HOW PROXIES WORK

With respect to Proposal 1, Election of Directors, you may vote for all, some or none of our director candidates. PROXY SOLICITATION

The enclosed proxy is solicited by the Board of Directors. This proxy material is being mailed to the holders of common stock on or about April 21, 2003. In addition to solicitation by mail, solicitation of proxies may be made by certain officers and regular employees of Cimarex by mail, telephone or in person. Cimarex also has retained Georgeson Shareholder to aid in the solicitation of brokers, banks, intermediaries, and other institutional holders in the United States for a fee not to exceed \$10,000 plus out-of-pocket expenses. All costs of the solicitation of proxies will be borne by Cimarex. Cimarex also reimburses brokerage firms and others for their expenses in forwarding proxy materials to beneficial owners of common stock.

REVOKING A PROXY

You may revoke your proxy before it is voted by submitting a new proxy with a later date (either by telephone, on the Internet, or by returning a new proxy card), by voting in person at the meeting, or by notifying our Assistant Corporate Secretary in writing at the address listed on the front of this booklet.

THE QUORUM REQUIREMENT

In order to conduct business at the meeting, we must have a quorum. This means that at least a majority (greater than 50%) of the outstanding shares of common stock as of the record date must be represented in person or by proxy at the meeting. Abstentions and broker non-votes are counted as present for establishing a quorum. Broker non-votes occur when a broker returns a proxy but does not have authority to vote on a particular proposal. If a quorum is not present at the meeting, a vote for adjournment will be taken among the stockholders present or represented by proxy. If a majority of the stockholders present or represented by proxy vote for adjournment, it is our intention to adjourn the meeting until a later date and to vote proxies at such adjourned meeting.

VOTES NEEDED

Directors will be elected by a plurality of the votes. A "plurality" means that the three director nominees receiving the most "FOR" votes will be elected as Class I directors. The proposal authorizing the ratification and approval of the Cimarex Energy Co. 2002 Stock Incentive Plan will be approved if a majority of the shares present and entitled to vote are voted in favor of the proposal. Broker non-votes count for quorum purposes but not for voting purposes. Abstentions have the effect of votes cast against the proposal. You are not allowed to cumulate votes in the election of directors.

2

TABULATION OF VOTES

Continental Stock Transfer & Trust Company, New York, New York, our stock transfer agent, will receive proxies and ballots, tabulate the vote, determine whether a quorum exists and serve as inspector of election at the meeting.

CIMAREX 401(k) PARTICIPANTS

If you are a participant in the Cimarex Energy Co. 401(k) Plan, you will receive a proxy card for the Cimarex shares you own through the 401(k) Plan. That proxy card will serve as a voting instruction card for the trustee of the 401(k) Plan, and your 401(k) Plan shares will be voted as you instruct. If you do not sign and return your proxy card to indicate your instructions, the 401(k) Plan trustee will vote your 401(k) Plan shares in the same proportion as the shares were voted by other 401(k) Plan participants.

HISTORY OF CIMAREX

Edgar Filing: CIMAREX ENERGY CO - Form DEF 14A

Cimarex is an independent oil and gas exploration and production company. Cimarex was formed in February 2002 as a wholly owned subsidiary of Helmerich & Payne, Inc. In July 2002, Helmerich & Payne contributed its oil and gas exploration and production operations and the common stock of its wholly owned gas marketing subsidiary to Cimarex. On September 30, 2002, Helmerich & Payne distributed in the form of a dividend to its stockholders approximately 26.6 million shares of common stock. As a result, Cimarex was spun-off and became a stand-alone company.

Also on September 30, 2002, Cimarex acquired 100 percent of the outstanding common stock of Key Production Company, Inc. in a tax-free reorganization. Each of the 14.1 million shares of Key common stock outstanding immediately prior to the reorganization was converted into the right to receive Cimarex common stock on a one-for-one basis. Key continues to conduct exploration and development activities as a wholly owned subsidiary of Cimarex.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

The Board of Directors and its committees oversee the management of Cimarex on your behalf and review our long-term strategic plans. Three directors are to be elected at the Annual Meeting. Our Certificate of Incorporation provides for a classified Board of Directors divided into three classes: Class I, Class II and Class III, the terms of office of which are currently scheduled to expire, respectively, on the dates of our Annual Meeting of Stockholders to be held in 2003, 2004 and 2005.

