MESA ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

Note 1 Trust Organization and Provisions

The Mesa Royalty Trust (the "Trust") was created on November 1, 1979. On that date, Mesa Petroleum Co., predecessor to Mesa Limited Partnership ("MLP"), which was the predecessor to MESA Inc., conveyed to the Trust an overriding royalty interest (the "Royalty") equal to 90% of the Net Proceeds (as defined in the Conveyance and described below) attributable to the specified interests in properties conveyed by the assignor on that date (the "Subject Interests"). The Subject Interests consisted of interests in certain producing oil and gas properties located in the Hugoton field of Kansas, the San Juan Basin field of New Mexico and Colorado and the Yellow Creek field of Wyoming (the "Royalty Properties"). The Royalty is evidenced by counterparts of an Overriding Royalty Conveyance dated as of November 1, 1979 (the "Conveyance"). On April 30, 1991, MLP sold its interests in the Royalty Properties located in the San Juan Basin field to ConocoPhillips. ConocoPhillips sold the portion of its interests in the San Juan Basin Royalty Properties located in Colorado to MarkWest Energy Partners, Ltd. (effective January 1, 1993) and Red Willow Production Company ("Red Willow") (effective April 1, 1992). On October 26, 1994, MarkWest Energy Partners, Ltd. sold substantially all of its interest in the Colorado San Juan Basin Royalty Properties to BP Amoco Company ("BP"), a subsidiary of BP p.l.c. Until August 7, 1997, MESA Inc. operated the Hugoton Royalty Properties through Mesa Operating Co., a wholly owned subsidiary of MESA Inc. On August 7, 1997, MESA Inc. merged with and into Pioneer Natural Resources Company ("Pioneer"), formerly a wholly owned subsidiary of MESA Inc., and Parker & Parsley Petroleum Company merged with and into Pioneer Natural Resources USA, Inc. (successor to Mesa Operating Co.), a wholly owned subsidiary of Pioneer ("PNR") (collectively, the mergers are referred to herein as the "Merger"). Subsequent to the Merger, the Hugoton Royalty Properties were operated by PNR until December 31, 2014, at which point Linn Energy Holdings, LLC ("Linn") took over as operator. For the Trust's properties, there is a difference between production months for the operators and accounting months for the Trust. For the quarter ended March 31, 2015, the Hugoton Royalty Properties accounting months correspond with the October 2014 through December 2014 production months, which were operated by PNR in accordance with the Transition Services Agreement (described below). For the quarter ended June 30, 2015, the Hugoton Royalty Properties accounting months correspond with the January 2015 through March 2015 production months which were operated by Linn. Substantially all of the San Juan Basin Royalty Properties located in New Mexico are operated by ConocoPhillips. Effective January 1, 2005, ConocoPhillips assigned its interest in an immaterial number of San Juan Basin Royalty Properties located in New Mexico to XTO Energy Inc. The San Juan Basin Royalty Properties located in Colorado are operated by BP. As used in this report, Linn refers to the current operator of the Hugoton Royalty Properties, ConocoPhillips refers to the operator of the San Juan Basin Royalty Properties, other than the portion of such properties located in Colorado, and BP refers to the operator of the Colorado San Juan Basin Royalty Properties unless otherwise indicated. On July 18, 2014, PNR entered into a purchase and sale agreement (the "Purchase Agreement") to sell all of its assets in the Hugoton field in Kansas to Linn. The transaction closed on September 11, 2014. The assets sold to Linn included, among other things, all of Pioneer's producing oil and gas wells, all of its interest in the Satanta gas processing plant and all other associated infrastructure. In connection with

MESA ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 1 Trust Organization and Provisions (Continued)

the Purchase Agreement, PNR and Linn also entered into a Transition Services Agreement, dated July 18, 2014, whereby PNR agreed to continue providing operating, certain administrative services, accounting and other services related to the assets in exchange for a service fee. As a result, PNR continued to act as operator with respect to the Hugoton Royalty Properties through December 31, 2014. Upon expiration of the Transition Services Agreement, Linn took over as operator of the Hugoton Royalty Properties.

Effective October 2, 2006, The Bank of New York Mellon Trust Company, N.A. (the "Trustee") succeeded JPMorgan Chase Bank, N.A. as Trustee of the Trust. JPMorgan Chase Bank, N.A. is the successor by mergers to the original name of the Trustee, Texas Commerce Bank National Association. The terms of the Mesa Royalty Trust Indenture (the "Trust Indenture") provide, among other things, that:

- (a) the Trust cannot engage in any business or investment activity or purchase any assets;
- (b) the Royalty can be sold in part or in total for cash upon approval by the unitholders;
- (c) the Trustee can establish cash reserves and borrow funds to pay liabilities of the Trust and can pledge assets of the Trust to secure payment of the borrowings;
- (d) the Trustee will make cash distributions to the unitholders in January, April, July and October each year as discussed more fully in Note 2;
- (e) the Trust will terminate upon the first to occur of the following events: (i) at such time as the Trust's royalty income for two successive years is less than \$250,000 per year or (ii) a vote by the unitholders in favor of termination. Upon termination of the Trust, the Trustee will sell for cash all the assets held in the Trust estate and make a final distribution to unitholders of any funds remaining after all Trust liabilities have been satisfied; and
- (f) Linn, ConocoPhillips and BP (collectively the "Working Interest Owners") will reimburse the Trust for 59.34%, 27.45% and 1.77%, respectively, for general and administrative expenses of the Trust.

During 2011, the Trustee withheld \$1.0 million for future unknown contingent liabilities and expenses in accordance with the Trust Indenture, which is included in cash and short term investments.

