0 million unsecured term loan agreement ("Term Loan") with another bank with proceeds used to redeem the Company's preferred stock held by the U.S. Treasury. The loan has a maturity date of November 6, 2015 and will be repaid in quarterly installments of \$300,000, with a balloon payment at maturity. The outstanding balance under the Term Loan was \$11.4 million and \$11.7 million at March 31, 2013, and December 31, 2012, respectively. The Term Loan pays interest based on LIBOR plus a spread determined by the Company's outstanding balance under the Term Loan agreement. The Term Loan is subject to ongoing compliance with a number of customary affirmative and negative covenants as well as specified financial covenants. The Company was in compliance with all relevant covenants under the Term Loan at March 31, 2013.

As of March 31, 2013, the Company had \$82.6 million of outstanding subordinated debentures as part of nine Trust Preferred Securities Pools. These securities are classified as debt but are currently included in regulatory capital and the related interest expense is tax-deductible, which makes them a very attractive source of funding. Regulations recently proposed by the Federal Reserve to implement the Basel III Accord would phase out the Tier I capital status of trust preferred securities by 2022. The Company continues to monitor the implementation of these rules and their possible effects on regulatory capital requirements.

On January 9, 2013, the Company repurchased warrants issued by the U.S. Treasury as part of the Capital Purchase Program. The repurchase price was approximately \$1.0 million.

Bank liquidity

The Bank has a variety of funding sources available to increase financial flexibility. In addition to amounts currently borrowed, at March 31, 2013, the Bank could borrow an additional \$186.9 million from the FHLB of Des Moines under blanket loan pledges and has an additional \$710.7 million available from the Federal Reserve Bank under a pledged loan agreement. The Bank has unsecured federal funds lines with four correspondent banks totaling \$45.0 million.

Of the \$483.0 million of the securities available for sale at March 31, 2013, \$317.8 million was pledged as collateral for deposits of public institutions, treasury, loan notes, and other requirements. The remaining \$165.2 million could be pledged or sold to enhance liquidity, if necessary.

The Bank belongs to the Certificate of Deposit Account Registry Service, or CDARS, which allows us to provide our customers with access to additional levels of FDIC insurance coverage on their deposits. The Company considers the reciprocal deposits placed through the CDARS program as core funding and does not report the balances as brokered sources in its internal or external financial reports. As of March 31, 2013, the Bank had \$76.3 million of reciprocal CDARS money market sweep balances and \$3.7 million of reciprocal certificates of deposits outstanding. In addition to the reciprocal deposits available through CDARS, the Company has access to the "one-way buy" program, which allows the Company to bid on the excess deposits of other CDARS member banks. The Company will report any outstanding "one-way buy" funds as brokered funds in its internal and external financial reports. At March 31, 2013, we had no outstanding "one-way buy" deposits.

In addition, the Bank has the ability to sell certificates of deposit through various national or regional brokerage firms, if needed.

In the normal course of business, the Bank enters into certain forms of off-balance sheet transactions, including unfunded loan commitments and letters of credit. These transactions are managed through the Bank's various risk management processes. Management considers both on-balance sheet and off-balance sheet transactions in its evaluation of the Company's liquidity. The Bank has \$787.9 million in unused commitments as of March 31, 2013. The nature of these commitments is such that the likelihood of funding them in the aggregate at any one time is low.

Capital Resources

The Company and the Bank are subject to various regulatory capital requirements administered by the Federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possible additional

40

discretionary actions by regulators that, if undertaken, could have a direct material effect on the financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and its bank affiliate must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The banking affiliate's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the following table) of total and Tier 1 capital to risk-weighted assets, and of Tier 1 capital to average assets. To be categorized as "well capitalized", banks must maintain minimum total risk-based (10%), Tier 1 risk-based (6%) and Tier 1 leverage ratios (5%). As of March 31, 2013, and December 31, 2012, the Company and the Bank met all capital adequacy requirements to which they are subject.

The Company continues to exceed regulatory standards and met the definition of "well-capitalized" (the highest category) at March 31, 2013, and December 31, 2012.

