Explanatory note

Gold Reserve Inc. (the "Company") is a Canadian issuer eligible to file its annual report pursuant to Section 13 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act"), on Form 40-F. The Company is a "foreign private issuer" as defined in Rule 3b-4 under the Exchange Act and in Rule 405 under the U.S. Securities Act of 1933, as amended (the "Securities Act"). Equity securities of the Company are accordingly exempt from Sections 14(a), 14(b), 14(c), 14(f) and 16 of the Exchange Act pursuant to Rule 3a12-3.

CAUTIONARY NOTE REGARDING differences in united states and canadian reporting practices

The Company is permitted, under a multi-jurisdictional disclosure system adopted by the United States and Canada, to prepare this Annual Report in accordance with Canadian disclosure requirements, which are different from those of the United States.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS AND INFORMATION

The information presented or incorporated by reference herein contains both historical information and "forward-looking statements" within the meaning of the relevant sections of Section 27A and Section 21E of the Exchange Act, and "forward-looking information" within the meaning of applicable Canadian securities laws, that state the Company's intentions, hopes, beliefs, expectations or predictions for the future. Forward-looking statements and forward-looking information are collectively referred to herein as "forward-looking statements".

In this Form 40-F, forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic, legal and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein and many of which are outside its control. Some of the material factors or assumptions used to develop forward-looking statements include, without limitation; the uncertainties associated with: the timing of the enforcement and collection of the amounts awarded (including pre and post award interest and legal costs) (the "Arbitral Award") by the International Centre for Settlement of Investment Disputes (the "ICSID") for the losses caused by Venezuela violating the terms of the treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT") related to the Brisas Project (the "Brisas Arbitration"), actions and/or responses by the Venezuelan government to the Company's collection efforts related to the Brisas Arbitration,

economic and industry conditions influencing the sale of the Brisas Project related equipment, and conditions or events impacting the Company's ability to fund its operations and/or service its debt.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to future results.

Numerous factors could cause actual results to differ materially from those described in the forward-looking statements, including without limitation:

- the timing of the enforcement and collection of the Arbitral Award (as defined herein), if at all;
- the costs associated with the enforcement and collection of the Arbitral Award and the complexity and uncertainty of varied legal processes in various international jurisdictions;
- the Company's current liquidity and capital resources and access to additional funding in the future when required;
- continued servicing or restructuring of the Company's outstanding notes or other obligations as they come due;
- shareholder dilution resulting from restructuring or refinancing the Company's outstanding notes and current accounts payable relating to the Company's legal fees;
- shareholder dilution resulting from the conversion of our outstanding notes in part or in whole to equity;
- shareholder dilution resulting from the sale of additional equity;
- value realized from the disposition of the remaining Brisas Project related assets, if any;
- value realized from the disposition of the Brisas Project Technical Mining Data (as defined herein), if any;
- prospects for exploration and development of other mining projects by the Company;
- ability to maintain continued listing on the TSX Venture Exchange or continued trading on the OTCQB;
- corruption, uncertain legal enforcement and political and social instability;
- currency, metal prices and metal production volatility;
- adverse U.S. and/or Canadian tax consequences;
- abilities and continued participation of certain key employees; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. See "Risk Factors" for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the U.S. Securities and Exchange Commission (the "SEC") or other securities regulators or documents presented on the Company's website. Forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information,

future events or otherwise, subject to the Company's disclosure obligations under applicable U.S. and Canadian securities regulations. Investors are urged to read the Company's filings with U.S. and Canadian securities regulatory agencies, which can be viewed online at www.sec.gov and www.sedar.com, respectively.

CURRENCY

Unless otherwise indicated, all references to "\$", U.S. \$ or "U.S. dollars" in this Annual Report refer to U.S. dollars and references to "Cdn\$" or "Canadian dollars" refer to Canadian dollars. The 12 month average rate of exchange for one Canadian dollar, expressed in U.S. dollars, for each of the last three calendar years equaled 0.9052, 0.9709 and 1.0006, respectively, and the exchange rate at the end of each such period equaled 0.8620, 0.9401 and 1.0042, respectively.

Principal Canadian Documents

Annual Information Form. The Company's Annual Information Form for the fiscal year ended December 31, 2014 is included herein as Exhibit 99.1

Audited Annual Financial Statements. The Company's audited consolidated financial statements for the fiscal year ended December 31, 2014, including the report of the auditors with respect thereto, are included herein as Exhibit 99.2.

Management's Discussion and Analysis. Management's discussion and analysis for the fiscal year ended December 31, 2014 is included herein as Exhibit 99.3.

DISCLOSURE CONTROLS AND PROCEDURES

An evaluation was performed under the supervision and with the participation of the Company's management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Annual Report. Based on that evaluation, the Company's management, including the chief executive officer and chief financial officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Annual Report to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act of 1934 is recorded, processed, summarized and reported within the time period specified in the SEC rules and forms.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management's Annual Report on Internal Control over Financial Reporting for the fiscal year ended December 31, 2014 is included herein as part of Exhibit 99.2.

Attestation Report of The Registered Public Accounting Firm

The required disclosure is included in the "Independent Auditor's Report" that accompanies the Company's audited consolidated financial statements for the fiscal year ended December 31, 2014, included herein as Exhibit 99.2.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

During the fiscal year ended December 31, 2014, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting (as defined in Rules 13(a)-15(f) and 15d-15(f) under the Exchange Act).

AUDIT COMMITTEE

The Board of Directors of the Company (the "Board") has a separately-designated standing Audit Committee for the purpose of overseeing the accounting and financial reporting processes of the Company and audits of the Company's annual financial statements. Mr. Chris Mikkelsen, a Certified Public Accountant and shareholder in Eide Bailly LLP previously served as the Chairman and audit committee financial expert. Mr. Mikkelsen resigned from the Board and

Edgar Filing: GOLD RESERVE INC - Form 40-F

the Audit Committee effective March 17, 2015. As at the date of the Annual Report, the following individuals comprise the entire membership of the Company's Audit Committee, which has been established in accordance with Section 3(a)(58)(A) of the Exchange Act:

Patrick McChesney (Chair)

Jean Charles Potvin

James P Geyer

The Company's Audit Committee's Charter can be found on the Company's website at www.goldreserveinc.com in the Investor Relations section under "Governance."

Form 40-F – Page 4

Independence. The Board has made the affirmative determination that all members of the Audit Committee are "independent" pursuant to the criteria outlined by the Canadian National Instrument 52-110 - Audit Committees and Rule 10A-3 of the Exchange Act.

Audit Committee Financial Expert. Mr. McChesney is a financial executive for an automotive sales group and has served in similar positions for a number of other companies. Mr. Potvin is a director and President of Flemish Gold Corp., has an MBA-Finance degree and was an investment analyst at Burns Fry Ltd for 13 years. Mr. Geyer has Bachelor of Science in Mining Engineering from the Colorado School of Mines, has 41 years of experience in underground and open pit mining and has held engineering and operations positions with a number of companies including AMAX and ASARCO.

The Board has determined that Mr. McChesney is an "audit committee financial expert" as such term is defined under Item 8(b) of General Instruction B to Form 40-F. The SEC has indicated that the designation of Mr. McChesney as an audit committee financial expert does not make Mr. McChesney an "expert" for any purpose, impose any duties, obligations or liabilities on Mr. McChesney that are greater than those imposed on other members of the Audit Committee and Board who do not carry this designation or affect the duties, obligations or liability of any other member of the Audit Committee.

CODE OF ETHICS

The Company has adopted a Code of Conduct and Ethics (the "Code") that is applicable to all its directors, officers and employees. The Code contains general guidelines for conducting the business of the Company. The Code was amended and approved by the Board effective March 24, 2006. No waivers to the provisions of the Code have been granted since its inception. The Company intends to disclose future amendments to, or waivers from, certain provisions of the Code on the Company's website within five business days following the date of such amendment or waiver. A copy of the Code can be found on the Company's website at www.goldreserveinc.com in the Investor Relations section under "Governance." The Company believes that the Code constitutes a "code of ethics" as such term is defined by Item 9(b) of General Instruction B to Form 40-F.

PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees. The aggregate fees billed for each of the last two fiscal years for professional services rendered by the Company's independent auditors, PricewaterhouseCoopers LLP ("PwC"), for the audit of the Company's annual financial statements or services that are normally provided in connection with statutory and regulatory filings or engagements for 2014 and 2013 were \$124,511 and \$60,152, respectively.

Audit-Related Fees. The aggregate fees billed in each of the last two fiscal years for assurance and related services rendered by PwC that were connected with the Company's quarterly reports and securities filing documents not otherwise reported under "Audit Fees" above for 2014 and 2013 were \$51,579 and \$60,181, respectively.

Tax Fees. The aggregate fees billed in each of the last two fiscal years for professional services rendered by PwC for tax planning, compliance and return preparation services for 2014 and 2013 were \$8,311 and \$5,855, respectively.

All Other Fees. None.

Audit Committee Services Pre-Approval Policy

The Company's Audit Committee is responsible for the oversight of its independent auditor's work and pre-approves all services provided by PwC. Audit Services and Audit-Related Services rendered in connection with the annual financial statements and quarterly reports are presented to and approved by the Audit Committee typically at the beginning of each year. Audit-Related Services other than those rendered in connection with the quarterly reports and Tax services provided by PwC are typically approved individually during the Committee's periodic meetings or on an as-needed basis. The Audit Committee's Chair is authorized to approve such services in advance on behalf of the Committee with such approval reported to the full Audit Committee at its next meeting. The Audit Committee sets forth its pre-approval and/or confirmation of services authorized by the Audit Committee Chair in the minutes of its meetings.

OFF-BALANCE SHEET ARRANGEMENTS

The Company is not a party to any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on the Company's financial condition, changes in financial condition, revenues, and expenses, results of operations, liquidity, capital expenditures or capital resources.

CONTRACTUAL OBLIGATIONS

The following table sets forth information on the Company's material contractual obligation payments for the periods indicated as of December 31, 2014. For further details see "Management's Discussion and Analysis" and Note 11 to the audited consolidated financial statements.

Contractual Obligations Years	Payments due by Period				
	Total	Less than 1 Year	1-3 Years	4-5 Years	5 Years
Convertible Notes ^{1, 2} 1,042,000	\$ 38,350,000	\$ 37,308,000	\$ -	\$ -	\$ -
Interest Notes ² -	6,754,086	6,754,086	-	-	-
Interest 114,620	429,825	57,310	114,620	-	-
143,275					
Total 1,185,275	\$ 45,533,911	\$ 44,119,396	\$ 114,620	\$ 114,620	\$ -

1 Includes \$37,308,000 principal amount of 11% convertible notes due December 31, 2015 and \$1,042,000 principal amount of 5.50% convertible notes due June 15, 2022. Subject to certain conditions, the notes may be converted into Class A common shares of the Company, redeemed or repurchased. The amounts shown above include the interest and principal payments due unless the notes are converted, redeemed or repurchased prior to their due date (See Note 11 to the audited consolidated financial statements).

The convertible notes consist of \$25,308,000 of notes issued in 2012 pursuant to the 2012 Restructuring (as defined herein) and subsequently extended and amended pursuant to the 2014 Restructuring (as defined herein) (the "Modified Notes"); \$12,000,000 of notes issued in 2014 pursuant to the 2014 Restructuring (the "New Notes") and \$1,042,000 of notes originally issued in May 2007 and still outstanding (the "Old Notes"). Interest Notes consist of interest at 11% per year due on the Modified Notes and the New Notes which is accrued and paid quarterly in the form of a note which is payable in cash at maturity.

The 2012 Restructuring refers to the exchange by the Company and the holders of \$102.3 million of Old Notes for \$33.8 million cash, 12,412,501 Class A common shares, modified notes with a face value of \$25.3 million ("Modified Notes") and contingent value rights ("CVR's") totaling 5.468% of any future proceeds, net of certain deductions.

The 2014 Restructuring refers to the extension of the maturity date of the \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015, the issuance of \$12 million of New Notes also maturing December 31, 2015. The interest paid on the Modified Notes was increased to 11% from 5.5% to be consistent with the interest paid on the New Notes.

2 The amount recorded as convertible notes and interest notes in the consolidated balance sheet as of December 31, 2014 is comprised of \$34.4 million carrying value of Modified Notes, New Notes and Interest Notes (all due on December 31, 2015) issued pursuant to the 2014 Restructuring and \$1.0 million of Old Notes (due June 15, 2022) held by other note holders who declined to participate in the 2012 Restructuring. The carrying value of notes will be accreted to face value using the effective interest rate method over the expected life of the notes with the resulting charge recorded as interest expense.

UNDERTAKING AND CONSENT TO SERVICE OF PROCESS

The Company undertakes to make available, in person or by telephone, representatives to respond to inquiries made by the SEC staff, and to furnish promptly, when requested to do so by the SEC staff, information relating to: the securities registered pursuant to Form 40-F; the securities in relation to which the obligation to file an annual report on Form 40-F arises; or transactions in said securities.

The Company previously filed an Appointment of Agent for Service of Process and Undertaking on Form F-X signed by the Company and its agent for service of process on May 7, 2007 with respect to the class of securities in relation to which the obligation to file this Annual Report on Form 40-F arises.

SIGNATURES

Pursuant to the requirements of the Exchange Act, the Registrant certifies that it meets all of the requirements for filing on Form 40-F and has duly caused this annual report to be signed on its behalf by the undersigned, thereto duly authorized.

GOLD RESERVE INC.

Introductory Notes

The Company

In this Annual Information Form, the terms "we," "us," "our," "Gold Reserve" and the "Company" refer to Gold Reserve Inc. and its consolidated subsidiaries and affiliates, unless the context requires otherwise. When appropriate capitalized terms are defined herein.

Gold Reserve, an exploration stage company, is engaged in the business of acquiring, exploring and developing mining projects. The Company was incorporated in 1998 under the laws of the Yukon Territory, Canada and continued to Alberta, Canada in September 2014. The Company is the successor issuer to Gold Reserve Corporation which was incorporated in 1956. The Company has only one operating segment, the exploration and development of mineral properties.

In February 1999, each Gold Reserve Corporation shareholder exchanged its shares for an equal number of Gold Reserve Inc. Class A common shares except in the case of certain U.S. holders who for tax reasons elected to receive equity units (each an "Equity Unit") in lieu of Gold Reserve Inc. Class A common shares. Each Equity Unit comprises one Gold Reserve Inc. Class B common share and one Gold Reserve Corporation Class B common share and is substantially equivalent to a Class A common share. At December 31, 2014, there were 100 Equity Units outstanding. General references to common shares of the Company include Class A common shares and Equity Units as a group.

The Company's recent activities have included:

§ concluding its arbitration claim (the "Brisas Arbitration") against Venezuela in connection with the seizure of the Company's Brisas Project through the issuance by the tribunal (the "ICSID Tribunal" or "Tribunal") of the International Center for Investment Disputes (the "ICSID") of an arbitral award (the "Arbitral Award" or "Award") on September 22, 2014 and reconfirmation on December 15, 2014;

§ pursuing any and all means to ensure timely payment of the Arbitral Award by the government of Venezuela and identifying appropriate assets that might be seized or attached in satisfaction of the Arbitral Award;

§ negotiating and closing an agreement to extend the maturity date of \$25.3 million aggregate principal amount of convertible notes (the "Modified Notes") from June 29, 2014 to December 31, 2015, issue \$12 million of new notes (the "New Notes") also maturing December 31, 2015 and agreeing to pay future interest on the Modified and New Notes at 11% interest in the form of a note (the "Interest Notes") payable in cash at maturity on December 31, 2015;

§ pursuing all efforts to sell the remaining Brisas Project related assets; and

§ evaluating other exploration mining prospects.

The Company has no commercial production and, as a result, continues to experience losses from operations, a trend the Company expects to continue unless the Company collects, in part or whole, the Arbitral Award and/or acquires and develops a mineral project which results in positive results from operations.

Historically the Company has financed its operations through the issuance of common stock, other equity securities and debt. Funds necessary for on-going corporate activities to pursue the collection of the Arbitral Award, future investments and/or transactions if any, cannot be precisely determined at this time and are subject to available cash,

Edgar Filing: GOLD RESERVE INC - Form 40-F

proceeds related to the sale of remaining Brisas Project equipment, future financings and cash received from the collection of the Arbitral Award, if any. To continue operations into future periods the Company will need to re-finance, and/or re-structure its debt due December 31, 2015.

The Company currently employs eight individuals. The Company's Class A common shares are listed for trading on the TSX Venture Exchange (the "TSXV") and the OTCQB under the symbol "GRZ.V" and "GDRZF", respectively.

The Company's registered agent is Norton Rose Fulbright Canada LLP, 400 3^d Avenue SW, Suite 3700, Calgary, Alberta T2P 4H2, Canada. Telephone and fax numbers for the Company's registered agent are 403.267.8222 and 403.264.5973, respectively. The Company's administrative office is located at 926 West Sprague Avenue, Suite 200, Spokane, WA 99201, U.S.A. and its telephone and fax numbers are 509.623.1500 and 509.623.1634, respectively.

Exhibit 99.1 Annual Information Form - Page 3

Financial Reporting

The Company maintains its accounts in U.S. dollars and prepares its financial statements in accordance with accounting principles generally accepted in the United States. The audited consolidated financial statements of the Company for December 31, 2014 are incorporated by reference in this Annual Information Form and are available for review under the Company's profile at www.sedar.com and www.sec.gov. All information in this Annual Information Form is as of April 24, 2015, unless otherwise noted.

Currency

Unless otherwise indicated, all references to "\$", U.S. \$ or "U.S. dollars" in this Annual Information Form refer to U.S. dollars and references to "Cdn\$" or "Canadian dollars" refer to Canadian dollars. The 12 month average rate of exchange for one Canadian dollar, expressed in U.S. dollars, for each of the last three calendar years equaled 0.9052, 0.9709 and 1.0006, respectively, and the exchange rate at the end of each such period equaled 0.8620, 0.9401 and 1.0042, respectively.

Cautionary Statement Regarding Forward-Looking Statements and Information

The information presented or incorporated by reference herein contains both historical information and "forward-looking statements" within the meaning of the relevant sections of Section 27A and Section 21E of the Exchange Act, and "forward-looking information" within the meaning of applicable Canadian securities laws, that state the Company's intentions, hopes, beliefs, expectations or predictions for the future. Forward-looking statements and forward-looking information are collectively referred to herein as "forward-looking statements".

In this Annual Information Form, forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic, legal and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein and many of which are outside its control.

Some of the material factors or assumptions used to develop forward-looking statements include, without limitation; the uncertainties associated with: the timing of the enforcement and collection of the amounts awarded (including pre and post award interest and legal costs) (the "Arbitral Award") by the International Centre for Settlement of Investment Disputes (the "ICSID") for the losses caused by Venezuela violating the terms of the treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT") related to the Brisas Project (the "Brisas Arbitration"), actions and/or responses by the Venezuelan government to the Company's collection efforts related to the Brisas Arbitration, economic and industry conditions influencing the sale of the Brisas Project related equipment, and conditions or events impacting the Company's ability to fund its operations and/or service its debt.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to

future results.

Numerous factors could cause actual results to differ materially from those described in the forward-looking statements, including without limitation:

- the timing of the enforcement and collection of the Arbitral Award (as defined herein), if at all;
- the costs associated with the enforcement and collection of the Arbitral Award and the complexity and uncertainty of varied legal processes in various international jurisdictions;
- the Company's current liquidity and capital resources and access to additional funding in the future when required;
- continued servicing or restructuring of the Company's outstanding notes or other obligations as they come due;
- shareholder dilution resulting from restructuring or refinancing the Company's outstanding notes and current accounts payable relating to the Company's legal fees;
- shareholder dilution resulting from the conversion of our outstanding notes in part or in whole to equity;
- shareholder dilution resulting from the sale of additional equity;

Exhibit 99.1 Annual Information Form - Page 4

- value realized from the disposition of the remaining Brisas Project related assets, if any;
- value realized from the disposition of the Brisas Project Technical Mining Data (as defined herein), if any;
- prospects for exploration and development of other mining projects by the Company;
- ability to maintain continued listing on the TSX Venture Exchange or continued trading on the OTCQB;
- corruption, uncertain legal enforcement and political and social instability;
- currency, metal prices and metal production volatility;
- adverse U.S. and/or Canadian tax consequences;
- abilities and continued participation of certain key employees; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. See "Risk Factors" for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the U.S. Securities and Exchange Commission (the "SEC") or other securities regulators or documents presented on the Company's website. Forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to the Company's disclosure obligations under applicable U.S. and Canadian securities regulations. Investors are urged to read the Company's filings with U.S. and Canadian securities regulatory agencies, which can be viewed online at www.sec.gov and www.sedar.com, respectively.

Corporate Structure

The Company (domiciled in Alberta, Canada) conducts its business primarily through its wholly-owned subsidiaries. The following table lists the names of the subsidiaries, the Company's ownership in each subsidiary and each subsidiary's jurisdiction of incorporation or organization.

Subsidiary	Ownership	Domicile
Gold Reserve Corporation	100%	Montana USA
Gold Reserve de Barbados Ltd	100%	Barbados
Gold Reserve de Venezuela, CA	100%	Venezuela
Compania Aurifera Brisas del Cuyuni, CA	100%	Venezuela
GR El Choco Limited	100%	Barbados
GRI Minerales El Choco CA	100%	Venezuela

Edgar Filing: GOLD RESERVE INC - Form 40-F

Montoro Mining Ltd	100%	Yukon
Minera Gold Reserve, S.A. de C.V.	100%	Mexico
Compania Minera Unicornio CA	100%	Venezuela

GENERAL Development and description of the BUSINESS

Gold Reserve is an exploration stage mining company, engaged in the business of acquiring, exploring and developing mining projects. The Company has been involved in other significant activities during 2014:

- completing the award phase of the Brisas Arbitration more fully described below;
- pursuing any and all legal means to enforce the Arbitral Award and ensure timely payment by the government of Venezuela of the Award including identifying assets in various jurisdictions that may be attached to satisfy payment of the award;
- continuing negotiations with representatives of Venezuela to amicably resolve the payment of the Arbitral Award;
- completing a restructuring of the terms and maturity date of our \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issuing \$12 million of New Notes also maturing December 31, 2015; and
- continuing efforts to sell the remaining Brisas Project related assets and evaluating mineral prospects.

Brisas Arbitral Award

In October 2009, Gold Reserve initiated a claim (the "Brisas Arbitration") under the Additional Facility Rules of the ICSID of the World Bank to seek compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT"). (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1).

The September 22, 2014 ICSID Arbitral Award

On September 22, 2014, the ICSID Tribunal unanimously awarded to the Company the Arbitral Award totaling (i) \$713 million in damages, plus (ii) pre-award interest from April 2008 through the date of the Award based on the U.S. Government Treasury Bill Rate, compounded annually totaling, as of the date of the Award, approximately \$22.3 million and (iii) \$5 million for legal costs and expenses, for a total, as of September 22, 2014, of \$740.3 million. The Award (less legal costs and expenses) accrues post-award interest at a rate of LIBOR plus 2%, compounded annually, which currently approximates \$52,000 per day.

