FORM 10KSB/A

FOR THE YEAR ENDED DECEMBER 31, 2000

PART 1

ITEM 1. DESCRIPTION OF BUSINESS

(A) GENERAL DEVELOPMENT OF BUSINESS

<r>

The Company was originally incorporated under the laws of the State of Idaho on November 9, 1935 under the name of Montgomery Mines, Inc. In April, 1978 the

Montgomery Mines corporation was obtained by a group of the Thunder Mountain property holders and changed its name to Thunder Mountain Gold, Inc. with the primary goal to further explore and develop their holdings in the Thunder Mountain Mining District, Valley County, Idaho. In August 1985, the Company's shareholders approved an increase in the authorized common stock, \$0.05 par value, from 7,500,000 shares to 12,000,000 shares. Quotations of the bid and ask prices for the stock are published by the Spokane Quotations Service of Spokane, Washington.

The Company's primary property at Thunder Mountain was placed into operation in the mid-1980s by Coeur 'd Alene Mines under a net profits arrangement.

Substantial gold and silver production was done by Coeur 'd Alene from the Sunnyside Deposit by open pit mining and heap leaching. Coeur 'd Alene ceased production in the early 1990s and relinquished the claims back to the Company.

Subsequently the property leased to and explored by several other exploration/mining companies, including Kennecott and USMX/Dakota Mining. A joint venture between the Company and Dewey Mining unified the mining district during this period, and USMX/Dakota Mining expended approximately \$5 million to explore the district and define a significant measured mineral resource on the Dewey property. Bankruptcy by Dakota Mines provided an opportunity for the Company and Dewey Mining to acquire the consolidated district for future development. USMX/Dakota Mining had initiated an Environmental Impact Statement (EIS), additional baseline studies and other permitting requirements to place the Dewey deposit into production. The Company continued these activities to a limited extent.

During 2000, the Company and their joint venture partner, Dewey Mining Company, entered into an Option Agreement with Trust for Public Lands to purchase the consolidated mining district. The Trust for Public Lands is a nonprofit organization dedicated to the preservation of nature for human enjoyment and well being. The Thunder Mountain Mining District is located on a "cherry-stem" within the Frank Church River of No Return Wilderness that was specifically outlined to allow continued development of the historic mining area. Due to its location, the Company's land position is a candidate for purchase by the United States Forest Service through the Land and Water Conservation Funds. The Option recognizes a minimum acceptable value for the measured mineral resource and real property, and if this is not met, the Company maintains the ability to continue development of the property. All permitting efforts have been, for the time being, placed on hold pending the completion of the initial appraisal. The Option Agreement has been extended beyond the original specified timeframe due to delays in securing an appraiser. Due to delays in the initiation of the appraisal process, including negotiations with the U.S. Forest Service, the original timeframe of the base agreement were not met. The agreement was extended and continued in full force by mutual written agreement between The Trust for Public Land and both the Company and Dewey Mining Company.

<page> 2

Edgar Filing: THUNDER MOUNTAIN GOLD INC - Form 10KSB/A
FORM 10KSB/A

FOR THE YEAR ENDED DECEMBER 31, 2000

The Company also conducted limited exploration for valuable minerals outside of the Thunder Mountain Mining District in the western states during 2000, including the acquisition of an interest in a platinum group metals property in Nevada. The Company also evaluated and conducted due diligence for a business opportunity to facilitate the development of an Linux-based software company. The Company continues to evaluate both natural resource and technology ventures to enhance Stockholder equity.

The Company is an exploration stage company and there is no assurance that a commercially viable mineral deposit exists on any of its properties. Further exploration efforts will likely be required by the Company or lessor before a final evaluation as to the economic and legal feasibility of conducting further operations is determined.