The following table summarizes the Company's various capital ratios at the dates indicated:

(Dollars in thousands)	March 31, 2013		December 31, 2012	
Tier 1 capital to risk weighted assets	11.61	%	10.88	%
Total capital to risk weighted assets	12.98	%	12.30	%
Tier 1 common equity to risk weighted assets	8.30	%	7.70	%
Leverage ratio (Tier 1 capital to average assets)	8.83	%	8.36	%
Tangible common equity to tangible assets	6.69	%	6.02	%
Tier 1 capital	\$281,001		\$268,870	
Total risk-based capital	\$313,938		\$303,951	

The Company believes the tangible common equity and Tier 1 common equity ratios are important financial measures of capital strength even though they are considered to be non-GAAP measures. The tables below contain reconciliations of these ratios to U.S. GAAP.

Tangible common equity ratio

(In thousands)	March 31, 2013		December 31, 2012	
Total shareholders' equity	\$243,704		\$235,745	
Less: Goodwill	(30,334)	(30,334)
Less: Intangible assets	(6,973)	(7,406)
Tangible common equity	\$206,397		\$198,005	
Total assets	\$3,123,928		\$3,325,786	
Less: Goodwill	(30,334)	(30,334)
Less: Intangible assets	(6,973)	(7,406)
Tangible assets	\$3,086,621		\$3,288,046	
Tangible common equity to tangible assets	6.69	%	6.02	%

Tier 1 common equity ratio

(In thousands)	March 31, 2013		December 31, 2012	
Total shareholders' equity	\$243,704		\$235,745	
Less: Goodwill	(30,334)	(30,334)
Less: Intangible assets	(6,973)	(7,406)
Less: Unrealized gains	(5,551)	(7,790)
Plus: Qualifying trust preferred securities	80,100		78,600	
Other	55		55	
Tier 1 capital	\$281,001		\$268,870	
Less: Preferred stock	—		—	
Less: Qualifying trust preferred securities	(80,100)	(78,600)
Tier 1 common equity	\$200,901		\$190,270	
Total risk weighted assets determined in accordance with prescribed regulatory requirements	2,419,432		2,471,668	
Tier 1 common equity to risk weighted assets	8.30		% 7.70	%

Critical Accounting Policies

The impact and any associated risks related to the Company's critical accounting policies on business operations are discussed throughout "Management's Discussion and Analysis of Financial Condition and Results of Operations," where such policies affect our reported and expected financial results. For a detailed discussion on the application of these and other accounting policies, see the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

New Accounting Standards

FASB ASU 2011-11, "Disclosures about Offsetting Assets and Liabilities" In December 2011, the FASB issued ASU 2011-11 which requires entities with financial instruments and derivatives that are either offset on the balance sheet or subject to a master netting or similar arrangement to disclose the following information separately for assets and liabilities in a tabular format:

Ⓒ Gross amounts of recognized assets and liabilities

Ⓒ Offsetting amounts that determine the net amount presented in the balance sheet

- Amounts subject to an enforceable master netting arrangement that were not already included in the disclosure required above, including

- Amounts related to recognized financial instruments and other derivative instruments if either (a) management makes an accounting election not to offset the amounts, or (b) the amounts do not meet the right of setoff conditions in ASC 210-30-45, Balance Sheet: Offsetting, or in ASC 815-10-45, Derivatives and Hedging

Amounts related to financial collateral

Ⓒ Net amounts after deducting the amounts in (4) from the amounts in (3) above

In addition to the tabular disclosure described above, entities are required to provide a description of the setoff rights associated with assets and liabilities subject to an enforceable master netting arrangement. This ASU was effective for the years beginning on or after January 1, 2013, and interim periods within those annual periods. The guidance must be applied retrospectively for any period presented that begins before an entity's date of initial application. This ASU did not have a material impact on the Company's consolidated financial statements as it does not have any material assets or liabilities that are offset as discussed in the standard.

