PROXY STATEMENT

North American Galvanizing & Coatings, Inc.

ANNUAL MEETING OF STOCKHOLDERS

To Be Held on May 28, 2009

GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors (the "Board") of North American Galvanizing & Coatings, Inc. ("North American Galvanizing", the "Company", "we", "us" or "our") for use at the 2009 Annual Meeting of Stockholders to be held May 28, 2009, at 10:00 a.m., local time, at the offices of Morrow & Co., LLC, 470 West Avenue, in Stamford, Connecticut, or at any adjournments thereof (the "Annual Meeting").

At the close of business on April 14, 2009, the record date for stockholders entitled to notice of and to vote at the Annual Meeting, there were outstanding 16,332,735 shares of our common stock (the "Common Stock"). Each share of Common Stock is entitled to one vote on all matters.

The holders of a majority of the Common Stock present in person or represented by proxy will constitute a quorum for transacting business at the Annual Meeting. Abstentions and "broker non-votes" are counted to determine the presence or absence of a quorum at the Annual Meeting. No cumulative voting rights are authorized and dissenters' rights are not applicable to the matters being proposed.

This proxy statement and accompanying proxy card are being mailed to our stockholders on or about May 8, 2009.

Our principal executive office is located at 5314 South Yale Avenue, Suite 1000, Tulsa, Oklahoma 74135.

The seven nominees receiving the highest number of affirmative votes will be elected as directors at the Annual Meeting. This is called a plurality. A vote withheld from a nominee for director will have no effect on the results of the vote.

The affirmative vote of a majority of the shares represented at the Annual Meeting and entitled to vote is required to approve the amendment to the Restated Certificate of Incorporation to increase the authorized shares of Common Stock, to approve the 2009 Incentive Stock Plan, to ratify the appointment of Deloitte & Touche LLP as the independent registered public accountants and to approve the amendment to the Restated Certificate of Incorporation to place responsibilities on certain investors.

Brokers who hold shares of Common Stock in "street name" for customers have authority to vote on certain "routine" items on behalf of their clients if they do not receive voting instructions within ten days of the Annual Meeting pursuant to the rules of the New York Stock Exchange that govern brokers, including brokers that trade shares on the NASDAQ. Brokers will

have discretionary authority to vote on the election of directors and the ratification of the independent registered public accountants, as those are considered routine items. For matters that are not routine, if a broker has not received voting instructions from its client, the broker cannot vote the shares on that proposal. This is called a “broker non-vote.” Broker non-votes will be counted for purposes of establishing a quorum to conduct business at the Annual Meeting but not for determining the number of shares voted for or against a non-routine matter or as an abstention on that matter.

You may revoke your proxy at any time before the Annual Meeting by:

- giving written notice to North American Galvanizing & Coatings, Inc., Attention: Corporate Secretary, 5314 South Yale Avenue, Suite 1000, Tulsa, Oklahoma 74135,
 - submitting a subsequent proxy by Internet, telephone or mail with a later date, or
 - by voting in person at the Annual Meeting.

Shares represented by properly executed proxies will be voted at the Annual Meeting as specified, unless such proxies are subsequently revoked as provided above.

If no choice is specified on a valid, unrevoked proxy, the shares will be voted as follows:

- FOR the election of the seven directors nominated by the Board of Directors on the recommendation of the Corporate Governance and Nominating Committee,
- FOR the ratification of the appointment of Deloitte & Touche LLP as independent registered public accountants for 2009.
- FOR the approval of an amendment to the Restated Certificate of Incorporation to increase the number of authorized shares of the Company’s common stock from 25,000,000 shares to 50,000,000 shares.
- FOR the approval of the 2009 Incentive Stock Plan.
- FOR the approval of an amendment to the Restated Certificate of Incorporation to place responsibilities on certain investors.

Proxies will also authorize the shares represented thereby to be voted, as the proxy holders named in the proxy may deem advisable on any other matters that may properly be presented for action at the Annual Meeting. The Board of Directors does not know of any other matter that is expected to be presented for consideration at the Annual Meeting.

BOARD OF DIRECTORS AND COMMITTEES

The business of the Company is managed under the direction of its seven member Board of Directors. The Board meets regularly during our fiscal year to review significant developments affecting us and to act on matters requiring Board approval. It also holds special meetings when necessary between scheduled meetings.

The Board has determined that directors Linwood J. Bundy, Janice K. Henry, Gilbert L. Klemann II, Patrick J. Lynch, Joseph J. Morrow and John H. Sununu are “independent directors,” as the term is defined under the listing standards of NASDAQ. Mr. Evans is not independent, as he is an executive officer of the Company. When we use the term “non-management director” in this proxy statement, we are referring to all the Board members with the exception of Mr. Evans.

The Board met seven times in 2008 (including regularly scheduled and special telephonic meetings). Each director attended at least 75% of the total meetings of the Board and the total meetings of each applicable committee. The non-management directors meet in executive session, as needed, without the management director or other members of management. The Board does not have a policy regarding director attendance at annual meetings. For the 2008 Annual Meeting of Stockholders, all seven directors attended the meeting.

We have a non-executive Chairman in lieu of a “lead” director who presides at all executive sessions of the Board. Mr. Morrow currently serves as Non-Executive Chairman of the Board. An interested person who wishes to contact either the Chairman or the non-

management directors as a group may do so by writing to either the Chairman or the Non-Management Directors, c/o Corporate Secretary, North American Galvanizing & Coatings, Inc., 5314 South Yale Avenue, Suite 1000, Tulsa, Oklahoma 74135, which will be forwarded, unopened, to the addressee. Stockholders may also contact any other member of the Board by writing to the same address, c/o Board of Directors.

Overview of Director Compensation and Procedures

Director compensation is now and has historically been set by the Board. Director compensation has historically been relatively low with most directors serving because of their equity interest in the Company or their personal or business relationship with our large shareholders.

Non-management directors receive an annual fee, currently \$35,000, payable in quarterly installments, and receive no additional compensation for committee services beyond their annual fee. The Company reimburses the directors for their out-of-pocket expenses for attending Board and committee meetings which, from time-to-time, may include the Director's spouse.

Mr. Evans, the management director, receives no additional cash compensation for his service as a director. He is required to participate in the Director Stock Unit Program to the extent described below and receives matching Stock Unit grants.

At the Company's Annual Meeting held July 21, 2004, stockholders approved a Director Stock Unit Program ("Program"). Under the Program, effective January 1, 2005, each non-management director is required to defer at least 50% (\$17,500) of his or her annual fee, and may elect to defer 75% (\$26,250) or 100% (\$35,000) of the annual fee. The director must make the annual deferral decision before the start of the year. Amounts deferred under the Program are converted into a deferred Stock Unit grant under the Company's 2004 Incentive Stock Plan at the average of the closing prices for a share of the Company's Common Stock for the 10 trading days before the quarterly director fee payment dates.

To encourage deferral of fees by non-management directors, the Company makes a matching Stock Unit grant ranging from 25% to 75% of the amount deferred by the director as of the same quarterly payment dates. During 2008, each of the non-management directors deferred 100% of their fees and received matching Stock Unit grants totaling 75%.

For Mr. Evans, under the Program the Company automatically defers from his salary a dollar amount equal to 50% (\$17,500) of the director fees for non-management directors. In addition, Mr. Evans may elect to defer an amount equal to 75% (\$26,250) or 100% (\$35,000) of the director fees for non-management directors from his compensation, and the Company matches deferrals by Mr. Evans with Stock Units at the same rate as it matches deferrals for non-management directors.

Delivery of the granted stock is made five calendar years following the year for which the deferral is made subject to acceleration upon the resignation or retirement of the director or a change in control.

In addition to the annual cash fees and matching Stock Unit grants, each non-management director receives an annual grant of 13,333 forfeitable shares of Common Stock (the "Restricted Stock") under the 2004 Incentive Stock Plan. Historically, the Compensation Committee has made this annual award in July of each year. However, in 2008 we made awards on March 5, 2008 and July 14, 2008. Ms. Henry did not receive the March 5, 2008 award because she was only recently appointed as a director at that time. The March 5, 2008 grant was a special one-time grant made in recognition of the directors' service and contributions to the development, implementation, and achievement of the Company's strategy and goals for the period 2004 through 2007. In 2009, the annual award was made in January rather than July to reduce the potential expense recorded for the 2009 award.

Restricted Stock granted to non-management directors vests and becomes nonforfeitable on the date of the earliest to occur of the following:

- (a) the date that is two (2) years after the date of grant;
- (b) the date of a change in control;
- (c) the date the participant terminates employment due to a disability;
- (d) the date of the participant's death;

DIRECTOR COMPENSATION

The following table describes the compensation of non-management directors during 2008.

(4) See Summary Compensation Table for disclosure related to Ronald J. Evans who is also an Executive Officer of the Company. Mr. Evans receives no cash compensation as a director beyond the compensation he receives as CEO. He participates in the Director Stock Unit Program, as described above, and receives matching Stock Unit grants.

Corporate Governance

The corporate governance guidelines adopted by the Board in 2004 address the qualification and selection of Board members, independence of Board members, Board leadership, structure of Board committees and Board processes. In addition, the guidelines include a requirement for executive sessions of non-management directors, an annual self-assessment of the performance of the Board and its committees, an annual performance evaluation of the Chief Executive Officer, and a charter for each Board committee. We have also adopted a Code of Conduct and Ethics that applies to the Board, our corporate officers, including our Chief Executive Officer and Chief Financial Officer, and all of our other employees. Our corporate governance guidelines, the charters for our committees and our Code of Conduct and Ethics, including our independence standards (which conform to NASDAQ rules), are available on our website at <http://www.nagalv.com/Investors.asp>.

Committees of the Board

The Board maintains the following four standing committees, the membership of which is determined from time to time by the Board:

Executive Committee. Messrs. Sununu (chairman), Klemann, Morrow, and Evans are members of the Executive Committee, which met five times in 2008. The Executive Committee is delegated authority to act on behalf of the Board in certain operational and personnel matters, and to approve capital expenditures within limits authorized by the Board.

Audit Committee. Messrs. Lynch (chairman), Bundy, and Klemann and Ms. Henry are members of the Audit Committee, which met five times in 2008. Each member of the Audit Committee is an "independent director" as defined in the NASDAQ rules for Audit Committee members and satisfies the requirements of Rule 10A-3 of the Securities Exchange Act of 1934, as amended, (the "Exchange Act"). The Board has determined that each of Mr. Lynch and Ms. Henry qualify as an audit committee "financial expert" within the meaning of the rules and regulations of the Securities and Exchange Commission (the "SEC").

The Audit Committee is responsible for, among other things,

- appointing our independent registered public accountants, subject to stockholder ratification,
- reviewing the scope of the annual audit and recommendations of the independent registered public accountants,
- reviewing and discussing with management and the independent registered public accountants our audited financial statements and other financial information,
 - monitoring the independence and performance of our independent registered public accountants, and
 - evaluating overall risk exposures and the adequacy of the overall internal control functions of the Company.

Compensation Committee. Messrs. Bundy (chairman), Lynch and Morrow are members of the Compensation Committee, which met three times in 2008. All of the committee members are “independent directors” as defined in the NASDAQ rules.

The Compensation Committee considers remuneration of our corporate and subsidiary officers, administers our incentive compensation and stock option plans and approves the adoption of employee benefit plans. The Compensation Committee evaluates the performance of the Chief Executive Officer and Chief Financial Officer and recommends to the Board their compensation.

Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee was formed in 2003, and is composed of Mr. Morrow (chairman), Mr. Bundy, Ms. Henry, Mr. Klemann, Mr. Lynch and Gov. Sununu. All of the committee members are “independent directors” as defined in the NASDAQ rules. The Corporate Governance and Nominating Committee met two times in 2008.

The Corporate Governance and Nominating Committee is responsible for, among other things, identifying and evaluating the qualifications of candidates for Board membership and making recommendations of candidates for consideration of nomination by the Board.

The Corporate Governance and Nominating Committee reviews and recommends to the Board the slate of director nominees to be proposed for election at annual meetings of stockholders and candidates to fill vacancies on the Board that occur between annual meetings of the stockholders. In identifying and evaluating candidates for Board membership, the Corporate Governance and Nominating Committee takes into account all factors it considers appropriate. While there are no specific minimum requirements for director nominees, the Committee does consider the following non-exclusive factors: professional experience, knowledge, integrity, independence, diversity of backgrounds and the extent to which the candidate would fill a present need on the Board.

The Corporate Governance and Nominating Committee utilizes a variety of methods for identifying and evaluating nominees for director with an emphasis on the needs of the Company. The Committee will consider candidates for the board of directors recommended by stockholders and will evaluate such candidates in the same manner as other potential candidates. Any stockholder who wishes to recommend a person to be considered for nomination as a director by

the Corporate Governance and Nominating Committee may do so by submitting the candidate's name and qualifications in writing to Corporate Governance and Nominating Committee, c/o Corporate Secretary, 5314 South Yale Avenue, Suite 1000, Tulsa, Oklahoma 74135. Stockholders may directly nominate persons for director in accordance with the provisions of our Bylaws, a copy of which is on file with the SEC.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Compensation Committee reviews and approves, and recommends for the approval of the full Board of Directors, the annual compensation and compensation procedures for the two executive officers of the Company, the Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”). The CEO confers with the Compensation Committee concerning the compensation of the CFO. The Compensation Committee considers recommendations from its compensation consultant, Dolmat Connell & Partners (“DC&P”), in making its decisions. The Compensation Committee is authorized to and has directly engaged DC&P, who is independent of the Company’s management and reports directly to the Compensation Committee. DC&P has no economic relationships with the Company other than its role in advising the Compensation Committee on matters such as competitive market rates and compensation practices. At present, the Compensation Committee believes that the cumulative business experience of its members is adequate for its compensation decisions.

Our objective is to provide for executive compensation that will attract and retain skilled executives and will link executive compensation to corporate performance. To achieve these goals, we believe that our executive compensation must include adequate short-term compensation (primarily in the form of salary and annual bonus) and long-term compensation (primarily in the form of restricted stock, stock options and other equity-based awards.) The Compensation Committee has no policy as far as the allocation of executive compensation between short-term and long-term compensation or between cash and equity compensation. This allocation is based on a case by case analysis for each executive officer each year. As indicated from the Summary Compensation Table that appears below, a substantial portion of the CEO’s compensation (38.5%) came from equity awards. Conversely, only 15.4% of the CFO’s compensation came from equity awards. This relative disparity is based upon the Compensation Committee’s view that a substantial portion of the CEO’s compensation should be linked to Company performance and the performance of the Company’s stock.

Salary. Actual salaries are based on individual performance contributions within a competitive salary range for each position established through job evaluation and market comparisons. We review approved salary ranges annually to determine parity with national compensation trends and to ensure that we maintain a reasonably competitive compensation structure. The President and Chief Executive Officer’s salary is approved by the Board based on a review and recommendation by the Compensation Committee, taking into consideration historical compensation, corporate performance, similar competitive compensation of Chief Executive Officers at peer corporations, assessment of past performance, leadership characteristics and its expectations of future contributions to the Company’s long-term success.

Proxy-disclosed compensation data from a group of US-based public companies from the Industrial Manufacturing industry of similar size to the Company was used for the peer group assessment. DC&P proposed the peer organizations based on revenue, market capitalization, and status as a US-based, non-subsiidiary, public and actively traded firm. The proposed peer group, approved by the Compensation Committee, consisted of the following 13 companies: Adept

Technology, Inc., Aldila, Inc., Amtech Systems, Inc., BTU International, Inc., Eastern Co., Gencor Industries, Inc., Magnetek, Inc., Memry Corp., Perceptron, Inc., Portec Rail Products, Inc., Synalloy Corp., UFP Technologies, Inc., and Veri-Tek International Corp.

Effective April 1, 2007, the Company entered into a three-year written employment agreement with the CEO that provides the CEO an annual base salary of \$325,000 during the term, subject to possible increase by the Board. The CEO's salary has not changed since April 1, 2007. The CFO's compensation is determined in a like manner except that the CEO has a substantial role, together with the Compensation Committee, in setting the CFO's compensation subject to Board approval. In March 2008, based on the review described above, the Compensation Committee recommended and the Board approved an increase in annual base salary of \$10,000, to \$185,000, for the Chief Financial Officer, effective April 1, 2008. In January 2009, the Compensation Committee recommended and the Board approved an increase in annual base salary of \$10,000, to \$195,000, for the Chief Financial Officer, effective April 1, 2009.

Annual Incentive Compensation. Our executive officers and key employees are eligible to participate in a discretionary annual bonus program. The Committee, subject to Board approval, administers the plan and selects the key employees and executive officers who participate, with substantial CEO input on all employees except himself. This authority enables the Committee to consider individual achievement in deciding on, and recommending to the Board, the amount of any bonus for a participant.

The Compensation Committee took into consideration the corporate performance and contributions and earnings performance by our key employees and executive officers for the year ended December 31, 2008, and approved an aggregate of \$883,000 in bonus awards for 31 persons, including \$250,000 for our Chief Executive Officer and \$90,000 for our Chief Financial Officer. The Compensation Committee determined these bonuses in January 2009, based upon corporate performance and the performance of the particular employee in 2008.

The Board approved the recommendations of the Compensation Committee.

2004 Incentive Stock Plan. Equity awards are made under this plan to provide additional incentives to employees to work to maximize our growth and stockholder value. Historically, the Compensation Committee has awarded stock option grants for equity awards, but in 2008 moved to restricted stock awards. The move was made because the Company incurs expense with both option and restricted stock awards, but there is an increased likelihood that the employee will obtain value from a restricted stock award rather than an option award. The plan may utilize vesting periods to encourage key employees to continue in our employ. The number of awards granted is determined by the Compensation Committee's subjective evaluation of the executive's ability to influence our long-term growth and profitability. Awards are granted at the current market price at the time of the grant.

During January 2009, the Compensation Committee recommended and the Board of Directors approved a grant totaling 154,168 forfeitable shares of Common Stock (the "Restricted Stock") for 32 management employees, including 66,667 for our Chief Executive Officer and 20,000 for our Chief Financial Officer. This grant is in recognition of 2008 performance.

Restricted Stock granted to management employees vests and becomes nonforfeitable on the date of the earliest to occur of the following:

- (a) the date that is four (4) years after the date of grant;
- (b) the date of a change in control;
- (c) the date the participant terminates employment due to a disability;
- (e) the date of the participant's death;

During March 2008, the Compensation Committee recommended and the Board of Directors approved a grant totaling 126,667 forfeitable shares, as adjusted for the four-for-three stock split in September, 2008, of Common Stock (the "Restricted Stock") for 7 management employees, including 66,667 for our Chief Executive Officer and 20,000 for our Chief Financial Officer. This grant is in recognition of 2007 performance.

The Compensation Committee recommends, and the Board approves, equity awards under this plan. The CEO confers with the Compensation Committee on all plan awards other than those made to himself. Grants are made before March 15 each year.

401K Plan. The Company offers a 401(k) defined contribution plan to its eligible employees, including executive officers. Although the Company match is discretionary, the Company has historically matched a participant's contributions up to 3% and contributed to the North American Galvanizing Common Stock Fund of the 401K an additional 110% of a participant's contributions over 3%, but not to exceed 6%, of the participant's compensation.

Perquisites. The Company offers to pay the travel costs of the executives' spouses to attend the Annual Meeting of Shareholders. The aggregate cost in total is less than \$10,000 per year. The Company provides no other perquisites to its executives.

Change in Control Provisions. Awards under the 2004 Incentive Stock Plan and the Director Stock Unit Plan are subject to accelerated vesting upon a change in control of the Company, resignation or retirement. The Compensation Committee believes these accelerated vesting provisions to be fair and customary. The change in control provisions in the CEO's employment agreement are discussed below.

CEO Employment Agreement. The Company entered into a three-year written employment agreement with the CEO, effective April 1, 2007, that provides the CEO an annual base salary of \$325,000 during the term, subject to possible increase by the Board. Under the agreement, the CEO remains eligible to participate in all Company benefit plans.

If the CEO's employment is terminated for any reason other than a change in control or for cause or because of a permanent disability, then the employment agreement provides that the CEO (or his estate) is entitled to a one-time termination payment equal to his then annual base salary. Cause shall mean any of (i) employee's gross negligence or willful misconduct in the performance of the duties and services required pursuant to the agreement, or (ii) employee's final conviction of a felony, or (iii) employee's material breach of any material provision of the

agreement with remains uncorrected for thirty (30) days following written notice to employee by employer.

In the event either the CEO or the Company elects to terminate the agreement upon the occurrence of a change in control, then the CEO will be entitled to receive a one-time payment equal to 2.99 times his annual base salary as of the date of termination. The CEO would have received a termination payment of \$971,750 in the event a change of control and termination had occurred as of December 31, 2008.

The CEO and the Chairman of the Board, in consultation with the Compensation Committee, negotiated the terms of the employment agreement, which were recommended by the Compensation Committee and approved by the Board. The Compensation Committee and the Board believe that the terms of the agreement are reasonable and that the agreement was needed in order to retain the services of the CEO.

The Compensation Committee believes that compensation levels during 2008 adequately reflect our compensation goals and policies. The Compensation Committee will continue to evaluate the relationship between its executive and key managerial compensation and our performance and stockholder value.

Under the terms of the CEO's employment agreement, the Company must pay the CEO (i) a single cash payment equal to one year's annual base salary (currently \$325,000) upon his retirement or termination (other than in connection with a change-in-control or for cause) and (ii) a single cash payment equal to 2.99 times his annual base salary (a total of \$971,750 assuming the event took place on 12/31/08 based on current salary) in connection with the termination of his employment in connection with a change-in-control of the Company.

COMPENSATION COMMITTEE REPORT

The Compensation Committee reviews our general compensation policies and the compensation plans and specific compensation levels for executive officers. The 2004 Incentive Stock Plan, Rule 16b-3 of the Exchange Act, and paragraph 162(m) of the Internal Revenue Code of 1986, as amended, require that at least two of the Compensation Committee members be non-employee directors. The Compensation Committee consists of three directors who are not employees of the Company. Linwood J. Bundy is the current Chairman of the Compensation

Committee. The Compensation Committee has utilized compensation consultants, Dolmat Connell & Partners, for consultation on the compensation of the executive officers and management of the Company. All recommendations by the Compensation Committee relating to the compensation of our executive officers are approved by the full Board.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis (the "CD&A") for the year ended December 31, 2008 with management. In reliance on the reviews and discussions referred to above, the compensation committee recommended to the Board, and the Board has approved, that the CD&A be included in the proxy statement for the year ended December 31, 2008 for filing with the SEC.