An ICSID Additional Facility Award is enforceable globally in jurisdictions that allow for the recognition and enforcement of commercial arbitral awards. There exists an international instrument created for the purpose of facilitating such recognition and enforcement, the United Nations Convention for the Recognition and Enforcement of Foreign Arbitral Awards (June 10, 1958), 21 U.S.T. 2517, 330 U.N.T.S. 38 (the "New York Convention") to which over 150 countries, including the United States, are a party. Under the New York Convention, arbitral awards may be recognized as a judgment of the court and execution may be done by attaching assets belonging to the award debtor.

Payment Demand Letter

Subsequent to the issuance of the Arbitral Award, Gold Reserve sent a demand letter to Venezuela and commenced efforts to ensure the enforcement and collection of the Award. Shortly thereafter, representatives from Venezuela and the Company met in the first of several meetings to discuss the satisfaction of the Award. No agreement has been reached to-date. Although the Company currently believes that Venezuela will ultimately honor its international obligations, there can be no assurances in this regard and management anticipates that Venezuela will make every effort to challenge the validity and/or amount of the Arbitral Award in the near term and vigorously oppose any action the Company may take in the various jurisdictions around the world to effect full enforcement and payment of the Award. Management is pursuing any and all means to ensure timely payment by the government of Venezuela and is fully engaged in executing its strategy to ensure the recognition and collection of the Arbitral Award.

The Company remains firmly committed to the enforcement and collection of the Arbitral Award including accrued interest in full and will continue to vigorously pursue all available remedies accordingly in every jurisdiction where it perceives that it can draw a benefit that will bring it closer to the collection of the Arbitral Award.

The December 15, 2014 Reconfirmation of Arbitral Award

The ICSID Additional Facility Arbitration Rules allow only three types of post-award remedies –interpretation (Article 55), correction (Article 56), and supplementary decisions (Article 57). Each of these procedures must be initiated within 45 days of the issuance of an award for any further remedy before the ICSID Tribunal.

Within the 45 day time period, both Venezuela and the Company filed requests for the ICSID Tribunal to correct what each party identified as "clerical, arithmetical or similar errors" in the Award as is permitted by Article 56 of the

arbitration rules of ICSID's Additional Facility ("Article 56"). Article 56 does not permit reconsideration by the Tribunal of any aspect of its award and does not permit correction to an error of judgment. Rather, it permits the Tribunal to correct inadvertent arithmetic or typographical errors. While the Company identified what it considered an inadvertent arithmetic error that warranted an increase in the Award of approximately \$50 million, Venezuela identified what it contended were significant inadvertent arithmetic errors that it argued supported a reduction of the Award by approximately \$361 million (more than 50% of the original Award). On November 13, 2014, the Company and Venezuela submitted replies to each party's request for corrections of the Award.

After considering both parties' submissions the Tribunal, on December 15, 2014, denied both parties' requests for correction and reaffirmed, in a written decision, the Award originally rendered in favor of Gold Reserve on September 22, 2014 (the "December 15th Decision"). The conclusion of this proceeding marked the end of the Tribunal's jurisdiction with respect to the Award.

Legal Activities in France

The Award was issued by a Tribunal constituted pursuant to the arbitration rules of ICSID's Additional Facility and, by agreement of the parties, the seat of the Tribunal was in Paris. As a consequence, the Award is subject to review by the French courts.

Requests for Annulment

Application for Annulment of the September 22, 2014 ICSID Arbitral Award

Accordingly, in late October 2014, Venezuela filed an application before the Paris Court of Appeal, declaring its intent to have the September 2014 Award annulled or set aside. Under French law, the annulment of an award is only available in very limited circumstances, intended primarily for cases in which the petitioner can demonstrate that the Tribunal exceeded its powers, denied the parties due process in the arbitration, or issued an award that somehow offends against international public order (the term used in American legal terminology is "public policy"). This procedure does not permit a review on the merits of the Award, or to re-try the case heard by the Tribunal.

Under the applicable rules of procedure, Venezuela had 5 months, or until March 20, 2015, to state its case relating to the annulment or setting aside of the Award, which it did on March 20, 2015. Amongst other things, Venezuela argued that the Tribunal lacked jurisdiction, violated its fundamental procedural rights, exceeded its mandate (or mission) and violated international public order (or policy).

According to the schedule established by the Paris Court of Appeal, written pleadings are to be closed by October 15, 2015 and the hearing of Venezuela's application to annul is to take place on November 3, 2015. The application will be heard by a panel of three judges from Division 1 of the Court's *Pôle 1*, which is the division whose judges specialize in international and arbitration disputes. At this stage, the Company expects that a judgment on Venezuela's application will be rendered before the end of the year, although this is a matter over which the Company has no control

Application for Annulment of the December 15, 2014 Reconfirmation of Arbitral Award

Venezuela has filed before the Paris Court of Appeal another application to annul an arbitral award, the December 15th Decision of the Tribunal dismissing Venezuela's motion to correct the Award pursuant to which Venezuela was alleging that through various "clerical, arithmetical or similar errors", the Tribunal had incorrectly awarded the Company an excess of \$361 million in damages (see December 15, 2014 Reconfirmation of Arbitral Award above). The process will be the same as in the annulment proceedings related to the September 22, 2014 Award with the Court establishing a pleading and hearing schedule after Venezuela files its case on or before June 5, 2015.

The existence of the annulment proceedings of the September 22, 2014 Award, and/or the December 15, 2014 reconfirmation of the Award, does not affect the finality of the Award or its enforceability in the interim.

Petition for *Exequatur*

In early November 2014, the Company filed a petition before the Paris Court of Appeal, the same court handling Venezuela's application for annulment, to obtain an order of *exequatur* for the recognition of the Company's Award as a judgment of the Court. An *exequatur* renders an award enforceable as a judgment of the Court of Appeal. Venezuela filed a submission opposing the Company's request for *exequatur* and, in the alternative, requested a stay of execution pending the determination of its application for annulment of the Award. On January 8, 2015, the Paris Court of

Appeal heard oral submissions by the parties regarding the Company's petition for *exequatur* and Venezuela's request to stay execution.

On January 29, 2015, the Paris Court of Appeal granted the Company's petition for *exequatur*. Moreover, the Court dismissed Venezuela's request to stay the execution of the Award pending the outcome of its application to annul the Award, holding that none of the grounds alleged by Venezuela (including the lack of jurisdiction of the Tribunal, the violation of international public order, or alleged errors in the calculation of the damages awarded) constituted a sufficient reason to stay the execution of the Award pending the annulment proceedings.

The Paris Court of Appeal's decision to recognize the Company's Award as a judgment of the Court is of particular significance as it was rendered following a full hearing of the parties, by a court of appeal which is recognized internationally for its expertise on arbitration matters. The Company's management believes the decision will be useful to assist management in the enforcement proceedings it has instituted in other jurisdictions including, in particular, the United States, and should limit the ability of Venezuela to delay unduly the enforcement of the Arbitral Award.

The *exequatur* or recognition of the Company's ICSID Award as a judgement of the Court, granted on January 29, 2015, is not appealable and remains in full force and effect since Venezuela was denied its motion to stay the execution of the Award.

Legal Activities in US District Court for the District of Columbia

On November 26, 2014 the Company filed, in the US District Court for the District of Columbia ("DDC"), a petition to confirm the Award dated September 22, 2014. The petition for confirmation is a summary proceeding brought under the New York Convention and Chapter 2 of the Federal Arbitration Act ("FAA"), 9 U.S.C. §§ 201 et seq. Once the Award is confirmed it will be enforceable in the United States as a judgment of the court.

Under the New York Convention and FAA, the confirming court is not entitled to review the merits of the decision but simply to verify that the arbitral award meets the requirements of the Convention, and that no exception to the Convention's rule of recognition and enforcement is present. Accordingly, an arbitral award, such as the present Award, must be confirmed, unless the award debtor, who opposes the confirmation, satisfies the confirming court by adducing sufficient proof that:

(a) the parties to the arbitration agreement were, under the law applicable to them, under some incapacity, or the said agreement is not valid under the law to which the parties have subjected it or, failing any indication thereon, under the law of the country where the award was made; (b) the party against whom the award is invoked was not given proper notice of the appointment of the arbitrator or of the arbitration proceedings or was otherwise unable to present his case; (c) the award deals with a difference not contemplated by or not falling within the terms of the submission to arbitration, or it contains decisions on matters beyond the scope of the submission to arbitration; (d) the composition of the arbitral authority or the arbitral procedure was not in accordance with the agreement of the parties, or, failing such agreement, was not in accordance with the law of the country where the arbitration took place; or (e) the award has not yet become binding on the parties, or has been set aside or suspended by a competent authority of the country in which, or under the law of which, that award was made.

Confirmation of an arbitral award such as the Award may also be refused under the New York Convention if the confirming court finds that: (a) the subject matter of the difference is not capable of settlement by arbitration under the law of the United States; or (b) the confirmation of the Award would be contrary to the public policy of the United States.

The initial step for the proceeding was to serve Venezuela with the petition and other related documents. Once served, Venezuela had 60 days to respond with any arguments it believed it had against the petition to confirm. Since the inception of these proceedings, Venezuela willfully avoided service, refused, among other things, to authorize its U.S. counsel to accept service and otherwise contested the validity of service, raising non-meritorious and irrelevant objections to service.

As a result of that refusal to accept service, on December 31, 2014, the Company initiated service in accordance with the statutory provision of the United States Code, and the Hague Convention on the Service Abroad of Judicial and Extrajudicial Documents in Civil or Commercial Matters.

Receipt of the documents on January 8, 2015, was acknowledged by letter from the Venezuelan Foreign Ministry dated January 26, 2015, but only received by the Company's process server on March 2, 2015. In this letter, however, Venezuela contested the validity of the service, raising non-meritorious and irrelevant objections to service. Therefore, the Company believed Venezuela was properly served on January 8, 2015.

As a result, and at the expiry of the 60-day period following the service of the documents, the Company, on March 26, 2015, requested the Clerk of the DDC to enter default against Venezuela, on the basis that the documents had been duly received by the proper recipient of the service process. The Clerk agreed with the position of the Company and entered default on March 27, 2015.

The consequence of the default being entered against Venezuela in respect of appearance was that Venezuela had to contend with the potential threat of a default judgment being entered against it upon motion by the Company. To avoid this, U.S. counsel appointed by Venezuela (the same counsel in the ICSID arbitration) entered an appearance, after close of business on March 27, 2015, the same day that the default was entered, for the purpose of opposing the entry of default and requesting that it be set aside.

Filing by the Company of a response to Venezuela's opposition and subsequent discussions between the parties led Venezuela to agree, on April 15, 2015, to accept service of Gold Reserve's Petition to confirm the Award and further agree to respond to the Petition within sixty (60) days of the agreed service date, i.e., on or before June 12, 2015. As part of the agreement Gold Reserve agreed to vacate the clerk's entry of default entered on March 27, 2015 against Venezuela. The agreement has been recorded in an Order of the DDC dated April 15, 2015.

The Company's intention is to move expeditiously towards obtaining confirmation of the Award in the U.S. and consider enforcement options in due course.

Legal Activities in Luxembourg

On October 28, 2014, the Company filed for and was granted an *exequatur* (recognition and execution) of the Award by Tribunal d'arrondissement de et à Luxembourg. As a result, in Luxembourg the Award is declared enforceable in the same manner as if it were a judgment handed down by a court of the Grand Duchy of Luxembourg and allows the Company to proceed with conservatory actions against Venezuela's assets in the Grand Duchy of Luxembourg.

On January 12, 2015, Venezuela filed a notice of appeal of this decision in the Cour d'appel de Luxembourg (the "Luxembourg Court of Appeal"), reiterating, for the most part, the arguments made before, and dismissed by, the Paris Court of Appeal, to oppose the Company's petition for *exequatur*. In addition, Venezuela raised some other argument of form specific to Luxembourg law, alleging non-compliance with language requirements of certain exhibits and of the *exequatur* order itself, which, the Company believes, are dilatory, meritless and contradicted by the Court record. In addition, Venezuela is asking for a stay of execution pending the determination of its application to annul the Award before the Paris Court of Appeal.

The Luxembourg Court of Appeal recently issued a scheduling direction, dividing Venezuela's arguments in two and ordering that the arguments on form and the request for stay of execution be heard together, on May 21, 2015. In accordance with the scheduling direction, the Company filed its response to Venezuela's first set of arguments, on March 16, 2015.

Following the granting of the *exequatur*, the Company, on several occasions, served on various Luxembourg banks the equivalent of writs of garnishment relating to over US \$700 million interest payments on Venezuela sovereign bonds and any other funds owned by Venezuela. These banks were chosen because they are designated as paying agents or transfer agents in listing memoranda relating to various bonds issued by Venezuela and listed on the Luxembourg Stock Exchange. So far, the banks have denied holding funds for the account of Venezuela, which appears to contradict the information contained in the listing memoranda. As a result, the Company intends to have the issue determined by the appropriate court or judge having jurisdiction in Luxembourg over such matters.

Venezuela's Intent to Develop the Brisas/Las Cristinas Mine

Historically Venezuela has publicly stated its intent to develop the Brisas Project and contiguous areas and has reportedly had discussions with one or more major corporations for initial studies related to the development and eventual construction of the Brisas or Brisas-Cristinas mine as a large gold-copper complex. In December 2013, the Venezuelan government granted the gold exploration and mining rights in three areas located in Bolivar State (including the area of the Brisas gold and copper deposit) valued at \$30 billion to Empresa Nacional Aurifera, S.A. ("ENA"), a subsidiary of the Venezuelan State-owned oil company Petróleos de Venezuela, S.A. ("PDVSA") and concurrently ENA sold a 40% interest to Venezuela's central bank, Banco Central de Venezuela (BCV) for an estimated \$12 billion allowing PDVSA to offset promissory notes payable to BCV totaling \$21.5 billion and record a gain on the transaction of approximately \$9.5 billion. Gold Reserve is prepared to assist Venezuela to find a joint solution that would include the transfer of the extensive technical data related to the development of the Brisas Project that was compiled by the Company. This would allow PDVSA, ENA, BCV and their contractor/consultants to develop Brisas on an accelerated basis for the benefit of Venezuela, with appropriate compensation for the Company apart from the collection of any payments associated with the Award.

The Company's Intent to Distribute Collection of the Arbitral Award to Shareholders

Subject to applicable regulatory requirements regarding capital and reserves for operating expenses, accounts payable and income taxes, and any obligations arising as a result of the collection of the ICSID Award including payments

Edgar Filing: GOLD RESERVE INC - Form 40-F

pursuant to the terms of the convertible notes (if not otherwise converted), Interest Notes, CVR's, Bonus Plan and Retention Plan (all as defined herein) or undertakings made to a court of law, the Company's current plans are to distribute to its shareholders, in the most cost efficient manner, a substantial majority of any net proceeds.

Exhibit 99.1 Annual Information Form - Page 9

Obligations Due Upon Collection of Arbitral Award and Sale of Brisas Technical Mining Data

The Board of Directors (the "Board") approved a Bonus Pool Plan ("Bonus Plan") in May 2012, which is intended to reward the participants, including executive officers, employees, directors and consultants, for their past and future contributions including their efforts related to the development of the Brisas Project, execution of the Brisas Arbitration and the collection of an award, if any. The bonus pool under the Bonus Plan will generally be comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes times 1% of the first \$200 million and 5% thereafter. Participation in the Bonus Plan vests upon the participant's selection by the Committee of independent directors, subject to voluntary termination of employment or termination for cause. The Company also maintains the Gold Reserve Director and Employee Retention Plan (see Note 9 to the audited consolidated financial statements). Units ("Retention Units") granted under the plan become fully vested and payable upon: (1) collection of proceeds from the Arbitral Award and/or sale of mining data and the Company agrees to distribute a substantial majority of the proceeds to its shareholders or, (2) the event of a change of control. The Company currently does not accrue a liability for the Bonus or Retention Plan as events required for payment under the Plans have not yet occurred.

The Company has outstanding contingent value rights ("CVR's") which entitles each note holder that participated in the 2012 Restructuring (as defined herein) to receive, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), a pro rata portion of a maximum aggregate amount of 5.468% of the proceeds actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the technical data related to the development of the Brisas Project that was compiled by the Company (the "Brisas Project Technical Mining Data"). The proceeds, if any, could be cash, commodities, bonds, shares and/or any other consideration received by the Company and if such proceeds are other than cash, the fair market value of such non-cash proceeds, net of any required deductions (e.g., for taxes) will be subject to the CVR's and will become an obligation of the Company only as the Arbitral Award is collected.

Included in accounts payable is approximately \$2.9 million which represents legal fees deferred during the arbitration but now payable as a result of the Arbitral Award. In addition, the Company is obligated to pay contingent legal fees of approximately \$1.7 million due upon the collection of the Award.

Convertible Notes Restructuring:

In May 2007, the Company issued \$103.5 million aggregate principal amount of 5.5% Senior Subordinated Convertible Notes ("Old Notes"), of which \$102.3 million remained outstanding prior to June 15, 2012. On May 16, 2012, the Company notified the holders of Old Notes that they had the right to require the Company to purchase all or a portion of their Old Notes on June 15, 2012 and that, pursuant to a negotiated agreement with the largest note holders, the Company would pay, in cash, any such notes validly surrendered of which holders of Old Notes elected to surrender approximately \$16.9 million of the Old Notes leaving a remaining balance of approximately \$85.4 million.

Subsequently, in the fourth quarter of 2012, the Company restructured debt covering the remaining outstanding debt totaling \$85.4 million (the "2012 Restructuring"). Holders of an aggregate principal amount of \$84.4 million of Old Notes elected to participate in the 2012 Restructuring and \$1.0 million of Old Notes declined to participate. Pursuant to the 2012 Restructuring, the Company paid \$16.9 million cash, issued 12,412,501 Class A common shares, issued notes with a face value of \$25.3 million (the "Modified Notes") and issued CVR's totaling 5.468% of any future proceeds, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the Brisas Project Technical Mining Data.

Edgar Filing: GOLD RESERVE INC - Form 40-F

During the second quarter of 2014, the Company, among other terms, extended the maturity date of its \$25.3 million aggregate principal amount of Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million of New Notes also maturing December 31, 2015, net of costs of approximately \$1.3 million (the "2014 Restructuring "). The Modified Notes were amended to be consistent with the terms of the New Notes. (See Note 11 to the audited consolidated financial statements).

Exhibit 99.1 Annual Information Form - Page 10

Private Placement in 2013

During the third quarter of 2013, the Company closed a private placement for gross proceeds totaling \$5.25 million (\$5.0 million net of expenses). The private placement consisted of 1,750,000 units comprised of one Class A common share and one-half of one Class A common share purchase warrant, with each whole warrant exercisable by the holder for a period of two years after its issuance to acquire one Class A common share at a price of \$4.00 per share. A shareholder with control or direction over more than 10% of the Company's common shares prior to the private placement acquired an aggregate 1.5 million units which were issued to affiliated funds controlled by the investor and as a result, this portion of the private placement was considered to be a related party transaction. The proceeds were used for general working capital purposes.

La Tortuga Property

In April 2012, Soltoro Ltd. granted the Company the right to earn an undivided 51% interest in the 11,562 hectare La Tortuga property, a copper and gold prospect located in Jalisco State, Mexico, by making an aggregate \$3.65 million in option payments and property expenditures over three years. Over approximately a two year period the Company compiled data, completed a number of studies on the property and made option payments totaling \$0.4 million (including a \$0.15 million property payment made in 2014). During this period, the Mexican authorities changed its focus on environmental reviews and approvals which caused the Environment Ministry (SEMARNAT – Secretaria del Medio Ambiente y Recursos Naturales) to require the Company to resubmit its drilling permit application, expand its environmental baseline study and add additional other items. The perceived change related to the Mexican government's posture towards mining led management and the Board to conclude that continued investment in the property was no longer warranted and as a consequence the Company expensed all previously capitalized costs as of June 30, 2014 and formally terminated its option on the property in August 2014.

The Company continues to evaluate exploration prospects with a focus on, among other things, location, the mineralized potential, economic factors, the level and quality of previous work completed, if any, on the prospect.

The Company is focused on prospects that are located in a politically friendly jurisdiction which has clear and well established mining, tax and environmental laws and an experienced mining authority.

Risk Factors

Set out below are certain risk factors that could materially adversely affect the future business, operating results or financial condition of the Company. Investors should carefully consider these risk factors and the other risk factors and information in this Annual Information Form and the Company's filings with U.S. and Canadian securities regulators, before making investment decisions involving the Company's common shares. The following risk factors, as well as risks not currently known to the Company, could adversely affect the Company's future business, operations and financial condition and could cause future results to differ materially from the estimates described in forward-looking statements relating to the Company.

Risks Related to Collection of Arbitral Award

Failure to collect the Award could adversely affect the Company.

In October 2009, Gold Reserve initiated the Brisas Arbitration under the Additional Facility Rules of the ICSID of the World Bank to seek compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Canada-Venezuela BIT. On September 22, 2014, the ICSID Tribunal unanimously awarded damages to the Company totaling \$740.3 million, plus post-award interest at a rate of LIBOR

plus 2%. The cost of pursuing collection of the Award could be substantial and there is no assurance that we will be successful. Failure to collect adequate compensation for the expropriation of the Brisas Project could materially adversely affect the Company.

The Company cannot predict when or if the Arbitral Award will be collected either partially or in full.

We understand that numerous pending arbitration actions are being pursued against Venezuela at this time before the ICSID (See ICSID website at icsid.worldbank.org/ICSID/) and further understand that Venezuela historically has reportedly settled and/or made full or partial payment for damages to a limited number of claimants. ICSID arbitrations are non-public proceedings and, as a result, we have no specific information regarding the actual amounts paid or what percentage such payments represented of the original claim against Venezuela or the timing of such payments. We do not have a basis upon which to estimate the timing or the likelihood of collection of the Arbitral Award, if any. Accordingly, there can be no assurances that the Award will be collected or settled, in whole or in part, within any specific or reasonable period of time.

Risks Relating to the Sale of the Brisas Project Technical Mining Data

Failure to sell or otherwise receive value for the Brisas Project Technical Mining Data could adversely affect the Company.

The Brisas Project Technical Mining Data represents a compilation of all of the technical and engineering information from the developmental work performed by the Company up to the point of commencing construction at the Brisas Project. The Company has proposed to Venezuela that, for consideration, such information could be transferred to Venezuela in order to assist in the development of the Brisas Project or the combined Brisas/Las Cristinas Project. The Company may not be able to sell or otherwise receive value for the Brisas Project Technical Mining Data which could adversely affect the Company.

Risks Relating to the Convertible Notes and Interest Notes

The Company's ability to service its Convertible Notes and Interest Notes or pay similar obligations in the future depends on many factors, some of which are beyond its control.

The Company has no commercial production and no ability to generate cash from operations to meet scheduled payments. If the Company's capital resources are insufficient to fund its debt service obligations resulting in an event of default, the Company may be forced to sell assets, seek to obtain additional equity capital, restructure its debt or file for Companies' Creditors Arrangement Act protection.

The Company may not have sufficient cash to repurchase the Convertible Notes and Interest Notes upon the occurrence of a fundamental change or upon their conversion, as required by the governing indentures.