The terms of the three Class I directors, F.H. Merelli, Paul D. Holleman and Michael J. Sullivan, will expire at the 2003 Annual Meeting. Messrs. Merelli, Holleman and Sullivan have each been nominated to stand for reelection at the meeting to hold office until our 2006 Annual Meeting and thereafter until their respective successors are duly elected and qualified.

Unless instructed otherwise, the proxies will be voted "FOR" the election of each of the Class I nominees named above to serve for three years or until their successors are duly elected and qualified. If, prior to the Annual Meeting, one or more of the nominees becomes unavailable to serve as a director, any shares represented by a proxy directing a vote will be voted for the remaining nominees and for any substitute nominee or nominees designated by our Board of Directors or its Governance Committee. As of the mailing of these proxy materials, the Board of Directors knows of no reason why any director nominee would not be available to serve as a director.

The Governance Committee has two principal functions: (i) nominating and governance and (ii) compensation. The principal purpose of the nominating and governance function is to ensure that the Board of Directors is appropriately constituted to meet its fiduciary obligations to stockholders. The principal purpose of the compensation function is to assist the Board of Directors in discharging its responsibilities in respect of compensation of our executive officers and to produce an annual report on executive compensation. The report of the Governance Committee on executive compensation is included in this proxy statement under the caption "Governance Committee Report on Executive Compensation."

Meetings of the Board and Committees

During the period September 30, 2002 through December 31, 2002, the Board of Directors, the Audit Committee and the Governance Committee each held two meetings which were attended by all directors and members of the respective Committees.

Compensation of Directors

Board members who are not employees receive \$20,000 per year for serving on the Board, \$1,500 for each Board meeting attended and \$1,000 for each committee meeting attended. A Board member who serves as Chairman of a committee receives an additional \$5,000 annual fee. Board members are reimbursed for their actual expenses related to attending Board meetings. Non-employee directors also receive director compensation in the form of stock options granted under the Cimarex Energy Co. 2002 Stock Incentive Plan. The by-laws include related provisions to facilitate the indemnitee's receipt of such benefits. These provisions cover, among other things:

specification of the method of determining entitlement to indemnification and the selection of independent counsel that will in some cases make such determination;

specification of certain time periods by which certain payments or determinations must be made and actions must be taken; and

establishment of presumptions in favor of an indemnitee.

In addition, Cimarex has obtained insurance coverage for directors' and officers' liability.

8

Section 16(a) Reporting Compliance

For the fiscal year ended December 31, 2002, all reports were filed on a timely basis with the Securities and Exchange Commission. In making this disclosure, Cimarex has relied upon a review of copies of such reports and written representations of its directors and executive officers.

PROPOSAL NO. 2 APPROVAL OF THE CIMAREX ENERGY CO. 2002 STOCK INCENTIVE PLAN

Our Board of Directors recommends that the stockholders ratify and approve the Cimarex Energy Co. 2002 Stock Incentive Plan, as amended and restated. The sole reason for requesting our stockholders to approve the Plan is to ensure that compensation resulting from options granted under the Plan will be deductible to Cimarex without regard to the limitations otherwise imposed by Section 162(m) of the Internal

Revenue Code.

Prior to the spinoff and reorganization, the Cimarex Board of Directors and Helmerich & Payne, the then sole stockholder of Cimarex, adopted the Cimarex Energy Co. 2002 Stock Incentive Plan. On March 3, 2003, the Board of Directors of Cimarex Energy Co. adopted an amendment to the Plan, providing for the ability of Cimarex to issue stock units.

The amended Plan provides for the grant of non-qualified stock options, incentive stock options, restricted stock, stock units and other stock grants to all eligible employees and directors of Cimarex and its affiliates. As of December 31, 2002, we had approximately 250 eligible employees and eight non-employee directors. Pursuant to the terms of the Helmerich & Payne spinoff and the Key merger, Cimarex exchanged options and restricted stock granted by Helmerich & Payne and Key for Cimarex options and restricted stock. These options and restricted stock are subject to the terms of the Plan. As of December 31, 2002, stock options and restricted stock had been granted to 51 employees and eight non-employee directors.