As of June 30, 2015, there were \$54,436 of unreimbursed expenses, including \$1,733 from the quarter ended March 31, 2015. The Trust anticipated receipt of these expense reimbursements by month-end when it published its March and June distribution press releases on March 20, 2015 and June 17, 2015, respectively, and included these amounts in distributions payable and distributable income per unit as of March 31, 2015 and June 30, 2015. The terms of the Trust Indenture provide, among other things, that the Trustee may establish cash reserves and borrow funds to pay liabilities of the Trust and may pledge assets of the Trust to secure payment of the borrowings. During 2011, the

MESA ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 1 Trust Organization and Provisions (Continued)

Trustee withheld \$1.0 million for future unknown contingent liabilities and expenses in accordance with the Trust Indenture, which is included in cash and short term investments. For the three months ended June 30, 2015, the Trustee decreased the reserve for future unknown contingent liabilities and expenses by the amount of expected expense reimbursement cash receipts of \$52,703. Additionally, the Trustee increased the reserve for future unknown contingent liabilities and expenses by the amounts received during the second quarter of 2015 related to expense reimbursement cash receipts for previous periods totaling \$115,885. As of June 30, 2015, the reserve for unknown contingent liabilities and expenses was \$945,564 and is included in cash and short term investments. The Trust has subsequently received \$49,825 of the expected expense reimbursement cash receipts as of August 14, 2015, which has increased the reserve for unknown contingent liabilities and expenses. The Trustee reserves the right to determine whether or not to release cash reserves in future periods with respect to any unreimbursed expenses.

The Trustee was due \$118,750 for its services for the quarter ended June 30, 2015. The Trust paid \$108,388 of this amount to the Trustee, and \$10,362 was allocated to offset against interest due to the Trust under the Trust Indenture. The Trust Indenture requires that cash being held by the Trustee earn interest at 1.5% below the prime rate, which would have yielded the Trust a 1.75% return as of June 30, 2015. However, due to the current interest rate environment, the Trustee was unable to obtain an account in which such an interest rate was available. In the event such an interest rate is unavailable in the future, the Trustee intends to allocate certain of its fees due to the Trust to meet the minimum interest rate payable under the Trust Indenture. The Trustee will continue to allocate a portion of the fees earned for its services to the Trust until the remaining \$68,638 of interest due to the Trust is fully offset, and it may do so in future periods in which unpaid interest is due to the Trust. The working interest owners partially reimburse the Trust each quarter for amounts paid in connection with the Trustee's services. For the quarter ended June 30, 2015, such reimbursements totaled \$95,988. For year to date June 30, 2015 such fees were \$216,676. Reimbursements received for year to date June 30, 2015 were \$191,888. For the quarter ended June 30, 2014 and year to date June 30, 2014 trustee fees were \$108,288 and \$192,226, respectively. Reimbursements received for the quarter ended June 30, 2014 and year to date June 30, 2014 were \$95,900 and \$170,235, respectively.

The Trustee engaged an independent consulting firm to audit revenues, expenses and established reserves of certain working interest owners. As a result of the audit, the Trustee and PNR entered into a Settlement Agreement, dated effective as of February 21, 2014, pursuant to which PNR agreed to pay the Trust for certain audit exceptions noted by the Trustee for calendar years 2006 through 2013. As such, the Trust income distribution for the month of April 2014 included \$881,595 from PNR. The Trustee agreed to release PNR from any claims related to any of the matters raised in the audit exceptions for any year prior to 2013 and all such exceptions are deemed closed. The Trust income distribution for the month of September 2014 also included \$52,868 from PNR and \$369,585 from BP. PNR advised the Trustee that the \$52,868 amount represents the Trust's share of an audit settlement completed regarding the Satanta plant. BP advised the Trustee that the \$369,585 amount includes the

MESA ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 1 Trust Organization and Provisions (Continued)

Trust's share of an audit adjustment related to prior periods. Amounts received from PNR and BP for the twelve months ended December 31, 2014 were \$934,463 and \$369,585, respectively. While these audits have highlighted issues that remain open, the Trustee has not made a determination at this time whether any additional audit exceptions will result in any material gains or expenses net to the Trust.

Note 2 Basis of Presentation

The accompanying unaudited financial information has been prepared by the Trustee in accordance with the instructions to Form 10-Q. The preparation of the financial statements requires estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The Trustee believes such information includes all the disclosures necessary to make the information presented not misleading. The information furnished reflects all adjustments which are, in the opinion of the Trustee, necessary for a fair presentation of the results for the interim periods presented. The financial information should be read in conjunction with the financial statements and notes thereto included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2014. The Trust considers all highly liquid investments with a maturity of three months or less to be cash equivalents. Subsequent events were evaluated through the issuance date of the financial statements.

In accordance with the Conveyance, the Working Interest Owners are obligated to calculate and pay the Trust each month an amount equal to 90% of the Net Proceeds (as defined in the Conveyance) attributable to the month. In 1985, the Trust Indenture was amended and the Trust conveyed to an affiliate of Mesa Petroleum Co. 88.5571% of the original Royalty (such transfer, the "1985 Assignment"). The effect of the 1985 Assignment was an overall reduction of approximately 88.56% in the size of the Trust. As a result, the Trust is now entitled to receive 11.44% of 90% of the Net Proceeds attributable to each month.

The financial statements of the Trust are prepared on the following basis:

- (a) Royalty income recorded for a month is the amount computed and paid by the Working Interest Owners to the Trustee for such month rather than either the value of a portion of the oil and gas produced by the Working Interest Owners for such month or the amount subsequently determined to be the Trust's proportionate share of the net proceeds for such month;
- (b) Interest income, interest receivable and distributions payable to unitholders include interest to be earned on short-term investments from the financial statement date through the next date of distribution;
- (c) Trust general and administrative expenses, net of reimbursements, are recorded in the month they are included in the calculation of the monthly distribution amount;

MESA ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 2 Basis of Presentation (Continued)

(d) Amortization of the Royalty is computed on a unit-of-production basis and is charged directly to trust corpus since such amount does not affect distributable income; and

(e) Distributions payable are determined on a monthly basis and are payable to unitholders of record as of the last business day of each month or such later date as the Trustee determines is required to comply with applicable law or stock exchange requirements. However, cash distributions are made quarterly in January, April, July and October, and include interest earned from the monthly record dates to the date of distribution.

