INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Investment Agents, Inc.
Las Vegas, Nevada

I have audited the accompanying balance sheet of Investment Agents, Inc. (A Development Stage Company) as of August 31, 2002 and February 28, 2002 and the related statements of income, stockholders' (deficit), and cash flows for the three months ended August 31, 2002, the six months ended August 31, 2002, the year ended February 28, 2002 and the period August 8, 1996 (inception) through August 31, 2002. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Investment Agents, Inc. (A Development Stage Company) as of August 31, 2002 and February 28, 2002 and the results of its operations and cash flows for the three months ended August 31, 2002, the six months ended August 31, 2002, the year ended February 28, 2002 and the period August 8, 1996 (inception) through August 31, 2002, in conformity with generally accepted accounting principles..

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 8 to the financial statements, the Company has limited operations and has not established any source of revenue. This raises substantial doubt about its ability to

Edgar Filing: INVESTMENT AGENTS INC - Form 10QSB

continue as a going concern. Management's plan in regard to these matters is also described in Note 8. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Actual results could differ from those estimates.

The Company has not formulated a policy for the resolution of such conflicts.

In April 2001, the Company established a policy that "transactions between the Company and its officers, directors or five percent shareholders, and their respective affiliates, will be on terms no less favorable than those terms which could be obtained from unaffiliated third parties and said transactions will be approved by a majority of the independent and disinterested directors."

ITEM II. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Plan of Operation.

We are a referral agent and we collect a selling commission for referring customers who purchase Verio, Inc.'s ("Verio") domain registration services, web hosting services and e-commerce services. We are a development stage company with limited operations and revenues. We may be unable to satisfy cash requirements without management's financial support. We anticipate that we will meet our cash requirements for the foreseeable future through the financial support of our management. Management's financial accommodations will be evidenced by non-interest bearing promissory notes between management and us. No promissory notes are currently in effect.

Over the next twelve months, we plan to market our web site and we will do domain registration and web hosting sales. We will require additional funds to market our web site. Our cost of maintaining the web site, without any marketing costs and expense, should not exceed the sum of \$80.00 per month. We are obligated through April 18, 2003 to Verio in connection with this expense. The officers and directors have agreed to fund our "burn rate," pay expenses of having us comply with the federal securities laws (and being a public company) and have orally agreed to extend, if required, a "line of credit" in the amount of \$10,000, without interest, to implement our marketing plan. Upon implementation of our marketing plan, we expect that our "burn rate" will increase to approximately \$800 per month. Not to exceed \$500 per month will be expended for maintaining our web site and for the strategic listing of our web site with major search engines. The balance of approximately \$300 will be utilized in connection with establishing reciprocal click-through agreements with complementary web site and for the expenses of having us comply with the federal securities laws. The line of credit will expire on August 31, 2002. Today, no funds have been drawn down on the line of credit. These agreements may not be enforceable. There is no assurance that we will be able to

2

obtain financing for our business development. If adequate funds are not available to us, we believe that our business development will be adversely affected.

Our objective will be to market the web site upon full completion of its development - after we feel it is no longer "under construction." This marketing strategy is subject to our having sufficient funding to carry out our plan which will include the following elements:

Edgar Filing: INVESTMENT AGENTS INC - Form 10QSB

1. Strategic listing of our web site with major search engines in order to increase the visibility of our web site when users enter applicable keywords, such as "domain registration" and "web site hosting," with major search engines. We believe that many of the people looking for information concerning domain registration and web site hosting will enter those keywords with major search engines in order to find relevant web sites. Our objective will be to ensure that our site is frequently cited by major search engines when these keywords are searched; and
2. Reciprocal click-through agreements with complementary web sites who are prepared to allow us to place links to our web site on their web sites in consideration for us permitting a reciprocal link to their web site on our web site.

The exact nature of our marketing plan will depend on a number of factors, including the availability of funds to implement our marketing plan and internet marketing conditions and practices at the time we complete development of our web site. We may pursue different marketing strategies from the marketing strategies listed above.

Until such time as we market our web site, if ever, we may not have revenues from our operations. We anticipate that if our web site is properly marketed, we will generate revenues from the sale of domain registration and web hosting sales. There is no assurance that we will be successful in selling our services on our web site. We have no other sources of revenue. As such, if we are not successful in this regard, we will be unable to achieve revenues under our current business plan.

We have not expended any monies during each of the last two fiscal years and during this current quarter on research and development activities applicable to our website. All

3

development activities to date have been provided to us by Verio at no cost or expense. Accordingly, none of the research and development costs will be borne directly by our customers. Other than these initial web site development, we have not undergone any other research and development activity. We do not expect to purchase or sell any plant and significant equipment or make any significant changes in the number of employees over the next twelve months.

