Item 2.02 Results of operation and financial condition.

AMERISERV FINANCIAL Inc. (the "Registrant") announced fourth quarter and full year results as of December 31, 2005. For a more detailed description of the announcement see the press release attached as Exhibit #99.1.

Exhibits

-----

Exhibit 99.1

Press release dated January 24, 2006, announcing the fourth quarter and full year results as of December 31, 2005.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

AMERISERV FINANCIAL, Inc.

By /s/Jeffrey A. Stopko

Jeffrey A. Stopko

Senior Vice President  
& CFO

Date: January 24, 2006

**Exhibit 99.1****AMERISERV FINANCIAL RETURNS TO PROFITABILITY IN THE FOURTH QUARTER OF 2005**

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) returned to profitability in the fourth quarter of 2005 by reporting net income of \$220,000 or \$0.01 per diluted share which compared favorably to the net loss of \$10.9 million or (\$0.64) per diluted share reported in the fourth quarter of 2004. For the full year 2005, the Company reported a reduced net loss of \$9.1 million or (\$0.45) per share when compared to the net loss of \$9.7 million or (\$0.66) per share for the 2004 year. The following table highlights the Company's financial performance for both the quarters and years ended December 31, 2005 and 2004:

	Fourth Quarter 2005	Fourth Quarter 2004	Year Ended December 31, 2005	Year Ended December 31, 2004
Net income (loss)	\$220,000	(\$10,941,000)	(\$9,141,000)	(\$9,719,000)
Diluted earnings per share	0.01	(0.64)	(0.45)	(0.66)

Allan R. Dennison, President and Chief Executive Officer, commented on the fourth quarter 2005 results, "All phases of our previously announced balance sheet restructuring were successfully completed by the end of 2005. This included, within the fourth quarter, the redemption at par of \$7.2 million of high coupon trust preferred securities for which the Company incurred a \$210,000 charge to write-off related unamortized issuance costs. AmeriServ began to realize the benefits of a traditional community bank balance sheet in the fourth quarter of 2005 as our net interest margin improved to 3.21%. This represented an increase of 78 basis points over the third quarter 2005 performance and an increase of 86 basis points when compared to the 2004 fourth quarter net interest margin of 2.35%. We will now be able to fully focus on community banking and our growing trust company in order to drive meaningful earnings improvement in 2006.

The Company did not record a provision for loan losses in the fourth quarter of 2005 compared to a provision of \$1.1 million or 0.87% of total loans in the fourth quarter of 2004. Net charge-offs were also lower in the fourth quarter of 2005 amounting to \$292,000 or 0.21% of total loans compared to net charge-offs of \$1.1 million or 0.84% of total loans in the prior year fourth quarter. For the full year 2005, the Company recorded a negative loan loss provision of \$175,000 compared to a provision of \$1.8 million for 2004 or a net favorable change of \$1.9 million. The overall

reduced provision in 2005 resulted from a sustained improvement in asset quality. Net charge-offs in 2005 totaled \$575,000 or only 0.11% of total loans compared to net charge-offs of \$3.4 million or 0.68% of total loans in 2004. Non-performing assets have remained in a range of \$3.3 to \$5.0 million for the past six quarters ending the 2005 year at \$4.3 million or 0.78% of total loans. As a result of these asset quality improvements and a reduced loan loss reserve, the allowance for loan losses provided 212% coverage of non-performing assets at December 31, 2005 compared to 254% coverage at December 31, 2004. The allowance for loan losses as a percentage of total loans amounted to 1.66% at December 31, 2005.

The Company's net interest income in the fourth quarter of 2005 increased by \$679,000 from the prior year fourth quarter and for the full year 2005 increased by \$646,000 when compared to the full year 2004. This increase reflects the benefit of an improved net interest margin that has more than offset a sizable decline in the level of average earning assets. The improved net interest margin has resulted from the balance sheet restructuring measures executed in both the fourth quarter of 2004 and the third quarter of 2005. This balance sheet restructuring was facilitated by the successful private placement of \$36.1 million of common stock over the past 15 months and included the prepayment of \$225 million of high cost Federal Home Loan Bank (FHLB) borrowings and related interest rate hedges, and the retirement of \$22.5 million of 8.45% coupon trust preferred securities. Consequently, for the fourth quarter of 2005 the net interest margin increased by 86 basis points to 3.21% while the level of average earning assets declined by \$184 million when compared to the fourth quarter of 2004. For the full year 2005 the net interest margin increased by 48 basis points to 2.76% while the level of average earning assets declined by \$153 million when compared to the full year 2004. For both the fourth quarter and full year 2005, the decline in average assets was attributable to the sale of investment securities, the proceeds of which were used to repay the FHLB debt. The Company's net interest income, margin and average earning assets did benefit from increased loans in the earning asset mix as total loans outstanding averaged \$525 million in 2005 a \$28 million or 5.7% increase from 2004. This loan growth was most evident in the commercial loan portfolio. Deposits continued their recovery from the low point reached in the fourth quarter of 2004. Total deposits averaged \$700 million in 2005, a \$37 million or 5.5% increase from 2004 due largely to increased deposits from the trust company's operations. This deposit growth also allowed the Company to further reduce FHLB borrowings as these borrowings amounted to only 7.3% of total assets at December 31, 2005 compared to 25.0% of total assets at December 31, 2004.

