**Forward-Looking Statements**

This Quarterly Report on Form 10-Q, together with other statements and information publicly disseminated by U-Store-It Trust ( we, us, our or the Company ), contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions and other information that is not historical information. In some cases, forward-looking statements can be identified by terminology such as believes, expects, estimates, may, will, should, anticipates, or intends or the negative of such term, comparable terminology, or by discussions of strategy. Such statements are based on assumptions and expectations that may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Although we believe the expectations reflected in these forward-looking statements are based on reasonable assumptions, future events and actual results, performance, transactions or achievements, financial and otherwise, may differ materially from the results, performance, transactions or achievements expressed or implied by the forward-looking statements. As a result, you should not rely on or construe any forward-looking statements in this Report, or which management may make orally or in writing from time to time, as predictions of future events or as guarantees of future performance. We caution you not to place undue reliance on forward-looking statements, which speak only as of the date of this Report or as of the dates otherwise indicated in the statements. All of our forward-looking statements, including those in this Report, are qualified in their entirety by this statement.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in or contemplated by this Report. Any forward-looking statements should be considered in light of the risks and uncertainties referred to in Item 1A. Risk Factors in the U-Store-It Trust Annual Report on Form 10-K for the year ended December 31, 2009 and in our other filings with the Securities and Exchange Commission ( SEC ). These risks include, but are not limited to, the following:

- changes in national and local economic, business, real estate and other market conditions which, among other things, reduce demand for self-storage facilities or increase costs of owning and operating self-storage facilities;
- competition from other self-storage facilities and storage alternatives, which could result in lower occupancy and decreased rents;

## Edgar Filing: U-Store-It Trust - Form 10-Q

- the execution of our business plan;
- financing risks including the risk of over-leverage and the corresponding risk of default on our mortgage and other debt and potential inability to refinance existing indebtedness;
- increases in interest rates and operating costs;
- counterparty non-performance related to the use of derivative financial instruments;
- our ability to maintain our status as a real estate investment trust ( REIT ) for federal income tax purposes;

## Edgar Filing: U-Store-It Trust - Form 10-Q

### Table of Contents

- acquisition and development risks, including unanticipated costs associated with the integration and operation of acquisitions;
- risks of investing through joint ventures, including risks that our joint venture partners may not fulfill their obligations or may pursue actions that are inconsistent with our objectives;
- changes in real estate and zoning laws or regulations;
- risks related to natural disasters;
- potential environmental and other liabilities; and
- other risks identified in our Annual Report on Form 10-K and, from time to time, in other reports that we file with the Securities and Exchange Commission (the "SEC") or in other documents that we publicly disseminate.

Given these uncertainties and the other risks identified elsewhere in our Annual Report on Form 10-K and in this Report, we caution readers not to place undue reliance on forward-looking statements. We undertake no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise except as may be required by securities laws.

Table of Contents

**U-STORE-IT TRUST AND SUBSIDIARIES**

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**1. ORGANIZATION AND NATURE OF OPERATIONS**

U-Store-It Trust, a Maryland real estate investment trust (collectively with its subsidiaries, we, us or the Company), is a self-administered and self-managed real estate investment trust, or REIT, active in acquiring, developing, managing and operating self-storage properties for business and personal use under month-to-month leases. The Company's self-storage facilities (collectively, the Properties) are located in 26 states throughout the United States, and in the District of Columbia and are managed under one reportable operating segment: we own, operate, develop, manage and acquire self-storage facilities. The Company owns substantially all of its assets through U-Store-It, L.P., a Delaware limited partnership (the Operating Partnership). The Company is the sole general partner of the Operating Partnership and, as of June 30, 2010, owned a 95.1% interest in the Operating Partnership. The Company manages its owned assets through YSI Management, LLC (the Management Company), a wholly owned subsidiary of the Operating Partnership, and manages its managed assets through Storage Asset Management, LLC. The Company owns four subsidiaries that have elected to be treated as taxable REIT subsidiaries. In general, a taxable REIT subsidiary may perform non-customary services for tenants, hold assets that the Company, as a REIT, cannot hold directly and generally may engage in any real estate or non-real estate related business.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RECENT ACCOUNTING PRONOUNCEMENTS**

*Basis of Presentation*

The accompanying unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the SEC regarding interim financial reporting and, in the opinion of management, include all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of financial position, results of operations and cash flows for the interim periods presented in accordance with generally accepted accounting principles in the United States (GAAP). Accordingly, readers of this Quarterly Report on Form 10-Q should refer to the Company's audited financial statements prepared in accordance with GAAP, and the related notes thereto, for the year ended December 31, 2009, which are included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009 as certain footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted from this report pursuant to the rules of the SEC. The results of operations for each of the three and six months ended June 30, 2010 and 2009 are not necessarily indicative of the results of operations to be expected for any future period or the full year.

*New Accounting Pronouncements*

The Financial Accounting Standards Board (FASB) established the *FASB Accounting Standards Codification* (Codification) as the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements issued for interim and annual periods ending after September 15, 2009. The Codification has changed the manner in which GAAP guidance is referenced, but did not have an impact on our consolidated financial position, results of operations or cash flows.

## Edgar Filing: U-Store-It Trust - Form 10-Q

The FASB issued authoritative guidance on accounting for transfers of financial assets in June 2009, which we adopted on a prospective basis beginning January 1, 2010. The guidance requires entities to provide more information regarding sales of securitized financial assets and similar transactions, particularly if the entity has continuing exposure to the risks related to transferred financial assets. It also eliminates the concept of a qualifying special-purpose entity, changes the requirements for derecognizing financial assets and requires additional disclosures. The application did not have an impact on our consolidated financial position, results of operations or cash flows.

The FASB issued authoritative guidance on how a company determines when an entity should be consolidated in June 2009, which we adopted on a prospective basis beginning January 1, 2010. The guidance clarifies that the determination of whether a company is required to consolidate an entity is based on, among other things, an entity's purpose and design and a company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. The guidance requires an ongoing reassessment of whether a company is the primary beneficiary of a variable interest entity. It also requires additional disclosures about a company's involvement in variable interest entities and any significant changes in risk exposure due to that involvement. The application did not have an impact on our consolidated financial position, results of operations or cash flows.

