FORM 6-K

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Report of Foreign Private Issuer Pursuant to Rule 13a-16 or 15d-16 of the Securities Exchange Act of 1934

For the month of May 2014

Commission File Number: 001-31819

Gold Reserve Inc.

(Exact name of registrant as specified in its charter)

926 W. Sprague Avenue, Suite 200
Spokane, Washington 99201
(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Edgar Filing: GOLD RESERVE INC - Form 6-K

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):

The following exhibits are furnished with this Form 6-K:

99.1 March 31, 2014 Interim Consolidated Financial Statements

99.2 March 31, 2014 Management's Discussion and Analysis

99.3 Chief Executive Officer's Certification of Interim Filings

99.4 Chief Financial Officer's Certification of Interim Filings

Cautionary Statement Regarding Forward-Looking Statements and information

The information presented or incorporated by reference herein contains both historical information and "forward-looking statements" within the meaning of the relevant sections of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and "forward-looking information" within the meaning of applicable Canadian securities laws, that state the Company's intentions, hopes, beliefs, expectations or predictions for the future. Forward-looking statements and forward-looking information are collectively referred to herein as "forward-looking statements".

Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein and many of which are outside its control. Some of the material factors or assumptions used to develop forward-looking statements include, without limitation, the uncertainties associated with: the arbitration proceedings under the Additional Facility Rules of the International Centre for Settlement of Investment Disputes ("ICSID"), against the Bolivarian Republic of Venezuela ("Respondent") seeking compensation in the arbitration for all of the loss and damage resulting from Venezuela's wrongful conduct (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1)) (the "Brisas Arbitration"), actions by the Venezuelan government, economic and industry conditions influencing the future sale of the Brisas Project related equipment, and conditions or events impacting the Company's ability to fund its operations or service its debt.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to future results.

Numerous factors could cause actual results to differ materially from those in the forward-looking statements, including without limitation:

Edgar Filing: GOLD RESERVE INC - Form 6-K

- outcome of our arbitration against the Bolivarian Republic of Venezuela;
- continued servicing or restructuring of our Notes or other obligations as they come due;
- prospects for exploration and development of other mining projects by us;
- equity dilution resulting from the conversion of the Notes in part or in whole to Class A Common Shares;
- value, if any, realized from the disposition of the remaining Brisas Project related assets;
- ability to maintain continued listing on the TSXV or continued trading on the OTCQB;
- competition with companies that are not subject to, or do not follow, Canadian and U.S. laws and regulations;
- corruption, uncertain legal enforcement and political and social instability;
- our current liquidity and capital resources and access to additional funding in the future if required;
- regulatory, political and economic risks associated with foreign jurisdictions including changes in laws and legal regimes;
- currency, metal prices and metal production volatility;
- adverse U.S., Canadian and/or Mexican tax consequences;
- abilities and continued participation of certain key employees; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the company's forward-looking statements. See "Risk Factors" contained in the Company's Annual Information Form and Annual Report on Form 40-F filed on sedar.com and sec.gov, respectively for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the SEC or other securities regulators or documents presented on the Company's website. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to the Company's disclosure obligations under applicable U.S. and Canadian securities regulations. Investors are urged to read the Company's filings with U.S. and Canadian securities regulatory agencies, which can be viewed online at www.sec.gov and www.sedar.com, respectively.

The accompanying notes are an integral part of the consolidated financial statements.

Note 1. The Company and Significant Accounting Policies:

The Company. Gold Reserve Inc. (the "Company") is engaged in the business of acquiring, exploring and developing mining projects. The Company is an exploration stage company incorporated in 1998 under the laws of the Yukon Territory, Canada and is the successor issuer to Gold Reserve Corporation which was incorporated in 1956. All amounts shown herein are expressed in U.S. dollars unless otherwise noted.

In February 1999 each Gold Reserve Corporation shareholder exchanged its shares for an equal number of Gold Reserve Inc. Class A Common shares except in the case of certain U.S. holders who for tax reasons elected to receive equity units which are comprised of one Gold Reserve Inc. Class B common share and one Gold Reserve Corporation Class B common share and substantially equivalent to a Class A common share.

