This power:

(a) shall be limited to the allotment of equity securities up to an aggregate nominal amount of £157,500.00;

Notes

- (a) Only those members registered in the register of members of the Company at 6:30 p.m. London time (1:30 p.m. Eastern Standard Time) on April 30, 2019 will be entitled to attend and vote at the Annual General Meeting ("AGM") in respect of the number of ordinary shares registered in their name at the time. Changes to entries on the relevant register after that deadline will be disregarded in determining the rights of any person to attend and vote at the AGM. Should the AGM be adjourned to a time not more than 48 hours after the deadline, the same deadline will also apply for the purpose of determining the entitlement of members to attend and vote (and for the purpose of determining the number of votes they may cast) at the adjourned AGM. Should the AGM be adjourned for a longer period, then to be so entitled, members must be entered on the Register at the time which is 48 hours before the time fixed for the adjourned AGM or, if the Company gives notice of the adjourned AGM, at the time specified in the notice.
- (b) Any member may appoint a proxy to attend, speak and vote on his/her behalf. A member may appoint more than one proxy in relation to the AGM provided that each proxy is appointed to exercise the rights attached to a different share or shares of the member. A proxy need not be a member, but must attend the meeting in person. Proxy forms should be lodged with the Company's Registrar (Computershare) not later than 11:00 a.m. London time (6:00 a.m. Eastern Standard Time) on April 30, 2019. Completion and return of the appropriate proxy form does not prevent a member from attending and voting in person if he/she is entitled to do so and so wishes. The attached proxy statement explains proxy voting and the matters to be voted on in more detail. Please read the proxy statement carefully. For specific information regarding the voting of your ordinary shares, please refer to the proxy statement under the section entitled "*Questions and Answers About Voting.*"
- (c) Any corporation which is a member can appoint one or more corporate representatives who may exercise on its behalf all of its powers as a member provided that they do not do so in relation to the same shares.
- (d) In the case of joint holders, the vote of the senior who tenders the vote whether in person or by proxy will be accepted to the exclusion of the votes of any other joint holders. For these purposes, seniority shall be determined by the order in which the names stand in the Company's relevant register or members for the certificated or uncertificated shares of the Company (as the case may be) in respect of the joint holding.
- (e) CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so for the AGM and any adjournments of it by using the procedures described in the CREST Manual. CREST personal members or other CREST sponsored members, and those CREST members who have appointed voting service providers, should refer to their sponsors or voting service providers, who will be able to take the appropriate action on their behalf.

For a proxy appointment or instruction made using the CREST service to be valid, the appropriate CREST message (a "**CREST Proxy Instruction**") must be properly authenticated in accordance with Euroclear's specifications and must contain the information required for those instructions as described in the CREST Manual (available via www.euroclear.com). The message, regardless of whether it relates to the appointment of a proxy or to an amendment to the instruction given to the previously appointed proxy, must, to be valid, be transmitted so as to be received by the Company's agent 3RA50 by 11:00 a.m. London time (6:00 a.m. Eastern Standard Time) on April 30, 2019. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the Company's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time, any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.

Edgar Filing: Adaptimmune Therapeutics PLC - Form DEF 14A

Table of Contents

CREST members and, where applicable, their CREST sponsors or voting service providers should note that Euroclear UK does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will, therefore, apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed voting service providers, to procure that its CREST sponsors or voting service providers take) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.

- (f) As of March 13, 2019 (being the last practicable date before circulation of this Notice), the Company's issued ordinary share capital consisted of 628,273,312 ordinary shares, carrying one vote each. Therefore, the total voting rights in the Company as of that date are 628,273,312.
- (g) Under s527 Companies Act 2006, members meeting the threshold requirement set out in that section have the right to require the Company to publish on a website a statement setting out any matter relating to: (i) the audit of the Company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the AGM; or (ii) any circumstance connected with an auditor of the Company ceasing to hold office since the previous meeting at which annual accounts and reports were laid in accordance with s437 Companies Act 2006. The Company may not require the shareholders requesting any such website publication to pay its expenses in complying with ss527 or 528 Companies Act 2006. Where the Company is required to place a statement on a website under s527 Companies Act 2006, it must forward the statement to the Company's auditor not later than the time when it makes the statement available on the website. The business which may be dealt with at the AGM includes any statement that the Company has been required, under s527 Companies Act 2006, to publish on a website.
- (h) Except as set out in the notes to this Notice, any communication with the Company in relation to the AGM, including in relation to proxies, should be sent to the Company's Registrar, Computershare Investor Services PLC, The Pavilions, Bridgwater Road, Bristol, BS99 6ZY, England. No other means of communication will be accepted. In particular, you may not use any electronic address provided either in this notice or in any related documents to communicate with the Company for any purpose other than those expressly stated.
- (i) Copies of the service agreement for our executive director and of the letters of appointment for our non-executive directors will be available for inspection at the registered office of the Company during normal business hours on any week day (public holidays excepted) from the date of this Notice of AGM until the date of the AGM, and at the place of the AGM for one hour before the meeting and at the meeting itself.

What are the requirements to elect the directors and approve each of the proposals?

You may cast your vote for or against proposals 1 through 11 or abstain from voting your shares on one or more of these proposals.

Proposals 1 through 10 will be proposed as ordinary resolutions. Proposal 11 will be proposed as a special resolution. Under English law, assuming that a quorum is present, an ordinary resolution is passed on a show of hands if it is approved by a simple majority (more than 50%) of the votes cast by shareholders present (in person or by proxy) at the Meeting and entitled to vote. If a poll is demanded, an ordinary resolution is passed if it is approved by holders representing a simple majority of the total voting rights of shareholders present (in person or by proxy) who (being entitled to vote) vote on the resolution. Special resolutions require the affirmative vote of not less than 75% of the votes cast by shareholders present (in person or by proxy) at the Meeting and entitled to vote. On a poll, a special resolution is passed if it is approved by holders representing not less than 75% of the total voting rights of shareholders present (in person or by proxy) who (being entitled to vote) vote on the resolution.

The result of the shareholder votes on the ordinary resolutions in proposals 6, 7, 8 and 9 regarding receipt of our U.K. statutory annual accounts and reports for the year ended December 31, 2018, approval of the compensation of our named executive officers for the year ended December 31, 2018, advisory votes on the preferred frequency of future votes on executive compensation and approval of our U.K. statutory directors' annual report on remuneration for the year ended December 31, 2018 will not require our Board of Directors or any committee thereof to take any action. Nonetheless, our Board of Directors values the opinions of our shareholders as expressed through such votes and will carefully consider the outcome of the votes on proposals 6, 7, 8 and 9.

What constitutes a quorum?

For the purposes of the Meeting, a quorum will be present if members holding at least one-third in number of the issued ordinary shares of the Company and entitled to vote are present in person or represented by proxy at the Meeting.

If you are an ordinary shareholder of record, your shares will be counted towards the quorum only if you are present in person or represented by proxy at the Meeting. If you are a beneficial owner of ordinary shares held in an account at a brokerage firm, bank or other similar organization your shares will be counted towards the quorum if your broker or nominee submits a proxy for those shares and the proxy represents the holder at the Meeting. A member represented by a proxy at the Meeting will be counted towards the quorum requirement even where the proxy abstains from voting. If a form of proxy does not instruct the proxy how to vote, the proxy may vote as he or she sees fit or abstain in relation to any business of the Meeting, but the member represented by that proxy at the Meeting will be counted towards the quorum requirement. If there is no quorum, the Meeting will stand adjourned to such time, date and place as may be fixed by the chairperson of the Meeting (being not less than 10 days later), and, if a quorum is not present at the adjourned meeting, the Meeting will be dissolved.

How are votes counted?

Votes will be counted by Computershare, who will separately count "for" and "against" votes, and "votes withheld" or abstentions.

How many votes do I have?

On a show of hands, each ordinary shareholder of record present in person, and each duly authorised representative present in person of a shareholder that is a corporation, has one vote. On a show of hands, each proxy present in person who has been duly appointed by one or more shareholders has one vote, but a proxy has one vote for and one vote against a resolution if, in certain circumstances, the proxy is instructed by more than one shareholder to vote in different ways on a resolution. On a poll, each shareholder present in person or by proxy or (being a corporation) by a duly authorised representative has one vote for each share held by the shareholder.

What if I plan to attend the Meeting?

Attendance at the Meeting will be limited to ordinary shareholders of record as of 6:30 p.m. London time (1:30 p.m. Eastern Standard Time) on Tuesday, April 30, 2019. The initial solicitation of proxies may be supplemented by additional mail communications and by telephone, fax, e-mail, internet and personal solicitation by our directors, officers or other employees. No additional compensation for soliciting proxies will be paid to our directors, officers or other employees for their proxy solicitation efforts. We also reimburse Citibank, N.A. for their expenses in sending materials, including ADS proxy cards, to ADS holders of record.

What do I do if I receive more than one notice or form of proxy?

If you hold your ordinary shares in more than one account, you will receive a form of proxy for each account. To ensure that all of your shares are voted, please sign, date and return all forms of proxy. Please be sure to vote all of your shares.

Will there be any other business conducted at the Meeting?

No. In accordance with our Articles of Association, no matters other than proposals 1 through 11 may be presented at this Meeting. We have not been notified of, and our Board is not aware of, any other matters to be presented for action at the Meeting.

ELECTION OF DIRECTORS

Our Board of Directors currently consists of nine directors.

Our Articles of Association require that those directors who were appointed since our 2018 Annual General Meeting must retire from office and offer themselves for re-election. Accordingly, Mr. John Furey will retire from office and offer himself for re-election by our shareholders at the 2019 AGM.

Additionally, our Articles of Association require one-third (or such number nearest to but not exceeding one-third) of our directors who are subject to retirement by rotation to retire from office at each annual general meeting effective from the 2016 Annual General Meeting, commencing with the longest-serving directors. In the case of equal tenure, retirement is by agreement. Of the eight directors subject to retirement by rotation, Dr. Ali Behbahani and Mr. James Noble will, on this occasion, retire from office and stand for re-election by our shareholders.

Having carried out an evaluation of the individual performance of each of Mr. Furey, Dr. Behbahani and Mr. Noble with the support of the Corporate Governance and Nominating Committee, the Board is satisfied that their performance continues to be effective and that they continue to demonstrate commitment to their roles. The Board considers that it is entirely appropriate for each of Mr. Furey, Dr. Behbahani and Mr. Noble to seek re-election at the AGM.

Each of the above directors has been nominated for re-election and no other nominees for directors have been presented. Therefore, it is anticipated that following the AGM, if all of the above directors are re-elected, the Board of Directors will be comprised of nine members.

In connection with proposals 1 through 3, we set forth the biographical information for the nominees to our Board of Directors. For biographical information for the other directors see *Board of Directors and Corporate Governance*.

PROPOSAL 7 ADVISORY (NON-BINDING) VOTE TO APPROVE THE COMPANY'S EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act, as amended, and Section 14A of the Securities Exchange Act of 1934, as amended (the "Exchange Act") enable our shareholders to approve, on an advisory, non-binding basis, the compensation of our named executive officers as disclosed under the "Compensation Discussion and Analysis" section, the 2018 Summary Compensation Table and the related compensation tables, notes, and narrative in this proxy statement.

This proposal, known as a "Say-on-Pay" proposal, gives our shareholders the opportunity to express their views on our named executive officers' compensation as a whole. This vote is not intended to address any specific item of compensation or any specific named executive officer, but rather the overall compensation of all of our named executive officers and the philosophy, policies and practices described in this proxy statement.

Our compensation programs are designed to support our business goals and promote our long-term profitable growth. Our equity plans are intended to align compensation with the long-term interests of our shareholders. We urge shareholders to read the "Compensation Discussion and Analysis", which describes in more detail how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives. We also encourage you to review the 2018 Summary Compensation Table and other related compensation tables and narratives, which provide detailed information on the compensation of our named executive officers. The Board and the Remuneration Committee believe that the policies and procedures described and explained in the "Compensation Discussion & Analysis" are effective in achieving our goals.

The vote under this Proposal No. 7 is advisory, and therefore not binding on the Company, the Board or our Remuneration Committee. However, our Board of Directors and Remuneration Committee values the opinions of our shareholders and will review and consider the voting results when making future decisions regarding our executive compensation program.

Shareholders will be asked at the Meeting to approve the following resolution pursuant to this Proposal No. 7:

"RESOLVED, that the shareholders of the Company approve, on a non-binding, advisory basis, the compensation of the Company's "named executive officers," as disclosed in this proxy statement under the "Compensation Discussion and Analysis" section, the compensation tables and the narrative disclosures that accompany the compensation tables."

PROPOSAL 8 ADVISORY VOTE ON THE FREQUENCY OF FUTURE VOTES ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act, as amended, enables our shareholders to indicate, at least once every six years, how frequently we should seek a non-binding vote on the compensation of our named executive officers, as disclosed pursuant to the SEC's compensation disclosure rules. By voting on this Proposal No. 8, shareholders may indicate whether they would prefer a non-binding vote on named executive officer compensation once every one, two, or three years.

Our Board believes that it is appropriate to give our shareholders the opportunity to provide regular input on our executive compensation program through an advisory vote. Accordingly, our Board recommends that you vote to hold an advisory vote on executive compensation every year.

We understand that our shareholders may have different views as to what is the best approach for the Company, and we look forward to hearing from our shareholders on this Proposal.

You may cast your vote on your preferred voting frequency by choosing the option of one year, two years, three years, or abstain from voting when you vote in response to the resolution set forth below:

"RESOLVED, that the option of once every one year, two years, or three years that receives the highest number of votes cast for this resolution will be determined to be the preferred frequency with which the Company is to hold a shareholder vote to approve the compensation of the named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the compensation tables, and the other related disclosure."