FASB ASU 2012-06, "Subsequent Accounting for an Indemnification Asset Recognized at the Acquisition Date as a Result of a Government-Assisted Acquisition of a Financial Institution" In October 2012, the FASB issued ASU 2012-06, which addresses diversity in practice regarding the subsequent measurement of an indemnification asset in a government-assisted acquisition of a financial institution that includes a loss-sharing agreement. The amendments are effective for interim and annual reporting periods beginning on or after December 15, 2012 with early adoption permitted. The adoption of this accounting pronouncement had no impact on the Company's financial statements as the Company was already accounting for the indemnification asset in accordance with such principles.

FASB ASU 2013-01, "Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities" On January 31, 2013, the FASB issued ASU 2013-01 which provides scope clarifications related to the previously issued ASU 2011-11. These ASU's provide new requirements for disclosures about instruments and transactions eligible for offset in the statement of financial position, as well as instruments and transactions subject to an agreement similar to a master netting arrangement. The amendments in these updates are effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. This ASU did not have a material impact on the Company's consolidated financial statements as it does not have any material assets or liabilities that are offset as discussed in the standard.

FASB ASU 2013-02, "Comprehensive Income (Topic 220)" In February 2013, the FASB issued ASU 2013-02 requiring new disclosures about reclassifications from accumulated other comprehensive loss to net income. These disclosures may be presented on the face of the statements or in the notes to the consolidated financial statements.

This ASU is effective for fiscal years beginning after December 15, 2012. This ASU did not have a material impact on the consolidated financial statements. We have adopted this ASU and revised our disclosures, as seen in the Statement of Comprehensive Income and in Note 1 - Summary of Significant Accounting Policies.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The disclosures set forth in this item are qualified by the section captioned “Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995” included in Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations of this report and other cautionary statements set forth elsewhere in this report.

Market risk arises from exposure to changes in interest rates and other relevant market rate or price risk. The Company faces market risk in the form of interest rate risk through transactions other than trading activities. Market risk from these activities, in the form of interest rate risk, is measured and managed through a number of methods. The Company uses financial modeling techniques to measure interest rate risk. These techniques measure the sensitivity of future earnings due to changing interest rate environments. Guidelines established by the Bank’s Asset/Liability Management Committee and approved by the Bank’s Board of Directors are used to monitor exposure of earnings at risk. General interest rate movements are used to develop sensitivity as the Company feels it has no primary exposure to a specific point on the yield curve. These limits are based on the Company’s exposure to a 100 to 400 basis point parallel rate shock through the use of simulation modeling.

Interest rate simulations for March 31, 2013, demonstrate that a rising rate environment will have a positive impact on net interest income.

The following table represents the Company's estimated interest rate sensitivity and periodic and cumulative gap positions calculated as of March 31, 2013.

(in thousands)	Year 1	Year 2	Year 3	Year 4	Year 5	Beyond 5 years or no stated maturity	Total
Interest-Earning Assets							
Securities available for sale	\$61,539	\$44,688	\$40,298	\$108,353	\$77,848	\$150,281	\$483,007
Other investments	—	—	—	—	—	14,405	14,405
Interest-bearing deposits	87,398	—	—	—	—	—	87,398
Federal funds sold	32	—	—	—	—	—	32
Portfolio loans (1)	1,684,437	218,297	175,258	82,237	83,893	24,572	2,268,694
Loans held for sale	5,138	—	—	—	—	—	5,138
Total interest-earning assets	\$1,838,544	\$262,985	\$215,556	\$190,590	\$161,741	\$189,258	\$2,858,674
Interest-Bearing Liabilities							
Savings, NOW and Money market deposits	\$1,358,391	\$—	\$—	\$—	\$—	\$—	\$1,358,391
Certificates of deposit	303,951	61,862	121,845	40,640	2,396	158	530,852
Subordinated debentures	85,081	—	—	—	—	—	85,081
Other borrowings	190,169	3,810	21,400	—	70,000	—	285,379
Total interest-bearing liabilities	\$1,937,592	\$65,672	\$143,245	\$40,640	\$72,396	\$158	\$2,259,703
Interest-sensitivity GAP							
GAP by period	\$(99,048)	\$197,313	\$72,311	\$149,950	\$89,345	\$189,100	\$598,971
Cumulative GAP	\$(99,048)	\$98,265	\$170,576	\$320,526	\$409,871	\$598,971	\$598,971
Ratio of interest-earning assets to interest-bearing liabilities							
Periodic	0.95	4.00	1.50	4.69	2.23	1,197.84	1.27
Cumulative GAP as of March 31, 2013	0.95	1.05	1.08	1.15	1.18	1.27	1.27

