VOTING

SHAREHOLDERS ENTITLED TO VOTE

Edgar Filing: QUIKBYTE SOFTWARE INC - Form DEFA14A

Holders of record of common stock, at the close of business on the date of mailing this proxy statement will be entitled to vote at the Annual Meeting. As of record date, February 2, 2007, 292,049,012 shares of common stock were issued and outstanding. Each shareholder is entitled to one vote for each share of common stock held by such shareholder. We have only the single class of stock, namely our common stock. Each share of Common Stock is entitled to one (1) vote for as many separate nominees as there are directors to be elected and for or against all other matters presented. For action to be taken at the Annual Meeting, a majority of the shares entitled to vote must be represented at the Annual Meeting in person or by proxy. Shares of stock may not be voted cumulatively. Abstentions and broker non-votes each will be included in determining the number of shares present and voting at the Annual Meeting. Abstentions will be counted in tabulations of the votes cast on proposals, whereas broker non-votes will not be counted for purposes of determining whether a proposal has been approved.

3

QUORUM AND VOTE NECESSARY FOR APPROVALS.

A majority of the shares of common stock outstanding at the record date must be represented at the Annual Meeting in person or by proxy in order for a quorum to be present and in order to take action upon all matters to be voted upon, but if a quorum should not be present, the meeting may be adjourned without further notice to shareholders, until a quorum is assembled. Each shareholder will be entitled to cast one vote at the Annual Meeting for each share of common stock registered in such shareholder's name at the record date.

Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum for the transaction of business. Each share of Common Stock entitles the holder thereof to one vote on all matters to come before the Annual Meeting. Holders of shares of Common Stock are not entitled to cumulative voting rights.

The favorable vote of a plurality of the votes of the shares of Common Stock present in person or represented by proxy at the Annual Meeting is necessary to elect the nominees for directors of the Company, and ratify the Auditors. To take the other actions at the meeting a majority of the shares outstanding must vote in favor of the proposals present in person or by Proxy.

A majority of shares issued and outstanding is sufficient to approve the proposal for a reverse split, reduction in share capital authorized and name change to be incorporated in Amendments to the Articles of Incorporation.

PROXIES

In voting their Common Stock, stockholders may vote in favor of or against the proposal to approve the proposals on the agenda or may abstain from voting. Stockholders should specify their choice on the accompanying proxy card. All properly executed proxy cards delivered pursuant to this solicitation and not revoked will be voted at the Meeting in accordance with the directions given. If no specific instruction are given with regard to the matter to be voted upon, then the shares represented by a signed proxy card will be voted "FOR" the approval of the Proposals and in the discretion of such proxies to any other procedural matters which may properly come before the Meeting or any adjournments thereof. All proxies delivered pursuant to this solicitation are revocable at any time before they are voted at the option of the persons

Edgar Filing: QUIKBYTE SOFTWARE INC - Form DEFA14A

executing them by (i) giving written notice to the Secretary of the Company, (ii) by delivering a later dated proxy card, or (iii) by voting in person at the Meeting. All written notices of revocation and other communications with respect to revocations of proxies should be addressed to Reed Clayson, President, 7609 Ralston Road, Arvada, CO 80002.

In addition to the solicitation of proxies by mail, the Company, through its directors, officers, and employees, may solicit proxies from stockholders personally or by telephone or other forms of communication. The Company will not reimburse anyone for out-of-pocket costs and expenses incurred in the solicitation of proxies. The Company also will request brokerage houses, nominees, fiduciaries, and other custodians to forward soliciting materials to beneficial owners, and the Company will reimburse such persons for their reasonable expenses incurred in doing so. All expenses incurred in connection with the solicitation of proxies will be borne by the Company.

INTEREST OF PERSONS IN MATTERS TO BE ACTED UPON

No officer or director or principal shareholder has a substantial or material interest in the favorable action on these proposals.

PROPOSAL #2

INDEPENDENT PUBLIC ACCOUNTANTS

Jaspers + Hall, PC, Independent Public Accountants, of Denver, Colorado have been appointed as the Certifying accountants for the period through fiscal year 2006 and shareholders are asked to ratify such appointment. Ratification of the appointment of Jaspers + Hall, PC, as the Company's independent public accountants for the fiscal year ending December 31, 2006 will require the affirmative vote of a majority of the shares of Common Stock represented in person or by proxy and entitled to vote at the Annual Meeting. In the event the stockholders do not ratify the appointment of Jaspers + Hall, PC for the forthcoming fiscal year, such appointment will be reconsidered by the Board. Representatives of Jaspers + Hall, PC are expected to be present at the Annual Meeting to make statements if they desires to do so, and such representatives are expected to be available to respond to appropriate questions.