The Stock Incentive Plan was established to create incentives that are designed to motivate participants to put forth maximum effort toward the success and growth of Cimarex and to enable Cimarex to attract and retain experienced individuals who by their position, ability and diligence are able to make important contributions to the success of Cimarex.

A majority of the shares present and entitled to vote at the Annual Meeting is required to ratify and approve the Cimarex Energy Co. 2002 Stock Incentive Plan.

Your Board of Directors Recommends You Vote FOR Ratification and Approval of the Cimarex Energy Co. 2002 Stock Incentive Plan.

SUMMARY OF CIMAREX ENERGY CO. 2002 STOCK INCENTIVE PLAN

Administration of the Plan. The Governance Committee of Cimarex (the "Committee"), comprised solely of non-employee directors, administers the Stock Incentive Plan.

The Committee has the exclusive power to select the participants to be granted awards, determines the time or times when awards will be made, and determines the form of an award, the number of shares of common stock of Cimarex subject to the award, all the terms, conditions (including performance requirements), restrictions and/or limitations, if any, of awards, including the time and conditions of exercise or vesting with the following exceptions: (1) the maximum number of shares subject to one or more options that may be granted during any calendar year to any participant is 1,000,000 shares of common stock; (2) the maximum number of shares that may be awarded to

9

participants as restricted stock awards is 1,000,000 shares of common stock; and (3) the maximum number of shares that may be issued under the Plan is 7,000,000 shares of common stock.

The Plan provides that the Committee may delegate authority to specified officers of Cimarex to grant awards under the Plan, provided no grants of awards may be granted to any eligible employee who is covered by Section 16(b) of the Securities Exchange Act of 1934. Pursuant to that authority, on December 6, 2002, the Committee delegated authority to Mr. Merelli to grant restricted stock awards to employees (other than employees covered by Section 16(b)) who he deems, in his sole discretion, to have made significant contributions to Cimarex. The restricted stock awards that Mr. Merelli may grant vest on the fifth anniversary of the date of grant, and the shares may not be sold before the eighth anniversary of the date of grant. Mr. Merelli may determine, in his sole discretion, the number of shares that may be granted to each employee. The aggregate maximum number of shares subject to Mr. Merelli's discretion is 100,000. He may make only one grant to an employee. His discretionary authority terminates on December 6, 2007.

Shares Subject to the Plan. There are 7,000,000 shares of common stock reserved for the grant of awards under the Plan. At September 30, 2002, stock options held by former Helmerich & Payne and Key employees who became Cimarex employees, and Key non-employee directors were converted into Cimarex stock options exercisable for 2,415,770 shares of common stock. Additional options exercisable for 1,290,800 shares of common stock were granted in December 2002. At December 31, 2002, 674,973 shares of restricted stock were outstanding. After considering exercises and forfeitures under the Plan, there were 2,586,207 shares of common stock available for grant under the Plan as of December 31, 2002. On April 1, 2003, the closing price of a share of common stock on the New York Stock Exchange was \$19.72.

Adjustment of Shares. The number of shares available under and subject to the Plan, and each share reserved for issuance under the Plan, are subject to adjustment on account of stock splits, stock dividends, recapitalizations and other dilutive changes in common stock, except that an adjustment will only be made if the event would require an increase or decrease of at least 1% in the number of shares available under the Plan or to which any award relates. Any adjustment representing a change of less than 1% will be carried forward and made as soon as such adjustment together with other adjustments would result in a change of more than 1%. Any shares of common stock related to awards that terminate by expiration, forfeiture, cancellation or otherwise or are exchanged for awards not involving common stock and any shares withheld for the payment of taxes will be available again for grant under the Plan.

No Repricing of Options. The Committee may at any time unilaterally amend the terms of any award agreement, provided that any such amendment which is adverse to the participant shall require the participant's consent. The Committee shall not, without the approval of the stockholders, cancel any outstanding option and replace it with a new option with a lower option price where the economic effect would be the same as reducing the option price of the cancelled option or take any other action with respect to an option that would be treated as a "repricing" under applicable accounting rules or under the rules of the Securities and Exchange Commission.

