Special Note Regarding Forward-Looking Statements

Statements in this Annual Report on Form 10-K, as well as oral statements that may be made by the Company or by officers, directors or employees of the Company acting on the Company's behalf, that are not statements of historical or current fact constitute forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward looking statements involve risks and uncertainties and known and unknown factors that could cause the actual results of the Company to be materially different from historical results or from any future expressed or implied by such forward looking statements, including without limitation: changes in general economic and market conditions; changes and prospects for changes in interest rates; fluctuations in volume and prices of securities; demand for brokerage and investment banking services; competition within and without the discount brokerage business, including the offer of broader services; competition from electronic discount brokerage firms offering greater discounts on commissions than the Company; the prevalence of a flat fee environment; decline in participation in equity or municipal finance underwritings; limited trading opportunities; the method of placing trades by the Company's customers; computer and telephone system failures; the level of spending by the Company on advertising and promotion; trading errors and the possibility of losses from customer non-payment of amounts due; other increases in expenses and changes in net capital or other regulatory requirements.

PART I

Item 1. BUSINESS

General

Siebert Financial Corp. (the Company) is a holding company that conducts its retail discount brokerage and investment banking business through its wholly-owned subsidiary, Muriel Siebert & Co., Inc., a Delaware corporation (Siebert). Muriel Siebert, the first woman member of the New York Stock Exchange, is our Chairwoman and President and owns approximately 90% of our outstanding common stock, par value \$.01 per share (the Common Stock).

Our principal offices are located at 885 Third Avenue, New York, New York 10022, and our phone number is (212) 644-2400. Our Internet address is www.siebertnet.com. Our SEC filings are available through our website, where you are able to obtain copies of the Company's public filings free of charge. Our Common Stock trades on the Nasdaq Global Market under the symbol SIEB.

Business Overview

Siebert's principal activity is providing Internet and traditional discount brokerage and related services to retail investors and, through its wholly owned subsidiary, Siebert Woman's Financial Network, Inc. (WFN), engages in providing products, services and information all uniquely devoted to woman's financial needs. Through its Capital Markets division, Siebert also offers institutional clients equity execution services on an agency basis, as well as equity and fixed income underwriting and investment banking services. We believe that we are the largest Woman-Owned Business Enterprise (WBE) in the capital markets business in the country. In addition, Siebert, Brandford, Shank & Co., LLC (SBS), a company in which Siebert holds a 49% ownership interest, is the largest Minority and Women's Business Enterprise (MWBE) in the tax-exempt underwriting business in the country.

The Retail Division

Discount Brokerage and Related Services. Siebert became a discount broker on May 1, 1975, a date that would later come to be known as May Day. Siebert believes that it has been in business and a member of The New York Stock Exchange, Inc. (the NYSE) longer than any other discount broker. In 1998, Siebert began to offer its customers access to their accounts through SiebertNet, its Internet website. Siebert's focus in its discount brokerage business is to serve retail clients seeking a wide selection of quality investment services, including trading through a broker on the telephone, through a wireless device or via the Internet, at commissions that are substantially lower than those of full-commission firms and competitive with the national discount brokerage firms. Siebert clears its securities transactions on a fully disclosed basis through National Financial Services Corp. (NFS), a wholly owned subsidiary of Fidelity Investments.

Siebert serves investors who make their own investment decisions. Siebert seeks to assist its customers in their investment decisions by offering a number of value added services, including easy access to account information. Siebert's representatives are available to assist customers with information via toll-free 800 service Monday through Friday between 7:30 a.m. and 7:30 p.m. Eastern Time. Through its SiebertNet, Mobile Broker, inter-active voice recognition and Siebert MarketPhone services, 24-hour access is available to customers.

Independent Retail Execution Services. Siebert and our clearing agent monitor order flow in an effort to ensure that we are getting the best possible trade executions for customers. Siebert does not make markets in securities, nor does it take positions against customer orders.

Siebert's listed orders are routed by its clearing agent in a manner intended to afford its customers the opportunity for price improvement on all orders. Siebert's over the counter orders are executed by its clearing agent through a network of Nasdaq market makers with no single market maker executing all trades. The firm also offers customers execution services through ARCA, Reuters Instinet systems and other electronic communication networks (ECNs) for an additional fee. These systems give customer's access to all ECNs before and after regular market hours. Siebert believes that its over-the counter executions consistently afford its customers the opportunity for price improvement.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Customers may also indicate online interest in buying or selling fixed income securities, including municipal bonds, corporate bonds, mortgage-backed securities, Government Sponsored Enterprises, Unit Investment Trusts or Certificates of Deposit. These transactions are serviced by registered representatives.

Retail Customer Service. Siebert believes that superior customer service enhances its ability to compete with larger discount brokerage firms and therefore provides retail customers, at no additional charge, with personal service via toll-free access to dedicated customer support personnel for all of its products and services. Customer service personnel are located in each of Siebert's branch offices. Siebert presently has retail offices in New York, New York, Jersey City, New Jersey, Boca Raton, Surfside, Palm Beach and Naples, Florida and Beverly Hills, California. Siebert uses a proprietary Customer Relationship Management System that enables representatives, no matter where located, to view a customer's service requests and the response thereto. Siebert's telephone system permits the automatic routing of calls to the next available agent having the appropriate skill set.

Retirement Accounts. Siebert offers customers a variety of self-directed retirement accounts for which it acts as agent on all transactions. Custodial services are provided through an affiliate of NFS, the firm's clearing agent, which also serves as trustee for such accounts. Each IRA, SEP IRA, ROTH IRA, 401(k) and KEOGH account can be invested in mutual funds, stocks, bonds and other investments in a consolidated account.

Customer Financing. Customers margin accounts are carried through Siebert's clearing agent which lends customers a portion of the market value of certain securities held in the customer's account. Margin loans are collateralized by these securities. Customers also may sell securities short in a margin account, subject to minimum equity and applicable margin requirements, and the availability of such securities to be borrowed. In permitting customers to engage in margin, short sale or any transaction, Siebert assumes the risk of its customers' failure to meet their obligations in the event of adverse changes in the market value of the securities positions. Both Siebert and its clearing agents reserve the right to set margin requirements higher than those established by the Federal Reserve Board.

Siebert has established policies with respect to maximum purchase commitments for new customers or customers with inadequate collateral to support a requested purchase. Managers have some flexibility in the allowance of certain transactions. When transactions occur outside normal guidelines, accounts are monitored closely until their payment obligation is completed; if the customer does not meet the commitment, steps are taken to close out the position and minimize any loss. Siebert has not had significant credit losses in the last five years.

Information and Communications Systems. Siebert relies heavily on the data technology platform provided by its clearing agent, NFS LLC (NFS). This platform offers an interface to NFS' main frame computing system where all customer account records are kept and is accessible by Siebert's networks. Browser based access and other types of data communications are also utilized and consumed by Siebert's systems. Siebert's representatives use NFS systems, by way of Siebert's technology platform, to perform daily operational functions which include trade entry, trade reporting, clearing related activities, risk management and account maintenance.

Siebert's data technology platform offers services used in direct relation to customer related activities as well as support for corporate use. Some of these services include email and messaging, market data systems and third party trading systems, business productivity tools and customer relationship management systems. Siebert's branch offices are connected to the main offices in New York, New York and Jersey City, New Jersey via a virtual private network. Siebert's data network is designed with redundancy in case of a significant business disruption occurs.

Siebert's voice network offers a call center feature that can route and queue calls for certain departments within the organization. Additionally, the systems call manager offers reporting and tracking features which enable staff to determine how calls are being managed, such as time on hold, call duration and total calls by agent.

To ensure reliability and to conform to regulatory requirements related to business continuity, Siebert maintains backup systems and backup data. However, in the event of a wide spread disruption, such as a massive natural disaster, Siebert's ability to satisfy the obligations to customers and other securities firms could be significantly hampered or completely disrupted. For more information regarding Siebert's Business Continuity Plan, please visit our website at www.siebertnet.com or write to us at Muriel Siebert & Co., Inc., Compliance Department, 885 3rd Avenue, Suite 1720, New York, NY 10022.

Current Developments

Siebert commenced a lawsuit against Intuit, Inc. (Intuit) in 2003 seeking expenses and damages arising from the Joint Brokerage Service conducted under the Strategic Alliance Agreement between Siebert and Intuit. Intuit counterclaimed against Siebert for expenses and damages. A Stipulation and Order of Dismissal with Prejudice entered into by the parties was filed in October 2007, terminating the litigation without any payments by either party. The parties also exchanged general releases. As a result of the settlement, \$2,024,000 of liabilities recorded by Siebert for expenses prior to December 31, 2003, were reversed in the fourth quarter of 2007.

Siebert terminated the fully disclosed clearing agreement (the Clearing Agreement) with Pershing LLC (formerly the Pershing division of Donaldson, Lufkin & Jenrette Securities Corporation) (Pershing) in 2003. Based on consultation with counsel, Siebert believes that the \$1,500,000 that it advanced to Pershing in January 2003 should have been returned and that Pershing may be liable for damages. Pershing expressed its belief that it was entitled to retain the advance and receive a minimum of \$3 million for its unreimbursed costs, a termination fee of \$500,000 and \$5 million for lost revenues. Siebert received a release for the \$3 million related to disputed claims for unreimbursed fees and costs. In 2004, Siebert decided not to commence proceedings against Pershing and charged off the \$1,500,000 advance to Pershing. Siebert believes the Pershing claims are without merit and that the ultimate outcome of this matter will not have a material adverse effect on the Company's results of operations or financial position.