The option of one year, two years, or three years that receives the highest number of votes cast by shareholders will be the frequency for the advisory vote on executive compensation that has been selected by shareholders. However, because this vote is advisory and not binding on the Company, our Remuneration Committee, or our Board in any way, we may decide that it is in the best interests of our shareholders and the Company to hold an advisory vote on executive compensation more or less frequently than the vote frequency approved by our shareholders.

Our Board of Directors has approved and signed the report in accordance with English law.

At the Meeting, the shareholders will vote on the annual report on remuneration. This vote is advisory and non-binding. BACKGROUND TO PROPOSALS 10 AND 11

Pursuant to the U.K. Companies Act 2006, our Board of Directors may only allot shares or grant rights over shares if authorized to do so by our shareholders. If so authorized, the U.K. Companies Act 2006 requires us, where the allotment is for cash, to offer them in the first instance to our existing shareholders in proportion to their holdings, unless the shareholders have sanctioned the disapplication of their statutory rights of pre-emption in respect of such allotment or grant of rights.

Our Board of Directors anticipates that there may be occasions when they need flexibility to finance business opportunities and growth, or otherwise act in the best interests of the Company, by the issuance of shares or grant of rights over shares without a pre-emptive offer to existing shareholders. To ensure our continued ability to respond to market conditions and address business needs, our Board of Directors considers it appropriate that they be authorized to allot shares up to an aggregate nominal amount of £207,288.00 and within this amount be empowered to allot shares or grant rights over shares up to an aggregate nominal amount of £157,500.00 on a non-pre-emptive basis. This authority to allot shares and power to allot shares on a non-pre-emptive basis will replace all of the existing authorities and powers granted by our shareholders.

These proposals are fully compliant with U.K. company law, consistent with U.S. capital markets practice and governance standards, and if approved, will keep us on an equal footing with our peer companies who are incorporated in the U.S.A. We are asking you to approve these proposals to allow us to continue to execute on our business and growth strategy in a timely and competitive manner.

The full details of the proposals are set forth below.

PROPOSAL 10 AUTHORIZATION OF ALLOTMENT OF SHARES

Under the U.K. Companies Act 2006, our Board of Directors cannot allot shares in the Company (other than pursuant to an employee share scheme) unless they are authorized to do so by the Company in general meeting. The Directors currently have an existing authority to allot shares in the Company and to grant rights to subscribe for or convert securities into shares in the Company. This authority was granted to the Directors on June 21, 2017 and was in respect of a maximum aggregate nominal amount of £140,000.00, which represented approximately 25% of the then issued ordinary share capital of the Company, and it remains unexercised in respect of approximately 11% of the Company's issued ordinary share capital. Resolution 10 is an ordinary resolution to seek a new authority, which will replace the existing authority.

Resolution 10 proposes that the Directors are granted authority to allot new shares or to grant rights to subscribe for or to convert any security into shares in the Company up to a maximum aggregate nominal amount of £207,288.00. This amount represents approximately 33% of the issued share capital of the Company as of March 13, 2019. If approved by shareholders, this authority will run for five years and will expire on May 1, 2024.

The Directors have no present intention of exercising this authority, except in relation to the Company's share incentive schemes, but believe it is in the interests of shareholders for the Directors to have this flexibility to allot shares otherwise than just in relation to the Company's share incentive schemes should circumstances and their intentions change.

PROPOSAL 11 DISAPPLICATION OF PRE-EMPTION RIGHTS

This Resolution seeks a disapplication of pre-emption rights for cash issues of up to a certain proportion of the Company's issued ordinary share capital. Our Board of Directors currently has a power to allot shares as if the rights of pre-emption applicable under the U.K. Companies Act did not apply for cash issues. This power was granted to the Directors pursuant to shareholder resolutions passed on June 21, 2017 and was in respect of a maximum aggregate nominal amount of £140,000.00, which represented approximately 25% of the then issued ordinary share capital of the Company, and it remains unexercised in respect of approximately 11% of the Company's issued ordinary share capital.

The Directors have decided to seek a new disapplication of pre-emption rights for cash issues to replace the existing power. This Resolution will, if passed, give the Directors power, pursuant to the authority to allot granted by Resolution 10, to allot shares for cash or to grant rights to subscribe for or to convert any security into shares without first offering them to existing shareholders in proportion to their existing holdings up to an aggregate maximum nominal amount of £157,500.00, which represents approximately 25% of the Company's issued share capital as of March 13, 2019.

This Resolution will be required to be passed as a special resolution and, if passed, this power will expire at the end of the AGM of the Company to be held in 2021.

The Directors have no present intention of exercising this power, except in relation to the Company's share incentive schemes, but believe it is in the interests of shareholders for the Directors to have this flexibility to allot shares for cash otherwise than just in relation to the Company's share incentive schemes should circumstances and their intentions change.

CORPORATE GOVERNANCE

Structure of our Board of Directors

The leadership structure of our Board of Directors separates the positions of Chief Executive Officer and Chairman of the Board in order to ensure independent leadership of the Board. Our Board believes that this separation is appropriate for the Company at this time because it allows for a division of responsibilities, with our CEO focused on leading the Company while the Chairman can

Table of Contents

focus on leading the Board in overseeing management, and for a sharing of ideas between individuals having different perspectives.

Independence of our Board of Directors

Our Board of Directors has determined that all of our directors, other than James Noble, our CEO, qualify as "independent" directors in accordance with the independence requirements under the applicable listing standards of The Nasdaq Global Market as well as applicable rules promulgated by the SEC. Mr. Noble is not considered independent because he is an employee of the Company.

Our Board of Directors has made a subjective determination as to each independent director that no relationships exist that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, our Board of Directors reviewed and discussed information provided by the directors and us with regard to each director's business and personal activities and relationships as they may relate to us and our management. There are no family relationships among any of our directors or executive officers.

Our independent directors meet in regularly scheduled executive sessions at which only independent directors are present. All of the committees of our Board of Directors are comprised entirely of directors determined by the Board of Directors to be independent.

Board Oversight of Risk Management

Our management is primarily responsible for assessing and managing risk, while our Board of Directors is responsible for overseeing management's execution of its responsibilities. Our Board of Directors is supported by its committees in fulfillment of this responsibility. For example, our Audit Committee focuses on our overall financial risk by evaluating our internal controls and disclosure policies as well as ensuring the integrity of our financial statements and periodic reports. The Audit Committee also monitors compliance with legal and regulatory requirements. Our Remuneration Committee strives to create incentives that encourage an appropriate level of risk-taking consistent with our business strategy. Finally, our Corporate Governance and Nominating Committee ensures that our governance policies and procedures are appropriate in light of the risks we face.

COMMITTEES OF OUR BOARD OF DIRECTORS

Our Board of Directors has three standing committees: the Audit Committee, the Remuneration Committee, and the Corporate Governance and Nominating Committee. The charters for each of these committees can be found on our website at <https://www.adaptimmune.com>.

Audit Committee

Our Audit Committee is currently composed of Mr. Alleva, Ms. Duncan and Mr. Kerr, with Mr. Alleva serving as chairman of the committee. Our Board of Directors has determined that each member of the Audit Committee meets the independence requirements of Rule 10A-3 under the Exchange Act and the applicable listing standards of The Nasdaq Global Market. Our Board of Directors has determined that each of Mr. Alleva, Ms. Duncan and Mr. Kerr is an "audit committee financial expert" within the meaning of SEC regulations and the applicable listing standards of The Nasdaq Global Market. The Audit Committee held eight meetings during 2018. The Audit Committee's responsibilities include:

overseeing and reviewing our internal controls, accounting policies and financial reporting and provide a forum through which our independent registered public accounting firm reports;

meeting at least once a year with our independent registered public accounting firm without executive Board members present;

overseeing the activities of our independent registered public accounting firm, including their appointment, reappointment or removal, as well as monitoring of their objectivity and independence;

considering the fees paid to the independent registered public accounting firm and determine whether the fee levels for non-audit services, individually and in aggregate, relative to the audit fee are appropriate to enable an effective and high quality audit to be conducted; and

maintaining oversight over related person transactions to ensure that they are appropriately disclosed and to make recommendations to the Board of Directors regarding authorization, and for considering noteworthy questions of possible conflicts of interest involving directors.

Remuneration Committee

Our Remuneration Committee is currently composed of Mr. Mott, Mr. Furey and Dr. Zaks, with Mr. Mott serving as chairman of the committee. Our Board of Directors has determined that each member of the Remuneration Committee is "independent" as defined under the applicable listing standards of The Nasdaq Global Market. The Remuneration Committee held five meetings during 2018. The Remuneration Committee's responsibilities include:

reviewing corporate goals and objectives relevant to the compensation of our senior executive officers and making recommendations concerning such objectives to the Board of Directors;

appointing, compensating and overseeing the work of any compensation consultant or other advisor retained by the Remuneration Committee;

making recommendations to the Board of Directors with respect to the compensation of the Chief Executive Officer and the Non-Executive Directors;

determining the allocation of awards under our share option schemes to our senior executive officers, making recommendations to the Board of Directors with respect to the allocation of

option awards to our Chief Executive Officer and setting the overall allocation of option awards to our employees and consultants;

producing a directors' remuneration policy and an annual directors' remuneration report to be included in our U.K. statutory annual report and financial statements; and

producing a remuneration committee report on executive compensation when required by the rules of the SEC to be included in our annual proxy statement.

Remuneration Committee Interlocks and Insider Participation

None of the members of our Remuneration Committee has at any time during the prior three years been one of our officers or employees. None of our executive officers currently serves, or in the past fiscal year has served, as a member of our Remuneration Committee or the remuneration committee of any entity that has one or more executive officers serving on our Board of Directors.

As noted above, our Board of Directors has delegated to the Remuneration Committee the authority to determine the compensation for our executive officers with the exception of our Chief Executive Officer who is also our sole executive director. Executive and non-executive director compensation is recommended by our Remuneration Committee to the Board of Directors for approval. Our Chief Executive Officer may participate in general discussions with our Remuneration Committee and Board of Directors about these compensation matters but he does not participate in discussions during which his individual compensation is being considered and approved. Our policy is that no individual will participate in discussions or decisions concerning his or her own compensation.

In 2017, the Committee retained Willis Towers Watson, an independent compensation consultant, to assist the Committee with respect to compensation actions in 2018 with the goal of ensuring that our compensation arrangements for our CEO, our other senior executive officers and our non-executive directors were competitive. Willis Towers Watson provided data from comparable publicly traded biopharmaceutical companies and otherwise assisted the Committee in its design of competitive compensation for our senior executives and non-executive directors. The Committee expects to continue to use compensation consultants to assist the Committee in determining competitive levels of executive and non-executive compensation and specific design elements of our executive compensation program and non-executive directors' compensation program. The Committee continued to retain Willis Towers Watson through 2018 and 2019 in order to ensure that our compensation arrangements are competitive for 2019. After review and consultation with Willis Towers Watson, the Committee determined that Willis Towers Watson is independent and that there is no conflict of interest resulting from retaining Willis Towers Watson in 2018 or in 2019. In reaching these conclusions, our Remuneration Committee considered the factors set forth in the SEC rules and the applicable listing standards of The Nasdaq Global Market.

Corporate Governance and Nominating Committee

Our Corporate Governance and Nominating Committee is composed of Mr. Mott, Dr. Behbahani, Mr. Kerr and Dr. Sigal, with Mr. Mott serving as chairman of the committee. Our Board of Directors has determined that each member of the Corporate Governance and Nominating Committee is "independent" as defined under the applicable listing standards of The Nasdaq Global Market. The Corporate Governance and Nominating Committee held three meetings during 2018. The Nominating and Corporate Governance Committee's responsibilities include:

reviewing the structure, size and composition of the Board of Directors;

recommending to our Board of Directors individuals to be nominated for election as directors and to each of the committees of our Board;

Table of Contents

supervising the selection and appointment process of directors;

making recommendations to the Board of Directors with regard to any changes and using an external search consultant if considered appropriate;

appointing, compensating and overseeing the work of any search firm or other advisor retained by the Committee;

making final recommendations to the Board of Directors with respect to new appointments, which includes meeting the candidate prior to approving the appointment;

overseeing the induction of new directors and providing appropriate training to the Board of Directors during the course of the year in order to ensure that they have the knowledge and skills necessary to operate effectively; and

evaluating the performance of the Board of Directors, both on an individual basis and for the Board of Directors as a whole, taking into account such factors as attendance record, contribution during board meetings and the amount of time that has been dedicated to board matters during the course of the year.

Director Nomination Process

The Corporate Governance and Nominating Committee of the Board of Directors reviews possible candidates for the Board and recommends the nominees for Directors to the Board for approval. The criteria that the Corporate Governance and Nominating and Committee and the Board of Directors look for in determining candidates for election to the Board, include, among others:

the highest personal and professional ethics, integrity and values;

commitment to representing the long-term interests of the Company's shareholders;

independence under the standards promulgated by The Nasdaq Global Market; and

ability to dedicate the time and resources sufficient to ensure the diligent performance of his or her duties on our behalf, including attending all Board of Directors and applicable committee meetings.