This basis for reporting distributable income is considered to be the most meaningful because distributions to the unitholders for a month are based on net cash receipts for such month. However, these statements differ from financial statements prepared in accordance with accounting principles generally accepted in the United States of America because, under such principles, royalty income for a month would be based on net proceeds from production for such month without regard to when calculated or received, general and administrative expenses would be recorded in the month they accrue, and interest income for a month would be calculated only through the end of such month.

Note 3 Legal Proceedings

There are no pending legal proceedings to which the Trust is a named party. The Trustee has been advised by Linn, ConocoPhillips and BP that it is subject to litigation in the ordinary course of business for certain matters that include the Royalty Properties. While each of the working interest owners has advised the Trustee that it does not currently believe any of the pending litigation will have a material adverse effect net to the Trust, in the event such matters were adjudicated or settled in a material amount and charges were made against Royalty income, such charges could have a material impact on future Royalty income.

Note 4 Income Tax Matters

In a technical advice memorandum dated February 26, 1982, the IRS advised the Dallas District Director that the Trust is classifiable as a grantor trust and not as an association taxable as a corporation. As a grantor trust, the Trust incurs no federal income tax liability and each unitholder is subject to tax on the unitholder's pro rata share of the income and expense of the Trust as if the unitholder were the direct owner of a pro rata share of the Trust's assets. In addition, there is no state tax liability for the period.

For taxable years beginning after December 31, 2012, individuals, estates, and trusts with income above certain thresholds are subject under Section 1411 of the Internal Revenue Code to an additional 3.8% tax also known as the "Medicare contribution tax" on their net investment income. Grantor trusts such as Mesa Royalty Trust are not subject to the 3.8% tax; however, the unitholders may be subject to the tax. For these purposes, investment income would generally include certain income

MESA ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 4 Income Tax Matters (Continued)

derived from investments, such as the royalty income derived from the units and gain realized by a unitholder from a sale of units.

The Trustee assumes that some Trust Units are held by a middleman, as such term is broadly defined in U.S. Treasury Regulations (and includes custodians, nominees, certain joint owners, and brokers holding an interest for a custodian in street name). Therefore, the Trustee considers the Trust to be a non-mortgage widely held fixed investment trust ("WHFIT") for U.S. federal income tax purposes. The Bank of New York Mellon Trust Company, N.A., 919 Congress Avenue, Austin, Texas 78701, telephone number 512-236-6545, is the representative of the Trust that will provide tax information in accordance with applicable U.S. Treasury Regulations governing the information reporting requirements of the Trust as a WHFIT.

Notwithstanding the foregoing, the middlemen holding units on behalf of unitholders, and not the Trustee of the Trust, are solely responsible for complying with the information reporting requirements under the Treasury Regulations with respect to such units, including the issuance of IRS Forms 1099 and certain written tax statements. Unitholders whose units are held by middlemen should consult with such middlemen regarding the information that will be reported to them by the middlemen with respect to the units.

Note 5 Excess Production Costs

Excess production costs result when costs, charges, and expenses attributable to a Working Interest Property exceed the revenue received from the sale of oil, gas, and other hydrocarbons produced from such property. The excess production costs must be recovered by the working interest owners before any distribution of Royalty income from the properties will be made to the Trust. As of June 30, 2015 and December 31, 2014, there were \$50,644 and \$478, respectively, of excess production costs. Excess production costs in the amount of \$478 and \$478 as of June 30, 2015 and December 31, 2014, respectively, related to the San Juan Basin New Mexico properties operated by XTO Energy Inc. XTO Energy Inc. made distributions to the Trust during the first and second quarters of 2015 without recovering the \$478 excess production costs. The remainder of the excess production costs in the amount of \$50,166 as of June 30, 2015 related to the San Juan Basin Colorado properties operated by BP and Red Willow. Excess production costs related to the San Juan Basin Colorado properties operated by BP were approximately \$48,816 as of June 30, 2015. As of March 31, 2015 there were excess production costs of \$33,359 related to the San Juan Basin Colorado properties operated by BP. The trust recovered prior period excess production costs of \$31,328 during the quarter ended June 30, 2015. Excess production costs related to the San Juan Basin Colorado properties operated by Red Willow were approximately \$1,350 as of June 30, 2015.

MESA ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 6 Distributable Income Per Unit

During 2011, the Trustee withheld \$1.0 million for future unknown contingent liabilities and expenses in accordance with the Trust Indenture. For the three months ended June 30, 2015, the Trustee decreased the reserve for future unknown contingent liabilities and expenses by the amount of expected expense reimbursement cash receipts of \$52,703 and increased the reserve for future unknown contingent liabilities and expenses by the amounts received during the second quarter of 2015 related to expense reimbursement cash receipts for previous periods totaling \$115,885. For the six months ended June 30, 2015, the Trustee has decreased the reserve for future unknown contingent liabilities and expenses by the amount of expected expense reimbursement cash receipts of \$54,436, including \$52,703 for the quarter ended June 30, 2015 and \$1,733 for the quarter ended March 31, 2015. The effect on distributable income per unit is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Distributable Income Before Reserve for Contingent Liabilities and Expenses	\$ 479,703	\$ 2,441,265	\$ 1,104,862	\$ 3,642,436
Increase in Reserve for Contingent Liabilities and Expenses (See Note 1)	(115,885)			
Withdrawal from Reserve for Contingent Liabilities and Expenses (See Note 1)	52,703		54,436	
Distributable income Available for Distribution	\$ 416,521	\$ 2,441,265	\$ 1,159,298	\$ 3,642,436
Distributable income Available for Distribution per unit	\$ 0.2235	\$ 1.3100	\$ 0.6221	\$ 1.9544
Units outstanding	1,863,590	1,863,590	1,863,590	1,863,590

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following review of the Trust's financial condition and results of operations should be read in conjunction with the financial statements and notes thereto. The discussion of net production attributable to the Hugoton and San Juan properties represents production volumes that are to a large extent hypothetical, as the Trust does not own and is not entitled to any specific production volumes. See Note 9 to the financial statements in the Trust's Annual Report on Form 10-K for the year ended December 31, 2014. Any discussion of "actual" production volumes represents the hydrocarbons that were produced from the properties in which the Trust has an overriding royalty interest.

