-

Item 2.02 Results of Operations and Financial Condition.

On May 26, 2010, NetApp, Inc. (“NetApp” or the “Company”) issued a press release and supplemental commentary reporting financial results for the fourth quarter and year ended April 30, 2010. The press release and supplemental commentary are furnished herewith as Exhibit 99.1 and Exhibit 99.2, respectively, and are incorporated herein by reference.

These exhibits shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Non-GAAP Financial Measures

To supplement NetApp’s condensed consolidated financial statement information presented on a GAAP basis, the press release and supplemental commentary furnished herewith as Exhibit 99.1 and Exhibit 99.2, respectively, provide investors with certain non-GAAP measures, including, but not limited to, historical non-GAAP net income and historical and future non-GAAP net income per diluted share. For purposes of internal planning, performance measurement and resource allocation, NetApp’s management uses non-GAAP measures of operating results and net income that exclude: (a) the GSA settlement, (b) amortization of intangible assets, (c) stock-based compensation expenses, (d) acquisition related income and expenses, (e) restructuring and other charges, (f) asset impairments, (g) non-cash interest expense associated with our convertible debt, (h) net losses or gains on investments, and (i) our GAAP tax provision, including discrete items, but includes a non-GAAP tax provision based upon our projected annual non-GAAP effective tax rate for the first three quarters of the fiscal year and an actual non-GAAP tax provision for the fourth quarter of the fiscal year. NetApp’s management uses these non-GAAP measures in making operating decisions because it believes the measurements provide meaningful supplemental information regarding NetApp’s ongoing operational performance. These non-GAAP financial measures are used to: (1) measure company performance against historical results, (2) facilitate comparisons to our competitors’ operating results, and (3) allow greater transparency with respect to information used by management in financial and operational decision making. In addition, these non-GAAP financial measures are used to measure company performance for the purposes of determining employee incentive plan compensation.

As described above, NetApp excludes the following items from its non-GAAP measures:

A. GSA Settlement. NetApp excludes from its revenue as well from its budgeting, planning and forecasting of future periods the impact of the settlement with the GSA because management believes that the settlement related to certain past business practices, and is not representative of NetApp’s on-going business and future revenue generating potential.

B. Amortization of intangible assets. NetApp records amortization of intangible assets that were acquired in connection with its business combinations. The amortization of intangible assets varies depending on the level of acquisition activity. Management finds it useful to exclude these charges to assess the appropriate level of various operating expenses to assist in budgeting, planning and forecasting future periods and in measuring operational performance.

C. Stock-based compensation expenses. NetApp excludes stock-based compensation expenses from its non-GAAP measures primarily because they are non-cash expenses. While management views stock-based compensation as a key element of our employee retention and long-term incentives, it does not view it as an expense to be used in evaluating

operational performance in any given period. In addition, the valuation of stock-based awards and associated expense are based on factors and assumptions that management believes are, in large part, outside of management's control.

D. Acquisition related (income) expenses, net. NetApp excludes acquisition related income and expenses, including merger termination proceeds, from its non-GAAP measures primarily because they are not related to our on-going business and, therefore, cannot be relied upon for future planning and forecasting.

E. Restructuring and other charges. These charges include restructuring charges that are incurred based on the particular facts and circumstances of restructuring decisions, including employment and contractual settlement terms, and other related charges, and can vary in size and frequency. These items are not ordinarily included in our annual operating plan and related budget due to the unpredictability of the timing and size of these events. We therefore exclude them in our assessment of operational performance.

F. Asset impairment. These are non-cash charges to write down assets when there is an indication that the asset has become impaired. Management finds it useful to exclude these non-cash charges due to the unpredictability of these events in its assessment of operational performance.

G. Non-cash interest expense. These are non-cash charges from the amortization of debt discount and issuance costs. Management does not believe that these charges reflect the underlying performance of our business.

H. (Gain) loss on investments, net. These include realized gains and losses on and other-than-temporary impairments of our investments related to significant investment impairments or liquidation events. Management believes that these gains and losses do not reflect the results of our underlying, on-going businesses and, therefore, finds it useful to exclude them in assessing our performance.

I. Income tax effects. NetApp excludes its GAAP tax provision, including discrete items, from its non-GAAP measure of net income, but includes a non-GAAP tax provision based upon its projected annual non-GAAP effective tax rate for the first three quarters of the fiscal year and an actual non-GAAP tax provision for the fourth quarter of the fiscal year. Management believes the use of a non-GAAP tax provision provides a more meaningful measure of the company's operational performance in any given period.

There are limitations in using non-GAAP financial measures because the non-GAAP financial measures are not prepared in accordance with generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, the non-GAAP financial measures are limited in value because they exclude certain items that may have a material impact upon our reported financial results. Management compensates for these limitations by analyzing current and future results on a GAAP basis as well as a non-GAAP basis and also by providing GAAP measures in our earnings release and prepared remarks. The presentation of non-GAAP financial information is not meant to be considered in isolation or as a substitute for the directly comparable financial measures prepared in accordance with generally accepted accounting principles in the United States. The non-GAAP financial measures are meant to supplement, and be viewed in conjunction with, GAAP financial measures. Investors should review the information regarding non-GAAP financial measures provided in our press release and prepared remarks.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

Exhibit	Description
<u>99.1</u>	Press release, dated May 26, 2010, reporting earnings for the fiscal quarter ended April 30, 2010.
<u>99.2</u>	Supplemental Commentary, dated May 26, 2010.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