Going Concern. As of March 31, 2014, the Company had financial resources comprised of cash and marketable securities totaling approximately \$2.0 million and Brisas Project related equipment, which is being marketed for sale, with an estimated fair value of approximately \$19 million (See Note 6, Property, Plant and Equipment). The Company's financial obligations included convertible notes of \$25.3 million (face value) which as of March 31, 2014 were scheduled to mature in June 2014 and accounts payable and accrued expenses due in the normal course of approximately \$1.0 million.

The Company has no revenue producing operations at this time and its working capital position, cash burn rate and debt maturity schedule required that the Company seek additional sources of funding to ensure the Company's ability to continue its activities in the normal course.

Substantially all of the Company's convertible notes mature in June 2014. During the first quarter of 2014, the Company commenced discussions with its largest Noteholders and on April 25, 2014 the Company agreed in principle to extend the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issue up to \$12 million of New Notes also maturing December 31, 2015 (the "Agreement"). The terms of the Agreement were finalized on May 7, 2014. The Modified Notes will be amended to be consistent with the terms of the New Notes. Upon completion of the extension of the Modified Notes and issuance of additional New Notes, the Company believes it will have sufficient funds to continue its activities through 2015 (See Note 10, Convertible Notes and Note 11, Subsequent Event).

Considering the transaction discussed in Note 11, Subsequent Event, management has concluded that its previous disclosure regarding its substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time has been alleviated. These consolidated financial statements are prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due and do not reflect potentially material adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations.

Principles of Consolidation. These consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles. The statements include the accounts of the Company, Gold Reserve Corporation, four Venezuelan subsidiaries, a Mexican subsidiary and four other subsidiaries which were formed to hold the Company's interest in its foreign subsidiaries or for future transactions. All subsidiaries are wholly owned. All intercompany accounts and transactions have been eliminated on consolidation. The Company's policy is to consolidate those subsidiaries where control exists. Certain reclassifications have been made to prior year amounts in order to conform to the current year presentation.

Exploration Stage Enterprise. As a result of the expropriation of the Brisas Project by the Venezuelan government, the Company was forced to abandon its development efforts on the project and, in 2009, expensed all capitalized costs associated with its development. The expropriation resulted in the end of the development of the Brisas Project and management considers January 1, 2010 a new inception date of the Company's business of acquiring and exploring other mining projects. Although the Company is in the exploration stage, it is still subject to compliance with ASC 915 which relates to development stage enterprises. ASC 915 requires additional disclosures of development stage enterprises including cumulative amounts from the inception of the Company's business.

Cash and Cash Equivalents. The Company considers short-term, highly liquid investments purchased with an original maturity of three months or less to be cash equivalents for purposes of reporting cash equivalents and cash flows. The cost of these investments approximates fair value. The Company manages the exposure of its cash and cash equivalents to credit risk by diversifying its holdings into major Canadian and U.S. financial institutions.

-10-

Exploration and Development Costs. Exploration costs incurred in locating areas of potential mineralization or evaluating properties or working interests with specific areas of potential mineralization are expensed as incurred. Development costs of proven mining properties not yet producing are capitalized at cost and classified as capitalized exploration costs under property, plant and equipment. Property holding costs are charged to operations during the period if no significant exploration or development activities are being conducted on the related properties. Upon commencement of production, capitalized exploration and development costs would be amortized based on the estimated proven and probable reserves benefited. Properties determined to be impaired or that are abandoned are written-down to the estimated fair value. Carrying values do not necessarily reflect present or future values.

Property, Plant and Equipment. Included in property, plant and equipment is certain equipment which was originally purchased for the Brisas project at a cost of approximately \$29 million. The carrying value of this equipment has been adjusted to its estimated fair value of \$19 million and it is not being depreciated. The realizable value of this equipment may be different than management's current estimate.

The Company has additional property, plant and equipment which are recorded at the lower of cost less accumulated depreciation or estimated net realizable value. Replacements and major improvements are capitalized. Maintenance and repairs are charged to expense as incurred. The cost and accumulated depreciation of assets retired or sold are removed from the accounts and any resulting gain or loss is reflected in operations. Depreciation is provided using straight-line and accelerated methods over the lesser of the useful life or lease term of the related asset.