The Trust is a passive entity whose purposes are limited to: (1) converting the Royalties to cash, either by retaining them and collecting the proceeds of production (until production has ceased or the Royalties are otherwise terminated) or by selling or otherwise disposing of the Royalties; and (2) distributing such cash, net of amounts for payments of liabilities to the Trust, to the unitholders. The Trust has no sources of liquidity or capital resources other than the revenues, if any, attributable to the Royalties and interest on cash held by the Trustee as a reserve for liabilities or for distribution.

Note Regarding Forward-Looking Statements

This Form 10-Q includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts included in this Form 10-Q, including without limitation the statements under "Management's Discussion and Analysis of Financial Condition and Results of Operations," are forward-looking statements. Although the Working Interest Owners have advised the Trust that they believe that the expectations reflected in the forward-looking statements contained herein are reasonable, no assurance can be given that such expectations will prove to be correct. Important factors that could cause actual results to differ materially from expectations ("Cautionary Statements") are disclosed in this Form 10-Q and in the Trust's Annual Report on Form 10-K for the year ended December 31, 2014, including under "Item 1A. Risk Factors". All subsequent written and oral forward-looking statements attributable to the Trust or persons acting on its behalf are expressly qualified in their entirety by the Cautionary Statements.

**SUMMARY OF ROYALTY INCOME, PRODUCTION AND AVERAGE PRICES
(Unaudited)**

Royalty income is computed after deducting the Trust's proportionate share of capital costs, operating costs and interest on any cost carryforward from the Trust's proportionate share of "Gross Proceeds," as defined in the Conveyance. The following summary illustrates the net effect of the components of the actual Royalty computation for the periods indicated.

	Three Months Ended June 30,			
	2015		2014	
	Natural Gas	Oil, Condensate and Natural Gas Liquids	Natural Gas	Oil, Condensate and Natural Gas Liquids
The Trust's proportionate share of Gross Proceeds(1)	\$ 825,298	\$ 306,931	\$ 1,591,566	\$ 855,702
Less the Trust's proportionate share of:				
Capital costs recovered	(19,993)	(9,985)	(43,824)	(28,440)
Operating costs	(509,111)	(154,109)	(485,663)	(248,124)
Net proceeds(2)	\$ 296,194	\$ 142,837	\$ 1,062,079	\$ 579,138
Royalty income(2)	\$ 313,001	\$ 142,837	\$ 1,026,927	\$ 579,138
Average sales price	\$ 2.44	\$ 15.42	\$ 4.47	\$ 29.99
Average production costs(3)	\$ 4.13	\$ 17.72	\$ 2.31	\$ 14.32
Net production volumes attributable to the Royalty paid(4)	(Mcf) 128,107	(Bbls) 9,261	(Mcf) 229,537	(Bbls) 19,313

-
- (1) Gross Proceeds from natural gas liquids attributable to the Hugoton and San Juan Basin Properties are net of a volumetric in-kind processing fee retained by Linn and ConocoPhillips, respectively. The Trustee engaged an independent consulting firm to audit revenues and expenses of certain working interest owners. As a result of the audit, the Trustee entered into a Settlement Agreement with one of the working interest owners, pursuant to which such working interest owner agreed to pay the Trust for certain audit exceptions noted by the Trustee for the calendar years 2006 through 2013. The Trust's gross proceeds for the month of April 2014 included \$881,595.
- (2) As a result of excess production costs incurred in one monthly operating period and then recovered in a subsequent monthly operating period, the Royalty income paid to the Trust may not agree to the Trust's royalty interest in the Net Proceeds. Excess production costs related to the San Juan Basin Colorado properties operated by BP and Red Willow were approximately \$48,816 and \$1,350, respectively as of June 30, 2015. Excess production costs related to the San Juan Basin Colorado properties operated by BP and Red Willow were approximately \$15,547 and \$1,350, respectively for the three months ended June 30, 2015. As of March 31, 2015 there were excess production costs of \$33,359 related to the San Juan Basin Colorado properties operated by BP. The trust recovered prior period excess production costs of \$31,328 during the quarter ended June 30, 2015. The excess production costs must be recovered by the working interest owners before any distribution of Royalty income will be made to the Trust. There was a \$677 joint venture audit adjustment by Linn for the quarter ended March 31, 2015.
- (3) Average production costs attributable to the Royalty are calculated as stated capital costs plus operating costs, divided by stated net production volumes attributable to the Royalty paid. As noted above in footnote (2), production costs may be incurred in one operating period and then recovered in a subsequent operating period, which may cause Royalty income paid to the Trust not to agree to the Trust's Royalty interest in the Net Proceeds.
- (4) Net production volumes attributable to the Royalty are determined by dividing Royalty income by the average sales price received.