By the Compensation Committee of the Board of
Directors:

Linwood J. Bundy, Chairman

Patrick J. Lynch

Joseph J. Morrow

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Compensation Committee is presently comprised of the following directors: Messrs. Bundy, Lynch and Morrow, none of whom are current or former officers or employees of the Company or any of its subsidiaries. None of our named executive officers or directors was an executive officer or served as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving as a member of our Board or Compensation Committee.

AUDIT COMMITTEE REPORT

The Audit Committee consists of four directors, all of whom must be independent in accordance with and meet the other requirements of the NASDAQ rules.

The Audit Committee reviews our financial reporting process on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls.

In this context, the Audit Committee has met and held discussions with management and the independent auditor regarding the fair and complete presentation of the Company's results. The Audit Committee has discussed significant accounting policies applied by the Company in its financial statements, as well as alternative treatments. Management represented to the Audit Committee that our consolidated financial statements were prepared in accordance with accounting principals generally accepted in the United States of America.

The Audit Committee is responsible for, among other things, reviewing with our independent registered public accountants the scope and results of their audit engagement. In connection with the fiscal 2008 audit, the Audit Committee has:

- reviewed and discussed with Deloitte & Touche, LLP, our independent registered public accountants ("Deloitte"), and with management our audited financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2008,
- discussed with Deloitte the matters required by Statement on Auditing Standards No. 61, as amended, relating to communications between the Audit Committee and the independent registered public accountants, and
- received from and discussed with Deloitte the written disclosures and letter from Deloitte required by Independence Standards Board Standard No. 1 as modified or supplemented, regarding their independence from the Company.

Based on the review and the discussions described in the preceding bullet points, the Audit Committee recommended to the Board that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2008.

The Audit Committee:

Patrick J. Lynch, Chairman
Linwood J. Bundy
Janice K. Henry

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

The Audit Committee has appointed Deloitte as independent registered public accountants to conduct the 2009 audit of our financial statements. The Board has directed that such appointment be submitted for ratification by the stockholders at the Annual Meeting.

Deloitte has served as our independent registered public accountants since 1990. A representative of Deloitte is expected to be present at the Annual Meeting and will have the opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions.

Total fees for professional services provided by Deloitte for the years ended December 31, 2008 and 2007 were \$464,472 and \$420,658, respectively, for the following services:

Audit Fees

The aggregate fees for professional services rendered by Deloitte for the audit of our annual financial statements and the effectiveness of the Company's internal control over financial reporting and for the reviews of the financial statements included in our Quarterly Reports on Form 10-Q in 2008 and 2007 were \$352,758 and \$319,500, respectively.

Tax Fees

The aggregate fees paid for preparation of tax returns were \$77,805 and \$35,000 for 2008 and 2007, respectively. The aggregate fees for tax planning and consultation on tax compliance in 2008 and 2007 were \$33,909 and \$13,107, respectively. In addition, fees of \$43,226 were paid during 2007 for assistance with an IRS examination.

The Audit Committee charter provides for the pre-approval of all audit services and all non-audit services to be provided by our independent registered public accountants that are permitted under applicable law and regulation, and all corresponding fees and terms, by the Audit Committee. Pursuant to procedures established by the Audit Committee, the Chief Financial Officer and/or Chief Executive Officer are required to review and recommend for approval such services to the Audit Committee, subject to the de minimus exception for non-audit services permitted by SEC rules and regulations. For fiscal years 2008 and 2007, none of the fees listed above were covered by the de minimus exception.

The Audit Committee has considered whether the provision of non-audit services by Deloitte for the year ended December 31, 2008 is compatible with maintaining the principal independent registered public accountant's independence.

The Board recommends that you vote FOR ratification of the appointment of Deloitte & Touche LLP.

PROPOSAL 3

AMEND THE CERTIFICATE OF INCORPORATION TO INCREASE THE AUTHORIZED SHARES OF COMMON STOCK FROM 25,000,000 SHARES TO 50,000,000 SHARES

Our Board of Directors has approved, and has recommended that stockholders approve, an amendment to the Company's Restated Certificate of Incorporation to increase the number of authorized shares of our common stock, \$0.10 par value, from 25,000,000 shares to 50,000,000 shares. The text of the proposed amendment is set forth below. As of April 15, 2009, there were 16,507,813 shares of common stock issued (including 175,078 treasury shares) and 1,123,701 shares of common stock reserved for issuance upon the award of restricted stock or the exercise of options to purchase common stock under the Company's stock compensation plans. Based on the number of issued and reserved shares of common stock described, the Company currently has approximately 7,368,486 shares of common stock available for issuance.

The Board of Directors believes that the proposed increase in authorized shares of common stock is desirable to enhance the Company's flexibility in taking possible future actions, such as stock splits, stock dividends, equity compensation awards or other corporate purposes. The proposed increase will allow the Company to accomplish these objectives. The Board determines whether, when and on what terms to issue shares of common stock. Use of the additional shares proposed to be authorized will not require stockholder approval unless required under Delaware corporate law or by NASDAQ rules or the rules of any national securities exchange on which the common stock is then listed. There are currently no plans or arrangements for use of the additional shares of authorized common stock.

The additional shares of common stock will, if and when issued, be identical to the shares of the Company's common stock now authorized and outstanding. The proposed increase in the authorized shares of common stock will not affect the par value of the common stock. Approval of the increase would not have any immediate dilutive effect on the proportionate voting power or other rights of existing stockholders. In the event that a stock split were effected, it would reduce the Company's diluted earnings per share but would not affect voting rights of current stockholders, as each stockholder would continue to hold the same percentage interest in the Company. Under the Company's Restated Certificate of Incorporation, stockholders do not have preemptive rights to subscribe to additional securities which may be issued by the Company. This means that current stockholders do not have a prior right to purchase any new issue of the Company's capital stock in order to maintain their proportionate ownership of common stock. In addition, if the Company issues additional shares of common stock or other securities convertible into common stock in the future, it could dilute the voting rights of existing stockholders and could also dilute earnings per share and book value per share of existing stockholders. The increase in authorized common stock could also discourage or hinder efforts by other parties to obtain control of the Company, thereby having an anti-takeover effect. The increase in authorized shares of common stock is not being proposed in response to any known threat to acquire control of the Company.

If the proposal to increase the authorized common stock is approved by the stockholders, it will become effective upon filing of a Certificate of Amendment to the Company's Restated Certificate of Incorporation with the Secretary of State of the State of

Delaware, which filing is expected to occur soon after the Annual Meeting. If the proposal is approved, Article Fourth of the Restated Certificate of Incorporation, as amended, of the Company will be amended to read in its entirety as follows:

“FOURTH: The aggregate number of shares of stock which the Corporation shall have authority to issue is Fifty Million (50,000,000) shares of Common Stock of a par value of Ten Cents (\$0.10) per share.”

The affirmative vote of a majority of the stockholders represented and entitled to vote at the meeting is required to approve the proposal. Both abstentions and broker non-votes are not affirmative votes and, therefore, will have the same effect as votes against the proposal.

The Board recommends that you vote FOR approval of the amendmend to the Restated Certificate of Incorporation to increase the authorized shares of common stock from 25,000,000 shares to 50,000,000 shares.

PROPOSAL 4

APPROVE THE 2009 INCENTIVE STOCK PLAN

We are asking for your approval of the North American Galvanizing & Coatings, Inc. 2009 Incentive Stock Plan (the “2009 Plan”) and the related performance goals which are part of the 2009 Plan (the “Performance Goals”). The 2009 Plan will replace the North American Galvanizing & Coatings, Inc. 2004 Incentive Stock Plan (“2004 Plan”) and the related North American Galvanizing & Coatings, Inc. Director Stock Unit Plan (the “2004 Stock Unit Plan”).

Based on the recommendation of our Compensation Committee, our Board has determined that it is in our best interests and the best interests of our stockholders to adopt the 2009 Plan to ensure that we can continue to make grants to our key employees and directors and continue to tie a percentage of our directors’ compensation to the value of our stock. Stockholder approval is being sought in accordance with NASDAQ rules and Section 162(m) and Section 422 of the Internal Revenue Code (the “Code”). If approved by our stockholders, the 2009 Plan will be effective as of the date of such approval.

The following discussion summarizes the material terms of the 2009 Plan. This discussion does not purport to be complete and is qualified in its entirety by reference to the 2009 Plan, a copy of which is attached hereto as Appendix A.

Purpose

The primary purpose of the 2009 Plan is (1) to attract and retain key employees and outside directors, (2) to provide an incentive to these individuals to work to increase the value of our common stock, (3) to provide these individuals with a stake in our future which corresponds to the stake of each of our stockholders, and (4) to tie a percentage of each director’s compensation to the long-term value of our stock.

Administration

The 2009 Plan is administered by a committee of the Company's Board of Directors (the "Committee"), which Committee shall have at least 2 members, each of whom shall be appointed by and shall serve at the pleasure of the Board and shall come within the definition of a "non-employee director" under Rule 16b-3 to Section 16(b) of the Exchange Act and an "outside director" within the meaning of Section 162(m) of the Code. Each grant under the 2009 Plan will be evidenced by a certificate that incorporates such terms and conditions as the Committee deems necessary or appropriate.

Coverage, Eligibility and Grant Limits

The 2009 Plan provides for the grant of stock options ("Options") and stock appreciation rights ("SARs") and for stock grants ("Stock Grants") to key employees and to directors. The 2009 Plan also provides for the grant of stock unit ("Stock Unit Grants") to directors. A key employee is any employee of the Company or any subsidiary, parent or affiliate of the Company who has been designated by the Committee to receive a grant under the 2009 Plan. No key employee or outside director in any calendar year may be granted an Option to purchase more than 100,000 shares of common stock or an SAR with respect to more than 100,000 shares of common stock. No Stock Grants that are intended to satisfy the requirements of Section 162(m) of the Code will be made to any key employee in any calendar year for more than 100,000 shares of stock.

Shares Available for Issuance

The maximum number of shares of our common stock which can be issued under the 2009 Plan will be 2,500,000, plus (1) the 142,035 shares of stock which would have remained available for issuance under the 2004 Plan on April 15, 2009 if shares had been issued on that date to satisfy in full all the outstanding grants under the 2004 Plan and the related 2004 Stock Unit Plan and (2) any shares of stock which would have become available for issuance under the 2004 Plan as a result of the forfeiture, expiration or cancellation of grants which were outstanding on such date under the 2004 Plan. The number of shares of our common stock available for issuance under the 2009 Plan will be reduced on a one to one (1 to 1) basis for each share issued pursuant to the exercise of an Option and on a one to one (1 to 1) basis for any shares issued pursuant to a SAR, Stock Grant or Stock Unit Grant made under the 2009 Plan, and on a one to one (1 to 1) basis for each share with respect to which the appreciation in a SAR is based if a share is issued in connection with the exercise of such SAR. Any shares forfeited after issuance of a Stock Grant or Stock Unit Grant made under the 2009 Plan shall be restored on a one to one (1 to 1) basis.

