CHINA MOBILITY SOLUTIONS, INC.
(Previously known as Xin Net Corp.)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2004
(Unaudited)

1. Basis of Presentation

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

The accompanying unaudited financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America. However, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted or condensed pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of management, all adjustments of a normal recurring nature necessary for a fair presentation have been included. The results for interim periods are not necessarily indicative of results for the entire year. These condensed consolidated financial statements and accompanying notes should be read in conjunction with the Company's annual consolidated financial statements and the notes thereto for the fiscal year ended December 31, 2003 included in its Annual Report on Form 10-KSB.

The unaudited condensed consolidated financial statements include China Mobility Solutions, Inc. and its subsidiaries. Significant inter-company transactions and accounts have been eliminated.

Certain items have been reclassified to conform to the current period presentation. There is no effect on total results of operations or shareholders' equity.

2. Acquisition of Beijing Quicknet Telecommunication Corp. Ltd.

On June 23, 2004, the Company completed the acquisition of a 51% equity interest from the shareholders of a short message system ("SMS") provider, Beijing Quicknet Telecommunication Corp. Ltd. ("Quicknet"), located in Beijing, China through the issuance 6,120,000 (2,040,000 post-reverse split) shares of common stock of the Company. Due to the restrictions on foreign ownership of telecommunication companies in China, 2% of the equity interest of Quicknet is held by the management of Quicknet with Chinese citizenship and they will be transferred back to the Company when the China government removes the restrictions. The Company has an option to acquire the remaining 49% equity interest in Quicknet within the first year from the closing date for \$4,000,000. The Company has another option to acquire the remaining 49% equity interest in Quicknet within the second year from the closing date for \$5,000,000. As a general rule, the Company can pay these amounts by 50% in shares of the common stock of the Company and 50% in cash. The final percentage of shares versus cash can be negotiated between both parties.

Quicknet's financial information is incorporated into the consolidation of the Company effective June 30, 2004, as the transactions that occurred between the period from June 23, 2004 to June 30, 2004 were immaterial.

The value assigned to assets and liabilities acquired can be summarized as follows:

Cash and short term investments	\$ 1,477,355
Accounts receivables	90,560
Prepaid expenses	10,998
Fixed assets, net	14,930
Goodwill	1,519,982
Accounts payables and accrued liabilities	(275,130)
Unearned revenue	(1,614,695)

Fair value of net assets acquired	\$ 1,224,000
	=====

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

The following unaudited pro forma information is based on the assumption that the acquisition took place as of beginning of the period (January 1, 2004), with comparative information for the immediately preceding period as though the acquisition had been completed at the beginning of that period:

	2004	2003
	-----	-----
Net sales	\$1,192,500	\$ 143,283
	=====	=====
Net loss	\$ (43,163)	\$ (454,899)
	=====	=====
Basic and diluted loss per share	(0.00)	(0.03)
	=====	=====

3. Disposal of Dawa Business Group Inc. ("Dawa")

On June 30, 2004, the Company entered into a Share Exchange Agreement (the "2004 Share Exchange Agreement") with Windsor Education Academy Inc. ("Windsor"), Dawa Business Group Inc. ("Dawa") and 1041571 B.C. Ltd. ("1041571") whereby the Company exchanged 102 shares, or 51%, of the issued and outstanding common stock of Dawa to 1041571 in consideration for 98 shares, or 49%, of the issued and outstanding common stock of Windsor.

The Company first acquired the 102 shares of common stock of Dawa pursuant to a prior Share Exchange Agreement, dated July 3, 2003, (the "2003 Share Exchange Agreement") between the Company, Windsor, Dawa and 1041571 whereby the Company exchanged 98 shares, or 49%, of the issued and outstanding common stock of Windsor to 1041571 in consideration for 102 shares, or 51%, of the issued and outstanding common stock of Dawa. Prior to the 2003 Share Exchange Agreement, Windsor was a wholly owned subsidiary of the Company.

At the close of the 2004 Share Exchange Agreement, the Company became the beneficial owner of all of the issued and outstanding stock of Windsor and the Company ceased to own any of the common stock of Dawa. The 2004 Share Exchange Agreement did not involve any cash consideration.