Three Months Ended June 30, 2015 and 2014

Financial Review

	Three Months Ended June 30,	
	2015	2014
Royalty income	\$ 455,838	\$ 2,487,660
Interest income	25	
General and administrative income (expense)	23,840	(46,395)
Distributable income	\$ 479,703	\$ 2,441,265
Distributable income per unit	\$ 0.2574	\$ 1.3100
Units outstanding	1,863,590	1,863,590

The Trust's Royalty income was \$455,838 in the second quarter of 2015, a decrease of approximately 82% as compared to \$2,487,660 in the second quarter of 2014, primarily as a result of lower natural gas and natural gas liquids prices and reduced production of natural gas and natural gas liquids in the second quarter of 2015 as compared to the second quarter of 2014, offset in part by reduced capital expenditures and operating costs in the second quarter of 2015 compared to the second quarter of 2014. In addition, the Trust income distribution for the month of April 2014 included \$881,595. The Trustee engaged an independent consulting firm to audit revenues and expenses of certain working interest owners. As a result of the audit, the Trustee entered into a Settlement Agreement with one of the working interest owners, pursuant to which such working interest owner agreed to pay the Trust for certain audit exceptions noted by the Trustee for the calendar years 2006 through 2013.

General and Administrative income for the quarter ended June 30, 2015 was \$23,840 which was the result of net reimbursements of \$115,885 from the first quarter of 2015 exceeding Trust expenses of \$92,045 for the second quarter of 2015.

The distributable income available for distribution of the Trust for each period includes the Royalty income received from the working interest owners during such period, plus interest income earned to the date of distribution (if any) and increases or withdrawals from the reserve for contingent liabilities and expenses (if any). Trust administration expenses are deducted in the computation of distributable income available for distribution. Distributable income available for distribution for the quarter ended June 30, 2015 was \$416,521, representing \$.2235 per unit, compared to \$2,441,265, representing \$1.3100 per unit, for the quarter ended June 30, 2014. Based on 1,863,590 units outstanding for the quarters ended June 30, 2015 and 2014, respectively, the per unit distributions were as follows:

	2015	2014
April	\$.0780	\$.7513
May	.0573	.2836
June	.0882	.2751
	\$.2235	\$ 1.3100

Edgar Filing: MESA ROYALTY TRUST/TX - Form 10-Q

As of June 30, 2015, there were \$54,436 of unreimbursed expenses, including \$1,733 from the quarter ended March 31, 2015. The Trust anticipated receipt of these expense reimbursements by month-end when it published its March and June distribution press releases on March 20, 2015 and June 17, 2015, respectively, and included these amounts in distributions payable and distributable income per unit as of March 31, 2015 and June 30, 2015. The terms of the Trust Indenture provide, among other things, that the Trustee may establish cash reserves and borrow funds to pay liabilities of the Trust and may pledge assets of the Trust to secure payment of the borrowings. During 2011, the Trustee withheld \$1.0 million for future unknown contingent liabilities and expenses in accordance with the Trust Indenture, which is included in cash and short term investments. For the three months ended June 30, 2015, the Trustee decreased the reserve for future unknown contingent liabilities and expenses by the amount of expected expense reimbursement cash receipts of \$52,703. Additionally, the Trustee increased the reserve for future unknown contingent liabilities and expenses by the amounts received during the second quarter of 2015 related to expense reimbursement cash receipts for previous periods totaling \$115,885. As of June 30, 2015, the reserve for unknown contingent liabilities and expenses was \$945,564 and is included in cash and short term investments. The Trust has subsequently received \$49,825 of the expected expense reimbursement cash receipts as of August 14, 2015, which has increased the reserve for unknown contingent liabilities and expenses. The Trustee reserves the right to determine whether or not to release cash reserves in future periods with respect to any unreimbursed expenses.

Operational Review

Hugoton Field

Natural gas and natural gas liquids production attributable to the Royalty from the Hugoton field accounted for approximately 44% of the Royalty income of the Trust during the second quarter of 2015.

Linn has advised the Trust that since June 1, 1995 natural gas produced from the Hugoton field has generally been sold under short-term and multi-month contracts at market clearing prices to multiple purchasers. During 2014 the primary purchaser was Oneok Gas Marketing, Inc. Linn has advised the Trust that it expects to continue to market gas production from the Hugoton field under short-term and multi-month contracts. As discussed below, overall market prices received for natural gas from the Hugoton Royalty Properties were lower in the second quarter of 2015 compared to the second quarter of 2014.

In June 1994, PNR entered into a Gas Transportation Agreement ("Gas Transportation Agreement") with Western Resources, Inc. ("WRI") for a primary term of five years, commencing June 1, 1995. Thereafter, this contract has renewed on a year to year basis. WRI subsequently assigned its rights and obligations under the Gas Transportation Agreement to Oneok Field Services ("Oneok"), and PNR subsequently assigned its rights and obligations under the Gas Transportation Agreement to Linn. The current term will remain in effect through May 31, 2016, at which point Oneok has provided notice to terminate. Pursuant to the terms of the Gas Transportation Agreement, WRI initially agreed to compress and transport up to 160 MMcf per day of gas and redeliver such gas to PNR at the inlet of PNR's Satanta Plant. PNR agreed to pay WRI a fee of \$0.06 per Mcf escalating 4% annually as of June 1, 1996.

Edgar Filing: MESA ROYALTY TRUST/TX - Form 10-Q

Royalty income attributable to the Hugoton Royalty decreased to \$202,655 in the second quarter of 2015 from \$1,486,567 in the second quarter of 2014 primarily due to decreases in natural gas and natural gas liquids prices and lower natural gas volumes, offset in part by reduced capital expenditures, lower operating costs and an increase in natural gas liquids volumes from the Hugoton Royalty Properties. The average price received in the second quarter of 2015 for natural gas and natural gas liquids sold from the Hugoton Royalty Properties was \$3.31 per Mcf and \$14.10 per barrel, respectively, as compared to \$5.19 per Mcf and \$43.98 per barrel, respectively, in the second quarter of 2014. Net production of natural gas attributable to the Hugoton Royalty decreased to 46,037 Mcf in the second quarter of 2015 from 75,141 Mcf in the second quarter of 2014. Net production of natural gas liquids attributable to the Hugoton Royalty decreased to 3,565 barrels in the second quarter of 2015 from 4,888 barrels in the second quarter of 2014. Actual production volumes from the Hugoton properties decreased to 101,439 Mcf of natural gas and increased to 8,175 barrels of natural gas liquids in the second quarter of 2015 as compared to 114,331 Mcf of natural gas and 7,424 barrels of natural gas liquids for the same period in 2014.