The Company is required to make an offer to repurchase the Convertible Notes and Interest Notes upon the occurrence of a fundamental change as described in the indentures governing the Notes (the "Indenture"). The Company may not have sufficient funds to repurchase the Notes in cash or to make the required repayment at such time or have the ability to arrange necessary financing on acceptable terms. A fundamental change may also constitute an event of default or require prepayment under, or result in the acceleration of the maturity of, the Company's other indebtedness outstanding at the time. The Company's failure to repurchase the Notes or pay cash or issue its common shares in respect of conversions when required would result in an event of default with respect to the Notes.

The Convertible Notes and Interest Notes may not have an active market and their price may be volatile. You may be unable to sell your Notes at the price you desire or at all.

There is no existing trading market for the Convertible Notes or the Interest Notes and the Company has no obligation to list the Notes at any time. The Company has not and does not intend to list the Notes on any United States or Canadian securities exchange or market place. As a result, there can be no assurance that a liquid market will develop or be maintained for the Notes, that you will be able to sell any of the Notes at a particular time (if at all) or that the prices you receive if or when you sell the Notes will be above their initial offering price.

The Company may not be able to refinance the Convertible Notes and Interest Notes if required or if it so desires.

The Company may need or desire to refinance all or a portion of the Convertible Notes, Interest Notes or any other future indebtedness that it may incur on or before the maturity of the Notes. There can be no assurance that the Company will be able to refinance any of its indebtedness or incur additional indebtedness resulting in an event of default and requiring the Company to file for protection under the Companies' Creditors Arrangement Act.

The conversion of the Company's outstanding Convertible Notes could result in the issuance of a significant number of the Company's common shares causing significant dilution to the ownership of existing shareholders.

The Company has approximately \$38.4 million principal amount of convertible notes outstanding. If all of such notes were converted to Class A common shares, an additional approximately 11 million Class A common shares would be issued, thereby diluting the ownership of existing shareholders.

The Company's ability to obtain the resources required for continued servicing or restructuring of its Convertible Notes and Interest Notes or to meet other obligations as they come due may result in substantial dilution to existing shareholders and depends on numerous factors, some of which are beyond the Company's control.

Unless and until the Company successfully collects all or a portion of the Arbitral Award, sells the Brisas Project Technical Mining Data or acquires and/or develops other operating properties which provide positive cash flow, the Company's ability to meet its obligations as they come due or redeem in whole or part or otherwise restructure the Notes will be limited to the Company's cash on hand and/or its ability to issue additional equity or debt securities in the future. Such transactions could potentially cause substantial dilution to the then existing shareholders and, in certain circumstances, could result in a change of control.

Risks Related to the Company

Industry competition for new properties could limit the Company's ability to grow in the future

There is strong competition from other mining companies in connection with the acquisition of future properties considered to have commercial potential. Many of these companies have greater financial resources, operational experience and technical capabilities. As a result, the Company may be unable to acquire additional mining properties, thereby limiting future growth.

Failure to retain and/or attract key personnel could adversely affect the Company.

The Company is dependent upon the abilities and continued participation of key personnel to manage the collection of the Award, sale of the Brisas Project Technical Mining Data and identify, acquire and develop new opportunities. The loss of key employees could have a material adverse effect on its future operations.

The price and liquidity of the Company's common shares may be volatile.

The market price of the Company's common shares may fluctuate based on a number of factors, some of which are beyond its control, including:

- developments in our effort to collect the Award;
- developments in our efforts to sell the Brisas Project Technical Mining Data;
- economic and political developments in Venezuela, including Venezuela's inability to pay interest and principal related to its sovereign and/or PDVSA's debt;
- the Company's operating performance and financial condition;
- the public's reaction to announcements or filings by the Company or other companies;
- the price of gold and copper and other metal prices;
- the addition or departure of key personnel; and
- acquisitions, strategic alliances or joint ventures involving the Company and/or other companies.

The effect of these and other factors on the market price of the common shares has historically made the Company's share price volatile and suggests that its share price will continue to be volatile in the future.

Sales of a significant number of the Company's Class A common shares in the public markets, or the perception of such sales, could depress the price of the Company's Class A common shares, the fair market value of the Notes or both.

Sales of a substantial number of the Company's Class A common shares in the public markets could depress the price of its Class A common shares, the fair market value of the Notes or both, and impair the Company's ability to raise capital through the sale of additional equity securities. The Company cannot predict the effect that future sales, or the perception of such sales, of its Class A common shares would have on the market price of its Class A common shares

or the fair market value of the Notes. The price of the Company's Class A common shares may be affected by possible sales of its Class A common shares by investors who view the Notes as a more attractive means than equity participation in the Company and by hedging or arbitrage trading activity which may occur involving its Class A common shares. This hedging or arbitrage could, in turn, affect the fair market value of the Notes.

The Company may issue additional common shares, debt instruments convertible into common shares or other equity-based instruments to fund future operations.

The Company cannot predict the size of any such future issuances of securities, or the effect, if any, that future issuances and sales of its securities will have on the market price of its common shares or the fair market value of the Notes. Any transaction involving the issuance of previously authorized but unissued shares, or securities convertible into shares, will result in dilution, possibly of a substantial nature, to present and prospective holders of shares and in certain circumstances could result in a change of control.

Operating losses are expected to continue.

The Company has no commercial production at this time and, as a result, it has not recorded revenue or cash flows from mining operations and has experienced losses from operations for each of the last five years, a trend it expects to continue unless and until the Award is collected, Brisas Project Technical Mining Data is sold and/or the Company acquires or invests in alternative projects and achieves commercial production.

The Company may be unable to continue as a going concern.

The Company has no revenue producing operations at this time and its working capital position, cash burn rate and debt maturity schedule may require that the Company seek additional sources of funding to ensure the Company's ability to continue its activities in the normal course. The Company's efforts to address its longer-term funding requirements may be adversely impacted by financial market conditions, industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms. In view of these uncertainties there is substantial doubt about the Company's ability to continue as a going concern requiring the Company to file for protection under the Companies' Creditors Arrangement Act.

Risks inherent in the mining industry could adversely impact future operations.

Exploration for gold and other metals is speculative in nature, involves many risks and frequently is unsuccessful. As is customary in the industry, not all prospects will be positive or progress to later stages (e.g. the feasibility, permitting, development and operating stages), therefore, the Company can provide no assurances as to the future success of its efforts to acquire, explore, develop or operate another mining property. Exploration programs entail risks relating to location, metallurgical processes, governmental permits and regulatory approvals and the construction of mining and processing facilities. Development can take a number of years, requiring substantial expenditures and there is no assurance that the Company will have, or be able to raise, the required funds to engage in these activities or to meet its obligations with respect to the exploration properties in which it may acquire an interest. Any one or more of these factors or occurrence of other risks could cause the Company not to realize the anticipated benefits of an acquisition of properties or companies.

As a foreign private issuer, the Company is subject to less detailed disclosure and reporting requirements than U.S. issuers.

The Company is a foreign private issuer under the Exchange Act and, as a result, is exempt from certain rules under the Exchange Act. These rules include the proxy rules that impose certain disclosure and procedural requirements for proxy solicitations. In addition, the Company is not required to file periodic reports and financial statements with the SEC as frequently, promptly or in as much detail as U.S. companies with securities registered under the Exchange Act. The Company is not required to comply with Regulation FD, which imposes certain restrictions on the selective disclosure of material information. Moreover, the Company's officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions of Section 16 of the Exchange Act and the rules under the Exchange Act with respect to their purchases and sales of the Company's common shares.

U.S. Internal Revenue Service designation as a "passive foreign investment company" may result in adverse U.S. tax consequences to U.S. Holders.

U.S. taxpayers should be aware that the Company has determined that it was a "passive foreign investment company" under Section 1297(a) of the U.S. Internal Revenue Code (a "PFIC") for the taxable year ended December 31, 2014,

and it may be a PFIC in the future (including potentially for all taxable years prior to the time the Company has income from production activities). The Company does not believe that any of its subsidiaries were PFICs as to any shareholder of the Company for the taxable year ended December 31, 2014, however, due to the complexities of the PFIC determination detailed below, the Company cannot guarantee this belief and, as a result, it cannot determine that the IRS would not take the position that certain subsidiaries are PFIC's. The determination of whether the Company and any of its subsidiaries will be a PFIC for a taxable year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations. In addition, whether the Company and any of its subsidiaries will be a PFIC for any taxable year generally depends on the Company's and its subsidiaries' assets and income over the course of each such taxable year and, as a result, cannot be predicted with certainty as of the date of this Annual Information Form. Accordingly, there can be no assurance that the Company and/or any of its subsidiaries will not be a PFIC for any taxable year.

For taxable years in which the Company is a PFIC, any gain recognized on the sale of the Company's common shares and any "excess distributions" (as specifically defined) paid on the Company's common shares must be ratably allocated to each day in a U.S. taxpayer's holding period for the common shares. The amount of any such gain or excess distribution allocated to prior years of such U.S. taxpayer's holding period for the common shares generally will be subject to U.S. federal income tax at the highest tax rate applicable to ordinary income in each such prior year, and the U.S. taxpayer will be required to pay interest on the resulting tax liability for each such prior year, calculated as if such tax liability had been due in each such prior year.

Alternatively, a U.S. taxpayer that makes a timely and effective "QEF election" generally will be subject to U.S. federal income tax on such U.S. taxpayer's pro rata share of the Company's "net capital gain" and "ordinary earnings" (calculated under U.S. federal income tax rules), regardless of whether such amounts are actually distributed by the Company. For a U.S. taxpayer to make a QEF election, the Company must agree to supply annually to the U.S. taxpayer the "PFIC Annual Information Statement" and permit the U.S. taxpayer access to certain information in the event of an audit by the U.S. tax authorities. The Company will prepare and make the statement available to U.S. taxpayers, and will permit access to the information. As a possible second alternative, a U.S. taxpayer may make a "mark-to-market election" with respect to a taxable year in which the Company is a PFIC and the common shares are "marketable stock" (as specifically defined). A U.S. taxpayer that makes a mark-to-market election generally will include in gross income, for each taxable year in which the Company is a PFIC, an amount equal to the excess, if any, of (a) the fair market value of the common shares as of the close of such taxable year over (b) such U.S. taxpayer's adjusted tax basis in such common shares.

It may be difficult to bring certain actions or enforce judgments against the Company and/or its directors and executive officers.

Investors in the U.S. or in other jurisdictions outside of Canada may have difficulty bringing actions and enforcing judgments against the Company, its directors or executive officers based on civil liability provisions of federal securities laws or other laws of the U.S. or any state thereof or the equivalent laws of other jurisdictions of residence. The Company was organized under the laws of Yukon, Canada in 1998 and continued to Alberta, Canada in September 2014. Some of the Company's directors and officers, and some of the experts named from time to time in the Company's filings, are residents of Canada or otherwise reside outside of the U.S. and all or a substantial portion of their and the Company's assets, may be located outside of the U.S. As a result, it may be difficult for investors in the U.S. or outside of Canada to bring an action in the U.S. against the Company's directors, officers or experts who are not resident in the U.S. It may also be difficult for an investor to enforce a judgment obtained in a U.S. court or a court of another jurisdiction of residence predicated upon the civil liability provisions of Canadian security laws or U.S. federal securities laws or other laws of the U.S. or any state thereof against the Company or those persons.

Properties

La Tortuga

In April 2012, Soltoro Ltd. granted the Company the right to earn an undivided 51% interest in the 11,562 hectare La Tortuga property, a copper and gold prospect located in Jalisco State, Mexico, by making an aggregate \$3.65 million in option payments and property expenditures over three years. Over approximately a two year period the Company compiled data, completed a number of studies on the property and made option payments totaling \$0.4 million (including a \$0.15 million property payment made in 2014). During this period, the Mexican authorities changed its focus on environmental reviews and approvals which caused the Environment Ministry (SEMARNAT – Secretaria del Medio Ambiente y Recursos Naturales) to require the Company to resubmit its drilling permit application, expand its environmental baseline study and add additional other items. The perceived change in the Mexican government's posture towards mining led management and the Board to conclude that continued investment in the property was no longer warranted and as a consequence the Company expensed all previously capitalized costs as of June 30, 2014 and formally terminated its option on the property in August 2014.

The Company continues to evaluate other prospects with a focus on, among other things, location, the mineralized potential, economic factors, the level and quality of previous work completed on the prospect. The Company is focused on prospects that are located in a politically friendly jurisdiction, which has clear and well-established mining, tax and environmental laws with an experienced mining authority.

Dividends AND DISTRIBUTIONS

The Company has not declared cash dividends or distributions on any of the Company's securities in each of the last three financial years. The Company may declare cash dividends or make distributions in the future only if earnings and capital of the Company are sufficient to justify the payment of such dividends or distributions. Subject to applicable regulatory requirements regarding capital and reserves for operating expenses, accounts payable and taxes, the Company expects to distribute, in the most cost efficient manner, a substantial majority of any net proceeds after considering the Company's obligations arising as a result of the collection of the Award and/or sale of the Brisas Project Technical Mining Data including payments pursuant to the terms of the convertible notes (if not otherwise converted), Interest Notes, CVR, Bonus Plan and Retention Plan.

Exhibit 99.1 Annual Information Form - Page 15

Description of Capital Structure

Class A common shares

The Company is authorized to issue an unlimited number of Class A common shares without par value of which 76,077,547 Class A common shares were issued as at the date hereof. Shareholders are entitled to receive notice of and attend all meetings of shareholders with each Class A common share held entitling the holder to one vote on any resolution to be passed at such shareholder meetings. Shareholders are entitled to dividends if, as and when declared by the Board. Shareholders are entitled upon liquidation, dissolution or winding up of the Company to receive the remaining assets of the Company available for distribution to shareholders.

Equity Units

There are 100 Equity Units (which are convertible into 100 Class A common shares) which remain issued and outstanding as of the date hereof, are not listed for trading on any stock exchange, but subject to compliance with applicable federal, provincial and state securities laws. The Equity Units were issued in February 1999, when Gold Reserve Corporation became a subsidiary of the Company, the successor issuer. Generally, each shareholder of Gold Reserve Corporation received one Class A common share of the Company for each common share owned in Gold Reserve Corporation. For tax reasons, certain U.S. holders elected to receive Equity Units in lieu of Class A common shares. An Equity Unit comprises one Class B common share of the Company and one Gold Reserve Corporation Class B common share, and is substantially equivalent to a Class A common share and is generally immediately convertible into Class A common shares.

Preferred shares

The Company is authorized, subject to the limitations prescribed by law and the Company's articles of incorporation, from time to time, to issue an unlimited number of serial preferred shares; and to determine variations, if any, between any series so established as to all matters, including, but not limited to, the rate of dividend and whether dividends shall be cumulative or non-cumulative; the voting power of holders of such series; the rights of such series in the event of the dissolution of the Corporation or upon any distribution of the assets of the Corporation; whether the shares of such series shall be convertible; and such other designations, rights, privileges, and relative participating, optional or other special rights, and such restrictions and conditions thereon as are permitted by law. There are no preferred shares issued or outstanding as of the date hereof.

Share Purchase Warrants

The Company has issued and outstanding 1,750,000 shares purchase warrants to purchase one-half of one Class A common share (875,000 whole warrants) at a price of \$4.00 per share. Each whole warrant, exercisable by the holder for a period of two years after issuance, expires on September 20, 2015.

Share Purchase Options

The Company maintains the 2012 Equity Incentive Plan (the "2012 Plan") which provides for the grant of stock options of up to 7,550,000 Class A common shares of the Company. As of December 31, 2014, there were 1,834,500 remaining options available for grant. Grants are made for terms of up to ten years with vesting periods as required by the TSXV and as may be determined by a committee established pursuant to the 2012 Plan, or in certain cases, by the Board.

Shareholder Rights Plan

The Class A common shares include associated Class A common share purchase rights under the Company's Shareholder Rights Plan Agreement, as amended and restated. Those rights are described under "Item 5 – Continuation of and Amendment to the Shareholder Rights Plan Agreement" in the Proxy Statement/Information Circular filed June 1, 2012 (the "2012 Proxy Circular"), which is incorporated by reference into this Annual Information Form, and which is available for review under the Company's profile at www.sedar.com and www.sec.gov. The Shareholder Rights Plan Agreement expires on June 30, 2015.

Convertible Notes and Interest Notes

The Company has a total of \$38,350,000 of convertible notes outstanding, which is comprised of \$25,308,000 aggregate principal amount of Modified Notes, (ii) \$12,000,000 aggregate principal amount of New Notes (the "Notes") both of which mature on December 31, 2015, and (iii) \$1,042,000 aggregate principal amount of Old Notes which mature on June 15, 2022. The Notes bear interest at a rate of 11% per annum and the Old Notes bear interest at 5.50% per annum (See Note 11 to the audited consolidated financial statements).

Interest on the Notes is paid quarterly in the form of a new series of 11% Senior Subordinated Notes (the "Interest Notes") which are payable in cash at maturity on December 31, 2015. Outstanding Interest Notes are added to the Notes to calculate future issuances of Interest Notes.

Holders of the Notes may convert them into 285.71 Class A common shares per \$1,000 (which is equivalent to a conversion price of \$3.50 per common share) subject to adjustment upon the occurrence of certain events. The Interest Notes are not convertible into Class A common shares or any other security. The Company paid, in the case of the New Notes, a fee of 2.5% of the principal in the form of an original issue discount and in the case of the Modified Notes, a cash extension fee of 2.5% of the principal.

The Notes are senior unsecured, equal in rank and subject to certain terms including: (1) the technical data related to the development of the Brisas Project that was compiled by the Company and any award related to the Brisas Arbitration may not be pledged without consent of holders comprising at least 75% in principal amount of Notes; (2) the Company may not incur any additional indebtedness that ranks senior to or pari passu with the Notes in any respect without consent of holders comprising at least 75% in principal amount of Notes, voting together in a single class; (3) each Noteholder will have the right to participate, on a pro rata basis based on the amount of equity it holds, including equity issuable upon conversion of convertible securities, in any future equity or debt financing; (4) the Notes shall be redeemable on a pro rata basis, by the Company at the Noteholders' option, at a price equal to 120% of the outstanding principal balance upon the issuance of a final Arbitral Award or receipt of proceeds from the sale of the Brisas Project Technical Mining Data, with respect to which enforcement has not been stayed and no annulment proceeding is pending; provided the Company shall only be obligated to make a redemption to the extent net cash proceeds received are in excess of \$20,000,000, net of taxes and \$13,500,000 to fund accrued and unpaid prospective operating expenses; (5) capital expenditures (including for exploration and related activities) shall not exceed \$500,000 in any 12-month period without the prior consent of holders of a majority of the Notes; and (6) the Company shall not agree with any of the Noteholders to any amendment or modification to any terms of the Notes, provide any fees or other compensation whether in cash or in kind to any holder of the Notes, or engage in the repurchase, redemption or other defeasance of any Notes without offering such terms, compensation or defeasance to all holders of the Notes on an equitable and pro-rata basis.

The remaining Old Notes continue to be subject to the original terms of the Indenture which include (i) a maturity date of June 15, 2022; (ii) conversion into 132.626 shares of Class A common shares per \$1,000 (equivalent to a conversion price of \$7.54 per common share) at any time upon prior written notice to the Company; (iii) the ability of the Company, at its option, to redeem all or part of the Old Notes for cash at a redemption price equal to 100% of the principal amount being redeemed plus accrued and unpaid interest.

The covenants in the Indenture, as amended, relating to both the Notes and the Old Notes are generally limited to administrative issues such as payments of interest, maintenance of office or agency location, delivery of reports and other related issues. Likewise, events of default are defined as failure to pay interest and principal amounts when due, default in the performance of covenants, failure to convert notes upon holder's exercise of conversion rights and similar provisions or the Company's failure to give notice of a fundamental change which is generally defined as events related to a change of control in the Company.

Market for Securities

The Company's Class A common shares are traded in Canada on the TSXV under the symbol "GRZ.V". Prior to February 1, 2012, the Company's common shares were traded on the TSX. The Company's Class A common shares are also traded in the United States on the OTCQB under the symbol "GDRZF". The Equity Units and the Notes are not listed for trading on any exchange. The following table sets forth for the periods indicated the high and low sales prices of the Company's Class A common shares as reported on the TSXV and the OTCQB during 2014.

Edgar Filing: GOLD RESERVE INC - Form 40-F

	High	Cdn \$ Low	Volume	High	U.S. \$ Low	Volume
January	4.31	3.55	253,700	3.94	3.33	644,700
February	4.16	3.53	158,400	3.76	3.20	246,900

November	4.35	3.52	325,800	3.90	3.15	522,300
December	4.33	3.33	229,900	3.89	2.85	391,400

On April 23, 2015, the closing price for a Class A common share of the Company was Cdn \$4.58 per share on the TSXV and U.S. \$3.87 per share on the OTCQB. As of the date hereof, there were a total of 76,077,547 Class A common shares and 100 equity units issued and outstanding.

PRIOR SALES

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million of additional notes ("New Notes") also maturing December 31, 2015. \$19.2 million of the Modified Notes and \$8 million of the New Notes were issued to affiliated funds which exercised control or direction over more than 10% of the Company's common shares prior to the transactions and as a result, those portions of the transactions were considered to be related party transactions. The Modified Notes were amended to be consistent with the terms of the New Notes.

The Notes mature on December 31, 2015 and are convertible, at the option of the holder, into 285.71 Class A common shares per \$1,000 (equivalent to a conversion price of \$3.50 per common share) at any time upon prior written notice to the Company. The Company paid, in the case of the New Notes, a fee of 2.5% of the principal in the form of an original issue discount and in the case of the Modified Notes, a cash extension fee of 2.5% of the principal.

The New Notes and the Modified Notes (as amended from the date of closing) (the "Notes") bear interest at a rate of 11% per year, which is accrued and paid quarterly in the form of a note (Interest Notes) payable in cash at maturity. During the twelve months ended December 31, 2014, the Company issued Interest Notes in the amounts of \$135,293, \$1,029,693 and \$1,058,008 on June 30, September 30, and December 31, respectively.

ESCROWED SECURITIES AND SECURITIES SUBJECT TO CONTRACTUAL RESTRICTION ON TRANSFER

As of the date hereof, no securities of the Company were subject to escrow or contractual restrictions on transfer.

Directors and Officers

Edgar Filing: GOLD RESERVE INC - Form 40-F

The articles of the Company provide that the Board shall consist of a minimum of three and a maximum of fifteen directors, with the actual number of directors to be determined from time to time by the Board. The Board presently consists of seven members. The by-laws of the Company provide that each Director shall be appointed and/or elected to hold office, until the next annual meeting of the Company's shareholders, or until their qualified successors are elected. All of the current directors' terms expire on the date of the next annual meeting.

The following table and notes thereto states the names of each director and executive officer, the province or state and country of residence, age, all offices of the Company now held, principal occupation, the period of time acting as a director or executive officer and the number of Class A common shares beneficially owned, or controlled or directed, directly or indirectly, by each such director or executive officer.

