*Set forth below is the text of a press release issued on May 4, 2005.*

**Luxottica Group's Proposed Cash Dividend for Fiscal Year 2004 up 9.5% to Euro 0.23**

**Milan, Italy, May 4, 2005** **Luxottica Group S.p.A. (NYSE: LUX; MTA: LUX)** today announced that its Board of Directors will propose to shareholders at the upcoming Shareholders' Meeting a 9.5 percent increase in the cash dividend to be paid for fiscal year 2004 to €0.23 per ordinary share, or €0.23 per American Depositary Share (ADS) (one ADS represents one ordinary share). For fiscal year 2003, shareholders approved the payment of a cash dividend of €0.21. The proposed dividend payout for fiscal year 2004 is unchanged year-over-year, reflecting the growth in consolidated net income.

The Board of Directors has also scheduled the Company's Shareholders' Meeting for June 15, 2005, on first call, and for June 16, on second call.

At the meeting, the Board of Directors will submit to shareholders for approval, in accordance with Italian Law, Luxottica Group's Italian GAAP statutory financial statements for fiscal year 2004. Italian Law does not require the approval by shareholders of the Company's Italian GAAP consolidated financial statements. As announced on February 15, 2005, Luxottica Group posted, in accordance with U.S. GAAP, the following results for fiscal year 2004:

Consolidated net sales of €3,223.9 million;

Consolidated operating income of €492.8 million;

Net income of €286.9 million.

If approved, the cash dividend will be paid to holders of record of ordinary shares as of June 17, and to holders of record of ADRs as of June 22. The ex-dividend date for both holders of ordinary shares and ADRs will be June 20, 2005. Luxottica Group will make the dividend payable in Euro to holders of ordinary shares on June 23, 2005. The Bank of New York, depository of Luxottica Group's ordinary shares represented by ADRs, will make the dividend payable in U.S. Dollars to ADR holders on June 30, 2005, at the Euro/U.S. Dollar exchange rate of June 23, 2005. In addition, Luxottica Group indicated that information regarding the tax regime applicable to the payment of its dividends will be available on the Group's website at [www.luxottica.com](http://www.luxottica.com).

As a result of the introduction of International Financial Reporting Standards (IFRS), Italian securities regulation requires companies with traded financial instruments to update the financial community on the status of their transition from Italian Generally Accepted Accounting Principles (Italian GAAP) to IFRS. As a reminder, Luxottica Group's financial communication is and will continue to be made in accordance with US GAAP. As a result, the introduction of the IFRS will thus have no impact on Luxottica Group's financial communication.

According to IFRS 1, First Adoption of International Financial Reporting Standards, Luxottica Group is required to prepare financial statements as of January 1, 2004, that: (i) Recognize only all the assets and liabilities defined as such by the new accounting standards; (ii) Classify and evaluate assets and liabilities with the value that would have been determined if the new accounting standards had been applied from the initial recognition (retrospective application); (iii) Reclassify items in accordance with IFRS.

Luxottica Group's financial statements for fiscal year 2004, which will be presented for approval at the Group's Shareholders' Meeting in June of this year, will show the reconciliation between the previous and the new accounting standards, in particular: (i) Reconciliation of net equity at January 1, 2004, and December 31, 2004; (ii) Reconciliation of results of operations for fiscal year 2004.

---

The most significant impact on Luxottica Group's financial statements for the first application of IFRS are: (i) Past business combination will be re-opened and goodwill and intangible assets will be newly evaluated (ii) The provision according to which goodwill cannot be amortized and recoverability is tested at least annually (iii) the employees stock option plans accounting through profit and loss (iv) The use of actuarial techniques for the evaluation of employees post employment benefits; (v) Treasury shares accounted for as a reduction of equity.
