(3)

For the years ended December 31, 2007, 2006 and 2005, net income used to calculate earnings per diluted common share and HPU share includes joint venture income of \$85, \$115, and \$28, respectively.

- (4)
  The Company generally declares common dividends in the month subsequent to the end of the quarter. During 2009, no common dividends were declared. During 2008, no common dividends were declared for the three month periods ended September 30, 2008 and December 31, 2008. In December of 2007, the Company declared a special \$0.25 dividend due to higher taxable income generated as a result of the Company's acquisition of Fremont CRE.
- Adjusted earnings represents net income allocable to common shareholders and HPU holders computed in accordance with GAAP, before depreciation, depletion, amortization, gain from discontinued operations, ineffectiveness on interest rate hedges, impairment of goodwill and intangible assets, extraordinary items and cumulative effect of change in accounting principle. (See Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations," for a reconciliation of adjusted earnings to net income).
- Both adjusted earnings and EBITDA should be examined in conjunction with net income (loss) as shown in the Company's Consolidated Statements of Operations. Neither adjusted earnings nor EBITDA should be considered as an alternative to net income (loss) (determined in accordance with GAAP) as an indicator of the Company's performance, or to cash flows from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is either measure indicative of funds available to fund the Company's cash needs or available for distribution to shareholders. Rather, adjusted earnings and EBITDA are additional measures the Company uses to analyze how its business is performing. As a commercial finance company that focuses on real estate lending and corporate tenant leasing, the Company records significant depreciation on its real estate assets and amortization of deferred financing costs associated with its borrowings. It should be noted that the Company's manner of calculating adjusted earnings and EBITDA may differ from the calculations of similarly-titled measures by other companies.

#### Table of Contents

(7) EBITDA is calculated as net income (loss) attributable to iStar Financial Inc. plus the sum of interest expense, income taxes, depreciation, depletion and amortization.

#### Explanatory

#### Notes:

- (1)

  For the years ended December 31, 2007, 2006 and 2005, interest expense includes \$12, \$194, and \$247, respectively, of interest expense reclassified to discontinued operations.
- For the years ended December 31, 2009, 2008, 2007, 2006, and 2005, depreciation, depletion and amortization includes \$1,419, \$6,717, \$10,677, \$12,567, and \$11,461, respectively, of depreciation, depletion and amortization reclassified to discontinued operations.
- This ratio of earnings to fixed charges is calculated in accordance with GAAP. The Company's bank credit facilities and senior notes both have fixed charge coverage covenants, however, each is calculated differently in accordance with the terms of the respective agreements. In addition, the fixed charge covenant in the bank credit facilities is a maintenance covenant while the covenant in the senior notes is an incurrence covenant. The fixed charge coverage ratios for the bank credit facilities and senior notes were 2.4x and 2.3x, respectively as of December 31, 2009.