Impairment of Long Lived Assets. The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If the sum of the expected future net cash flows to be generated from the use or disposition of a long-lived asset (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss is recognized and the asset is written down to fair value. Fair value is generally determined by discounting estimated cash flows, using quoted market prices where available or making estimates based on the best information available.

Foreign Currency. The U.S. dollar is the Company's (and its foreign subsidiaries') functional currency. Monetary assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the rates of exchange in effect at the balance sheet dates. Non-monetary assets and liabilities are translated at historical rates and revenue and expense items are translated at average exchange rates during the reporting period, except for depreciation which is translated at historical rates. Translation gains and losses are included in the statement of operations.

Stock Based Compensation. The Company maintains the 2012 Equity Incentive Plan (the "2012 Plan") which provides for the grant of stock options of up to 10% of the issued and outstanding common shares of the Company on a rolling basis. The Company uses the fair value method of accounting for stock options. The fair value of options granted to employees is computed using the Black-Scholes method as described in Note 8 and is expensed over the vesting period of the option. For non-employees, the fair value of stock based compensation is recorded as an expense over the vesting period or upon completion of performance. Consideration paid for shares on exercise of share options, in addition to the fair value attributable to stock options granted, is credited to capital stock. Fair value of restricted stock previously issued as compensation is based on the grant date market value and expensed over the vesting period. The 2012 Plan does not provide for the issuance of restricted stock. The Company also maintains the Gold Reserve Director and Employee Retention Plan. Each Unit granted under the retention plan to a participant entitles such person to receive a cash payment equal to the fair market value of one Gold Reserve Class A Common Share (1) on the date the Unit was granted or (2) on the date any such participant becomes entitled to payment, whichever is greater. The Company will not accrue a liability for these units until and unless events required for vesting of the units occur. Stock options and Units granted under the respective plans become fully vested and exercisable and/or payable upon a change of control.

Income Taxes. The Company uses the liability method of accounting for income taxes. Deferred tax assets and liabilities are determined based on the differences between the tax basis of assets and liabilities and those amounts reported in the financial statements. The deferred tax assets or liabilities are calculated using the enacted tax rates expected to apply in the periods in which the differences are expected to be settled. Deferred tax assets are recognized to the extent that they are considered more likely than not to be realized.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

-11-

Net Loss Per Share. Net loss per share is computed by dividing net loss by the combined weighted average number of Class A and B common shares outstanding during each year. In periods in which a loss is incurred, the effect of potential issuances of shares under options and convertible notes would be anti-dilutive, and therefore basic and diluted losses per share are the same.

Convertible Notes. Convertible notes are classified as a liability and were initially recorded at their estimated fair value, net of issuance costs. The notes are accreted to their face value using the effective interest rate method over the expected life of the notes, with the resulting charge recorded as interest expense.

Comprehensive Loss. Comprehensive loss includes net loss and other comprehensive income or loss. Other comprehensive loss may include unrealized gains and losses on available-for-sale securities. The Company presents comprehensive loss and its components in the consolidated statements of comprehensive loss.

Financial Instruments. Marketable equity securities are classified as available for sale with any unrealized gain or loss recorded in other comprehensive income. If a decline in fair value of a security is determined to be other than temporary, an impairment loss is recognized. Cash and cash equivalents, deposits and advances are accounted for at cost which approximates fair value. Accounts payable and convertible notes are recorded at amortized cost.

Contingent Value Rights. Contingent value rights ("CVR") are obligations arising from the disposition of a portion of the rights to future proceeds of an arbitration award against Venezuela and/or the sale of mining data.

Warrants. Common share purchase warrants ("Warrants") issued by the Company entitle the holder to acquire common shares of the company at a specific price within a certain time period. The fair value of warrants issued is calculated using the Black-Scholes method.

Note 2. Expropriation of Brisas Project by Venezuela and Related Arbitration:

In April 2008, after a series of actions which concluded with the revocation of the Company's previously authorized right to develop the Brisas Project, the Venezuelan government expropriated the Brisas Project and also effectively deprived the Company of its ability to further develop the Choco 5 Property.

