Item 2.02 Results of Operations and Financial Condition.

On July 27, 2005 Harvard Bioscience, Inc. (the Company) issued a press release that discussed certain financial results for the second quarter of 2005. The press release is furnished as Exhibit 99.1 and incorporated herein by reference. The information in this Current Report on Form 8-K and the Exhibit attached shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Item 2.05 Costs Associated with Exit or Disposal Activities.

On July 26, 2005, the Board of Directors authorized the Company to engage an investment bank to assist in the sale of the Company's capital equipment business segment. The decision to divest this business segment is based on the fact that market conditions for the capital equipment business segment have been such that this business has not met our expectations and the Company's decision to focus on its apparatus and instrumentation business. The Company is in the final stages of engaging an investment bank to assist in this divestiture. The Company is presently evaluating the costs that may be incurred in selling the capital equipment business operations. The Company is unable to estimate the costs that may be incurred in connection with such divestiture at this time. The Company expects to substantially complete the divestiture as soon as reasonably practicable, but in any event within one year.

Item 9.01. Financial Statements and Exhibits.