Exercise of Options. The Committee determines the exercise price for each option but no option will be granted at an exercise price that is less than the fair market value of the common stock on the date of grant. An option holder may exercise an option by written notice and payment of the exercise price in cash or by check, bank, draft or money order payable to the order of Cimarex, by delivering mature shares of common stock having a fair market value on the date of payment equal to the amount of the exercise price (but only to the extent the delivery of shares would not result in an accounting compensation charge), or a combination of the foregoing. In addition, any option may be exercised by a broker-dealer acting on behalf of the participant if the broker-dealer has received from the participant a notice of exercise and adequate provision has been made with respect to the payment

10

of any withholding taxes due upon such exercise. Option holders may elect to satisfy the minimum required income tax withholding obligation through the withholding of a portion of the common stock to be received upon exercise of the option.

Option Term. The Committee determines the period and the conditions of exercisability, the minimum periods during which participants must be employed by Cimarex or must hold options before they may be exercised, the minimum periods during which shares acquired upon exercise must be held before sale, conditions under which such options or shares may be subject to forfeiture, the frequency of exercise or the minimum or maximum number of shares that may be acquired at any one time, the achievement by Cimarex of specified performance criteria and non-compete and protection of business matters. Incentive stock options granted shall expire no later than 10 years from the date of grant. If a participant's employment terminates on or after his 62nd birthday, death or disability, the participant will be entitled to purchase all or any part of the shares subject to any vested incentive stock option for a period of up to three months from the date of termination (one year in the case of death or disability) and vested nonqualified stock option during the remaining term of the option.

Restoration Grant. At the time an option is granted, the Committee may provide that if the option holder pays the option exercise price by surrendering mature shares of common stock or if the option holder pays the required minimum tax withholding with shares of common stock, the option holder will be granted an option (a "Restoration Option") as of the date the original option was exercised. This Restoration Option will be for the same number of shares that are surrendered (or withheld) to pay the exercise price and/or required withholding, and will have an exercise price equal to the fair market value of common stock on the date the original option was exercised and will have the same terms and conditions as the original option. A Restoration Option will be granted only if there is at least six months remaining in the term of the original option. Restoration Options will be non-qualified options, will expire at the same time as the original option or earlier if the option holder terminates employment and will vest six months from the date the Restoration Option was granted. These options will only be exercisable if the option holder is employed on the date of exercise, and has been employed continuously by Cimarex or an affiliate since the date the Restoration Option was granted. The Committee also has the discretion to set additional policies and procedures related to the exercise of a Restoration Option.

Restricted Stock. The Committee may grant a participant a number of shares of restricted stock as determined by the Committee in its sole discretion. In addition to any vesting conditions determined by the Committee, vesting of each award will require the holder to remain in the employment of Cimarex for such period of time as determined by the Committee, but in no event less than three years. The Committee may also, in its sole discretion, accelerate the vesting under such circumstances as it deems appropriate. The restricted stock agreements provide that, during the vesting period, if Cimarex pays a dividend on its common stock, the grantees will be entitled to receive such dividend. Cimarex does not currently intend to pay dividends on its common stock.

Stock Units. The Committee may grant stock units to participants. Each stock unit is a measurement unit that is equal to the fair market value of one share of common stock on the date the stock unit is granted. The Committee determines the number of stock units to be granted, the vesting conditions and other restrictions, if any, the time and manner of payment, and any other terms and conditions of the stock units. The

Committee may also, in its sole discretion, accelerate vesting and waive other restrictions and conditions under such circumstances as it deems appropriate.

Nontransferability. Except as may otherwise be provided by the Committee at the time of a grant, an option will not be transferable except by will or pursuant to the laws of descent and distribution or incident to a divorce pursuant to a property settlement agreement between spouses or a final order of a court. The holder of a restricted stock award may not sell, transfer, pledge, exchange, hypothecate or

otherwise dispose of the shares of common stock represented by the restricted stock award during the applicable restriction period.

Amendment and Termination. The Board of Directors may alter, suspend or terminate the Plan at any time and may, from time to time, amend the Plan in any manner, but may not without stockholder approval adopt any amendment that would increase the aggregate number of shares of common stock available under the Plan or modify any provision of the Plan that would materially increase the benefit or rights of any participant in the Plan.