The Company commenced arbitration in October 2009 by filing a Request for Arbitration under the Additional Facility Rules of the International Centre for Settlement of Investment Disputes ("ICSID"), against the Bolivarian Republic of Venezuela ("Respondent") seeking compensation in the arbitration for all of the losses and damages resulting from Venezuela's wrongful conduct (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1) (the "Brisas Arbitration")). The Company's claim as last updated in its July 2011 Reply totals approximately \$2.1 billion which includes interest from April 14, 2008 (the date of the loss) to July 29, 2011 (the date of the Company's reply) of approximately \$400 million. The claim, including accrued interest since the loss to the date of the Tribunal's decision, represents the estimated fair market value of the legal rights to develop the Brisas Project and the value of the Choco 5 Property.

The Company is well advanced in the arbitration process. The Tribunal held an oral hearing on the merits with the Parties in February 2012 and the Parties submitted post-hearing briefs in March, May and June 2012 as requested by the Tribunal. In July 2012, the Tribunal issued a procedural order requesting both Parties to submit further expert reports addressing certain valuation issues. The expert initial and reply reports for both Parties were filed May 24 and June 28, 2013, respectively, and on August 5, 2013 the Parties filed final comments on the expert reports. On October

15 and 16, 2013 the Tribunal held an oral hearing focused on the additional expert evidence requested in its previous procedural order. Subsequent to the October oral hearing the Tribunal issued post-hearing procedural instructions and the Parties submitted post-hearing briefs on December 23, 2013. In April 2014, the Tribunal requested both parties to submit their legal and technical costs related to the arbitration process by May 26, 2014.

An ICSID Additional Facility Award is enforceable globally under the New York Convention, an international convention regarding the recognition and enforcement of arbitral awards with over one hundred forty State parties. There are clear, well documented procedures for identifying sovereign assets located in one or more of these Member States and for enforcing arbitral awards by attaching such assets.

-12-

The Board of Directors approved a Bonus Pool Plan ("Bonus Plan") in May 2012, which is intended to reward the participants, including named executive officers, employees, directors and consultants, for their past and future contributions including their efforts related to the development of the Brisas Project, execution of the arbitration claim and the collection of an award, if any. The bonus pool under the Bonus Plan will generally be comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes times 1% of the first \$200 million and 5% thereafter. Participation in the Bonus Plan vests upon the participant's selection by the Committee of independent directors, subject to voluntary termination of employment or termination for cause. The Company currently does not accrue a liability for the Bonus Plan as events required for payment under the Plan have not yet occurred.

Pursuant to its 2012 debt restructuring, the Company issued a CVR which entitled each note holder participating in the Restructuring to receive, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), a pro rata portion of a maximum aggregate amount of 5.468% of the proceeds actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the Brisas Project mining data. The proceeds, if any, could be cash, commodities, bonds, shares and/or any other consideration received by the Company and if such proceeds are other than cash, the fair market value of such non-cash proceeds, net of any required deductions (e.g., for taxes) will be subject to the CVR.

Note 3. Cash and Cash Equivalents:

	March 31, 2014	December 31, 2013
Bank deposits	\$ 512,769	\$ 1,578,903
Money market funds	1,097,042	1,396,934
Total	\$ 1,609,811	\$ 2,975,837

Note 4. Marketable Securities:

	March 31, 2014	December 31, 2013
Fair value at beginning of year	\$ 318,442	\$ 723,449
Acquisitions	-	-
Dispositions, at cost	-	(12,500)
Realized loss	-	4,039
Unrealized gain (loss)	36,370	(396,546)
Fair value at balance sheet date	\$ 354,812	\$ 318,442

The Company's marketable securities are classified as available-for-sale and are recorded at quoted market value with gains and losses recorded within other comprehensive income until realized. Realized gains and losses are based on the average cost of the shares held at the date of disposition. Declines in the fair value of certain securities were determined to be other than temporary and as a result the Company recognized impairment losses of \$178,250 during the year ended December 31, 2013. As of March 31, 2014 and December 31, 2013, marketable securities had a cost basis of \$321,016.