Although we do not have a standalone diversity policy, diversity is among the critical factors that the Board of Directors considers when evaluating its composition. It is the Corporate Governance and Nominating Committee's policy that the composition of the Board of Directors reflect a range of talents, ages, skills, character, diversity and expertise, particularly in the areas of accounting and finance, management, domestic and international markets, leadership, corporate governance, and biotechnology and related industries, sufficient to provide sound and prudent guidance with respect to the operations and interests of the Company. The independent directors of our Board of Directors believe that the current members of the Board of Directors reflect an appropriate diversity of gender, age, race, geographical background and experience but are committed to continuing to consider diversity issues in evaluating the composition of the Board of Directors.

The Nominating and Corporate Governance Committee's policy does not contemplate any disparate treatment of management nominees versus those put forth by our shareholders. To date, the Committee has worked with Egon Zehnder and Perspective, each of whom is an independent global board and executive search firm, to assist in identifying and evaluating potential nominees against role specifications.

TRANSACTIONS WITH RELATED PERSONS

Certain Relationships and Related Party Transactions

Related Person Transactions

Other than the compensation arrangements described below under the sections "Director Remuneration" and "Executive Compensation Discussion and Analysis", in the period from January 1, 2018 through the date of this proxy statement, we were not a party to any transactions between us and certain "related persons", which are generally considered to be our executive officers, directors, director nominees or 5% shareholders, or their immediate family members.

Related Person Transactions Policy

We have adopted a policy with respect to the review, approval and ratification of related party transactions. Under the policy, our Audit Committee will be responsible for reviewing and approving related person transactions. In the course of its review and approval of related person transactions, our Audit Committee will consider the relevant facts and circumstances to decide whether to approve such transactions. In particular, our policy will require our Audit Committee to consider, among other factors it deems appropriate:

the related person's relationship to us and interest in the transaction;

the interests, direct or indirect, of any related person in the transaction in sufficient detail so as to enable the Audit Committee to assess such interests;

the material facts of the proposed related-person transaction, including the proposed aggregate value of such transaction, or, in the case of indebtedness, that amount of principal that would be involved;

the benefits to us of the proposed transaction;

an assessment of whether the proposed transaction is on terms that are comparable to the terms available to an unrelated third party or to employees generally; and

management's recommendation with respect to the proposed related-person transaction.

The Audit Committee may only approve those transactions that are in, or are not inconsistent with, our best interests and those of our shareholders, as the Audit Committee determines in good faith. If Audit Committee review and approval would be inappropriate, the relevant related party transaction will be referred to another independent body of our Board for review, consideration, approval or ratification.

For purposes of the policy we refer to transactions in which (a) we were a participant, (b) the amount involved exceeded \$120,000 and (c) one or more of our executive officers, directors, director nominees or 5% shareholders, or their immediate family members (each of whom we refer to as a "related person") had a direct or indirect material interest as "related person transactions."

Investors Rights Agreement

We are party to an investors rights agreement entered into on February 23, 2015, with certain of our shareholders, including New Enterprise Associates 14, L.P., NEA Ventures 2014, L.P., OrbiMed Private Investments V, L.P. and Sigal Family Investments, LLC pursuant to which certain of our shareholders, including certain holders with beneficial ownership of five percent or more of our ordinary shares and entities affiliated with certain of our directors, have the right to demand that we file a registration statement for their ordinary shares or request that their ordinary shares be covered by a registration statement that we are otherwise filing.

Table of Contents**DIRECTOR REMUNERATION**

Under our Directors' Remuneration Policy, the Board has the discretion to pay our Non-Executive Directors for their Board and committee service in the form of cash fees or stock options or a mixture of cash fees and stock options. Our remuneration arrangements for Non-Executive Directors during 2018 comprised an award of a fixed number of stock options, plus an additional number of stock options or cash payment at the director's election. The option awards and cash payments were made at competitive levels of peer group data from comparable companies provided in a competitive benchmarking analysis undertaken by Willis Towers Watson in 2018 and are compliant with the Directors' Remuneration policy approved by our shareholders at our Annual General Meeting on June 20, 2018.

Under our Directors' Remuneration Policy in effect in 2018, our Non-Executive Directors earned the following annual cash compensation or made an election to receive such compensation in the form of an additional number of stock options.

	2018 Cash Compensation
Board of Directors	\$ 40,000
Chairman (additional retainer)	\$ 27,500
Audit Committee Chair (additional retainer)	\$ 20,000
Remuneration Committee Chair (additional retainer)	\$ 15,000
Corporate Governance and Nominating Committee Chair (additional retainer)	\$ 10,000
Audit Committee member/non-Chair (additional retainer)	\$ 10,000
Remuneration Committee member/non-Chair (additional retainer)	\$ 7,500
Corporate Governance and Nominating Committee member/non-Chair (additional retainer)	\$ 5,000

All cash payments are payable monthly in arrears at the end of each month during which such individual served as a director (with prorated payments for service during a portion of such month). The cash compensation is targeted at the 50th percentile of peer group data. Our Non-Executive Directors are also entitled to receive reimbursement of expenses incurred in the course of performing services to the Company.

Our Non-Executive Directors do not receive any pension from the Company nor do they participate in any performance-related incentive plans. Our Non-Executive Directors participate in the Group's long-term incentive plans on terms similar to those used for our executive directors and officers.

On joining the Board, our Non-Executive Directors are eligible to receive an initial award of stock options covering up to 288,000 of our ordinary shares and, at their election, either cash compensation, as set forth above, or additional options of equivalent value. All such options vest over three years with the first 25% vesting on the first anniversary of the date of grant. Subsequently, all Non-Executive Directors are eligible to receive an annual award of stock options covering up to 144,000 of our ordinary shares and, at their election, either cash compensation, as set forth above, or additional options of equivalent value. All options awarded annually are exercisable on the first anniversary of the date of grant. These long-term equity incentive awards are targeted at the 50th percentile of peer group data.

During 2018, all Non-Executive Directors were granted an annual award of stock options, with the exception of John Furey, who was awarded stock options on joining the Board of Directors and the Remuneration Committee effective July 5, 2018, and Dr. Peter Thompson who stood down from the Board of Directors effective July 5, 2018.

Advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP

We have three SPEAR T-cells in clinical trials, ADP-A2M10 (MAGE-A10), ADP-A2M4 (MAGE-A4) and ADP-A2AFP (AFP).

Two Phase 1 clinical trials are ongoing with ADP-A2M10. The first clinical trial is in patients with non-small cell lung cancer ("NSCLC"). The second clinical trial is in patients with three cancer tumor types, urothelial, melanoma and head and neck cancers.

In 2018, both trials have progressed to the expansion phase, with patients being treated with up to 10 billion transduced SPEAR T-cells.

A Phase 1 clinical trial is ongoing with ADP-A2M4 in bladder, melanoma, head and neck, ovarian, NSCLC, synovial sarcoma, myxoid round cell liposarcoma ("MRCLS"), esophageal and gastric cancers.

In 2018, this trial progressed to the expansion phase with patients being treated with up to 10 billion transduced SPEAR T-cells.

In 2018, this trial moved into the dose escalation phase within the second dose cohort, with patients in Cohort 2 receiving target doses of 1 billion SPEAR T-cells.

Successful transition of NY-ESO program

During 2018, a fourth SPEAR T-cell, the NY-ESO SPEAR T-cell was transitioned to GlaxoSmithKline ("GSK") following GSK's exercise of its option to obtain an exclusive global license to the NY-ESO SPEAR T-cell program in September 2017. GSK has assumed full responsibility for all development, manufacturing and commercialization activities for the NY-ESO SPEAR T-cell including progression of this SPEAR T-cell into further clinical trials.

Optimization and expansion of our manufacturing capabilities

Impressive progress was achieved in manufacturing:

we initiated manufacture of cell product in January 2018 at the Adaptimmune SPEAR T-cell manufacturing plant in Philadelphia

we scaled to the routine manufacture of SPEAR T-cells at target doses to treat patients across a broad range of solid tumors

we established a dedicated vector manufacturing capability in the U.K. and our first vector production run to support pilot clinical trials is anticipated for late 2019

we secured existing vector production with our third party vendor

These achievements enable us to continue to develop manufacturing enhancements and improvements with the aim of reducing the time taken to manufacture and supply patient products.

Progression of our pre-clinical pipeline

We continued to maintain development of our pipeline, including:

making good progress with an off-the-shelf product and presenting progress to date at ASGCT 2018

continuing to develop multiple next generation approaches, with the goal of having the first next generation construct ready for IND submission in 2H 2019

investigating new targets and additional HLAs to be brought to the clinic beyond 2019

Other corporate achievements

The Company completed a Registered Direct Offering raising net proceeds of approximately \$100 million in September 2018

Compensation Philosophy and Program Design

Our philosophy in setting compensation policies for executive officers has two objectives: (1) to attract and retain a highly skilled team of executives and (2) to align our executives' interests with those of our shareholders by rewarding short-term and long-term performance. Our Remuneration Committee believes that executive compensation should be directly linked both to continuous improvements in corporate performance ("pay for performance") and accomplishments that are expected to increase shareholder value.

In furtherance of this goal, our Remuneration Committee has adhered to the following guidelines as a foundation for decisions that affect the levels of compensation:

provide a competitive total compensation package that enables the Company to attract and retain highly qualified executives with the skills and experience required for the achievement of business goals;

align compensation elements with the Company's annual goals and long-term business strategies and objectives;

promote the achievement of key strategic and financial performance measures by linking short-term and long-term cash and equity incentives to the achievement of corporate and individual performance goals; and

align executives' incentives with the creation of shareholder value.

Based on this philosophy, our performance-driven executive compensation program has three primary components: base salary, annual cash bonuses, and long-term equity-based compensation. Our Remuneration Committee believes that cash compensation in the form of base salary and annual bonuses provides our executives with short-term rewards for success in operations, and that long-term compensation through the grant of equity awards aligns the objectives of management with those of our shareholders with respect to long-term performance and success.

While it does not have any formal policies for allocating compensation among the three components, our Remuneration Committee reviews relevant competitive market data and uses its judgment to determine the appropriate level and mix of compensation on an annual basis to ensure that compensation levels and opportunities are competitive and that we are able to attract and retain capable executive officers to work for our long-term prosperity and shareholder value, without taking unnecessary or excessive risks.

Table of Contents

Pay-for-Performance

We view our compensation practices as an avenue to communicate our goals and standards of conduct and a means to reward our NEOs for their achievements. We believe our executive compensation program is reasonable, competitive, and appropriately balances the goals of attracting, motivating, rewarding, and retaining our executive officers and that it therefore promotes stability in our leadership.

To ensure our NEOs' interests are aligned with those of our shareholders and to motivate and reward them for achievement of our yearly corporate performance objectives, a significant portion of their target annual total direct compensation opportunity is "at-risk" and will vary above or below target levels commensurate with our performance.

We emphasize performance-based compensation that appropriately rewards our executive officers for delivering financial, operational, and strategic results that meet or exceed pre-established goals through our annual cash bonus plan, as well as share options that make up a significant portion of our long-term incentive compensation arrangements.

The target total direct compensation opportunity for our CEO and our other Named Executive Officers during 2018 reflects this philosophy. The substantial majority of our 2018 compensation to our NEOs was in the form of equity incentive awards, which our Remuneration Committee believes aligns our NEOs' interests with those of our shareholders.

The following charts illustrate the portion of compensation attributable to base salary, annual performance-based cash incentive awards (annual bonus) and long-term equity incentive awards for our Chief Executive Officer, and the average for our other NEOs, as a group, for the year ended December 31, 2018.

2018 Executive Compensation Policies and Practices

We endeavor to maintain sound executive compensation policies and practices, including compensation-related corporate governance standards, consistent with our executive compensation philosophy. During 2018 our executive compensation policies and practices included the following:

Remuneration Committee of Independent Directors. Our Remuneration Committee is composed of all independent directors.

Annual Compensation Review. Our Remuneration Committee undertakes a comprehensive review of compensation of our executives, including our NEOs, on an annual basis.

Independent Compensation Consultant. Our Remuneration Committee engages its own compensation consultant, and reviews its independence from management. The Remuneration Committee engaged Willis Towers Watson to assist with its 2018 compensation reviews.

Risk Analysis. We believe the structure of our executive compensation program minimizes the likelihood of inappropriate risk-taking by our executive officers.

Compensation At-Risk. Our executive compensation program is designed so that a significant portion of compensation is "at risk" based on Company performance, as well as short-term cash and long-term equity incentives to align the interests of our executive officers and shareholders. None of our employment agreements with our NEOs provides any guarantees relating to base salary increases or the amounts of any annual incentive awards or long-term equity awards.

No Special Retirement Benefits. We do not provide special pension arrangements or post-retirement health coverage for our executives or employees. Our U.S.-based executives and other U.S.-based employees are eligible to participate in our Section 401(k) plan, which is a retirement savings defined contribution plan established in accordance with Section 401(a) of the Code. Our U.K.-based executives and other U.K.-based employees are eligible to participate in our U.K. defined contribution plan.

Policy Against Hedging, Speculative Trading and Pledging our Stock. Our insider trading policy prohibits our employees, including our NEOs, and our directors from engaging in "hedging" or other inherently speculative transactions with respect to our securities or borrowing against our securities.

No Special Perquisites. Consistent with other high growth, development-stage biotechnology companies, we generally do not provide perquisites or other personal benefits to our executive

officers other than those we provide to our employees generally. From time to time we have provided relocation assistance benefits to our executive officers and other employees in order to attract talent.

No Special Health or Welfare Benefits. Our executive officers participate in broad-based company-sponsored health and welfare benefits programs on the same basis as our other employees.