Unless marked to the contrary, proxies received will be voted "FOR" ratification of the appointment of Jaspers + Hall, PC as independent accountants for the Company's year ending December 31, 2006.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" RATIFICATION OF THE
COMPANY'S INDEPENDENT ACCOUNTANTS.

Proposal #3

PROPOSED AMENDMENT TO ARTICLES OF INCORPORATION

NAME CHANGE

We are asking shareholders to authorize a change in the name of this corporation to a new name to be chosen in the discretion of the Board of Directors. This requires an amendment to our Articles of Incorporation.

We believe that the name change in our Articles of Incorporation are in the best interest of our corporation, to create a name which is not related to the former business attempt, in which the Company may never again engage.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE NAME CHANGE.

7

Proposal #4

PROPOSED REVERSE SPLIT OF COMMON STOCK ISSUED AND OUTSTANDING

We are asking shareholders to approve a pro-rata reverse split of our common stock, by which up to each two hundred shares would become one share. Fractional shares will be rounded up to the next whole share. We anticipate that the effective date of the reverse split will be thirty days following the date of the meeting. This is not a "going private" transaction, and no shareholders will be reduced to less than one share. This action will not have the effect of reducing our shareholders to less than 300. This requires an Amendment to the Articles of Incorporation to accomplish the reverse split.

Edgar Filing: QUIKBYTE SOFTWARE INC - Form DEFA14A

We believe the recent per share price of the common stock has had a negative effect on the marketability of the existing shares, the amount and percentage of transaction costs paid by individual stockholders, and impairs the potential ability of the Company to raise capital by issuing new shares due to the low price.

We believe that reverse split will be advantageous to us and to all shareholders, because it may provide the opportunity for higher share prices based upon fewer shares. It is also a factor that most brokerage houses do not permit or favor lower-priced stocks to be used as collateral for margin accounts. Certain policies and practices of the securities industry may tend to discourage individual brokers within those firms from dealing in lower-priced stocks. Some of those policies and practices involve time-consuming procedures that make the handling of lower priced stocks economically unattractive. The brokerage commissions on the purchase or sale of lower priced stocks may also represent a higher percentage of the price than the brokerage commission on higher priced stocks.

Shareholders should note that, after the reverse split, the number of our authorized shares will remain unchanged, (except as modified by Proposal #5 hereinafter which will reduce the authorized common shares to 250,000,00 and the authorized preferred shares to 2,000,000) while the number of issued and outstanding shares of our Company will be reduced by the factor of the reverse, i.e. up to one for two hundred shares. It is important to realize that the issuance of additional shares is in the discretion of the Board of Directors, in their best business judgment, and our shareholders will have no right to vote on future issuances of shares except in the event of a merger under Colorado law. This means that, effectively, our shareholders will have no ability or capacity to prevent dilution by the issuance of substantial amounts of additional shares for consideration that could be considerably less than what our existing shareholders paid for their shares. In many events, control of our Company could effectively be changed by issuances of shares without shareholder approval.

8

Proposal #5

PROPOSED REDUCTION IN AUTHORIZED CAPITAL

We are asking shareholders to approve a reduction in our authorized shares capital as follows:

1. To reduce our authorized common shares from five hundred million to two hundred fifty million.
2. To reduce our authorized Preferred shares from ten million to two million.

Management believes that the reduction in authorized share capital will encourage responsible share issuances and reduces the potential dilution to common shareholders by 50% (without further shareholder votes), and reduces dilution in the cases of Preferred shares by 80%. There are currently 292,049,012 common shares issued and outstanding (subject to the reduction by the reverse split hereinabove submitted to shareholders) and no Preferred shares are outstanding.

This reduction in authorized share capital:

- a) will not change any of the currently issued and outstanding shares

Edgar Filing: QUIKBYTE SOFTWARE INC - Form DEFA14A

b) will not, in managements view, have any negative effect upon common shareholders.

The change will require an Amendment to the Articles of Incorporation, and will have no effect on current common shareholders rights.

MANAGEMENT RECOMMENDS A VOTE IN FAVOR OF THE PROPOSAL TO REDUCE THE AUTHORIZED SHARE CAPITAL OF THE COMPANY.

9

As a general rule, potential investors who might consider making investments in our Company will refuse to do so when the Company has a large number of shares issued and outstanding with no equity. In other words, the "dilution" which new investors would suffer would discourage them from investing, as general rule of experience. A reduction in the total outstanding shares may, without any assurance, make our capitalization structure more attractive.

While our acceptability for ultimate listing on one of the NASDAQ markets or an exchange is presently remote, we believe that it is in the interests of our Company to adjust our capital structure in the direction of conformity with the NASDAQ structural requirements. At the current date, even with the proposed changes we would not meet NASDAQ criteria. NASDAQ requirements change constantly. There is no assurance that the proposed changes will meet NASDAQ requirements or any other exchange when, and if, we are otherwise qualified. There is no assurance that we will qualify for NASDAQ.

