Huntsman CORP Form DEFA14A July 31, 2007 UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549

SCHEDULE 14A

Proxy Statement Pursuant to Section 14(a) of the Securities Exchange Act of 1934 (Amendment No.

Filed by the Registrant o

Filed by a Party other than the Registrant O

Check the appropriate box:

o Preliminary Proxy Statement

o Confidential, for Use of the Commission Only (as permitted by Rule 14a-6(e)(2))

o Definitive Proxy Statement x Definitive Additional Materials

o Soliciting Material Pursuant to §240.14a-12

Huntsman Corporation (Name of Registrant as Specified In Its Charter)

(Name of Person(s) Filing Proxy Statement, if other than the Registrant)

Payment of Filing Fee (Check the appropriate box):

x No fee required.

- o Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.
 - (1) Title of each class of securities to which transaction applies:
 - (2) Aggregate number of securities to which transaction applies:
 - (3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11

(set forth the amount on which the filing fee is calculated and state how it was determined):

- (4) Proposed maximum aggregate value of transaction:
- (5) Total fee paid:
- o Fee paid previously with preliminary materials.

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

Persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number. FOR IMMEDIATE RELEASE

HUNTSMAN RELEASES 2007 SECOND QUARTER RESULTS

SECOND QUARTER ADJUSTED DILUTED INCOME FROM CONTINUING OPERATIONS WAS \$0.33 PER SHARE AS COMPARED TO \$0.34 PER SHARE IN PRIOR YEAR PERIOD

Second Quarter 2007 Highlights

- Revenues for the second quarter of 2007 were \$2,517.6 million, as compared to \$2,389.0 million for the second quarter of 2006.
- Second quarter 2007 net loss was \$83.9 million or \$0.36 loss per diluted share as compared to net income of \$262.9 million or \$1.13 per diluted share for the same period in 2006. Adjusted net income from continuing operations for the second quarter of 2007 was \$76.1 million or \$0.33 per diluted share as compared to \$80.2 million or \$0.34 for the same period in 2006.
- Adjusted EBITDA from continuing operations for the second quarter of 2007 was \$241.4 million compared to \$285.0 million for the same period in 2006.

Summarized earnings are as follows:

In millions, except per share amounts	Three months ended , 2007			June 200	,	Six 1 2007	months end	led Ju	ne 30, 2006	5
Net (loss) income	\$	(83.9)	\$	262.9	\$	(37.3)	\$	331.9
Adjusted net income from continuing operations	\$	76.1		\$	80.2	\$	129.2		\$	144.5
Diluted (loss) income per share	\$	(0.36)	\$	1.13	\$	(0.16))	\$	1.42
Adjusted diluted income per share from continuing										
operations	\$	0.33		\$	0.34	\$	0.55		\$	0.62
EBITDA	\$	9.6		\$	499.3	\$	251.6		\$	780.5
Adjusted EBITDA from continuing operations	\$	241.4		\$	285.0	\$	485.3		\$	544.7

See end of press release for important explanations

• On July 12, 2007, we entered into a definitive merger agreement with Hexion Specialty Chemicals, Inc., an affiliate Apollo Management, L.P., pursuant to which Hexion will acquire all of our outstanding common stock for \$28.00 per share in cash. The total transaction is valued at \$10.6 billion including the assumption of debt.

•	On June 22, 2007, we entered into an amended and restated agreement with Flint Hills Resources
whereby we expect	to close on the sale of our North American polymers business on or about August 1, 2007. Second
quarter 2007 results	s include a \$240 million impairment charge related to this sale and the results of this business have
been classified as d	iscontinued operations for all periods.

Peter R. Huntsman, President and CEO, stated:

I am pleased with our results for the 2nd quarter of 2007. Despite higher feedstock and energy cost and continued softness in most construction-related end markets in North America, our earnings profile was very similar to that achieved in the first quarter. In our Polyurethanes segment, we saw MDI sales volumes increase by 15% as compared to the first quarter as demand, particularly in insulation applications, was strong in all global regions.

We anticipate closing on the sale of our U.S. Polymers business to Flint Hills Resources in the coming days and look forward to completing the divestiture of our U.S. Base Chemicals business later this year following the commissioning and re-start of our Port Arthur, Texas olefins manufacturing facility.

Finally, our agreement to merge with Hexion Specialty Chemicals, Inc. represents excellent value for our shareholders. I believe that the combination of Huntsman and Hexion will create one of the premier specialty chemical companies in the world. This organization will be characterized by its geographic reach, leading technologies and products and experienced management. We look forward to completing this transaction and being a part of this new organization.