(1) Includes Common Shares issuable pursuant to options exercisable as of the date of this Annual Information Form or exercisable within 60 days of the date of this Annual Information Form as follows: Mr. Timm 874,000; Mr. Belanger 831,000; Mr. Geyer 276,666; Mr. Coleman 276,666; Mr. McChesney 276,666; Mr. Potvin 276,666; Mr. Juster 25,000; Mr. McGuinness 352,000; and Ms. Smith 316,000. The number includes direct ownership of Common Shares as follows: Mr. Timm 1,176,704 shares; Mr. Belanger 1,420,940 shares; Mr. Geyer 407,473 shares; Mr. Coleman 305,588 shares; Mr. McChesney 161,297 shares; Mr. Potvin 269,692 shares; Mr. McGuinness 183,004 shares; and Ms. Smith 189,855 shares.

(2) Messrs. Timm, Belanger, Coleman, McChesney, McGuinness, and Ms. Smith are directors and/or officers of Great Basin Energies, Inc., which owns 491,192 Common Shares, or 0.7% of the outstanding Common Shares. The foregoing individuals beneficially own 17.5%, 11.2%, 4.2%, 2.7%, 1.3%, and 1.2%, respectively, of the outstanding common shares of Great Basin Energies, Inc. and may be deemed indirectly to have an interest in the Company through their respective management positions and/or ownership interests in Great Basin Energies, Inc. Each of the foregoing individuals disclaims any beneficial ownership of the Common Shares owned by Great Basin Energies, Inc. and such Common Shares are not included in this total.

(3) Messrs. Timm, Belanger, Coleman, McChesney, McGuinness, and Ms. Smith are directors and/or officers of MGC Ventures, Inc., which owns 258,083 Common Shares, or 0.4% of the outstanding Common Shares. The foregoing individuals beneficially own 18.4%, 18.6%, 7.5%, 5.6%, 1.9%, and 1.5%, respectively, of the outstanding common shares of MGC Ventures, Inc. and may be deemed indirectly to have an interest in the Company through their respective management positions and/or ownership interests in MGC Ventures, Inc. Each of the foregoing individuals disclaims any beneficial ownership of the Common Shares owned by MGC Ventures, Inc. and such Common Shares are not included in this total.

At the date of this Annual Information Form, the directors and executive officers of the Company, as a group, beneficially owned, or controlled or directed, directly or indirectly, 4,114,553 common shares of the Company, representing approximately 5.4 % of the issued and outstanding common shares of the Company. In addition, the directors and executive officers of the Company held 3,504,664 options to acquire an additional 3,504,664 common shares of the Company. Information concerning common shares beneficially owned, or controlled or directed, directly or indirectly, is based on information provided to the Company by the directors and executive officers of the Company.

Corporate Cease Trade Orders

At the date of this Annual Information Form, no director or executive officer of the Company is, or was within ten years prior to the date of this Annual Information Form, a director, chief executive officer or chief financial officer of any company (including the Company) that:

(i) was subject to a cease trade order, an order similar to a cease trade order or an order that denied the relevant company access to any exemption under securities legislation, that was in effect for a period of more than 30 consecutive days, that was issued while the director or officer was acting in the capacity as director, chief executive officer or chief financial officer of the relevant company; or

(ii) was subject to a cease trade order, an order or similar to a cease trade order or an order that denied the relevant company access to any exemption under securities legislation, that was in effect for a period of more than 30 consecutive days, that was issued after the director or officer ceased to be a director, chief executive officer or chief

financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer.

Exhibit 99.1 Annual Information Form - Page 20

Penalties or Sanctions

At the date of this Annual Information Form, no director or executive officer of the Company or any shareholder holding a significant number of securities of the Company to affect materially the control of the Company, is or has been, within ten years prior to the date of this Annual Information Form, subject to:

- (i) any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority; or
- (ii) any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor making an investment decision.

Bankruptcies

No director or executive officer of the Company, or a shareholder holding a sufficient number of securities to affect materially the control of the Company:

- (i) is, at the date of this Annual Information Form, or has been within ten years prior to the date of this Annual Information Form, a director or officer of any company (including the Company) that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager, or trustee appointed to hold its assets; or
- (ii) has, within ten years prior to the date of the Annual Information Form become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the director, officer or shareholder.

Audit Committee Information

Audit Committee Charter

The Board has a separately-designated standing Audit Committee for the purpose of overseeing the accounting and financial reporting processes of the Company and audits of the Company's annual financial statements. Mr. Chris Mikkelsen, a Certified Public Accountant and shareholder in Eide Bailly LLP previously served as the Chairman and audit committee financial expert. Mr. Mikkelsen resigned from the Board and the Audit Committee effective March 17, 2015. The Audit Committee of the Board operates within a written mandate, as approved by the Board, which describes the Committee's objectives and responsibilities. The full text of the Audit Committee Charter is attached as Appendix A to the 2014 Proxy Circular which is incorporated by reference and which is available for review under the Company's profile at www.sedar.com and www.sec.gov.

Composition of the Audit Committee

The Audit Committee is composed of the following three directors:

Patrick McChesney (Chair) Jean Charles Potvin James P. Geyer

The Board has determined each member of the Audit Committee to be "independent" and "financially literate" as such terms are defined under Canadian securities laws. In addition, the Chair of the Committee, Mr. McChesney, is considered by the Board to qualify as an "audit committee financial expert" as defined by the SEC. The Board has made these determinations based on the education and experience of each member of the Committee, as outlined below.

Relevant Education and Experience

The following is a description of the education and experience of each member of the Audit Committee that is relevant to the performance of his responsibilities as a member of the Audit Committee:

Mr. McChesney is the Chief Financial Officer of Foothills Auto Group, an operator of franchised auto dealerships, where he is responsible for the financial statements. He was also President of LMO Test Systems, Inc., a manufacturer of automated test equipment for the semiconductor industry, where he was also responsible for the company's financial statements. Mr. McChesney graduated from the University of Portland, with a Bachelor degree in Accounting. During his 30 plus year working career, he has prepared and analyzed financial statements in the mining, public accounting, retail, electronics and construction industries. Mr. McChesney has been a member of this Committee since August 1998 and Chair since March 17, 2015.

Exhibit 99.1 Annual Information Form - Page 21

Mr. Potvin is Director and a member of the audit committee of Azimut Exploration Ltd. a publicly listed mineral exploration company. Mr. Potvin holds a Bachelor of Science degree in Geology from Carleton University and an MBA from the University of Ottawa. He spent nearly 14 years as a mining investment analyst for a large Canadian investment brokerage firm (Burns Fry Ltd., now BMO Nesbitt Burns Inc.). Mr. Potvin has been a member of this Committee since August 2003.

Mr. Geyer has Bachelor of Science in Mining Engineering from the Colorado School of Mines, has 41 years of experience in underground and open pit mining and has held engineering and operations positions with a number of companies including AMAX and ASARCO. Mr. Geyer is a Director of Thompson Creek Metals Inc.

External Auditor Service Fees

Fees paid or payable to the Company's independent external auditor, PricewaterhouseCoopers LLP, are detailed in the following table:

Fee category	(U.S.\$) Year Ended 2014	(U.S.\$) Year Ended 2013
Audit	\$ 124,511	\$ 60,152
Audit related	51,579	60,181
Tax	8,311	5,855
All other fees	-	-
Total	\$ 184,401	\$ 126,188

The nature of the services provided by PricewaterhouseCoopers LLP under each of the categories indicated in the table is described below.

Audit Fees

Audit fees were for professional services rendered by PricewaterhouseCoopers LLP for the audit of the Company's annual financial statements.

Audit-related Fees

Audit-related fees were for the review of the Company's quarterly financial statements and services provided in respect of other regulatory-required auditor attest functions associated with government audit reports, registration statements, prospectuses, periodic reports and other documents filed with securities regulatory authorities or other documents issued in connection with securities offerings.

Tax Fees

Tax fees were for services outside of the audit scope and represented consultations for tax compliance and advisory services relating to common forms of domestic and international taxation.

All Other Fees

All Other Fees represent costs not included above.

Pre-approval Policies and Procedures

The Company's Audit Committee has adopted policies and procedures for the pre-approval of services performed by the Company's external auditors, with the objective of maintaining the independence of the external auditors. The Company's policy requires that the Audit Committee pre-approve all audit, audit-related, tax and other permissible non-audit services to be performed by the external auditors, including all engagements of the external auditors with respect to the Company's subsidiaries. Prior approval of engagements for services other than the annual audit may, as required, be approved by the Chair of the Committee with the provision that such approvals be brought before the full Committee at its next regular meeting. The Company's policy sets out the details of the permissible non-audit services consistent with the independence requirements of the United States Sarbanes-Oxley Act of 2002 and the Canadian independence standards for auditors. The Chief Financial Officer presents the details of any proposed assignments of the external auditor for consideration by the Audit Committee. The procedures do not include delegation of the Audit Committee's responsibilities to management of the Company.

Exhibit 99.1 Annual Information Form - Page 22

Conflicts of Interest

The Company's directors and officers may serve as directors or officers of other companies or have significant shareholdings in other resource companies and, to the extent that such other companies may participate in ventures in which the Company may participate, such individuals may have a conflict of interest in negotiating and concluding terms respecting the extent of such participation. In the event that such a conflict of interest arises the individual is required to abstain from participating in the deliberation or approval of such participation or such terms. In accordance with the laws of Alberta, Canada, the directors and officers are required to act honestly, in good faith and in the best interests of the Company.

The directors and officers of the Company are aware of the existence of laws governing the accountability of directors and officers for corporate opportunity and requiring disclosures of conflicts of interest. All such conflicts will be disclosed by such directors and/or officers in accordance with the Business Corporations Act (Alberta) and they will govern themselves in respect thereof to the best of their ability in accordance with the obligations imposed upon them by law. The directors and officers of the Company are not aware of any such conflicts of interests.

Legal Proceedings AND REGULATORY ACTIONS

In October 2009, Gold Reserve initiated a claim (the "Brisas Arbitration") under the Additional Facility Rules of the ICSID of the World Bank to seek compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT"). (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1).

On September 22, 2014, the ICSID Tribunal unanimously awarded to the Company the Arbitral Award totaling (i) \$713 million in damages, plus (ii) pre-award interest from April 2008 through the date of the Award based on the U.S. Government Treasury Bill Rate, compounded annually totaling, as of the date of the Award, approximately \$22.3 million and (iii) \$5 million for legal costs and expenses, for a total, as of September 22, 2014, of \$740.3 million. The Award (less legal costs and expenses) accrues post-award interest at a rate of LIBOR plus 2%, compounded annually, which currently approximates \$52,000 per day.

An ICSID Additional Facility Award is enforceable globally in jurisdictions that allow for the recognition and enforcement of commercial arbitral awards. There exists an international instrument created for the purpose of facilitating such recognition and enforcement, the United Nations Convention for the Recognition and Enforcement of Foreign Arbitral Awards (June 10, 1958), 21 U.S.T. 2517, 330 U.N.T.S. 38 (the "New York Convention") to which over 150 countries, including the United States, are party. Under the New York Convention, arbitral awards may be recognized as a judgment of the court and execution may be done by attaching assets belonging to the award debtor. (See General Development and Description of Business contained in this Annual Information Report).

Except for the proceedings related to the Arbitral Award, there were no legal proceedings, to which the Company is aware of or of which any of the Company's property was the subject, since the beginning of the most recently completed financial year, nor were there any proceedings known by the Company to be contemplated, that involve a claim for damages exceeding 10% of the Company's current assets. In addition, to the best of the Company's knowledge, there were no:

- (i) penalties or sanctions imposed against the Company by a court relating to securities legislation or by a securities regulatory authority during the year ended December 31, 2014;

- (ii) penalties or sanctions imposed by a court or regulatory body against the Company that would likely be considered important to a reasonable investor in making an investment decision; or
- (iii) settlement agreements entered into by the Company before a court relating to securities legislation or with a securities regulatory authority during the year ended December 31, 2014.

Exhibit 99.1 Annual Information Form - Page 23

Interest of MANAGEMENT AND OTHERS in Material Transactions

During the second quarter of 2014 (as more fully described herein), the Company extended the maturity date of its \$25.3 million aggregate principal amount of Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million aggregate principal amount of New Notes also maturing December 31, 2015. Pursuant to the transaction, \$16.2 million and \$3.0 million of the amended Modified Notes were held by Steelhead Partners (Steelhead") and Greywolf Capital Management LP affiliated funds ("Greywolf"), respectively and \$7 million of the New Notes were issued to Greywolf both of which exercised control or direction over more than 10% of the Company's common shares prior to the transaction. In addition the Company paid, in the case of the New Notes, a fee of 2.5% of the principal in the form of an original issue discount and in the case of the Modified Notes, a cash extension fee of 2.5% of the principal which resulted in cash payments of \$0.4 million and \$0.25 to Steelhead and Greywolf, respectively.

In the fourth quarter of 2012 (as more fully described herein), the Company restructured its outstanding debt totaling \$85.4 million . Pursuant to the transaction, Steelhead who exercised control or direction over more than 10% of the Company's common shares prior to the transaction received \$13.9 million cash, \$16.2 million Modified Notes, 8.0 million Class A common shares and a 3.5% CVR.

Other than as disclosed herein, the Company is not aware of any material interest, direct or indirect, of any director, executive officer, or shareholder that beneficially owns, or controls or directs, directly or indirectly more than 10% of the voting securities of the Company, or any associate or affiliate of such persons, in any transaction within the three most recently completed financial years or during the current financial year, that has materially affected, or is reasonably expected to materially affect the Company.

Transfer Agents and Registrars

The registrar and transfer agent for the Company is Computershare Trust Company, Inc.:

P.O. Box 30170

8th Flr, 100 University Avenue

College Station, TX 77842

Toronto, Ontario Canada M5J 2Y1

Material Contracts

The Company entered into an Indenture, dated as of May 18, 2007 related to the issuance of \$103.5 million aggregate principal amount of senior subordinated convertible notes (the "Original Indenture") which was subsequently supplemented and amended by the First Supplemental Indenture, dated as of December 4, 2012 (the "First Supplemental Indenture", the Second Supplemental Indenture dated as of June 18, 2014 (the "Second Supplemental Indenture" and the Third Supplemental Indenture dated as of September 24, 2014 (the "Third Supplemental Indenture"), together with the Original Indenture and the Supplemental Indentures, the "Indenture").

Effective September 9, 2014, the legal domicile of the Company was changed from the Yukon, Canada to Alberta, Canada pursuant to a continuance (the "Continuance") of the Company under the Business Corporations Act (Alberta) (the "ABCA"). The Continuance was affected through a continuance resolution, approved by the Company's shareholders on September 5, 2014, which authorized the Company to continue under the ABCA as if it had been

incorporated under such statute. This change was reflected in the Third Supplemental Indenture.

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million of New Notes also maturing December 31, 2015. These changes are reflected in the Second Supplemental Indenture.

The Modified Notes were amended to be consistent with the terms of the New Notes. The New Notes and the Modified Notes (as amended from the date of closing) (the "Notes") bear interest at a rate of 11% per year, which will be accrued and capitalized quarterly, issued in the form of a note (Interest Notes) payable in cash at maturity. Subject to certain conditions, the outstanding principal of the Notes may be converted into Class A common shares of the Company, redeemed or repurchased prior to maturity. The Notes mature on December 31, 2015 and are convertible, at the option of the holder, into 285.71 Class A common shares per \$1,000 (equivalent to a conversion price of \$3.50 per common share) at any time upon prior written notice to the Company. The Company paid, in the case of the New Notes, a fee of 2.5% of the principal in the form of an original issue discount and in the case of the Modified Notes, a cash extension fee of 2.5% of the principal.

Exhibit 99.1 Annual Information Form - Page 24

The Notes are senior unsecured, equal in rank and subject to certain terms including: (1) the technical data related to the development of the Brisas Project that was compiled by the Company and any award related to the Brisas Arbitration may not be pledged without consent of holders comprising at least 75% in principal amount of Notes; (2) the Company may not incur any additional indebtedness that ranks senior to or pari passu with the Notes in any respect without consent of holders comprising at least 75% in principal amount of Notes; (3) each Noteholder will have the right to participate, on a pro rata basis based on the amount of equity it holds, including equity issuable upon conversion of convertible securities, in any future equity or debt financing; (4) the Notes shall be redeemable on a pro rata basis, by the Company at the Noteholders' option, at a price equal to 120% of the outstanding principal balance upon the issuance of a final Arbitration Award, with respect to which enforcement has not been stayed and no annulment proceeding is pending; provided the Company shall only be obligated to make a redemption to the extent net cash proceeds received are in excess of \$20,000,000, net of taxes and \$13,500,000 to fund accrued and unpaid prospective operating expenses; (5) capital expenditures (including exploration and related activities) shall not exceed \$500,000 in any 12-month period without the prior consent of holders of a majority of the Notes; and (6) the Company shall not agree with any of the Noteholders to any amendment or modification to any terms of the Notes, provide any fees or other compensation whether in cash or in kind to any holder of the Notes, or engage in the repurchase, redemption or other defeasance of any Notes without offering such terms, compensation or defeasance to all holders of the Notes on an equitable and pro-rata basis.

At the date of this Annual Information Form, the Company is not party to any material contract, other than any contract entered into in the ordinary course of business, that was entered into during the Company's most recently completed financial year, or before the most recently completed financial year that is still in effect, except for the CVR's, Retention Plan and Bonus Plan, the particulars of which are provided herein.

Interests of Experts

There is no person or company who is named as having prepared or certified a report, valuation, statement or opinion described or included in a filing, or referred to in a filing, made under Canadian National Instrument 51-102 Continuous Disclosure Obligations, by the Company during, or related to, its most recently completed financial year and whose profession or business gives authority to the report, valuation, statement or opinion made by the person or company, other than PricewaterhouseCoopers LLP.

PricewaterhouseCoopers LLP is the Company's auditor and has provided their auditors' report in the audited consolidated financial statements for the financial year ended December 31, 2014 and on the effectiveness of internal control over financial reporting as of December 31, 2014. PricewaterhouseCoopers LLP has advised the Company that they are independent with respect to the Company within the meaning of the Rules of Professional Conduct of the Institute of Chartered Accountants of British Columbia, the meaning of the Securities Acts administered by the U.S. Securities and Exchange Commission and relevant legislation and requirements of the Public Company Accounting Oversight Board (PCAOB).

In addition, none of the aforementioned person(s), nor any director, officer or employee of any of the aforementioned person(s) is or is expected to be elected, appointed or employed as a director, officer or employee of the Company.

The Company's audited consolidated financial statements for the year ended December 31, 2014, together with the auditor's report thereon, and managements' discussion and analysis for the most recently completed financial year are also available separately, all of which may be obtained upon request made to the Company or electronically from the Internet on the SEDAR website at www.sedar.com and www.sec.gov. Additional information, including directors' and officers' remuneration, principal holders of Company securities, securities authorized for issuance under compensation plans and interests of insiders in material transactions, where applicable, is contained in the 2014 Proxy

Circular in respect of its most recent annual meeting of shareholders that involved the election of directors.

Exhibit 99.2 – Audited Consolidated Financial Statements

Management’s Report on Internal Control over Financial Reporting

The accompanying audited consolidated financial statements of the Company were prepared by management in accordance with accounting principles generally accepted in the United States, consistently applied and within the framework of the summary of significant accounting policies contained therein. Management is responsible for all information in the accompanying audited consolidated financial statements.

The Company’s management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of the Company’s financial reporting for external purposes in accordance with accounting principles generally accepted in the U.S. Internal control over financial reporting includes:

- maintaining records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- providing reasonable assurance that transactions are recorded as necessary for preparation of the Company’s financial statements in accordance with generally accepted accounting principles;
- providing reasonable assurance that receipts and expenditures are made in accordance with authorizations of the executive officers of the Company; and
- providing reasonable assurance that unauthorized acquisition, use or disposition of company assets that could have a material effect on the Company’s financial statements would be prevented or detected on a timely basis.

Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of the Company’s financial statements would be prevented or detected.

Management, including the CEO and CFO, assessed the effectiveness of the Company’s internal control over financial reporting as of December 31, 2014 based on the framework established in Internal Control – Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on this assessment, management concluded that the Company’s internal control over financial reporting was effective as of December 31, 2014.

The effectiveness of internal control over financial reporting as of December 31, 2014 has been audited by the Company’s independent auditors, PricewaterhouseCoopers LLP ("PwC"), a registered public accounting firm, as stated in their audit report, which is dated April 24, 2015 and included below.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 1

Independent Auditor's Report

To the Shareholders of Gold Reserve Inc.

We have completed integrated audits of Gold Reserve Inc.'s (the Company) December 31, 2014, 2013 and 2012 consolidated financial statements and its internal control over financial reporting as at December 31, 2014. Our opinions, based on our audits are presented below.

Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of Gold Reserve Inc., which comprise the consolidated balance sheets as at December 31, 2014 and December 31, 2013 and the consolidated statements of operations, comprehensive loss, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2014, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards and the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement. Canadian generally accepted auditing standards also require that we comply with ethical requirements.

An audit involves performing procedures to obtain audit evidence, on a test basis, about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting principles and policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Gold Reserve Inc. as at December 31, 2014 and December 31, 2013 and results of its operations and its cash flows for each of the three years in the period ended December 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

Emphasis of matter

Without qualifying our opinion, we draw attention to Note 1 to the consolidated financial statements, which describes the existence of a material uncertainty that raises substantial doubt about the company's ability to continue as a going concern.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 2

Report on internal control over financial reporting

We have also audited Gold Reserve Inc.'s internal control over financial reporting as at December 31, 2014, based on criteria established in Internal Control - Integrated Framework (1992), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Management's responsibility for internal control over financial reporting

Management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Controls over Financial Reporting.

Auditor's responsibility

Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit. We conducted our audit of internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

An audit of internal control over financial reporting includes obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control, based on the assessed risk, and performing such other procedures as we consider necessary in the circumstances.

We believe that our audit provides a reasonable basis for our audit opinion on the company's internal control over financial reporting.

Definition of internal control over financial reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent limitations

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, Gold Reserve Inc. maintained, in all material respects, effective internal control over financial reporting as at December 31, 2014, based on criteria established in Internal Control - Integrated Framework (1992) issued by COSO.

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Note 1. The Company and Significant Accounting Policies:

The Company. Gold Reserve Inc. (the "Company") is engaged in the business of acquiring, exploring and developing mining projects. The Company is an exploration stage company incorporated in 1998 under the laws of the Yukon Territory, Canada and continued to Alberta, Canada in September 2014. The Company is the successor issuer to Gold Reserve Corporation which was incorporated in 1956. All amounts shown herein are expressed in U.S. dollars unless otherwise noted.

In February 1999 each Gold Reserve Corporation shareholder exchanged its shares for an equal number of Gold Reserve Inc. Class A common shares except in the case of certain U.S. holders who for tax reasons elected to receive equity units which are comprised of one Gold Reserve Inc. Class B common share and one Gold Reserve Corporation Class B common share and substantially equivalent to a Class A common share. As of December 31, 2014, 100 equity units remained outstanding.

Going Concern. As of December 31, 2014, the Company had financial resources comprised of cash, cash equivalents and marketable securities totaling approximately \$6.6 million and Brisas Project related equipment, which is being marketed for sale, with an estimated fair value of approximately \$12.4 million (See Note 7, Property, Plant and Equipment). The Company's current financial liabilities included notes of \$39.5 million (face value) which mature December 31, 2015 and accounts payable and accrued expenses due in the normal course of approximately \$3.9 million.