Process for Setting Executive Compensation

Role of the Remuneration Committee

Our Remuneration Committee is responsible for reviewing and establishing our executive compensation policy and determines the framework for the compensation of our Company's senior executive officers. Our Remuneration Committee determines the remuneration of our NEOs (except for our CEO) and makes recommendations regarding the compensation of our CEO to the Board for its determination. Our Remuneration Committee also determines the corporate performance goals under the Company's annual bonus plan and achievement of these goals, and determines the policy for and scope of service agreements for the executive officers and contractual severance payments. Our Remuneration Committee makes recommendations regarding these matters in respect of our CEO to our Board for its determination.

While our Remuneration Committee draws on a number of resources, including input from our CEO and independent compensation consultants, to make decisions regarding the Company's executive compensation program, ultimate decision-making authority rests with the Remuneration Committee, subject in relation to our CEO's compensation, to approval by the independent members of the Board. The Remuneration Committee relies upon the judgment of its members in making compensation decisions, after reviewing the performance of the Company and evaluating an executive's performance during the year against established goals, operational performance and responsibilities. In addition, the Remuneration Committee incorporates judgment in the assessment process to respond to and adjust for the evolving business environment.

Role of Chief Executive Officer

Our Remuneration Committee solicits and reviews our CEO's recommendations and proposals with respect to to annual cash bonus opportunities, long-term incentive compensation opportunities, program structures and other compensation-related matters for our executive officers (other than with respect to his own compensation). Our Remuneration Committee reviews and discusses these recommendations and proposals with our CEO and uses them as one factor in determining and approving the compensation for our executive officers (other than our CEO). Our Remuneration Committee works directly with its compensation consultants to determine compensation actions our CEO, who does not participate in deliberations or determination of his own compensation.

Role of Compensation Consultant

Our Remuneration Committee is authorized to engage a compensation consultant or other advisors to review our executive officers' compensation, including a benchmarking analysis against the compensation of executive officers at comparable companies, to ensure that our compensation is market competitive, with the goal of retaining and adequately motivating our senior management. During 2017, our Remuneration Committee retained Willis Towers Watson to make recommendations for updating our compensation peer group, and to review and make recommendations regarding our executive and director compensation for 2018.

Table of Contents

Our Remuneration Committee regularly evaluates the performance of its compensation consultants, considers alternative compensation consultants, and has the final authority to engage and terminate such services. The Remuneration Committee has assessed the independence of Willis Towers Watson pursuant to SEC rules and the applicable listing standards of The Nasdaq Global Market and concluded that no conflict of interest exists that would prevent Willis Towers Watson from serving as an independent consultant to our Remuneration Committee.

During 2018, Willis Towers Watson regularly attended the meetings of our Remuneration Committee (both with and without management present) and provided the following services:

consulting with the Remuneration Committee chair and other members between committee meetings;

conducting a review of the 2017 compensation comparator peer group and making recommendations, as appropriate, for changes for use when making 2018 compensation decisions;

providing competitive market data based on the compensation peer group for our executive officer positions and evaluating how the compensation we pay our executive officers compares both to our performance and to how the companies in our compensation peer group compensate their executives;

reviewing and analyzing the base salary levels, annual cash bonus opportunities, and long-term incentive compensation opportunities of our executive officers;

assessing executive compensation trends within our industry, and updating on corporate governance and regulatory issues and developments;

reviewing market equity compensation practices, including burn rate and overhang, and advising on the mix of equity award types; and

providing competitive market data based on the compensation peer group for the non-employee members of our Board and evaluating the compensation we pay to our non-employee directors.

Competitive Positioning

Our Remuneration Committee reviews the compensation of similarly-situated executive officers at companies that we consider to be our peers, taking into consideration the experience, position and functional role, level of responsibility and uniqueness of applicable skills of both our executive officers and those of our peers, and the demand and competitiveness for attracting and retaining an individual with each executive officer's specific expertise and experience. While this analysis is helpful in determining market-competitive compensation for senior management, it is only one factor in determining our executive officers' compensation, and our Remuneration Committee exercises its judgment in determining the nature and extent of its use.

For purposes of comparing our executive compensation against the competitive market, our Remuneration Committee reviews and considers the compensation levels and practices of a group of comparable biotechnology companies. The companies in this compensation peer group for 2018 were selected by our Remuneration Committee in October 2017, in consultation with Willis Towers Watson, on the basis of their similarity to us in terms of size, market capitalization, stage of development, research and development spend, industry sector, business strategy, and number of employees.

To analyze the compensation practices of the companies in our compensation peer group, Willis Towers Watson gathered data from public filings (primarily proxy statements) and from the Radford Global Life Sciences Survey (including a custom cut). This market data was then used as a reference point for our Remuneration Committee to assess our current compensation levels in the course of its deliberations on forms and amounts of compensation. Given our objective of attracting, retaining, motivating, and rewarding a highly-skilled team of executive officers and other employees, we aim to deliver a total compensation package that is within a competitive range around the median as compared to peers, with an emphasis on equity incentive compensation so as to more effectively tie our NEOs' and employees' interests to those of our shareholders. In light of this, when undertaking its competitive analysis, our Remuneration Committee reviews data pertaining to the 25th, 50th and 75th percentiles for base salary, total cash compensation (base salary plus annual bonus) and long-term incentive compensation. This competitive analysis is one factor, among others, taken into account by our Remuneration Committee in assessing current compensation levels and recommending changes to compensation or additional awards.

Our Remuneration Committee reviews our compensation peer group at least annually and makes adjustments to its composition, taking into account changes in both our business and the businesses of the companies in the peer group.

Executive Compensation Program and Compensation Decisions for the Named Executive Officers

The components of our executive compensation program in 2018 for our NEOs consisted of base salary, an annual cash bonus opportunity, and a long-term incentive compensation opportunity delivered in the form of options to purchase ordinary shares (including RSU-style options).

Annual Base Salary

Overview

The base salaries of our executive officers are designed to compensate them for day-to-day services rendered during the fiscal year. Appropriate base salaries are used to recognize the experience, skills, role and responsibilities required of each executive officer and to allow us to attract and retain individuals capable of leading us to achieve our business goals in competitive market conditions.

The initial base salaries of our executive officers are established through arm's-length negotiation at the time we hire the individual executive officer, taking into account his or her position, qualifications, experience, prior salary level, and the base salaries of our other executive officers.

Thereafter, the base salaries of our executive officers are reviewed at least annually by our Remuneration Committee, and by our Board in the case of our CEO, and adjustments are made to reflect Company and individual performance, as well as competitive market practices. Our Remuneration Committee also takes into account subjective performance criteria, such as an executive officer's ability to lead, organize and motivate others, set realistic goals to be achieved in his or her respective area, and recognize and pursue new business opportunities that enhance our growth and success. Our Remuneration Committee does not apply specific formulas to determine increases, but instead makes an evaluation of each executive officer's contribution to our long-term success. Annual adjustments to base salaries are effective as of January 1 of each year, with off-cycle adjustments to base salaries made under special circumstances, such as promotions or increased responsibilities.

Changes in base salaries for fiscal year 2018

In December 2017, our Remuneration Committee reviewed the base salaries of our NEOs, taking into consideration a competitive market analysis prepared by Willis Towers Watson, the recommendations of our CEO (except with regard to his own base salary), and the other factors described above.

Following this review, our Remuneration Committee determined increases in the annual base salaries of our NEOs, other than our CEO, with all revised annual base salaries effective from January 1, 2018. A 3% increase in the base salary of Mr. Rawcliffe was approved, resulting in a revised base salary of \$457,011. A 3.5% increase in the base salary of Dr. Amado was approved, resulting in a revised base salary of \$458,402. A 4% increase in the base salary of Mr. Bertrand was approved, resulting in a revised base salary of \$416,000. A 5% increase in the base salary of Dr. Tayton-Martin was approved, resulting in a revised base salary of \$382,566. Effective from August 1, 2018, Dr. Amado was promoted to the new role of President, Research and Development, bringing together our clinical and research teams under a single leadership, and our Remuneration Committee approved an increase in Dr. Amado's base salary from \$458,402 to \$481,322 effective from August 1, 2018.

With regard to our CEO, our Remuneration Committee recommended, and the Board approved, a 3% increase to Mr. Noble's base salary, resulting in a revised base salary of \$536,011 effective from January 1, 2018.

(2) The 2018 annual base salary for Dr. Amado was increased to \$481,322 effective August 1, 2018 on his promotion to the new role of President, Research & Development.

Annual Cash Bonus Plan

Our NEOs are eligible to earn annual performance-based cash bonuses, which are designed to provide appropriate incentives to our executive officers to achieve annual corporate goals and to reward them for individual performance towards these goals. The annual performance-based bonus each NEO is eligible to receive is generally based on the extent to which we achieve the corporate objectives that the Board establishes each year, following a recommendation from our Remuneration Committee.

Our Remuneration Committee determines annual bonuses for our NEOs, and the Board determines the annual bonus for our CEO. At the end of the year, the Board and our Remuneration Committee review our performance and approve the extent to which we achieved each of these corporate goals. Generally, the Board and Remuneration Committee will assess each NEO's individual contributions towards reaching our annual corporate goals but does not typically establish specific individual goals for our NEOs. Our Remuneration Committee and our Board may award above-target bonuses, in amounts up to 150% of the target annual cash bonus opportunities for extraordinary performance in any given year.

The target annual cash bonus opportunities of our NEOs for 2018 are summarized in the table below. All target annual cash bonus opportunities were set as a percentage of base salaries.

table above have been converted based on the pound sterling/U.S. dollar exchange rate in effect as of December 31, 2018 (£1/\$1.27602).

(2)

The 2018 Target Annual Cash Bonus Opportunity percent for Dr. Amado was increased from 45% to 50% effective August 1, 2018 on his promotion to the new role of President, Research & Development. The 2018 Target Annual Cash Bonus Opportunity amount represented 50% of Dr. Amado's pro-rated 2018 base salary received of \$467,952 (based on the aggregate of six months of his base salary of \$458,402, from January 1, 2018 through July 31, 2018, and six months of his base salary of \$481,322, from August 1, 2018 through December 31, 2018).

The corporate goals used in our 2018 annual cash bonus plan were proposed by management, and reviewed and approved by our Board following recommendation by our Remuneration Committee.

Our primary goal in 2018 was to progress the development of the Group with our key corporate goals including:

advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP;

continuing to use our SPEAR T-cell platform to generate SPEAR T-cells for cancers where existing therapeutic approaches are limited;

continuing to understand, further enhance and improve the effectiveness and persistence of our SPEAR T-cell therapies; and

the optimisation and expansion of our process development and manufacturing capabilities to maintain our leadership position in the TCR space and the continued expansion of our intellectual property portfolio.

2018 annual bonus payments

In December 2018, our Remuneration Committee and our Board reviewed our 2018 corporate goals and determined that we had achieved most of our corporate goals. We believe that 2018 was a year of strong operational performance for us due, in large part, to our achievement of clinical and manufacturing milestones, as described below:

Advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP

We have three SPEAR T-cells in clinical trials, ADP-A2M10 (MAGE-A10), ADP-A2M4 (MAGE-A4) and ADP-A2AFP (AFP).

Two Phase 1 clinical trials are ongoing with ADP-A2M10. The first clinical trial is in patients with non-small cell lung cancer ("NSCLC"). The second clinical trial is in patients with three cancer tumor types, urothelial, melanoma and head and neck cancers.

In 2018, both trials have progressed to the expansion phase, with patients being treated with up to 10 billion transduced SPEAR T-cells.

A Phase 1 clinical trial is ongoing with ADP-A2M4 in bladder, melanoma, head and neck, ovarian, NSCLC, synovial sarcoma, myxoid round cell liposarcoma ("MRCLS"), esophageal and gastric cancers.

In 2018, this trial progressed to the expansion phase with patients being treated with up to 10 billion transduced SPEAR T-cells.

A Phase 1 clinical trial is ongoing with ADP-A2AFP in patients with hepatocellular cancer.

Table of Contents

In 2018, this trial moved into the dose escalation phase within the second dose cohort, with patients in Cohort 2 receiving target doses of 1 billion SPEAR T-cells.

Successful transition of NY-ESO program

During 2018, a fourth SPEAR T-cell, the NY-ESO SPEAR T-cell was transitioned to GlaxoSmithKline ("GSK") following GSK's exercise of its option to obtain an exclusive global license to the NY-ESO SPEAR T-cell program in September 2017. GSK has assumed full responsibility for all development, manufacturing and commercialization activities for the NY-ESO SPEAR T-cell including progression of this SPEAR T-cell into further clinical trials.

Optimization and expansion of our manufacturing capabilities

Impressive progress was achieved in manufacturing:

we initiated manufacture of cell product in January 2018 at the Adaptimmune SPEAR T-cell manufacturing plant in Philadelphia

we scaled to the routine manufacture of SPEAR T-cells at target doses to treat patients across a broad range of solid tumors

we established a dedicated vector manufacturing capability in the U.K. and our first vector production run to support pilot clinical trials is anticipated for late 2019

we secured existing vector production with our third party vendor

These achievements enable us to continue to develop manufacturing enhancements and improvements with the aim of reducing the time taken to manufacture and supply patient products.

Progression of our pre-clinical pipeline

We continued to maintain development of our pipeline, including:

making good progress with an off-the-shelf product and presenting progress to date at ASGCT 2018

continuing to develop multiple next generation approaches, with the goal of having the first next generation construct ready for IND submission in 2H 2019

investigating new targets and additional HLAs to be brought to the clinic beyond 2019

Other corporate achievements

The Company completed a Registered Direct Offering raising net proceeds of approximately \$100 million in September 2018

Edgar Filing: Adaptimmune Therapeutics PLC - Form DEF 14A

The Remuneration Committee determined an overall corporate performance level of 85% of target for purposes of the 2018 Bonus Plan for our NEOs other than our CEO, and recommended an overall corporate performance level of 85% in respect of our CEO, which was approved by the Board. This resulted in awards at 85% of their target annual cash bonus opportunities for 2018 for our NEOs.