Table of Contents**3. STORAGE FACILITIES**

The book value of the Company's real estate assets is summarized as follows:

	June 30, 2010		December 31, 2009
	(in thousands)		
Land and improvements	\$ 369,656	\$	369,842
Buildings and improvements	1,244,579		1,243,047
Equipment	122,745		157,452
Construction in progress	2,637		4,201
Total	1,739,617		1,774,542
Less accumulated depreciation	(336,392)		(344,009)
Storage facilities, net	\$ 1,403,225	\$	1,430,533

As assets become fully depreciated, they are removed from their respective asset category. During the six months ended June 30, 2010 and 2009, \$40.3 million and \$27.7 million of assets became fully depreciated, and were removed from storage facilities, respectively.

**4. ACQUISITIONS**

The Company entered into an acquisition accounted for as a business combination of 85 management contracts from United Stor-All Management, LLC ( "United Stor-All" ) on April 28, 2010. The 85 contracts relate to facilities located in 16 states and the District of Columbia. The Company recorded the fair value of the assets acquired which include the intangible value related to the management contracts and are included in other assets, net on the Company's consolidated balance sheet. The Company's estimation of the fair value of the acquired assets and liabilities utilized Level 3 inputs and considered the probability of the expected period the contracts would remain in place, including estimated renewal periods, and the amount of the discounted future contingent payments to be made. The Company paid \$4.1 million in cash for the contracts and recognized \$1.8 million in contingent consideration. The Company will account for the contingent consideration liability by recording the changes in fair value of the liability recorded in earnings. The Company has recognized \$0.2 million of amortization during the three months ended June 30, 2010. The Company expensed \$0.3 million in transition related costs that are included in acquisition related costs on the Company's consolidated statement of operations. The estimated life of the intangible value of the management contracts is 56 months and the estimated remaining amortization expense that will be recognized during 2010 is \$0.6 million.

**5. SECURED CREDIT FACILITY**

On December 8, 2009, the Company and its Operating Partnership entered into a three-year, \$450 million senior secured credit facility (the "secured credit facility" ), consisting of a \$200 million secured term loan and a \$250 million secured revolving credit facility. The secured credit facility is collateralized by mortgages on borrowing base properties as defined in the secured credit facility agreement. At June 30, 2010, \$200 million of secured term loan borrowings were outstanding under the secured credit facility. At June 30, 2010, \$250 million was available for borrowing under the secured revolving credit facility. Borrowings under the secured credit facility bear interest at rates ranging from 3.25% to 4.00% over LIBOR, with a LIBOR floor of 1.5%, depending on the Company's leverage ratio. At June 30, 2010, borrowings under the secured

## Edgar Filing: U-Store-It Trust - Form 10-Q

credit facility had a weighted average interest rate of 5.0% and the Company was in compliance with all covenants of the agreement.

The secured credit facility replaced the prior, three-year \$450 million unsecured credit facility, which was entered into in November 2006, and consisted of a \$200 million unsecured term loan and \$250 million in unsecured revolving loans. All borrowings under the unsecured credit facility were repaid in December 2009.

Table of Contents**6. MORTGAGE LOANS AND NOTES PAYABLE**

The Company's mortgage loans and related notes payable are summarized as follows:

Mortgage Loan	Carrying Value as of:		Effective Interest Rate	Maturity Date

Table of Contents

(a) These borrowings have a fixed interest rate for the first five years of their respective term. At the end of the initial five years, the rate resets and remains constant over the remaining five years of the loan term.

The following table presents the future principal payments on outstanding mortgage loans and notes payable at June 30, 2010 (in thousands):

2010	\$	15,393
2011		90,544
2012		159,984
2013		26,240
2014		88,261
2015 and thereafter		85,388
Total mortgage payments		465,810
Plus: Fair value adjustment		44
Total mortgage indebtedness	\$	465,854

The Company currently intends to fund the remainder of its 2010 principal payment requirements with available cash and from cash provided by operating activities.

## 7. FAIR VALUE MEASUREMENTS

In January 2008, the FASB issued a pronouncement regarding the methods to value financial assets and liabilities. The Company adopted this pronouncement effective January 1, 2009. As defined in the guidance, fair value is based on the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, the guidance establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

## Edgar Filing: U-Store-It Trust - Form 10-Q

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considering counterparty credit risk in its assessment of fair value.

In April 2009, the FASB issued a pronouncement regarding disclosures about fair value of financial instruments and a pronouncement which amends GAAP as follows: a) to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements and b) to require disclosures in summarized financial information at interim reporting periods. This pronouncement is effective for interim reporting periods ending after June 15, 2009. Accordingly, the Company adopted this pronouncement during the quarter ended September 30, 2009. Disclosures about fair value of financial instruments are based on pertinent information available to management as of the valuation date. Considerable judgment is necessary to interpret market data and develop estimated fair values. Accordingly, the estimates presented are not necessarily indicative of the amounts at which these instruments could be purchased, sold or settled. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Table of Contents

The fair value of financial instruments, including cash and cash equivalents, accounts receivable and accounts payable approximates their respective book values at June 30, 2010 and December 31, 2009. At June 30, 2010 and December 31, 2009, the Company had fixed interest rate loans with a carrying value of \$465.9 million and \$569.0 million, respectively. The estimated fair values of these fixed rate loans were \$445.7 million and \$530.7 million at June 30, 2010 and December 31, 2009, respectively. The Company has a variable interest rate loan with a carrying value of \$200.0 million at June 30, 2010 and December 31, 2009, the fair value of which estimates its carrying value. These estimates are based on discounted cash flow analyses assuming market interest rates for comparable obligations at June 30, 2010 and December 31, 2009.

## **8. NONCONTROLLING INTERESTS**

### **Variable Interests in Consolidated Real Estate Joint Ventures**

On August 13, 2009, the Company, through a wholly-owned affiliate, formed a joint venture ( HART ) with an affiliate of Heitman, LLC ( Heitman ) to own and operate 22 self-storage facilities, which are located throughout the United States. Upon formation, Heitman contributed approximately \$51 million of cash to a newly-formed limited partnership and the Company contributed certain unencumbered wholly-owned properties with an agreed upon value of approximately \$102 million to such limited partnership. In exchange for its contribution of those properties, the Company received a cash distribution from HART of approximately \$51 million and retained a 50% interest in HART. The Company is the managing partner of HART and the manager of the properties owned by HART, and receives a market rate management fee for its management services.