(1) Adjusted for the impact of the interest rate swaps.

ITEM 4: CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of the Company's Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), management has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15, as of March 31, 2013. Disclosure controls and procedures include without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar

functions, as appropriate to allow timely decisions regarding required disclosure.

Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of March 31, 2013 to provide reasonable assurance of the achievement of the objectives described above.

Changes to Internal Controls

There were no changes during the period covered by this Quarterly Report on Form 10-Q in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, those controls.

PART II – OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

The following information supplements the discussion in Part I, Item 3 “Legal Proceedings” in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012, and as updated by the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2013:

Distinctive Notes

The Bank, along with other co-defendants has been named as a defendant in two lawsuits filed by persons alleging to be clients of the Bank’s Trust division who invested in promissory notes (the "Distinctive Notes") issued by Distinctive Properties (UK) Limited (“Distinctive Properties”), a company involved in the purchase and development of real estate in the United Kingdom.

Rosemann, et al. v. Martin Sigillito, et al.

In one of the lawsuits filed in United States District Court for the Eastern District of Missouri, the plaintiffs allege that the investments in the Distinctive Notes were part of a multi-million dollar Ponzi scheme. Plaintiffs allege to hold such promissory notes in accounts with the Trust division and that, among other things, the Bank was negligent and breached its contracts. Plaintiffs also allege that the Bank violated the Racketeer Influenced and Corrupt Organizations Act (“RICO”). Plaintiffs, in the aggregate, are seeking damages from defendants, including the Bank, in excess of \$44.0 million as well as their costs and attorneys’ fees and trebled damages under RICO.

The case was stayed while criminal proceedings against Sigillito were completed. After a four week trial, Sigillito was found guilty of 20 counts of wire fraud, mail fraud, conspiracy, and money laundering. Following the verdict, the judge lifted the stay and set the case for a four week jury trial starting August 26, 2013. Discovery concluded on April 16, 2013 and dispositive motions were filed. The Company is unable to estimate a reasonably possible loss because there are significant legal issues to be determined and depending on the resolution of the legal issues, significant factual issues to be determined and resolved. The Company denies Plaintiffs' allegation and intends to vigorously defend the lawsuit.

BJD, LLC and Barbara Dunning v. Enterprise Bank & Trust, et. al.

The Bank has also been named as a defendant in this case filed in the Circuit Court of St. Louis County, relating to BJD’s investment in the Distinctive Notes. Plaintiffs allege that the Bank, and the other defendants breached their fiduciary duties and were negligent in allowing plaintiffs to invest in the Distinctive Notes because the loan program was allegedly never funded and the assets of the borrower did not exist or were overvalued. Plaintiffs are seeking approximately \$800,000 in damages, 9% interest, punitive damages, attorneys’ fees and costs. Like Rosemann, this case was stayed while the Sigillito criminal case was pending. The court has now granted the Bank's motion to compel arbitration and stay proceedings. Arbitration proceedings are not yet underway. The Company is unable to estimate a reasonably possible loss because the proceedings are in early stages and there are significant factual issues to be determined and resolved. The Company denies Plaintiffs' allegations and intends to vigorously defend the lawsuit.

William Mark Scott v. Enterprise Financial Services Corp, et. al.