The Hugoton capital expenditures were \$8,684 in the second quarter of 2015, as compared to \$10,419 in the second quarter of 2014. Operating costs were \$239,001 in the second quarter of 2015, a decrease of approximately 21% as compared to \$303,872 in the second quarter of 2014. The decrease in operating costs was due primarily to cost saving initiatives.

San Juan Basin

Royalty income from the San Juan Basin Royalty Properties is calculated and paid to the Trust on a state-by-state basis. Substantially all of the royalty income from the San Juan Basin Royalty Properties is attributable to the Royalty Properties located in the State of New Mexico.

Royalty income from the San Juan Basin New Mexico was \$251,930 during the second quarter of 2015 as compared with Royalty income of \$937,512 during the second quarter of 2014. This decrease in Royalty income was due primarily to a decrease in natural gas and natural gas liquids prices, decreased production of natural gas, offset in part by reduced capital expenditures and lower operating costs for the second quarter of 2015 compared to the second quarter of 2014. Net production attributable to the San Juan Basin Royalty Properties located in New Mexico was 81,273 Mcf of natural gas and 5,696 barrels of natural gas liquids in the second quarter of 2015, as compared to 136,885 Mcf of natural gas and 14,425 barrels of natural gas liquids in the second quarter of 2014. The average price received in the second quarter of 2015 for natural gas and natural gas liquids sold from the San Juan Basin Royalty Properties located in the State of New Mexico was \$1.96 per Mcf and \$16.25 per barrel, respectively, compared to \$4.19 per Mcf and \$25.24 per barrel during the same period in 2014. Actual production volumes of natural gas attributable to the San Juan Basin Royalty Properties located in the State of New Mexico decreased to 173,454 Mcf in the second quarter of 2015 from 198,029 Mcf of natural gas for the same period in 2014. Actual production volumes of natural gas liquids attributable to the San Juan Basin Royalty Properties located in the State of New Mexico decreased to 14,230 barrels in the second quarter of 2015 from 22,566 barrels for the same period in 2014. The overall decrease in production volumes is consistent with a normal decline in production for this field.

Capital expenditures on these properties were \$21,294 in the second quarter of 2015, a decrease of approximately 66% as compared to \$61,845 in the second quarter of 2014, primarily due to decreased spending on facilities in the second quarter of 2015 compared to the second quarter of 2014. Operating costs were \$259,858 in the second quarter of 2014, a decrease of approximately 28% as compared to

Edgar Filing: MESA ROYALTY TRUST/TX - Form 10-Q

\$359,640 in the second quarter of 2014 due to a decrease in severance taxes due to the natural decline in volumes from the field as well as the decline in the price of natural gas and natural gas liquids.

The Trust's interest in the San Juan Basin was conveyed from PNR's working interest in 31,328 net producing acres in northwestern New Mexico and southwestern Colorado. Substantially all of the natural gas produced from the San Juan Basin is currently being sold on the spot market.

Royalty income from the San Juan Basin Colorado Royalty Properties was \$1,253 during the second quarter of 2015, compared to \$63,581 during the second quarter of 2014. This decrease in Royalty income was due primarily to increased operating expenses in the second quarter of 2015 compared to the second quarter of 2014 and a decrease in the price received for natural gas, offset in part by increased natural gas production in the second quarter of 2015 compared to the second quarter of 2014. Net production attributable to the San Juan Basin Royalty Properties located in Colorado was 797 Mcf of natural gas during the second quarter of 2015 with 17,512 Mcf of natural gas attributable to the Trust during the second quarter of 2014. The average price received in the second quarter of 2015 for natural gas sold from the San Juan Basin Colorado Properties was \$1.57 per Mcf, as compared to average price of \$3.63 per Mcf for the second quarter of 2014. Actual production volumes attributable to the San Juan Basin Colorado Properties increased to 77,096 Mcf of natural gas in the second quarter of 2015 from 46,654 Mcf of natural gas for the same period in 2014.

Operating costs on these properties were \$164,361 in the second quarter of 2015 as compared to \$70,275 in the second quarter of 2014 due primarily to increased labor and supervision costs.

Edgar Filing: MESA ROYALTY TRUST/TX - Form 10-Q

Six Months Ended June 30, 2015 and 2014

Financial Review

	Six Months Ended June 30,	
	2015	2014
Royalty income	\$ 1,245,928	\$ 3,732,244
Interest income	25	35

Distributable income per unit	\$ 0.5929	\$ 1.9545
Units outstanding	1,863,590	1,863,590

The Trust's Royalty income was \$1,245,928 for the six months ended June 30, 2015, a decrease of approximately 67% as compared to \$3,732,244 for the six months ended June 30, 2014, primarily as a result of decreased natural gas and natural gas liquids prices and production volumes, offset in part by reduced capital expenditures and lower operating costs in the first six months of 2015 as compared to the first six months of 2014. In addition, the Trust income distribution for the month of April 2014 included \$881,595. The Trustee engaged an independent consulting firm to audit revenues and expenses of certain working interest owners. As a result of the audit, the Trustee entered into a Settlement Agreement with one of the working interest owners, pursuant to which such working interest owner agreed to pay the Trust for certain audit exceptions noted by the Trustee for the calendar years 2006 through 2013.