On January 23, 2008, our board of directors authorized the repurchase of up to 300,000 shares of our common stock. Shares will be purchased from time to time, in our discretion, in the open market and in private transactions. We intend to continue acquiring shares pursuant to our stock repurchase program based upon the price of the stock and in accordance with applicable rules and regulations.

The Capital Markets Division

In 1991, Siebert created its Capital Markets Group (SCM) division, which serves as a co-manager, underwriting syndicate member, or selling group member on a wide spectrum of securities offerings for corporations and Federal agencies.

Principal activities of the Capital Markets Division are investment banking and institutional equity execution services. SCM provides high-quality brokerage service to both institutional investors and issuers of equity and fixed-income securities.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

During 1996, Siebert formed the Siebert, Brandford, Shank division of the investment banking group to enhance Siebert's tax exempt underwriting activities. The operations of the Siebert, Brandford, Shank division were moved on July 1, 1998, to a newly formed entity, SBS. Two individuals, Mr. Napoleon Brandford and Ms. Suzanne F. Shank, own 51% of the equity and are entitled to 51% of the net profits of SBS and Siebert is entitled to the balance. Through its investment in SBS, Siebert has become a more significant factor in the tax exempt underwriting area, and expects to enhance its government and institutional relationships, as well as the breadth of products that can be made available to retail clients. During 2007, SBS served as the lead manager of over \$4 billion of negotiated municipal new issues and served as a co-manager in over \$75 billion of negotiated municipal new issues.

Since its inception, the Siebert, Brandford, Shank division and its successor SBS have co-managed offerings of approximately \$504 billion and lead managed offerings of approximately \$21 billion. Clients include the States of California, Texas, Washington, Ohio and Michigan and the Cities of Chicago, Detroit, Los Angeles, Houston, Dallas, Denver and St. Louis.

We entered into an Operating Agreement, effective as of April 19, 2005 (the "Operating Agreement"), with Suzanne Shank and Napoleon Brandford III, the two individual principals of SBS (the "Principals") of SBS Financial Products Company LLC, a Delaware limited liability company ("SBSFPC"). Pursuant to the terms of the Operating Agreement, the Company and each of the Principals made an initial capital contribution of \$400,000 in exchange for a 33.33% initial interest in SBSFPC. SBSFPC engages in derivatives transactions related to the municipal underwriting business. The Operating Agreement provides that profit and loss will be shared 66.66% by the Principals and 33.33% by us. Income from SBSFPC is considered to be integral to our operations.

SBS operates out of offices in New York, Seattle, Houston, Chicago, Detroit, Los Angeles, Washington, DC, San Antonio, Anchorage, Miami and Dallas, Atlanta, Weehawken, San Diego and Baton Rouge.

Certain risks are involved in the underwriting of securities. Underwriting syndicates agree to purchase securities at a discount from the initial public offering price. An underwriter is exposed to losses on the securities that it has committed to purchase if the securities must be sold below the cost to the syndicate. In the last several years, investment banking firms have increasingly underwritten corporate and municipal offerings with fewer syndicate participants or, in some cases, without an underwriting syndicate. In these cases, the underwriter assumes a larger part or all of the risk of an underwriting transaction. Under Federal securities laws, other laws and court decisions, an underwriter is exposed to substantial potential liability for material misstatements or omissions of fact in the prospectus used to describe the securities being offered.

Advertising, Marketing and Promotion

Siebert develops and maintains its retail customer base through printed advertising in financial publications, broadcast commercials over national and local cable TV channels, as well as promotional efforts and public appearances by Ms. Siebert. Additionally, a significant number of the firm's new accounts are developed directly from referrals by satisfied customers.

Competition

Siebert encounters significant competition from full-commission, online and discount brokerage firms, as well as from financial institutions, mutual fund sponsors and other organizations, many of which are significantly larger and better capitalized than Siebert. The reduced volume of trading starting in early 2001 is leading to consolidation in the industry in both the online and traditional brokerage business. Siebert believes that additional competitors such as banks, insurance companies, providers of online financial and information services and others will continue to be attracted to the online brokerage industry as they expand their product lines. Many of these competitors are larger, more diversified, have greater capital resources, and offer a wider range of services and financial products than Siebert. Some such firms are offering their services over the Internet and have devoted more resources to and have more elaborate websites than Siebert. Siebert competes with a wide variety of vendors of financial services for the same customers. Siebert believes that its main competitive advantages are high quality customer service, responsiveness, cost and products offered, the breadth of product line and excellent executions.

Regulation

The securities industry in the United States is subject to extensive regulation under both Federal and state laws. The Securities and Exchange Commission ("SEC") is the Federal agency charged with administration of the Federal securities laws. Siebert is registered as a broker-dealer with the SEC, and is a member of the New York Stock Exchange ("NYSE") and the Financial Industry Regulatory Authority ("FINRA"). Much of the regulation of broker-dealers has been delegated to self-regulatory organizations, principally FINRA and national securities exchanges such as the NYSE, which is Siebert's primary regulator with respect to financial and operational compliance. These self-regulatory organizations adopt rules (subject to approval by the SEC) governing the industry and conduct periodic examinations of broker-dealers. Securities firms are also subject to regulation by state securities authorities in the states in which they do business. Siebert is registered as a broker-dealer in 50 states, the District of Columbia and Puerto Rico.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

The principal purpose of regulation and discipline of broker-dealers is the protection of customers and the securities markets, rather than protection of creditors and stockholders of broker-dealers. The regulations to which broker-dealers are subject cover all aspects of the securities business, including training of personnel, sales methods, trading practices among broker-dealers, uses and safekeeping of customers' funds and securities, capital structure of securities firms, record keeping, fee arrangements, disclosure to clients, and the conduct of directors, officers and employees. Additional legislation, changes in rules promulgated by the SEC and by self-regulatory organizations or changes in the interpretation or enforcement of existing laws and rules may directly affect the method of operation and profitability of broker-dealers and investment advisers. The SEC, self-regulatory organizations and state securities authorities may conduct administrative proceedings which can result in censure, fine, cease and desist orders or suspension or expulsion of a broker-dealer or an investment adviser, its officers or its employees.

On March 4, 2005, Siebert consented without admitting or denying guilt to a \$45,000 fine and censure by the NYSE due to findings of books-and-records, financial, operational and supervisory deficiencies. This action was based on technical record keeping and administrative deficiencies and there were no complaints from and no losses to any Siebert customers. As the NYSE expressly noted, Siebert had no prior disciplinary history in its 37 years in business.

As a registered broker-dealer and FINRA member organization, Siebert is required by Federal law to belong to the Securities Investor Protection Corporation (SIPC) which provides, in the event of the liquidation of a broker-dealer, protection for securities held in customer accounts held by the firm of up to \$500,000 per customer, subject to a limitation of \$100,000 on claims for cash balances. The SIPC is funded through assessments on registered broker-dealers. In addition, Siebert, through its clearing agent, has purchased from private insurers additional account protection in the event of liquidation up to the net asset value, as defined, of each account. Stocks, bonds, mutual funds and money market funds are included at net asset value for purposes of SIPC protection and the additional protection. Neither SIPC protection nor the additional protection insures against fluctuations in the market value of securities.

Siebert is also authorized by the Municipal Securities Rulemaking Board to effect transactions in municipal securities on behalf of its customers and has obtained certain additional registrations with the SEC and state regulatory agencies necessary to permit it to engage in certain other activities incidental to its brokerage business.

Margin lending arranged by Siebert is subject to the margin rules of the Board of Governors of the Federal Reserve System and the NYSE. Under such rules, broker-dealers are limited in the amount they may lend in connection with certain purchases and short sales of securities and are also required to impose certain maintenance requirements on the amount of securities and cash held in margin accounts. In addition, those rules and rules of the Chicago Board Options Exchange govern the amount of margin customers must provide and maintain in writing uncovered options.

Net Capital Requirements

As a registered broker-dealer, Siebert is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1) (the Net Capital Rule), which has also been adopted by the NYSE. Siebert is a member firm of the NYSE and FINRA. The Net Capital Rule specifies minimum net capital requirements for all registered broker-dealers and is designed to measure financial integrity and liquidity. Failure to maintain the required regulatory net capital may subject a firm to suspension or expulsion by the NYSE and FINRA, certain punitive actions by the SEC and other regulatory bodies and, ultimately, may require a firm's liquidation.

Regulatory net capital is defined as net worth (assets minus liabilities), plus qualifying subordinated borrowings, less certain deductions that result from excluding assets that are not readily convertible into cash and from conservatively valuing certain other assets. These deductions include charges that discount the value of security positions held by Siebert to reflect the possibility of adverse changes in market value prior to disposition.

The Net Capital Rule requires notice of equity capital withdrawals to be provided to the SEC prior to and subsequent to withdrawals exceeding certain sizes. The Net Capital Rule also allows the SEC, under limited circumstances, to restrict a broker-dealer from withdrawing equity capital for up to 20 business days. The Net Capital Rule of the NYSE also provides that equity capital may not be drawn or cash dividends paid if resulting net capital would be less than 5 percent of aggregate debits.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Under applicable regulations, Siebert is required to maintain regulatory net capital of at least \$250,000. At December 31, 2007 and 2006, Siebert had net capital of \$29.5 million and \$27.7 million, respectively. Siebert claims exemption from the reserve requirement under Section 15c3-3(k)(2)(ii).

Employees

As of March 11, 2008, we had approximately 90 employees, six of whom were corporate officers. None of our employees is represented by a union, and we believe that relations with our employees are good.