Huntsman Corporation

See end of press release for footnote explanations

Three Months Ended June 30, 2007 as Compared to Three Months Ended June 30, 2006

Revenues for the three months ended June 30, 2007, increased to \$2,517.6 million, from \$2,389.0 million during the same period in 2006. Revenues increased in our Polyurethanes segment due to higher average selling prices and higher sales volumes. Revenues increased in our Materials and Effects segment primarily due to the acquisition of our textile effects business in June 2006. Revenues increased in our Performance Products segment due primarily to higher average selling prices. Revenues increased in our Pigments segment due to higher sales volumes. Revenues decreased in our Base Chemicals segment primarily due to the continuing outage at our Port Arthur, Texas olefins manufacturing facility since April 29, 2006 and the divestiture of certain of our U.S. butadiene and MTBE assets on June 27, 2006.

For the three months ended June 30, 2007, EBITDA was \$9.6 million, a decrease from \$499.3 million in the same period in 2006. Total Adjusted EBITDA from continuing operations for the three months ended June 30, 2007 was \$241.4 million, a decrease from \$285.0 million for the same period in 2006.

Polyurethanes

The increase in revenues in the Polyurethanes segment for the three months ended June 30, 2007 compared to the same period in 2006 was due to higher average selling prices and higher sales volumes. MDI sales volumes increased 4% primarily as the result of strong growth in Asia and Europe partially offset by reduced demand in the Americas. MDI average selling prices increased 7% primarily in response to increased raw material costs. MTBE average selling prices increased due to improved demand.

The decrease in EBITDA in the Polyurethanes segment was primarily the result of lower MDI margins due to higher raw material costs and expenses related to the ongoing outage at the China joint venture facility. The temporary shutdown of the China joint venture facility, which was undergoing repairs to replace a damaged heat exchanger, resulted in incremental expenses of approximately \$11 million during the second quarter of 2007.

Materials and Effects

The increase in revenues in the Materials and Effects segment for the three months ended June 30, 2007 compared to the same period in 2006 was primarily due to the acquisition of the textile effects business on June 30, 2006. The textile effects business contributed \$260.7 million in revenue for the three months ended June 30, 2007, while the advanced materials business contributed \$360.8 million revenues for the same period, an increase of \$25.5 million or 8% as compared to 2006. The increase in advanced materials revenues was primarily the result of a 13% increase in average selling prices partially offset by a 5% decrease in sales volumes.

The increase in EBITDA in the Materials and Effects segment was primarily due to the acquisition of the textile effects business on June 30, 2006. The textile effects business contributed \$13.1 million of EBITDA for the three months ended June 30, 2007 which included \$7.9 million of restructuring costs, while the advanced materials business contributed \$39.4 million for the same period, an increase of \$4.1 million or 12%. The increase in EBITDA in the advanced materials business was primarily due to higher margins resulting from higher average selling prices, favorable product mix and the strength of major European currencies versus the U.S. dollar. During the three months ended June 30, 2007, the Materials and Effects segment recorded restructuring and plant closing costs of \$8.6 million as compared to a credit of \$0.3 million for the comparable period in 2006.

Performance Products

The increase in revenues in the Performance Products segment for the three months ended June 30, 2007 compared to the same period in 2006 was the result of a 3% increase in average selling prices, partially offset by a 2% decrease in sales volumes. Average selling prices increased primarily due to the strength of major European and Australian currencies versus the U.S. dollar. The decrease in sales volumes was primarily attributable to lower sales of olefins, ethylene oxide, ethylene glycol and ethanolamines due to an outage at our Port Neches, Texas facility.

The decrease in EBITDA in the Performance Products segment was primarily due to lower sales margins in our U.S. intermediates and olefins businesses due to the above mentioned outage at our Port Neches, Texas facility. Fixed manufacturing and selling, general and administrative costs were also higher in the 2007 period as compared to the prior year. In addition, during the three months ended June 30, 2007 we recorded a charge of \$6.3 million relating to the settlement of a legal dispute, whereas during the three months ended June 30, 2006 we recorded a one-time gain on sale of real estate of \$1.5 million.

Pigments

The increase in revenues in the Pigments segment for the three months ended June 30, 2007 compared to the same period in 2006 was primarily due to a 9% increase in sales volumes partially offset by a 1% decrease in average selling prices. Sales volumes increased primarily due to stronger global demand. Average selling prices decreased in the European and North American region due to competitive markets partially offset by the strength of major European currencies versus the U.S. dollar.

The decrease in EBITDA in the Pigments segment was primarily due to the lower local currency average selling prices discussed above. The positive effect which the strength of the major European currencies versus the U.S. dollar had on revenues noted above was offset by the negative impact of the strength of the major European currencies on costs.

Polymers

On February 15, 2007 we entered into an agreement with Flint Hills Resources, LLC to sell the majority of the assets that comprise our Polymers segment. On June 22, 2007 we entered into an amended agreement with Flint Hills Resources whereby we expect to close on the sale of our North American polymers business on or about August 1, 2007. Results from our North American polymers business have been classified as discontinued operations. Results from our Australian polymers business are now included in the Corporate and Other segment.