Long-Term Incentive Compensation

Overview

We provide long-term incentive compensation to our executive officers through the grant of equity awards. We believe that equity awards create incentives for our executive officers to assist with the achievement of near and long term corporate objectives to create long-term shareholder value and align their interests with those of our shareholders by creating a return tied to the performance of our stock price. We also believe equity awards create an ownership culture. In addition, the vesting requirements of our equity awards contribute to executive retention by providing an incentive to our executive officers to remain employed by us during the vesting period.

Equity Award Grant Policy. We have an equity award grant policy that formalizes our process for granting equity-based awards to officers and employees. Under our equity award grant policy, all grants to our CEO must be approved by our Board, all grants to our other executive officers must be approved by our Remuneration Committee and all grants to other employees must be granted within guidelines approved by our Remuneration Committee.

Generally, equity awards are granted at the time an executive officer commences employment. Thereafter, equity awards may be granted at varying times and in varying amounts in the discretion of our Remuneration Committee or, if awards are being granted to our Chief Executive Officer, in the discretion of the Board, but are generally made once a year unless such executive officer is promoted, or for recognition of outstanding performance. None of our executive officers is currently party to an employment agreement that provides for an automatic grant of stock options or other equity awards.

We trade American Depositary Shares (ADSs) on the Nasdaq Global Select Market, or NASDAQ, and one ADS represents six ordinary shares. Our stock options cover our ordinary shares. The exercise price of our stock options, other than our RSU-style options, is equal to the fair market value of our ordinary shares, which is based on the closing market price on NASDAQ of an ADSs divided by six.

Table of Contents

Historically, we have granted equity awards to our employees, including our NEOs, in the form of options to purchase our ordinary shares. In December 2017, our Remuneration Committee determined that an increasing number of companies in our compensation peer group grant full value awards, such as restricted stock unit awards and approved the addition of RSU-style options (which are substantively similar to restricted stock units) to our compensation program to attract and retain highly qualified executives and employees. In this regard, while both stock options and RSU-style options enable our executive officers to benefit, like shareholders, from any increases in the value of our stock, our stock options deliver future value only if the value of our stock increases above the exercise price. In contrast, RSU-style options are set with an exercise price fixed at the nominal value of an ordinary share so, during periods of stock market volatility, RSU-style options may help retain employees. In addition, full value awards, such as RSU-style options, are less dilutive to existing shareholders since fewer shares are needed to achieve an equivalent value relative to stock options.

Our stock options generally vest as to 25% upon the first anniversary of the grant date and 1/36th of the remaining shares each month thereafter until such award is fully vested on the four year anniversary of the grant date, subject to the holder's continued service with us. Our RSU-style options vest in four annual installments from the grant date, subject to the holder's continued service with us. The terms of the equity awards are governed by our option plans, as described under the heading "*Equity Compensation Plan Information*" below.

In determining the appropriate mix of stock options and RSU-style options, our Remuneration Committee and the Board (in the case of grants to the CEO) consider the current stock and other equity holdings of each executive officer and competitive market data of the types of equity compensation provided to executive officers by the companies in our compensation peer group, with a goal of reaching a mix that would provide the appropriate incentives while staying competitive in our market. Regular LTI awards for each of our NEOs were more heavily weighted towards stock options (75%) than RSU-style options (25%).

As with their other elements of compensation, our Remuneration Committee determines the amount of long-term incentive compensation for our NEOs (except for our CEO), and recommends to the Board the amount of long-term incentive compensation for our CEO, as part of its annual compensation review. Our Remuneration Committee does so after taking into consideration a competitive market analysis prepared by its compensation consultant, the recommendations of our CEO (except with respect to his own long-term incentive compensation), the outstanding equity holdings of each executive officer, the proportion of our total shares outstanding used for annual employee long-term incentive compensation awards (our "burn rate") in relation to the proportions of the companies in our compensation peer group, the potential voting power dilution to our shareholders (our "overhang") in relation to the practices of the companies in our compensation peer group, and the other factors described above.

2018 Equity Awards

In January 2018, after considering the factors described above, our Remuneration Committee granted stock options and RSU-style options to our NEOs and our Remuneration Committee

recommended, and the Board granted, stock options and RSU-style options to our CEO, in the following amounts:

Named Executive Officer	Options for ordinary shares (#)	RSU-Style Options for ordinary shares (#)	Equity Awards (Aggregate Grant Date Fair Value) (\$)
James Noble	1,719,936	384,120	1,826,960

Helen Tayton-Martin	687,984	153,648	730,791
William Bertrand	644,976	144,048	685,114

In August 2018, our Remuneration Committee granted RSU-style options covering 678,720 ordinary shares to Rafael Amado, on his promotion to the new role of President, Research & Development, which had a grant date fair value of \$977,579.

Retirement, Health, Welfare

Our NEOs are eligible to participate in our employee benefit plans and programs, including medical and dental benefits and life insurance, to the same extent as our other full-time employees, subject to the terms and eligibility requirements of those plans. We also sponsor a 401(k) defined contribution plan in which our NEOs based in the United States may participate, subject to limits imposed by the Internal Revenue Code, to the same extent as all of our other full-time employees. During 2018, we made discretionary employer matching contributions equal to 50% of the first 4% of the elective contributions made by participants in the 401(k) plan. These matching contributions are subject to a vesting schedule. In addition, we made a 3% discretionary Safe Harbor match which is fully vested as of the date on which the contribution is made. We believe that providing a vehicle for tax-deferred retirement savings through our 401(k) plan adds to the overall desirability of our executive compensation package and further incentivizes our employees, including our NEOs, in accordance with our compensation policies.

Retirement Plans*401(k) Plan*

We maintain a tax-qualified retirement plan for our U.S.-based employees that provides eligible employees with an opportunity to save for retirement on a tax-advantaged basis. We make discretionary employer matching contributions equal to 50% of the first 4% of the elective contributions made by participants in the 401(k) plan. These company matching contributions are subject to a vesting schedule. In addition, we make a 3% discretionary Safe Harbor matching contribution, which is fully vested as of the date of the contribution. Pre-tax contributions are allocated to each participant's individual account and are then invested in selected investment alternatives according to the participant's directions. The 401(k) plan is intended to qualify under Sections 401(a) and 501(a) of the Internal Revenue Code. As a tax-qualified retirement plan, contributions to the 401(k) plan and earnings on those contributions are not taxable to the employees until distributed from the 401(k) plan.

U.K. Defined Contribution Plan

In the U.K., we maintain a defined contribution plan that provides all U.K. employees, including our NEOs based in the U.K., with an opportunity to contribute a portion of their monthly salary into the plan. If an employee elects to participate in the plan, there is a minimum employee contribution of 3% of monthly salary and the maximum contribution is subject to limits imposed by HM Revenue and Customs and pension legislation. The employee contribution to this plan is matched by an employer.

Table of Contents

contribution of up to a maximum of 5% of monthly salary. The method by which our U.K. employees participate is through a so-called "salary exchange" pursuant to which employees agree to a reduction in monthly salary in an amount equal to the defined contribution plan election. Salary sacrifice arrangements enable employees and the Company to make tax and national insurance savings because the employee's contribution is taken out of his or her gross pay. The amount of the reduction is contributed into the plan in addition to the employer contribution.

Perquisites and Other Personal Benefits

Consistent with other high growth, development-stage biotechnology companies, we do not currently view perquisites or other personal benefits as a significant component of our executive compensation program. During 2018, none of our NEOs received perquisites or other personal benefits.

Generally, we may provide perquisites or other personal benefits to our employees, including our NEOs, in limited circumstances where we believe it is appropriate to assist an individual in the performance of his or her duties, to make our employees more efficient and effective, and for recruitment and retention purposes. We may provide, and have previously provided, our NEOs and other employees with relocation benefits in order to attract critical talent. Any future perquisites or other personal benefits provided to our NEOs would require approval by the Remuneration Committee and by the Board (in the case of the CEO).

Tax and Accounting Considerations

Deductibility of Executive Compensation

Section 162(m) of the Code limits the compensation deduction for a publicly-traded company for U.S. federal income tax purposes to not more than \$1 million of remuneration paid to certain executive officers ("covered employees") in the company's taxable year (generally, its fiscal year). With respect to taxable years prior to January 1, 2018, remuneration in excess of \$1 million was exempt from this deduction limit if it qualified as "performance-based compensation" within the meaning of Section 162(m).

Recently-enacted tax legislation, effective for taxable years beginning after December 31, 2017, expands the scope of Section 162(m) such that all named executive officers (i.e., the corporation's principal executive officer, its principal financial officer, and the three highest compensated officers whose compensation is required to be reported under the U.S. securities laws) are "covered employees." Additionally, anyone who was a covered employee in any year after 2016 will remain a covered employee for as long as he or she (or his or her beneficiaries) receive compensation from the Company. Also, the legislation eliminates the exception to the deduction limit for commission-based compensation and performance-based compensation except with respect to certain grandfathered arrangements in effect as of November 2, 2017 that are not subsequently materially modified. Accordingly, compensation paid to our NEOs in excess of \$1 million that, but for the limits under Section 162(m), is otherwise deductible on a U.S. federal income tax return will not be deductible unless it qualifies for the transition relief applicable to certain arrangements in place as of November 2, 2017, as described above.

To maintain flexibility in compensating our NEOs in a manner designed to promote our corporate goals, our Remuneration Committee has not adopted a policy that all compensation payable to our NEOs that is subject to Section 162(m) must be deductible. Our Remuneration Committee intends to continue to consider the impact of Section 162(m) rules in determining compensation but will not necessarily limit compensation to amounts deductible under Section 162(m); it intends to continue to provide future compensation in a manner consistent with the best interests of the Company and its shareholders. It should also be noted that in the case of some of our NEOs, some or all of their

Table of Contents

compensation is not deducted on a United States federal income tax return because they perform some or all of their services outside the United States, and accordingly, the deductibility of their compensation is subject to, and deductible under the tax laws of other countries and is not limited by Section 162(m).

Accounting for share-based compensation

We follow the Financial Accounting Standard Board's ASC Topic 718, or ASC Topic 718, for our share-based compensation awards. FASB ASC Topic 718 requires us to estimate and record a compensation expense for all share-based payment awards made to our employees and Board members over the vesting period of the award and based on the grant date "fair value" of the award. This calculation is performed for accounting purposes and reported in the executive compensation tables required by the federal securities laws, even though the recipient of the awards may never realize any value from their awards.

Clawback

We do not have a formal compensation recovery policy, often referred to as a "clawback" policy, which would typically provide that the officers or directors subject to the policy must reimburse the Company for any bonus or other incentive-based or equity-based compensation improperly received. Our Remuneration Committee intends to keep under consideration the adoption of a clawback policy.

Risk Assessment Concerning Compensation Practices and Policies

Our Remuneration Committee reviews our compensation policies and practices to assess whether they encourage our employees to take inappropriate risks. Our Remuneration Committee has determined that any risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on our Company as a whole. In addition, our Remuneration Committee believes that the mix and design of the elements of executive compensation do not encourage management to assume excessive risks and, as described above under the heading "Compensation Discussion and Analysis," significant compensation decisions, and decisions concerning the compensation of our executive officers, include subjective considerations by our Remuneration Committee or our Board, which restrain the influence of formulae or objective factors on excessive risk taking. Finally, the mix of short-term compensation (in the form of base salary and annual bonus, if any), and long-term incentive compensation (in the form of share options) also prevents undue focus on short-term results and helps align the interests of our executive officers with the interests of our shareholders.

Employment Arrangements

We have service agreements with each of our Chief Executive Officer and our Chief Business Officer and we have employment agreements with each of our other NEOs. These agreements set forth the individual's base salary, bonus compensation, principles for equity compensation and other employee benefits as described above, as well as providing the NEO with the opportunity to receive certain post-employment payments and benefits in the case of certain involuntary terminations of employment or resignations for good reason. The agreements also prohibit our NEOs from engaging directly or indirectly in competition with us, recruiting or soliciting our employees, diverting our customers to a competitor, or disclosing our confidential information or business practices. The Company's executive severance policy is applicable in relation to our NEOs and provides for post-employment compensation arrangements in certain circumstances.

Table of Contents***Post-Employment Compensation***

Our post-employment compensation arrangements are designed to provide reasonable compensation to executive officers who leave the Company under certain circumstances to facilitate their transition to new employment. Further, we seek to mitigate any potential employer liability and avoid future disputes or litigation by requiring a departing executive officer to sign a separation and release agreement acceptable to us as a condition to receiving post-employment compensation payments or benefits.

Our Remuneration Committee and the Board do not consider specific amounts payable under these post-employment compensation arrangements when establishing annual compensation. It does believe, however, that these arrangements are necessary to offer compensation packages that are competitive.

For more information on the service and employment agreements with our NEOs and post-employment compensation arrangements, see the discussion under the headings "*Employment, Change of Control and Severance Arrangements with Named Executive Officers*" and "*Potential Payments upon Termination or Change in Control*" later in this proxy statement.

Other Compensation Policies and Practices*Policy on Stock Ownership*

We do not have a policy requiring our NEOs and our non-employee directors to hold a certain number or value of our shares. However, we encourage our CEO and other NEOs to have a shareholding in the Company and all of our NEOs and our non-employee directors hold shares and/or stock options in the Company. Our Remuneration Committee and the Board are keeping under consideration the adoption of a formal stock ownership policy.