Options

Under the 2009 Plan, either incentive stock options ("ISOs"), which are intended to qualify for special tax treatment under Section 422 of the Code, or non-incentive stock options ("Non-ISOs") may be granted by the Committee to key employees or directors, but ISOs can only be granted to key employees of the Company or a subsidiary or parent of the Company. Each Option granted under the 2009 Plan entitles the optionee to purchase the number of shares of common stock specified in the grant at the option price specified in the related stock option

certificate. The terms and conditions of each Option granted under the 2009 Plan will be determined by the Committee, but no Option will be granted at an exercise price which is less than the fair market value of the common stock as determined on the grant date in accordance with the 2009 Plan. In addition, if the Option is an ISO that is granted to a ten percent stockholder of the Company, the option price may be no less than 110% of the fair market value of the shares of common stock on the grant date. No Option may be exercisable more than ten years from the grant date or, if the Option is an ISO granted to a ten percent stockholder of the Company, it may not be exercisable more than five years from the grant date. Moreover, no key employee may be granted ISOs that are first exercisable in any calendar year for stock having an aggregate fair market value (determined as of the date that the ISO was granted) that exceeds \$100,000. Any such excess shall instead be automatically treated as a Non-ISO.

The Committee may condition an key employee's or director's right to exercise an Option on the satisfaction of a service requirement or performance requirement or the satisfaction of more than one such requirement or the satisfaction of any combination of such requirements or may grant an Option which is not subject to any such requirement, as determined by the Committee and set forth in the option certificate. The option certificate may provide for the exercise of an option after a key employee's or director's status as such has terminated for any reason whatsoever, including death or disability.

Stock Appreciation Rights

SARs may be granted by the Committee to key employees and directors under the 2009 Plan, either as part of an Option or as stand alone SARs. The terms and conditions for an SAR granted as part of an Option will be set forth in the Option certificate for the related Option while the terms and conditions for a stand alone SAR will be set forth in a SAR certificate. SARs entitle the holder to receive the appreciation of the fair market value of one share of common stock as of the date such right is exercised over the baseline price specified in the Option or SAR certificate (the "SAR Value"), multiplied by the number of shares of common stock with respect to which the SAR is being exercised. The SAR Value for an SAR must equal or exceed the fair market value of a share of common stock as determined on the grant date in accordance with the 2009 Plan. If an SAR is granted together with an Option, then the exercise of the SAR shall cancel the right to exercise the related Option, and the exercise of a related Option shall cancel the right to exercise the SAR. An SAR granted as a part of an Option shall be exercisable only while the related Option is exercisable. The Committee in its discretion may require satisfaction of a service requirement or performance requirement or the satisfaction of more than one requirement or the satisfaction of any combination of such requirements or no requirements, as determined by the Committee, before an SAR may be exercised. At the discretion of the Committee any payment due upon the exercise of an SAR can be made in cash or in the form of common stock, or in a combination of cash and common stock.

Stock Grants

Stock Grants are grants which are designed to result in the issuance of common stock to the key employee or director to whom the grants are made, and Stock Grants may be granted by the Committee subject to such terms and conditions, if any, as the Committee acting in its absolute discretion deems appropriate. The Committee, in its discretion, may prescribe that a

key employee's or director's rights in a Stock Grant will be nontransferable or forfeitable or both unless certain conditions are satisfied. These conditions may include, for example, a requirement that the key employee continue employment or the director continue service with the Company for a specified period or that the Company or the key employee achieve stated performance goals or other objectives. If the only condition to the vesting of a Stock Grant is the satisfaction of a service requirement and one or more performance goals, the minimum service requirement for 100% vesting shall be at least one year and if the only condition to such vesting is satisfaction of a service requirement, the minimum service requirement for 100% vesting shall be at least 3 years, unless the Committee in either case determines that a longer or shorter period of service (or no period of service) better serves the Company's interest. Each Stock Grant shall be evidenced by a certificate, which will specify what rights, if any, a key employee or director has with respect to such Stock Grant as well as any conditions applicable to the Stock Grant.

Performance Goals for Section 162(m) of the Code

If the Committee determines it is in the Company's best interests for Stock Grants to qualify as "performance-based compensation" under Section 162(m) of the Code, then the Committee will condition the vesting of such Stock Grants to key employees on the satisfaction of one or more of the following Performance Goals: (1) the Company's return over capital costs or increases in return over capital costs, (2) the Company's total earnings or the growth in such earnings, (3) the Company's consolidated earnings or the growth in such earnings, (4) the Company's earnings per share or the growth in such earnings, (5) the Company's net earnings or the growth in such earnings, (6) the Company's earnings before interest expense, taxes, depreciation, amortization and other non-cash items or the growth in such earnings, (7) the Company's earnings before interest and taxes or the growth in such earnings, (8) the Company's consolidated net income or the growth in such income, (9) the value of the Company's stock or the growth in such value, (10) the Company's stock price or the growth in such price, (11) the Company's return on assets or the growth in such return, (12) the Company's cash flow or the growth in such cash flow, (13) the Company's total stockholder return or the growth in such return, (14) the Company's expenses or the reduction of such expenses, (15) the Company's sales growth, (16) the Company's overhead ratios or changes in such ratios, (17) the Company's expense-to-sales ratios or the changes in such ratios, or (18) the Company's economic value added or changes in such value added.

The Committee shall set each Performance Goal, and no Performance Goal shall be treated as satisfied until the Committee certifies (in a manner which meets the requirements of Section 162(m)) that such Performance Goal has been satisfied. A Performance Goal may be set in any manner determined by the Committee, including looking to achievement on an absolute or relative basis in relation to peer groups or indices, and the Committee may set more than one Performance Goal. No change may be made to a Performance Goal after the goal has been set. However, the Committee may express any Performance Goal in terms of alternatives, or a range of alternatives, as the Committee deems appropriate under the circumstances, such as including or excluding (1) any acquisitions or dispositions, restructuring, discontinued operations, extraordinary items and other unusual or non-recurring charges, (2) any event either not directly related to the operations of the Company or not within the reasonable control of the Company's management or (3) the effects of tax or accounting changes.

Stock Unit Grant

The 2009 Plan incorporates provisions for Stock Unit Grants to directors which correspond in large part to the provisions of the 2004 Stock Unit Grant Plan. Stock Unit Grants will be made to directors who are not our employees (who we will refer to as “outside directors”) as well as to directors who are our employees (who we will refer to as “inside directors”). A director’s interest in any Stock Unit Grant made to the director shall be nonforfeitable when the grant is made.

Stock Unit Grants to Outside Directors

Each outside director shall be required to defer at least 50% of his or her director fees each calendar year and each outside director will be given the opportunity to defer 75% or 100% of his or her director fees for each calendar year. The dollar amounts of director fees which are deferred under the 2009 Plan for outside directors will be converted into Stock Unit Grants at the average of the fair market value for a share of our common stock for the 10 trading days before the date the director fees for outside directors otherwise would have been payable in cash.

Matching Units for Outside Directors

To encourage deferral of fees by outside directors, matching Stock Unit Grants will be made to each outside director based on the percentage of his or her director fees such outside director defers. If an outside director only defers 50% of his or her director fees, such outside director will receive a match equal to 25% of his or her deferral in an additional Stock Unit Grant. If an outside director elects to defer 75% of his or her director fees, such outside director will receive a match equal to 50% of his or her deferral in an additional Stock Unit Grant. If an outside director elects to defer 100% of his or her director fees, such outside director will receive a match equal to 75% of his or her deferral in an additional Stock Unit Grant.

Deferral Election Rules for Outside Directors

If an outside director wishes to defer 75% or 100% of his or her director fees in a calendar year, he or she must make a deferral election on the form provided by us. The election form must be received by us before the beginning of the calendar year for which it is made. An outside director who is first elected during a calendar year and who wishes to defer 75% or 100% of his or her director fees must deliver an election to us within 30 days of the date when he or she is first elected an outside director. Once an election is received by us for a calendar year, it is irrevocable for such calendar year.

Stock Unit Grants to Inside Directors

For each inside director, we automatically shall defer from his or her base salary or other cash compensation a dollar amount equal to 50% of the director fees for outside directors. Each inside director may defer an amount equal to 75% or 100% of the director fees for outside directors from his or her base salary or other cash compensation. Inside directors who wish to make such additional deferrals must follow the same deferral election procedures that apply to outside directors. Deferrals for inside directors shall be matched at the same rate as deferrals for

outside directors. Thus, if an inside director only defers an amount equal to 50% of the outside director fees, such inside director will receive a match equal to 25% of his or her deferral in an additional Stock Unit Grant. If an inside director elects to defer an amount equal to 75% of the outside director fees, such inside director will receive a match equal to 50% of his or her deferral in an additional Stock Unit Grant. If an inside director elects to defer an amount equal to 100% of his or her director fees, such inside director will receive a match equal to 75% of his or her deferral in an additional Stock Unit Grant.

The deferrals for each inside director shall coincide with deferrals for outside directors and shall be converted into a Stock Unit Grant at the same time and in accordance with the same procedures followed for outside directors.

Deferral Period

All deferrals made in any calendar year automatically will be deferred for five calendar years following the calendar year for which the deferral is made. If a director makes an election at least one full year before the end of such a five-year deferral period, his or her deferrals under the 2009 Plan shall be deferred for an additional five years. An election to defer payment for an additional five years shall be irrevocable. However, all deferrals under the 2009 Plan will be paid as of the date a director has separated from service, by death or otherwise, as that term is defined for purposes of Section 409A of the Code. If the director is also a specified employee (within the meaning of Section 409A of the Code), the distribution on account of a director's separation from service will be made six months and one day after he or she separates from service, unless the separation from service occurs as a result of the director's death, in which event the distribution will be made as soon as is practical after his or her death.

Finally, if a director can demonstrate to a majority of our board of directors (excluding the director seeking payment of his or her deferrals) that he or she has an extreme financial hardship as a result of an unforeseeable emergency (within the meaning of Section 409A of the Code) and that access to his or her deferrals under the 2009 Plan is more appropriate under the circumstances than using any of his or her other assets to meet the emergency, then the Board of Directors may authorize payment of all or a portion of such director's deferrals to meet the emergency. The amounts distributed under the 2009 Plan may not exceed the amount necessary to meet the emergency plus the amount necessary to pay taxes reasonably anticipated to result from the distribution and in any event, may not exceed the amount allowable under Section 409A of the Code.

In no event can the timing of any payment to directors be accelerated and delayed unless the Committee (as it determines in its absolute discretion) consents to such acceleration or delay and determines that such acceleration or delay is permissible under Section 409A of the Code.

Payment of Deferrals

When deferrals become payable under the 2009 Plan, payment shall be made, subject to applicable withholdings, in whole shares of common stock (and cash in lieu of a fractional share) based on the fair market value of a share of common stock for the 10 trading days before the date as of which payment is made. We shall make a payment as soon as practicable after the payment

becomes payable unless making a payment at such time could result in a violation of securities or other laws or result in an additional tax under Section 409A of the Code. Any payment in shares of common stock will be made subject to the limits in the 2009 Plan.

Transferability

The 2009 Plan provides that no Option, Stock Grant, Stock Unit Grant or SAR will be transferable by an key employee or a director other than by will or by the laws of descent and distribution, and any Option or SAR (absent the Committee's express, written consent) is exercisable during the lifetime of an key employee or director only by that person.

Change in Control

If there is a change in control of the Company (as defined in the Plan), then all conditions to the exercise of all outstanding Options and SARs and all issuance or forfeiture conditions on all outstanding Stock Grants will be deemed satisfied as of the date of such change in control, and the Board of Directors shall have the right, to the extent required as a part of the change in control transaction, to cancel all outstanding Options, SARs, or Stock Grants after giving key employees and directors a reasonable period of time to exercise their outstanding Options and SARs or to take such other action as is necessary to receive common stock subject to Stock Grants before the date of such change in control. However, if any issuance or forfeiture condition relates to satisfying any Performance Goal and there is a target for such goal, the issuance or forfeiture condition shall be deemed satisfied only to the extent of such target unless the target has been exceeded before the date of such change in control. To the extent the target has been exceeded before the date of such change in control, the issuance or forfeiture condition shall be deemed satisfied to the extent the target has been exceeded.