The Company determined that HART is a variable interest entity under GAAP, and that it is the primary beneficiary. Accordingly, the assets, liabilities, and results of operations of HART are consolidated. The 50% interest that is owned by Heitman is reflected as noncontrolling interest in subsidiaries within permanent equity, separate from the Company's equity on the consolidated balance sheet. At June 30, 2010, HART had total assets of \$91.5 million, including \$89.5 million of storage facilities, net and total liabilities of \$2.3 million.

USIFB, LLP ( the Venture ) was formed to own, operate, acquire and develop self-storage facilities in England. The Company owns a 97% interest in the Venture through a wholly-owned subsidiary and the Venture commenced operations at one facility in London, England during 2008. The Company determined that the Venture is a variable interest entity under GAAP, and that it is the primary beneficiary. Accordingly, the assets, liabilities and results of operations of the Venture are consolidated. At June 30, 2010, the Venture had total assets of \$7.5 million and total liabilities of \$3.8 million including a mortgage loan of \$3.6 million secured by storage facilities, net with a book value of \$7.2 million. At June 30, 2010, the Venture's creditors had no recourse to the general credit of the Company.

### **Operating Partnership Ownership**

The Company has followed the FASB guidance regarding the classification and measurement of redeemable securities. Under this guidance, securities that are redeemable for cash or other assets, at the option of the holder and not solely within the control of the issuer, must be classified outside of permanent equity. This classification results in certain outside ownership interests being included as redeemable noncontrolling interests outside of permanent equity in the consolidated balance sheets. The Company makes this determination based on terms in applicable agreements, specifically in relation to redemption provisions. Additionally, with respect to noncontrolling interests for which the Company has a choice to settle the redemption by delivery of its own shares, the Company considered the guidance regarding accounting for

## Edgar Filing: U-Store-It Trust - Form 10-Q

derivative financial instruments indexed to, and potentially settled in, a company's own shares, to evaluate whether the Company controls the actions or events necessary to presume share settlement. The guidance also requires that noncontrolling interests be adjusted each period to the greater of the carrying value based on the accumulation of historical cost or the redemption value.

The consolidated results of the Company include results attributable to units of the Operating Partnership that are not owned by the Company, which amounted to approximately 4.9% of all outstanding Partnership units as of June 30, 2010 and December 31, 2009. The interests in the Operating Partnership represented by these units were a component of the consideration that the Company paid to acquire certain self-storage facilities. The holders of the units are limited partners in the Operating Partnership and have the right to require the Operating Partnership to redeem part or all of their units for, at the Company's option, an equivalent number of common shares of the Company or cash based upon the fair value of an equivalent number of common shares of the Company. However, the partnership agreement contains certain circumstances that could result in a settlement outside the control of the Company.

## Edgar Filing: U-Store-It Trust - Form 10-Q

## Table of Contents

Accordingly, consistent with the guidance, the Company will record these noncontrolling interests outside of permanent equity in the consolidated balance sheets. Net income or loss related to these noncontrolling interests is excluded from net income or loss attributable to the Company in the consolidated statements of operations.

The per unit cash redemption amount would equal the average of the closing prices of the common shares of the New York Stock Exchange for the 10 trading days ending prior to the Company's receipt of the redemption notice. At June 30, 2010 and December 31, 2009, 4,806,136 and 4,809,636 units were outstanding, respectively, and the calculated aggregate redemption value of outstanding Operating Partnership units based upon the Company's share price was approximately \$37.8 million and \$35.4 million, respectively. Based on the Company's evaluation of the redemption value of the redeemable noncontrolling interest, the Company has reflected these interests at their carrying value as of June 30, 2010 and December 31, 2009 because the carrying cost exceeded the estimated redemption value.

## 9. RELATED PARTY TRANSACTIONS

During 2005 and 2006, the Operating Partnership entered into various office lease agreements with Amsdell and Amsdell, an entity owned by Robert Amsdell and Barry Amsdell (each a former Trustee). Pursuant to these lease agreements, the Operating Partnership rented office space in the Airport Executive Park, an office and flex development located in Cleveland, Ohio, which is owned by Amsdell and Amsdell. The Company's independent Trustees approved the terms of, and entry into, each of the office lease agreements by the Operating Partnership. In addition to monthly rent, the office lease agreements provide that the Operating Partnership reimburse Amsdell and Amsdell for certain maintenance and improvements to the leased office space. The aggregate amount of payments by the Company to Amsdell and Amsdell under these lease agreements for each of the three months ended June 30, 2010 and June 30, 2009 was approximately \$0.1 million. Additionally, the aggregate amount of payments for each of the six months ended June 30, 2010 and June 30, 2009 was approximately \$0.2 million. We vacated the office space owned by Amsdell and Amsdell in 2007, but remain obligated under certain of the lease agreements through 2014. Subsequently, the Company entered into a sublease agreement for a portion of the space with a third party for the remainder of the lease term.

Total future minimum rental payments under the related party lease agreements as of June 30, 2010 are as follows:

	Due to Related Party Amount		Due from Subtenant Amount
	(in thousands)		
2010	\$	227	\$ 139
2011		475	278
2012		475	278
2013		499	278
2014		499	278
	\$	2,175	\$ 1,251

## 10. DISCONTINUED OPERATIONS

There were no property sales during the six months ended June 30, 2010. For the three months ended June 30, 2009, income from discontinued operations relates to 19 properties that the Company sold during 2009. For the six months ended June 30, 2009, income from discontinued

## Edgar Filing: U-Store-It Trust - Form 10-Q

operations relates to 20 properties that the Company sold during 2009. Net gain on disposition of discontinued operations relates to gains recognized on property sales completed during the three and six months ended June 30, 2009.

The following table summarizes the revenue and expense information for the properties classified as discontinued operations for the three and six months ended June 30, 2009 (in thousands):

# Edgar Filing: U-Store-It Trust - Form 10-Q

## Table of Contents

Income from discontinued operations	\$ 2,895	\$ 4,426

## 11. PRO FORMA FINANCIAL INFORMATION

During 2010, the Company entered into an acquisition accounted for as a business combination of 85 management contracts from United Stor-All (see note 4).

The consolidated pro forma financial information set forth below reflects adjustments to the Company's historical financial data to give effect to the acquisition as if it had occurred at the beginning of each period presented. The unaudited pro forma information presented below does not purport to represent what the Company's actual results of operations would have been for the periods indicated, nor does it purport to represent the Company's future results of operations.