The following table sets forth information with respect to the beneficial ownership of our ordinary shares, as of December 31, 2018, by our NEOs, and the value of that beneficial ownership as a multiple of the 2018 base salaries of our NEOs.

Named Executive Officer	Ordinary Shares Beneficially Owned as of December 31, 2018	
	Number(1)	Value(2)
James Noble	17,439,001	31 x base salary
Helen Tayton-Martin, Ph.D.	6,343,301	16 x base salary
Rafael Amado, M.D.	4,464,301	9 x base salary
Adrian Rawcliffe	3,768,301	8 x base salary
William Bertrand(3)	1,490,958	3 x base salary

(1) The number of ordinary shares is comprised of ordinary shares as to which each NEO has sole voting power and ordinary shares subject to options that are exercisable as of December 31, 2018.

(2) The value is computed based on the closing price of the ADSs on December 31, 2018 of \$5.75 divided by six to generate \$0.96 per ordinary share, which is multiplied by the number of ordinary shares held by each NEO. Vested stock options where the exercise price equates to an amount greater than \$0.96 per ordinary share have been excluded. This value is compared to the 2018 base salary earned for each of the NEOs in the table above.

(3) Mr. Bertrand joined the Company on March 15, 2017.

Furthermore, if the employment of any of our NEOs is terminated without cause or he or she resigns for good reason within 12 months following a change in control, he or she will be entitled to receive a severance payment equal to his or her annual base salary for 12 months, payment of premiums for continuation of healthcare benefits for a period of 12 months. Our NEOs resident in the U.K. may elect to waive continuation of payment of healthcare premiums and accept a payment in lieu of such premiums. In addition, the NEO will be paid a lump sum cash amount equal to the full annual performance bonus for the year of termination, and is entitled to accelerated vesting of any unvested and outstanding equity awards. In addition, the Board has discretion under our option plan rules to allow some or all of the options held by our NEOs to vest in the event of a change of control or otherwise.

Table of Contents**Potential Payments upon Termination or Change in Control**

The following table provides information concerning the estimated payments and benefits, pursuant to the service or employment agreement and the Executive Severance Policy, that would be provided in the circumstances described below for each of our NEOs. Payments and benefits are estimated assuming that the triggering event took place on December 31, 2018, and the closing price per share of an American Depositary Share (ADS) on The Nasdaq Global Select Market as of that date (\$5.75). There can be no assurance that a triggering event would produce the same or similar results as those estimated below if such event occurs on any other date or at any other price, or if any other assumption used to estimate potential payments and benefits is not correct. Due to the number of factors that affect the nature and amount of any potential payments or benefits, any actual payments and benefits may be different.

- (2) Assumes a lump sum bonus payment based on the bonus payment made in respect of year ended December 31, 2018 in both scenarios. If an NEO's employment is terminated by the Company without cause or the NEO resigns for good reason outside of a change of control scenario, any lump sum bonus payment is at the sole discretion of the Remuneration Committee or the Board (in the case of the CEO), prorated based on the number of calendar days of employment.
- (3) Reflects stock option awards. The Company has never made, and does not currently make, restricted stock awards or restricted stock unit awards. Our options cover ordinary shares that are represented by ADSs. Each ADS represents six ordinary shares of the Company. Stock option awards where the exercise price equates to an amount greater than \$0.96 per ordinary share have been excluded. \$0.96 is based on the closing price of an ADS on 31 December 2018, of \$5.75, divided by six. For stock options, aggregate market value is computed by multiplying the product of (a) the number of unvested shares accelerating as of December 31, 2018, by the sum of (b) (i) \$0.96 less (ii) the option's exercise price.
- (4) In the event of a termination of his employment by the Company without cause or by Mr. Rawcliffe or Dr. Amado for good reason, any portion of his initial award of 3,600,000 stock options that was granted on March 16, 2015, which is unvested as of the date of termination shall vest and immediately become exercisable on the date of termination. The market value amounts represent an amount for the unvested stock options from the initial award.
- (5) Assumes a lump sum payment based on the estimated premiums for COBRA continuation coverage for our NEOs resident in the U.S. (Mr. Rawcliffe, Dr. Amado and Mr. Bertrand) and a lump sum payment based on the estimated premiums for health insurance for our NEOs resident in the U.K. (Mr. Noble and Dr. Tayton-Martin).

Table of Contents**CEO Pay Ratio**

Pursuant to a mandate of the Dodd-Frank Act, the SEC adopted a rule requiring annual disclosure of the ratio of the median employee's total annual compensation to the total compensation of the principal executive officer ("PEO"). The PEO of our Company is James Noble, our Chief Executive Officer.

We believe that our compensation philosophy must be consistent and internally equitable to motivate our employees to create shareholder value. The purpose of the new required disclosure is to provide a measure of pay equity within the organization. We are committed to internal pay equity, and our Remuneration Committee monitors the relationship between the pay our PEO receives and the pay our non-executive employees receive.

As illustrated in the table below, our 2018 PEO to median employee pay ratio was approximately 19:1.

PEO 2018 Compensation	\$ 2,613,556
Median Employee 2018 Compensation	\$ 137,800
Ratio of PEO to Median Employee Compensation	19:1

We identified the median employee using annualized base salary for 2018, annual bonus earned in 2018 and aggregate grant date fair values for equity awards granted in 2018 to all individuals who were employed by us on December 31, 2018, the last day of our fiscal year (whether employed on a full-time or part-time basis). Reportable wages were annualized for those employees who were not employed for the full calendar year. Equity awards were excluded from the calculation of determining the median employee due to the high volume of staff who had joined our Company during 2018. Equity awards were then included to the median employee to ensure comparability with the PEO.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules, based on our internal records and the methodology described above. The SEC rules for identifying the median compensated employee allow companies to adopt a variety of methodologies, to apply certain exclusions and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. Accordingly, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may use different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

Table of Contents**Equity Compensation Plan Information**

The following table provides information on our equity compensation plans as of December 31, 2018.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options	Weighted Average Exercise Price of Outstanding Options \$	Number of Securities Available for Future Issuance Under Equity Compensation Plans
Equity compensation plans	87,564,719	0.77	15,974,382
Total	87,564,719	0.77	15,974,382

For purposes of this table, the Weighted Average Exercise Price of Outstanding Options has been converted from £0.60 based on the pound sterling/U.S. dollar exchange rate in effect as of December 31, 2018 (£1/\$1.27602).

The Company grants options over ordinary shares in Adaptimmune Therapeutics plc under the following option plans: (i) the Adaptimmune Therapeutics plc Employee Share Option Scheme (adopted January 14, 2016), (ii) the Adaptimmune Therapeutics plc 2015 Share Option Scheme (adopted March 16, 2015) and (iii) the Adaptimmune Therapeutics plc Company Share Option Plan (adopted March 16, 2015). The Company grants RSU-style options over ordinary shares in Adaptimmune Therapeutics plc under the Adaptimmune Therapeutics plc Employee Share Option Scheme (adopted January 14, 2016). The maximum aggregate number of options which may be granted under these plans and any incentive plans adopted by the Company cannot exceed a scheme limit that equates to 8% of the initial fully diluted share capital of the Company immediately following our IPO plus an automatic annual increase of an amount equivalent to 4% of the issued share capital on each June 30 (or such lower number as the Board, or an appropriate committee of the Board, may determine). The automatic increase is effective from July 1, 2016.

Prior to December 31, 2014, the Company granted options to purchase ordinary shares in Adaptimmune Limited under three option schemes: (i) the Adaptimmune Limited Share Option Scheme (adopted May 30, 2008), (ii) the Adaptimmune Limited 2014 Share Option Scheme (adopted April 11, 2014) and (iii) the Adaptimmune Limited Company Share Option Plan (adopted December 16, 2014). As part of the corporate reorganization in connection with our IPO, the holders of options granted under these schemes over ordinary shares of Adaptimmune Limited were granted equivalent options on substantially the same terms over ordinary shares of Adaptimmune Therapeutics plc ("Replacement Options") in exchange for the release of these options. The Company does not intend to grant any further options under these schemes. Further details of our option plans are set forth in Note 11 titled "Share based compensation" to our consolidated financial statements, which are included in our Annual Report on Form 10-K for the year ended December 31, 2018.

AUDIT COMMITTEE REPORT

The Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the Company's financial statements, evaluates auditor performance, manages relations with the Company's independent registered public accounting firm and evaluates policies and procedures relating to internal control systems. The Audit Committee operates under a written Audit Committee charter that has been adopted by the Board. All members of the Audit Committee currently meet the independence and qualification standards for Audit Committee membership set forth in the listing standards provided by Nasdaq and the SEC, and the Board has determined that each Audit Committee member is an "audit committee financial expert," as the SEC has defined that term in Item 407 of Regulation S-K.

The Audit Committee members are not professional accountants or auditors. The members' functions are not intended to duplicate or to certify the activities of management and the independent registered public accounting firm. The Audit Committee serves a board-level oversight role in which it provides advice, counsel and direction to management and the auditors on the basis of the information it receives, discussions with management and the auditors, and the experience of the Audit Committee's members in business, financial and accounting matters.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board. The Company's management has the primary responsibility for the financial statements and reporting process, including the Company's system of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the audited financial statements included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2018. This review included a discussion of the quality and the acceptability of the Company's financial reporting, including the nature and extent of disclosures in the financial statements and the accompanying notes. The Audit Committee also reviewed the progress and results of the testing of the design and effectiveness of its internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002.

The Audit Committee also reviewed with KPMG LLP ("KPMG"), our independent registered public accounting firm, which is responsible for expressing an opinion on the conformity of the audited financial statements with accounting principles generally accepted in the United States of America, their judgments as to the quality and the acceptability of the Company's financial reporting and such other matters as are required to be discussed with the Committee by Public Company Accounting Oversight Board ("PCAOB") AU380, *Communications with Audit Committees*, and SEC Regulation S-X Rule 207, *Communication with Audit Committees*.

The Audit Committee has received the written disclosures and the letter from KPMG required by the applicable requirements of the PCAOB regarding communications with the audit committee concerning independence. The Audit Committee has discussed with KPMG its independence from management and the Company.

In addition to the matters specified above, the Audit Committee discussed with KPMG the overall scope, plans and estimated costs of their audit. The Committee met with KPMG periodically, with and without management present, to discuss the results of KPMG's examinations, the overall quality of the Company's financial reporting and KPMG's reviews of the quarterly financial statements, and drafts of the quarterly and annual reports.

In reliance on the reviews and discussions referred to above, and subject to the limitations of the Audit Committee's role and responsibilities referred to above and in the Audit Committee charter, the Audit Committee recommended to the Board of Directors that the Company's audited financial

Shareholders' Rights to Call a General Meeting

Our shareholders have the right to call a meeting of our shareholders. The U.K. Companies Act 2006 generally requires the directors to call a general meeting once we have received requests to do so from shareholders representing at least 5% of our paid-up shares entitled to vote at a general meeting. The U.K. Companies Act 2006 generally prohibits shareholders of a U.K. public limited company from passing written resolutions. However, significant shareholders would, in any case, still have the power to call a general meeting and propose resolutions. These provisions are mandatory under the U.K. Companies Act 2006 and cannot be waived by our shareholders.

ANNEX A TO PROXY STATEMENT

Directors' Remuneration Report

Remuneration Committee Chairman's Statement

On behalf of the Board of Directors of Adaptimmune Therapeutics plc, I am pleased to present the Directors' Remuneration Report for the year ended 31 December 2018. Shareholders will be invited to approve the Report on Remuneration (which will be a non-binding advisory vote) at the Annual General Meeting of shareholders to be held on 2 May 2019.

Period Covered by the Directors' Remuneration Report

The Directors' Remuneration Report that follows is for the full year period from 1 January 2018 to 31 December 2018 except where otherwise stated.

The Remuneration Committee

The Committee is responsible for reviewing and establishing our executive remuneration policy and philosophy, including making recommendations regarding the remuneration of our Chief Executive Officer ("CEO") to the Board for its approval, and determining and approving the remuneration of other senior executive officers. While the Board sets the remuneration of our CEO, who is our sole Executive Director, the Committee makes recommendations on such matters to the Board.

Philosophy

We seek to attract and retain outstanding employees who have the potential to support the growth of the Group and to attract and retain Non-Executive Directors who can substantially contribute to our success as an innovative, clinical-stage biopharmaceutical company. As the Group has operations in the United Kingdom and the United States, our senior executives and our Non-Executive Directors live and work in the U.K. and the U.S., and we are listed on a U.S. stock exchange, we assess the competitiveness of our policies against both U.K. and U.S. benchmarks and practices, with an increasing focus on U.S. benchmarks and practices.

Business Strategy during 2018

Our primary goal in 2018 was to progress the development of the Group including:

advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP;

continuing to use our SPEAR T-cell platform to generate SPEAR T-cells for cancers where existing therapeutic approaches are limited;

continuing to understand, further enhance and improve the effectiveness and persistence of our SPEAR T-cell therapies; and

the optimisation and expansion of our process development and manufacturing capabilities to maintain our leadership position in the TCR space and the continued expansion of our intellectual property portfolio.

2018 Business Highlights

2018 was a year of strong operational performance for Adaptimmune.

Edgar Filing: Adaptimmune Therapeutics PLC - Form DEF 14A

Table of Contents

Key business highlights during 2018 included:

Advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP

Two Phase 1 clinical trials are ongoing with ADP-A2M10. The first clinical trial is in patients with non-small cell lung cancer ("NSCLC"). The second clinical trial is in patients with three cancer tumour types, urothelial, melanoma and head and neck cancers.