A change in control is defined in the Plan and includes the acquisition by any person, other than certain acquisitions specified in the 2009 Plan, of 30% or more of the voting power of outstanding shares of common stock; the current members of the Board of Directors, or their approved successors, ceasing to be a majority of the Board of Directors during any period of two years or less; the approval by stockholders of a complete liquidation or dissolution of the Company; or consummation of any sale or the disposition of 50% or more of the assets of the Company or of a consolidation, merger, reorganization or share exchange, except for certain transactions described in the 2009 Plan.

Amending or Terminating the 2009 Plan

The 2009 Plan may be amended by the Board of Directors to the extent it deems necessary or appropriate, but no amendment may be made absent the approval of the stockholders to the extent such approval is required under applicable law or the rules of the stock exchange on which shares of stock are listed and no amendment may be made to the section of the 2009 Plan governing a change in control after the date of a change in control which might adversely affect any rights that would otherwise vest on a change in control. The Board of Directors may suspend the granting of Options or SARs or making Stock Grants or Stock Unit Grants but the Board of Directors may not, in connection with any such termination or suspension, unilaterally modify, amend or cancel any Option or SAR granted or Stock Grant or

Stock Unit Grant without the consent of the holder of such Option, SAR, Stock Grant or Stock Unit Grant or unless there is a dissolution or liquidation of the Company or a change in control. Additionally, the Board of Directors may terminate the 2009 Plan at any time.

Adjustment of Shares

The grant limits, the number, kind or class of shares of stock subject to outstanding Options and SARs granted and the option price of such Options and the SAR value of the SARs as well as the number, kind or class of shares of our common stock subject to outstanding Stock Grants or Stock Unit Grants will be adjusted by the Committee in a reasonable and an equitable manner to reflect any equity restructuring or change in capitalization of the Company, (such as, but not limited to, spin offs, stock dividends, large non-recurring cash or stock dividends, rights offerings or stock splits), or any other transaction under Section 424 of the Code that does not constitute a change in control of the Company to preserve immediately after such transaction the aggregate value of each outstanding Option, SAR, Stock Grant and Stock Unit Grant immediately before such restructuring, recapitalization or other transaction. If any adjustment is made with respect to outstanding Options, SARs, Stock Grant or Stock Unit Grant, the Committee will adjust the number, kind or class of shares of our common stock reserved for issuance under the 2009 Plan as set forth in the 2009 Plan document as the Committee deems appropriate.

The Committee as part of any transaction described in Section 424(a) of the Code which is not a change in control of the Company shall have the right to make Stock Grants, or Option or SAR grants (without regard to the 2009 Plan's grant limitations) to effect the assumption of, or the substitution for, stock grants, option and stock appreciation right grants previously made by any other corporation to the extent that such transaction calls for the substitution or assumption of such grants. Further, if the Committee makes such grants as part of any such transaction, the Committee shall have the right to increase the number of shares available for issuance under the 2009 Plan without seeking stockholder approval (unless such approval is required under applicable law or the applicable stock exchange rules).

Estimate of Benefits to Executive Officers and Directors

Any grants that will be made to the executive officers and directors pursuant to the 2009 Plan are within the discretion of the Committee except for Stock Unit Grants, and up to 50% of the possible Stock Unit Grants to each director are subject to an election made by the director. Thus the total grants which will be made under the 2009 Plan are not determinable.

Federal Income Tax Consequences

The following discussion outlines generally the federal income tax consequences relating to stock options and other grants which can be made under the 2009 Plan to individuals who are both citizens and residents of the United States. Individual circumstances may change these results. This brief discussion is only a general summary based on current federal income tax laws, regulations (including proposed regulations), and judicial and administrative interpretations of the laws and regulations. The federal income tax laws and regulations are frequently amended, and such amendments may or may not affect transactions that already have occurred.

Key employees and directors should look to their own tax counsel for advice regarding federal income tax treatment of stock options and other grants made under the 2009 Plan, as well as foreign, state, local and other tax consequences that are not addressed here.

Incentive Stock Options

In general, a key employee will not be taxed upon the grant or the exercise of an ISO. For purposes of the alternative minimum tax, however, the key employee will be required to treat an amount equal to the difference between the fair market value of our common stock on the date of exercise over the exercise price as an item of adjustment in computing the key employee's alternative minimum taxable income. If the key employee does not dispose of our stock received pursuant to the exercise of the ISO within either (1) two years after the date of the grant of the ISO or (2) one year after the date of exercise of the ISO (collectively, the "ISO Holding Period"), a disposition of our stock generally will result in long-term capital gain or loss to the individual with respect to the difference between the selling price and the exercise price. We will not be entitled to any federal income tax deduction as a result of such disposition. In addition, we normally will not be entitled to a federal income tax deduction at either the grant or the exercise of an ISO.

If the key employee disposes of our stock acquired upon exercise of the ISO before the end of the ISO Holding Period, then in the year of disposition, the individual generally will recognize ordinary income, and we will be entitled to a federal income tax deduction (provided we satisfy applicable federal income tax reporting requirements). The amount of income and deduction will be an amount equal to the lesser of (1) the excess of the fair market value of our common stock on the date of exercise over the exercise price or (2) the amount realized upon disposition over the exercise price. Any gain in excess of the amount recognized by the key employee as ordinary income will be taxed to the individual as short-term or long-term capital gain (depending on the applicable holding period).

Non-Incentive Stock Options

A key employee or a director will not recognize any taxable income upon the grant of a Non-ISO, and we will not be entitled to a federal income tax deduction at the time of grant. Upon the exercise of a Non-ISO, the key employee or director generally will recognize ordinary income in an amount equal to the excess of the fair market value of our stock on the date the shares are transferred pursuant to the exercise over the exercise price.

Special rules apply, however, if the key employee or director exercises the Non-ISO within six months of the date of grant. If the sale of the shares within that six-month period could subject the key employee or director to suit under Section 16(b) of the Exchange Act, the key employee or director will not recognize income on the date the shares are transferred to him or her, but will recognize income at a later date. In this case, income will be based on the difference between the exercise price and the fair market value of the shares on the date that is the earlier of (1) six months after the date of the grant or (2) the first date that the shares can be sold by the key employee or director without liability under Section 16(b). However, if the key employee or director timely elects under Section 83(b) of the Code, fair market value of the shares will be determined on the date the shares are transferred pursuant to the exercise without

regard to the effect of Section 16(b).

We will be entitled to a federal income tax deduction (provided we satisfy applicable federal income tax reporting requirements) in an amount equal to the ordinary income recognized by the key employee or director in the year that the income is recognized by the individual. Upon a later sale of our stock by the key employee or director, he or she will recognize short-term or long-term capital gain or loss (depending on the applicable holding period) in an amount equal to the difference between the amount realized on the sale and the fair market value of the shares when ordinary income was recognized.

Stock Appreciation Rights

A key employee or director will recognize ordinary income for federal income tax purposes upon the exercise of an SAR under the 2009 Plan for cash, our common stock or a combination of each. The amount of income that the key employee or director will recognize will equal the amount of cash, if any, and the fair market value of our common stock, if any, that he or she receives as a result of the exercise. We generally will be entitled to a federal income tax deduction in an amount equal to the ordinary income recognized by the key employee or director in the same taxable year in which the key employee or director recognizes such income, if we satisfy applicable federal income tax reporting requirements.

Stock Grants

A key employee or director is not subject to any federal income tax upon when a Stock Grant is made, nor does making a Stock Grant result in a federal income tax deduction for our Company, unless the restrictions on the stock do not present a substantial risk of forfeiture. In the year that the Stock Grant is no longer subject to a substantial risk of forfeiture, the key employee or director generally will recognize ordinary income in an amount equal to the fair market value of the shares of our stock transferred to the key employee or director, determined on the date the Stock Grant is no longer subject to a substantial risk of forfeiture.

A key employee or director may elect under Section 83(b) of the Code to recognize the fair market value of our stock as ordinary income at a Stock Grant is made. If the employee or director so elects, (1) the key employee or director will not otherwise be taxed in the year that the Stock Grant is no longer subject to a substantial risk of forfeiture and (2) if the Stock Grant is subsequently forfeited, the key employee or director will be allowed no deduction for the forfeiture. Cash dividends paid to an key employee or director on shares stock subject to a Stock Grant before the date the Stock Grant is no longer subject to a substantial risk of forfeiture or is forfeited are treated as ordinary income (or dividend income, if a Section 83(b) election was made) in the year received.

We generally will be entitled to a federal income tax deduction equal to the amount of ordinary income recognized by the key employee or director when such ordinary income is recognized, provided we satisfy applicable federal income tax reporting requirements. Depending on the period shares of stock are held after receipt by the key employee or director, the sale or other taxable disposition of the shares will result in short-term or long-term capital gain or loss equal to the difference between the amount realized on such disposition and the fair

market value of the shares generally when ordinary income was recognized.

Stock Unit Grants

A director is not subject to any federal income tax upon the deferral of director fees or when a Stock Unit Grant is made, nor does the deferral of director fees or grant of a Stock Unit Grant result in an income tax deduction for us. In the year that the Stock Unit Grant is payable in shares of our common stock (as cash in lieu of a fractional share), the director will recognize ordinary income in an amount equal to the amount of the payment (in shares of our common stock and in cash) made under the Stock Unit Grant, and the Company will receive a deduction in an amount equal to the amount of such payment.

Section 409A Tax Consequences

If the option price for an Option or the SAR Value for an SAR equals or exceeds the fair market value of a share of stock as determined on the grant date, there should be no adverse tax consequences to an individual under Section 409A of the Code, and payments with respect to Stock Unit Grants have been structured to comply with the payment requirements under Section 409A.

The Board of Directors recommends that you vote FOR the approval of the 2009 Plan and the related Performance Goals.

PROPOSAL 5

AMEND THE RESTATED CERTIFICATE OF INCORPORATION TO PLACE RESPONSIBILITIES
ON CERTAIN INVESTORS

Our Board of Directors has discussed the activities of activist stockholders in U.S. public companies in recent years, and the impact which certain types of campaigns by activist stockholders have had on other companies. Our Board of Directors has also considered the potential impact such activities could have on the Company and our stockholders' investment in the Company. Specifically, our Board of Directors believes that there may be instances in which activist stockholders could seek to take actions for their own benefit which may be adverse to the long-term interests of the Company and its other stockholders. Our Board of Directors believes that it is timely for the Company to address these issues, during a period where there are no known current activist investor activities or proposals for the Company to consider.

The Board of Directors is proposing an amendment to our Restated Certificate of Incorporation, as amended. The text of the proposed amendment is set forth below.

Our Board of Directors believes that it is in the best interests of the Company to adopt an amendment to the Restated Certificate of Incorporation so that activist stockholders will be responsible for the consequences of their actions under specified circumstances. Specifically, the Board of Directors is asking for your approval of an amendment to the Restated Certificate of Incorporation so that stockholders of the Company that are investment companies, pension plans or other institutional investors or that beneficially own more than 1% of the Company's securities, and that vote for a stockholder proposal that is not supported by the Company's Board of Directors, will be responsible to the Company for the proximate consequences of the adoption and implementation of their proposal, to the same extent as directors who would have voted in favor of the proposal would be liable. The Board of Directors believes it is appropriate for such activist stockholders to be subject to the same procedural rules and have the same legal defenses as would directors of the Company, including the right to the Company's exculpation provision (Article Fifteenth), but excluding the benefit of the Company's indemnification and advancement of expenses provision (Article Sixteenth).