Once the reverse split has occurred, the Company may then be better structured to seek equity financing, because investors shy away from the very high dilution which would occur if an investment were made in the current structure. There is no assurance that the Company will have any success in seeking equity financing.

Future Dilutive Transactions

It is emphasized that management of the Company may effect transactions having a potentially adverse impact upon the Company's stockholders pursuant to the authority and discretion of the Company's management to complete share issuances without submitting any proposal to the stockholders for their consideration. Holders of the Company's securities should not anticipate that the Company necessarily will furnish such holders with any documentation concerning the proposed issuance prior to any share issuances. All determinations (except involving a merger where the number of shares of common stock of the Company issued will equal more than 20% of the issued and outstanding shares of common stock of the Company prior to the transaction) involving share issuances are in the discretion and business judgment of the Board of Directors in their exercise of fiduciary responsibility, but require a determination by the Board that the shares are being issued for fair and adequate consideration.

10

The issuance of additional shares in future transactions will allow, the following types of actions or events to occur without the current stockholders

Edgar Filing: QUIKBYTE SOFTWARE INC - Form DEFA14A

being able to effectively prevent such actions or events:

1. Dilution may occur due to the issuance of additional shares. The percentage ownership of the Company by the existing shareholders may be diluted from 100% after the reverse split, now, to as little, as 3%.
2. Control of the Company by stockholders may change due to new issuances.
3. The election of the Board of Directors will be dominated by new large stockholders, effectively blocking current stockholders from electing directors.
4. Business plans and operations may change.
5. Mergers, acquisitions, or divestitures may occur which are approved by the holders of the newly issued shares.

In the future event that the Board continues to issue shares for capital, services, or acquisitions, the present management and stockholders of the Company most likely will not have control of a majority of the voting shares of the Company.

It is likely that the Company may acquire other compatible business opportunities through the issuance of common stock of the Company. Although the terms of any such transaction cannot be predicted, this could result in substantial additional dilution in the equity of those who were stockholders of the Company prior to such issuance. There is no assurance that any future issuance of shares will be approved at a price or value equal to or greater than the price which a prior stockholder has paid, or at a price greater than the then current market price. Typically, unregistered shares are issued at less than market price due to their illiquidity and restricted nature as a result of, among other things, the extended holding period and sales limitations which such shares are subject to.

11

Edgar Filing: QUIKBYTE SOFTWARE INC - Form DEFA14A

result, or that the market price for our common stock, immediately or shortly after the proposed changes, if approved, will rise, or that any rise which may occur will be sustained. Market conditions obey their own changes in investor attitudes and external conditions. We are proposing the steps we deem the best calculation to meet the market attractively, however we cannot control the markets reaction.

Dissenting shareholders have no appraisal rights under Colorado law or pursuant to our constituent documents of incorporation or bylaws, in connection with the proposed reverse split.

Fractional Shares. Fractional shares will be rounded up to the next whole share.

The reverse stock split may leave certain stockholders with one or more "odd lots" of new common stock, i.e., stock in amounts of less than 100 shares. These odd lots may be more difficult to sell or require greater transaction cost per share to sell than shares in even multiples of 100. There are frequently situations where transaction costs for odd lots in penny stocks exceed the net proceeds realized from a sale of the odd lot, effectively rendering the odd lot valueless to the holder.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE REVERSE SPLIT

In the event that the ballot is left blank for a proposal, it will be deemed a "Yes" vote.

ANNUAL MEETING OF SHAREHOLDERS

At the date of this proxy statement, no other matter will be presented for action at the Annual meeting. Only those matters proposed as discussed will be voted on at the meeting. Shareholders may propose matters to be presented at shareholder meetings and also nominate directors. Shareholder proposals must conform to the standards set out by the Securities Exchange Commission and must be received at our principal offices on or before, February 28, 2007, in order to be included in future proxy materials, if any, or presentation at our next annual meeting of shareholders, anticipated in summer 2007.

VOTING SECURITIES AND BENEFICIAL OWNERSHIP

As of the call date of the meeting, February 2, 2007 the total number of common shares outstanding and entitled to vote was 292,049,012.

The holders of such shares are entitled to one vote for each share being held on the record date. There is no cumulative voting on any matter on the agenda of this meeting. No additional shares will be issued subsequent to call date and prior to meeting.

committees of the Board of Directors, or committees performing similar functions. The Board acts itself in lieu of committees due to its small size.

- (2) The view of the board of directors is that it is appropriate for the registrant not to have such a committee because all directors participate in the consideration of director nominees and the board is so small.

- (8) The nominating committee's process for identifying and evaluation nominees for director, including nominees recommended by security holders, is to find anyone willing to serve with clean background.