The Company has no revenue producing operations at this time and its working capital position, cash burn rate and debt maturity schedule may require that the Company seek additional sources of funding to ensure the Company's ability to continue its activities in the normal course. To address its longer-term funding requirements, primarily the convertible notes due in December 2015, the Company expects to raise additional funds through its continuing efforts to dispose of the remaining Brisas Project related assets, timely collection of the Arbitral Award (as defined herein) or through debt and equity funding alternatives.

The Company's efforts to address its longer-term funding requirements may be adversely impacted by financial market conditions, industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms. In view of these uncertainties there is substantial doubt about the Company's ability to continue as a going concern.

These financial statements do not reflect potentially material adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations.

Basis of Presentation and Principles of Consolidation. These audited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles. The statements include the accounts of the Company, Gold Reserve Corporation, four Venezuelan subsidiaries, a Mexican subsidiary and four other subsidiaries which were formed to hold the Company's interest in its foreign subsidiaries or for future transactions. All subsidiaries are wholly owned. All intercompany accounts and transactions have been eliminated on consolidation. The Company's

policy is to consolidate those subsidiaries where control exists.

Cash and Cash Equivalents. The Company considers short-term, highly liquid investments purchased with an original maturity of three months or less to be cash equivalents for purposes of reporting cash equivalents and cash flows. The cost of these investments approximates fair value. The Company manages the exposure of its cash and cash equivalents to credit risk by diversifying its holdings into major Canadian and U.S. financial institutions.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 1

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Exploration and Development Costs. Exploration costs incurred in locating areas of potential mineralization or evaluating properties or working interests with specific areas of potential mineralization are expensed as incurred. Development costs of proven mining properties not yet producing are capitalized at cost and classified as capitalized exploration costs under property, plant and equipment. Property holding costs are charged to operations during the period if no significant exploration or development activities are being conducted on the related properties. Upon commencement of production, capitalized exploration and development costs would be amortized based on the estimated proven and probable reserves benefited. Properties determined to be impaired or that are abandoned are written-down to the estimated fair value. Carrying values do not necessarily reflect present or future values.

Property, Plant and Equipment. Included in property, plant and equipment is certain equipment which was originally purchased for the Brisas Project at a cost of approximately \$29 million. The carrying value of this equipment has been adjusted to its estimated fair value of \$12.4 million and it is not being depreciated. The recoverable value of this equipment may be different than management's current estimate.

The Company has additional property, plant and equipment which are recorded at the lower of cost less accumulated depreciation or estimated net realizable value. Replacements and major improvements are capitalized. Maintenance and repairs are charged to expense as incurred. The cost and accumulated depreciation of assets retired or sold are removed from the accounts and any resulting gain or loss is reflected in operations. Depreciation is provided using straight-line and accelerated methods over the lesser of the useful life or lease term of the related asset.

Impairment of Long Lived Assets. The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If the sum of the expected future net cash flows to be generated from the use or disposition of a long-lived asset (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss is recognized and the asset is written down to fair value. Fair value is generally determined by discounting estimated cash flows, using quoted market prices where available or making estimates based on the best information available.

Foreign Currency. The U.S. dollar is the Company's (and its foreign subsidiaries') functional currency. Monetary assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the rates of exchange in effect at the balance sheet dates. Non-monetary assets and liabilities are translated at historical rates and revenue and expense items are translated at average exchange rates during the reporting period, except for depreciation which is translated at historical rates. Translation gains and losses are included in the statement of operations.

Stock Based Compensation. The Company maintains the 2012 Equity Incentive Plan (the "2012 Plan") which provides for the grant of stock options to purchase Class A common shares of the Company. The Company uses the fair value method of accounting for stock options. The fair value of options granted to employees is computed using the Black-Scholes method as described in Note 9 and is expensed over the vesting period of the option. For non-employees, the fair value of stock based compensation is recorded as an expense over the vesting period or upon completion of performance. Consideration paid for shares on exercise of share options, in addition to the fair value attributable to stock options granted, is credited to capital stock. The Company also maintains the Gold Reserve Director and Employee Retention Plan. Each Unit granted under the Retention Plan to a participant entitles such person to receive a cash payment equal to the fair market value of one Gold Reserve Class A common Share (1) on the

date the Unit was granted or (2) on the date any such participant becomes entitled to payment, whichever is greater. The Company will not accrue a liability for these units until and unless events required for vesting of the units occur. Stock options and Units granted under the respective plans become fully vested and exercisable and/or payable upon a change of control.

Income Taxes. The Company uses the liability method of accounting for income taxes. Deferred tax assets and liabilities are determined based on the differences between the tax basis of assets and liabilities and those amounts reported in the financial statements. The deferred tax assets or liabilities are calculated using the enacted tax rates expected to apply in the periods in which the differences are expected to be settled. Deferred tax assets are recognized to the extent that they are considered more likely than not to be realized.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 2

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Loss Per Share. Net loss per share is computed by dividing net loss by the combined weighted average number of Class A common shares and equity units outstanding during each year. In periods in which a loss is incurred, the effect of potential issuances of shares under options and convertible notes would be anti-dilutive, and therefore basic and diluted losses per share are the same.

Convertible Notes. Convertible notes are initially recorded at fair value and subsequently measured at amortized cost. The fair value is allocated between the equity and debt component parts based on their respective fair values at the time of issuance and recorded net of transaction costs. The equity portion of the notes is estimated using the residual value method. The fair value of the debt component is accreted to the face value of the notes using the effective interest rate method over the expected life of the notes, with the resulting charge recorded as interest expense.

Comprehensive Loss. Comprehensive loss includes net loss and other comprehensive income or loss. Other comprehensive loss may include unrealized gains and losses on available-for-sale securities. The Company presents comprehensive loss and its components in the consolidated statements of comprehensive loss.

Financial Instruments. Marketable equity securities are classified as available for sale with any unrealized gain or loss recorded in other comprehensive income. If a decline in fair value of a security is determined to be other than temporary, an impairment loss is recognized. Cash and cash equivalents, deposits and advances are accounted for at cost which approximates fair value. Accounts payable, convertible notes and interest notes are recorded at amortized cost. Amortized cost of accounts payable approximates fair value.

Contingent Value Rights. Contingent value rights ("CVR") are obligations arising from the disposition of a portion of the rights to future proceeds of the Arbitral Award against Venezuela and/or the sale of the Brisas Project Technical Mining Data that was compiled by the Company.

Warrants. Common share purchase warrants ("Warrants") issued by the Company entitle the holder to acquire common shares of the company at a specific price within a certain time period. The fair value of warrants issued is calculated using the Black-Scholes method.

Note 2. New Accounting Policies:

Adopted in the year

In June 2014, the FASB issued Accounting Standards Update 2014-10 which eliminates the concept of a development stage entity from US GAAP and consequently removes all incremental financial reporting obligations which were previously required for development stage enterprises under ASC 915. The Company early adopted the amendments in this update effective with the reporting period ended June 30, 2014 and as a result no longer reports

Net increase (decrease) in accounts payable and accrued expenses

100

inception-to-date information and certain other disclosures.

In April 2014, the FASB issued Accounting Standards update 2014-08 which changes the criteria for reporting discontinued operations and adds new disclosure requirements for discontinued operations and individually significant components of an entity that are disposed of or classified as held for sale but do not meet the definition of a discontinued operation. The updated guidance requires an entity to only classify dispositions as discontinued operations due to a major strategic shift or a major effect on an entity's operations in the financial statements. This update is effective for the Company commencing with the reporting period beginning January 1, 2015. Adoption of these requirements is not expected to have a significant impact on the Company's financial statements.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 3

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Recently issued accounting pronouncements

In August 2014, the FASB issued Accounting Standards update 2014-15 which provides guidance in GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. This update is effective for the Company commencing with the annual period ending after December 15, 2016. The Company is still in the process of evaluating the impact of this standard.

Note 3. Arbitral Award Against Venezuela Related to the Brisas Project:

In October 2009, Gold Reserve initiated a claim (the "Brisas Arbitration") under the Additional Facility Rules of the ICSID of the World Bank to seek compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT"). (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1)).

The September 22, 2014 ICSID Arbitral Award

On September 22, 2014, the ICSID Tribunal unanimously awarded to the Company the Arbitral Award totaling (i) \$713 million in damages, plus (ii) pre-award interest from April 2008 through the date of the Award based on the U.S. Government Treasury Bill Rate, compounded annually totaling, as of the date of the Award, approximately \$22.3 million and (iii) \$5 million for legal costs and expenses, for a total, as of September 22, 2014, of \$740.3 million. The Award (less legal costs and expenses) accrues post-award interest at a rate of LIBOR plus 2%, compounded annually, which currently approximates \$52,000 per day.

An ICSID Additional Facility Award is enforceable globally in jurisdictions that allow for the recognition and enforcement of commercial arbitral awards. There exists an international instrument created for the purpose of facilitating such recognition and enforcement, the United Nations Convention for the Recognition and Enforcement of Foreign Arbitral Awards (June 10, 1958), 21 U.S.T. 2517, 330 U.N.T.S. 38 (the "New York Convention") to which over 150 countries, including the United States, are a party. Under the New York Convention, arbitral awards may be recognized as a judgment of the court and execution may be done by attaching assets belonging to the award debtor.

Payment Demand Letter

Subsequent to the issuance of the Arbitral Award, Gold Reserve sent a demand letter to Venezuela and commenced efforts to ensure the enforcement and collection of the Award. Shortly thereafter, representatives from Venezuela and the Company met in the first of several meetings to discuss the satisfaction of the Award. No agreement has been reached to-date. Although the Company currently believes that Venezuela will ultimately honor its international obligations, there can be no assurances in this regard and management anticipates that Venezuela will make every effort to challenge the validity and/or amount of the Arbitral Award in the near term and vigorously oppose any action

the Company may take in the various jurisdictions around the world to effect full enforcement and payment of the Award. Management is pursuing any and all means to ensure timely payment by the government of Venezuela and is fully engaged in executing its strategy to ensure the recognition and collection of the Arbitral Award.

The Company remains firmly committed to the enforcement and collection of the Arbitral Award including accrued interest in full and will continue to vigorously pursue all available remedies accordingly in every jurisdiction where it perceives that it can draw a benefit that will bring it closer to the collection of the Arbitral Award.

The December 15, 2014 Reconfirmation of Arbitral Award

The ICSID Additional Facility Arbitration Rules allow only three types of post-award remedies –interpretation (Article 55), correction (Article 56), and supplementary decisions (Article 57). Each of these procedures must be initiated within 45 days of the issuance of an award for any further remedy before the ICSID Tribunal.

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Within the 45 day time period, both Venezuela and the Company filed requests for the ICSID Tribunal to correct what each party identified as "clerical, arithmetical or similar errors" in the Award as is permitted by Article 56 of the arbitration rules of ICSID's Additional Facility ("Article 56"). While the Company identified what it considered an inadvertent arithmetic error that warranted an increase in the Award of approximately \$50 million, Venezuela identified what it contended were significant inadvertent arithmetic errors that it argued supported a reduction of the Award by approximately \$361 million (more than 50% of the original Award). On November 13, 2014, the Company and Venezuela submitted replies to each party's request for corrections of the Award.

After considering both parties' submissions the Tribunal, on December 15, 2014, denied both parties' requests for correction and reaffirmed, in a written decision, the Award originally rendered in favor of Gold Reserve on September 22, 2014 (the "December 15th Decision"). The conclusion of this proceeding marked the end of the Tribunal's jurisdiction with respect to the Award.

Legal Activities in France

The Award was issued by a Tribunal constituted pursuant to the arbitration rules of ICSID's Additional Facility and, by agreement of the parties, the seat of the Tribunal was in Paris. As a consequence, the Award is subject to review by the French courts.

Requests for Annulment

Application for Annulment of the September 22, 2014 ICSID Arbitral Award

In late October 2014, Venezuela filed an application before the Paris Court of Appeal, declaring its intent to have the September 2014 Award annulled or set aside. This procedure does not permit a review on the merits of the Award, or to re-try the case heard by the Tribunal. Under the applicable rules of procedure, Venezuela had 5 months, or until March 20, 2015, to state its case relating to the annulment or setting aside of the Award, which it did on March 20, 2015. According to the schedule established by the Paris Court of Appeal, written pleadings are to be closed by October 15, 2015 and the hearing of Venezuela's application to annul is to take place on November 3, 2015. At this stage, the Company expects that a judgment on Venezuela's application will be rendered before the end of the year, although this is a matter over which the Company has no control

Application for Annulment of the December 15, 2014 Reconfirmation of Arbitral Award

Venezuela has filed before the Paris Court of Appeal another application to annul an arbitral award, the December 15th Decision of the Tribunal dismissing Venezuela's motion to correct the Award pursuant to which Venezuela was alleging that through various "clerical, arithmetical or similar errors", the Tribunal had incorrectly awarded the Company an excess of \$361 million in damages (see December 15, 2014 Reconfirmation of Arbitral Award above). The process will be the same as in the annulment proceedings related to the September 22, 2014 Award with the Court establishing a pleading and hearing schedule after Venezuela files its case on or before June 5, 2015. The existence of the annulment proceedings of the September 22, 2014 Award, and/or the December 15, 2014 reconfirmation of the Award, does not affect the finality of the Award or its enforceability in the interim.

Petition for *Exequatur*

In early November 2014, the Company filed a petition before the Paris Court of Appeal, the same court handling Venezuela's application for annulment, to obtain an order of *exequatur* for the recognition of the Company's Award as a judgment of the Court. Venezuela filed a submission opposing the Company's request for *exequatur* and, in the alternative, requested a stay of execution pending the determination of its application for annulment of the Award. On January 8, 2015, the Paris Court of Appeal heard oral submissions by the parties regarding the Company's petition for *exequatur* and Venezuela's request to stay execution.

On January 29, 2015, the Paris Court of Appeal granted the Company's petition for *exequatur*. Moreover, the Court dismissed Venezuela's request to stay the execution of the Award pending the outcome of its application to annul the Award, holding that none of the grounds alleged by Venezuela (including the lack of jurisdiction of the Tribunal, the violation of international public order, or alleged errors in the calculation of the damages awarded) constituted a sufficient reason to stay the execution of the Award pending the annulment proceedings.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 5

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

The exequatur or recognition of the Company's ICSID Award as a judgement of the Court, granted on January 29, 2015, is not appealable and remains in full force and effect since Venezuela was denied its motion to stay the execution of the Award.

Legal Activities in US District Court for the District of Columbia

On November 26, 2014 the Company filed, in the US District Court for the District of Columbia ("DDC"), a petition to confirm the Award dated September 22, 2014. Once the Award is confirmed it will be enforceable in the United States as a judgment of the court.

The initial step for the proceeding was to serve Venezuela with the petition and other related documents. Venezuela avoided service, refused, among other things, to authorize its U.S. counsel to accept service and otherwise contested the validity of service, raising non-meritorious and irrelevant objections to service. As a result of that refusal to accept service, on December 31, 2014, the Company initiated service in accordance with the statutory provision of the United States Code, and the Hague Convention on the Service Abroad of Judicial and Extrajudicial Documents in Civil or Commercial Matters.

Receipt of the documents on January 8, 2015, was acknowledged by letter from the Venezuelan Foreign Ministry dated January 26, 2015, but Venezuela contested the validity of the service, raising non-meritorious and irrelevant objections to service. Therefore, the Company believed Venezuela was properly served on January 8, 2015 and at the expiry of the 60-day period following the service of the documents, the Company, on March 26, 2015, requested the Clerk of the DDC to enter default against Venezuela, on the basis that the documents had been duly received by the proper recipient of the service process. The Clerk agreed with the position of the Company and entered default on March 27, 2015. To avoid default, Venezuela after close of business on March 27, 2015, the same day that the default was entered, made a filing opposing the entry of default and requesting that it be set aside.

Filing by the Company of a response to Venezuela's opposition and subsequent discussions between the parties led Venezuela to agree, on April 15, 2015, to accept service of Gold Reserve's Petition to confirm the Award and further agree to respond to the Petition within sixty (60) days of the agreed service date, i.e., on or before June 12, 2015. As part of the agreement Gold Reserve agreed to vacate the clerk's entry of default entered on March 27, 2015 against Venezuela. The agreement has been recorded in an Order of the DDC dated April 15, 2015.

The Company's intention is to move expeditiously towards obtaining confirmation of the Award in the U.S. and consider enforcement options in due course.

Legal Activities in Luxembourg

On October 28, 2014, the Company filed for and was granted an exequatur (recognition and execution) of the Award by Tribunal d'arrondissement de et à Luxembourg. As a result, the Company is free to proceed with conservatory actions against Venezuela's assets in the Grand Duchy of Luxembourg. On January 12, 2015, Venezuela filed a notice of appeal of this decision in the Cour d'appel de Luxembourg (the "Luxembourg Court of Appeal") asking for a stay of execution pending the determination of its application to annul the Award before the Paris Court of Appeal.

The Luxembourg Court of Appeal recently issued a scheduling direction, dividing Venezuela's arguments in two and ordering that the arguments on form and the request for stay of execution be heard together, on May 21, 2015. In accordance with the scheduling direction, the Company filed its response to Venezuela's first set of arguments, on March 16, 2015.

Following the granting of the *exequatur*, the Company, on several occasions, served on various Luxembourg banks the equivalent of writs of garnishment relating to over US \$700 million interest payments on Venezuela sovereign bonds and any other funds owned by Venezuela. These banks were chosen because they are designated as paying agents or transfer agents in listing memoranda relating to various bonds issued by Venezuela and listed on the Luxembourg Stock Exchange. So far, the banks have denied holding funds for the account of Venezuela, which appears to contradict the information contained in the listing memoranda. As a result, the Company intends to have the issue determined by the appropriate court or judge having jurisdiction in Luxembourg over such matters.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 6

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

The Company's Intent to Distribute Collection of the Arbitral Award to Shareholders

Subject to applicable regulatory requirements regarding capital and reserves for operating expenses, accounts payable and income taxes, and any obligations arising as a result of the collection of the ICSID Award including payments pursuant to the terms of the convertible notes (if not otherwise converted), Interest Notes, CVR's, Bonus Plan and Retention Plan (all as defined herein) or undertakings made to a court of law, the Company's current plans are to distribute to its shareholders, in the most cost efficient manner, a substantial majority of any net proceeds.

Obligations Due Upon Collection of Arbitral Award and Sale of Brisas Technical Mining Data

The Board of Directors (the "Board") approved a Bonus Pool Plan ("Bonus Plan") in May 2012, which is intended to reward the participants, including executive officers, employees, directors and consultants, for their past and future contributions including their efforts related to the development of the Brisas Project, execution of the Brisas Arbitration and the collection of an award, if any. The bonus pool under the Bonus Plan will generally be comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes times 1% of the first \$200 million and 5% thereafter. Participation in the Bonus Plan vests upon the participant's selection by the Committee of independent directors, subject to voluntary termination of employment or termination for cause. The Company also maintains the Gold Reserve Director and Employee Retention Plan (See Note 9, Stock Based Compensation Plans). Units ("Retention Units") granted under the plan become fully vested and payable upon: (1) collection of proceeds from the Arbitral Award and/or sale of mining data and the Company agrees to distribute a substantial majority of the proceeds to its shareholders or, (2) the event of a change of control. The Company currently does not accrue a liability for the Bonus or Retention Plan as events required for payment under the Plans have not yet occurred.

The Company has outstanding contingent value rights ("CVR's") which entitles each note holder that participated in the 2012 Restructuring (as defined herein) to receive, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), a pro rata portion of a maximum aggregate amount of 5.468% of the proceeds actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the technical data related to the development of the Brisas Project that was compiled by the Company (the "Brisas Project Technical Mining Data"). The proceeds, if any, could be cash, commodities, bonds, shares and/or any other consideration received by the Company and if such proceeds are other than cash, the fair market value of such non-cash proceeds, net of any required deductions (e.g., for taxes) will be subject to the CVR's and will become an obligation of the Company only as the Arbitral Award is collected.

Included in accounts payable is approximately \$2.9 million which represents legal fees deferred during the arbitration but now payable as a result of the Arbitral Award. In addition, the Company is obligated to pay contingent legal fees of approximately \$1.7 million due upon the collection of the Award.

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Note 4. Cash and Cash Equivalents:

	December 31, 2014	December 31, 2013
Bank deposits	\$ 6,367,049	\$ 1,578,903
Money market funds	72,098	1,396,934
Total	\$ 6,439,147	\$ 2,975,837

Note 5. Marketable Securities:

Increase (decrease) in market value	19,578	(218,296)
Fair value at balance sheet date	\$ 175,541	\$ 318,442

The Company's marketable securities are classified as available-for-sale and are recorded at quoted market value with gains and losses recorded within other comprehensive income until realized or impaired. Realized gains and losses are based on the average cost of the shares held at the date of disposition. As of December 31, 2014 and 2013, marketable securities had a cost basis of \$158,537 and \$321,016, respectively.

Note 6. Fair Value Measurements:

Accounting Standards Codification ("ASC") 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities, Level 2 inputs are inputs other than quoted prices included within Level 1 that are directly or indirectly observable for the asset or liability and Level 3 inputs are unobservable inputs for the asset or liability that reflect the entity's own assumptions. In 2013, the Company had an equity investment in a privately held exploration-stage mining company which was classified as Level 3. The estimate of the fair value of this investment included observable inputs related to recently completed equity transactions of the investee.

Fair value

	\$ 13,150,807	\$ (710,153)	\$ 12,440,654
December 31, 2013			
Machinery and equipment	\$ 18,985,828	\$ —	\$ 18,985,828
Furniture and office equipment	529,648	(501,190)	28,458
Leasehold improvements	41,190	(41,190)	—
Venezuelan property and equipment	171,445	(157,445)	14,000
Mineral property	275,010	—	275,010
	\$ 20,003,121	\$ (699,825)	\$ 19,303,296

Machinery and equipment consists of infrastructure and milling equipment previously intended for use on the Brisas Project. In 2014, based on an updated market valuation for mining equipment which included the review of transactions involving comparable assets, the Company recorded a further \$6.5 million write-down of its equipment to an estimated net realizable value. In April 2012, the Company entered into an Option Agreement with Soltoro Ltd. ("Soltoro") whereby Soltoro granted the Company the right to earn an undivided 51% interest in the La Tortuga Property located in Jalisco State, Mexico (the "Soltoro Agreement"). The Soltoro Agreement required the Company to make aggregate option payments to Soltoro of \$650,000 as well as expend \$3 million on the property over three years. In August 2014, the Company formally advised Soltoro of its decision to discontinue exploration and, as a result, the Company wrote off its \$425,010 (including a \$150,000 property payment made in 2014) investment in the La Tortuga property.