The Board of Directors believes that stockholders who vote for proposals under the circumstances described above should be subject to the same responsibility as directors in these circumstances, because the stockholders will have acted against the Board of Director's determination of what is in the best interests of the Company. Any proceeding to hold such stockholders responsible for the consequences of their actions in these circumstances would inure to the benefit of the Company and such stockholders would have the benefit of the same defences as would be available to directors (for example, by establishing that there was no breach of the duty of loyalty to the Company).

The Board of Directors recognizes that imposing responsibilities on activist investors for the consequences of their actions through an amendment to the Certificate of Incorporation is unusual for U.S. public companies, and may create controversy and cause questioning by stockholders and other persons, or cause dialogue by individuals and groups who are involved with corporate governance issues. Although the Board of Directors is not seeking controversy outside of questions from the stockholders in the forum of a stockholders' meeting, the Board of Directors has considered the consequences of the proposal and the possibility of costs associated with defending the Company against legal challenges if this proposed amendment is approved, and believes that it is in the best interests of the Company to proceed with the proposed amendment to the Restated Certificate of Incorporation.

If the proposal is approved, the Restated Certificate of Incorporation, as amended, will be further amended to add the following Article Seventeenth:

“SEVENTEENTH: Any investment company, pension plan or other institutional investor specified (without regard to ownership or investment purpose) in Rule 13d-1(b)(1)(ii) under the Securities Exchange Act of 1934, as amended, and any beneficial owner of 1% or more of any class of the Corporation’s securities, as defined and determined under Rule 13d-3 under the Securities Exchange Act of 1934, as amended, that votes in favor of a stockholder proposal, which proposal is approved by stockholders without the affirmative support of the Board of Directors, shall be responsible to the Corporation for the proximate consequences of the adoption and implementation of such proposal to the same extent that a Director who voted in favor of the approval of such proposal would be liable, provided that such stockholder shall be entitled to the same procedural rules and legal defenses in respect of such liability as would a Director of the Corporation, including exculpation from liabilities under Article Fifteenth this Certificate, provided, further, however that such stockholder shall have no right to indemnification or advancement of expenses under Article Sixteenth of this Certificate.”

The Board recommends that you vote FOR approval of the amendment to the Restated Certificate of Incorporation to place responsibilities on certain investors.

7.2 Option Certificate. 7.3 \$100,000 Limit. No Option shall be treated as an ISO to the extent that the aggregate Fair Market Value of the Stock subject to the Option which would first become exercisable in any calendar year exceeds \$100,000. Any such excess shall instead automatically be treated as a Non-ISO. The Committee shall interpret and administer the ISO limitation set forth in this § 7.3 in accordance with § 422(d) of the Code, and the Committee shall treat this § 7.3 as in effect only for those periods for which § 422(d) of the Code is in effect.

The Option Price for each share of Stock subject to an Option shall be no less than the Fair Market Value of a share of Stock on the date the Option is granted; provided, however, if the Option is an ISO granted to a Key Employee who is a Ten Percent Shareholder, the Option Price for each share of Stock subject to such ISO shall be no less than 110% of the Fair Market Value of a share of Stock on the date such ISO is granted. The Committee shall not (except in accordance with § 14 and § 15) take any action absent the approval of the Company's shareholders (whether through an amendment, a cancellation, making replacement grants or exchanges or any other means) to directly or indirectly reduce the Option Price of any outstanding Option or to make a tender offer for any Option if the Option Price for such Option on the effective date of such tender offer exceeds the then Fair Market Value of a share of Stock subject to such Option.

7.5 Payment. The Option Price shall be payable in full upon the exercise of any Option and, at the discretion of the Committee, an Option Certificate can provide for the payment of the Option Price either in cash, by check, in Stock or through any cashless exercise procedure which is acceptable to the Committee, or in any combination of such forms of payment. Any payment made in Stock shall be treated as equal to the Fair Market Value of such Stock on the date action acceptable to the Committee is taken to tender to the Committee or its delegate.

7.6 Exercise.

- (a) Vesting. The Committee may condition the right to exercise an Option on the satisfaction of a service requirement or a performance requirement or on the satisfaction of more than one such requirement or the satisfaction of any combination of such requirements or may grant an Option which is not subject to any such requirements, all as determined by the Committee in its discretion and as set forth in the related Option Certificate.
- (b) Exercise Period. Each Option granted under this Plan shall be exercisable in whole or in part to the extent vested at such time or times as set forth in the related Option Certificate, but no Option Certificate shall make an Option exercisable on or after the earlier of
 - (1) the date which is the fifth anniversary of the date the Option is granted, if the Option is an ISO and the Key Employee is a Ten Percent Shareholder on the date the Option is granted, or
 - (2) the date which is the tenth anniversary of the date the Option is granted, if the Option is (a) a Non-ISO or (b) an ISO which is granted to a Key Employee who is not a Ten Percent Shareholder on the date the Option is granted.
- (c) Termination of Status as Key Employee or Director. Subject to § 7.6(a), an Option Certificate may provide for the exercise of an Option after a Key Employee's or a Director's status as such has terminated for any reason whatsoever, including death or disability.

§ 8

STOCK APPRECIATION RIGHTS

8.1 Committee Action. The Committee acting in its absolute discretion shall have the right to grant Stock Appreciation Rights to Key Employees and to Directors under this Plan from time to time, and each Stock Appreciation Right grant shall be evidenced by a Stock Appreciation Right Certificate or, if such Stock Appreciation Right is granted as part of an Option, shall be evidenced by the Option Certificate for the related Option. Stock Appreciation Rights may be granted for any reason the Committee deems appropriate, including as a substitute for compensation otherwise payable in cash. The Committee shall not (except in accordance with § 14 and § 15) take any action absent the approval of the Company's shareholders (whether through an amendment, a cancellation, making replacement grants or exchanges or any other means) to directly or indirectly reduce the SAR Value of any outstanding Stock Appreciation Right or to make a tender offer for any Stock Appreciation Right if the SAR Value for such Stock Appreciation Right on the effective date of such tender offer exceeds the then Fair Market Value of a share of Stock with respect to which the appreciation in such Stock Appreciation Right is based.

8.2 Terms and Conditions.

- (a) Stock Appreciation Right Certificate. If a Stock Appreciation Right is granted independent of an Option, such Stock Appreciation Right shall be evidenced by a Stock Appreciation Right Certificate, and such certificate shall set forth the number of shares of Stock on which the Key Employee's or Director's right to appreciation shall be based and the SAR Value of each share of Stock. The SAR Value shall be no less than the Fair Market Value of a share of Stock on the date the Stock Appreciation Right is granted. The Stock Appreciation Right Certificate shall set forth such other terms and conditions for the exercise of the Stock Appreciation Right as the Committee deems appropriate under the circumstances, but no Stock Appreciation Right Certificate shall make a Stock Appreciation Right exercisable on or after the date which is the tenth anniversary of the date such Stock Appreciation Right is granted.
- (b) Option Certificate. If a Stock Appreciation Right is granted together with an Option, such Stock Appreciation Right shall be evidenced by the related Option Certificate, the number of shares of Stock on which the Key Employee's or Director's right to appreciation is based shall be no more than the number of shares of Stock subject to the related

Option, and the SAR Value for each such share of Stock shall be no less than the Option Price under the related Option. Each such Option Certificate shall provide that the exercise of the Stock Appreciation Right with respect to any share of Stock shall cancel the Key Employee's or Director's right to exercise his or her Option with respect to such share and, conversely, that the exercise of the Option with respect to any share of Stock shall cancel the Key Employee's or Director's right to exercise his or her Stock Appreciation Right with respect to such share. A Stock Appreciation Right which is granted as part of an Option shall be exercisable only while the related Option is exercisable. The Option Certificate shall set forth such other terms and conditions for the exercise of the Stock Appreciation Right as the Committee deems appropriate under the circumstances.

- (c) Vesting. The Committee may condition the right to exercise a Stock Appreciation Right on the satisfaction of a service requirement or a performance requirement or on the satisfaction of more than one such requirement or the satisfaction of any combination of such requirements or may grant a Stock Appreciation Right which is not subject to any such requirements, all as determined by the Committee in its discretion and as set forth in the related Stock Appreciation Right Certificate.

8.3 Exercise. A Stock Appreciation Right shall be exercisable to the extent vested only when the Fair Market Value of a share of Stock on which the right to appreciation is based exceeds the SAR Value for such share, and the payment, if any, due on exercise shall be based on such excess with respect to the number of shares of Stock to which the exercise relates. A Key Employee or Director upon the exercise of his or her Stock Appreciation Right shall receive a payment from the Company in cash or in Stock issued under this Plan, or in a combination of cash and Stock, and the number of shares of Stock issued shall be based on the Fair Market Value of a share of Stock on the date the Stock Appreciation Right is exercised. The Committee acting in its absolute discretion shall have the right to determine the form and time of any payment under this § 8.3.

§ 9.

STOCK GRANTS

9.1 Committee Action. The Committee acting in its absolute discretion shall have the right to make Stock Grants to Key Employees and to Directors, and Stock Grants may be made for any reason the Committee deems appropriate, including as a substitute for compensation otherwise payable in cash. Each Stock Grant shall be evidenced by a Stock Grant Certificate, and each Stock Grant Certificate shall set forth the conditions, if any, under which Stock will be issued under the Stock Grant and the conditions under which the Key Employee's or Director's interest in any Stock which has been issued will become vested and non-forfeitable.

9.2 Conditions.

- (a) Conditions to Issuance of Stock. The Committee acting in its absolute discretion may make the issuance of Stock under a Stock Grant subject to the satisfaction of one, or more than one, condition which the Committee deems appropriate under the circumstances for Key Employees or Directors generally or for a Key Employee or a Director in particular, and the related Stock Grant Certificate shall set forth each such condition and the deadline for satisfying each such condition. Stock subject to a Stock Grant shall be issued in the name of a Key Employee or Director only after each such condition, if any, has been timely satisfied, and any Stock which is so issued shall be held by the Company pending the satisfaction of the vesting conditions, if any, under § 9.2(b) for the related Stock Grant.
- (b) Vesting Conditions. The Committee acting in its absolute discretion may issue any Stock in the name of a Key Employee or Director under a Stock Grant subject to the satisfaction of one, or more than one, objective employment, performance or other vesting condition that the Committee acting in its absolute discretion deems appropriate under the circumstances for Key Employees or Directors generally or for a Key Employee or a Director in particular, and the

related Stock Grant Certificate shall set forth each such vesting condition, if any, and the deadline, if any, for satisfying each such vesting condition. A Key Employee's or a Director's vested and non-forfeitable interest in the shares of Stock underlying a Stock Grant shall depend on the extent to which he or she timely satisfies each such vesting condition. If a share of Stock is issued under this § 9.2(b) before a Key Employee's or Director's interest in such share of Stock vested and is non-forfeitable, (1) such share of Stock shall not be available for re-issuance under § 3 until such time, if any, as such share of Stock thereafter is forfeited as a result of a failure to timely satisfy a vesting condition and (2) the Company shall have the right to condition any such issuance on the Key Employee or Director first signing an irrevocable stock power in favor of the Company with respect to the forfeitable shares of Stock issued to such Key Employee or Director in order for the Company to effect any forfeiture called for under the related Stock Grant Certificate.