Change of Control. Awards (options, restricted stock or stock units) granted under the Plan to any participant will be immediately and automatically vested, fully earned and exercisable upon the occurrence of a change of control, as defined in the Plan. The Committee may provide that any awards that are outstanding at the time of the change of control will expire at the time of the closing so long as the participants are provided with at least 45 days advance notice of such expiration.

Federal Income Tax Consequences of the Grant and Exercise of Options. Certain of the federal income tax consequences applicable to the grant and exercise of non-qualified stock options and incentive stock options are as follows:

Non-Qualified Stock Options. There are no income tax consequences to the participant or to Cimarex when the non-qualified stock option is granted. When a non-qualified stock option is exercised, in general, the participant recognizes compensation, subject to wage withholding, equal to the excess of the fair market value of common stock on the date of exercise over the exercise price. Cimarex is generally entitled to a deduction equal to the compensation recognized by the participant, assuming that the compensation satisfies the ordinary and necessary and reasonable compensation requirements for deductibility and that the deduction is not limited by Section 162(m) of the Code.

Incentive Stock Options. When an incentive stock option is granted, there are no income tax consequences for the participant or Cimarex. When an incentive stock option is exercised, the participant does not recognize income and Cimarex does not receive a deduction. The participant, however, must treat the excess of the fair market value of the common stock on the date of exercise over the exercise price as an item of adjustment for purposes of the alternative minimum tax. If the participant makes a "disqualifying disposition" of the common stock (described below) in the same taxable year the incentive stock option was exercised, there are no alternative minimum tax consequences.

If the participant disposes of common stock after the participant has held the common stock for at least two years after the incentive stock option was granted and at least one year after the incentive stock option was exercised, the amount the participant receives upon the disposition over the exercise price is treated as capital gain. Cimarex is not entitled to a deduction. If the participant makes a "disqualifying disposition" of common stock by disposing of common stock before it has been held for at least two years after the date the incentive stock option was granted and at least one year after the date the incentive stock option was exercised, the participant recognizes compensation income equal to the excess of (1) the fair market value of common stock on the date the incentive stock option was exercised or, if less, the amount received on the disposition over (2) the exercise price. At present, Cimarex is not required to withhold income or other taxes. Cimarex is generally entitled to a deduction equal to the compensation recognized by the participant, assuming that the compensation satisfies the ordinary and necessary and reasonable compensation requirements for deductibility and that the deduction is not limited by Section 162(m) of the Code.

INDEPENDENT AUDITORS AND REPORT OF AUDIT COMMITTEE

Independent Auditors

The audit committee of the Board of Directors has appointed KPMG LLP to audit our financial statements for 2003. KPMG has been our independent auditors since October 1, 2002. A KPMG representative will be at the Annual Meeting to answer appropriate questions and to make a statement if he or she desires.

The following table presents fees for professional audit services rendered by KPMG for the audit of our annual financial statements for 2002, and fees billed for other services rendered by KPMG. The

13

Audit Committee has reviewed the services provided by KPMG for non-audit services and concluded that the provision of such services is compatible with maintaining KPMG's independence.

Audit fees(1)	\$ 233,538
Non-audit services(2)	\$ 7,041

(1)

Edgar Filing: CIMAREX ENERGY CO - Form DEF 14A

Audit fees include \$81,770 paid to KPMG for the audit as of and for the three months ended December 31, 2001.

(2)

Non-audit services include general income tax compliance and consulting.

The Board of Directors and the Audit Committee of Cimarex approved the dismissal of Ernst & Young LLP as Cimarex's independent auditors effective October 1, 2002.

Ernst & Young served as Cimarex's independent auditor for the fiscal years ended September 30, 2001 and 2000. Ernst & Young's reports for the years ended September 30, 2001 and 2000 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During the two most recent fiscal years and the subsequent interim period through October 1, 2002, there were no disagreements with Ernst & Young within the meaning of Instruction 4 of Item 304 of Regulation S-K on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to Ernst & Young's satisfaction would have caused Ernst & Young to make reference to the subject matter of the disagreements in connection with its report. During the term of Ernst & Young's engagement, there were no "reportable events" (as such term is defined in Item 304(a)(1)(v) of Regulation S-K).