Note 8. KSOP Plan:

The KSOP Plan, adopted in 1990 for retirement benefits of employees, is comprised of two parts, (1) a salary reduction component, and a 401(k) which includes provisions for discretionary contributions by the Company, and (2) an employee share ownership component, or ESOP. Allocation of common shares or cash to participants' accounts, subject to certain limitations, is at the discretion of the Board. There have been no common shares allocated to the Plan since 2011. Cash contributions for the Plan years 2014, 2013 and 2012 were approximately \$164,000, \$172,000

Net increase (decrease) in accounts payable and accrued expenses

112

and \$169,000 respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Note 9. Stock Based Compensation Plans:Equity Incentive Plans

On June 27, 2012, the shareholders approved the 2012 Equity Incentive Plan (the "2012 Plan") to replace the Company's previous equity incentive plans. In 2014, the Board amended and restated the 2012 Plan changing the maximum number of Class A common shares issuable under options granted under the 2012 Plan from a "rolling" 10% of the outstanding Class A common shares to a fixed number of 7,550,000 Class A common shares. As of December 31, 2014, there were 1,834,500 options available for grant. Grants are made for terms of up to ten years with vesting periods as required by the TSXV and as may be determined by a committee established pursuant to the 2012 Plan, or in certain cases, by the Board.

Share option transactions for the years ended December 31, 2014, 2013 and 2012 are as follows:

	2014		2013		2012	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Options outstanding - beginning of period	5,443,000	\$ 2.21	6,753,188	\$ 1.77	5,185,188	\$ 1.42
Options exercised	(55,000)	1.82	(1,560,188)	0.43	(52,500)	1.56
Options granted	310,000	4.02	250,000	3.00	1,620,500	2.89
Options outstanding - end of period	5,698,000	\$ 2.31	5,443,000	\$ 2.21	6,753,188	\$ 1.77
Options exercisable - end of period	5,491,331	\$ 2.25	4,493,000	\$ 2.27	4,568,988	\$ 1.59

The following table relates to stock options at December 31, 2014:

Exhibit 99.2 Audited Consolidated Financial Statements - Page 10

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

During the years ended December 31, 2014, 2013 and 2012, the Company granted 0.31 million, 0.25 million and 1.6 million options, respectively. The Company recorded non-cash compensation expense during 2014, 2013 and 2012 of \$0.2 million, \$0.6 million and \$2.7 million, respectively, for stock options granted in 2014 and prior periods.

The weighted average fair value of the options granted in 2014, 2013 and 2012 was calculated at \$0.87, \$0.98 and \$1.22, respectively. The fair value of options granted was determined using the Black-Scholes model based on the following weighted average assumptions:

	2014	2013	2012
Risk free interest rate	0.53%	0.34%	0.29%
Expected term	2.0 years	2.0 years	2.9 years
Expected volatility	38%	59%	65%
Dividend yield	nil	nil	nil

The risk free interest rate is based on the US Treasury rate on the date of grant for a period equal to the expected term of the option. The expected term is based on historical exercise experience and projected post-vesting behavior. The expected volatility is based on historical volatility of the Company's stock over a period equal to the expected term of the option.

Retention Plan

The Company also maintains the Gold Reserve Director and Employee Retention Plan. Units granted under the plan become fully vested and payable upon: (1) collection of Arbitral Award proceeds from the ICSID arbitration process and/or sale of mining data and the Company agrees to distribute a substantial majority of the proceeds to its shareholders or, (2) the event of a change of control. Each unit granted to a participant entitles such person to receive a cash payment equal to the fair market value of one Gold Reserve Class A common share (1) on the date the unit was granted or (2) on the date any such participant becomes entitled to payment, whichever is greater. As of December 31, 2014 an aggregate of 1,457,500 unvested units have been granted to directors and executive officers of the Company and 315,000 units have been granted to other employees. The Company currently does not accrue a liability for these units as events required for vesting of the units have not yet occurred. The minimum value of these units, based on the grant date value of the Class A common shares, was approximately \$7.7 million.

Note 10. Shareholder Rights Plan:

The Company instituted a shareholder rights plan (the "Rights Plan") in 1999. Since the original approval by the shareholders, the Rights Plan and the Rights Plan agreement have been amended and continued from time to time. In June 2012, the shareholders approved certain amendments to the Rights Plan including continuing the Rights Plan until June 30, 2015 and providing a one-time exemption to a noteholder (who presently owns approximately 26% of the Class A common shares) from triggering the Rights Plan as a result of a restructuring of convertible notes in November 2012. The Rights Plan is designed to give the Board time to consider alternatives, allow shareholders time to properly assess the merits of a bid and ensure they receive full and fair value for their common shares. One right is issued in respect of each outstanding share. The rights become exercisable only when a person, including any party related to it or acting jointly with it, acquires or announces its intention to acquire 20% or more of the Company's

outstanding shares without complying with the "permitted bid" provisions of the Rights Plan. Each right would, on exercise, entitle the holder, other than the acquiring person and related persons, to purchase Class A common shares of the Company at a 50% discount to the market price at the time.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 11

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Note 11. Convertible Notes and Interest Notes:

In the fourth quarter of 2012, the Company restructured \$85.4 million aggregate principal amount of Old Notes (the "2012 Restructuring"). Holders of an aggregate principal amount of \$84.4 million of Old Notes elected to participate in the 2012 Restructuring and \$1.0 million of Old Notes declined to participate. Pursuant to the 2012 Restructuring, the Company paid \$16.9 million cash, issued 12,412,501 Class A common shares, issued notes with a face value of \$25.3 million (the "Modified Notes") and issued CVR's totaling 5.468% of any future proceeds, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the Brisas Project Technical Mining Data.

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million of additional notes ("New Notes") also maturing December 31, 2015. \$19.2 million of the Modified Notes and \$8 million of the New Notes were issued to affiliated funds which exercised control or direction over more than 10% of the Company's common shares prior to the transactions and as a result, those portions of the transactions were considered to be related party transactions. The Modified Notes were amended to be consistent with the terms of the New Notes. The Company has an additional \$1.0 million notes issued in May 2007 (Old Notes) with a maturity date of June 15, 2022. The Old Notes bear interest at a rate of 5.50% per year, payable semiannually in arrears on June 15 and December 15 and, subject to certain conditions, may be redeemed, repurchased or converted into Class A common shares of the Company at a conversion price of \$7.54 per common share.

The New Notes and the Modified Notes (as amended from the date of closing) (the "Notes") bear interest at a rate of 11% per year, which will be accrued and capitalized quarterly, issued in the form of a note (Interest Notes) payable in cash at maturity. Subject to certain conditions, the outstanding principal of the Notes may be converted into Class A common shares of the Company, redeemed or repurchased prior to maturity. The Notes mature on December 31, 2015 and are convertible, at the option of the holder, into 285.71 Class A common shares per \$1,000 (equivalent to a conversion price of \$3.50 per common share) at any time upon prior written notice to the Company. The Company paid, in the case of the New Notes, a fee of 2.5% of the principal in the form of an original issue discount and in the case of the Modified Notes, a cash extension fee of 2.5% of the principal.

The Notes are senior unsecured, equal in rank and subject to certain terms including: (1) the technical data related to the development of the Brisas Project that was compiled by the Company and any award related to the Brisas Arbitration may not be pledged without consent of holders comprising at least 75% in principal amount of Notes; (2) the Company may not incur any additional indebtedness that ranks senior to or pari passu with the Notes in any respect without consent of holders comprising at least 75% in principal amount of Notes; (3) each Noteholder will have the right to participate, on a pro rata basis based on the amount of equity it holds, including equity issuable upon conversion of convertible securities, in any future equity or debt financing; (4) the Notes shall be redeemable on a pro rata basis, by the Company at the Noteholders' option, at a price equal to 120% of the outstanding principal balance upon the issuance of a final Arbitration Award, with respect to which enforcement has not been stayed and no annulment proceeding is pending; provided the Company shall only be obligated to make a redemption to the extent net cash proceeds received are in excess of \$20,000,000, net of taxes and \$13,500,000 to fund accrued and unpaid

prospective operating expenses; (5) capital expenditures (including exploration and related activities) shall not exceed \$500,000 in any 12-month period without the prior consent of holders of a majority of the Notes; and (6) the Company shall not agree with any of the Noteholders to any amendment or modification to any terms of the Notes, provide any fees or other compensation whether in cash or in kind to any holder of the Notes, or engage in the repurchase, redemption or other defeasance of any Notes without offering such terms, compensation or defeasance to all holders of the Notes on an equitable and pro-rata basis.

Exhibit 99.2 Audited Consolidated Financial Statements - Page 12

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

Accounting standards require the Company to allocate the convertible notes between their equity and liability component parts based on their respective fair values at the time of issuance. The liability component was computed by discounting the stream of future payments of interest and principal at the prevailing market rate for a similar liability that does not have an associated equity component. The equity portion of the notes was estimated using the residual value method at approximately \$6.5 million net of issuance costs. The fair value of the liability component is accreted to the face value of the Notes using the effective interest rate method over the expected life of the Notes, with the resulting charge recorded as interest expense. Extinguishment accounting was used for the Modified Notes resulting in a loss of \$0.2 million due to the unamortized discount remaining on the notes prior to the restructuring. As of December 31, 2014, the Company had \$38.4 million face value convertible notes and \$2.2 million face value interest notes outstanding.

Note 12. Private Placement:

During the third quarter of 2013, the Company completed a private placement for general working capital purposes for gross proceeds totaling \$5.25 million (\$5.0 million net of expenses). The private placement consisted of 1,750,000 units comprised of one Class A common share and one-half of one Class A common share purchase warrant, with each whole warrant exercisable by the holder for a period of two years after its issuance to acquire one Class A common share at a price of \$4.00 per share. An aggregate 1.5 million units were issued to affiliated funds which exercised control or direction over more than 10% of the Company's common shares prior to the private placement and as a result, this portion of the private placement was considered to be a related party transaction. The proceeds were used for general working capital purposes.

The fair value of the warrants issued in the private placement was \$543,915 and was determined using the Black-Scholes model based on the following weighted average assumptions:

Risk free interest rate	0.39%
Expected term	2 years
Expected volatility	55%
Dividend yield	nil

The risk free interest rate is based on the US Treasury rate on the date of grant for a period equal to the expected term of the warrant. The expected term is based on the legal life of the warrant. The expected volatility is based on historical volatility of the Company's stock over a period equal to the expected term of the warrant. As of December 31, 2014, all of the 875,000 whole warrants issued in the private placement remained outstanding.

Note 13. Income Tax:

Net increase (decrease) in accounts payable and accrued expenses

120

Edgar Filing: GOLD RESERVE INC - Form 40-F

Income tax expense differs from the amount that would result from applying Canadian tax rates to net loss before taxes. These differences result from the items noted below:

	2014		2013		2012
Income tax benefit based on Canadian tax rates	\$ 6,220,193		\$ 3,859,103		\$ 2,506,275
Increase (decrease) due to:					
Different tax rates on foreign subsidiaries	251,888		284,904		623,387
Non-deductible expenses	(1,491,285)		(1,419,266)		(2,617,969)
Change in valuation allowance and other	(4,980,796)		(2,724,741)		(511,693)
	\$ -		\$ -		\$ -

Exhibit 99.2 Audited Consolidated Financial Statements - Page 13

GOLD RESERVE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. dollars)

No current income tax has been recorded by the Company for the three years ended December 31, 2014. The Company has recorded a valuation allowance to reflect the estimated amount of the future tax assets which may not be realized, principally due to the uncertainty of utilization of net operating losses and other carry forwards prior to expiration. The valuation allowance for future tax assets may be reduced in the near term if the Company's estimate of future taxable income changes. The components of the Canadian and U.S. future income tax assets as of December 31, 2014 and 2013 were as follows:

	Future Tax Asset	
	2014	2013
Accounts payable and accrued expenses	\$ 30,458	\$ 28,507
Property, plant and equipment	(2,558)	(3,714)
Total temporary differences	27,900	24,793
Net operating loss carry forward	41,147,463	40,192,459
Capital loss carry forward	314,962	—
Alternative minimum tax credit	19,871	19,871
Total temporary differences, operating losses and tax credit carry forwards	41,510,196	40,237,123
Valuation allowance	(41,510,196)	(40,237,123)
Net deferred tax asset	\$ —	\$ —

At December 31, 2014, the Company had the following U.S. and Canadian tax loss carry forwards:

	U.S.	Canadian	Expires
\$	—	\$ 199,768	2015
	1,386,674	—	2018
	1,621,230	—	2019
	665,664	—	2020
	896,833	—	2021
	1,435,774	—	2022
	1,806,275	—	2023
	2,386,407	—	2024
	3,680,288	—	2025
	4,622,825	2,252,677	2026
	6,033,603	4,180,676	2027
	4,360,823	15,934,831	2028
	1,769,963	15,101,557	2029
	2,159,079	18,657,134	2030
	3,216,024	20,891,671	2031
	3,041,866	6,060,909	2032

Exhibit 99.2 Audited Consolidated Financial Statements - Page 14

Exhibit 99.3 Management's Discussion and Analysis

The following Management's Discussion and Analysis ("MD&A") of Gold Reserve Inc. (the "Company" or "Gold Reserve") should be read in conjunction with the audited consolidated financial statements for the years ended December 31, 2014 and 2013, the related notes contained therein as well as the 2013 MD&A. This MD&A has been approved by the Board of Directors of the Company (the "Board") and is dated April 24, 2015

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS AND INFORMATION

The information presented or incorporated by reference herein contains both historical information and "forward-looking statements" within the meaning of the relevant sections of Section 27A and Section 21E of the Exchange Act, and "forward-looking information" within the meaning of applicable Canadian securities laws, that state the Company's intentions, hopes, beliefs, expectations or predictions for the future. Forward-looking statements and forward-looking information are collectively referred to herein as "forward-looking statements".

In this Management's Discussion and Analysis, forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic, legal and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein and many of which are outside its control.

Some of the material factors or assumptions used to develop forward-looking statements include, without limitation; the uncertainties associated with: the timing of the enforcement and collection of the amounts awarded (including pre and post award interest and legal costs) (the "Arbitral Award") by the International Centre for Settlement of Investment Disputes (the "ICSID") for the losses caused by Venezuela violating the terms of the treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT") related to the Brisas Project (the "Brisas Arbitration"), actions and/or responses by the Venezuelan government to the Company's collection efforts related to the Brisas Arbitration, economic and industry conditions influencing the sale of the Brisas Project related equipment, and conditions or events impacting the Company's ability to fund its operations and/or service its debt.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize or may prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to future results.

Numerous factors could cause actual results to differ materially from those described in the forward-looking statements, including without limitation:

- the timing of the enforcement and collection of the Arbitral Award (as defined herein), if at all;

Net increase (decrease) in accounts payable and accrued expenses

- the costs associated with the enforcement and collection of the Arbitral Award and the complexity and uncertainty of varied legal processes in various international jurisdictions;
- the Company's current liquidity and capital resources and access to additional funding in the future when required;
- continued servicing or restructuring of the Company's outstanding notes or other obligations as they come due;
- shareholder dilution resulting from restructuring or refinancing the Company's outstanding notes and current accounts payable relating to the Company's legal fees;
- shareholder dilution resulting from the conversion of our outstanding notes in part or in whole to equity;
- shareholder dilution resulting from the sale of additional equity;
- value realized from the disposition of the remaining Brisas Project related assets, if any;

Exhibit 99.3 Management's Discussion & Analysis - Page 1

- value realized from the disposition of the Brisas Project Technical Mining Data (as defined herein), if any;
- prospects for exploration and development of other mining projects by the Company;
- ability to maintain continued listing on the TSX Venture Exchange or continued trading on the OTCQB;
- corruption, uncertain legal enforcement and political and social instability;
- currency, metal prices and metal production volatility;
- adverse U.S. and/or Canadian tax consequences;
- abilities and continued participation of certain key employees; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. See "Risk Factors" for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the U.S. Securities and Exchange Commission (the "SEC") or other securities regulators or documents presented on the Company's website. Forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to the Company's disclosure obligations under applicable U.S. and Canadian securities regulations. Investors are urged to read the Company's filings with U.S. and Canadian securities regulatory agencies, which can be viewed online at www.sec.gov and www.sedar.com, respectively.

Gold Reserve, an exploration stage mining company, is engaged in the business of acquiring, exploring and developing mining projects. Management's recent activities have focused on:

- concluding its arbitration claim (the "Brisas Arbitration") against Venezuela in connection with the seizure of the Company's Brisas Project through the issuance by the tribunal (the "ICSID Tribunal" or "Tribunal") of the International Center for Investment Disputes (the "ICSID") of an arbitral award (the "Arbitral Award" or "Award") on September 22, 2014 and reconfirmation on December 15, 2014;
- pursuing any and all means to ensure timely payment of the Arbitral Award by the government of Venezuela and identifying appropriate assets that might be seized or attached in satisfaction of the Arbitral Award;
- negotiating and closing an agreement to extend the maturity date of \$25.3 million aggregate principal amount of convertible notes (the "Modified Notes") from June 29, 2014 to December 31, 2015, issue \$12 million of new notes (the "New Notes") also maturing December 31, 2015 and agreeing to pay future interest on the Modified and New Notes at 11% interest in the form of a note (the "Interest Notes") payable in cash at maturity on December 31, 2015;

- pursuing all efforts to sell the remaining Brisas Project related assets; and
- evaluating other exploration mining prospects.

EXPLORATION PROSPECTS

La Tortuga Property

In April 2012, Soltoro Ltd. granted the Company the right to earn an undivided 51% interest in the 11,562 hectare La Tortuga property, a copper and gold prospect located in Jalisco State, Mexico, by making an aggregate \$3.65 million in option payments and property expenditures over three years. Over approximately a two year period the Company compiled data, completed a number of studies on the property and made option payments totaling \$0.4 million (including a \$0.15 million property payment made in 2014). During this period, the Mexican authorities changed its focus on environmental reviews and approvals which caused the Environment Ministry (SEMARNAT – Secretaria del Medio Ambiente y Recursos Naturales) to require the Company to resubmit its drilling permit application, expand its environmental baseline study and add additional other items. Management's perceived change related to the Mexican government's posture towards mining led management and the Board to conclude that continued investment in the property was no longer warranted and as a consequence the Company expensed all previously capitalized costs as of June 30, 2014 and formally terminated its option on the property in August 2014.

The Company continues to evaluate alternative prospects with a focus on, among other things, location, the mineralized potential, economic factors and the level and quality of previous work completed on the prospect. The Company is focused on prospects that are located in politically friendly jurisdictions, which have a clear and well-established mining, tax and environmental laws and an experienced mining authority.

BRISAS ARBITRAL AWARD

In October 2009, Gold Reserve initiated a claim (the "Brisas Arbitration") under the Additional Facility Rules of the ICSID of the World Bank to seek compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT"). (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1)).

The September 22, 2014 ICSID Arbitral Award

On September 22, 2014, the ICSID Tribunal unanimously awarded to the Company the Arbitral Award totaling (i) \$713 million in damages, plus (ii) pre-award interest from April 2008 through the date of the Award based on the U.S. Government Treasury Bill Rate, compounded annually totaling, as of the date of the Award, approximately \$22.3 million and (iii) \$5 million for legal costs and expenses, for a total, as of September 22, 2014, of \$740.3 million. The Award (less legal costs and expenses) accrues post-award interest at a rate of LIBOR plus 2%, compounded annually, which currently approximates \$52,000 per day.

An ICSID Additional Facility Award is enforceable globally in jurisdictions that allow for the recognition and enforcement of commercial arbitral awards. There exists an international instrument created for the purpose of facilitating such recognition and enforcement, the United Nations Convention for the Recognition and Enforcement of Foreign Arbitral Awards (June 10, 1958), 21 U.S.T. 2517, 330 U.N.T.S. 38 (the "New York Convention") to which over 150 countries, including the United States, are a party. Under the New York Convention, arbitral awards may be recognized as a judgment of the court and execution may be done by attaching assets belonging to the award debtor.

Payment Demand Letter

Net increase (decrease) in accounts payable and accrued expenses

Subsequent to the issuance of the Arbitral Award, Gold Reserve sent a demand letter to Venezuela and commenced efforts to ensure the enforcement and collection of the Award. Shortly thereafter, representatives from Venezuela and the Company met in the first of several meetings to discuss the satisfaction of the Award. No agreement has been reached to-date. Although the Company currently believes that Venezuela will ultimately honor its international obligations, there can be no assurances in this regard and management anticipates that Venezuela will make every effort to challenge the validity and/or amount of the Arbitral Award in the near term and vigorously oppose any action the Company may take in the various jurisdictions around the world to effect full enforcement and payment of the Award. Management is pursuing any and all means to ensure timely payment by the government of Venezuela and is fully engaged in executing its strategy to ensure the recognition and collection of the Arbitral Award.

Exhibit 99.3 Management's Discussion & Analysis - Page 3

The Company remains firmly committed to the enforcement and collection of the Arbitral Award including accrued interest in full and will continue to vigorously pursue all available remedies accordingly in every jurisdiction where it perceives that it can draw a benefit that will bring it closer to the collection of the Arbitral Award.

The December 15, 2014 Reconfirmation of Arbitral Award

The ICSID Additional Facility Arbitration Rules allow only three types of post-award remedies –interpretation (Article 55), correction (Article 56), and supplementary decisions (Article 57). Each of these procedures must be initiated within 45 days of the issuance of an award for any further remedy before the ICSID Tribunal.

Within the 45 day time period, both Venezuela and the Company filed requests for the ICSID Tribunal to correct what each party identified as "clerical, arithmetical or similar errors" in the Award as is permitted by Article 56 of the arbitration rules of ICSID's Additional Facility ("Article 56"). Article 56 does not permit reconsideration by the Tribunal of any aspect of its award and does not permit correction to an error of judgment. Rather, it permits the Tribunal to correct inadvertent arithmetic or typographical errors. While the Company identified what it considered an inadvertent arithmetic error that warranted an increase in the Award of approximately \$50 million, Venezuela identified what it contended were significant inadvertent arithmetic errors that it argued supported a reduction of the Award by approximately \$361 million (more than 50% of the original Award). On November 13, 2014, the Company and Venezuela submitted replies to each party's request for corrections of the Award.

After considering both parties' submissions the Tribunal, on December 15, 2014, denied both parties' requests for correction and reaffirmed, in a written decision, the Award originally rendered in favor of Gold Reserve on September 22, 2014 (the "December 15th Decision"). The conclusion of this proceeding marked the end of the Tribunal's jurisdiction with respect to the Award.

Legal Activities in France

The Award was issued by a Tribunal constituted pursuant to the arbitration rules of ICSID's Additional Facility and, by agreement of the parties, the seat of the Tribunal was in Paris. As a consequence, the Award is subject to review by the French courts.

Requests for Annulment

Application for Annulment of the September 22, 2014 ICSID Arbitral Award

Accordingly, in late October 2014, Venezuela filed an application before the Paris Court of Appeal, declaring its intent to have the September 2014 Award annulled or set aside. Under French law, the annulment of an award is only available in very limited circumstances, intended primarily for cases in which the petitioner can demonstrate that the Tribunal exceeded its powers, denied the parties due process in the arbitration, or issued an award that somehow offends against international public order (the term used in American legal terminology is "public policy"). This procedure does not permit a review on the merits of the Award, or to re-try the case heard by the Tribunal.

Under the applicable rules of procedure, Venezuela had 5 months, or until March 20, 2015, to state its case relating to the annulment or setting aside of the Award, which it did on March 20, 2015. Amongst other things, Venezuela argued that the Tribunal lacked jurisdiction, violated its fundamental procedural rights, exceeded its mandate (or mission) and violated international public order (or policy).