The Company's non-interest income in the fourth quarter of 2005 increased by \$580,000 from the prior year fourth quarter but for the full year 2005 declined by \$3.8 million when compared to 2004. The fourth quarter 2005 improvement was due to no losses realized on investment security sales in the fourth quarter of 2005 compared to \$460,000 of losses realized on investment security sales in the fourth quarter of 2004. Also, trust fees increased by \$193,000 or 14.1% due to continued successful new business development efforts. The largest factor responsible for the full year 2005 \$3.8 million decline in non-interest income was \$2.5 million of losses on investment security sales associated with the third quarter balance sheet restructuring. The Company had realized investment security gains of \$816,000 in 2004 thus causing a net unfavorable change of \$3.3 million. Other income declined by \$915,000 for the full year 2005 as the Company benefited from \$578,000 of additional gains on the sale of other real estate owned properties in 2004. Lower mortgage production related revenues also contributed to the decrease in other income in 2005 and a \$142,000 decline in gains on loan sales into the secondary market. These items overshadowed a \$766,000 or 14.3% increase in trust fees for the full year 2005 due to continued successful new business development efforts and the full benefit of new customer fee schedules that were implemented in the fourth quarter of 2004.

The Company's non-interest expense in the fourth quarter of 2005 decreased by \$13.7 million from the prior year fourth quarter and for the full year 2005 declined by \$671,000 when compared to 2004. The fourth quarter 2004

included \$12.6 million of FHLB debt prepayment penalties related to the retirement of \$125 million of FHLB convertible advances. The Company incurred a similar charge of \$12.3 million in the third quarter of 2005 related to the prepayment of all remaining \$100 million of FHLB convertible advances and the termination of all interest rate hedges associated with this FHLB debt. The fourth quarter of 2004 also included a \$476,000 charge to write-off unamortized issuance costs related to the \$15.3 million of trust preferred securities that were retired last year. The Company's fourth quarter 2005 expenses included a charge of \$210,000 to write-off unamortized issuance costs related to the \$7.2 million of trust preferred securities that were retired in the fourth quarter of 2005. Aside from these balance sheet restructuring related costs, professional fees were up by \$545,000 for the full year 2005 due to costs associated with implementing Sarbanes-Oxley Section 404. The Company did benefit from reduced amortization of core deposit intangibles that decreased by \$285,000 for the full year 2005 and a \$153,000 reduction in occupancy and equipment expenses due to cost savings from closure of the Company's Harrisburg branch office and lower property taxes. Also, the loss from discontinued operations declined by \$735,000 in the fourth quarter of 2005 and by \$1.1 million for the full year 2005 as a result of the closure of the unprofitable mortgage servicing operation. Overall, excluding all balance sheet restructuring related charges, the Company's ongoing focus on reducing expenses resulted in lower non-interest expenses in 2005 despite the additional costs associated with implementing Sarbanes-Oxley Section 404.

The Company recognized an income tax benefit of approximately \$5.9 million for both the full year 2005 and 2004 due to the pre-tax losses incurred in both years and the Company's belief that it will generate sufficient earnings in future periods to utilize these net operating loss carryforwards. In 2005 and 2004, the Company also lowered its income tax expense by approximately \$475,000 and \$700,000, respectively, due to a reduction in reserves for prior year tax contingencies as a result of the successful conclusion of an IRS examination on several open tax years.

At December 31, 2005, ASRV had total assets of \$880 million and shareholders' equity of \$85 million or \$3.82 per share. The Company's asset leverage ratio improved to 10.24% at December 31, 2005 compared to 9.20% at December 31, 2004. AmeriServ Financial, Inc., is the parent of AmeriServ Financial Bank and AmeriServ Trust & Financial Services in Johnstown, AmeriServ Associates of State College, and AmeriServ Life Insurance Company.

This news release may contain forward-looking statements that involve risks and uncertainties, as defined in the Private Securities Litigation Reform Act of 1995, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission. Actual results may differ materially.