The Board of Directors appointed KPMG to serve as Cimarex's independent auditor as of and for the three-month transition period (as such term is defined in Regulation 13A) ended December 31, 2001 and as of and for the year ended December 31, 2002. KPMG's engagement commenced effective October 1, 2002. During Cimarex's two most recent fiscal years ended September 30, 2001, and the subsequent interim periods, prior to engagement, Cimarex did not consult with KPMG regarding any of the matters or events set forth in Item 304(a)(2)(i) or (ii) of Regulation S-K.

As part of the registration process for Cimarex, there was discussion among management of Cimarex and Key and their auditors, Ernst & Young and KPMG, respectively. The discussion related to the initial selection of alternative accounting methods associated with accounting for oil and gas properties. Ernst & Young, as Cimarex's independent auditors, and KPMG, as Key's independent auditors, were each consulted as to the matter and each agreed with the conclusion that the full cost method of accounting is an acceptable alternative for accounting for oil and gas properties.

Report of Audit Committee

The Audit Committee oversees Cimarex's financial reporting process on behalf of the Board of Directors, including Cimarex's internal controls, the quality of its financial reporting and the independence and performance of Cimarex's independent auditors. The Board of Directors has adopted a written charter for the Audit Committee, a copy of which is attached as Appendix A to this Proxy Statement.

Management has the primary responsibility for the financial statements and the overall reporting process of Cimarex, including Cimarex's system of internal controls. The independent auditors audit the annual financial statements prepared by management, express an opinion as to whether those financial statements fairly present the consolidated financial position, results of operations and cash flows of Cimarex and its subsidiaries in conformity with generally accepted accounting principles, and discuss with us any issues they believe should be raised.

14

The Audit Committee reviewed Cimarex's audited financial statements as of and for the year ended December 31, 2002 and met with both management and KPMG, Cimarex's independent auditors, to discuss those financial statements. Management has represented to us that the financial statements were prepared in accordance with generally accepted accounting principles.

We have received from KPMG the written disclosures and the letter required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and discussed with KPMG their independence from Cimarex and its management. The Audit Committee also discussed with KPMG any matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees.

Based on these reviews and discussions, the Audit Committee recommended to the Board of Directors that Cimarex's audited financial statements be included in Cimarex's Annual Report on Form 10-K for the fiscal year ended December 31, 2002.

GOVERNANCE COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Governance Committee serves a nominating and governance function and a compensation function. The Governance Committee administers Cimarex's executive compensation program and establishes the salaries of our executive officers. The Governance Committee consists of only non-employee directors who are appointed by the Board of Directors.

The Governance Committee's objective is to provide Cimarex executive officers with a comprehensive compensation package that is designed to encourage recipients to identify and take actions that will achieve Cimarex's short- and long-term objectives. The compensation policies and programs utilized by the Governance Committee have been reviewed by independent compensation consultants and endorsed by the Board of Directors and generally consist of the following:

Provide executive officer total compensation in relation to the performance of Cimarex;

Provide a compensation program competitive with that received by executives of comparable companies in the oil and gas industry in order to attract, motivate and retain qualified personnel;

Provide a management tool for focusing and directing the energies of key executives toward achieving individual and corporate objectives; and

Provide long-term incentive compensation in the form of stock options, restricted stock and stock unit awards to link individual success to that of Cimarex.

Cimarex's executive compensation consists of three key components: base salary, annual incentive compensation in the form of cash bonuses, and long-term incentive compensation in the form of equity based compensation, each of which is intended to complement the others and, collectively, satisfy Cimarex's compensation objectives. The Governance Committee's policies with respect to each of the three components are discussed below.

15

Base Salary. Each fiscal year the Governance Committee, along with the Chief Executive Officer, reviews and approves the annual salaries for our executive officers. Many factors are included in determining base salaries, such as the responsibilities borne by the executive officer, a comparison of the compensation of the executive with the compensation of other executives in comparable industries with similar responsibilities, the scope of the position and corporate and individual performance.

Cash Bonuses. The Governance Committee provides annual incentives to Cimarex executive officers in the form of cash bonuses. Criteria that determine bonuses include company performance compared to external benchmarks, operational and financial performance and internally set objectives.