Analysis of Financial Condition.

We currently have no cash, an account receivable of \$49 and \$9,675 in prepaid expenses which constitutes our total assets. We have no other liquid current assets. Our web site has been accessed by visitors and we may have sales pending. Our loss from inception through August 31, 2002 is \$38,226.

During the six months ending August 31, 2002, we incurred expenses of \$2,476 as compared to the six months ended August 31, 2001 of \$1,681 or an increase of \$795.

Edgar Filing: INVESTMENT AGENTS INC - Form 10QSB

Without the implementation of any marketing plan, our current "burn rate" is less than \$80 per month. Upon implementation of our marketing plan, we expect that our "burn rate" will increase to approximately \$800 per month. Not to exceed \$500 per month will be expended for maintaining our web site and for the strategic listing of our web site with major search engines. The balance of approximately \$300 will be utilized in connection with establishing reciprocal click-through agreements with complimentary web site and for the expenses of having us comply with the federal securities laws.

Qualitative and Quantitative Disclosures About Market Risk.

We have neither considered nor conducted any research concerning qualitative and quantitative market risk.

Board Meeting.

Our board of directors held one meeting during the current quarter, which was a special meeting by written consent.

Independent Directors.

We have no independent directors. We do intend to secure independent directors; however, until such time as we are financially able to attract independent directors and we are able to meet the cost of insuring each director, we will not, in all likelihood, be able to have a board containing independent directors.

Subject to us attracting independent directors and providing insurance for each director, so long as we have an outstanding class of securities registered under the Securities Exchange Act of 1934, as amended, and the outstanding securities are held of record by 100 or more persons of record, after the annual meeting in 2003, we contemplate having not less than one independent director and after the annual meeting in 2004, we contemplate having a majority of independent directors.

Audit Committee and Other Committees.

Edgar Filing: INVESTMENT AGENTS INC - Form 10QSB

As of August 31, 2002, our board of directors had not established an audit committee. We had not intended, in all likelihood, to establish any independent audit committee until such time as we had reached the qualitative standards for the Bulletin Board Exchange, which will be phased in during calendar year 2003 and will replace the OTC Bulletin Board, which is operated by the NASDAQ Stock Market, Inc. which will be phased out in 2003. The Bulletin Board Exchange will be a listed market place, with qualitative listing standards but with no minimum share price, income, or asset requirements. The system has been designed to provide market participants and customers with increased speed and reliability to transactions, as well as to

improve the overall transparency of the market place. In general, the Bulletin Board Exchange will have minimum requirements of 100 round-lot shareholders and 200,000 shares in public float and will have other certain minimum corporate governance standards to those presently existing for the NASDAQ National Market and small cap markets, with an adjustment to certain of the requirements cognizant of the difficulty that small companies, such as ours, may have in meeting those governance standards.

Our new bylaws, adopted on October 1, 2002, provides that we have an independent audit committee, a majority of which members cannot be comprised of non independent directors so long as we have a class of securities registered under the Securities Exchange Act of 1934. As of the date hereof, we have not implemented this bylaw requirement.

We recognize that an audit committee, when established, will play a critical role in our financial reporting system by overseeing and monitoring management's and the independent auditors' participation in the financial reporting process. The audit committee will adopt its own charter.

Until such time as an audit committee has been established, the board of directors will continue to undertake those tasks normally associated with an audit committee to include, but not by way of limitation, the (i) review and discussion of the audited financial statements with management, and (ii) discussions with the independent auditors the matters required to be discussed by the Statement On Auditing Standards No. 61, as may be modified or supplemented.

Our board of directors, consistent with our intent to enhance the reliability and credibility of the financial statements, has submitted the financial statements included in this Form 10-QSB to our independent auditor prior to the filing of this report. An audit was completed for the period then ended.

Our auditor is subject to peer review consistent with the American Institute of Certified Public Accountants (AICPA) procedures.

In addition, we do not have any compensation or executive or similar committees.

Bylaws.

Our board of directors has adopted bylaws that establish independent directors, an audit committee, and provisions which mandate an annual meeting, provide for proxy solicitation with minimum quorum requirements of at least 33% of the outstanding shares and other corporate governance standards consistent with those imposed by current BBX qualitative standards.

At the time of adoption of the amended bylaws, we had 3 directors. The new bylaws provide for not less than 5 nor more than 15 directors, with classes and designated terms. As of the date hereof, we currently have two vacancies on the board of directors.