In addition to the patented claims, the Company also owns unpatented mining claims. The validity of unpatented mining claims is dependent upon inherent uncertainties and conditions. These uncertainties related to such non-record facts as the sufficiency of the discovery of minerals, proper posting and marking of boundaries, whether the minerals discovered were properly locatable as a lode claims or a placer claim as appropriate, whether sufficient annual assessment work has been performed since location as required by law, and possible conflicts with other claims not determinable from descriptions of record. In the absence of a discovery of valuable minerals, a mining claim is

open to location by others unless the owner is in actual possession of and diligently working the claim. No assurance can be given with respect to unpatented mining claims in the exploratory stage that the requisite discovery of a valuable mineral deposit can be made thereon.

PRECIOUS AND OTHER MINERAL PROPERTIES

1. THUNDER MOUNTAIN MINING DISTRICT, VALLEY COUNTY, IDAHO

The Company and their joint venture partner, Dewey Mining Company, holds 272 unpatented and 50 patented lode claims and fractional claims in the historic Thunder Mountain District of Valley County, Idaho. Company Exploration efforts are targeted at gold and silver, with further definition of the mineralized resource.

The Company's claims are located in the Thunder Mountain Mining District, approximately 55 miles east of McCall, Idaho. The approximate location of the property is illustrated by the following map.

<page> 3

THUNDER MOUNTAIN GOLD, INC.

FORM 10KSB/A

FOR THE YEAR ENDED DECEMBER 31, 2000

<page> 5

THUNDER MOUNTAIN GOLD, INC.

FORM 10KSB/A

FOR THE YEAR ENDED DECEMBER 31, 2000

The Registrant and Dewey Mining Company, an Idaho Corporation, entered into a

joint venture agreement in February 1992 . The joint venture owns outright a total of 50-patented lode-mining claims (735.5 acres total) and 272 unpatented lode claims (5,245 acres total). With the exception of one small claim block within the Frank Church River of No Return Wilderness (their location pre-dated the wilderness designation), all of the claims are within the "cherry-stem" that forms a corridor into the wilderness. Mineral development within this cherry-stem is subject to the same regulatory stipulations as the United States Forest Service managed land surrounding the wilderness. Some of the Company's claims within the cherry stem are partially within the wilderness area, but these were, for the most part, located as protection of the land position more central to the cherry-stem that either has mineral resources or exploration potential.

Under the terms of the Joint Venture, both Dewey Mining Company and Thunder Mountain Gold joined all resources including patented and unpatented mining claims, proven, probable and potential ore reserves, water rights and any other right, title and interest on the properties. All costs connected with the effort of marketing the joint properties to environmental interests, mining companies, or other interested parties are shared on a 50-50 basis. All properties and expenditures as of the date of the joint venture agreement are considered equal. All net proceeds generated by, or from the joint properties will be shared on a 50-50 basis. The joint venture agreement does not create a partnership, and each Party will hold the other harmless from any pre-existing obligation and liabilities. Dewey Mining Company retained ownership of the existing 500 ton-per-day gravity mill, although this facility could be utilized for processing gold-silver mineralization mined from any deposit defined on the

joint property.

MINERALIZATION AND CURRENT ACTIVITY

Mineralization within the Thunder Mountain District is hosted in the volcanic rock sequence of the Thunder Mountain Caldera and lies within the northeast-trending Trans-Challis Mineral Belt of central Idaho. The Dewey Deposit is hosted in rhyolitic ash fall tuffs and tuffaceous sediment of the Dewey Sequence, part of the extensive Eocene Challis Volcanic Group. Three gold-silver mineralized zones are defined within the Dewey Deposit: 1) an upper tuffaceous sediment unit; 2) a middle ash fall tuff unit, and; 3) a lower mudflow agglomerate unit. Gold and silver mineralization is both structurally and stratiform controlled, with the better grades occurring along structural zones where hydrothermal fluids concentrated mineralization. Other areas of past production and future potential mineralization within the district are within similar geologic and host rock settings.