The loss on disposal of Dawa, together with the related assets and liabilities disposed of, is as follows:

Sales proceeds	\$ 26,862
Less: Current assets	(61,987)
Fixed assets	(1,617)
Goodwill	(60,312)
Other assets	(145)
Current liabilities	55,907

Loss on disposal of Dawa	\$ (41,292)

The result of Dawa operations for the six months ended June 30, 2004 and the pro forma results of operations for the six months ended June 30, 2003, which are shown for comparison purposes assuming the Company acquired Dawa as of January 1, 2003, are as follows:

	2004	2003
	-----	-----
Revenue	\$ 213,205	\$ 149,338
Operating costs	(213,567)	(146,149)

4. Discontinued Operations - Internet-related Services

On February 26, 2003, the Company entered into an agreement to sell the internet-related services provided in China to a subsidiary company of Sino-i.com Ltd., a company listed on the Hong Kong Stock Exchange, for total consideration of RMB 20 million (approximately US\$2,415,800), which the Company has received and classified as a security deposit as of June 30, 2004. The transaction is subject to the approval of shareholders.

The loss on disposal of the internet-related business, together with the related assets and liabilities disposed of, is as follows:

Sales proceeds	\$ 2,415,800
Less: Current assets	(1,992,665)
Capital assets	(442,820)
Current liabilities	3,338,783

Gain on disposal of internet-related business	\$ 3,319,098
	=====

The results of the discontinued internet-related services for the six months ended June 30, 2004 and 2003 are as follows:

The depreciation expense charged to continuing operations for the six-month period ended June 30, 2004 was \$2,014.

6. Investment in The Link Group, Inc. ("Link")

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

Pursuant to a Share Exchange Agreement dated December 20, 2001, the Company paid \$200,000 cash for 3,882,700 shares of The Link Group, Inc. ("Link").

Pursuant to a Subscription Agreement dated January 18, 2002, the Company paid \$600,300 in a private placement of Link for 14,500,000 (pre-reverse one for four split) common shares at \$0.0414 per share, as well as 10,875,000 special warrants convertible into 10,875,000 post-reverse one for four split common shares on or before January 31, 2004 at no additional consideration. The Company exercised the 10,875,000 special warrants on March 12, 2002. An option to purchase an additional 7,500,000 post-reverse one for four split common shares at \$0.04 per share, or \$300,000, until February 15, 2002, was also granted to the Company, which was not exercised.

By an agreement dated January 21, 2002, Link agreed to purchase all of the outstanding shares of Protectserve Pacific Ltd. ("PSP") through the issuance of 37,500,000 (post-reverse one for four split) common shares. Link has the right to buy back its shares at \$0.001 per share from these individuals if PSP's after tax profit is less than Hong Kong \$9 million dollars ("HKD") for the twelve months ending December 31, 2002. The buy back formula is for every HKD \$333,333 that PSP falls short of the HKD \$9 million after tax profit, Link can buy back one million (post-reverse one for four split) common shares from these individuals.

On February 18, 2002, the shareholders of Link approved the reverse split of the issued and outstanding common shares of Link at the ratio of one for four, thereby making the Company's total Link shares held equal to 15,370,675 shares, representing 28.8% of the total issued and outstanding shares of Link. On October 14, 2002, Link cancelled 8,300,000 outstanding common shares as part of the consideration of the disposition of its subsidiary company and thereafter the Company's holding in Link correspondingly increases to 34.1%. On March 28, 2003, Link issued 3,000,000 common shares and cancelled 14,000,000 common shares and thereafter the Company's holding in Link correspondingly changes to 24.8%. On August 5, 2003, Link cancelled 22,200,000 shares pursuant to a repurchase agreement and thereafter the Company's holding in Link correspondingly increases to 38.6%. On October 17, 2003, Link issued 36,000,000 shares for the acquisition of New Unicorn Holdings Ltd. and thereafter the Company's holding in Link correspondingly decreases to 20.26%.

The Company accounts for its investment in Link on the equity basis, which is carried at cost, adjusted for the Company's proportionate share of their undistributed earnings or losses. As of June 30, 2004, the investee company's financial statements were not sufficiently timely for the Company to apply the equity method currently. Therefore, the Company recorded its share of the investee's losses from the most recent available financial statements, which were the audited financial statements as of December 31, 2003, as filed with the Securities and Exchange Commission on August 2, 2004:

Original cost of 15,370,675 shares of The Link Group, Inc.	\$ 800,300
Equity in undistributed earnings of investee company	(628,049)

Investment - at equity	\$ 172,251

7. Basic and Diluted Earnings (Loss) Per Share

Basic earnings (loss) per share are computed by dividing net earnings (loss) available to common stockholders by the weighted-average number of common shares

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

outstanding during the period. Diluted earnings per share is computed by dividing net earnings available to common stockholders by the weighted-average number of common shares outstanding during the period increased to include the number of additional common shares that would have been outstanding if potentially dilutive common shares had been issued.