In 2018, both trials have progressed to the expansion phase, with patients being treated with up to 10 billion transduced SPEAR T-cells.

A Phase 1 clinical trial is ongoing with ADP-A2M4 in bladder, melanoma, head and neck, ovarian, NSCLC, synovial sarcoma, myxoid round cell liposarcoma ("MRCLS"), oesophageal and gastric cancers.

In 2018, this trial progressed to the expansion phase with patients being treated with up to 10 billion transduced SPEAR T-cells.

A Phase 1 clinical trial is ongoing with ADP-A2AFP in patients with hepatocellular cancer.

In 2018, this trial moved into the dose escalation phase within the second dose cohort, with patients in Cohort 2 receiving a target dose of 1 billion SPEAR T-cells.

Successful transition of NY-ESO program

During 2018, a fourth SPEAR T-cell, the NY-ESO SPEAR T-cell was transitioned to GlaxoSmithKline ("GSK") following GSK's exercise of its option to obtain an exclusive global license to the NY-ESO SPEAR T-cell programme in September 2017. GSK has assumed full responsibility for all development, manufacturing and commercialization activities for the NY-ESO SPEAR T-cell including progression of this SPEAR T-cell into further clinical trials.

Optimization and expansion of our manufacturing capabilities

Impressive progress was achieved in manufacturing:

we initiated manufacture of cell product in January 2018 at the Adaptimmune SPEAR T-cell manufacturing plant in Philadelphia

we scaled to the routine manufacture of SPEAR T-cells at target doses to treat patients across a broad range of solid tumours

we established a dedicated vector manufacturing capability in the U.K. and our first vector production run to support pilot clinical trials is anticipated for late 2019

we secured existing vector production with our third party vendor

Edgar Filing: Adaptimmune Therapeutics PLC - Form DEF 14A

These achievements enable us to continue to develop manufacturing enhancements and improvements with the aim of reducing the time taken to manufacture and supply patient products.

Progression of our pre-clinical pipeline

We continued to maintain development of our pipeline, including:

making good progress with an off-the-shelf product and presenting progress to date at ASGCT 2018

continuing to develop multiple next generation approaches, with the goal of having the first next generation construct ready for IND submission in 2H 2019

investigating new targets in the context of new HLA types to be brought to the clinic beyond 2019

Other corporate achievements

The Company completed a Registered Direct Offering raising net proceeds of approximately \$100 million in September 2018.

Activities and major decisions

The Committee's activities during the year included a benchmarking review of executive compensation, which was undertaken to ensure that remuneration for the senior executive team remains competitive for the purposes of retention and engagement. The Committee engaged Willis Towers Watson as independent advisors to benchmark executive compensation against a selected peer group consisting largely of comparable U.S.-listed biopharmaceutical companies, with some U.K.-listed biopharmaceutical companies, and to provide recommendations for base salaries, equity based awards and the structure of bonus incentive awards for 2019.

As a result of this benchmarking exercise, our CEO and senior executive officers received increased base salaries at levels that remain compliant with the last approved Directors' Remuneration Policy. For our CEO, this resulted in a base salary of £457,126 effective from 1 January 2019, to maintain competitive positioning against the peer group.

In December 2018 the Committee also considered the extent of achievement of 2018 calendar year objectives by the executive team and determined the level of bonus incentive awards payable in respect of the 2018 calendar year. The awards made to our CEO and senior executive officers recognised that most of our corporate objectives for 2018 were achieved, with our CEO receiving a bonus award at 85% of the target amount.

In January 2019 the Committee approved the objectives to be achieved by the executive team during 2019. These are considered to be commercially sensitive and will not be disclosed in detail, but are designed to support achievement of our strategic objective to be a world leader in discovering, developing and commercialising TCR-based T-cell therapies that transform the clinical outcomes of patients with cancer and our ambition to be a fully integrated cell therapy company and to have the first TCR T-cell approved for a solid tumour indication.

The 2019 objectives are linked to our business goals, which include the continuation of some 2018 goals, with the addition of a key objective for 2019:

the advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP. A key objective is to advance these wholly owned SPEAR T-cells further during 2019 with the aim of providing initial clinical data for ADP-A2M10 and ADP-A2M4 during the first half of 2019;

continuing to use our SPEAR T-cell platform to generate SPEAR T-cells for cancers where existing therapeutic approaches are limited;

continuing to understand, further enhance and improve the effectiveness and persistence of our SPEAR T-cell therapies;

the optimisation and expansion of our process development and manufacturing capabilities to maintain our leadership position in the TCR space; and

the continued expansion of our intellectual property portfolio.

Generally, the remuneration arrangements adopted in 2019 recognise the greater demands placed on our CEO and senior executive team to deliver on our strategy and create value for our shareholders.

Table of Contents

Finally, under the last approved Directors' Remuneration Policy, the Board has discretion to pay Non-Executive Directors in the form of a mixture of cash and equity. The remuneration arrangements for Non-Executive Directors during 2018 comprised an award of a fixed number of share options, plus an additional number of share options or cash payment at the Director's election. The option awards and cash payments were made at competitive levels aligned with peer group data from comparable companies provided in a benchmarking analysis undertaken by Willis Towers Watson in 2018.

Notes to table of Single Total Figure of Remuneration for each Director

- (1) The majority of the remuneration was set and paid in pounds sterling (£). For the purpose of this table, the fees paid in U.S. dollars to Mr Lawrence Alleva and Dr Tal Zaks for the year ended 31 December 2018 have been translated into pounds sterling based on the U.S. dollar/pound sterling exchange rate at 31 December 2018 (\$1.27602 to £1). The fees paid in U.S. dollars to Dr Tal Zaks for the year ended 31 December 2017, have been translated into pounds sterling based on the U.S. dollar/pound sterling exchange rate at 31 December 2017 (\$1.35005 to £1).
- (2) The base salary levels of our CEO and all other employees of the Group are reviewed and, to the extent deemed necessary, adjusted to be effective from 1 January in each year.
- (3) Taxable benefits comprise medical insurance. Generally, Mr Noble participates in the same benefits as we offer to all our employees in the United Kingdom where Mr Noble resides.
- (4) The annual bonus amount for each of the year ended 31 December 2018 and the year ended 31 December 2017 represents the total bonus payment that related to performance in each of 2018 and 2017.
- (5) The pension allowance for each of the year ended 31 December 2018 and the year ended 31 December 2017 represents an amount equating to 5% of the base salary for each of 2018 and 2017.
- (6)

Edgar Filing: Adaptimmune Therapeutics PLC - Form DEF 14A

There were no performance obligations linked to the equity-based awards. In each of the year ended 31 December 2018 and the year ended 31 December 2017, the value of equity-based awards included in the table is based on the market value of underlying shares at the date of grant, less the applicable exercise price, which is nil because the exercise price was based on the market value of the underlying shares at the date of grant.

Annual Bonus

The annual bonus for the year ended 31 December 2018 shown in the table above for Mr Noble, our CEO, was based on the achievement of objectives primarily linked to our business strategies and which included: the continued advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP; continuing to use our SPEAR T-cell platform to generate SPEAR T-cells for cancers where existing therapeutic approaches are limited; continuing to understand, further enhance and improve the effectiveness and persistence of our SPEAR T-cell therapies; optimization and expansion

of our process development and manufacturing capabilities to maintain our leadership position in the TCR space and the continued expansion of our intellectual property portfolio.

The Board has considered whether it would be in the best interests of the Company and its shareholders to disclose the precise targets agreed for the performance measures in 2018. An additional consideration is that most of our competitors are based in the U.S. where market practice is not to disclose precise annual bonus targets for biotechnology companies at the pre-commercialization stage. As the specific objectives for a single year are based on the Group's long-term strategies, the Board has concluded that disclosing such targets would necessarily involve divulging competitively sensitive information that we believe would be detrimental to our commercial performance going forward and, therefore, we are providing the categories of objectives, rather than the precise targets.

The Single total figure of remuneration for the year ended 31 December 2017 includes the annual bonus payment for performance in the year ended 31 December 2017.
- (2) The bonus payout percentage amount for the year ended 31 December 2018 relates to the total annual bonus payment for performance in the year ended 31 December 2018. The bonus payout percentage amount for the year ended 31 December 2017 relates to the total annual bonus payment for performance in the year ended 31 December 2017. In both years, the maximum opportunity was an annual bonus payment of up to 100% of salary, which was in line with the last approved Directors' Remuneration Policy.
- (3) The amount shown represents the percentage of the options that actually vested during the period expressed as a percentage of the maximum number of options that could have vested during the period. Table of Contents**Chief Executive Officer's Remuneration Compared to Other Employees**

The Chief Executive Officer's average fixed salary of £420,065 for the year ended 31 December 2018 was 5.8 times the value of the average fixed salary of the Group's comparator employees for such period. His average fixed salary of £407,830 for the year ended 31 December 2017 was 6.1 times the value of the average fixed salary of the Group's comparator employees for that period.

The following table shows the percentage change in remuneration of the Chief Executive Officer in comparison to the percentage change in remuneration of an employee in the comparator group (1) between the year ended 31 December 2018 and the year ended 31 December 2017.

**Percentage change in remuneration in the year ended 31 December 2018
compared with remuneration in the year ended 31 December 2017**

	CEO	Average change per employee(1)
Base salary	3.0%	7.9%
Annual bonus	7.0%	10.8%
Taxable benefits	7.3%	(1.1)%(2)

- (1) The employee comparator group comprises all UK and US employees who were employed for the full 24 month period ended 31 December 2018. The percentage change calculations were performed in local currency and then combined using a weighted average based on the number of employees. This group is considered to be an appropriate comparator group because it is representative of the Group's employees in terms of seniority and demographics; additionally, using a consistent employee group, with the same individuals appearing in the 2017 and 2018 groups, enables a meaningful comparison to be made.
- (2) Taxable benefits for the CEO and for employees comprise small amounts and, therefore, any change generates a significant percentage decrease or increase. For the year ended 31 December 2018, the CEO's taxable benefits totalled £906 (2017: £844) for more details, please refer to the table for 'Single Total Figure of Remuneration for each Director' earlier in this report.

Relative Importance of Spend on Pay

The following table sets forth the total amounts spent by the Company and its direct and indirect subsidiaries on remuneration for the year ended 31 December 2018 and the year ended 31 December 2017. Given that the Group remains in the early phases of its business life cycle, the comparator chosen to reflect the relative importance of the Group's spend on pay is the Group's research and development expenses as shown in its consolidated income statement on page 57 of its Annual Report and Financial Statements for the year ended 31 December 2018.

Period:	Year ended 31 December 2018	Year ended 31 December 2017
Total spend on remuneration(1):	\$ 64,276,000	\$ 47,358,000
Research and development expenses:	\$ 115,242,000	\$ 96,381,000

- (1) The total spend on remuneration includes the value of equity-based awards as recognised in the financial statements in accordance with International Financial Reporting Standard 2 "Share-Based Payments".

Executive Director Remuneration for the year ending 31 December 2019

Salary

In 2018, the Committee engaged Willis Towers Watson as independent advisors to benchmark executive compensation, to ensure that it remains competitive for the purposes of retention and engagement. Willis Towers Watson benchmarked executive compensation against a selected peer group consisting largely of comparable U.S.-listed biopharmaceutical companies, with some U.K.-listed biopharmaceutical companies, and to provide recommendations for base salaries, equity based awards and the structure of bonus incentive awards for 2019.

As a result of this benchmarking exercise, our CEO and senior executive officers received increased base salaries at levels that remain compliant with the last approved Directors' Remuneration Policy. For our CEO, this resulted in a base salary of £457,126 effective from 1 January 2019.

Annual bonus

For the year ending 31 December 2019, the CEO is eligible for a target bonus award of 60% of his base salary of £457,126 (that is, £274,276), subject to the achievement of objectives. These are linked to our business strategies, which include: the advancement of our clinical trials for ADP-A2M10, ADP-A2M4 and ADP-A2AFP. A key objective is to advance these wholly owned SPEAR T-cells further during 2019 with the aim of providing initial clinical data for ADP-A2M10 and ADP-A2M4 during the first half of 2019; continuing to use our SPEAR T-cell platform to generate SPEAR T-cells for cancers where existing therapeutic approaches are limited; continuing to understand, further enhance and improve the effectiveness and persistence of our SPEAR T-cell therapies; the optimisation and expansion of our process development and manufacturing capabilities to maintain our leadership position in the TCR space; and the continued expansion of our intellectual property portfolio.

It is anticipated that the Board will meet in the first quarter of 2020 to assess the performance of the CEO for the year ending 31 December 2019 against the objectives.

The Board has considered whether it would be in the best interests of the Company and its shareholders to disclose the precise targets agreed for the performance measures in 2019. An additional consideration is that most of our competitors are based in the U.S. where market practice is not to disclose precise annual bonus targets for biotechnology companies at the pre-commercialization stage. As the specific objectives for a single year are based on the Group's long-term strategies, the Board has concluded that disclosing such targets would necessarily involve divulging competitively sensitive information that we believe would be detrimental to our commercial performance going forward and, therefore, we are providing the categories of objectives, rather than the precise targets.

Long-term incentives

During January 2019, awards of share options were made to our CEO and other Senior Executive Officers. These awards were within market competitive levels provided by Willis Towers Watson, following their benchmarking assessment of equity awards made to executive teams in a peer group of comparable U.S. and U.K. listed biopharmaceutical companies, with a priority focus on U.S. companies, and were also within the principles of the last approved Directors' Remuneration Policy. These awards were disclosed on Form 4s submitted to the Securities and Exchange Commission on 8 January 2019.