Exploration of the Dewey Deposit has been extensive, with work completed by several exploration and mining companies since the 1970s. A mineralized resource has been defined using after the completion of 256 drill holes on 100-foot centers with some areas of 50-foot fill in drilling that resulted in 12,275 assay intervals. Extensive geologic mapping and sampling, with some exploratory drilling, has been done on several other geologic targets within the district. The current mineralized resource defined at the Dewey Deposit is the result of approximately \$5 million dollars of expenditures by USMX and Dakota Mining, this not counting previous exploration drill data compiled by Placer

Amex, Copper Lakes and other companies. As a result of this work, a measured mineral resource of 5,390,000 tons averaging 0.047 ounces per ton gold (using a gold price of \$400 per ounce) has been outlined at the Dewey Deposit.

<page> 6

THUNDER MOUNTAIN GOLD, INC.

FORM 10KSB/A

FOR THE YEAR ENDED DECEMBER 31, 2000

A measured mineral resource is generally defined as that part of a mineral resource for which quantity, grade or quality, densities, shape, physical characteristics are so well established that they can be estimated with confidence sufficient to allow the appropriate application of technical and economic parameters to support production planning and evaluation of the economic viability of the deposit.

Current infrastructure that supports exploration activities and potential future development of the Thunder Mountain Property consists of improvements associated with past mining operations. This includes access road improvements, a potential tailings disposal area, and a Dewey Mining Company-owned small (approximate 500 ton-per-day) gravity milling facility that was operational in the late 1970s and early 1980s, along with support facilities including fuel storage tanks, shop, assay laboratory, electrical equipment, base camp housing, etc.

Costs incurred by the Company include property maintenance activities (claim fees, taxes, etc.), site security, monitoring and maintenance of reclamation and sediment control features. All exploration, development and mining activities in the past have been borne by previous operators that had the Thunder Mountain Property under lease arrangement.

All past and future operations would require generation of power on site by the use of diesel-powered generators.

The Thunder Mountain Property is without known and defined reserves pursuant to SEC Industry Guide 7. Significant mineralized material has been "drill defined" as discussed above. The Property is still in an exploration stage, although sufficient information has been developed to potentially initiate further development activities.

Maintenance of the mining claims consists of payment of the annual claim maintenance fees on unpatented mining claims. Property taxes are paid on all patented and unpatented mining claims.

2. IRONSIDE PLATINUM GROUP METALS (PGM) PROSPECT, GOODSPRINGS MINING DISTRICT, CLARK COUNTY, NEVADA

The Company has an 50% interest in a lease with an option to purchase on the 4 Oro Amigo patented claims and the 40 BOA unpatented lode claim group in the Goodsprings Mining District in Clark County, Nevada. The claims are located approximately 25 miles southwest of Las Vegas, Nevada. Platinum, palladium,

silver and gold were produced in this area of the Goodsprings District during the period 1914 - 1920. Reported production was approximately 400 ounces of platinum, 900 ounces of palladium, 1,800 ounces of gold, 7,000 ounces of silver and 570,000 pounds of copper. The land position was secured because of its exploration potential. The Ironside PGM Prospect claims cover a northeast-bearing trend of PGM, precious and base metal occurrences that extends for about three miles along a structural trend. During the war effort, minor production of platinum group metals and gold was done on the Registrant's claims. Geologic mapping and sampling of the property was completed during 2000, and potential exploration targets have been defined. Several companies that produce platinum group metals have expressed an interest in the claims. Efforts are ongoing to interest a larger platinum group metals exploration company in the target potential of the holdings

<page> 7

THUNDER MOUNTAIN GOLD, INC.

FORM 10KSB/A

<page> 8

THUNDER MOUNTAIN GOLD, INC.
FORM 10KSB/A
FOR THE YEAR ENDED DECEMBER 31, 2000

MINERALIZATION AND CURRENT ACTIVITY

Mineralization and anomalous geochemistry occurs along the high-angle Ironside Thrust Fault zone associated with the Ironside and nearby regional Keystone Thrusts. Moderately large intrusive bodies are located nearby. Mineralization is thought to be distal to the intrusive contact along the structural zones.

The potential targets consist of defining additional sulfide replacements within the carbonates along the structural zones, particularly near the contact with the intrusives in the area. Additionally, the style of mineralization indicates that there may be a deep intrusive-hosted PGM target.