The following table summarizes, on a pro forma basis, our consolidated results of operations for the six months ended June 30, 2010 and 2009 based on the assumptions described above:

	Six Months Ended June 30, 2010                      2009 (in thousands, except per share data)			
Pro forma revenue	\$	109,046	\$	110,979

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. The Company makes certain statements in this section that are forward-looking statements within the meaning of the federal securities laws. For a complete discussion of forward-looking statements, see the section in this report entitled "Forward-Looking Statements." Certain risk factors may cause actual results, performance or achievements to differ materially from those expressed or implied by the following discussion. For a discussion of such risk factors, see the section entitled "Risk Factors" in the Company's Annual Report on the Form 10-K for the year ended December 31, 2009 and in Part II, Item 1A "Risk Factors," in our subsequent quarterly reports.*

**Overview**

The Company is an integrated self-storage real estate company, which means that it has in-house capabilities in the operation, design, development, leasing, management and acquisition of self-storage facilities. The Company has elected to be taxed as a REIT for federal tax purposes. As of June 30, 2010 and December 31, 2009, the Company owned 367 self-storage facilities that contain approximately 23.7 million rentable square feet. In addition, as of June 30, 2010, the Company managed 114 properties for third parties bringing the total number of properties which it owned and/or managed to 481.

The Company derives revenues principally from rents received from its customers who rent units at its self-storage facilities under month-to-month leases, and, to a lesser extent, from the management of properties owned by third parties. Therefore, our operating results depend materially on our ability to retain our existing customers and lease our available self-storage units to new customers while maintaining and, where possible, increasing our pricing levels. In addition, our operating results depend on the ability of our customers to make required rental payments to us. We believe that our decentralized approach to the management and operation of our facilities, which places an emphasis on local, market level oversight and control, allows us to respond quickly and effectively to changes in local market conditions, increasing rents where appropriate, while maintaining occupancy levels, or increasing occupancy levels while maintaining pricing levels.

The Company typically experiences seasonal fluctuations in the occupancy levels of our facilities, which are generally slightly higher during the summer months due to increased moving activity.

The United States has recently experienced an economic downturn that has resulted in higher unemployment, shrinking demand for products, large-scale business failures and tight credit markets. Our results of operations may be sensitive to changes in overall economic conditions that impact consumer spending, including discretionary spending, as well as to increased bad debts due to recessionary pressures. A continuation of ongoing adverse economic conditions affecting disposable consumer income, such as employment levels, business conditions, interest rates, tax rates, fuel and energy costs, and other matters could reduce consumer spending or cause consumers to shift their spending to other products and services. A general reduction in the level of discretionary spending or shifts in consumer discretionary spending could adversely affect our growth and profitability.

In the future, the Company intends to focus on internal growth opportunities and selectively pursuing targeted acquisitions and developments of self-storage facilities. We intend to incur additional debt in connection with any such future acquisitions or developments.

## Edgar Filing: U-Store-It Trust - Form 10-Q

The Company has one reportable operating segment: we own, operate, develop, manage, and acquire self-storage facilities.

The Company's self-storage facilities are located in major metropolitan and rural areas and have numerous tenants per facility. No single tenant represents a significant concentration of our revenues. The facilities in Florida, California, Texas and Illinois provided approximately 18%, 15%, 10% and 7%, respectively, of total revenues for the three and six month periods ended June 30, 2010.

Table of Contents

**Summary of Critical Accounting Policies and Estimates**

Set forth below is a summary of the accounting policies and estimates that management believes are critical to an understanding of the unaudited consolidated financial statements included in this report. These policies require the application of judgment and assumptions by management and, as a result, are subject to a degree of uncertainty. Due to this uncertainty, actual results could differ from estimates calculated and utilized by management.

***Self-Storage Facilities***

The Company records self-storage facilities at cost less accumulated depreciation. Depreciation on the buildings and equipment is recorded on a straight-line basis over their estimated useful lives, which range from five to 40 years. Expenditures for significant renovations or improvements that extend the useful lives of assets are capitalized. Repairs and maintenance costs are expensed as incurred.

When facilities are acquired, the purchase price is allocated to the tangible and intangible assets acquired and liabilities assumed based on estimated fair values. When a portfolio of facilities is acquired, the purchase price is allocated to the individual facilities at fair value which may include an income approach or a cash flow analysis using appropriate risk adjusted capitalization rates, which take into account the relative size, age and location of the individual facility along with current and projected occupancy and rental rate levels or appraised values, if available. Allocations to the individual assets and liabilities are based upon comparable market sales information for land, buildings and improvements and estimates of depreciated replacement cost of equipment.

In allocating the purchase price, the Company determines whether the acquisition includes intangible assets or liabilities, which may include the value of in-place leases, above or below market lease intangibles, and tenant relationships. Substantially all of the leases in place at acquired facilities are at market rates, as the majority of the leases are month-to-month contracts. Accordingly, to date no portion of the purchase price has been allocated to above- or below-market lease intangibles. To date, no intangible asset has been recorded for the value of tenant relationships, because the Company does not have any concentrations of significant tenants and the average tenant turnover is fairly frequent.

Long-lived assets classified as held for use are reviewed for impairment when events and circumstances indicate that there may be impairment. The carrying values of these long-lived assets are compared to the undiscounted future net operating cash flows attributable to the assets. An impairment loss is recorded if the net carrying value of the asset exceeds the undiscounted future net operating cash flows attributable to the asset. The impairment loss recognized equals the excess of net carrying value over the related fair value of the asset. Future events, or facts and circumstances that currently exist, that we have not yet identified, could cause us to conclude in the future that our long-lived assets are impaired. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations. No impairment was recorded for the periods ended June 30, 2010 and 2009.

The Company considers long-lived assets to be held for sale upon satisfaction of the following criteria: (a) management commits to a plan to sell a facility (or group of facilities), (b) the facility is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such facilities, (c) an active program to locate a buyer and other actions required to complete the plan to sell the facility have been initiated, (d) the sale of the facility is probable and transfer of the asset is expected to be completed within one year, (e) the facility is being actively marketed for sale at a price that is reasonable in relation to its current fair value, and (f) actions required to complete the plan

## Edgar Filing: U-Store-It Trust - Form 10-Q

indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Typically these criteria are all met when the relevant assets are under contract, significant non-refundable deposits have been made by the potential buyer, the assets are immediately available for transfer and there are no contingencies related to the sale that may prevent the transaction from closing. In most transactions, these contingencies are not satisfied until the actual closing of the transaction; and, accordingly, the facility is generally not identified as held for sale until the closing actually occurs. However, each potential transaction is evaluated based on its separate facts and circumstances. Properties classified as held for sale are reported as the lesser of carrying value or fair value less estimated costs to sell.

