Item 7(a)

REPORT OF INDEPENDENT AUDITORS

To the Members
Bridgeblood Technologies, L.L.C.

I have audited the accompanying Balance Sheet of Bridgeblood Technologies, L.L.C. as of December 31, 2001 and the related statement of Operations and Member's Equity (Deficiency) and Statement of Cash Flows for the year then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bridgeblood Technologies, L.L.C. as of December 31, 2001, and the results of its operations and cash flows for the year then ended in conformity with generally accepted accounting principles.

Edgar Filing: BIOENVISION INC - Form 8-K

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2001

Note 1 : DESCRIPTION OF OPERATIONS:

Bridge Blood Technologies L.L.C. ("BBT" or the "Company") was established to develop and acquire biotech and medical technologies.

BBT is developing systems designed to improve the safety of blood transfusions by inactivation of infectious pathogens in blood components (fresh from frozen plasma of "FFP", platelets and red blood cells) used for transfusion. BBT has the worldwide rights to the use of thiazine dyes, including methylene blue, for in vitro inactivation of pathogens in biological fluids. Methylene blue is only two compounds used commercially to inactivate pathogens in blood products, and is currently used in many European countries to inactivate pathogens in FFP. The Company believes that, as a result of the mechanism of action of its proprietary technology, its systems also have the potential to inactivate many new pathogens before they are identified and before tests have been developed to detect their presence in the blood supply. Because the Company's systems are being designed to inactivate rather than merely test for pathogens, the Company's

Edgar Filing: BIOENVISION INC - Form 8-K

systems also have the potential to reduce the risk of transmission of pathogens that would remain undetected by testing.

In February 2000, BBT acquired the OLIGON technology from creditors to Implemed, Inc. The OLIGON technology is a patented antimicrobial technology that can be incorporated into the manufacturing process of many implantable devices. The patented process, involving two dissimilar metals (silver and platinum) creates an electrochemical reaction that releases silver ions which destroy bacteria, fungi and other pathogens. BBT intends to commercialize the technology in partnership with leading medical devices manufacturers.

NOTE 2 : BASIS OF PRESENTATION:

The financial statements are prepared on an accrual basis of accounting where revenue is recognized when earned and expenses then incurred.

NOTE 3 : SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

INTANGIBLE ASSET

Intangible asset represents a license and is being amortized using the straight line basis over 15 years.

ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 4 : RELATED PARTY TRANSACTIONS:

The Company was charged \$207,885 for the year ended in December 31, for related expenses paid by an affiliate on its behalf.

NOTE 5 : CONTIGENT LIABILITES:

The Company has a \$300,000 demand note payable contingent on the receipt by the Company of at least \$5,000,000 of qualified financing. The note bears interest at 1.5% per month. Total accrued interest at December 31, 2001 amounted to \$313,044.

Item 7(b)

PRO FORMA FINANCIAL INFORMATION

The following unaudited pro forma consolidated balance sheet as of December 31, 2001 and unaudited pro forma consolidated statements of income for the year ended June 30, 2001 and for the six months ended December 31, 2001 (collectively, the "Pro Forma Statements") are based on the unaudited historical Consolidated Financial Statements of Bioenvision, Inc. and Subsidiaries (the "Company"), included in the Company's Quarterly Report on Form 10-QSB for the quarter ended December 31, 2001, the audited historical financial statements of the Company, included in the Company's Annual Report on Form 10-KSB/A for the year ended June 30, 2001 and the audited historical consolidated Financial Statements of Bridgeblood Technologies L.L.C DBA Pathagon Inc. ("Pathagon") included elsewhere in this report on Form 8-K/A, adjusted to give effect to the acquisition of Pathagon (the "Pathagon Acquisition") using the purchase method of accounting and the assumptions and adjustments in the accompanying Notes to the Unaudited Pro Forma Consolidated Financial Statements. The pro forma consolidated balance sheet gives effect to the transaction as if it occurred on December 31, 2001 and the pro forma consolidated statements of income for the year ended June 30, 2001 and the six-months ended December 31, 2001 give effect to the transaction as if it occurred on July 1, 2000, the first day of the Company's 2001 fiscal year.

The pro forma adjustments are based upon available information and certain assumptions that the Company believes are reasonable. The Pro Forma Statements are provided for informational purposes only and do not purport to represent what the Company's financial position and results of operations would actually have been had the Pathagon Acquisition in fact occurred on such date or to project the Company's financial position or results of operations for any future period. Additionally, the Pro Forma Statements do not include any cost savings or other synergies expected to be realized as a result of the integration of the two companies. Furthermore, the allocation of the purchase price is preliminary and subject to further revision.

The Pro Forma Statements and the Notes thereto should be read in conjunction with the historical Consolidated Financial Statements of the Company and Notes thereto included in the Company's Quarterly Report on Form 10-QSB for the six months ended December 31, 2001, the Consolidated Financial Statements of the Company and Notes thereto included in the Company's Annual Report on Form 10-KSB/A for the year ended June 30, 2001 and the historical Financial Statements of Pathagon and Notes thereto included elsewhere in this report on Form 8-K/A.

Notes to Pro Forma Consolidated Financial Statements
December 31, 2001 and June 30, 2001

- a. To eliminate equity of acquired company
- b. To record purchase adjustments to reflect fair value of assets acquired and liabilities assumed.

The acquisition was recorded as a purchase under SFAS 141. The company issued 7,000,000 shares to complete the acquisition, which was valued at \$12,600,000 based on the 5-day average trading price of the stock (\$1.80) from November 22, 2001, the day of the company's announcement of the intended acquisition. The purchase price was allocated to the patents acquired net of assumed liabilities of \$108,000. The patents acquired have a finite life of 15 years. No goodwill was recorded on the transaction.

- c. Record professional fees related to acquisition
- d. Record full year amortization of intangible assets related to patents acquired in the acquisition
- e. Record 6 months of amortization of intangible assets related to acquisition