- (c) **Minimum Service Requirement.** If the only condition to the vesting of a Stock Grant is the satisfaction of a service requirement and a performance requirement, the minimum service requirement for 100% vesting shall be at least one year and, if the only condition to the vesting of a Stock Grant is the satisfaction of a service requirement, the minimum service requirement for 100% vesting shall be at least three years unless the Committee in either case determines that a longer or shorter period of service (or no period of service) better serves the Company's interest.

9.3 Dividends, Voting Rights and Creditor Status.

- (a) Cash Dividends. Except as otherwise set forth in a Stock Grant Certificate, if a dividend is paid in cash on a share of Stock after such Stock has been issued under a Stock Grant but before the first date that a Key Employee's or a Director's interest in such Stock (1) is forfeited completely or (2) becomes completely non-forfeitable, the Company shall pay such cash dividend directly to such Key Employee or Director.
- (b) Stock Dividends. If a dividend is paid on a share of Stock in Stock after such Stock has been issued under a Stock Grant but before the first date that a Key Employee's or a Director's interest in such Stock (1) is forfeited completely or (2) becomes completely non-forfeitable, the Company shall hold such dividend Stock subject to the same conditions under § 9.2(b) as the related Stock Grant.

- (c) Other. If a dividend (other than a dividend described in § 9.3(a) or § 9.3(b)) is paid with respect to a share of Stock after such Stock has been issued under a Stock Grant but before the first date that a Key Employee's or a Director's interest in such Stock (1) is forfeited completely or (2) becomes completely non-forfeitable, the Company shall distribute or hold such dividend in accordance with such rules as the Committee shall adopt with respect to each such dividend.
- (d) Voting. Except as otherwise set forth in a Stock Grant Certificate, a Key Employee or a Director shall have the right to vote the Stock issued under his or her Stock Grant during the period which comes after such Stock has been issued under a Stock Grant but before the first date that a Key Employee's or Director's interest in such Stock (1) is forfeited completely or (2) becomes completely non-forfeitable.

9.4 Satisfaction of Forfeiture Conditions. A share of Stock shall cease to be subject to a Stock Grant at such time as a Key Employee's or a Director's interest in such Stock becomes vested and non-forfeitable under this Plan, and the certificate or other evidence of ownership representing such share shall be transferred to the Key Employee or Director as soon as practicable thereafter.

9.5 Performance Goals for Income Tax Deduction.

- (a) General. The Committee shall (where the Committee under the circumstances deems in the Company's best interest) either (1) make Stock Grants to Key Employees subject to at least one condition related to one, or more than one, performance goal based on the performance goals described in § 9.5(b) which seems likely to result in the Stock Grant qualifying as "performance-based compensation" under § 162(m) of the Code or (2) make Stock Grants to Key Employees under such other circumstances as the Committee deems likely to result in an income tax deduction for the Company with respect to such Stock Grant.
- (b) Performance Goals. A performance goal is described in this § 9.5(b) if such goal relates to (1) the Company's return over capital costs or increases in return over capital costs, (2) the Company's total earnings or the growth in such earnings, (3) the Company's consolidated earnings or the growth in such earnings, (4) the Company's earnings per share or the growth in such earnings, (5) the Company's net earnings or the growth in such earnings, (6) the Company's earnings before interest expense, taxes, depreciation, amortization and other non-cash items or the growth in such earnings,

(7) the Company's earnings before interest and taxes or the growth in such earnings, (8) the Company's consolidated net income or the growth in such income, (9) the value of the Company's stock or the growth in such value, (10) the Company's stock price or the growth in such price, (11) the Company's return on assets or the growth on such return, (12) the Company's cash flow or the growth in such cash flow, (13) the Company's total shareholder return or the growth in such return, (14) the Company's expenses or the reduction of such expenses, (15) the Company's sales growth, (16) the Company's overhead ratios or changes in such ratios, (17) the Company's expense-to-sales ratios or the changes in such ratios, or (18) the Company's economic value added or changes in such value added.

(c) Alternative Goals. A performance goal may be set in any manner determined by the Committee, including looking to achievement on an absolute or relative basis in relation to peer groups or indexes, and the Committee may set more than one goal. No change may be made to a performance goal after the goal has been set. However, the Committee may express any goal in terms of alternatives, or a range of alternatives, as the Committee deems appropriate under the circumstances, such as including or excluding (1) any

acquisitions or dispositions, restructuring, discontinued operations, extraordinary items and other unusual or non-recurring charges, (2) any event either not directly related to the operations of the Company or not within the reasonable control of the Company's management or (3) the effects of tax or accounting changes.

§ 10.

STOCK UNIT GRANTS

10.1 Outside Directors. Each Outside Director shall be required to defer at least 50% of his or her director fees each calendar year and shall have the right under § 10.3 to elect to defer 75% or 100% of such fees each calendar year. The deferrals for each Outside Director will be deducted (if he or she elects less than a 100% deferral) on a pro-rata basis from his or her director fees when such fees are otherwise payable in cash, and the deferrals shall be converted into a Stock Unit Grant at the average of the Fair Market Value for a share of Stock for the 10 trading days before the date the director fees for Outside Directors otherwise would have been payable in cash.

10.2 Inside Directors. The Company automatically shall defer for each Inside Director a dollar amount equal to 50% of the director fees for Outside Directors. Inside Directors shall have the right to elect additional deferrals which will correspond to an Outside Director's right to elect to defer 75% or 100% of such fees each calendar year. Any automatic deferrals by Inside Directors shall be matched by the Committee at the same rate that applies to required deferrals by Outside Directors under § 10.3, and

- 26 -

any additional deferrals by Inside Directors shall be matched by the Committee at the same rate that applies to additional deferrals by Outside Directors under § 10.3. Inside Directors wishing to elect any additional deferral shall do so in accordance with the deferral election procedures described in § 10.3(d). The deferrals for each Inside Director shall be effected from their base salary or other cash compensation to coincide with the deferrals for Outside Directors, and the deferrals for Inside Directors shall be converted into a Stock Unit Grant at the same time and in accordance with the same procedure followed for Outside Directors.

10.3 Matching Units and Deferral Elections.

- (a) Fifty Percent. If an Outside Director does not elect to defer more than the required deferral under § 10.1, the Committee shall match 25% of his or her deferral in an additional Stock Unit Grant
- (b) Seventy Five Percent. If an Outside Director elects in accordance with § 10.3(d) to defer 75% of his or her director fees, the Committee shall match 50% of his or her deferral in an additional Stock Unit Grant.
- (c) One Hundred Percent. If an Outside Director elects in accordance with § 10.3(d) to defer 100% of his or her director fees, the Committee shall match 75% of his or her deferral in an additional Stock Unit Grant.
- (d) Deferral Election Rules for Outside Directors.
- (1) General Rule. A deferral election under § 10.3(b) or § 10.3(c) shall be effective for fees for services performed in any calendar year only if the election is delivered to the Company before the beginning of the calendar year in which the services are performed, and an election shall be effective only if made on the form provided for this purpose.

- (2) Special Rules. Each Outside Director may make an election under § 10.3(b) or § 10.3(c) with respect to director fees payable for services performed in the calendar year in which he or she is first elected an Outside Director if such election is delivered to the Company before the end of the 30 day period which starts on the date he or she is first elected an Outside Director. An election under this § 10.3(d)(2) shall be effective for directors' fees for services rendered starting with the first full month after such election is delivered to the Company.
- (3) Irrevocable. An election under this § 10.3(d) shall be irrevocable for the calendar year for which the election is made on the last date specified in this Plan for making the election.
- (e) Conversion to a Stock Unit Grant. A Director's match under this § 10.3 will be converted into a Stock Unit Grant at the same time and under the same procedure as his or her deferrals are converted into a Stock Unit Grant.

10.4. Deferral Periods.

- (a) General. All deferrals under this § 10 shall be paid in the calendar year immediately following, and within 30 days after the end of, an Automatic Deferral Period or, if a Director so elects in accordance with this § 10.4, the end of an additional Elective Deferral Period.
- (b) Automatic Deferral Period. The Automatic Deferral Period for a Director for deferrals effected in any calendar year shall be the five calendar year period starting on the immediately following January 1. There will be separate Automatic Deferral Period for deferrals effected in each calendar year.
- (c) Elective Deferral Period. If a Director delivers an election on the form provided for this purpose to the Company at least one full year before the end of any Automatic Deferral Period, the payment of the deferrals subject to such Automatic Deferral Period shall be deferred for an additional five calendar years. Any such election shall be irrevocable when delivered to the Company. Any such payment shall be made in the calendar year immediately following, and within 30 days after the end of, any Elective Deferral Period.
- (d) Special Rules.
- (1) Termination. All deferrals (whether subject to an Automatic Deferral Period or an Elective Deferral Period) shall be payable as of the date a Director has “separated from service”, by death or otherwise, as that term is defined for

purposes of § 409A of the Code. If the Director is also a “specified employee”, as defined for purposes of § 409A of the Code, the distribution on account of the Director’s separation from service shall be made six months and one day after the date of the Director’s separation from service unless the separation from service occurs as a result of the Director’s death, in which event the distribution shall be made as soon as is practical after the Director’s death.

(2) Unforeseeable Emergency. If a Director can demonstrate to a majority of the other members of the Board that he or she has an extreme financial hardship as a result of an unforeseeable emergency (within the meaning of § 409A of the Code) and that access to his or her deferrals under this Plan is more appropriate under the circumstances than using any of his or her other assets to meet the emergency, the Board (acting by a majority vote with the affected Director not voting) may authorize the payment of all or a portion of his or her deferrals to meet the emergency. The amounts distributed under this § 10.4(d)(2) may not exceed the amount necessary to meet the emergency plus the amount necessary to pay taxes reasonably anticipated to result from the distribution and, in any event, may not exceed the amount allowable under § 409A of the Code.

- (e) Accelerated Payments. The timing of any payment under this § 10 shall not be accelerated unless the Committee (1) in its absolute discretion consents to such acceleration and (2) determines (acting in good faith) such acceleration is permissible under § 409A of the Code.
- (f) Delayed Payments. The timing of any payment under this § 10 shall not be delayed unless the Committee (1) in its absolute discretion consents to such acceleration and (2) determines (acting in good faith) such delay is permissible under § 409A of the Code.

10.5 Payment. When any deferrals become payable at the end of a Deferral Period or become payable under § 10.4(d), payment shall be made (subject to applicable withholdings) in whole shares of Stock and cash in lieu of a fractional share (based on the average of the Fair Market Value for a share of Stock for the 10 trading days before the date as of which payment is made). The Company shall make a payment as soon as practicable after a deferral becomes payable. A payment due a Director shall be made to his or her Beneficiary if the Director dies before the payment is made.

10.6 Non-Forfeitable Account and Account Adjustments. A Director's interest in his or her Account shall be non-forfeitable. The number of shares described in a Stock Unit Grant credited to a Director's Account shall be adjusted at the same time and in the same manner as Stock Grants made under this Plan.

10.7 General Assets. All cash distributions to, or on behalf of, a Director under this § 10 shall be made from the Company's general assets, and any claim by a Director or by his or her Beneficiary against the Company for any cash distribution under this Plan shall be treated the same as a claim of any general and unsecured creditor of the Company.