### ***Revenue Recognition***

Management has determined that all of our leases with tenants are operating leases. Rental income is recognized in accordance with the terms of the lease agreements or contracts, which generally are month-to-month.

Table of Contents

Management fee revenues are recognized monthly as services are performed and in accordance with the terms of the related management agreements.

The Company recognizes gains on disposition of properties only upon closing in accordance with the guidance on sales of real estate. Payments received from purchasers prior to closing are recorded as deposits. Profit on real estate sold is recognized using the full accrual method upon closing when the collectability of the sales price is reasonably assured and the Company is not obligated to perform significant activities after the sale. Profit may be deferred in whole or part until the sale meets the requirements of profit recognition on sales under this guidance.

***Share-Based Payments***

We apply the fair value method of accounting for contingently issued shares and share options issued under our equity incentive plans. Accordingly, share compensation expense is recorded ratably over the vesting period relating to such contingently issued shares and options. The Company has elected to recognize compensation expense on a straight-line method over the requisite service period.

***Noncontrolling Interests***

Noncontrolling interests are the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. The ownership interests in the subsidiary that are held by owners other than the parent are noncontrolling interests. Noncontrolling interests are reported on the consolidated balance sheets within equity, separately from the Company's equity. On the consolidated statements of operations, revenues, expenses and net income or loss related to these noncontrolling interests is excluded from net income or loss attributable to the Company. Presentation of consolidated equity activity is included for both quarterly and annual financial statements, including beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity. The Company has adjusted the carrying value of its noncontrolling interests subject to redemption value to the extent applicable.

**Recent Accounting Pronouncements**

The FASB established the *FASB Accounting Standards Codification* ( Codification ) as the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements issued for interim and annual periods ending after September 15, 2009. The Codification has changed the manner in which U.S. GAAP guidance is referenced, but did not have an impact on our consolidated financial position, results of operations or cash flows.

The FASB issued authoritative guidance on accounting for transfers of financial assets in June 2009, which was adopted on a prospective basis beginning January 1, 2010. The guidance requires entities to provide more information regarding sales of securitized financial assets and similar transactions, particularly if the entity has continuing exposure to the risks related to transferred financial assets. It also eliminates the concept of a qualifying special-purpose entity, changes the requirements for derecognizing financial assets and requires additional disclosures. The application did not have an impact on our consolidated financial position, results of operations or cash flows.

The FASB issued authoritative guidance on how a company determines when an entity should be consolidated in June 2009, which was adopted on a prospective basis beginning January 1, 2010. The guidance clarifies that the determination of whether a company is required to consolidate an entity is based on, among other things, an entity's purpose and design and a company's ability to direct the activities of the entity that most significantly impact the entity's economic performance. The guidance requires an ongoing reassessment of whether a company is the primary beneficiary of a variable interest entity. It also requires additional disclosures about a company's involvement in variable interest entities and any significant changes in risk exposure due to that involvement. The application did not have an impact on our consolidated financial position, results of operations or cash flows.

## **Results of Operations**

The following discussion of our results of operations should be read in conjunction with the unaudited consolidated financial statements and the accompanying notes thereto. Historical results set forth in the consolidated statements of operations reflect only the existing facilities and should not be taken as indicative of future operations.

Table of Contents

*Acquisition and Development Activities*

The comparability of the Company's results of operations is affected by the timing of acquisition and disposition activities during the periods reported. At June 30, 2010 and 2009, the Company owned 367 and 384 self-storage facilities and related assets, respectively. The following table summarizes the change in number of owned self-storage facilities from January 1, 2009 through June 30, 2010:

	<b>Self-Storage Facilities</b>
Balance - January 1, 2009	387
Facilities acquired	
Facilities sold	(20)
Balance - December 31, 2009	367
Facilities acquired	
Facilities sold	
Balance - June 30, 2010	367

*Comparison of the three months ended June 30, 2010 to the three months ended June 30, 2009*

The following table and subsequent discussion provides information pertaining to our portfolio for the three months ended June 30, 2010 and 2009. The Company considers its same-store portfolio to consist of only those facilities owned, and operated on a stabilized basis, at the beginning and at the end of the applicable periods presented. Same-store results are considered to be useful to investors in evaluating our performance as they provide information relating to changes in facility-level operating performance without taking into account the effects of acquisitions, developments or dispositions.

**Total Portfolio**

*Total Revenues*

Rental income decreased from \$49.8 million for the three months ended June 30, 2009 to \$49.5 million for the three months ended June 30, 2010, a decrease of \$0.3 million. This decrease is primarily attributable to a decrease of rental income from the same-store properties of \$0.4 million during the three months ended June 30, 2010 as compared to the three months ended June 30, 2009, offset by an increase in rental income of \$0.1 million from assets that do not meet the same-store criteria

Other property related income increased from \$4.5 million for the three months ended June 30, 2009 to \$4.7 million for the three months ended June 30, 2010, an increase of \$0.2 million, or 5%. This increase is primarily attributable to increased tenant insurance commissions and convenience fee income across the portfolio of storage facilities during the second quarter 2010 as compared to the second quarter 2009.

Property management fee income increased to \$0.6 million for the three months ended June 30, 2010 from no such income for the three months ended June 30, 2009, an increase of \$0.6 million, or 100%. This increase is primarily attributable to a \$0.6 million increase in management fees related to the Company's managed properties.

*Total Operating Expenses*

Property operating expenses decreased from \$24.9 million for the three months ended June 30, 2009 to \$24.4 million for the three months ended June 30, 2010, a decrease of \$0.5 million, or 2%. This decrease is primarily attributable to a \$1.1 million decrease in

## Edgar Filing: U-Store-It Trust - Form 10-Q

### Table of Contents

real estate tax expense, offset by an increase in other property related expense of \$0.5 million during the 2010 period as compared to the 2009 period.

Depreciation and amortization decreased from \$17.8 million for the three months ended June 30, 2009 to \$16.4 million for the three months ended June 30, 2010, a decrease of \$1.4 million, or 8%. This decrease is primarily attributable to depreciation expense recognized in the 2009 period related to assets that became fully depreciated during 2009, with no similar activity on these fully depreciated assets in the 2010 period.