The decrease in EBITDA in the Polymers segment was primarily the result of an increase in restructuring, impairment and plant closing costs of \$240.1 million. In addition, lower margins driven primarily by lower average selling prices added to the decrease in EBITDA. During the three months ended June 30, 2007 the Polymers segment recorded restructuring, impairment and plant closing costs of \$240.1 million as compared to charges of nil for the same period in 2006.

Base Chemicals

The decrease in revenues in the Base Chemicals segment for the three months ended June 30, 2007 compared to the same period in 2006 was primarily the result of the continuing outage at our Port Arthur, Texas olefins manufacturing facility and the divestiture of certain of our U.S. butadiene and MTBE assets in the 2006 period.

The decrease in EBITDA in the Base Chemicals segment was primarily the result of the continuing outage at our Port Arthur, Texas olefins manufacturing facility and the divestiture of certain of our U.S. butadiene and MTBE assets. During the three months ended June 30, 2007, EBITDA was negatively impacted by an estimated \$31 million related to the outage at the Port Arthur, Texas olefins facility as compared to an estimated \$64 million, which includes a \$10 million impairment charge, in the 2006 period.

On February 15, 2007 we entered into an agreement with Flint Hills Resources, LLC to sell the assets that comprise this Base Chemicals segment.

Corporate and Other

Corporate and other items include the results of our Australia polymers business, unallocated corporate overhead, loss on the sale of accounts receivable, unallocated foreign exchange gains and losses, losses on the early extinguishment of debt, other non-operating income and expense, minority interest, unallocated restructuring costs, and the extraordinary gain on the acquisition of a business. In the second quarter of 2007, the total of these items was a negative \$58.6 million as compared to a positive \$2.0 million in the 2006 period. The decrease in EBITDA was primarily the result of a \$8.9 million extraordinary loss related to the Textile Effects acquisition in the second quarter of 2007 whereas in the second quarter of 2006 we recorded an extraordinary gain of \$50.5 million related to this acquisition.

Income Taxes

In the second quarter 2007, we recorded \$8.0 million of income tax benefit as compared to \$17.4 million of income tax expense in the comparable period of 2006. During the quarter, we released the entire valuation allowance on the U.S. net deferred tax assets. As a result, we recorded an incremental non-cash tax benefit of approximately \$19.8 million to continuing operations and recorded a tax benefit on discontinued operations of \$76.3 million. Our effective tax rate benefit on an adjusted basis was 9% for the second quarter 2007 as compared to an effective tax expense rate of 15% in the prior year comparable period. We expect our full year 2007 adjusted effective tax expense rate to be approximately 15%.

Liquidity, Capital Resources and Outstanding Debt

As of June 30, 2007 we had approximately \$581 million in cash and unused borrowing capacity. Our liquidity decreased during the quarter by approximately \$93 million from \$674 million as of March 31, 2007 primarily due to increased capital expenditures and increased net working capital partially offset by insurance proceeds.

In conjunction with the sale of our Polymers business to Flint Hills Resources, LLC, which we anticipate closing on or about August 1, 2007, we anticipate receiving approximately \$350 million in proceeds, subject to certain post closing adjustments. Substantially all of such proceeds will be used to repay a portion of outstanding borrowings under our revolving credit facility and reduce borrowings under our accounts receivable securitization facility.

We expect to complete the sale of our North American Base Chemicals businesses by the end of the year following the successful re-start of our Port Arthur, Texas olefins facility. In 2007, we expect to record a pre-tax net asset impairment charge related to the sales of this business of approximately \$150 to \$175 million. We intend to use net proceeds from this sale to repay debt and further reduce borrowings under our off balance sheet accounts receivable securitization facility. Also upon the successful start up of our olefins facility we expect to receive an additional \$70 million in proceeds from Texas Petrochemicals, L.P. relating to the sale of our U.S. butadiene and MTBE business that was completed in June of 2006.

With respect to the Port Arthur, Texas fire damage, during the quarter ended June 30, 2007 we executed a sworn statement in proof of loss with the insurance companies to receive additional insurance recovery advances of \$55 million in addition to the \$250 million in advances previously received. As of June 30, 2007 we received \$18 million of the \$55 million, the remaining \$37 million was received in July 2007. We anticipate receiving additional insurance proceeds associated with this claim during 2007.

For the three months ended June 30, 2007, total capital expenditures were approximately \$186 million compared to \$107 million for the same period in 2006. The increase in capital spending is primarily attributable to the spending associated with the rebuild of the Port Arthur, Texas olefins facility which totaled approximately \$63 million in the second quarter of 2007. Excluding estimated 2007 capital expenditures to repair our Port Arthur, Texas olefins facility of approximately \$218 million, we expect to spend approximately \$550 million in capital expenditures in 2007.