Item 1A. RISK FACTORS

Securities market volatility and other securities industry risk could adversely affect our business

Our principal business activities include discount retail broker-dealer operations, as well as investment banking, institutional sales and other related business lines. Like other businesses operating in the securities industry, our business is directly affected by volatile trading markets, fluctuations in the volume of market activity, economic and political conditions, upward and downward trends in business and finance at large, legislation and regulation affecting the national and international business and financial communities, currency values, inflation, market conditions, the availability and cost of short-term or long-term funding and capital, the credit capacity or perceived credit worthiness of the securities industry in the marketplace and the level and volatility of interest rates. We also face risks relating to trading losses, losses resulting from the ownership or underwriting of securities, counterparty failure to meet commitments, customer fraud, employee fraud, issuer fraud, errors and misconduct, failures in connection with the processing of securities transactions and litigation. The varied risks associated with our business and the securities industry in general could adversely affect our commission and other revenues. A reduction in our revenues or a loss resulting from our underwriting or ownership of securities or sales or trading of securities could have a material adverse effect on our business, results of operations and financial condition. In addition, as a result of these risks, our revenues and operating results may be subject to significant fluctuations from quarter to quarter and from year to year.

Lower price levels in the securities markets may reduce our profitability adversely affecting the price of our common stock.

Lower price levels of securities may result in (i) reduced volumes of securities, options and futures transactions, with a consequent reduction in our commission revenues, and (ii) losses from declines in the market value of securities we held in investment and underwriting positions. In periods of low volume, our levels of profitability are further adversely affected because certain of our expenses remain relatively fixed. Sudden sharp declines in market values of securities and the failure of issuers and counterparties to perform their obligations can result in illiquid markets which, in turn, may result in our having difficulty selling securities. Such negative market conditions, if prolonged, may also lower our revenues from investment banking and other activities. A reduction in our revenues from investment banking or other activities could have a material adverse affect on our business, results of operations and financial condition.

There is intense competition in the discount brokerage industry.

Siebert encounters significant competition from full-commission, online and other discount brokerage firms, as well as from financial institutions, mutual fund sponsors and other organizations many of which are significantly larger and better capitalized than Siebert. Siebert's equity investee, SBS, a municipal bond underwriter, also encounters significant competition from firms engaged in the municipal finance business. The general financial success of the securities industry over the past several years and the price wars encountered and lower commission rates in the discount brokerage business in general have strengthened our existing competitors. Siebert believes that such changes in the industry will continue to strengthen existing competitors and attract additional competitors such as banks, insurance companies, providers of online financial and information services, and others as they expand their product lines. Many of these competitors are larger, more diversified, have greater capital resources, and offer a wider range of services and financial products than Siebert. Siebert competes with a wide variety of vendors of financial services for the same customers. Siebert may not be able to compete effectively with current or future competitors.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

During 2007, competition continued to intensify both among all classes of brokerage firms and within the discount brokerage business as well as from consolidation in the discount brokerage industry. Some competitors in the discount brokerage business offer services which we do not, including financial advice and investment management. In the last two years, some competitors have continued to offer lower flat rate execution fees that are difficult for any conventional discount firm to meet. Industry-wide changes in trading practices are expected to cause continuing pressure on fees earned by discount brokers for the sale of order flow. Many of the flat fee brokers impose charges for services such as mailing, transfers and handling exchanges which Siebert does not and also direct their execution to captive market makers. Continued or increased competition from ultra low cost, flat fee brokers and broader service offerings from other discount brokers could limit our growth or lead to a decline in Siebert's customer base which would adversely affect our business, results of operations and financial condition.

We are subject to extensive government regulation.

Our business is subject to extensive regulation in the United States, at both the Federal and state level. We are also subject to regulation by self-regulatory organizations and other regulatory bodies in the United States, such as the SEC, the NYSE, FINRA and the Municipal Securities Rulemaking Board (the MSRB). We are registered as a broker-dealer in 50 states, the District of Columbia and Puerto Rico. The regulations to which we are subject as a broker-dealer cover all aspects of the securities business including: training of personnel, sales methods, trading practices, uses and safe keeping of customers' funds and securities, capital structure, record keeping, fee arrangements, disclosure and the conduct of directors, officers and employees. Failure to comply with any of these laws, rules or regulations, which may be subject to the uncertainties of interpretation, could result in civil penalties, fines, suspension or expulsion and have a material adverse effect on our business, results of operations and financial condition.

Siebert, as a registered broker-dealer and FINRA member organization, is required by Federal law to belong to the Securities Investor Protection Corporation (SIPC) which provides, in the event of the liquidation of a broker-dealer, protection for securities held in customer accounts held by the firm of up to \$500,000 per customer, subject to a limitation of \$100,000 on claims for cash balances. SIPC is funded through assessments on registered broker-dealers. In addition, Siebert, through its clearing agent, has purchased from private insurers additional account protection in the event of liquidation up to the net asset value, as defined by SIPC, of each account. Stocks, bonds, mutual funds and money market funds are included at net asset value for purposes of SIPC protection and the additional protection. Neither SIPC protection nor the additional protection insures against fluctuations in the market value of securities.

Siebert is also authorized by the MSRB to effect transactions in municipal securities on behalf of its customers and has obtained certain additional registrations with the SEC and state regulatory agencies necessary to permit it to engage in certain other activities incidental to its brokerage business.

Margin lending arranged by Siebert is subject to the margin rules of the Board of Governors of the Federal Reserve System and the NYSE. Under such rules, broker-dealers are limited in the amount they may lend in connection with certain purchases and short sales of securities and are also required to impose certain maintenance requirements on the amount of securities and cash held in margin accounts. In addition, those rules and rules of the Chicago Board Options Exchange govern the amount of margin customers must provide and maintain in writing uncovered options.

The laws, rules and regulations, as well as governmental policies and accounting principles, governing our business and the financial services and banking industries generally have changed significantly over recent years and are expected to continue to do so. We cannot predict which changes in laws, rules, regulations, governmental policies or accounting principles will be adopted. Any changes in the laws, rules, regulations, governmental policies or accounting principles relating to our business could materially and adversely affect our business, results of operations and financial condition.

We are subject to net capital requirements.

The SEC, the NYSE and various other securities and commodities exchanges and other regulatory bodies in the United States have rules with respect to net capital requirements which affect us. These rules have the effect of requiring that at least a substantial portion of a broker-dealer's assets be kept in cash of highly liquid investments. Our compliance with the net capital requirements could limit operations that require intensive use of capital, such as underwriting or trading activities. These rules could also restrict our ability to withdraw our capital, even in circumstances where we have more than the minimum amount of required capital, which, in turn, could limit our ability to implement growth strategies. In addition, a change in such rules, or the imposition of new rules, affecting the scope, coverage, calculation or amount to such net capital requirements, or a significant operating loss or any unusually large charge against net capital, could have similar adverse effects.

Our customers may fail to pay us.

A principal credit risk to which we are exposed on a regular basis is that our customers may fail to pay for their purchases or fail to maintain the minimum required collateral for amounts borrowed against securities positions maintained by them. We have established policies with respect to maximum purchase commitments for new customers or customers with inadequate collateral to support a requested purchase. However, our managers have some flexibility in the allowance of certain transactions. When transactions occur outside normal guidelines, these accounts are monitored until their payment obligation is completed. If the customer does not meet the commitment, we take steps to close out the position in an attempt to minimize losses.

We have personnel specifically responsible for monitoring all customer positions for the maintenance of required collateral. These personnel also monitor accounts that may be concentrated in one or more securities whereby a significant decline in the value of a particular security could reduce the value of the account's collateral below the account's loan obligation. While we have not had significant credit losses in the last five years, we cannot assure you that the policies and procedures we have established will be adequate to prevent a significant credit loss.

We face risks relating to our investment banking activities.

Certain risks are involved in the underwriting of securities. Investment banking and underwriting syndicates agree to purchase securities at a discount from the public offering price. If the securities must be sold below the syndicate cost, an underwriter is exposed to losses on the securities that it has committed to purchase. In the last several years, investment banking firms increasingly have underwritten corporate and municipal offerings with fewer syndicate participants or, in some cases, without an underwriting syndicate. In these cases, the underwriter assumes a larger part or all of the risk of an underwriting transaction.

Under Federal securities laws, other laws and court decisions, an underwriter is exposed to substantial potential liability for material misstatements or omissions of fact in the prospectus used to describe the securities being offered. While municipal securities are exempt from the registration requirements of the Securities Act, underwriters of municipal securities are exposed to substantial potential liability for material misstatements or omissions of fact in the offering documents prepared for these offerings.

An increase in volume on our systems or other events could cause them to malfunction.

We presently receive and process up to 65% of our trade orders electronically. This method of trading is heavily dependent on the integrity of the electronic systems supporting it. While we have never experienced a significant failure of our trading systems, heavy stress placed on our systems during peak trading times could cause our systems to operate at unacceptably low speeds or fail altogether. Any significant degradation or failure of our systems or the systems of third parties involved in the trading process (e.g., online and Internet service providers, record keeping and data processing functions performed by third parties, and third party software), even for a short time, could cause customers to suffer delays in trading. These delays could cause substantial losses for customers and could subject us to claims from these customers for losses. We cannot assure you that our network structure will operate appropriately in the event of a subsystem, component or software failure. In addition, we cannot assure you that we will be able to prevent an extended systems failure in the event of a power or telecommunications failure, an earthquake, terrorist attack, fire or any act of God. Any systems failure that causes interruptions in our operations could have a material adverse effect on our business, financial condition and operating results.

We rely on information processing and communications systems to process and record our transactions.