The following table sets forth the computations of shares and net loss used in the calculation of basic and diluted loss per share for the three and six months ended June 30, 2004 and 2003:

	Three months ended June 30,		
	2004	2003

F-10

The effect of outstanding options and warrants was not included as the effect would be antidilutive.

On June 23, 2004, the Company carried out a 3 for 1 reverse stock-split. Figures of prior periods have been retroactively restated to reflect the effect of the reverse stock-split.

8. Share Purchase Warrants

On April 1, 2003, the Company extended its outstanding 5,884,990 (1,961,663 post-reverse split) million Series "A" Share Purchase Warrants as follows:

- (i) the exercise price of the Series "A" Share Purchase Warrants is

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

- adjusted to \$0.50 (\$1.50 post-reverse split) each and their term is extended to March 31, 2005:
- (ii) upon exercise of one Series "A" Share Purchase Warrants at \$0.50 (\$1.50 post-reverse split), the holder will receive one common share of the company and one Series "B" Share Purchase Warrant; and
 - (iii) the exercise price of the Series "B" Share Purchase Warrants is adjusted to \$0.75 (\$2.25 post-reverse split) each and their term is extended to March 31, 2006;
 - (iv) upon exercise of one Series "B" Share Purchase Warrant at \$0.75 (\$2.25 post-reverse split), the holder will receive one common share of the Company.

9. Segment and Geographic Data

The Company's reportable segments are geographic areas. Summarized financial information concerning the Company's reportable segments is shown in the following table. The "Other" column includes corporate related items, and, as it relates to segment profit (loss), income and expenses not allocated to reportable segments.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information presented here should be read in conjunction with China Mobility Solutions, Inc.'s consolidated financial statements and related notes. In addition to historical information, the following discussion and other parts of this document contain certain forward-looking information. When used in this discussion, the words "believes," "anticipate," "expects," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected due to a number of factors beyond the Company's control. The Company does not undertake to publicly update or revise any of its forward-looking statements even if experience or future changes show that the indicated results or events will not be realized. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Readers are also urged to carefully review and consider the Company's discussions regarding the various factors, which affect its business, included in this section and elsewhere in this report.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates,

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

including those related to revenue recognition, accounts receivable and allowance for doubtful accounts, intangible and long-lived assets, and income taxes. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used or changes in the accounting estimate that are reasonably likely to occur could materially change the financial statements. We believe the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our consolidated financial statements:

Revenue Recognition

Revenues consist of tuition fee earned. Revenue is recognized when the following criteria are met: persuasive evidence that an arrangement exists; delivery has occurred or services have been rendered; the price to the customer is fixed or determinable; and collectability is reasonably assured. If all of the above criteria have been met, revenues are principally recognized. Revenues derived from education and training are recognized as the services are performed and amounts received from customers in advance of revenue recognition are deferred and classified on the balance sheet as "deferred revenue."

3

Accounts receivable and allowance for doubtful accounts

We present accounts receivable, net of allowances for doubtful accounts and returns, to ensure accounts receivable are not overstated due to uncollectibility. The allowances are calculated based on detailed review of certain individual customer accounts, historical rates and an estimation of the overall economic conditions affecting our customer base. We review a customer's credit history before extending credit. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. There are currently no allowances for doubtful accounts as of June 30, 2004, as management does not deem any of the accounts are uncollectible.

Intangible and Long-lived assets

We evaluate our intangible assets and long-lived assets, which represent goodwill and fixed assets, for impairment annually and when circumstances indicate the carrying value of an asset may not be recoverable. If impairment exists, an adjustment is made to write the asset down to its fair value, and a loss is recorded as the difference between the carrying value and fair value. We do not believe any impairment exists for any of these types of assets as of June 30, 2004.

Income Taxes

The Company accounts for income taxes under the provisions of Statement of Financial Accounting Standards ("SFAS" No. 109), "Accounting for Income Taxes," whereby deferred income tax assets and liabilities are computed for differences between the financial statements and tax bases of assets and

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary, to reduce deferred income tax assets to the amount expected to be realized.

RESULTS OF OPERATIONS FOR THE QUARTER ENDED JUNE 30, 2004 AS COMPARED TO THE QUARTER ENDED JUNE 30, 2003

Revenues. The Company, through its subsidiary Windsor Education Academy, Inc., ("Windsor") achieved revenues of \$62,769 in the second quarter of 2004 compared to \$77,933 in the second quarter of 2003 representing net sales of education courses.

Operating Expenses. The Company incurred operating expenses of \$131,232 in the second quarter of 2004 compared to operating expenses of \$111,357 in the second quarter of 2003. The increase was primarily due to an accrual for a legal settlement offset by a decrease in salaries and wages expenses and an increase in general and administrative expenses related to its Windsor Education Academy operations.