According to the schedule established by the Paris Court of Appeal, written pleadings are to be closed by October 15, 2015 and the hearing of Venezuela's application to annul is to take place on November 3, 2015. The application will be heard by a panel of three judges from Division 1 of the Court's *Pôle 1*, which is the division whose judges specialize in international and arbitration disputes. At this stage, the Company expects that a judgment on Venezuela's application will be rendered before the end of the year, although this is a matter over which the Company has no control

Exhibit 99.3 Management's Discussion & Analysis - Page 4

Application for Annulment of the December 15, 2014 Reconfirmation of Arbitral Award

Venezuela has filed before the Paris Court of Appeal another application to annul an arbitral award, the December 15th Decision of the Tribunal dismissing Venezuela's motion to correct the Award pursuant to which Venezuela was alleging that through various "clerical, arithmetical or similar errors", the Tribunal had incorrectly awarded the Company an excess of \$361 million in damages (see December 15, 2014 Reconfirmation of Arbitral Award above). The process will be the same as in the annulment proceedings related to the September 22, 2014 Award with the Court establishing a pleading and hearing schedule after Venezuela files its case on or before June 5, 2015.

The existence of the annulment proceedings of the September 22, 2014 Award, and/or the December 15, 2014 reconfirmation of the Award, does not affect the finality of the Award or its enforceability in the interim.

Petition for Exequatur

In early November 2014, the Company filed a petition before the Paris Court of Appeal, the same court handling Venezuela's application for annulment, to obtain an order of *exequatur* for the recognition of the Company's Award as a judgment of the Court. An *exequatur* renders an award enforceable as a judgment of the Court of Appeal. Venezuela filed a submission opposing the Company's request for *exequatur* and, in the alternative, requested a stay of execution pending the determination of its application for annulment of the Award. On January 8, 2015, the Paris Court of Appeal heard oral submissions by the parties regarding the Company's petition for *exequatur* and Venezuela's request to stay execution.

On January 29, 2015, the Paris Court of Appeal granted the Company's petition for *exequatur*. Moreover, the Court dismissed Venezuela's request to stay the execution of the Award pending the outcome of its application to annul the Award, holding that none of the grounds alleged by Venezuela (including the lack of jurisdiction of the Tribunal, the violation of international public order, or alleged errors in the calculation of the damages awarded) constituted a sufficient reason to stay the execution of the Award pending the annulment proceedings.

The Paris Court of Appeal's decision to recognize the Company's Award as a judgment of the Court is of particular significance as it was rendered following a full hearing of the parties, by a court of appeal which is recognized internationally for its expertise on arbitration matters. The Company's management believes the decision will be useful to assist management in the enforcement proceedings it has instituted in other jurisdictions including, in particular, the United States, and should limit the ability of Venezuela to delay unduly the enforcement of the Arbitral Award.

The *exequatur* or recognition of the Company's ICSID Award as a judgement of the Court, granted on January 29, 2015, is not appealable and remains in full force and effect since Venezuela was denied its motion to stay the execution of the Award.

Legal Activities in US District Court for the District of Columbia

On November 26, 2014 the Company filed, in the US District Court for the District of Columbia ("DDC"), a petition to confirm the Award dated September 22, 2014. The petition for confirmation is a summary proceeding brought under the New York Convention and Chapter 2 of the Federal Arbitration Act ("FAA"), 9 U.S.C. §§ 201 et seq. Once the Award is confirmed it will be enforceable in the United States as a judgment of the court.

Under the New York Convention and FAA, the confirming court is not entitled to review the merits of the decision but simply to verify that the arbitral award meets the requirements of the Convention, and that no exception to the

Convention's rule of recognition and enforcement is present. Accordingly, an arbitral award, such as the present Award, must be confirmed, unless the award debtor, who opposes the confirmation, satisfies the confirming court by adducing sufficient proof that:

Exhibit 99.3 Management's Discussion & Analysis - Page 5

(a) the parties to the arbitration agreement were, under the law applicable to them, under some incapacity, or the said agreement is not valid under the law to which the parties have subjected it or, failing any indication thereon, under the law of the country where the award was made; (b) the party against whom the award is invoked was not given proper notice of the appointment of the arbitrator or of the arbitration proceedings or was otherwise unable to present his case; (c) the award deals with a difference not contemplated by or not falling within the terms of the submission to arbitration, or it contains decisions on matters beyond the scope of the submission to arbitration; (d) the composition of the arbitral authority or the arbitral procedure was not in accordance with the agreement of the parties, or, failing such agreement, was not in accordance with the law of the country where the arbitration took place; or (e) the award has not yet become binding on the parties, or has been set aside or suspended by a competent authority of the country in which, or under the law of which, that award was made.

Confirmation of an arbitral award such as the Award may also be refused under the New York Convention if the confirming court finds that: (a) the subject matter of the difference is not capable of settlement by arbitration under the law of the United States; or (b) the confirmation of the Award would be contrary to the public policy of the United States.

The initial step for the proceeding was to serve Venezuela with the petition and other related documents. Once served, Venezuela had 60 days to respond with any arguments it believed it had against the petition to confirm. Since the inception of these proceedings, Venezuela willfully avoided service, refused, among other things, to authorize its U.S. counsel to accept service and otherwise contested the validity of service, raising non-meritorious and irrelevant objections to service.

As a result of that refusal to accept service, on December 31, 2014, the Company initiated service in accordance with the statutory provision of the United States Code, and the Hague Convention on the Service Abroad of Judicial and Extrajudicial Documents in Civil or Commercial Matters.

Receipt of the documents on January 8, 2015, was acknowledged by letter from the Venezuelan Foreign Ministry dated January 26, 2015, but only received by the Company's process server on March 2, 2015. In this letter, however, Venezuela contested the validity of the service, raising non-meritorious and irrelevant objections to service. Therefore, the Company believed Venezuela was properly served on January 8, 2015.

As a result, and at the expiry of the 60-day period following the service of the documents, the Company, on March 26, 2015, requested the Clerk of the DDC to enter default against Venezuela, on the basis that the documents had been duly received by the proper recipient of the service process. The Clerk agreed with the position of the Company and entered default on March 27, 2015.

The consequence of the default being entered against Venezuela in respect of appearance was that Venezuela had to contend with the potential threat of a default judgment being entered against it upon motion by the Company. To avoid this, U.S. counsel appointed by Venezuela (the same counsel in the ICSID arbitration) entered an appearance, after close of business on March 27, 2015, the same day that the default was entered, for the purpose of opposing the entry of default and requesting that it be set aside.

Filing by the Company of a response to Venezuela's opposition and subsequent discussions between the parties led Venezuela to agree, on April 15, 2015, to accept service of Gold Reserve's Petition to confirm the Award and further agree to respond to the Petition within sixty (60) days of the agreed service date, i.e., on or before June 12, 2015. As part of the agreement Gold Reserve agreed to vacate the clerk's entry of default entered on March 27, 2015 against Venezuela. The agreement has been recorded in an Order of the DDC dated April 15, 2015.

The Company's intention is to move expeditiously towards obtaining confirmation of the Award in the U.S. and consider enforcement options in due course.

Legal Activities in Luxembourg

On October 28, 2014, the Company filed for and was granted an exequatur (recognition and execution) of the Award by Tribunal d'arrondissement de et à Luxembourg. As a result, in Luxembourg the Award is declared enforceable in the same manner as if it were a judgment handed down by a court of the Grand Duchy of Luxembourg and allows the Company to proceed with conservatory actions against Venezuela's assets in the Grand Duchy of Luxembourg.

Exhibit 99.3 Management's Discussion & Analysis - Page 6

On January 12, 2015, Venezuela filed a notice of appeal of this decision in the Cour d'appel de Luxembourg (the "Luxembourg Court of Appeal"), reiterating, for the most part, the arguments made before, and dismissed by, the Paris Court of Appeal, to oppose the Company's petition for *exequatur*. In addition, Venezuela raised some other argument of form specific to Luxembourg law, alleging non-compliance with language requirements of certain exhibits and of the *exequatur* order itself, which, the Company believes, are dilatory, meritless and contradicted by the Court record. In addition, Venezuela asked for a stay of execution pending the determination of its application to annul the Award before the Paris Court of Appeal.

The Luxembourg Court of Appeal recently issued a scheduling direction, dividing Venezuela's arguments in two and ordering that the arguments on form and the request for stay of execution be heard together, on May 21, 2015. In accordance with the scheduling direction, the Company filed its response to Venezuela's first set of arguments, on March 16, 2015.

Following the granting of the *exequatur*, the Company, on several occasions, served on various Luxembourg banks the equivalent of writs of garnishment relating to over US \$700 million interest payments on Venezuela sovereign bonds and any other funds owned by Venezuela. These banks were chosen because they are designated as paying agents or transfer agents in listing memoranda relating to various bonds issued by Venezuela and listed on the Luxembourg Stock Exchange. So far, the banks have denied holding funds for the account of Venezuela, which appears to contradict the information contained in the listing memoranda. As a result, the Company intends to have the issue determined by the appropriate court or judge having jurisdiction in Luxembourg over such matters.

Venezuela's Intent to Develop the Brisas/Las Cristinas Mine

Historically Venezuela has publicly stated its intent to develop the Brisas Project and contiguous areas and has reportedly had discussions with one or more major corporations for initial studies related to the development and eventual construction of the Brisas or Brisas-Cristinas mine as a large gold-copper complex. In December 2013, the Venezuelan government granted the gold exploration and mining rights in three areas located in Bolivar State (including the area of the Brisas gold and copper deposit) valued at \$30 billion to Empresa Nacional Aurifera, S.A. ("ENA"), a subsidiary of the Venezuelan State-owned oil company Petr leos de Venezuela, S.A. ("PDVSA") and concurrently ENA sold a 40% interest to Venezuela's central bank, Banco Central de Venezuela (BCV) for an estimated \$12 billion allowing PDVSA to offset promissory notes payable to BCV totaling \$21.5 billion and record a gain on the transaction of approximately \$9.5 billion. Gold Reserve is prepared to assist Venezuela to find a joint solution that would include the transfer of the extensive technical data related to the development of the Brisas Project that was compiled by the Company. This would allow PDVSA, ENA, BCV and their contractor/consultants to develop Brisas on an accelerated basis for the benefit of Venezuela, with appropriate compensation for the Company apart from the collection of any payments associated with the Award.

The Company's Intent to Distribute Collection of the Arbitral Award to Shareholders

Subject to applicable regulatory requirements regarding capital and reserves for operating expenses, accounts payable and income taxes, and any obligations arising as a result of the collection of the ICSID Award including payments pursuant to the terms of the convertible notes (if not otherwise converted), Interest Notes, CVR's, Bonus Plan and Retention Plan (all as defined herein) or undertakings made to a court of law, the Company's current plans are to distribute to its shareholders, in the most cost efficient manner, a substantial majority of any net proceeds.

Obligations Due Upon Collection of Arbitral Award and Sale of Brisas Technical Mining Data

The Board of Directors (the "Board") approved a Bonus Pool Plan ("Bonus Plan") in May 2012, which is intended to reward the participants, including executive officers, employees, directors and consultants, for their past and future contributions including their efforts related to the development of the Brisas Project, execution of the Brisas Arbitration and the collection of an award, if any. The bonus pool under the Bonus Plan will generally be comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes times 1% of the first \$200 million and 5% thereafter. Participation in the Bonus Plan vests upon the participant's selection by the Committee of independent directors, subject to voluntary termination of employment or termination for cause. The Company also maintains the Gold Reserve Director and Employee Retention Plan (see Note 9 to the audited consolidated financial statements). Units ("Retention Units") granted under the plan become fully vested and payable upon: (1) collection of proceeds from the Arbitral Award and/or sale of mining data and the Company agrees to distribute a substantial majority of the proceeds to its shareholders or, (2) the event of a change of control. The Company currently does not accrue a liability for the Bonus or Retention Plan as events required for payment under the Plans have not yet occurred.

The Company has outstanding contingent value rights ("CVR's") which entitles each note holder that participated in the 2012 Restructuring (as defined herein) to receive, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), a pro rata portion of a maximum aggregate amount of 5.468% of the proceeds actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the technical data related to the development of the Brisas Project that was compiled by the Company (the "Brisas Project Technical Mining Data"). The proceeds, if any, could be cash, commodities, bonds, shares and/or any other consideration received by the Company and if such proceeds are other than cash, the fair market value of such non-cash proceeds, net of any required deductions (e.g., for taxes) will be subject to the CVR's and will become an obligation of the Company only as the Arbitral Award is collected.

Included in accounts payable is approximately \$2.9 million which represents legal fees deferred during the arbitration but now payable as a result of the Arbitral Award. In addition, the Company is obligated to pay contingent legal fees of approximately \$1.7 million due upon the collection of the Award.

FINANCIAL OVERVIEW

The Company's overall financial position continues to be influenced by a number of significant historical events: the seizure of the Brisas Project by the Venezuelan government, legal costs related to obtaining the Arbitral Award and efforts to enforce and collect it, interest expense related to notes payable, the subsequent write-off of the accumulated Brisas Project development costs, impairment of the value of the equipment originally acquired for the Brisas Project and our restructuring of outstanding debt in 2012 and 2014.

Recent operating results continue to be influenced by expenses associated with the enforcement and collection of the Arbitral Award in various international jurisdictions, interest expense related to our debt, further write-down of Brisas Project equipment, maintaining the Company's legal and regulatory obligations in good standing and expenses associated with exploration projects including past activities on the La Tortuga project.

The Company has no commercial production and, as a result, continues to experience losses from operations, a trend the Company expects to continue unless the Company collects, in part or whole, the Arbitral Award and/or acquires and develops a mineral project which results in positive results from operations.

Historically the Company has financed its operations through the issuance of common stock, other equity securities and debt. The timing of any future investments or transactions if any, and the amounts that may be required cannot be determined at this time and are subject to available cash, the collection, if any, of the Award, sale of remaining Brisas Project related equipment, the timing of the conversion or maturity of the outstanding convertible notes and/or future financings, if any. The Company has only one operating segment, the exploration and development of mineral properties.

The Company's efforts to address its longer-term funding requirements may be adversely impacted by financial market conditions, industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms. In view of these uncertainties there is substantial doubt about the Company's ability to continue as a going concern.

Exhibit 99.3 Management's Discussion & Analysis - Page 8

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million of New Notes also maturing December 31, 2015, net of costs of approximately \$1.3 million. The terms of the Agreement were finalized on May 7, 2014. The Modified Notes were amended to be consistent with the terms of the New Notes (as more fully described herein and in Note 11 to the audited consolidated financial statements).

During the third quarter of 2013, the Company closed a previously agreed to private placement for gross proceeds totaling \$5.2 million (\$5.0 million net of expenses). The private placement consisted of 1,750,000 units comprised of one Class A common share and one-half of one Class A common share purchase warrant, with each whole warrant exercisable by the holder for a period of two years after its issuance to acquire one Class A common share at a price of \$4.00 per share.

Future financings may be adversely impacted by financial market conditions, industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms.

SELECTED ANNUAL INFORMATION

	2014	2013	2012
Other income (loss)	\$ (7,271,670)	\$ (176,598)	\$ 9,562,287
Loss from continuing operations	\$ (24,880,770)	\$ (15,436,410)	\$ (10,025,101)
Per share	\$ (0.33)	\$ (0.21)	\$ (0.16)
Total Assets	\$ 19,409,084	\$ 22,756,769	\$ 28,437,052
Total non-current financial liabilities	\$ 2,054,491	\$ 25,011,149	\$ 21,037,945
Distributions or cash dividends declared per share	-	-	-

Factors that have caused period to period variations are more fully discussed below.

Liquidity and Capital Resources

At December 31, 2014, the Company had cash and cash equivalents of approximately \$6.4 million which represents an increase from December 31, 2013 of approximately \$3.5 million. The net increase was primarily due to proceeds from the issuance of convertible notes offset by cash used by operations. The activities that resulted in the net change in cash are more fully described in the "Operating," "Investing" and "Financing" Activities sections below.

	2014	Change	2013
Cash and cash equivalents	\$ 6,439,147	\$ 3,463,310	\$ 2,975,837

As of December 31, 2014, the Company had financial resources including cash, cash equivalents and marketable securities totaling approximately \$6.6 million, Brisas Project related equipment which is subject to disposal with an estimated fair value of approximately \$12.4 million (See Note 7 to the audited consolidated financial statements) and short-term financial obligations including convertible notes and interest notes of \$39.5 million face value and accounts payable and accrued expenses of approximately \$3.9 million. Included in accounts payable is approximately \$2.9 million which represents legal fees deferred during the arbitration but now payable as a result of the Award. In addition, the Company is obligated to pay contingent legal fees of approximately \$1.7 million due upon the collection of the Award. As of the date of this report, the Company had approximately \$4.8 million in cash and investments, which are held primarily in U.S. dollar denominated accounts.

Net increase (decrease) in accounts payable and accrued expenses

The Company has no revenue producing operations at this time and its working capital position, cash burn rate and debt maturity schedule will require the Company to seek additional sources of funding to ensure the Company's ability to continue its activities in the normal course. To address its longer-term funding requirements, primarily the convertible notes due in December 2015, the Company is continuing its efforts to dispose of the remaining Brisas Project related assets and pursue a timely and successful collection of the Arbitral Award and sale of the Brisas Project Technical Mining Data. The Company may also initiate other debt and equity funding alternatives that may be available.

Operating Activities

Cash flow used by operating activities for the years ended December 31, 2014, 2013 and 2012 was approximately \$7.2 million, \$11.0 million and \$13.2 million, respectively. Cash flow used by operating activities consists of net operating losses (the components of which are more fully discussed below) adjusted for certain non-cash income and expense items primarily related to accretion of convertible notes, write-down of property, plant and equipment, settlement of debt, stock options and common shares issued in lieu of cash and certain non-cash changes in working capital.

Cash flow used by operating activities during the year ended December 31, 2014 decreased from the prior comparable period generally due to interest payments made in the form of notes partially offset by an increase in corporate general and administrative expense as a result of costs associated with the restructuring of convertible notes.

Investing Activities

	2014		Change		2013		Change		2012
Net proceeds from sale of marketable securities	\$ -	\$	(8,461)	\$	8,461	\$	(5,184)	\$	13,645
Purchase of property, plant and equipment	(150,000)		(21,715)		(128,285)		30,853		(159,138)
Proceeds from sale of equipment	69,433		69,433		-		(277,965)		277,965
	\$ (80,567)	\$	39,257	\$	(119,824)	\$	(252,296)	\$	132,472

During the years ended December 31, 2014 and 2013, the Company paid \$150,000 and \$125,000, respectively in accordance with the terms of its option agreement related to the La Tortuga property. In August 2014, the Company terminated its option agreement and wrote-off \$0.4 million in option payments previously capitalized, which included the option payments noted above (See Note 7 to the audited consolidated financial statements). In the fourth quarter of 2014, the Company sold some minor Brisas Project related equipment for approximately \$69,000. As of December 31, 2014, the Company held approximately \$12.4 million of Brisas equipment intended for future sale.

Financing Activities

	2014		Change		2013		Change		2012

142

Edgar Filing: GOLD RESERVE INC - Form 40-F

\$ 10,779,612 \$ 5,079,413 \$ 5,700,199 \$ 41,990,893 \$ (36,290,694)

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million face value of New Notes also maturing December 31, 2015. The Modified Notes were amended to be consistent with the terms of the New Notes.

Exhibit 99.3 Management's Discussion & Analysis - Page 10

The New Notes and the Modified Notes (as amended from the date of closing) (the "Notes") bear interest at 11% per year, which will be paid quarterly by issuance of a note (Interest Notes) and be payable in cash upon maturity on December 31, 2015. Subject to certain conditions, the outstanding principal may be converted into Class A common shares of the Company, redeemed or repurchased prior to maturity. The Notes mature on December 31, 2015 and are convertible, at the option of the holder, into 285.71 shares of Class A common shares per \$1,000 (equivalent to a conversion price of \$3.50 per common share) at any time upon prior written notice to the Company. The Company paid, in the case of the New Notes, a fee of approximately \$0.3 million or 2.5% of the principal in the form of an original issue discount and in the case of the Modified Notes, a cash extension fee of approximately \$0.6 million or 2.5% of the principal. (See Note 11 to the audited consolidated financial statements).

Net proceeds from the issuance of common shares during the year ended December 31, 2014 relate to the exercise of employee stock options. In 2013, the Company completed a \$5.0 million private placement financing and also received \$0.6 million from the exercise of employee stock options. Funds provided or used by financing activities in 2012 primarily resulted from the redemption and restructuring of convertible notes inclusive of restructuring fees.

Contractual Obligations

The following table sets forth information on the Company's material contractual obligation payments for the periods indicated as of December 31, 2014 (For further details see "Financing Activities" above and Note 11 to the audited consolidated financial statements):

	Payments due by Period				
	Total	Less than 1 Year	1-3 Years	4-5 Years	More Than 5 Years
Convertible Notes ^{1,2}	\$ 38,350,000	\$ 37,308,000	\$ -	\$ -	\$ 1,042,000
Interest Notes ²	6,754,086	6,754,086	-	-	-
Interest	429,825	57,310	114,620	114,620	143,275
	\$ 45,533,911	\$ 44,119,396	\$ 114,620	\$ 114,620	\$ 1,185,275

1 Includes \$37,308,000 principal amount of 11% convertible notes due December 31, 2015 and \$1,042,000 principal amount of 5.50% convertible notes due June 15, 2022. Subject to certain conditions, the notes may be converted into Class A common shares of the Company, redeemed or repurchased. The amounts shown above include the interest and principal payments due unless the notes are converted, redeemed or repurchased prior to their due date (See Note 11 to the audited consolidated financial statements).

The convertible notes consist of \$25,308,000 of notes issued in 2012 pursuant to the 2012 Restructuring and subsequently extended and amended pursuant to the 2014 Restructuring (the "Modified Notes"); \$12,000,000 of notes issued in 2014 pursuant to the 2014 Restructuring (the "New Notes") and \$1,042,000 of notes originally issued in May 2007 and still outstanding (the "Old Notes"). Interest Notes consist of interest at 11% per year due on the Modified Notes and the New Notes which is accrued and paid quarterly in the form of a note which is payable in cash at maturity.

The 2012 Restructuring refers to the exchange by the Company and the holders of \$102.3 million of Old Notes for \$33.8 million cash, 12,412,501 Class A common shares, modified notes with a face value of \$25.3 million ("Modified Notes") and contingent value rights ("CVR's") totaling 5.468% of any future proceeds, net of certain deductions.

The 2014 Restructuring refers to the extension of the maturity date of the \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015, the issuance of \$12 million of New Notes also maturing December 31, 2015. The interest paid on the Modified Notes was increased to 11% from 5.5% to be consistent with the interest paid on the New Notes.

2 The amount recorded as convertible notes and interest notes in the consolidated balance sheet as of December 31, 2014 is comprised of \$34.4 million carrying value of Modified Notes, New Notes and Interest Notes (all due on December 31, 2015) issued pursuant to the 2014 Restructuring and \$1.0 million of Old Notes (due June 15, 2022) held by other note holders who declined to participate in the 2012 Restructuring. The carrying value of notes will be accreted to face value using the effective interest rate method over the expected life of the notes with the resulting charge recorded as interest expense.