Our operations rely heavily on information processing and communications systems. Our system for processing securities transactions is highly automated. Registered representatives equipped with online computer terminals can access customer account information, obtain securities prices and related information and enter and confirm orders online.

To support our customer service delivery systems, as well as other applications such as clearing functions, account administration, record keeping and direct customer access to investment information, we maintain a computer network in New York City. Through our clearing agent, our computers are also linked to the major registered U.S. securities exchanges, the National Securities Clearing Corporation and the Depository Trust Company. Failure of the information processing or communications systems for a significant period of time could limit our ability to process a large volume of transactions accurately and rapidly. This could cause us to be unable to satisfy our obligations to customers and other securities firms, and could result in regulatory violations. External events, such as an earthquake, terrorist attack or power failure, loss of external information feeds, such as security price information, as well as internal malfunctions such as those that could occur during the implementation of system modifications, could render part or all of these systems inoperative.

We may not be able to keep up pace with continuing changes in technology.

Our market is characterized by rapidly changing technology. To be successful, we must adapt to this rapidly changing environment by continually improving the performance, features and reliability of our services. We could incur substantial costs if we need to modify our services or infrastructure or adapt our technology to respond to these changes. A delay or failure to address technological advances and developments or an increase in costs resulting from these changes could have a material and adverse effect on our business, financial condition and results of operations.

We depend on our ability to attract and retain key personnel.

Our continued success is principally dependent on our founder, Muriel F. Siebert, Chairwoman, Chief Executive Officer and President and our senior management. In addition, the continued success of SBS may be dependent on the services of Napoleon Brandford III and Suzanne Shank. The loss of the services of any of these individuals could significantly harm our business, financial condition and operating results.

Our principal shareholder may control many key decisions.

Ms. Muriel Siebert currently owns approximately 90% of our outstanding common stock. Ms. Siebert will have the power to elect the entire Board of Directors and, except as otherwise provided by law or our Certificate of Incorporation or by-laws, to approve any action requiring shareholder approval without a shareholders meeting.

There may be no public market for our common stock.

Only approximately 2,200,000 shares, or approximately 10% of our shares outstanding, are currently held by the public. Although our common stock is traded in The Nasdaq Global Market, there can be no assurance that an active public market will continue.

None.

Item 2. PROPERTIES

Siebert currently maintains seven retail discount brokerage offices. Customers can visit the offices to obtain market information, place orders, open accounts, deliver and receive checks and securities, and obtain related customer services in person. Nevertheless, most of Siebert's activities are conducted on the Internet or by telephone and mail.

Siebert operates its business out of the following seven leased offices:

We believe that our properties are in good condition and are suitable for our operations.

Item 3. LEGAL PROCEEDINGS

We are involved in various routine lawsuits of a nature we deem to be customary and incidental to our business. In the opinion of our management, the ultimate disposition of such actions will not have a material adverse effect on our financial position or results of operations.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SHAREHOLDERS

No matter was submitted to a vote of shareholders during the fourth quarter of the fiscal year ended December 31, 2007.

PART II**Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

On March 20, 2008, the closing price of our common stock on the Nasdaq Global Market was \$3.16 per share. There were 130 holders of record of our common stock and more than 1,500 beneficial owners of our common stock on March 20, 2008.

Dividend Policy

On June 4, 2007, the Board of Directors declared a dividend of twelve cents per share on our common stock, which was paid on June 29, 2007 to shareholders of record at the close of business on June 20, 2007. The total amount paid on this dividend declaration was \$559,232. Ms. Muriel Siebert, the Chief Executive Officer and majority shareholder waived the right to receive the dividend in excess of the aggregate amount paid to other shareholders. Other shareholders were paid dividends of \$279,616.

On August 9, 2006, the Board of Directors declared a dividend of eight cents per share on our common stock, which was paid on August 30, 2006 to shareholders of record at the close of business on August 21, 2006. The total amount paid on this dividend declaration was \$359,048. Ms. Muriel Siebert, the Chief Executive Officer and majority shareholder waived the right to receive the dividend in excess of the aggregate amount paid to other shareholders. Other shareholders were paid dividends of \$179,524.

Our Board of Directors periodically considers whether to declare dividends. In considering whether to pay such dividends, our Board of Directors will review our earnings capital requirements, economic forecasts and such other factors as are deemed relevant. Some portion of our earnings will be retained to provide capital for the operation and expansion of our business.

Issuer Purchase Of Equity Securities

On May 15, 2000, our Board of Directors authorized a buy back of up to one million shares of our common stock. Under this program, shares are purchased from time to time, at our discretion, in the open market and in private transactions. No purchases of common stock were made during the fourth quarter of 2007. We have purchased 999,500 shares of our common stock under this program and 500 shares of our common stock may yet be purchased under this program.

On January 23, 2008, our Board of Directors authorized the repurchase of up to 300,000 shares of our common stock. Shares will be purchased from time to time, in our discretion, in the open market and in private transactions. We intend to continue acquiring shares pursuant to our stock repurchase program based upon the price of the stock and in accordance with applicable rules and regulations.

Equity Compensation Plan Information

The following table sets forth information as of December 31, 2007 with respect to our equity compensation plans.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion should be read in conjunction with our audited Consolidated Financial Statements and the Notes thereto contained elsewhere in this Annual Report.

The uncertainty over the state of the economy due to the high price of oil and the increase of defaults relating to subprime mortgages weighed on the markets in 2007 and continues to affect interest in buying stocks.

Competition continued to intensify among all types of brokerage firms, including established discount brokers and new firms entering the on-line brokerage business. Electronic trading continues to account for an increasing amount of trading activity, with some firms charging very low trading execution fees that are difficult for any conventional discount firm to meet. Some of these brokers, however, impose asset based charges for services such as mailing, transfers and handling exchanges which we do not currently impose, and also direct their orders to market makers where they have a financial interest. Continued competition could limit our growth or even lead to a decline in our customer base, which would adversely affect our results of operations. Industry-wide changes in trading practices, such as the continued use of Electronic Communications Networks, are expected to put continuing pressure on commissions/fees earned by brokers while increasing volatility.

We entered into an Operating Agreement, effective as of April 19, 2005 (the "Operating Agreement"), with Suzanne Shank and Napoleon Brandford III, the two individual principals of SBS (the "Principals") of SBS Financial Products Company LLC, a Delaware limited liability company ("SBSFPC"). Pursuant to the terms of the Operating Agreement, the Company and each of the Principals made an initial capital contribution of \$400,000 in exchange for a 33.33% initial interest in SBSFPC. SBSFPC engages in derivatives transactions related to the municipal underwriting business. The Operating Agreement provides that profit and loss will be shared 66.66% by the Principals and 33.33% by us. Income from SBSFPC is considered to be integral to our operation.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

On January 23, 2008, our Board of Directors authorized a buy back of up to 300,000 shares of our common stock. Under this program, shares are purchased from time to time, at our discretion, in the open market and in private transactions.

We, like other securities firms, are directly affected by general economic and market conditions including fluctuations in volume and prices of securities, changes and the prospect of changes in interest rates, and demand for brokerage and investment banking services, all of which can affect our profitability. In addition, in periods of reduced financial market activity, profitability is likely to be adversely affected because certain expenses remain relatively fixed, including salaries and related costs, portions of communications costs and occupancy expenses. Accordingly, earnings for any period should not be considered representative of earnings to be expected for any other period.

Siebert commenced a lawsuit against Intuit, Inc. (Intuit) in 2003 seeking expenses and damages arising from the Joint Brokerage Service conducted under the Strategic Alliance Agreement between Siebert and Intuit. Intuit counterclaimed against Siebert for expenses and damages. A Stipulation and Order of Dismissal with Prejudice entered into by the parties was filed in October 2007, terminating the litigation without any payments by either party. The parties also exchanged general releases. As a result of the settlement, \$2,024,000 of liabilities recorded by Siebert for expenses prior to December 31, 2003, were reversed in the fourth quarter of 2007.

Critical Accounting Policies

We generally follow accounting policies standard in the brokerage industry and believe that our policies appropriately reflect our financial position and results of operations. Our management makes significant estimates that effect the reported amounts of assets, liabilities, revenues and expenses and the related disclosure of contingent assets and liabilities included in the financial statements. The estimates relate primarily to revenue and expense items in the normal course of business as to which we receive no confirmations, invoices, or other documentation, at the time the books are closed for a period. We use our best judgment, based on our knowledge of revenue transactions and expenses incurred, to estimate the amount of such revenue and expenses. We are not aware of any material differences between the estimates used in closing our books for the last five years and the actual amounts of revenue and expenses incurred when we subsequently receive the actual confirmations, invoices or other documentation. Estimates are also used in determining the useful lives of intangibles assets, and the fair market value of intangible assets. Our management believes that its estimates are reasonable.

Results of Operations

Year Ended December 31, 2007 Compared To Year Ended December 31, 2006

Revenues. Total revenues for 2007 were \$33.9 million, an increase of \$5.1 million, or 17.7%, from 2006. Commission and fee income increased \$1.4 million, or 5.7%, from the prior year to \$26.1 million due to an increase in institutional trading and the commission recapture operations as well as increase in retail customer trading volumes offset slightly by a decrease in the average commission charged per trade.

Investment banking revenues increased \$1.7 million, or 97.7%, from the prior year to \$3.4 million in 2007 due to our participation in more new issues in the equity and debt capital markets.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Trading profits decreased \$130,000, or 17.2%, from the prior year to \$624,000 primarily due to decreased trading in municipal, government and corporate bonds within our riskless trading group.