Note 5. Fair Value Measurements:

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities, Level

2 inputs are inputs other than quoted prices included within Level 1 that are directly or indirectly observable for the asset or liability and Level 3 inputs are unobservable inputs for the asset or liability that reflect the entity's own assumptions. The Company has an equity investment in a privately held exploration-stage mining company which is classified as Level 3. The estimate of the fair value of this investment includes observable inputs being recently completed equity transactions by the held company.

-13-

	Fair value			
	March 31, 2014	Level 1	Level 2	Level 3
Marketable securities	\$ 354,812	\$ 309,575	– \$	45,237
Convertible notes	\$ 21,038,884	–	\$ 21,038,884	–

	Fair value			
	December 31, 2013	Level 1	Level 2	Level 3
Marketable securities	\$ 318,442	\$ 271,436	– \$	47,006
Convertible notes	\$ 21,773,229	–	\$ 21,773,229	–

Note 6. Property, Plant and Equipment:

	Cost	Accumulated Depreciation	Net
March 31, 2013			
Machinery and equipment ¹	\$ 18,985,828	\$ –	\$ 18,985,828

Mineral property	275,010	–	275,010
	\$ 20,003,121	\$ (702,642)	\$ 19,300,479
December 31, 2013			
Machinery and equipment ¹	\$ 18,985,828	\$ –	\$ 18,985,828
Furniture and office equipment	529,648	(501,190)	28,458
Leasehold improvements	41,190	(41,190)	–
Venezuelan property and equipment	171,445	(157,445)	14,000
Mineral property	275,010	–	275,010
	\$ 20,003,121	\$ (699,825)	\$ 19,303,296

¹ Represents the estimated net realizable value of equipment previously intended for use on the Brisas Project.

In April 2012 the Company entered into an Option Agreement with Soltoro Ltd. ("Soltoro") whereby Soltoro granted the Company the right to earn an undivided 51% interest in the La Tortuga Property located in Jalisco State, Mexico (the "Soltoro Agreement"). The Soltoro Agreement requires the Company to make aggregate option payments to Soltoro of \$650,000 as well as expend \$3 million on the property over 3 years. At completion of the earn-in a joint venture agreement will be formalized. The Company may subsequently exercise an option to acquire an additional 9% interest in the La Tortuga Property for \$2 million. As of March 31, 2013, the Company had recorded as mineral property a total of \$275,010 in option payments. The remaining option payments are \$150,000 due in June 2014 and \$225,000 due in April 2015. The Company's property, plant and equipment is located in the United States with the exception of mineral property which is in Mexico.

Note 7. KSOP Plan:

The KSOP Plan, adopted in 1990 for the benefit of employees, is comprised of two parts, (1) a salary reduction component, or 401(k) which includes provisions for discretionary contributions by the Company, and (2) an employee share ownership component, or ESOP. Allocation, if any, of common shares or cash to participants' accounts, subject to certain limitations, is at the discretion of the Company's board of directors. The fair market value of the shares when allocated is recorded in the statement of operations with a reduction of the KSOP debt account. Cash contributions for the Plan year 2013 were approximately \$172,000. As of March 31, 2014, no contributions had been made for plan year 2014.

-14-

Note 8. Stock Based Compensation Plans:Equity Incentive Plans

The shareholders approved on June 27, 2012, the 2012 Equity Incentive Plan (the "2012 Plan") to replace the Company's previous equity incentive plans: the 1997 Equity Incentive Plan (the "1997 Plan") and the 2008 Venezuelan Equity Incentive Plan (the "Venezuelan Plan"), both of which were terminated as they relate to future stock option grants. The 2012 Plan permits the grants of stock options of up to 10% of the issued and outstanding common shares of the Company on a rolling basis. As of March 31, 2014 there were 2,200,515 options available for grant. The Company provides newly issued shares to satisfy stock option exercises. The grants are made for terms of up to ten years with vesting periods as required by the TSXV and as may be determined by a committee established pursuant to the 2012 Plan, or in certain cases, by the Company's board of directors.

Share option transactions for the three months ended March 31, 2014 and 2013 are as follows:

	2014		2013	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Options outstanding - beginning of period	5,443,000	\$ 2.21	6,753,188