Results of Operations

Summary

Consolidated other income (loss), total expenses and net loss for the three years ended December 31, 2014 were as follows:

	2014	Change	2013	Change	2012
Other Income (Loss)	\$ (7,271,670)	\$ (7,095,072)	\$ (176,598)	\$ (9,738,885)	\$ 9,562,287
Total Expenses	(17,609,100)	(2,349,288)	(15,259,812)	4,327,576	(19,587,388)
Net Loss	\$ (24,880,770)	\$ (9,444,360)	\$ (15,436,410)	\$ (5,411,309)	\$ (10,025,101)
Net loss per share	\$ (0.33)		\$ (0.21)		\$ (0.16)

Exhibit 99.3 Management's Discussion & Analysis - Page 11

Other Income (Loss)

The Company has no commercial production and, as a result, other income (loss) from period to period is due to one-time or otherwise variable sources of income.

	2014	Change	2013	Change	2012
Interest	\$ 737	\$ (409)	\$ 1,146	\$ (14,581)	\$ 15,727
Litigation settlement	-	-	-	(1,891,035)	1,891,035
Gain (loss) on sale of marketable securities	-	4,039	(4,039)	(11,412)	7,373
Loss on impairment of marketable securities	(162,479)	15,771	(178,250)	255,723	(433,973)
Gain (loss) on sale of equipment	(11,350)	(11,350)	-	(97,965)	97,965
Write-down of property & equipment	(6,921,531)	(6,921,531)	-	71,166	(71,166)
Gain (loss) on settlement of debt	(161,292)	(161,632)	340	(8,088,755)	8,089,095
Foreign currency gain (loss)	(15,755)	(19,960)	4,205	37,974	(33,769)
	\$ (7,271,670)	\$ (7,095,072)	\$ (176,598)	\$ (9,738,885)	\$ 9,562,287

In 2014, the write-down of property and equipment is a result of management's estimate of a decrease in the net realizable value of certain equipment originally purchased for the Brisas Project as well as management's decision to terminate the agreement with Soltoro in which the Company had made a \$0.425 million investment in the La Tortuga property. Additionally in 2014, the loss increased over the prior period due to the loss on settlement of debt which was related to the remaining unamortized discount on convertible notes prior to the restructuring (See Note 11 to the audited consolidated financial statements). The gain in 2012 primarily consists of the effects of the gain on settlement of debt (net of expenses) and litigation settlement offset by the loss on impairment of marketable securities.

Expenses

Corporate general and administrative, exploration and legal and accounting expenses increased approximately \$0.4 million during the year ended December 31, 2014 compared to the same period in 2013 and decreased approximately \$4.5 million during the year ended December 31, 2013 compared to the same period in 2012.

The net increase in 2014 compared to 2013, as it relates to corporate general and administrative, was primarily due to costs associated with the restructuring of convertible notes in the second quarter of 2014. The decrease in exploration expense in 2014 is attributable to a decrease in activities on the La Tortuga property and the increase in legal and accounting expense is primarily attributable to fees incurred for corporate and tax planning activities as well as regulatory obligations arising from the extension of the debt and issuance of additional equity. The net decrease in 2013 compared to 2012 in corporate general and administrative expense was primarily a result of decreases in non-cash charges associated with the previous issuance of stock-based compensation and cash-based reductions related to both the number of personnel and compensation related items, fees associated with consultants and other discretionary costs and, in the case of exploration and legal and accounting, primarily attributable to an increase in activities associated with the Tortuga Project and a decrease in fees associated with corporate and tax planning activities, respectively.

Venezuelan operations, arbitration, equipment holding and interest expense on a net basis increased approximately \$2.0 million during the year ended December 31, 2014 compared to the same period in 2013 and increased

approximately \$0.1 million during the year ended December 31, 2013 compared to the same period in 2012.

Arbitration expense in 2014 increased by \$0.3 million from 2013 due to \$3.4 million of legal fees previously deferred and now due as a result of the issuance of the September 22, 2014 Arbitral Award. These costs were partially offset in the same period as a result of a decrease in financial and technical expert fees associated with the arbitration proceedings.

Exhibit 99.3 Management's Discussion & Analysis - Page 12

The increase in interest expense is related to an increase in accretion of convertible notes as well as additional interest on the new convertible notes issued in the second quarter of 2014. The net increase in 2013 compared to 2012, as it relates to arbitration, was primarily a result of an order by the Tribunal for an additional oral hearing and the preparation of a post hearing brief associated with the oral hearing and, in the case of Venezuelan operations and equipment holding costs, the decrease is attributable to a winding down of activities to nominal levels and reduced maintenance related costs, respectively.

	2014	Change	2013	Change	2012
Corporate general and administrative	\$ 3,555,937	\$ 442,617	\$ 3,113,320	\$ (3,670,903)	\$ 6,784,223
Exploration	883,739	(232,600)	1,116,339	176,217	940,122
Legal and accounting	666,241	153,897	512,344	(978,372)	1,490,716
	5,105,917	363,914	4,742,003	(4,473,058)	9,215,061
Venezuelan operations	185,543	(10,653)	196,196	(390,760)	586,956
Arbitration	4,267,230	284,794	3,982,436	565,707	3,416,729
Equipment holding costs	864,173	(49,740)	913,913	(123,687)	1,037,600
Interest expense	7,186,237	1,760,973	5,425,264	94,222	5,331,042
	12,503,183	1,985,374	10,517,809	145,482	10,372,327
Total expenses for the period	\$ 17,609,100	\$ 2,349,288	\$ 15,259,812	\$ (4,327,576)	\$ 19,587,388

SUMMARY OF QUARTERLY RESULTS

Quarter ended	12/31/14	9/30/14	6/30/14	3/31/14	12/31/13	9/30/13	6/30/13	3/31/13
Other Income (loss)	\$(7,099,515)	\$(3,967)	\$(162,556)	\$(5,632)	\$(104,405)	\$(78,304)	\$(23,123)	\$29,234
Net loss before tax	(10,616,891)	(7,102,929)	(4,347,337)	(2,813,613)	(4,273,836)	(3,835,911)	(4,119,566)	(3,207,097)
Per share	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)	(0.04)
Fully diluted	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)	(0.04)
Net loss	(10,616,891)	(7,102,929)	(4,347,337)	(2,813,613)	(4,273,836)	(3,835,911)	(4,119,566)	(3,207,097)
Per share	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)	(0.04)
Fully diluted	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)	(0.04)

Other income (loss) in the fourth quarter of 2014 was primarily due to write down of property and equipment and loss on impairment of marketable securities. In the second quarter of 2014 the loss was related to loss on debt restructuring due to the remaining unamortized discount on convertible notes prior to the restructuring. Other income (loss) during 2013 and the first and third quarters of 2014 consisted of foreign currency gains (losses), losses on marketable securities and interest income.

Net loss increased in the fourth quarter of 2014 due to a write-down of property and equipment. In the third quarter of 2014 the loss increase was related to \$3.4 million in legal fees payable as a result of the Award. The increase in net loss during the second quarter of 2014 was primarily due to the restructuring of convertible notes and the write-off of mineral property. The decrease in net loss during the first quarter of 2014 was primarily due to decreases in arbitration expense and non-cash compensation expense. The increase in net loss in the fourth quarter of 2013 was related to costs associated with the arbitration oral hearing. Net loss in the third quarter of 2013 decreased mainly as a result of a decrease in non-cash compensation. The increase in net loss during the second quarter of 2013 was primarily due to an increase in arbitration costs.

Off-Balance Sheet Arrangements

The Company is not a party to any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on the Company's financial condition, changes in financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

Exhibit 99.3 Management's Discussion & Analysis - Page 13

Transactions with Related Parties

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million aggregate principal amount of Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million aggregate principal amount of New Notes also maturing December 31, 2015, net of costs of approximately \$1.3 million. \$19.2 million of the Modified Notes and \$8 million of the New Notes were issued to affiliated funds which exercised control or direction over more than 10% of the Company's common shares prior to the transactions and as a result, those portions of the transactions were considered to be related party transactions. (See Note 11 to the audited consolidated financial statements).

During the third quarter of 2013, the Company closed a previously agreed to private placement for gross proceeds totaling \$5.25 million (\$5.0 million net of expenses). The private placement consisted of 1,750,000 units comprised of one Class A common share and one-half of one Class A common share purchase warrant, with each whole warrant exercisable by the holder for a period of two years after its issuance to acquire one Class A common share at a price of \$4.00 per share. An aggregate 1.5 million units were issued to affiliated funds which exercised control or direction over more than 10% of the Company's common shares prior to the private placement and as a result, this portion of the private placement was considered to be a related party transaction.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Critical accounting estimates used in the preparation of the audited consolidated financial statements include the:

§ assessments of the recoverability and carrying value of the Brisas Project related equipment, the realizable value of which may be different than management's current estimate;

§ determination of the fair value of the Company's convertible notes which are accreted to their face value at maturity using the effective interest rate method over the expected life of the notes, with the resulting charge recorded as interest expense;

§ use of the fair value method of accounting for stock options which is computed using the Black-Scholes method which utilizes estimates that affect the amounts ultimately recorded as stock based compensation;

§ preparation of tax filings in a number of jurisdictions requires considerable judgment and the use of assumptions. Accordingly, the amounts reported could vary in the future.

Any current or future operations the Company may have are subject to the effects of changes in legal, tax and regulatory regimes, political, labor and economic developments, social and political unrest, currency and exchange controls, import/export restrictions and government bureaucracy in the countries in which it operates.

Risk Factors

Set out below are certain risk factors that could materially adversely affect the future business, operating results or financial condition of the Company. Investors should carefully consider these risk factors and the other risk factors

and information in this Management's Discussion and Analysis and the Company's filings with Canadian and U.S. securities regulators, before making investment decisions involving the Company's common shares. The following risk factors, as well as risks not currently known to the Company, could adversely affect the Company's future business, operations and financial condition and could cause future results to differ materially from the estimates described in forward-looking statements relating to the Company.

Exhibit 99.3 Management's Discussion & Analysis - Page 14

Risks Related to Collection of Arbitral Award

Failure to collect the Award could adversely affect the Company.

In October 2009, Gold Reserve initiated the Brisas Arbitration under the Additional Facility Rules of the ICSID of the World Bank to seek compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Canada-Venezuela BIT. On September 22, 2014, the ICSID Tribunal unanimously awarded damages to the Company totaling \$740.3 million, plus post-award interest at a rate of LIBOR plus 2%. The cost of pursuing collection of the Award could be substantial and there is no assurance that we will be successful. Failure to collect adequate compensation for the expropriation of the Brisas Project could materially adversely affect the Company.

The Company cannot predict when or if the Arbitral Award will be collected either partially or in full.

We understand that numerous pending arbitration actions are being pursued against Venezuela at this time before the ICSID (See ICSID website at icsid.worldbank.org/ICSID/) and further understand that Venezuela historically has reportedly settled and/or made full or partial payment for damages to a limited number of claimants. ICSID arbitrations are non-public proceedings and, as a result, we have no specific information regarding the actual amounts paid or what percentage such payments represented of the original claim against Venezuela or the timing of such payments. We do not have a basis upon which to estimate the timing or the likelihood of collection of the Arbitral Award, if any. Accordingly, there can be no assurances that the Award will be collected within any specific or reasonable period of time.

Risks Relating to the Sale of the Brisas Project Technical Mining Data

Failure to sell or otherwise receive value for the Brisas Project Technical Mining Data could adversely affect the Company.

The Brisas Project Technical Mining Data represents a compilation of all of the technical and engineering information from the developmental work performed by the Company up to the point of commencing construction at the Brisas Project. The Company has proposed to Venezuela that, for consideration, such information could be transferred to Venezuela in order to assist in the development of the Brisas Project or the combined Brisas/Las Cristinas Project. The Company may not be able to sell or otherwise receive value for the Brisas Project Technical Mining Data which could adversely affect the Company.

Risks Relating to the Convertible Notes and Interest Notes

The Company's ability to service its Convertible Notes and Interest Notes or pay similar obligations in the future depends on many factors, some of which are beyond its control.

The Company has no commercial production and no ability to generate cash from operations to meet scheduled payments. If the Company's capital resources are insufficient to fund its debt service obligations resulting in an event of default, the Company may be forced to sell assets, seek to obtain additional equity capital, restructure its debt or file for Companies' Creditors Arrangement Act protection.

The Company may not have sufficient cash to repurchase the Convertible Notes and Interest Notes upon the occurrence of a fundamental change or upon their conversion, as required by the governing indentures.

The Company is required to make an offer to repurchase the Convertible Notes and Interest Notes upon the occurrence of a fundamental change as described in the indentures governing the Notes (the "Indenture"). The Company may not have sufficient funds to repurchase the Notes in cash or to make the required repayment at such time or have the ability to arrange necessary financing on acceptable terms. A fundamental change may also constitute an event of default or require prepayment under, or result in the acceleration of the maturity of, the Company's other indebtedness outstanding at the time. The Company's failure to repurchase the Notes or pay cash or issue its common shares in respect of conversions when required would result in an event of default with respect to the Notes.

Exhibit 99.3 Management's Discussion & Analysis - Page 15

The Convertible Notes and Interest Notes may not have an active market and their price may be volatile. You may be unable to sell your Notes at the price you desire or at all.

There is no existing trading market for the Convertible Notes or the Interest Notes and the Company has no obligation to list the Notes at any time. The Company has not and does not intend to list the Notes on any United States or Canadian securities exchange or market place. As a result, there can be no assurance that a liquid market will develop or be maintained for the Notes, that you will be able to sell any of the Notes at a particular time (if at all) or that the prices you receive if or when you sell the Notes will be above their initial offering price.

The Company may not be able to refinance the Convertible Notes and Interest Notes if required or if it so desires.

The Company may need or desire to refinance all or a portion of the Convertible Notes, Interest Notes or any other future indebtedness that it may incur on or before the maturity of the Notes. There can be no assurance that the Company will be able to refinance any of its indebtedness or incur additional indebtedness resulting in an event of default and requiring the Company to file for protection under the Companies' Creditors Arrangement Act.

The conversion of the Company's outstanding Convertible Notes could result in the issuance of a significant number of the Company's common shares causing significant dilution to the ownership of existing shareholders.

The Company has approximately \$38.4 million principal amount of convertible notes outstanding. If all of such notes were converted to Class A common shares, an additional approximately 11 million Class A common shares would be issued, thereby diluting the ownership of existing shareholders.

The Company's ability to obtain the resources required for continued servicing or restructuring of its Convertible Notes and Interest Notes or to meet other obligations as they come due may result in substantial dilution to existing shareholders and depends on numerous factors, some of which are beyond the Company's control.

Unless and until the Company successfully collects all or a portion of the Arbitral Award, sells the Brisas Technical Mining Data or acquires and/or develops other operating properties which provide positive cash flow, the Company's ability to meet its obligations as they come due or redeem in whole or part or otherwise restructure the Notes will be limited to the Company's cash on hand and/or its ability to issue additional equity or debt securities in the future. Such transactions could potentially cause substantial dilution to the then existing shareholders and, in certain circumstances, could result in a change of control.

Risks Related to the Company

Industry competition for new properties could limit the Company's ability to grow in the future

There is strong competition from other mining companies in connection with the acquisition of future properties considered to have commercial potential. Many of these companies have greater financial resources, operational experience and technical capabilities. As a result, the Company may be unable to acquire additional mining properties, thereby limiting future growth.

Failure to retain and/or attract key personnel could adversely affect the Company.

The Company is dependent upon the abilities and continued participation of key personnel to manage the collection of the Award, sale of the Brisas Technical Mining Data and identify, acquire and develop new opportunities. The loss of key employees could have a material adverse effect on its future operations.

The price and liquidity of the Company's common shares may be volatile.

The market price of the Company's common shares may fluctuate based on a number of factors, some of which are beyond its control, including:

- developments in our effort to collect the Award;
- developments in our efforts to sell the Brisas Technical Mining Data;
- economic and political developments in Venezuela, including Venezuela's inability to pay interest and principal related to its sovereign and/or PDVSA's debt;
- the Company's operating performance and financial condition;
- the public's reaction to announcements or filings by the Company or other companies;
- the price of gold and copper and other metal prices;
- the addition or departure of key personnel; and
- acquisitions, strategic alliances or joint ventures involving the Company and/or other companies.

The effect of these and other factors on the market price of the common shares has historically made the Company's share price volatile and suggests that its share price will continue to be volatile in the future.

Sales of a significant number of the Company's Class A common shares in the public markets, or the perception of such sales, could depress the price of the Company's Class A common shares, the fair market value of the Notes or both.

Sales of a substantial number of the Company's Class A common shares in the public markets could depress the price of its Class A common shares, the fair market value of the Notes or both, and impair the Company's ability to raise capital through the sale of additional equity securities. The Company cannot predict the effect that future sales, or the perception of such sales, of its Class A common shares would have on the market price of its Class A common shares or the fair market value of the Notes. The price of the Company's Class A common shares may be affected by possible sales of its Class A common shares by investors who view the Notes as a more attractive means than equity participation in the Company and by hedging or arbitrage trading activity which may occur involving its Class A common shares. This hedging or arbitrage could, in turn, affect the fair market value of the Notes.

The Company may issue additional common shares, debt instruments convertible into common shares or other equity-based instruments to fund future operations.

The Company cannot predict the size of any such future issuances of securities, or the effect, if any, that future issuances and sales of its securities will have on the market price of its common shares or the fair market value of the Notes. Any transaction involving the issuance of previously authorized but unissued shares, or securities convertible into shares, will result in dilution, possibly of a substantial nature, to present and prospective holders of shares and in certain circumstances could result in a change of control.

Operating losses are expected to continue.

The Company has no commercial production at this time and, as a result, it has not recorded revenue or cash flows from mining operations and has experienced losses from operations for each of the last five years, a trend it expects to continue unless and until the Award is collected, Brisas Technical Mining Data is sold and/or the Company acquires or invests in alternative projects and achieves commercial production.

Exhibit 99.3 Management's Discussion & Analysis - Page 17

The Company may be unable to continue as a going concern.

The Company has no revenue producing operations at this time and its working capital position, cash burn rate and debt maturity schedule may require that the Company seek additional sources of funding to ensure the Company's ability to continue its activities in the normal course. The Company's efforts to address its longer-term funding requirements may be adversely impacted by financial market conditions, industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms. In view of these uncertainties there is substantial doubt about the Company's ability to continue as a going concern requiring the Company to file for protection under the Companies' Creditors Arrangement Act.

Risks inherent in the mining industry could adversely impact future operations.

Exploration for gold and other metals is speculative in nature, involves many risks and frequently is unsuccessful. As is customary in the industry, not all prospects will be positive or progress to later stages (e.g. the feasibility, permitting, development and operating stages), therefore, the Company can provide no assurances as to the future success of its efforts to acquire, explore, develop or operate another mining property. Exploration programs entail risks relating to location, metallurgical processes, governmental permits and regulatory approvals and the construction of mining and processing facilities. Development can take a number of years, requiring substantial expenditures and there is no assurance that the Company will have, or be able to raise, the required funds to engage in these activities or to meet its obligations with respect to the exploration properties in which it may acquire an interest. Any one or more of these factors or occurrence of other risks could cause the Company not to realize the anticipated benefits of an acquisition of properties or companies.

As a foreign private issuer, the Company is subject to less detailed disclosure and reporting requirements than U.S. issuers.

The Company is a foreign private issuer under the Exchange Act and, as a result, is exempt from certain rules under the Exchange Act. These rules include the proxy rules that impose certain disclosure and procedural requirements for proxy solicitations. In addition, the Company is not required to file periodic reports and financial statements with the SEC as frequently, promptly or in as much detail as U.S. companies with securities registered under the Exchange Act. The Company is not required to comply with Regulation FD, which imposes certain restrictions on the selective disclosure of material information. Moreover, the Company's officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions of Section 16 of the Exchange Act and the rules under the Exchange Act with respect to their purchases and sales of the Company's common shares.

U.S. Internal Revenue Service designation as a "passive foreign investment company" may result in adverse U.S. tax consequences to U.S. Holders.

U.S. taxpayers should be aware that the Company has determined that it was a "passive foreign investment company" under Section 1297(a) of the U.S. Internal Revenue Code (a "PFIC") for the taxable year ended December 31, 2014, and it may be a PFIC in the future (including potentially for all taxable years prior to the time the Company has income from production activities). The Company does not believe that any of its subsidiaries were PFICs as to any shareholder of the Company for the taxable year ended December 31, 2014, however, due to the complexities of the PFIC determination detailed below, the Company cannot guarantee this belief and, as a result, it cannot determine that the IRS would not take the position that certain subsidiaries are PFIC's. The determination of whether the Company and any of its subsidiaries will be a PFIC for a taxable year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations. In addition, whether the Company and any of

its subsidiaries will be a PFIC for any taxable year generally depends on the Company's and its subsidiaries' assets and income over the course of each such taxable year and, as a result, cannot be predicted with certainty as of the date of this Annual Information Form. Accordingly, there can be no assurance that the Company and/or any of its subsidiaries will not be a PFIC for any taxable year.

For taxable years in which the Company is a PFIC, any gain recognized on the sale of the Company's common shares and any "excess distributions" (as specifically defined) paid on the Company's common shares must be ratably allocated to each day in a U.S. taxpayer's holding period for the common shares. The amount of any such gain or excess distribution allocated to prior years of such U.S. taxpayer's holding period for the common shares generally will be subject to U.S. federal income tax at the highest tax rate applicable to ordinary income in each such prior year, and the U.S. taxpayer will be required to pay interest on the resulting tax liability for each such prior year, calculated as if such tax liability had been due in each such prior year.

Exhibit 99.3 Management's Discussion & Analysis - Page 18

Alternatively, a U.S. taxpayer that makes a timely and effective "QEF election" generally will be subject to U.S. federal income tax on such U.S. taxpayer's pro rata share of the Company's "net capital gain" and "ordinary earnings" (calculated under U.S. federal income tax rules), regardless of whether such amounts are actually distributed by the Company. For a U.S. taxpayer to make a QEF election, the Company must agree to supply annually to the U.S. taxpayer the "PFIC Annual Information Statement" and permit the U.S. taxpayer access to certain information in the event of an audit by the U.S. tax authorities. The Company will prepare and make the statement available to U.S. taxpayers, and will permit access to the information. As a possible second alternative, a U.S. taxpayer may make a "mark-to-market election" with respect to a taxable year in which the Company is a PFIC and the common shares are "marketable stock" (as specifically defined). A U.S. taxpayer that makes a mark-to-market election generally will include in gross income, for each taxable year in which the Company is a PFIC, an amount equal to the excess, if any, of (a) the fair market value of the common shares as of the close of such taxable year over (b) such U.S. taxpayer's adjusted tax basis in such common shares.

It may be difficult to bring certain actions or enforce judgments against the Company and/or its directors and executive officers.

Investors in the U.S. or in other jurisdictions outside of Canada may have difficulty bringing actions and enforcing judgments against the Company, its directors or executive officers based on civil liability provisions of federal securities laws or other laws of the U.S. or any state thereof or the equivalent laws of other jurisdictions of residence. The Company was organized under the laws of Yukon, Canada in 1998 and continued to Alberta, Canada in September 2014