Siebert commenced a lawsuit against Intuit, Inc. (Intuit) in 2003 seeking expenses and damages arising from the Joint Brokerage Service conducted under the Strategic Alliance Agreement between Siebert and Intuit. Intuit counterclaimed against Siebert for expenses and damages. A Stipulation and Order of Dismissal with Prejudice entered into by the parties was filed in October 2007, terminating the litigation without any payments by either party. The parties also exchanged general releases. As a result of the settlement, \$2,024,000 of liabilities recorded by Siebert for expenses prior to December 31, 2003, were reversed in the fourth quarter of 2007.

Income from interest and dividends increased \$131,000, or 8%, from the prior year to \$1.8 million primarily due to higher interest rates and higher cash balances.

Expenses. Total expenses for 2007 were \$31.3 million, an increase of \$4.6 million, or 17.2%, from the prior year.

Employee compensation and benefit costs increased \$980,000 or 8.9%, from the prior year to \$12.0 million primarily due to an increase in commissions paid based on production offset by a decrease in health insurance and employment of temporary employees.

Clearing and floor brokerage fees increased \$490,000, or 9.4%, from the prior year to \$5.7 million primarily due to an increase in listed floor executions for institutional customers executed at the New York Stock Exchange and an increase in volume relating to the commission recapture operation.

Professional fees increased \$2.9 million, or 75.5% from the prior year to \$6.7 million primarily due to an increase in legal fees relating to the Intuit case and consulting fees relating to the our compliance with Sarbanes-Oxley.

Advertising and promotion expense decreased \$195,000, or 21.2%, from the prior year to \$725,000 primarily due to the reduction in print advertising production in 2007 and the production and airing of television commercials in the Florida region in 2006.

Communications expense increased \$306,000, or 17.9%, from the prior year to \$2.0 million primarily due to an increase in costs associated with our new website.

Occupancy costs increased \$168,000, or 14.7%, from the prior year to \$1.3 million principally due to the an increase in rent in the Florida branches and New Jersey and California offices.

Other general and administrative expenses decreased \$13,000, from the prior year to \$2.9 million primarily due to a decrease in depreciation and amortization expenses, employee placement fees, travel and entertainment costs and office expenses offset by increases in printing, insurance and transportation costs.

Income from our equity investment in Siebert, Brandford, Shank & Co., LLC, an entity in which Siebert holds a 49% equity interest (SBS), for 2007 was \$1.4 million compared to income of \$2.9 million for 2006, a decrease of \$1.5 million or 51.8% from the same period in 2006 primarily due to SBS participating in less municipal bond offerings especially in the last six months of the year. SBS serves as an underwriter for municipal bond offerings. Income from our equity investment in SBS Financial Products Company, LLC, an entity in which we hold a 33% equity interest (SBSFPC) for 2007, was \$40,000 as compared to income of \$916,000, a decrease of \$876,000 or 95.6% from the same period in 2006. This decrease was due to a decrease in the number and size of the transactions. SBSFPC engages in derivatives transactions related to the municipal underwriting business. Income from equity investees is considered to be integral to our operations and material to the results of operations.

Taxes. The provision for income taxes decreased by \$711,000, or 28.6% from the prior year to \$1.8 million due to a decrease in net income before tax to \$4.0 million in 2007 from \$5.9 million in 2006.

Year Ended December 31, 2006 Compared To Year Ended December 31, 2005

Revenues. Total revenues for 2006 were \$28.8 million, a decrease of \$505,000, or 1.7%, from 2005. Commission and fee income decreased \$558,000, or 2.2%, from the prior year to \$24.7 million primarily due to a decrease in commissions generated by the commission recapture operations offset by increases in the institutional trading operations as well as retail customer operations.

Investment banking revenues decreased \$668,000, or 28.2%, from the prior year to \$1.7 million in 2006 due to our participating in fewer new issues in the equity capital markets team.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Income from our equity investment in Siebert, Brandford, Shank & Co., LLC, an entity in which Siebert holds a 49% equity interest (SBS), for 2006 was \$2.9 million compared to income of \$1.7 million, an increase of \$1.2 million or 74.3% from the same period in 2005. This increase was due to SBS participating in more managed and co-managed transactions as well as an increase revenues from trading. SBS serves as an underwriter for municipal bond offerings. Income from our equity investment in SBS Financial Products Company, LLC, an entity in which we hold a 33% equity interest (SBSFPC) for 2006, was \$916,000 as compared to income of \$194,000, an increase of \$722,000 or 372.2% from the same period in 2005. This increase was due to an increase in the number and size of the transactions and the mark to market of the positions. SBSFPC engages in derivatives transactions related to the municipal underwriting business.

Trading profits increased \$52,000, or 7.4%, from the prior year to \$754,000 primarily due to increased trading in municipal, government and corporate bonds within our riskless trading group and the mark to market of our investment.

Income from interest and dividends increased \$669,000, or 68.4%, from the prior year to \$1.7 million primarily due to higher interest rates and higher cash balances.

Expenses. Total expenses for 2006 were \$26.7 million, a decrease of \$1.3 million, or 4.5%, from the prior year.

Employee compensation and benefit costs decreased \$450,000, or 3.9%, from the prior year to \$11.0 million primarily due to a decrease in headcount in customer service and new accounts departments, commission based on production and settlement of employee related matters and termination of an executive officer in 2005.

Clearing and floor brokerage fees decreased \$92,000, or 1.7%, from the prior year to \$5.2 million primarily due to decreased volume relating to the commission recapture business offset by an increase in fixed fees that are not related to volume that are charged our clearing firm.

Professional fees decreased \$498,000, or 11.6% from the prior year to \$3.8 million primarily due to an decrease in legal fees relating to litigation with Intuit and consulting fees relating to the commission recapture business.

Advertising and promotion expense increased \$44,000, or 5.0%, from the prior year to \$920,000 primarily due to the production and airing of television commercials in the Florida region in the first quarter of 2006.

Communications expense decreased \$17,000, or 1.0%, from the prior year to \$1.7 million from actively pursuing alternative vendors and utilizing new technologies.

Occupancy costs increased \$93,000, or 8.8%, from the prior year to \$1.2 million principally due to the an increase in operating and utilities cost charged by the landlord in our Jersey City, New Jersey branch as well as our branches in the Florida region.

Other general and administrative expenses decreased \$327,000, or 10.0%, from the prior year to \$3.0 million primarily due to a decrease in depreciation and amortization expenses, registration and exchange fees and costs relating to the institutional direct access operations offset by increases in travel and entertainment and office supplies.

Taxes. The provision for income taxes increased by \$1,134,000, or 84.0% from the prior year to \$2.5 million due to an increase in net income before tax to \$5.9 million in 2006 from \$3.2 million in 2005.

Liquidity and Capital Resources

Our assets are highly liquid, consisting generally of cash, money market funds and securities freely saleable in the open market. Our total assets at December 31, 2007 were \$48 million, of which, \$36.3 million, or 76%, were regarded by us as highly liquid.

Siebert is subject to the net capital requirements of the SEC, the NYSE and other regulatory authorities. At December 31, 2007, Siebert's regulatory net capital was \$29.5 million, \$29.2 million in excess of its minimum capital requirement of \$250,000.

Siebert terminated the fully disclosed clearing agreement (the Clearing Agreement) with Pershing LLC (formerly the Pershing division of Donaldson, Lufkin & Jenrette Securities Corporation) (Pershing) in 2003. Based on consultation with counsel, Siebert believes that the \$1,500,000 that it advanced to Pershing in January 2003 should have been returned and that Pershing may be liable for damages. Pershing expressed its belief that it was entitled to retain the advance and receive a minimum of \$3 million for its unreimbursed costs, a termination fee of \$500,000 and \$5 million for lost revenues. Siebert received a release for the \$3 million related to disputed claims for unreimbursed fees and costs. In 2004, Siebert decided not to commence proceedings against Pershing and charged off the \$1,500,000 advance to Pershing. Siebert believes the Pershing claims are without merit and that the ultimate outcome of this matter will not have a material adverse effect on the Company's results of operations or financial position.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Siebert has entered into a Secured Demand Note Collateral Agreement with SBS under which it is obligated to loan to SBS up to \$1.2 million pursuant to a secured promissory note on a subordinated basis. Amounts obligated to be loaned by Siebert under the facility are reflected on our balance sheet as cash equivalents - restricted. SBS pays Siebert interest on this amount at the rate of 8% per annum. The facility expires on August 31, 2009 at which time SBS is obligated to repay to Siebert any amounts borrowed by SBS thereunder.

Below is a table that presents our obligations and commitments at December 31, 2007:

Contractual Obligations	Payment Due By Period				
	Total	Less Than 1 Year	1-3 Years	3-5 Years	More Than Five Years
Operating lease obligations	\$ 2,959,000	\$ 1,105,000	\$ 1,786,000	\$ 68,000	\$ 0

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK Financial Instruments Held For Trading Purposes:

Through Siebert, we maintain inventories in exchange-listed and Nasdaq equity securities and municipal securities on both a long and short basis. We did not have any short positions at December 31, 2007. The Company does not engage in derivative transactions, has no interest in any special purpose entity and has no liabilities, contingent or otherwise, for the debt of another entity, except for Siebert's obligation under its Secured Demand Note Collateral Agreement of \$1.2 million executed in favor of SBS. SBS pays Siebert interest on this amount at the rate of 8% per annum. Siebert earned interest of \$96,000 from SBS in each of the years that Siebert's commitment has been outstanding.

Financial Instruments Held For Purposes Other Than Trading:

Working capital is generally temporarily invested in dollar denominated money market funds and commercial paper. These investments are not subject to material changes in value due to interest rate movements.