Mineralization occurs in secondary silica (jasperoid) associated with sulfide gossans in a carbonate sequence of Devonian and Lower Mississippian age. A detailed 143 rock-chip sample program along the structural zone and localized gossan-jasperoid zones showed results where approximately 50% of the samples were anomalous in PGM-precious metal geochemistry. Of the 143 samples, 44 were anomalous in platinum, 67 in palladium and 77 in gold. The highest selected sample result was from the Oro Amigo claims and assayed 2.02 ounce-per-ton (opt)

gold, 0.182 opt platinum, 0.410 opt palladium and 6.9 opt silver. All samples were analyzed by Chemex Laboratories of Vancouver, BC, a lab recognized for their capability to analyze for PGM and precious metal content.

Work on the property during the year consisted of mapping and sampling, and showing it to PGM-based exploration companies. Other than access roads, there is no infrastructure on the holdings. Maintenance of the mining claims consists of payment of the annual claim maintenance fees on unpatented mining claims and lease payments to the owner of the four patented lode claims. Property taxes are paid on all patented and unpatented mining claims.

</r>

(A) FINANCIAL INFORMATION ABOUT INDUSTRY SEGMENTS.

The Registrant has no other industry segments.

(B) NARRATIVE DESCRIPTION OF BUSINESS.

Refer to ITEM: 1 Description of Business (supra) Subparagraph (i) through (xii) are not applicable to the Registrant.

(C) FINANCIAL INFORMATION ABOUT FOREIGN AND DOMESTIC OPERATIONS AND EXPORT SALES.

This paragraph is not applicable to the Registrant.

ITEM 2: PROPERTIES

For continuity and clarity, this information was included in the information set
in Item 1.

<page> 9

THUNDER MOUNTAIN GOLD, INC.
FORM 10KSB/A
FOR THE YEAR ENDED DECEMBER 31, 2000

ITEM 3: LEGAL PROCEEDINGS.

<r>

The Company has no legal actions pending against it and it is not a party to any suits in any court of law, nor are the directors aware of any claims which could give rise to or investigations pending by the Securities and Exchange Commission or any other governmental agency. The Company, along with other impacted entities, including companies, municipalities and various irrigation

districts, has been involved in a legal protest against the Federal Government's claims for certain reserved water rights for Wild and Scenic Rivers Act purposes. The matter is in the Idaho States Federal Court for the District Court of Idaho (SRBA Case No. 39576, District Court of the Fifth Judicial District of the State of Idaho, in and for the County of Twin Falls) assigned to handle the Snake River Basin water rights adjudication.

The Company is involved in no civil rights negotiations or proceedings.

ITEM 4: SUBMISSION OF MATTERS TO VOTE ON SECURITY HOLDERS.

No matters were submitted to vote of the Registrant's security holders during 2000.

</r>

PART 11

ITEM 5: MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

(A) MARKET INFORMATION.

The common stock of the Registrant is traded over-the-counter in Spokane, Washington and its bid and asked prices are quoted on a daily basis by the Spokane Quotation Service, Spokane, Washington.

The bid prices for the Registrant's stock for the years 2000 and 1999 were as follows:

BID PRICES

2000	HIGH	LOW
	-----	-----
First Quarter	\$ 0.10	\$ 0.04
Second Quarter	\$ 0.10	\$ 0.10
Third Quarter	\$ 0.10	\$ 0.10
Fourth Quarter	\$ 0.10	\$ 0.10

BID PRICES

1999	HIGH	LOW
	-----	-----
First Quarter	\$ 0.04	\$ 0.04
Second Quarter	\$ 0.04	\$ 0.04
Third Quarter	\$ 0.04	\$ 0.04
Fourth Quarter	\$ 0.10	\$ 0.06

Edgar Filing: THUNDER MOUNTAIN GOLD INC - Form 10KSB/A

(B) APPROXIMATE NUMBER OF EQUITY SECURITY HOLDERS:

Title of Class	No. of Record Holders
-----	-----
\$0.05 Par Value Common Stock Non -Assessable	2,241 as of December 31, 2000

(C) DIVIDEND HISTORY AND RESTRICTIONS

The Registrant has not paid any dividends, and does not plan to do so in the foreseeable future as it plans to use its capital to finance the search for additional mineral properties of potential commercial value.