Loss from continuing operations. Loss from continuing operations for the second quarter of 2004 was \$123,146 versus \$51,342 for the second quarter of 2003. The primary contributor to the net loss consisted of the loss in the second quarter of 2004 from our equity interest in The Link Group, Inc., a publicly traded company on the OTCBB, of \$81,273 versus \$17,975 for the same period in 2003.

Loss from discontinued operations. Loss from discontinued operations for the second quarter of 2004 was \$62,142, representing loss on disposal of \$41,292 of our interest in Dawa Business Group Inc. (a Canadian Corporation) ("Dawa"),

which is engaged in the publication of a weekly Chinese community newspaper and a monthly magazine featuring education and employment in Vancouver's Chinese community, plus the loss from discontinued operations from this subsidiary of \$20,850. We owned 51% of the equity in each of Windsor and Dawa, until we exchanged our 51% interest in Dawa for our 49% interest in Windsor per a Share Exchange Agreement dated June 30, 2004. For the same period in 2003, loss from discontinued operations of \$89,969 represented the results of the Internet related services operations in China, which are pending shareholder approval prior to disposal.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JUNE 30, 2004 AS COMPARED TO THE SIX MONTHS ENDED JUNE 30, 2003

Revenues. The Company, through its subsidiary Windsor, achieved revenues of \$122,915 during the six months ended June 30, 2004, compared to \$143,283 in the same period in 2003 representing net sales of education courses.

Operating Expenses. The Company incurred operating expenses of \$211,471 during the six months ended June 30, 2004, compared to operating expenses of \$236,880 during the same period in 2003. The decrease was primarily a result of an accrual for a legal settlement offset by a decrease in salaries and wages expenses related to its Windsor operations.

Loss from continuing operations. Loss from continuing operations during the six months ended June 30, 2004, was \$162,551 versus \$131,912 for the same period in 2003. The primary contributor to the net loss consisted of the loss during the six months ended June 30, 2004, from our equity interest in The Link Group, Inc.

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

of \$81,273 versus \$44,371 for the same period in 2003.

Loss from discontinued operations. Loss from discontinued operations during the six months ended June 30, 2004 was \$41,654 representing loss on disposal of our interest in Dawa of \$41,292 plus the loss from discontinued operations from this subsidiary of \$362. We owned 51% of the equity in each of Windsor and Dawa, until we exchanged our 51% interest in Dawa for our 49% interest in Windsor per a Share Exchange Agreement dated June 30, 2004. For the same period in 2003, loss from discontinued operations was \$322,987, representing the results of the Internet related services operations in China, which are pending shareholder approval prior to disposal.

LIQUIDITY AND CAPITAL RESOURCES

We had cash capital of \$4,732,248 as of the quarter ended June 30, 2004. We have no other capital resources other than the ability to use our common stock to achieve additional capital raising. Other than cash capital, our other assets would be illiquid. At the quarter ended June 30, 2004, we had \$7,336,720 in current assets and current liabilities of \$7,737,570. The cash capital at the end of the period of \$4,732,248 will be used to fund continuing operations. The sale of the China DNS assets has provided more than US\$2 million in working capital.

Net cash flows provided by (used in) operating activities decreased to (\$32,483) for the six months ended June 30, 2004 from \$2,286,575 for the six months ended June 30, 2003. The significant change for the year over year results from the security deposit received in 2003 of \$2,415,600 for the sale of our Internet related operations in China.

Net cash flows provided by (used in) investing activities increased to \$1,462,138 for the six months ended June 30, 2004 from (\$4,442) for the six months ended June 30, 2003, which primarily represents cash acquired in connection with the acquisition of Quicknet.

Changes in Financial Condition:

At the end of the second quarter of 2004, we had assets of \$9,179,260 compared to \$6,320,612 at year-end of 2003. The current assets totaled \$7,336,720 at the end of the second quarter 2004 compared to \$5,866,214 at year-end of 2003. Total liabilities at the end of the second quarter 2004 were \$7,737,570 compared to \$5,870,451 at year-end of 2003. At June 30, 2004, the Company had \$4,732,248 in cash compared to \$3,303,677 at year-end of 2003.

FUTURE PLANS

On Feb 15, 2004, we entered into a Definitive Agreement to acquire 49% of a mobile solutions provider in China, Beijing Quicknet Telecommunications Corp. Ltd. (Beijing Quicknet), from non-affiliates. Management of Beijing Quicknet has joined our board, and we can consolidate our operations statements. The acquisition closed on June 23, 2004. We have accumulated about 500,000 corporate accounts from our previous business activities in China and we expect to continue pursuing other Internet and mobile related businesses in China. The acquisition of Beijing Quicknet gives the Company an opportunity to capitalize in this rapidly growing market and it allows Beijing Quicknet to utilize these corporate accounts to generate additional revenue streams.