General and administrative expenses increased from \$5.6 million for the three months ended June 30, 2009 to \$6.8 million for the three months ended June 30, 2010, an increase of \$1.2 million, or 22%. This increase is primarily attributable to \$1.0 million in professional fee and contract related costs during the 2010 period that the Company did not incur during the 2009 period, and a \$0.2 million increase in legal expenses incurred during 2010 as compared to 2009.

### *Total Other Expenses*

Interest expense decreased from \$11.5 million for the three months ended June 30, 2009 to \$9.6 million for the three months ended June 30, 2010, a decrease of \$1.9 million, or 16%. The decrease is attributable to the payoffs of the \$9.4 million YSI 26 loan and the \$6.0 million YSI 4 loan during the second quarter of 2010, and lower outstanding borrowings on the credit facility during the 2010 period as compared to the 2009 period resulting in an overall decrease in interest expense.

### *Discontinued Operations*

Income from discontinued operations decreased from \$0.8 million for the three months ended June 30, 2009 to no such income for the three months ended June 30, 2010. The income from discontinued operations in 2009 represents the income during the three months ended June 30, 2009, from properties sold throughout 2009. Net gains on disposition of discontinued operations decreased from \$2.1 million for the three months ended June 30, 2009 to no such gains for the three months ended June 30, 2010 as a result of the sale of two assets during the three months ended June 30, 2009 compared to no asset sales during the 2010 period.

### **Same-Store Property Portfolio**

Same-store revenues decreased from \$54.1 million for the three months ended June 30, 2009 to \$53.7 million for the three months ended June 30, 2010, a decrease of \$0.4 million, or 1%. The decrease is primarily attributable a 2% decrease in realized annual rent per occupied square foot on the same-store portfolio in the 2010 period as compared to the 2009 period. Same-store property operating expenses decreased from \$22.8 million for the three months ended June 30, 2009 to \$21.8 million for the three months ended June 30, 2010, a decrease of \$1.0 million or 4%. The decrease is primarily attributable to a \$0.6 million decrease in real estate tax expense, a \$0.3 million decrease in utility expenses and a \$0.1 million decrease in repairs and maintenance expenses during the 2010 period as compared to the 2009 period.

### *Total Revenues*

Rental income decreased from \$101.1 million for the six months ended June 30, 2009 to \$98.5 million for the six months ended June 30, 2010, a decrease of \$2.6 million, or 3%. This decrease is primarily attributable to a 2% decrease in realized annual rent per square foot from the same-store properties during the six months ended June 30, 2010 as compared to the six months ended June 30, 2009.

Other property related income increased from \$8.2 million for the six months ended June 30, 2009 to \$8.8 million for the six months ended June 30, 2010, an increase of \$0.6 million, or 7%. This increase is primarily attributable to an increase of \$0.5 million in tenant insurance commissions and convenience fee income across the portfolio of storage facilities during the six months ended June 30, 2010 as compared to the six months ended June 30, 2009.

Property management fee income increased to \$0.6 million for the six months ended June 30, 2010 from no such income for the six months ended June 30, 2009, an increase of \$0.6 million, or 100%. This increase is primarily attributable to a \$0.6 million increase in management fees related to the Company's managed properties.

### *Total Operating Expenses*

Property operating expenses decreased from \$48.6 million for the six months ended June 30, 2009 to \$47.4 million for the six months ended June 30, 2010, a decrease of \$1.2 million, or 2%. The decrease is primarily attributable to a decrease of \$1.4 million in

## Edgar Filing: U-Store-It Trust - Form 10-Q

### Table of Contents

real estate tax expense, offset by a \$0.2 million increase in other property related expenses during the 2010 period as compared to the 2009 period.

Depreciation and amortization decreased from \$35.6 million for the six months ended June 30, 2009 to \$32.7 million for the six months ended June 30, 2010, a decrease of \$2.9 million, or 8%. This decrease is primarily attributable to depreciation expense recognized in the 2009 period related to assets that became fully depreciated during 2009, with no similar activity on these fully depreciated assets in the 2010 period.

General and administrative expenses increased from \$11.1 million for the six months ended June 30, 2009 to \$12.7 million for the six months ended June 30, 2010, an increase of \$1.6 million, or 14%. This increase is primarily attributable to \$1.0 million in professional fee and contract related costs incurred during the 2010 period that the Company did not incur during the 2009 period, and a \$0.4 million increase in legal expense and restricted share and option expense during 2010 as compared to 2009.

### *Total Other Expenses*

Interest expense decreased from \$22.8 million for the six months ended June 30, 2009 to \$19.7 million for the six months ended June 30, 2010, a decrease of \$3.1 million, or 14%. The decrease is attributable to the payoff of the \$83.3 million YSI 1 loan during the first quarter of 2010, the payoffs of the \$9.4 million YSI 26 loan and the \$6.0 million YSI 4 loan during the second quarter of 2010, and lower outstanding borrowings on the credit facility during the 2010 period as compared to the 2009 period resulting in an overall decrease in interest expense.

### *Discontinued Operations*

Income from discontinued operations decreased from \$1.8 million for the six months ended June 30, 2009 to no such income for the six months ended June 30, 2010. The income from discontinued operations in 2009 represents the income during the six months ended June 30, 2009, from properties sold throughout 2009. Net gains on disposition of discontinued operations decreased from \$2.6 million for the six months ended June 30, 2009 to no such gains for the six months ended June 30, 2010 as a result of the sale of three assets during the six months ended June 30, 2009 compared to no asset sales during the 2010 period.

### **Same-Store Property Portfolio**

Same-store revenues decreased from \$108.5 million for the six months ended June 30, 2009 to \$106.4 million for the six months ended June 30, 2010, a decrease of \$2.1 million, or 2%. The decrease is primarily attributable a 2% decrease in realized annual rent per occupied square foot on the same-store portfolio in the 2010 period as compared to the 2009 period. Same-store property operating expenses decreased from \$44.4 million for the six months ended June 30, 2009 to \$42.8 million for the six months ended June 30, 2010, a decrease of \$1.6 million or 4%. The decrease is primarily attributable to a \$0.6 million decrease in real estate tax expense, a \$0.4 million decrease in utility expenses and a \$0.5 million decrease in advertising expenses during the 2010 period as compared to the 2009 period.

**Non-GAAP Financial Measures**

***NOI***

We define net operating income, which we refer to as NOI, as total continuing revenues less continuing property operating expenses. NOI also can be calculated by adding back to net income (loss): interest expense on loans, loan procurement amortization expense, acquisition related costs, amounts attributable to noncontrolling interests, other expense, depreciation and amortization expense, general and administrative expense, and deducting from net income: income from discontinued operations, gains on disposition of discontinued operations, other income, and interest income. NOI is not a measure of performance calculated in accordance with GAAP.