In the normal course of its business, Siebert enters into transactions in various financial instruments with off-balance sheet risk. This risk includes both market and credit risk, which may be in excess of the amounts recognized in our financial statements. Retail customer transactions are cleared through clearing brokers on a fully disclosed basis. If customers do not fulfill their contractual obligations, the clearing broker may charge Siebert for any loss incurred in connection with the purchase or sale of securities at prevailing market prices to satisfy the customers obligations. Siebert regularly monitors the activity in its customer accounts for compliance with its margin requirements. Siebert is exposed to the risk of loss on unsettled customer transactions if customers and other counterparties are unable to fulfill their contractual obligations.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See financial statements and supplementary data required pursuant to this item beginning on page F-1 of this Report on Form 10-K.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A(T). CONTROLS AND PROCEDURES

We carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15 of Securities Exchange of 1934, as amended. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures are effective to ensure that the information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and to ensure that information required to be disclosed is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer to allow timely decisions regarding timely disclosure.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as that term is defined in Exchange Act Rule 13a-15(f)). To evaluate the effectiveness of our internal control over financial reporting, we use the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO Framework). Using the COSO Framework, our management, including our Chief Executive Officer and Chief Financial Officer, evaluated our internal control over financial reporting and concluded that our internal control over financial reporting was effective as of December 31, 2007.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the our registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report.

Changes in Internal Controls over Financial Reporting

There were no changes in our internal controls over financial reporting during the most recently completed fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Limitation of the Effectiveness of Internal Controls

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of the inherent limitations of any internal control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders
Siebert Financial Corp.

We have audited the accompanying consolidated statements of financial condition of Siebert Financial Corp. and subsidiaries (the Company) as of December 31, 2007 and 2006, and the related consolidated statements of income, changes in stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Siebert Financial Corp. and subsidiaries as of December 31, 2007 and 2006, and the consolidated results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2007 in conformity with U.S. generally accepted accounting principles.

SIEBERT FINANCIAL CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] **Business:**

Siebert Financial Corp. (Financial), through its wholly owned subsidiary, Muriel Siebert & Co., Inc. (Siebert), engages in the business of providing discount brokerage services for customers, investment banking services for institutional clients and trading securities for its own account, and, through its wholly owned subsidiary, Siebert Women's Financial Network, Inc. (WFN), engages in providing products, services and information all uniquely devoted to women's financial needs. All significant intercompany accounts and transactions have been eliminated. Financial, Siebert and WFN collectively are referred to herein as the Company .

The municipal bond investment banking business and related derivatives transactions is being conducted by Siebert Brandford Shank & Co., LLC (SBS), and SBS Financial Products Company, LLC (SBSFP), investees, which are accounted for by the equity method of accounting (see Note C). The equity method provides that Siebert record its share of the investees' earnings or losses in its results of operations. Operations of equity investees are considered integral to Siebert's operations.

[2] **Securities Transactions:**

Securities transactions trading profits, commission revenues and related clearing expenses are recorded on a trade date basis.

Marketable securities are valued at market value. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Siebert clears all its security transactions through two unaffiliated clearing firms on a fully disclosed basis. Accordingly, Siebert does not hold funds or securities for or owe funds or securities to its customers. Those functions are performed by the clearing firms, which are highly capitalized.

[3] **Income Taxes:**

The Company accounts for income taxes utilizing the asset and liability approach requiring the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the basis of assets and liabilities for financial reporting purposes and tax purposes. Financial files a consolidated federal income tax return, which includes Siebert and WFN.

[4] **Furniture, Equipment and Leasehold Improvements:**

Property and equipment is stated at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, generally five years. Leasehold improvements are amortized over the shorter of the estimated useful life or period of the lease.

[5] **Cash Equivalents:**

Cash equivalents consist of highly liquid investments purchased with original maturity of three months or less including money market funds and commercial paper.

[6] **Advertising Costs:**

Advertising costs are charged to expense as incurred.

[7] **Use Of Estimates:**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[8] Earnings Per Share:

Basic earnings per share is calculated by dividing net income by the weighted average outstanding shares during the period. Diluted earnings per share is calculated by dividing net income by the number of shares outstanding under the basic calculation and adding all dilutive securities, which consist of options. The treasury stock method is used to reflect the dilutive effect of outstanding options, which, for 2007, 2006 and 2005 amounted to 67,204, 123,285 and 34,571 additional shares, respectively, added to the basic weighted average outstanding shares of 22,206,346, 22,129,566 and 22,093,369 in those respective years. In 2007, 2006 and 2005, 1,162,500, 1,288,466 and 1,683,675 common shares, respectively, issuable upon the exercise of options were not included in the computation of diluted income per share as the effect would have been anti-dilutive.

[9] Investment Banking:

Investment banking revenue includes gains and fees, net of syndicate expenses, arising from underwriting syndicates in which the Company participates. Investment banking management fees are recorded on the offering date, sales concessions on the settlement date and underwriting fees at the time the underwriting is completed and the income is reasonably determinable.

[10] Cash Equivalents - Restricted:

Cash equivalents - restricted represents \$1,300,000 of cash invested in a money market account which Siebert is obligated to lend to SBS on a subordinated basis.

Any outstanding amounts loaned bear interest at 8% per annum and are repayable on August 31, 2009.

[11] Stock-Based Compensation:

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123R Share-Based Payment (SFAS 123R), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the statement of operations as an operating expense, based on their fair values on grant date. Prior to the adoption of SFAS 123R the Company accounted for stock based compensation using the intrinsic value method. The Company adopted the provision of SFAS No. 123R effective January 1, 2006, using the modified prospective transition method. Under the modified prospective method, non-cash compensation expense is recognized for the portion of outstanding stock option awards granted prior to the adoption of SFAS 123R for which service has not been rendered, and for any future stock option grants. Accordingly, periods prior to adoption have not been restated. The Company recognizes share-based compensation costs on a straight-line basis over the requisite service periods of awards as compensation expense which would normally be the vesting period of the options.

As a result of adopting SFAS No. 123R, the Company's income before income tax and net income for the year ended December 31, 2006 was \$158,000 and \$93,000, lower than if it had continued to account for share-based compensation by the intrinsic value method. There was no effect on earnings per share. During 2006, 162,644 options were exercised with an intrinsic value of \$123,000. Prior to the adoption of SFAS No. 123R, the Company presented cash flows resulting from the tax benefits of deductions from the exercise of stock options as operating cash flows in the Statement of Cash Flows. Since the adoption of SFAS No. 123R, cash flows resulting from the tax benefits of the tax deduction in excess of the compensation cost recognized for these options are classified as financing cash flows.

The following table illustrates the effect on net income and earnings per share if the fair value based method had been applied to the year ended December 31, 2005.

As of December 31, 2007, there were \$81,000 of unrecognized compensation costs related to unvested options which are expected to be recognized over a weighted-average period of 4 years.

[12] Intangibles:

Purchased intangibles are principally being amortized using the straight-line method over estimated useful lives of three to five years (see Note E).

[13] Valuation of Long-Lived Assets:

The Company evaluates the recoverability of its long-lived assets and requires the recognition of impairment of long-lived assets in the event the net book value of these assets exceeds the estimated future undiscounted cash flows attributable to these assets. The Company assesses potential impairment to its long-lived assets when there is evidence that events or changes in circumstances have made recovery of the assets' carrying value unlikely. Should impairment exist, the impairment loss would be measured based on the excess of the carrying value of the assets over the assets' fair value.

[14] New Accounting Standards:

In June 2006, the Financial Accounting Standards Board (FASB) Issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB statement No. 109 (FIN 48). Fin 48 clarifies the accounting for uncertainties in income taxes recognized in a company's financial statements in accordance with Statement 109 and prescribes a recognition threshold and measurement attributes for tax positions taken or expected to be taken on a tax return. Additionally, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. We adopted the provisions of FIN 48 as of January 1, 2007. The adoption of FIN 48 did not impact our financial position, results of operations or cash flows. Pursuant to FIN 48, we opted to classify interest and penalties that would accrue according to the provisions of relevant tax law as interest and other general and administrative expenses.

In September 2006, the Financial Accounting Standards Board issued SFAS No. 157 (SFAS 157), Fair Value Measurements . SFAS 157 defines fair value and establishes a framework for measuring fair value. It also expands the disclosures about the use of fair value to measure assets and liabilities. SFAS 157 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company expects that adoption of SFAS 157 will not have a material effect on its financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FAS 159). The fair value option established by FAS 159 permits, but does not require, all entities to choose to measure eligible items at fair value at specified election dates. An entity would report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. FAS 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company does not expect the adoption of FAS 159 will have a material impact on its financial statements.

In November 2005, the FASB issued FASB Staff Position FSP 115-1 which addresses the determination as to when an investment is considered impaired, whether that impairment is other-than-temporary, and the measurement of an impairment loss. This FSP also includes accounting considerations subsequent to the recognition of an other-than-temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. The guidance in this FSP amends Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities and APB Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock. The Guidance in FSP 115-1 is applied to reporting periods beginning after December 15, 2005. The Company adopted this standard effective January 1, 2006 and it did not have a material impact on its financial statements or disclosures.

In December 2007, the FASB issued SFAS 141 (revised 2007), Business Combinations, (FAS 141R). FAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, including goodwill, the liabilities assumed and any non-controlling interest in the acquiree. The Statement also establishes disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. FAS 141R is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The impact of adopting FAS 141R will be dependent on the future business combinations that the Company may pursue after its effective date.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51 (FAS 160). This standard establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The guidance will become effective as of the beginning of the Company's fiscal year beginning after December 15, 2008.

