#### **LEGAL PROCEEDINGS**

The Company's management knows of no material existing or pending legal proceedings against the Company, nor is the Company involved as a plaintiff in any material proceeding or pending litigation. There are no material proceedings to which any director, officer or affiliate of the Company, any owner of record or beneficially of more than 5% of the common stock of the Company or security holder is a party adverse to the Company or has a material interest adverse to the Company. The outcome of open unresolved legal proceedings is presently indeterminable. Any settlement resulting from resolution of these contingencies will be accounted for in the period of settlement. The Company does not believe the potential outcome from these legal proceedings will significantly impact the Company's financial position, operations or cash flows.

#### **CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

Except with respect to the transactions contemplated by the Merger Agreement and as described in the following paragraphs, none of the Company's directors or officers, any of the incoming directors, any person who beneficially owns, directly or indirectly, shares carrying more than 5% of the voting rights attached to the Company's outstanding shares, any of the Company's promoters or any members of the immediate family of any of the foregoing persons has any material interest, direct or indirect, in any transaction for the past two years or in any presently proposed transaction to which the Company was or is to be party. None of the Company's directors, officers or incoming directors is indebted to the Company.

In fiscal year 2005, two former directors of the Company forgave a total of \$169,818 relating to accrued vacation payable, payroll liabilities and other accrued expenses incurred.

During fiscal year 2005, the Company issued 20,000,000 common shares and 20,000,000 common stock purchase warrants with a value of \$1,000,000 pursuant to the exercise by OTC Investments Ltd. of \$1,000,000 aggregate principal value of convertible notes. The Company had received \$1,000,000 in advances through June 30, 2005, including in-kind consideration of \$100,000. The notes bore no interest until the maturity date. Subsequent to year-end the 20,000,000 warrants were cancelled with the consent of OTC Investments Ltd.

On January 24, 2005, the Company entered into a consulting agreement with Seth Shaw, the Company's Vice President, Acting Treasurer and Secretary, pursuant to which the Company agreed to issue 400,000 shares of the Company's common stock to Mr. Shaw in exchange for his business consulting services.

On December 31, 2005, the Company entered into an assignment of minerals lease with Charles H. Merchant, a director of the Company and the Company's Head of Mining Operations, for the assignment of a lease entered into between Dr. Merchant and John Hancock Real Estate Division of certain unpatented mining claims located in Cleburne and Clay Counties, Alabama. Pursuant to the assignment of minerals lease, the Company will acquire a 51% interest in the leased claims on the properties from Dr. Merchant on the following terms: (i) the issuance of

2,000,000 restricted shares of the Company's common stock to Dr. Merchant; (ii) incurring \$1,500,000 on property expenditures (as defined in the assignment of minerals lease); and (iii) for each additional \$100,000 on property expenditures, the Company will receive an additional 4% interest in the lease for the properties, up to a maximum of an additional \$1,000,000 in expenditures for an additional 40% interest. In addition, upon a 91% interest in the leased claims on the properties being acquired by the Company, Dr. Merchant will retain a 9% interest in the leased claims on the properties upon such acquisition, and will receive \$17.50 per ounce of pure Platinum Group Metal (PGM) produced for a period of two years from the acquisition of the 91% interest being obtained. For each 2,500 ounces of pure PGM produced, Dr. Merchant will receive an additional 1,000,000 restricted shares of the Company's common stock, up to a maximum of 8,000,000 shares.

During the six months ended December 31, 2005, Sean Mulhearn made payments on behalf of the Company in the amount of \$51,236. These amounts were advanced without interest and are due on demand. A total of \$50,000 was reimbursed to him through cash and through the issuance of common stock. As at December 31, 2005, the outstanding balance payable is \$1,236. Sean Mulhearn was also issued an aggregate of 1,400,000 common shares of the Company for consulting services rendered. The value of these services totaled \$238,000 (\$0.17 per share).

During the six month period ended December 31, 2005, Charles H. Merchant was paid \$100,000 in cash and issued 1,000,000 restricted common shares of the Company pursuant to a mineral property agreement. He was also issued an aggregate 500,000 common shares of the Company for consulting services rendered. The value of these services totaled \$85,000 (\$0.17 per share). In addition, he was paid \$15,000 cash for other consulting services performed.

#### **BOARD OF DIRECTORS MEETINGS AND COMMITTEES**

The Company presently does not have an audit committee, compensation committee or nominating committee or committee performing similar functions, as the management of the Company believes that until this point it has been premature at the early stage of the Company's management and business development to form an audit, compensation or nominating committee. However, the new management of the Company plans to form an audit, compensation and nominating committee in the near future. The Company envisions that the audit committee will be primarily responsible for reviewing the services performed by the Company's independent auditors and evaluating its accounting policies and system of internal controls. The Company envisions that the compensation committee will be primarily responsible for reviewing and approving the Company's salary and benefits policies (including stock options) and other compensation of the Company's executive officers. Until these committees are established, these decisions will continue to be made by the Board of Directors. Although the Board of Directors has not established any minimum qualifications for director candidates, when considering potential director candidates, the Board of Directors considers the candidate's character, judgment, skills and experience in the context of the needs of the Company and the Board of Directors.

The Company does not have an audit committee charter or a charter governing the nominating process. The members of the Board of Directors, who perform the functions of a

nominating committee, are not independent because they are also officers of the Company. The determination of independence of directors has been made using the definition of independent director contained under Rule 4200(a)(15) of the Rules of the National Association of Securities Dealers, Inc. There has not been any defined policy or procedure for stockholders to submit recommendations or nomination for directors. The Board of Directors does not believe that a defined policy with regard to the consideration of candidates recommended by stockholders is necessary at this time because, given the early stages of the Company's development, a specific nominating policy would be premature and of little assistance until the Company's business operations are at a more advanced level.

Prior to the appointment of Charles H. Merchant on December 1, 2005, Paul Carter was the only member of the Board of Directors. After Charles H. Merchant's appointment, all corporate actions in 2005 were taken by written consent. The Company did not hold an annual meeting in 2005.

The Board of Directors does not currently provide a process for securityholders to send communications to the Board of Directors because management of the Company believes that until this point it has been premature to develop such processes given the limited liquidity of the common stock of the Company. However, the new management of the Company may establish a process for securityholder communications in the future.