ITEM 6: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION.

(a) FULL FISCAL YEAR.

<r>

Liquidity: The Company has a positive cash position and has invested funds in a cash management mutual fund. The Company's cash and liquid assets are considered adequate to meet its current and foreseeable obligations. The market value of some of the stock mutual funds decreased substantially during 2000,

representing a significant paper loss. The Company has a positive cash-position and has invested funds in a cash management mutual fund. The Company's cash and liquid assets are considered adequate to meet its current and foreseeable obligations. The market value of some of the stock mutual funds decreased substantially during 2000, representing a significant loss. The Company does not foresee any necessity to raise additional funds during the next 12 month period. Management believes that its invested funds are sufficient to meet any explorations costs and expenses incurred during the next 12 months.

Expenses for the ensuing year will be incurred for continued search and Exploration for additional properties, and for management fees and administrative costs. The Company's required claim maintenance will be performed for its unpatented claims by the Company. It is anticipated that Directors and managerial fees will be minimal during the upcoming year due to the low cash position of the Company. The Company did not engage in any research and development activities during fiscal 2000.

Directors and management fees were \$17,000 annually. Please refer to the financial statements for additional costs and expenditures and other financial information.

Capital Resources: The Company presently did not acquire any equipment during 2000. The Company does not intend to make any capital expenditures from its funds for property or equipment during the next 12 months. The Company also does not presently have any plans to raise capital through debt or equity financing.

Results of Operations: The Company had no production from operations for 2000.

Although additional production units are likely, it is impossible to predict with any certainty when and where the next production unit will be developed.

For that reason, it is impossible to predict the future production units.

For 2000, gross revenues were \$-0-.

The Company does not currently have any employees, and does not anticipate any for the upcoming calendar year(s). </r>

REPORT OF INDEPENDENT AUDITORS

Board of Directors

Thunder Mountain Gold, Inc.

Spokane, Washington

We have audited the accompanying Balance Sheets of Thunder Mountain Gold, Inc., (An Exploration Stage Company) as of December 31, 2000 and 1999, and the related Statements of Operations, Cash Flows and Changes in Stockholders' Equity for each of the three years ended December 31, 2000, 1999, and 1998. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall

financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Thunder Mountain Gold, Inc., (An Exploration Stage Company) as of December 31, 2000 and 1999, and the results of its operations, cash flows and changes in stockholders' equity for each of the three years ended December 31, 2000, 1999, and 1998, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 5 to the financial statements, the Company has suffered recurring losses from operations that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 5. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As discussed in Note 3 to the financial statements, the financial Statements for the years ended December 31, 2000, 1999, and 1998, have been restated to reflect the expensing of mining claims.

/s/ ROBERT MOE & ASSOCIATES, P.S.

Spokane, Washington

<page> 19

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

Notes To Financial Statements

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Business Operations

Thunder Mountain Gold, Inc., takes its name from the Thunder Mountain Mining District in Valley County, Idaho, where its principal lode mining claims are located.

Accounting Policies

Marketable securities are stated at market value. The market value is based on quoted market prices or other fair value estimates provided by third party portfolio managers.

Exploration Costs

Exploration costs are charged to operations when incurred.

Property and Equipment

Property and equipment are carried at cost. Depreciation is computed using accelerated depreciation methods with useful lives of three to seven years. Major additions and improvements are capitalized. Costs of maintenance and repairs, which do not improve or extend the life of the associated assets are

expensed currently. When there is a disposition of property and equipment, the cost and related accumulated depreciation are removed from the accounts and any gain or loss is reflected in net income.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

<page> 20

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

Notes To Financial Statements

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued)

Comprehensive Income

In 1998, the Company adopted Statement of Financial Accounting Standards (FAS) 130, "Reporting Comprehensive Income," issued by the Financial Accounting Standards Board (FASB). The Company reports accumulated other comprehensive income as a separate component of shareowners' equity. There were no adjustments required for the deferred tax effects of the unrealized gain or loss on securities.