[15] Reclassification In 2007, income from equity investees has been classified as a separate item in operations and no longer reflected in revenues. The 2006 and 2005 income statements have been reclassified to confirm with the current year presentation.

NOTE B - INTUIT LAWSUIT

Siebert commenced a lawsuit against Intuit, Inc. (Intuit) in 2003 seeking expenses and damages arising from the Joint Brokerage Service conducted under the Strategic Alliance Agreement between Siebert and Intuit. Intuit counterclaimed against Siebert for expenses and damages. A Stipulation and Order of Dismissal with Prejudice entered into by the parties was filed in October 2007, terminating the litigation without any payments by either party. The parties also exchanged general releases. As a result of the settlement, \$2,024,000 of liabilities recorded by Siebert for expenses prior to December 31, 2003, were reversed in the fourth quarter of 2007.

Siebert and two individuals (the Principals) formed SBS to succeed to the tax-exempt underwriting business of the Siebert Brandford Shank division of Siebert. The agreements with the Principals provide that profits will be shared 51% to the Principals and 49% to Siebert.

Financial entered into an Operating Agreement, effective as of April 19, 2005 (the Operating Agreement), with the Principals for the formation of SBSFPC. Pursuant to the terms of the Operating Agreement, Financial and each of the Principals made an initial capital contribution of \$400,000 in exchange for a 33.33% initial interest in SBSFPC. SBSFPC engages in derivatives transactions related to the municipal underwriting business. The Operating Agreement provides that profit be shared 66.66% by the Principals and 33.33% by Financial.

NOTE C - INVESTMENT IN AFFILIATES (CONTINUED)

Summarized financial data of SBS is as follows:

	2007	2006	2005
Total assets, including secured demand note of 1,200,000 in each year due from Siebert	\$ 17,885,000	\$ 19,250,000	\$
Total liabilities, including subordinated liabilities \$1,200,000 in each year due to Siebert	7,984,000	8,556,000	
Total members' capital	9,901,000	10,694,000

Net income	2,840,000	5,888,000	3,377,000
Regulatory minimum net capital requirement	452,000	490,000	

During each of 2007, 2006 and 2005, Siebert charged SBS \$240,000 for rent and general and administrative services, which Siebert believes approximates the cost of furnishing such services. In addition, during each of the years 2007, 2006 and 2005, Siebert earned interest income of \$96,000, \$96,000 and \$96,000, respectively from SBS in connection with Siebert's obligation to make a subordinated loan for up to \$1,200,000 available to SBS and Siebert paid SBS interest earned on the restricted cash equivalents of \$74,000, \$67,000 and \$52,000. (See Note J)

Siebert's share of undistributed earnings from SBS amounts to \$4,459,000 and \$4,848,000 at December 31, 2007 and 2006, respectively. Such amounts may not be immediately available for distribution to Siebert for various reasons including the amount of SBS's available cash, the provisions of the agreement between Siebert and the Principals and SBS's continued compliance with its regulatory net capital requirements.

Summarized financial data of SBSFPC is as follows:

	2007	2006	2005
Total assets	\$ 82,772,000	\$ 49,209,000

NOTE E - INTANGIBLE ASSETS, NET

In several transactions during September and October of 2000, WFN acquired the stock of WFN Women's Financial Network, Inc. (WFNI) and HerDollar.com, Inc., respectively, companies in the development stage which had yet to commence principal operations, had no significant revenue and had assets consisting principally of websites, content and domain names, for aggregate consideration of \$2,310,000 including costs. The transactions have been accounted for as purchases of assets consisting of domain name, website and content, and a non-compete agreement (the Acquired Intangible Assets). Related deferred tax assets attributable to net operating loss carryforwards of the acquired companies and deferred tax liabilities attributable to the excess of the statement bases of the acquired assets over their tax bases have been reflected in the accompanying consolidated financial statements as an adjustment to the carrying amount of such intangibles (see Note F).

Intangible assets consist of the following:

	December 31, 2007		December 31, 2006	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Amortization Accumulated
Amortizable assets:				
Website, content and non-compete	\$ 2,350,000	\$ 2,350,000	\$ 2,350,000	\$ 2,350,000

NOTE F - INCOME TAXES

Income tax provision consists of the following:

	Year Ended December 31,		
	2007	2006	2005
Federal income tax provision (benefit):			
Current	\$ 1,356,000	\$ 2,049,000	\$ 1,080,000
Deferred	(32,000)	(183,000)	(81,000)
	1,324,000	1,866,000	999,000
State and local tax provision (benefit):			
Current	456,000	661,000	370,000
Deferred	(7,000)	(43,000)	(19,000)
	449,000	618,000	351,000
Total tax provision (benefit):			
Current	1,812,000	2,710,000	1,450,000
Deferred	(39,000)	(226,000)	(100,000)
	\$ 1,773,000	\$ 2,484,000	\$ 1,350,000

A reconciliation between the income tax provision and income taxes computed by applying the statutory Federal income tax rate to income before taxes is as follows:

	Year Ended December 31,		
	2007	2006	2005
Expected income tax provision at statutory Federal tax rate (34%)	\$ 1,370,000	\$ 2,009,000	\$ 1,092,000
State and local taxes, net of Federal tax benefit	296,000	408,000	258,000
Permanent difference	72,000	100,000	
Other	35,000	(33,000)	
Income tax expense	\$ 1,773,000	\$ 2,484,000	\$ 1,350,000

Deferred income taxes reflect the impact of temporary differences between the amounts of assets and liabilities for financial reporting purposes and their tax basis. The principal items giving rise to deferred tax assets (liabilities) are as follows:

December 31,	
2007	2006

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Net operating losses	\$ 339,000	\$ 377,000
Acquired Intangible assets	(304,000)	(315,000)
Furniture, equipment and leasehold improvements	182,000	81,000
Retail brokerage accounts	650,000	684,000
	\$ 867,000	\$ 827,000

F-12

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Management believes that it is more likely than not that the deferred tax asset will be realized, and therefore no valuation allowance has been provided.

Net operating loss carryforwards of \$836,000 at December 31, 2007, which are attributable to WFN, expire through 2020. Utilization of such net operating loss carryforwards is subject to annual limitations under Section 382 of the Internal Revenue Code.

In 2007 and 2006, the Company reduced current taxes payable by \$2,000 and \$51,000, respectively, resulting from the deductibility of the difference between the exercise price of nonqualifying stock options granted by the Company and the market value of the stock on the dates of exercise. The tax benefit was recorded as a credit to additional paid-in capital.

The Company is not subject to any tax examinations for any federal or major state tax jurisdiction for years prior to 2004.

NOTE G - STOCKHOLDERS EQUITY

Siebert is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. Siebert has elected to use the alternative method, permitted by the rule, which requires that Siebert maintain minimum net capital, as defined, equal to the greater of \$250,000 or 2 percent of aggregate debit balances arising from customer transactions, as defined. The Net Capital Rule of the New York Stock Exchange also provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than 5% of aggregate debits. At December 31, 2007 and 2006, Siebert had net capital of approximately \$29,459,000 and \$27,723,000, respectively, as compared with net capital requirements of \$250,000. Siebert claims exemption from the reserve requirement under Section 15c3-3(k)(2)(ii).

On January 23, 2008, the Board of Directors of the Company authorized a buy back of up to 300,000 shares of common stock. Shares will be purchased from time to time in the open market and in private transactions.

On June 4, 2007, the Board of Directors declared a dividend of twelve cents per share on common stock of the Company, which was paid on June 29, 2007 to shareholders of record at the close of business on June 20, 2007. The Chief Executive Officer of the Company waived the right to receive the dividend in excess of the aggregate amount paid to other shareholders which amounted to approximately \$280,000.

On August 9, 2006, the Board of Directors declared a dividend of eight cents per share on common stock of the Company, which was paid on August 30, 2006 to shareholders of record at the close of business on August 21, 2006. The Chief Executive Officer of the Company waived the right to receive the dividend in excess of the aggregate amount paid to other shareholders which amounted to approximately \$180,000.

NOTE H - OPTIONS

The Company's 2007 Long-Term Incentive Plan (the "Plan"), authorizes the grant of options to purchase up to an aggregate of 2,000,000 shares, subject to adjustment in certain circumstances. Both non-qualified options and options intended to qualify as Incentive Stock Options under Section 422 of the Internal Revenue Code, may be granted under the Plan. A Stock Option Committee of the Board of Directors administers the Plan. The committee has the authority to determine when options are granted, the term during which an option may be exercised (provided no option has a term exceeding 10 years), the exercise price and the exercise period. The exercise price shall not less than the fair market value on the date of grant. No option may be granted under the Plan after December 2017. Generally, employee options vest 20% per year for five years and expire ten years from the date of grant. At December 31, 2007, options for 2,000,000 shares of common stock are available for grant under the Plan.

Weighted average fair value of options granted				\$ 1.85		\$ 1.42

(a) Weighted average remaining contractual terms of 4 years and aggregate intrinsic value of \$146,000.

(b) Weighted average remaining contractual terms of 3.9 years and aggregate intrinsic value of \$136,000.

As of December 31, 2007, there was \$81,000 of unrecognized compensation costs related to unvested options which is expected to be recognized over a weighted-average period of 4 years.