Equity-Based Compensation. The primary objective of the equity-based program is to link the interests of executive officers and other selected employees with the stockholders. The Cimarex Energy Co. 2002 Stock Incentive Plan authorizes us to grant both incentive and non-qualified stock options, restricted stock and stock units to officers and other employees meeting certain criteria. Subject to general limits prescribed by the Stock Incentive Plan, the Governance Committee has the authority to determine the individuals to whom equity compensation is awarded, the terms of the awards and the number of shares of common stock subject to the awards. The size of any particular award is based upon the employee's position with Cimarex and individual performance.

Edgar Filing: CIMAREX ENERGY CO - Form DEF 14A

Chief Executive Officer's Compensation. As discussed under "Employment Agreements," Cimarex is a party to an employment agreement with Mr. Merelli. The salary determined by the Governance Committee for Mr. Merelli was based upon the additional duties assumed by Mr. Merelli following the spin-off transaction, the compensation paid to chief executive officers of comparable companies and the Governance Committee's recognition of Mr. Merelli's continued leadership of Cimarex.

Employment Agreements and Change in Control Arrangements with Named Executive Officers

F. H. Merelli. Mr. Merelli entered into an employment agreement with Key pursuant to which he agreed to serve as the President and Chief Executive Officer of Key for an indefinite term. Following the Key reorganization, Cimarex assumed the employment agreement. Pursuant to the agreement, Mr. Merelli currently receives a base salary of \$350,000 annually which is subject to annual adjustment by the Board of Directors and may be increased, but not decreased, on the basis of such review. Mr. Merelli is also entitled to receive an annual incentive bonus under any plan or program implemented for executives. Cimarex also purchased a \$500,000 life insurance policy for Mr. Merelli.

Cimarex may terminate Mr. Merelli's employment at any time for cause (as defined in the agreement) or after 30 days' notice if not for cause, and Mr. Merelli may terminate his employment at any time for any reason. Upon (i) Mr. Merelli's termination of employment by Cimarex without cause or due to his death or disability or (ii) Mr. Merelli's resignation for good reason (as such term is described in the agreement), he will be entitled to receive continuation of his base salary for two years and the maximum incentive compensation payable pursuant to any plan or program established by Cimarex. Mr. Merelli also participates in the Income Continuation Plan described below, which provides for continuation of his salary and benefits upon certain terminations of employment following the Key reorganization. Any payment made to Mr. Merelli pursuant to the agreement will be deducted from the benefits to which he is otherwise entitled pursuant to the Income Continuation Plan described below.

During the period of his employment and for three years thereafter, Mr. Merelli is required under the agreement to keep confidential any information about Cimarex or its business that is not generally available to the public. Cimarex is also obligated under the agreement to indemnify Mr. Merelli to the maximum extent permissible under applicable law governing the indemnification of officers and directors.

Steven R. Shaw. Mr. Shaw is party to an agreement with Helmerich & Payne that Cimarex has assumed. If Cimarex terminates Mr. Shaw's employment within 24 months after the spin-off other than for cause, disability, death or the occurrence of a substantial downturn, or if Mr. Shaw terminates his employment for good reason within 24 months after the spin-off (as such terms are defined in the agreement), any options or restricted stock granted to Mr. Shaw under a plan adopted by Cimarex will vest in full and Cimarex will be required to pay or provide Mr. Shaw: (i) a lump-sum payment equal to

two times his base salary and annual bonus, (ii) 24 months of benefit continuation, (iii) a prorated annual bonus, and (iv) up to \$5,000 for outplacement counseling services, provided that the lump-sum payment and prorated annual bonus shall be payable only if Mr. Shaw executes and does not revoke a release of claims in the form attached to the agreement (as it may be modified in respect of changes in law or applicable regulations). In addition, if Mr. Shaw remains employed with Cimarex for 18 months after the spin-off, he may terminate his employment for any reason during the following thirty days and be entitled to full vesting of any options or restricted stock that had been granted to him before the spin-off. In the event that any benefits payable to Mr. Shaw as a result of the spin-off or reorganization (including without limitation any benefits provided under the agreement) are subject to the "golden parachute" excise tax under Section 4999 of the Internal Revenue Code, Mr. Shaw will be entitled to receive the greater of (i) such benefits reduced by any applicable excise taxes and (ii) a reduction in his benefits so that no excise taxes are applicable. During the period of his employment, Mr. Shaw is prohibited from divulging any confidential information of Helmerich & Payne and Cimarex, and following his termination of employment, he will be permitted to do so only with the prior written consent of Helmerich & Payne and/or Cimarex, as the case may be. Cimarex has agreed to indemnify Mr. Shaw in the same manner as any other key management employees and, during the term of the agreement and for the five-year period following his termination of employment, Cimarex has agreed to maintain director and officer liability insurance covering Mr. Shaw, provided that the indemnity and insurance shall be maintained at a level no less than that in effect immediately prior to the spin-off.