10.8 Rabbi Trust. The Company at the discretion of the Committee may establish a revocable "rabbi trust" which is a part of this Plan and transfer a number of shares of Stock to the trustee of such trust which matches the number of Stock Unit Grants made pursuant to this § 10 if a determination is made that such transfers will minimize or eliminate the adverse financial accounting consequences, if any, to the Company as a result of Stock Unit Grants made pursuant to this § 10.

§ 11.

NON-TRANSFERABILITY

No Option, Stock Grant, Stock Unit Grant or Stock Appreciation Right shall (absent the Committee's express, written consent) be transferable by a Key Employee or a Director other than by will or by the laws of descent and distribution, and any Option or Stock Appreciation Right shall (absent the Committee's express, written consent) be exercisable during a Key Employee's or Director's lifetime only by the Key Employee or Director. The person or persons to whom an Option or Stock Grant or Stock Unit Grant or Stock Appreciation Right is transferred by will or by the laws of descent and distribution (or with the Committee's express, written consent) thereafter shall be treated as the Key Employee or Director.

- 32 -

§ 12.

SECURITIES REGISTRATION

As a condition to the receipt of shares of Stock under this Plan, the Key Employee or Director shall, if so requested by the Company, agree to hold such shares of Stock for investment and not with a view of resale or distribution to the public and, if so requested by the Company, shall deliver to the Company a written statement satisfactory to the Company to that effect. Furthermore, if so requested by the Company, the Key Employee or Director shall make a written representation to the Company that he or she will not sell or offer for sale any of such Stock unless a registration statement shall be in effect with respect to such Stock under the 1933 Act and any applicable state securities law or he or she shall have furnished to the Company an opinion in form and substance satisfactory to the Company of legal counsel satisfactory to the Company that such registration is not required. Certificates or other evidence of ownership representing the Stock transferred upon the exercise of an Option or Stock Appreciation Right or upon the lapse of the forfeiture conditions, if any, on any Stock Grant or issued pursuant to a Stock Unit Grant may at the discretion of the Company bear a legend to the effect that such Stock has not been registered under the 1933 Act or any applicable state securities law and that such Stock cannot be sold or offered for sale in the absence of an effective registration statement as to such Stock under the 1933 Act and any applicable state securities law or an opinion in form and substance satisfactory to the Company of legal counsel satisfactory to the Company that such registration is not required.

§ 13.

LIFE OF PLAN

No Option or Stock Appreciation Right shall be granted or Stock Grant or Stock Unit Grant made under this Plan on or after the earlier of:

- (1) the tenth anniversary of the effective date of this Plan (as determined under § 4), in which event this Plan otherwise thereafter shall continue in effect until all outstanding Options and Stock Appreciation Rights have been exercised in full or no longer are exercisable, all Stock issued under any Stock Grants under this Plan have been forfeited or have become non-forfeitable, and payment has been made in full with respect to all Stock Unit Grants, or
- (2) the date on which all of the Stock reserved under § 3 has (as a result of the exercise of Options or Stock Appreciation Rights granted under this Plan or the satisfaction of the forfeiture conditions, if any, on Stock Grants or the payments with respect to Stock Unit Grants) been issued or no longer is available for use under this Plan, in which event this Plan also shall terminate on such date.

§ 14.

ADJUSTMENT

14.1 Capital Structure. The grant limits described in § 3.5, the number, kind or class (or any combination thereof) of shares of Stock subject to outstanding Options and Stock Appreciation Rights granted under this Plan and the Option Price of such Options and the SAR Value of such Stock Appreciation Rights as well as the number, kind or class (or any combination thereof) of shares of Stock subject to outstanding Stock Grants or Stock Unit Grants made under this Plan shall be adjusted by the Committee in a reasonable and equitable manner to preserve immediately after

- (a) any equity restructuring or change in the capitalization of the Company, including, but not limited to, spin offs, stock dividends, large non-reoccurring cash or stock dividends, rights offerings or stock splits, or
- (b) any other transaction described in § 424(a) of the Code which does not constitute a Change in Control of the Company

the aggregate intrinsic value of each such outstanding Option, Stock Appreciation Right, Stock Grant and Stock Unit Grant immediately before such restructuring or recapitalization or other transaction.

14.2 Shares Reserved. If any adjustment is made with respect to any outstanding Option, Stock Appreciation Right, Stock Grant or Stock Unit Grant under § 14.1, then the Committee shall adjust the number, kind or class (or any combination thereof) of shares of Stock reserved under § 3.1. The Committee shall have the discretion to limit such adjustment to account only for the number, kind and class of shares of Stock subject to each such Option, Stock Appreciation Right, Stock Grant and Stock Unit Grant as adjusted under § 14.1 or to further adjust such number, kind or class (or any combination thereof) of shares of Stock reserved under § 3.1 to account

for any reduction in the total number of shares of Stock then reserved under § 3.1 which would result from the events described in § 14.1(a) and § 14.1(b) if no action was taken by the Committee under this § 14.2. The Committee may make any adjustment provided for in this § 14.2 without seeking the approval of the Company's shareholders for such adjustment unless the Committee acting on the advice of counsel determined that such approval is required under applicable law or the rules of the stock exchange on which shares of Stock are traded.

14.3 Transactions Described in § 424 of the Code. If there is a corporate transaction described in § 424(a) of the Code which does not constitute a Change in Control of the Company, the Committee as part of any such transaction shall have right to make Stock Grants and Option and Stock Appreciation Right grants (without regard to any limitations set forth under § 3.5 of this Plan) to effect the assumption of, or the substitution for, outstanding stock grants and option and stock appreciation right grants previously made by any other corporation to the extent that such corporate transaction calls for such substitution or assumption of such outstanding stock grants and stock option and stock appreciation right grants. Furthermore, if the Committee makes any such grants as part of any such transaction, the Committee shall have the right to increase the number of shares of Stock available for issuance under § 3.1 by the number of shares of Stock subject to such grants without seeking the approval of the Company's shareholders for such adjustment unless such approval is required under applicable law or the rules of the stock exchange on which shares of Stock are traded.

14.4 Fractional Shares. If any adjustment under this § 14 would create a fractional share of Stock or a right to acquire a fractional share of Stock under any Option, Stock Appreciation Right or Stock Grant, such fractional share shall be disregarded and the number of shares of Stock reserved under this Plan and the number subject to any Options, Stock Appreciation Right grants and Stock Grants shall be the next lower number of shares of Stock, rounding all fractions downward. An adjustment made under this § 14 by the Committee shall be conclusive and binding on all affected persons.

§ 15.

CHANGE IN CONTROL

If there is a Change in Control of the Company, then as of the Change Effective Date for such Change in Control any and all conditions to the exercise of all outstanding Options and Stock Appreciation Rights on such date and any and all outstanding issuance and forfeiture conditions on any Stock Grants on such date automatically shall be deemed 100% satisfied as of such Change Effective Date, and the Board shall have the right (to the extent expressly required as part of such transaction) to cancel such Options, Stock Appreciation Rights and Stock Grants after providing each Key Employee and Director a reasonable period to exercise his or her Options and Stock Appreciation Rights and to take such other action as necessary or appropriate to receive the Stock subject to any Stock Grants; provided, if any issuance or forfeiture condition described in this § 15 relates to satisfying any performance goal and there is a target for such goal, such issuance or forfeiture condition shall be deemed satisfied under this § 15 only to the extent of such target unless such target has been exceeded before the Change Effective Date, in which event such issuance or forfeiture condition shall be deemed satisfied to the extent such target had been so exceeded.

- 37 -

§ 16.

AMENDMENT OR TERMINATION

This Plan may be amended by the Board from time to time to the extent that the Board deems necessary or appropriate; provided, however, (a) no amendment shall be made absent the approval of the shareholders of the Company to the extent such approval is required under applicable law or the rules of the stock exchange on which shares of Stock are listed and (b) no amendment shall be made to § 15 on or after the date of any Change in Control which might adversely affect any rights which otherwise would vest on the related Change Effective Date. The Board also may suspend granting Options or Stock Appreciation Rights or making Stock Grants or Stock Unit Grants under this Plan at any time and may terminate this Plan at any time; provided, however, the Board shall not have the right in connection with any such suspension or termination to unilaterally to modify, amend or cancel any Option or Stock Appreciation Right granted, or Stock Grant or Stock Unit Grant unless (1) the Key Employee or Director consents in writing to such modification, amendment or cancellation or (2) there is a dissolution or liquidation of the Company or a transaction described in § 15.

§ 17.

MISCELLANEOUS

17.1 Shareholder Rights. No Key Employee or Director shall have any rights as a shareholder of the Company as a result of the grant of an Option or a Stock Appreciation Right or a Stock Unit Grant pending the actual delivery of the Stock subject to such Option or Stock Appreciation Right or Stock Unit Grant to such Key Employee or Director. A Key Employee's or a Director's rights as a shareholder in the shares of Stock which remain subject to forfeiture under § 9.2(b) shall be set forth in the related Stock Grant Certificate.

17.2 No Contract of Employment. The grant of an Option or a Stock Appreciation Right or a Stock Grant or Stock Unit Grant to a Key Employee or Director under this Plan shall not constitute a contract of employment or a right to continue to serve on the Board and shall not confer on a Key Employee or Director any rights upon his or her termination of employment or service in addition to those rights, if any, expressly set forth in this Plan or the related Option Certificate, Stock Appreciation Right Certificate, or Stock Grant Certificate.

17.3 Tax Withholding. Each Option, Stock Appreciation Right, Stock Grant and Stock Unit Grant shall be made subject to the condition that the Key Employee or Director consents to whatever action the Committee directs to at least satisfy the statutory federal and state tax withholding requirements, if any, which the Company determines are applicable to the exercise of such Option or Stock Appreciation Right or to the satisfaction of any forfeiture conditions with respect to Stock subject to a Stock Grant issued in the name of the Key Employee or Director or any payment made pursuant to a Stock Unit Grant. No withholding shall be effected under this Plan which exceeds the federal and state tax withholding requirements.

17.4 Construction. All references to sections (§) are to sections (§) of this Plan unless otherwise indicated. This Plan shall be construed under the laws of the State of Delaware. Each term set forth in § 2 shall, unless otherwise stated, have the meaning set forth opposite such term for purposes of this Plan and, for purposes of such definitions, the singular shall include the plural and the plural shall include the singular. Finally, if there is any conflict between the terms of this Plan and the terms of any Option Certificate, Stock Appreciation Right Certificate or Stock Grant Certificate, the terms of this Plan shall control.

17.5 Other Conditions. Each Option Certificate, Stock Appreciation Right Certificate or Stock Grant Certificate may require that a Key Employee or a Director (as a condition to the exercise of an Option or a Stock Appreciation Right or the issuance of Stock subject to a Stock Grant) enter into any agreement or make such representations prepared by the Company, including (without limitation) any agreement which restricts the transfer of Stock acquired pursuant to the exercise of an Option or a Stock Appreciation Right or a Stock Grant or provides for the repurchase of such Stock by the Company. The Company also may condition any payment under § 10 on a Director signing such an agreement or making such representations.

17.6 Rule 16b-3. The Committee shall have the right to amend any Option, Stock Appreciation Right, Stock Grant or Stock Unit Grant to withhold or otherwise restrict the transfer of any Stock or cash under this Plan to a Key Employee or Director as the Committee deems appropriate in order to satisfy any condition or requirement under Rule 16b-3 to the extent Rule 16 of the 1934 Act might be applicable to such grant or transfer.