Earnings Per Share

The Company computes basic earnings per common share by dividing the net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share are calculated by including all dilutive potential common shares such as stock options. Dilutive potential common shares were 9,727,852 in 2000, 1999, and 1998. No adjustment to reported net income is required when computing diluted earnings per share.

NOTE 2 - INVESTMENTS

Investments consist of the following:

	Carrying		Market	
	Value	Cost	Value	

December 31, 2000:				
Current Investments	\$ 231,923	\$ 278,277	\$ 231,923

=====

<page> 21

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

Notes To Financial Statements

NOTE 2 - INVESTMENTS (continued)

Other investments consist of small stock holdings in several local mining companies.

NOTE 3 - MINING CLAIMS AND RESTATED FINANCIAL STATEMENTS

Substantially all of the Company's patented and unpatented claims in the Thunder Mountain Mining district were obtained from major stockholders for cash or newly issued stock. The purchase price and capitalized costs of the mining claims have been written off and the financial statements for 2000, 1999, and 1998 have been restated to reflect this adjustment. The net accumulated capitalized costs charged to the income statement as an impairment loss for 1998 was \$233,705. For additional information regarding the mining claims see Note 5.

NOTE 4 - INCOME TAXES

The Company has losses for income tax purposes and accordingly has no income tax provision.

At December 31, 2000, the Company has \$597,302 in net operating loss carry forward which may be used to offset taxable income generated by operations, which will begin expiring in 2004. The Company also has a general business tax credit carryover in the amount of \$1,283, which may be used to offset future federal income tax liabilities. This credit will expire in 2004. The Company also has a foreign tax credit in the amount of \$343, which may be used to offset future federal income tax liabilities.

The net operating loss and other credits carry forward would normally result in a recorded income tax benefit. As a result of the uncertainty to continue as a going concern as described in Note 5, the income tax benefit is fully reserved and is not reflected herein.

<page> 22

THUNDER MOUNTAIN GOLD, INC.

(An Exploration Stage Company)

Notes To Financial Statements

NOTE 5 - UNCERTAINTY - GOING CONCERN

The Company's continued existence is dependent upon its ability to resolve its liquidity problems, principally by obtaining equity or debt funding, sale of the mining claims or production from the mining claims. While pursuing additional funding or sale of its mining claims, the Company must continue to operate on limited cash flow generated from the sale of investments. The Company has no revenue from operations and has experienced recurring losses. Management believes that geological, geophysical, and engineering data have identified mineralized material in place on the mining claims in commercial quantities to be of value.

NOTE 6 - LITIGATION

The Company, along with other similarly situated parties, is a protestant against the Federal Government's claims for certain reserved water rights for

Wild and Scenic Rivers Act purposes. The matter is in the Idaho State District Court assigned to handle the Snake River Basin water rights adjudication. Legal counsel anticipates the settlement will be favorable to Thunder Mountain Gold, Inc.

SUPPLEMENTAL SCHEDULES

REPORT OF INDEPENDENT AUDITORS ON SUPPLEMENTAL SCHEDULES

The Board of Directors
Thunder Mountain Gold, Inc.
Spokane, Washington

Our report on the financial statements of Thunder Mountain Gold, Inc., (An Exploration Stage Company) is included in the Form 10-KSB and covers the balance sheets as of December 31, 2000 and 1999 and the related statements of operations, cash flows and changes in stockholders' equity for each of the three years ended December 31, 2000, 1999, and 1998. In connection with our audit of such financial statements, we have also audited the related supplemental schedules, as follows:

Schedule I - Marketable Securities - Other Investments

Schedule V - Property, Plant, and Equipment

Schedule VI - Amortization of Property, Plant, and Equipment

In our opinion, the supplemental schedules referred to above, when considered in relation to the basic financial statements taken as a whole, present fairly the information required to be included therein.