We use NOI as a measure of operating performance at each of our facilities, and for all of our facilities in the aggregate. NOI should not be considered as a substitute for operating income, net income, cash flows provided by operating, investing and financing activities, or other income statement or cash flow statement data prepared in accordance with GAAP.

We believe NOI is useful to investors in evaluating our operating performance because:

## Edgar Filing: U-Store-It Trust - Form 10-Q

### Table of Contents

- It is one of the primary measures used by our management and our facility managers to evaluate the economic productivity of our facilities, including our ability to lease our facilities, increase pricing and occupancy, and control our property operating expenses;
- It is widely used in the real estate industry and the self-storage industry to measure the performance and value of real estate assets without regard to various items included in net income that do not relate to or are not indicative of operating performance, such as depreciation and amortization expense, which can vary depending upon accounting methods and the book value of assets; and
- It helps our investors to meaningfully compare the results of our operating performance from period to period by removing the impact of our capital structure (primarily interest expense on our outstanding indebtedness) and depreciation of our basis in our assets from our operating results.

There are material limitations to using a measure such as NOI, including the difficulty associated with comparing results among more than one company and the inability to analyze certain significant items, including depreciation and interest expense, that directly affect our net income. We compensate for these limitations by considering the economic effect of the excluded expense items independently as well as in connection with our analysis of net income. NOI should be considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with GAAP, such as total revenues, operating income and net income.

### **Cash Flows**

#### *Comparison of the six months ended June 30, 2010 to the six months ended June 30, 2009*

A comparison of cash flow from operating, investing and financing activities for the six months ended June 30, 2010 and 2009 is as follows (in thousands):

	Six Months Ended June 30,		
	2010	2009	Change
<u>Net cash flow provided by (used in):</u>			
Operating activities	\$ 27,438	\$ 27,162	\$ 276
Investing activities	\$ 12,332	\$ 260	\$ 12,072
Financing activities	\$ (110,661)	\$ (29,509)	\$ (81,152)

Cash flows provided by operating activities for the six months ended June 30, 2010 and 2009 were \$27.4 million and \$27.2 million, respectively, an increase of \$0.2 million. The increase primarily relates to a \$0.6 million increase in the change in other liabilities as a result of the timing of certain payments, offset by reduced levels of NOI of \$0.1 million during the 2010 period as compared to the 2009 period.

## Edgar Filing: U-Store-It Trust - Form 10-Q

Cash provided by investing activities changed from \$0.3 million in 2009 to \$12.3 million in 2010, an increase of \$12.0 million. The increase primarily relates to cash receipts of \$19.9 million related to proceeds in 2010 from the repayment of notes receivable that originated in conjunction with asset dispositions during 2009 and a decrease in restricted cash of \$5.0 million, offset by a decrease in proceeds from dispositions during 2010 of \$11.2 million.

Cash used in financing activities increased from \$29.5 million to \$110.7 million during the six months ended June 30, 2009 and 2010, respectively. The increase primarily relates to increased net debt payoffs of \$69.1 million and increased distributions paid to shareholders and non-controlling interests of \$4.1 million during 2010 as compared to 2009 due to additional outstanding shares during the 2010 period as a result of equity offered during 2009.

Table of Contents

**Issuance of Common Shares**

In April 2009, we commenced the sale of up to 10 million common shares pursuant to a continuous offering program. Pursuant to the program, we may sell shares in amounts and at times to be determined by us. Actual sales will be determined by a variety of factors to be determined by us, including market conditions, the trading price of our common shares and determinations by us of the appropriate sources of funding. In connection with the offering program, we engaged a sales agent who receives compensation equal to up to three percent of the gross sales price per common share for any shares sold pursuant to the program. During the three months ended June 30, 2010 we sold 45,800 shares under the program at an average sales price of \$8.30 per share resulting in net proceeds of \$0.4 million. We used the net proceeds for general corporate purposes. From its inception in April 2009 through June 30, 2010, we have sold 2.5 million shares under this program at an average sales price of \$4.13 per share resulting in net proceeds of \$10.4 million.

**Liquidity and Capital Resources**

*Liquidity Overview*

Our cash flow from operations has historically been one of our primary sources of liquidity to fund debt service, distributions and capital expenditures. We derive substantially all of our revenue from customers who lease space from us at our facilities. Therefore, our ability to generate cash from operations is dependent on the rents that we are able to charge and collect from our customers. We believe that the facilities in which we invest self-storage facilities are less sensitive than other real estate product types to current near-term economic downturns. However, prolonged economic downturns will adversely affect our cash flows from operations.

In order to qualify as a REIT for federal income tax purposes, we are required to distribute at least 90% of our REIT taxable income, excluding capital gains, to our shareholders on an annual basis or pay federal income tax. The nature of our business, coupled with the requirement that we distribute a substantial portion of our income on an annual basis, will cause us to have substantial liquidity needs over both the short term and the long term.

Our short term liquidity needs consist primarily of funds necessary to pay operating expenses associated with our facilities, refinancing of certain mortgage indebtedness, interest expense and scheduled principal payments on debt, expected distributions to limited partners and shareholders and recurring capital expenditures. These liquidity needs will vary from year to year, in some cases significantly. We expect recurring capital expenditures remaining in fiscal year 2010 to be approximately \$4 million to \$6 million. In addition, our currently scheduled principal payments on debt, including borrowings outstanding on the credit facility and secured term loans, are approximately \$15.4 million during the remainder of 2010 and \$90.5 million in 2011.

Our most restrictive debt covenants limit the amount of additional leverage that we can incur; however, we believe the sources of capital described above will allow us to execute our current business plan and remain in compliance with our debt covenants.

## Edgar Filing: U-Store-It Trust - Form 10-Q

Our liquidity needs beyond 2010 consist primarily of contractual obligations which include repayments of indebtedness at maturity, as well as potential discretionary expenditures such as (i) non-recurring capital expenditures; (ii) redevelopment of operating facilities; (iii) acquisitions of additional facilities; and (iv) development of new facilities. We will have to satisfy our needs through either additional borrowings, including borrowings under a new or revised revolving credit facility, sales of common or preferred shares and/or cash generated through facility dispositions and joint venture transactions.