On April 10, 2012, a putative class action was filed in the United States District Court for the Eastern District of Missouri captioned William Mark Scott v. Enterprise Financial Services Corp, Peter F. Benoist, and Frank H. Sanfilippo. The complaint asserts claims for violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 on behalf of a putative class of purchasers of the Company's stock between April 20, 2010 and January 25, 2012, inclusive. The

46

complaint alleges, among other things, that defendants made false and misleading statements and allegedly "failed to disclose that the Company was improperly recording income on loans covered under loss share agreements with the FDIC" and that, as a result, "the Company's financial statements were materially false and misleading at all relevant times." The action seeks unspecified damages and costs and expenses. On October 10, 2012, Plaintiff filed an amended complaint. The Company moved to dismiss the complaint on December 11, 2012. A hearing on the Company's motion to dismiss is currently set for early May 2013. The Company is unable to estimate a reasonably possible loss for the case because the proceeding is in an early stage and there are significant legal and factual issues to be determined and resolved. The Company denies plaintiffs' allegations and intends to vigorously defend the lawsuit.

ITEM 1A: RISK FACTORS

For information regarding risk factors affecting the Company, please see the cautionary language regarding forward-looking statements in the introduction to Item 2 of Part I of this Report on Form 10-Q, and Part I - Item 1A of our Report on Form 10-K for the fiscal year ended December 31, 2012.

ITEM 6: EXHIBITS

Exhibit Number	Description
	Registrant hereby agrees to furnish to the Commission, upon request, the instruments defining the rights of holders of each issue of long-term debt of Registrant and its consolidated subsidiaries.
*10.1	Key Executive Employment Agreement dated effective as of September 24, 2008, by and between Registrant and Peter F. Benoist (incorporated herein by reference to Exhibit 10.1 to Registrant's Current Report on Form 8-K filed on September 30, 2008), and amended by that First Amendment of Executive Employment Agreement dated as of December 19, 2002 (incorporated herein by reference to Exhibit 99.3 to Registrant's Current Report on Form 8-K filed on December 23, 2008), and amended by that Second Amendment of Executive Employment Agreement dated as of March 25, 2013 (incorporated herein by reference to Exhibit 10.1 to Registrant's Current Report on Form 8-K filed on March 26, 2013).
*12.1	Computation of Ratio of Earnings to Fixed Charges and Preferred Dividends
*31.1	Chief Executive Officer's Certification required by Rule 13(a)-14(a).
*31.2	Chief Financial Officer's Certification required by Rule 13(a)-14(a).
**32.1	Chief Executive Officer Certification pursuant to 18 U.S.C. § 1350, as adopted pursuant to section § 906 of the Sarbanes-Oxley Act of 2002.
**32.2	Chief Financial Officer Certification pursuant to 18 U.S.C. § 1350, as adopted pursuant to section § 906 of the Sarbanes-Oxley Act of 2002.
***101	Pursuant to Rule 405 of Regulation S-T, the following financial information from the Company's Quarterly Report on Form 10-Q for the period ended March 31, 2013, is formatted in XBRL interactive data files: (i) Consolidated Balance Sheet at March 31, 2013 and December 31, 2012; (ii) Consolidated Statement of Income for the three months ended March 31, 2013 and 2012; (iii) Consolidated Statement of

Edgar Filing: ENTERPRISE FINANCIAL SERVICES CORP - Form 10-Q

Comprehensive Income for the three months ended March 31, 2013 and 2012; (iv) Consolidated Statement of Changes in Equity for the three months ended March 31, 2013 and 2012; (v) Consolidated Statement of Cash Flows for the three months ended March 31, 2013 and 2012; and (vi) Notes to Financial Statements.

* Filed herewith

47

** Furnished herewith. Notwithstanding any incorporation of this Quarterly Statement on Form 10-Q in any other filing by the Registrant, Exhibits furnished herewith and designated with two (**) shall not be deemed incorporated by reference to any other filing unless specifically otherwise set forth herein or therein.

***As provided in Rule 406T of Regulation S-T, this information is furnished and not filed for purposes of Sections 11 and 12 of the Securities Act of 1933 and Section 18 of the Securities Exchange Act of 1934.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Clayton, State of Missouri on the day of May 3, 2013.