The distributable income of the Trust for each period includes the Royalty income received from the working interest owners during such period, plus interest income earned to the date of distribution. Trust administration expenses are deducted in the computation of distributable income. Distributable income for the six months ended June 30, 2015 was \$1,104,862, representing \$.5929 per unit, compared to \$3,642,436, representing \$1.9545 per unit, for the six months ended June 30, 2014.

As of June 30, 2015, there were \$54,436 of unreimbursed expenses, including \$1,733 from the quarter ended March 31, 2015. The Trust anticipated receipt of these expense reimbursements by month-end when it published its March and June distribution press releases on March 20, 2015 and June 17, 2015, respectively, and included these amounts in distributions payable and distributable income per unit as of March 31, 2015 and June 30, 2015. The terms of the Trust Indenture provide, among other things, that the Trustee may establish cash reserves and borrow funds to pay liabilities of the Trust and may pledge assets of the Trust to secure payment of the borrowings. During 2011, the Trustee withheld \$1.0 million for future unknown contingent liabilities and expenses in accordance with the Trust Indenture, which is included in cash and short term investments. For the three months ended June 30, 2015, the Trustee decreased the reserve for future unknown contingent liabilities and expenses by the amount of expected expense reimbursement cash receipts of \$52,703. Additionally, the Trustee increased the reserve for future unknown contingent liabilities and expenses by the amounts received during the second quarter of 2015 related to expense reimbursement cash receipts for previous periods totaling \$115,885. As of June 30, 2015, the reserve for unknown contingent liabilities and expenses was \$945,564 and is included in cash and short term investments. The Trust has subsequently received \$49,825 of the expected expense reimbursement cash receipts as of August 14, 2015, which has

Edgar Filing: MESA ROYALTY TRUST/TX - Form 10-Q

increased the reserve for unknown contingent liabilities and expenses. The Trustee reserves the right to determine whether or not to release cash reserves in future periods with respect to any unreimbursed expenses.

Operational Review

Hugoton Field

Natural gas and natural gas liquids revenue from the Hugoton field attributable to the Royalty accounted for approximately 46% of the Royalty income of the Trust during the six months ended June 30, 2015.

Royalty income attributable to the Hugoton Royalty Properties decreased to \$576,957 for the six months ended June 30, 2015 from \$1,934,277 for the same period in 2014 primarily due to lower prices for natural gas and natural gas liquids, lower natural gas and natural gas liquids production volumes, offset in part by reduced operating costs and capital expenditures from the Hugoton Royalty Properties in the first six months of 2015 compared to the first six months of 2014. In addition, the Trust income distribution for the month of April 2014 included \$881,595. The Trustee engaged an independent consulting firm to audit revenues and expenses of certain working interest owners. As a result of the audit, the Trustee entered into a Settlement Agreement with one of the working interest owners, pursuant to which such working interest owner agreed to pay the Trust for certain audit exceptions noted by the Trustee for the calendar years 2006 through 2013. The average price received in the first six months of 2015 for natural gas and natural gas liquids sold from the Hugoton field was \$3.75 per Mcf and \$15.33 per barrel, respectively, compared to \$4.51 per Mcf and \$39.44 per barrel, respectively, during the same period in 2014. Net production attributable to the Hugoton Royalty Properties decreased to 118,017 Mcf of natural gas and 8,722 barrels of natural gas liquids for the six months ended June 30, 2015 as compared to 143,991 Mcf of natural gas and 10,225 barrels of natural gas liquids for the six months ended June 30, 2014. Actual production volumes attributable to the Hugoton Royalty Properties decreased to 207,898 Mcf of natural gas and 16,208 barrels of natural gas liquids in the six months ended June 30, 2015 as compared to 228,986 Mcf of natural gas and 16,339 barrels of natural gas liquids for the same period in 2014. The decrease in natural gas and natural gas liquids volumes was due primarily to changes in plant recoveries during the second quarter of 2015 compared with the second quarter of 2014.

Capital expenditures on these properties were \$10,264 during the six months ended June 30, 2015, a decrease of approximately 46% as compared to \$19,161 during the six months ended June 30, 2014. Operating costs were \$441,918 during the six months ended June 30, 2015, a decrease of approximately 27% as compared to \$603,708 during the six months ended June 30, 2014 due to cost saving initiatives.

San Juan Basin

Royalty income from the San Juan Basin New Mexico was \$651,422 for the first six months of 2015 compared to \$1,667,808 for the first six months of 2014. The decrease in Royalty income was due primarily to lower natural gas and natural gas liquids prices and lower production volumes for both natural gas and natural gas liquids, offset in part by reduced capital expenditures and lower operating costs in the first six months of 2015 from the San Juan Basin properties compared to the same period in 2014. The average price received in the six months ended June 30, 2015 for natural gas and natural gas liquids sold from the San Juan Basin Royalty Properties located in the state of New

Edgar Filing: MESA ROYALTY TRUST/TX - Form 10-Q

Mexico was \$2.42 per Mcf and \$14.10 per barrel, respectively, compared to \$3.77 per Mcf and \$26.19 per barrel, respectively, during the same period in 2014. Net production attributable to the San Juan Basin Royalty located in New Mexico was 187,834 Mcf of natural gas and 14,012 barrels of natural gas liquids for the six months ended June 30, 2015 as compared to 256,609 Mcf of natural gas and 26,786 barrels of natural gas liquids for the six months ended June 30, 2014. Actual production volumes attributable to the San Juan Basin Royalty Properties decreased to 359,470 Mcf of natural gas and decreased to 29,681 barrels of natural gas liquids in the six months ended June 30, 2015 as compared to 383,658 Mcf of natural gas and 44,494 barrels of natural gas liquids for the same period in 2014.