The Remuneration Committee

The Remuneration Committee is comprised of Mr Mott (Chairman), Mr Furey and Dr Zaks. All members have continued to serve until the date of this Report on Remuneration. The charter of the Committee is set forth on our website at <http://www.adaptimmune.com>

Table of Contents***Advice Provided to the Remuneration Committee***

The Committee retained Willis Towers Watson to provide independent advice and consultation with respect to remuneration arrangements for the CEO (being our sole Executive Director) and senior management. Willis Towers Watson is a global remuneration consultant with a well-established reputation for the design and implementation of remuneration programmes, including the design and implementation of equity-based incentive programmes. The Committee also sourced certain market research data reports from Radford remuneration consultants. In the year ended 31 December 2018, the amounts paid to Willis Towers Watson totalled \$130,783 and the amounts paid to Radford totalled \$7,050.

In addition to Willis Towers Watson and Radford, the Committee solicited and received input from the CEO concerning the remuneration of senior executives other than himself. The CEO provided recommendations with respect to annual cash bonuses to be paid to these persons for service in the year ended 31 December 2018 and base salaries effective from 1 January 2019 and with respect to equity-based awards made to these persons in January 2019. Finally, the CEO also provided input to the Committee regarding the implementation of equity-based remuneration as an element of all other employees' remuneration.

PART II DIRECTORS' REMUNERATION POLICY

The information provided in this part of the Directors' Remuneration Report is not subject to audit.

We have set forth below a summary of the remuneration policy for the Executive Directors and for our Non-Executive Directors.

The Directors' Remuneration Policy was approved at the Annual General Meeting held on 20 June 2018 and remains effective for a maximum of three years, until 19 June 2021, or until a revised policy is approved by shareholders. The last approved remuneration policy can also be found in the Annual Report and Financial Statements of the Company for the year ended 31 December 2017, which is available in the Investors section of our website: <http://www.adaptimmune.com>

Summary of remuneration policy Executive Directors

As Adaptimmune Therapeutics plc is a U.K. incorporated company listed on NASDAQ, the Group has operations in the U.K. and the U.S., our senior executives and our Non-Executive Directors live and work in the U.K. and the U.S., the Committee considers it appropriate to examine and be informed by compensation practices in both the U.K. and U.S., particularly in the matter of equity-based incentives, with an increasing focus on U.S. benchmarks and practices. The Committee considers that the last approved Directors' Remuneration Policy continues to be appropriate and fit for purpose, but the Committee is committed to reviewing the remuneration policy on an ongoing basis in order to ensure that it remains effective and competitive.

The Directors' Remuneration Policy is used to determine the remuneration for our CEO, our sole Executive Director, as well as for our other senior executives, and would also apply to other Executive Directors and senior executives that we appointed.

As described in the last approved Directors' Remuneration Policy, the elements of remuneration for the Executive Director(s) and Senior Executives comprise: base salary, pension or pension allowance payment, benefits (currently, access to death-in-service life insurance, family private medical cover and ill-health income protection), annual bonus and long term equity incentives (currently, share option awards).

The remuneration of our CEO is determined by the Board after having considered recommendations from the Committee. The remuneration of other senior executives in the Company, excluding our CEO, (the "Senior Executives") is determined by the Committee.

In 2018, the Committee retained an independent remuneration consultant, Willis Towers Watson, to assist the Committee in ensuring that our remuneration arrangements for the Executive Director and senior executives are competitive for the calendar year commencing 1 January 2019. Willis Towers Watson provided data from comparable publicly traded biopharmaceutical companies and otherwise assisted the Committee in its design of competitive remuneration for the Executive Director and senior executives. We expect to continue to use remuneration consultants to assist the Committee in determining competitive levels of executive remuneration and specific design elements of our remuneration programme.

Long term equity incentives	Motivates and rewards multi-year performance, encouraging achievement of strategy over the medium to long term.	Under our share option schemes, the Committee is able to grant awards of CSOP options in the UK, and unapproved share options (non-qualifying options) in the UK and US, which includes the ability to grant RSU-style awards. All awards may be subject to performance targets.	There is no fixed annual maximum limit to the size or value of equity-based compensation awards made in a year to Executive Directors and Senior Executives, or in the aggregate over a period of years.	A number of these objectives are considered to be commercially sensitive and are therefore not disclosed here in detail.
	Aligns the interests of our Executive Directors and Senior Executives with those of our shareholders.	The Committee generally grants equity-based remuneration to Executive Directors and Senior Executives at the time they commence employment and from time to time thereafter based on performance.	However, the Committee will always work within benchmarking guidelines provided by our compensation consultants. Additionally, our option scheme rules set a maximum limit on the grant of options to all participants of 8% of our initial issued share capital on the date of our IPO increased by 4% on each 30 June to be effective from 1 July 2016.	When making awards, the Committee considers: the size and value of past awards; the performance of the Executive Director or Senior Executive; and competitive data on awards made to executives at comparable companies.
	Encourages retention as entitlement to full benefits arising from equity-based awards only accrues over a period of years.	The Committee is able to grant share options which permit phased vesting over the period. Currently, awards vest over a period of four years, with the first 25% vesting after 12 months.		
	Enables us to compete with equity-based remuneration offered by a set of comparable companies with whom we may compete for executive talent.			Our Severance Policy entitles the Executive Director and Senior Executives to accelerated vesting of options on termination without cause on a change of control.

Notes to policy tables

- (1) The use of time-based vesting for share option awards is consistent with U.S. practice, to which we look for guidance on our policies. We examine, with assistance from Willis Towers Watson, our independent remuneration consultant, comparative data on both a (i) fair market value basis and (ii) percentage of salary basis. The Committee uses a blend of the two methods to establish appropriate levels of equity-based remuneration for the Executive Director and Senior Executives.

Application of the Remuneration Policy to Executive Director Remuneration for the year ending 31 December 2019

The following table provides an illustration of the potential remuneration for the year ending 31 December 2019 for the CEO, as the sole Executive Director, computed in accordance with the Remuneration Policy outlined above and by applying the following assumptions:

Minimum	<p>The base salary for the Executive Director is assumed to be the base salary of £457,126 per annum effective from 1 January 2019.</p> <p>The value of benefits receivable for the year ending 31 December 2019 is assumed to be 5% of base salary for a pension allowance payment and the same rate of contribution for private health insurance as for 2018.</p> <p>No bonus is assumed for the Executive Director.</p>
In line with expectations	<p>The same components for base salary and benefits as reflected for the minimum above.</p> <p>The expected level of bonus is taken to be 60% of base salary, being the target level of bonus payment for the year ending 31 December 2019.</p>
Maximum	<p>The same components for base salary and benefits as reflected for the minimum above.</p> <p>The maximum level of bonus is taken to be 100% of current base salary.</p>

The bar chart below does not include any value for equity-based award remuneration in either the minimum illustration or the illustration of remuneration in line with expectations. We do not believe it is possible to reasonably quantify the value that might result from outstanding options and other equity-based awards.

Service Contracts

It is Group policy that Executive Directors should have contracts with an indefinite term providing for a maximum of up to 12 months' notice. We currently employ our CEO, our sole Executive Director, on a service agreement providing for termination, other than for cause, upon nine months' advance notice by either the Company or the CEO. The CEO is required to resign his position as a Director if the Board requires a resignation in conjunction with the end of the employment relationship. We expect service contracts with future Executive Directors will have comparable provisions.

On termination of the service contract without cause, we have the right to require the Executive Director to take garden leave for all or part of the notice period (the remaining term of the contract) and we have the right to pay salary and benefits in lieu of notice. During the period of any garden leave, the Executive Director must continue to be available to the Company and will continue to receive his full salary and other contractual entitlements. The Company may terminate the Executive Director's employment with immediate effect in certain circumstances including bankruptcy, criminal convictions, gross misconduct or serious or repeated breaches of obligations of his service. In the event of termination of the Executive Director for cause, we are not obligated to make any payment in lieu of notice. The service agreement contains non-solicitation and non-competition provisions for a 12 month period as well as confidentiality provisions.

Policy on Payments for Loss of Office

Our approach to payments in the event of termination of an Executive Director is to take account of the individual circumstances including the reason for termination, individual performance, contractual obligations and the terms of the long-term incentive plans in which the Executive Director participates.

As previously reported in our approved Directors' Remuneration Report for the year ended 31 December 2016, and subsequent reports, during March 2017, the Company entered into an amended service agreement with our Executive Director and adopted an executive severance policy that is applicable to our Executive Director and senior executive officers on termination other than for cause. The amended service agreement and executive severance policy are compliant with our last approved Directors' Remuneration Policy. In particular, all employment arrangements for any Executive Director(s) will continue to include a notice provision and continuing payment obligations for not more than a maximum period of one year following our termination of an Executive Director other than for cause. Payment obligations would include base salary, bonus and benefits. In the event of termination without cause following a change of control, the Executive Director is entitled to accelerated vesting of any unvested and outstanding equity awards. In addition, the Board has discretion under our option scheme rules to allow some or all of the options held by our Executive Director and senior executives to vest in the event of a change of control or otherwise.

In order to receive severance benefits under the employment agreement and executive severance policy, the Executive Director is required to execute a release of claims in favour of the Company and comply with certain other post-employment covenants set forth in his employment agreement.

We will comply with applicable disclosure and reporting requirements of the Securities and Exchange Commission with respect to remuneration arrangements with a departing Executive Director.

Policy on Recruitment Arrangements

Our policy is to pay a fair remuneration package for the role being undertaken and the experience of the individual to be appointed. We expect remuneration packages will include base salary, targeted level of annual cash incentive, initial and ongoing equity-based awards, standard benefits and special provisions tailored to the recruiting situation, such as: sign-on bonus, reasonable relocation support and

Table of Contents

make-whole awards for remuneration forfeited from a prior employer (whether on account of cash bonuses, share awards, pension benefits or other forfeited items).

The Board retains the discretion to provide additional benefits where necessary or useful to recruit new Executive Directors or to secure the ongoing service of existing Executive Directors.

If we appoint an existing employee as an Executive Director of the Company, we would expect to retain legacy obligations to the employee with respect to remuneration, such as outstanding share awards. Should these differ materially from current arrangements, these will be disclosed in the next Directors' Remuneration Report following such appointment. We will also disclose remuneration details for a new Executive Director in accordance with applicable reporting requirements of the Securities and Exchange Commission.

Summary of remuneration policy Non-Executive Directors

Under the last approved Directors' Remuneration policy, the Board has the discretion to pay fees to any or all Non-Executive Directors and/or to pay Non-Executive Directors in the form of a mixture of cash and share options. Our remuneration arrangements for Non-Executive Directors continue to comprise an award of a fixed number of share options, plus an additional number of share options or cash payment at the Director's election. The option awards and cash payments made in 2018 were established at competitive levels taking into account peer data from comparable companies provided in a benchmarking analysis undertaken by Willis Towers Watson in 2018 and are compliant with the last approved Directors' Remuneration policy.

The Committee has retained Willis Towers Watson to assist the Committee in ensuring that our remuneration arrangements for the Non-Executive Directors are competitive and appropriate by benchmarking them against comparable publicly traded biopharmaceutical companies, with an increasing focus on U.S. benchmarks and practices. We expect to continue to use remuneration consultants to assist the Committee in determining competitive levels of Non-Executive Director remuneration and specific design elements of our Non-Executive Director remuneration programme.

Our Non-Executive Directors participate in the Group's long-term incentive plans on terms similar to those used for Executive Directors. In accordance with their Letters of Appointment, each Non-Executive Director is entitled to receive an annual award of share options, and incoming Non-Executive Directors receive an initial award of share options, and which may include RSU-style awards, with such number to be determined by the Board. In determining option awards, the Board works within benchmarking guidelines provided by remuneration consultants.

Any share options that are awarded will not be subject to performance conditions.

Our Non-Executive Directors do not receive any pension from the Company nor do they participate in any performance-related incentive plans.

Letters of Appointment

The Chairman and all other Non-Executive Directors have letters of appointment which set out the terms under which they provide their services to the Company and which are subject to a three month notice period either by the Company or the Non-Executive Director. Their remuneration is reviewed by the Board annually. In accordance with the Company's Articles of Association, Non-Executive Directors are included in the requirement that one-third of Directors are subject to retirement by rotation at each Annual General Meeting of shareholders. There is no remuneration payable on loss of office when, for example, a Director is not re-elected at an Annual General Meeting.

Statement of Consideration of Employment Conditions and Differences to the Executive Director Policy

All our employees are paid a base salary and receive standard employee benefits, which vary according to whether they are employed in the UK or in the US but all are entitled to a contribution from the Group towards a pension scheme or retirement plan, as well as access to health insurance and income protection.

All employees are eligible to be considered for an annual increase in their base salaries, provided they have worked for a sufficient portion of the prior fiscal year. In addition, all employees are eligible to be considered for target annual cash bonus awards, subject to the achievement of objectives and to the overall performance of the Company, and for consideration for regular option awards. Eligibility is dependent on the employee's position and performance, with more senior employees eligible for higher bonus and option award levels.

No specific consultation with employees has been undertaken in respect of the design of the Company's senior executive remuneration policy to date although the Committee will keep this under review.

Statement of Consideration of Shareholder Views

This policy for remuneration of both Executive Directors and Non-Executive Directors was devised by a Remuneration Committee of which all members are Non-Executive Directors. The policy was also approved by the full Board.