Notwithstanding the discussion above, we believe that, as a publicly traded REIT, we will have access to multiple sources of capital to fund long term liquidity requirements, including the incurrence of additional debt and the issuance of additional equity. However, we cannot provide any assurance that this will be the case. Our ability to incur additional debt is dependent on a number of factors, including our degree of leverage, the value of our assets and borrowing restrictions that may be imposed by lenders. In addition, dislocations in the United States debt markets may significantly reduce the availability and increase the cost of long term debt capital, including conventional mortgage financing and commercial mortgage-backed securities financing. There can be no assurance that such capital will be readily available in the future. Our ability to access the equity capital markets is also dependent on a number of factors, including general market conditions for REITs and market perceptions about us.

### ***Current and Expected Sources of Cash Excluding Credit Facility***

As of June 30, 2010, we had approximately \$31.9 million in available cash and cash equivalents. In addition, we had approximately \$250.0 million of availability for borrowings under our secured revolving credit facility.

Table of Contents

***Bank Credit Facilities***

On December 8, 2009, the Company and its Operating Partnership entered into a three-year, \$450 million senior secured credit facility (the secured credit facility), consisting of a \$200 million secured term loan and a \$250 million secured revolving credit facility. The secured credit facility is secured by mortgages on borrowing base properties. At June 30, 2010, \$200 million of secured term loan borrowings were outstanding under the secured credit facility. At June 30, 2010, approximately \$250 million was available for borrowing under the secured revolving credit facility. Borrowings under the secured credit facility bear interest at rates ranging from 3.25% to 4.00% over LIBOR, with a LIBOR floor of 1.5%, depending on our leverage ratio. At June 30, 2010, borrowings under the secured credit facility had a weighted average interest rate of 5.0% and the Company was in compliance with all covenants of the agreement.

Our ability to borrow and extend the maturity date under this secured credit facility and secured term loan will be subject to our ongoing compliance with the following financial covenants, among others:

- Maximum total indebtedness to total asset value of 65% (67.5% in first year);
- Minimum fixed charge coverage ratio of 1.45:1.0; and
- Minimum tangible net worth of \$827.0 million plus 75% of net proceeds from future equity issuances.

Further, under our secured credit facility, we are restricted from paying distributions on our common shares that would exceed an amount equal to the greater of (i) 95% of our funds from operations, and (ii) such amount as may be necessary to maintain our REIT status.

We are currently in compliance with all of our covenants and anticipate being in compliance with all of our covenants through the duration of the term of the credit facility and secured term loan.

The secured credit facility replaced the prior, three-year \$450 million unsecured credit facility, which was entered into in November 2006, and consisted of \$200 million in an unsecured term loan and \$250 million in unsecured revolving loans. Outstanding balances under of the unsecured credit facility were repaid in December 2009. Borrowings under the unsecured credit facility bore interest, at our option, at either an alternative base rate or a Eurodollar rate, in each case, plus an applicable margin based on our leverage ratio or our credit rating. The alternative base interest rate was a fluctuating rate equal to the higher of the prime rate or the sum of the federal funds effective rate plus 50 basis points. The applicable margin for the alternative base rate varied from 0.00% to 0.50% depending on our leverage ratio.

**Off-Balance Sheet Arrangements**

We do not currently have any off-balance sheet arrangements.

Table of Contents

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The Company's future income, cash flows and fair values relevant to financial instruments depend upon prevailing interest rates.

**Market Risk**

Our investment policy relating to cash and cash equivalents is to preserve principal and liquidity while maximizing the return through investment of available funds. The carrying value of these investments approximates fair value on the reporting dates.

**Effect of Changes in Interest Rates on our Outstanding Debt**

The analysis below presents the sensitivity of the fair value of our financial instruments to selected changes in market rates. The range of changes chosen reflects our view of changes which are reasonably possible over a one-year period. Fair values are the present value of projected future cash flows based on the market rates chosen.

Our financial instruments consist of both fixed and variable rate debt. As of June 30, 2010, our consolidated debt consisted of \$465.9 million in fixed rate loans payable and \$200.0 million in a variable rate secured term loan. All financial instruments were entered into for other than trading purposes and the fair value of these financial instruments is referred to as the financial position. Changes in interest rates have different impacts on the fixed and variable rate portions of our debt portfolio. A change in interest rates on the fixed portion of the debt portfolio impacts the financial instrument position, but has no impact on interest incurred or cash flows. A change in interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the financial instrument position.

If market rates of interest on our variable rate debt increase or decrease by 1%, the change in annual interest expense on our variable rate debt would not change future earnings and cash flows, as a 1% increase in LIBOR would not exceed the minimum LIBOR rate of 1.5% used to calculate interest expense in accordance with the secured credit facility.

If market rates of interest increase by 1%, the fair value of our outstanding fixed-rate mortgage debt would decrease by approximately \$11.3 million. If market rates of interest decrease by 1%, the fair value of our outstanding fixed-rate mortgage debt would increase by approximately \$11.8 million.

**ITEM 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer ( CEO ) and Chief Financial Officer ( CFO ), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act )). Based on that evaluation, the CEO and the CFO have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

**Changes in Internal Controls Over Financial Reporting**

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The following table provides information about repurchases of the Company's common shares during the three month period ended June 30, 2010:

	<b>Total Number of Shares Purchased (1)</b>	<b>Average Price Paid Per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (2)</b>
April 1- April 30			N/A	3,000,000
May 1- May 31			N/A	3,000,000
June 1- June 30	2,798	\$ 7.54	N/A	3,000,000
<b>Total</b>	<b>2,798</b>			<b>3,000,000</b>

(1) Represents common shares withheld by the Company upon the vesting of restricted shares to cover employee tax obligations.

(2) On June 27, 2007, the Company announced that the Board of Trustees approved a share repurchase program for up to 3.0 million of the Company's outstanding common shares. Unless terminated earlier by resolution of the Board of Trustees, the program will expire when the number of authorized shares has been repurchased. The Company has made no repurchases under this program.

**ITEM 5. OTHER INFORMATION**

Our discussion of federal income tax considerations in Exhibit 99.1 attached hereto, which is incorporated herein by reference, updates our discussion of federal income tax considerations in our previous SEC filings, including in Exhibit 99.1 to our Annual Report on Form 10-K for the year ended December 31, 2009. Our updated discussion addresses recently enacted tax law changes. We have also attached hereto as Exhibit 8.1, which is incorporated herein by reference, the legal opinion of Pepper Hamilton LLP as to federal income tax matters summarized in Exhibit 99.1.