Currently, we provide mobile marketing solutions for enterprises in China. We plan to roll out our other market ready solutions such as SMS-based services for Police departments, mobile banking and office automation services in the Chinese market in the future. We have offices in Beijing and Shanghai, and we plan to expand to other major cities in China.

Need for Additional Financing:

We believe we have sufficient capital to meet our short-term cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934. However, if losses continue, we may have to seek loans or equity placements to cover longer term cash needs to continue operations and expansion. No commitments to provide additional funds have been made by management or other stockholders. Accordingly, there can be no assurance that any additional funds will be available to the Company to allow it to cover operating expenses.

If future revenue declines, or operations are unprofitable, we will be forced to develop another line of business, or to finance our operations through the sale of our existing assets, or enter into the sale of stock for additional capital, none of which may be feasible when needed. We have no specific management ability, nor financial resources or plans to enter any other business as of this date.

From the aspect of whether we can continue toward the business goal of maintaining and expanding the businesses in Canada and develop new business of mobile solutions services in China, we may use all of our available capital without generating a profit.

The effects of inflation have not had a material impact on its operation, nor is it expected to in the immediate future.

Market Risk:

We do not hold any derivatives or investments that are subject to market risk. The carrying values of any financial instruments approximate fair value as of those dates because of the relatively short-term maturity of these instruments, which eliminates any potential market risk associated with such instruments.

FUTURE TRENDS

Education Services: Through our subsidiary Windsor Education Academy, Inc., we have operated for over a year now and the competition is very fierce in the market. The Canadian government has tightened its budget on English training for new immigrants, which leads to reduced government funding for Windsor, which negatively effects the revenue of Windsor Education Academy. The Canadian government also adopted a more strict system to choose schools that can be funded by the government and every school needs to re-register with the government annually. Windsor has re-registered with the government and the government funding is extended to the end of 2004. Windsor has submitted an application for government funding for 2005, but there is no assurance that Windsor will continue receiving government funding in the coming years.

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

Dawa News Business Group Services: On June 30, 2004, we entered into a Share Exchange Agreement with Windsor Education Academy Inc. ("Windsor"), Dawa Business Group Inc. ("Dawa") and 1041571 B.C. Ltd. ("1041571"). At the close of this Share Exchange Agreement, we became the beneficial owner of all of the issued and outstanding stock of Windsor and we ceased to own any of the common stock of Dawa. Our board of directors determined that it was in the best interests of the Corporation to abandon the business of Dawa by disposing all of the issued and outstanding common stock of Dawa.

Mobile solution business in China: The Chinese economy has been among the fastest growing in the world for the past several years. Growth is expected to match this level in 2004. China has one of the largest and fastest-growing telecom markets in the world, with the mobile phone sector in particular having become the worlds biggest and the number of the subscribers continuing to grow. Total SMS (short messaging services) revenues in China grew by 75% in 2003 to US\$248 million. SMS revenue growth in China is projected by Pacific Growth Equities of San Francisco to be 60% in 2004. As the mobile solutions market continues to grow, there will be more competitors coming into the market. The Company may face fierce competition on the price of the products as well as the increase on human resource cost if the Company wants to maintain a strong management and technical team. According to the agreement entered between the Company and Beijing Quicknet, the Company has the option to acquire the remaining 49% of Beijing Quicknet within 2 years from the Closing Date, which is June 23, 2004. If the Company exercises the option to purchase the remaining 51% of Beijing Quicknet within first year from the Closing Date, the purchase price will be US\$4,000,000 (four million US dollars); if the Company exercises the option to purchase the balance of Beijing Quicknet within the second year from the Closing Date, the purchase price will be US\$5,000,000 (five million US dollars).

ITEM 3. CONTROLS AND PROCEDURES

a. Evaluation of Disclosure Controls and Procedures:

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time period specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports filed under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based upon and as of the date of that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports the Company files and submits under the Exchange Act is recorded, processed, summarized and reported as and when required.

8

b. Changes in Internal Control over Financial Reporting:

There were no changes in the Company's internal control over financial reporting identified in connection with the Company evaluation of these controls as of the

Edgar Filing: CHINA MOBILITY SOLUTIONS, INC. (formerly Xin Net Corp.) - Form 10QSB

end of the period covered by this report that could have significantly affected those controls subsequent to the date of the evaluation referred to in the previous paragraph, including any correction action with regard to significant deficiencies and material weakness.
