NOTES TO FINANCIAL STATEMENTS  
December 31, 2005

**NOTE 1 - Description of the Plan (cont.)**

*Payment of Benefits*

Upon retirement or termination of employment, the participant's vested account balance is payable to him or her, or in the event of death, the participant's beneficiary. Participants may be eligible for a hardship withdrawal from their pretax participant account under certain circumstances and with the Plan Administrator's approval.

**NOTE 2 - Summary of Significant Accounting Policies**

*Basis of Presentation*

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for plan benefits and changes in those assets in accordance with accounting principles generally accepted in the United States of America.

*Trust Fund Managed by New York Life Trust Company*

Under the terms of a trust agreement between the New York Life Trust Company (the Trustee) and the Plan, the Trustee manages the Master Trust on behalf of the Plan:

*Valuation of Investments and Income Recognition*

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust (based on the fair value of the respective investments, as described in the following paragraph) plus actual contributions and allocated investment income, including unrealized gains and losses, less actual distributions, and allocated administrative expenses.

Investments in shares of mutual funds are stated at quoted net asset values. Investments in shares of Spectrum Brands common stock are stated at quoted market prices.

Purchases and sales of securities are reflected on a trade-date basis. The Plan reports realized and unrealized gains and losses for financial statement purposes based on revalued cost wherein cost is determined to be fair value at the end of the prior plan year, or historical cost if the investment was acquired since the beginning of the plan year, as required by the Department of Labor.

The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

*Benefits paid*

Benefits paid to participants are recorded upon distribution.

**Rayovac 401(k) Savings Plan for Hourly Employees**

NOTES TO FINANCIAL STATEMENTS  
December 31, 2005

**NOTE 2 - Summary of Significant Accounting Policies (cont.)**

*Administrative Expenses*

Expenses incurred in the administration of the Plan are paid both by the Plan and by the Company. Administrative expenses for 2005 were approximately \$6,100. The fees paid by the Company for 2005 were approximately \$3,300. The fees paid by the Plan for 2005, which consist of management fees, were approximately \$2,800.

*Use of Estimates*

The Plan Administrator has made a number of estimates and assumptions relating to the reporting of net assets available for plan benefits and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

*Participant Loans*

Participants represented by Local Union 1329 and Badger Lodge 1406 may receive loans from their accounts up to the lesser of 50% of the individual participant's vested account balance or \$50,000. If the participant has received a loan in the past, however, the \$50,000 limit is reduced by the highest outstanding loan balance during the preceding 12-month period. Loan terms must not exceed five years, except in the case of loans used for purchase of a primary residence, in which case the loan period must not exceed ten years. Loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 150 basis points. Principal and interest payments are due on a quarterly basis or more often and are reinvested in the investment option(s) selected by the participant.

**NOTE 3 - Party-in-interest Transactions**

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan for participants as party-in-interest transactions.

Fees incurred by the Plan for investment management services amounted to approximately \$2,800 for the year ended December 31, 2005.

Fees paid during the year for legal, accounting, actuarial, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

**NOTE 4 - Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated March 19, 2002, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in accordance with the applicable requirements of the Internal Revenue Code and, therefore, the plan continues to qualify under Section 401(k) and the related trust continues to be tax-exempt as of December 31, 2005. Therefore, no provision for income taxes is included in the Plan's financial statements.

**Rayovac 401(k) Savings Plan for Hourly Employees**NOTES TO FINANCIAL STATEMENTS  
December 31, 2005**NOTE 5 - Plan Termination**

The Company has the right under the Plan agreement to reduce or cease contributions at the discretion of the Board of Directors, or to amend the Plan at any time and in any respect. However, no such action may deprive any participant or beneficiary under the Plan of any vested right. In the event the Plan is wholly or partially terminated, or upon the complete discontinuance of contributions under the Plan by any entity that is a part of the Company, each participant's interest in their account shall be nonforfeitable on the date of such termination or discontinuance.

**NOTE 6 - Master Trust for Spectrum Brands**

**(2) Summary of Significant Accounting Policies**

**(a) Basis of Presentation**

The accompanying financial statements have been prepared on the accrual basis and present the assets available for plan benefits and changes in those assets in accordance with accounting principles generally accepted in the United States of America.

**(b) Trust Fund Managed by New York Life Trust Company**

Under the terms of a trust agreement between the New York Life Trust Company (the Trustee) and the Plan, the Trustee manages the Master Trust on behalf of the Plan.

**(c) Valuation of Investments and Income Recognition**

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust (based on the fair value of the respective investments, as described in the following paragraph) plus actual contributions and allocated investment income, including unrealized gains and losses, less actual distributions, and allocated administrative expenses.

Investments in shares of mutual funds are stated at quoted net asset values. Investments in shares of Rayovac Corporation common stock are stated at quoted market prices.

Purchases and sales of securities are reflected on a trade-date basis. The Plan reports realized and unrealized gains and losses for financial statement purposes based on revalued cost wherein cost is determined to be fair value at the end of the prior plan year, or historical cost if the investment was acquired since the beginning of the plan year, as required by the Department of Labor.

The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of assets available for plan benefits and the statement of changes in assets available for plan benefits.

**(d) Benefits Paid**

Benefits paid to participants are recorded upon distribution.

**(e) Administrative Expenses**

Expenses incurred in the administration of the Plan are paid both by the Plan and by the Company. Administrative expenses for 2004 were approximately \$8,000. The fees paid by the Company for 2004 were approximately \$5,000. The fees paid by the Plan for 2004, which consist of management fees, were approximately \$3,000 in 2004 (See Note 4).

**(f) Use of Estimates**

The Plan Administrator has made a number of estimates and assumptions relating to the reporting of assets available for plan benefits and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of changes in assets available for plan benefits during the reporting period to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

**(g) Participant Loans**

Participants represented by Local Union 1329 and Badger Lodge 1406 may receive loans from their accounts up to the lesser of 50% of the individual participant's vested account balance or \$50,000. If the participant has received a loan in the past, however, the \$50,000 limit is reduced by the highest outstanding loan balance during the preceding 12-month period. Loan terms must not exceed five years, except in the case of loans used for purchase of a primary residence, in which case the loan period must not exceed ten years. Loans are secured by the vested balance in the participant's account and bear interest at the Prime Rate plus 150 basis points. Principal and interest payments are due on a quarterly basis or more often and are reinvested in the investment option(s) selected by the participant.

**(3) Federal Income Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated March 19, 2002, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, the plan continues to qualify under Section 401(k) and the related trust continues to be tax-exempt as of December 31, 2004. Therefore, no provision for income taxes is included in the Plan's financial statements.

**(4) Party-in-interest Transactions**

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan for participants as party-in-interest transactions.

**(5) Plan Termination**

The Company has the right under the Plan agreement to reduce or cease contributions at the discretion of the Board of Directors, or to amend the Plan at any time and in any respect. However, no such action may deprive any participant or beneficiary under the Plan of any vested right. In the event the Plan is wholly or partially terminated, or upon the complete discontinuance of contributions under the Plan by any entity that is a part of the Company, each participant's interest in their account shall be no forfeitable on the date of such termination or discontinuance.