San Juan-New Mexico capital expenditures were \$61,574 during the six months ended June 30, 2015, a decrease of approximately 47% as compared to \$116,766 during the six months ended June 30, 2014. This decrease is due to decreased spending on facilities during the six months ended June 30, 2015 when compared to the six months ended June 30, 2014. Operating costs were \$536,726 during the six months ended June 30, 2015, a decrease of approximately 25% as compared to \$717,088 during the six months ended June 30, 2014. The decrease in operating costs was primarily affected by the decrease in severance taxes due to the natural decline in volumes from the field as well as the decline in the price of natural gas and natural gas liquids.

Royalty income from the San Juan Basin Colorado Royalty Properties was \$17,549 for the six months ended June 30, 2015, compared to \$130,159 during the same period in 2014. The decrease in Royalty income was primarily the result of increased operating costs and lower prices for natural gas, offset in part by increased natural gas production in the six months ended June 30, 2015 compared to the same period in 2014. Net production attributable to the San Juan Basin Royalty Properties located in Colorado was 7,958 Mcf of natural gas during the six months ended June 30, 2015 with 42,106 Mcf of natural gas attributable to the Trust during the same period in 2014. The average price received for the six months ended June 30, 2015 for natural gas sold from the San Juan Basin Colorado Properties was \$2.21 per Mcf, compared to \$3.09 per Mcf received during the same period in 2014. Actual production volumes attributable to the San Juan Basin Colorado Properties increased to 129,222 Mcf of natural gas for the six months ended June 30, 2015 as compared to 95,485 Mcf of natural gas for the same period in 2014.

Operating costs on these properties were \$318,473 for the six months ended June 30, 2015 an increase of approximately 93% as compared to \$164,934 in the same period in 2014 due primarily to increased labor and supervision costs.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Trust does not engage in any operations, and does not utilize market risk sensitive instruments, either for trading purposes or for other than trading purposes. The Trust's monthly distributions are highly dependent upon the prices realized from the sale of natural gas and natural gas liquids. Natural gas and natural gas liquids prices can fluctuate widely on a month-to-month basis in response to a variety of factors that are beyond the control of the Trust and the working interest owners. Factors that contribute to price fluctuation include, among others:

political conditions worldwide, in particular political disruption, war or other armed conflict in or affecting oil producing regions;

worldwide economic conditions;

weather conditions, including hurricanes and tropical storms in the Gulf of Mexico;

the supply and price of foreign natural gas;

the level of consumer demand;

the price and availability of alternative fuels;

the proximity to, and capacity of, transportation facilities; and

the effect of worldwide energy conservation measures.

Moreover, government regulations, such as regulation of natural gas transportation and regulation of greenhouse gas and other emissions associated with fossil fuel combustion and price controls, can affect product prices in the long term.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures. The Trustee maintains disclosure controls and procedures designed to ensure that information required to be disclosed by the Trust in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and regulations. Disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed by the Trust in the reports that it files or submits under the Exchange Act is accumulated and communicated by the working interest owners to The Bank of New York Mellon Trust Company, N.A., as Trustee of the Trust, and its employees who participate in the preparation of the Trust's periodic reports as appropriate to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report, the trust officer acting on behalf of the Trustee responsible for the administration of the Trust conducted an evaluation of the Trustee's disclosure controls and procedures. The officer acting on behalf of the Trustee concluded that the Trust's disclosure controls and procedures were effective.

Due to the contractual arrangements of (i) the Trust Indenture and (ii) the rights of the Trust under the Conveyance regarding information furnished by the working interest owners, the Trustee relies on information provided by the working interest owners, including (i) the status of litigation, (ii) historical operating data, plans for future operating and capital expenditures and reserve information, (iii) information relating to projected production, and (iv) conclusions regarding reserves by their internal reserve engineers or other experts in good faith. See Part I Item 1A. "Risk Factors Trust unitholders and the Trustee have no control over the operation or development of the Royalty Properties and have little influence over operation or development" and "The Trustee relies upon the working interest owners for information regarding the Royalty Properties" in the Trust's Annual Report on Form 10-K for the year ended December 31, 2014 for a description of certain risks relating to these arrangements and reliance, including filings such as this filing outside the time periods specified notwithstanding effective disclosure controls and procedures of the Trustee regarding information under its control.

The officer acting on behalf of the Trustee has not conducted a separate evaluation of the disclosure controls and procedures with respect to information furnished by the working interest owners. The Trustee notes that it is conducting an ongoing review of certain information and

Edgar Filing: MESA ROYALTY TRUST/TX - Form 10-Q

calculations by the working interest owners, along with an outside joint venture auditor. See "Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources" under Item 7 on Form 10-K for the year ended December 31, 2014 for information concerning controls and procedures with respect to the Royalty.

Changes in Internal Control over Financial Reporting. In connection with the evaluation by the Trustee of changes in internal control over financial reporting of the Trust that occurred during the Trust's last fiscal quarter, no change in the Trust's internal control over financial reporting was identified that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting. The Trustee notes for purposes of clarification that it has no authority over, has not evaluated and makes no statement concerning the internal control over financial reporting of the working interest owners.

PART II OTHER INFORMATION**Item 1. Legal Proceedings.**

There are no pending legal proceedings to which the Trust is a named party. The Trustee has been advised by Linn, ConocoPhillips and BP that it is subject to litigation in the ordinary course of business for certain matters that include the Royalty Properties. While each of the working interest owners has advised the Trustee that it does not currently believe any of the pending litigation will have a material adverse effect net to the Trust, in the event such matters were adjudicated or settled in a material amount and charges were made against Royalty income, such charges could have a material impact on future Royalty income.

Item 1A. Risk Factors.

There have not been any material changes from risk factors previously disclosed in Item 1A to Part 1 of the Trust's Annual Report on Form 10-K for the year ended December 31, 2014.

Item 6. Exhibits.