The fair value of each option award is estimated on the date of grant using the Black-Sholes option pricing model using the following weighted-average assumptions for the years ended December 31, 2006 and 2005:

	2006	2005
Dividend yield	0.00%	0.00%
Expected volatility	50.40%	53.00%
Risk-free interest rate	4.82%	4.30%
Expected life (in years)	7.5	5.00

During 2006, the Company took into consideration guidance contained in SFAS No. 123R and SAB No. 107 when reviewing and developing assumptions for the option grants. The weighted average expected life reflects the alternative simplified method permitted by SAB No. 107, which defines the expected life as the average of the contractual term of the options and the weighted-average vesting period for all option tranches. Expected volatility is based on historical volatility over the expected term.

NOTE I - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK AND CONCENTRATIONS OF CREDIT RISK

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

In the normal course of business, Siebert enters into transactions in various financial instruments with off-balance sheet risk. This risk includes both market and credit risk, which may be in excess of the amounts recognized in the statement of financial condition. As of December 31, 2007 and 2006, no such financial instruments were outstanding.

F-14

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

Retail customer transactions are cleared through clearing brokers on a fully disclosed basis. In the event that customers are unable to fulfill their contractual obligations, the clearing broker may charge Siebert for any loss incurred in connection with the purchase or sale of securities at prevailing market prices to satisfy customers' obligations. Securities transactions entered into as of December 31, 2007 settled with no adverse effect on Siebert's financial condition. Siebert regularly monitors the activity in its customer accounts for compliance with its margin requirements.

NOTE J - COMMITMENTS, CONTINGENCIES AND OTHER

Siebert terminated the fully disclosed clearing agreement (the "Clearing Agreement") with Pershing LLC (formerly the Pershing division of Donaldson, Lufkin & Jenrette Securities Corporation) ("Pershing") in 2003. Based on consultation with counsel, Siebert believes that the \$1,500,000 that it advanced to Pershing in January 2003 should have been returned and that Pershing may be liable for damages. Pershing expressed its belief that it was entitled to retain the advance and receive a minimum of \$3 million for its unreimbursed costs, a termination fee of \$500,000 and \$5 million for lost revenues. Siebert received a release for the \$3 million related to disputed claims for unreimbursed fees and costs. In 2004, Siebert decided not to commence proceedings against Pershing and charged off the \$1,500,000 advance to Pershing. Siebert believes the Pershing claims are without merit and that the ultimate outcome of this matter will not have a material adverse effect on the Company's results of operations or financial position.

The Company rents discount retail brokerage and other office space under long-term operating leases expiring in various periods through 2011. These leases call for base rent plus escalations for taxes and operating expenses.

Future minimum base rental payments under these operating leases are as follows:

Year Ending December 31,	Amount
2008	1,105,000
2009	905,000
2010	709,000
2011	172,000
2012	68,000
	\$ 2,959,000

Rent expense, including escalations for operating costs, amounted to approximately \$1,314,000, \$1,071,000 and \$985,000 for the years ended December 31, 2007, 2006 and 2005, respectively. Rent is being charged to expense over the entire lease term on a straight-line basis.

In addition to the Pershing matter, Siebert is party to certain claims, suits and complaints arising in the ordinary course of business. In the opinion of management, all such claims, suits and complaints are without merit, or involve amounts which would not have a significant effect on the financial position or results of operations of the Company. The Company believes that adequate provisions have been made for such matters.

Siebert sponsors a defined contribution retirement plan under Section 401(k) of the Internal Revenue Code that covers substantially all employees. Participant contributions to the plan are voluntary and are subject to certain limitations. Siebert may also make discretionary contributions to the plan. No contributions were made by Siebert in 2007, 2006 and 2005.

Siebert is party to a Secured Demand Note Collateral Agreement with SBS which obligates Siebert to lend SBS, on a subordinated basis, up to \$1,200,000. The secured demand note payable held by SBS and a related \$1,200,000 receivable due from SBS are included in investments in and advances to equity investees in the accompanying consolidated statement of financial condition. Amounts that Siebert is obligated to lend under this arrangement are collateralized by cash equivalents of \$1,300,000.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-K

NOTE K FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts reflected in the consolidated statements of financial condition for cash, cash equivalents, receivable from broker, accounts payable and accrued liabilities approximate fair value due to the short term maturities of those instruments.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Managers
Siebert, Brandford, Shank & Co., L.L.C.
New York, New York

We have audited the accompanying statements of financial condition of Siebert, Brandford, Shank & Co., L.L.C. as of December 31, 2007 and 2006, and the related statements of operations, changes in members' capital, and cash flows for each of the years in the three-year period ended December 31, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in the United States of America as established by the Auditing Standards Board (United States) and in accordance with the auditing standards of Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Siebert, Brandford, Shank & Co., L.L.C. as of December 31, 2007 and 2006, and the results of its operations, changes in members' capital, and its cash flows for each of the years in the three-year period ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America.

**Notes to Financial Statements
December 31, 2007, 2006 and 2005**

NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Organization and basis of presentation:

Siebert, Brandford, Shank & Co., L.L.C. (SBS or the Company) was formed on March 10, 1997 to engage in the business of tax-exempt underwriting and related trading activities. The Company qualifies as a Minority and Women s Owned Business Enterprise in certain municipalities.

[2] Securities transactions:

Securities transactions, commissions, revenues and expenses are recorded on a trade date basis. Securities owned are valued at market value. The resulting unrealized gains and losses are reflected in income.

Securities owned, at December 31, 2007, consist of municipal bonds.

Dividends are recorded on the ex-dividend date, and interest income and expense are recognized on an accrual basis.

[3] Investment banking:

Investment banking revenues include gains and fees, net of syndicate expenses, arising primarily from municipal bond offerings in which the Company acts as an underwriter or agent. Investment banking management fees are recorded on offering date, sales concessions on settlement date, and underwriting fees at the time the underwriting is completed and the income is reasonably determinable.

[4] Furniture and equipment, net:

Furniture and equipment are stated at cost and depreciation is calculated using the straight-line method over the lives of the assets, generally five years.

[5] Cash equivalents:

For purposes of reporting cash flows, cash equivalents include money market funds.

[6] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

[7] Income taxes:

The Company is not subject to federal income taxes. Instead, the members are required to include in their income tax returns their respective share of the Company s income. The Company is subject to tax in certain state and local jurisdictions.

NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[8] New accounting pronouncement:

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for uncertainties in income taxes recognized in a company's financial statements in accordance with Statement 108 and prescribes a recognition threshold and measurement attributes for tax positions taken or expected to be taken on a tax return. Additionally, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted the provisions of FIN 48 as of January 1, 2007. The adoption of FIN 48 did not impact the Company's financial position, results or operations or cash flows. Pursuant to FIN 48, the Company has opted to classify interest and penalties that would accrue according to the provisions of relevant tax law as interest and other general and administrative expenses. The Company is not subject to any tax examination for any federal or major state tax jurisdiction for the years prior to 2004.

In September 2006, the Financial Accounting Standards Board issued SFAS No. 157 (SFAS 157), Fair Value Measurements . SFAS 157 defines fair value and established a framework for measuring fair value. It also expands the disclosures about the use of fair value to measure assets and liabilities. SFAS 157 is effective the first fiscal year that begins after November 15, 2007. The Company expects that adoption of SFAS 157 will not have a material effect on the Company's financial statements.

[9] Reclassification:

Certain previous years adjustments have been reclassified to conform with current year presentations.

NOTE B - SUBORDINATED BORROWINGS AND SECURED DEMAND NOTE RECEIVABLE

The subordinated debt at December 31, 2007 and 2006 consists of a Secured Demand Note Collateral Agreement payable to Muriel Siebert & Co., Inc. (Siebert), in the amount of \$1,200,000, bearing interest at 8% and due August 31, 2009. Interest expense paid to Siebert for each of the years ended 2007, 2006 and 2005 amounts to \$96,000, \$96,000 and \$96,000, respectively.

The subordinated borrowings are available in computing net capital under the Securities and Exchange Commission's (the SEC) Uniform Net Capital Rule. To the extent that such borrowing is required for the Company's continued compliance with minimum net capital requirements, it may not be repaid.

The secured demand note receivable of \$1,200,000 is collateralized by cash equivalents of Siebert of approximately \$1,300,000 at December 31, 2007 and 2006. Interest earned on the collateral amounted to approximately \$74,000, \$67,000 and \$52,000 in 2007, 2006 and 2005, respectively.

NOTE C - FURNITURE AND EQUIPMENT, NET

Furniture and equipment consist of the following:

	2007	2006
Equipment	\$ 492,782	\$ 437,684
Furniture and fixtures	185,084	170,492
	677,866	608,176
Less accumulated depreciation and amortization	(473,676)	(413,431)
	\$ 204,190	\$ 194,745

NOTE D - NET CAPITAL

The Company is subject to the SEC's Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2007 and 2006, the Company had net capital of \$10,028,000 and \$10,965,000, respectively, which was \$9,575,000 and \$10,474,000, respectively, in excess of its required net capital and its ratio of aggregate indebtedness to net capital was .68 to 1 and .67 to 1, respectively. The Company claims exemption from the reserve requirements under Section 15c-3-3(k)(2)(ii).

NOTE E - COMMITMENTS

The Company rents office space under long-term operating leases expiring through 2013. These leases call for base rent plus escalations for taxes and operating expenses. Future minimum base rent under these operating leases are as follows:

Year	Amount
2008	\$ 510,000
2009	477,000
2010	311,000
2011	188,000
2012	190,000
2013	165,000
	\$ 1,841,000

Rent expense including taxes and operating expenses for 2007, 2006 and 2005 amounted to \$661,172, \$655,677 and \$640,666, respectively.

NOTE F - OTHER

During each of 2007, 2006 and 2005, the Company was charged \$240,000 by Siebert for general and administrative services.