Messrs. Korus, Jorden, Albi and Bell. Each of Messrs. Korus, Jorden, Albi and Bell entered into an employment agreement with Key that has since expired. However, each agreement provided that, if the executive continues as an employee after the term of the agreement (as each executive has done) and is terminated without cause following a change in control (as those terms are defined in the agreement), the executive will be entitled to a lump-sum payment equal to two times the executive's base salary at the time of the change in control. Cimarex assumed this obligation following the Key reorganization. Accordingly, if Cimarex terminates the executive's employment without cause following the Key reorganization, Cimarex will be obligated to make a lump-sum payment to the executive equal to two times his base salary at the time of the Key reorganization. Any payments made to these executives pursuant to these agreements will be deducted from the benefits to which the executive is otherwise entitled pursuant to the Income Continuation Plan described below.

Income Continuation Plan

Key maintained an Income Continuation Plan that was assumed by Cimarex at the time of the reorganization. Pursuant to the terms of the Plan, the Plan may not be amended following the reorganization, and the Plan may not be terminated during the thirty-month period following the reorganization. The Plan covers only former officers and employees of Key who are currently employed by Cimarex and who fall within one of the following categories:

Officers (including Messrs. Merelli, Korus, Jorden, Albi, Bell and);

Employees who are at least 40 years old;

Employees who were continuously employed by Key for at least 10 years; and

Certain other employees with special skills or experience, as determined by the Key board of directors prior to the reorganization.

The Key reorganization constituted a change of control as defined in the Income Continuance Plan. Accordingly, if, following the reorganization a participating employee is terminated without cause (as such term is described in the Plan) or resigns due to changed circumstances (including, without

20

limitation, a significant change in title, duties, authority or compensation or a greater than 50-mile change in the employee's regular work place), the employee is entitled to the following benefits:

Employees of Key who had at least 48 months continuous service with Key and officers of Key are entitled to receive continuation of their base compensation (as defined in the Plan, including all salary, incentive compensation and bonuses) for 24 months following their termination of employment.

Employees of Key (other than officers) who have less than 48 months continuous service with Key are entitled to receive continuation of their base compensation (as defined in the plan) for a period equal to 50% of their aggregate months of service; provided, however, that the Key board of directors may extend this period to a maximum of 24 months in its sole discretion.

All participating employees will receive health and life insurance continuation for so long as they receive salary continuation as well as reimbursement of any expenses, including legal fees incurred in enforcing the employee's right to receive benefits pursuant to the Plan.

In general, the benefits paid pursuant to the Plan are in addition to, and not in lieu of, any benefits that the participants are otherwise entitled to pursuant to a plan, program or contract. However, if an employee is entitled to receive a payment based on annual salary pursuant to the terms of an employment agreement, the benefits paid pursuant to the Plan shall be offset by the benefits paid pursuant to the employment agreement.

The Key reorganization constituted a change in control under the Plan. As a result, each of Messrs. Merelli, Korus, Jorden, Albi and Bell are entitled to receive continuation of his base compensation and health and life insurance benefits for 24 months if his employment is terminated without cause or if he resigns due to changed circumstances following the effective time of the reorganization. As discussed above, each of Messrs. Merelli, Korus, Jorden, Albi and Bell is also party to an agreement that provides for salary continuation payments upon a termination without cause or (in the case of Mr. Merelli) resignation for good reason following a change in control. Any payment received pursuant to these agreements would be deducted from the payments to which these executives are entitled under the Plan.