/s/ ROBERT MOE & ASSOCIATES, P.S.

Spokane, Washington

March 21, 2001, except as to Notes 3 and 5

Which is April 24, 2002.

<r>

During the year ended December 31, 2000 there were no disagreements between the Company and its independent certified public accountants concerning accounting and financial disclosure.

</r>

PART III

ITEM 9: DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

(a) Identification of Directors:

E. James Collord, Age 53 - President and Director - Mr. Collord has been an officer and Director of the Registrant since 1978.

Robin S. McRae, Age 59 - Secretary/Treasurer and Director - Dr. McRae has been an officer and Director of the Registrant since 1978.

Pete Parsley, Age 38 - Director and Thunder Mountain Project Manager. Mr. Parsley has been a director since 1999.

Ronald Yanke, Age 62, - Director

(b) IDENTIFICATION OF EXECUTIVE OFFICERS

This information is contained in paragraph (a) above.

(c) FAMILY RELATIONSHIPS

Dr. Robin S. McRae is the cousin of E. James Collord, the President of the Registrant.

(d) BUSINESS EXPERIENCE

E. James Collord has a Masters of Science degree in exploration geology from the Mackay School of Mines, University of Nevada. He has been a mining professional since 1973, employed as a mill construction superintendent, exploration geologist, mine construction and reclamation manager, and in environmental and lands management. He is currently actively employed as Environmental and Land Superintendent at a large gold mine near Elko, Nevada.

Robin S. McRae is a graduate of the Pacific College of Optometry and is a practicing optometrist. He is the grandson of Daniel C. McRae, and original locator of many of the gold prospects in the Thunder Mountain Gold Mining District, and is the son of Robert J. McRae, author of numerous geological reports concerning the Thunder Mountain Mining District. His knowledge of mining and related exploratory activities is derived from three generations of ownership of the Sunnyside Group of Claims which the Registrant now owns.

Pete Parsley has a Masters in Science degree in geology from the University of Idaho. He has been a mining professional since 1985 with experience in gold exploration, mine development, construction, reclamation, and environmental compliance and permitting. He has been associated with the Thunder Mountain project since 1985.

Edgar Filing: THUNDER MOUNTAIN GOLD INC - Form 10KSB/A
THUNDER MOUNTAIN GOLD, INC.

FORM 10KSB/A

FOR THE YEAR ENDED DECEMBER 31, 2000

Ron Yanke is a successful Boise-based businessman, including owner of the 57-year old Yanke Machine Shop. He also is an owner of Yanke Energy (cogeneration plants), has timber interests and is part owner of the Dewey Mining Company.

(e) DIRECTORSHIPS

None of the directors of the Registrant is a director of any other corporation subject to the requirements of Section 12 or Section 15(d) of the Exchange Act of 1934.

(f) INVOLVEMENT IN CERTAIN LEGAL PROCEEDINGS

None of the Officers and Directors of the Registrant has been involved in any bankruptcy, insolvency, or receivership proceedings as an individual or member of any partnership or corporation; none has ever been convicted in a criminal proceeding or is the subject of a criminal proceeding presently pending. None has been involved in proceedings concerning his ability to act as an investment advisor, underwriter, broker, or dealer in securities, or to act in a responsible capacity for investment company, bank savings and loan association, or insurance company or limiting his activity in connection with the purchase and sale of any security or engaging in any type business practice.

None has been enjoined from engaging in any activity in connection with any violation of federal or state securities laws nor been involved in a civil action regarding the violation of such laws.

(g) PROMOTERS AND CONTROL PERSONS

Not applicable

ITEM 10: EXECUTIVE COMPENSATION

(a) CASH COMPENSATION

None of the executive officers or Directors received \$50,000 or more during 2000.

<r>

All officers and Directors, of which there were five* at various times during 2000, received the sum of \$40,000 distributed as follows: </r>

E. James Collord	Vice President/Director	\$12,000*
Robin S. McRae	Secretary/Treasury	\$10,000
