NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1 Organization and Basis of Presentation

Organization

We engage in the transportation, storage, terminalling and marketing of crude oil, refined products and LPG. We also engage in the development and operation of natural gas storage facilities. We manage our operations through three operating segments: (i) Transportation, (ii) Facilities and (iii) Supply and Logistics. See Note 11 for further detail of our operating segments.

As used in this Form 10-Q, the terms Partnership, Plains, PAA, we, us, our, ours and similar terms refer to Plains All American Pipelicand its subsidiaries, unless the context indicates otherwise. References to our general partner, as the context requires, include any or all of PAA GP LLC, Plains AAP, L.P. and Plains All American GP LLC.

Definitions

The following additional defined terms are used in this Form 10-Q and shall have the meanings indicated below:

AOCI = Accumulated other comprehensive income API 653 = American Petroleum Institute Standard 653

Bcf = Billion cubic feet CAA = Clean Air Act CAD = Canadian Dollar

DCP = Disclosure controls and procedures
DERs = Distribution Equivalent Rights
DOJ = United States Department of Justice

EPA = United States Environmental Protection Agency
FERC = Federal Energy Regulation Commission
FASB = Financial Accounting Standards Board

ICE = IntercontinentalExchange

IPO = Initial Public Offering

LIBOR = London Interbank Offered Rate

LPG = Liquefied petroleum gas and other natural gas-related petroleum products

LTIP = Long term incentive plan
Mcf = Thousand cubic feet
MLP = Master limited partnership
MTBE = Methyl tertiary-butyl ether

NJDEP = New Jersey Department of Environmental Protection

NYMEX = New York Mercantile Exchange NPNS = Normal purchase and normal sale

PAA Class B units = Class B units of our general partner, Plains AAP, L.P.

PLA = Pipeline loss allowance PNG = PAA Natural Gas Storage, L.P.

PNG Class B units = Class B units of PNG s general partner, PNGS GP LLC
PNG Plan = PAA Natural Gas Storage, L.P. 2010 Long Term Incentive Plan

PNGS = PAA Natural Gas Storage, LLC
PAT = Pacific Atlantic Terminals, LLC
Rainbow = Rainbow Pipe Line Company Ltd.
RMPS = Rocky Mountain Pipeline System
SEC = Securities and Exchange Commission

U.S. GAAP = United States generally accepted accounting principles

USD = United States Dollar WTI = West Texas Intermediate

7

Table of Contents

Basis of Consolidation and Presentation

The accompanying condensed consolidated interim financial statements should be read in conjunction with our consolidated financial statements and notes thereto presented in our 2009 Annual Report on Form 10-K. The financial statements have been prepared in accordance with the instructions for interim reporting as prescribed by the SEC. All adjustments (consisting only of normal recurring adjustments) that in the opinion of management were necessary for a fair statement of the results for the interim periods have been reflected. All significant intercompany transactions have been eliminated in consolidation, and certain reclassifications have been made to information from previous years to conform to the current presentation. These reclassifications do not affect net income attributable to Plains. The condensed balance sheet data as of December 31, 2009 was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. The results of operations for the three and nine months ended September 30, 2010 should not be taken as indicative of the results to be expected for the full year.

Subsequent events have been evaluated through the financial statements issuance date and have been included within the following footnotes where applicable.

Note 2 Recent Accounting Pronouncements

Other than as discussed below and in our 2009 Annual Report on Form 10-K, no new accounting pronouncements have become effective during the nine months ended September 30, 2010 that are of significance or potential significance to us.

Fair Value Measurement Disclosure Requirements. In January 2010, the FASB issued guidance to enhance disclosures related to the existing fair value hierarchy disclosure requirements. A fair value measurement is designated as Level 1, 2 or 3 within the hierarchy based on the nature of the inputs used in the valuation process. Level 1 measurements generally reflect quoted market prices in active markets for identical assets or liabilities, Level 2 measurements generally reflect the use of significant observable inputs and Level 3 measurements typically utilize significant unobservable inputs. This new guidance requires additional disclosures regarding transfers into and out of Level 1 and Level 2 measurements and requires a gross presentation of activities within the Level 3 roll forward. This guidance was effective for the first interim or annual reporting period beginning after December 15, 2009, except for the gross presentation of the Level 3 roll forward, which is required for annual reporting periods beginning after December 15, 2010 and for interim reporting periods within those years. We adopted the guidance relating to Level 1 and Level 2 measurements as of January 1, 2010. Our adoption did not have any material impact on our financial position, results of operations or cash flows. We will adopt the guidance relating to Level 3 measurements on January 1, 2011. We do not expect that adoption of this guidance will have any material impact on our financial position, results of operations, or cash flows.

Variable Interest Entities. In June 2009, the FASB issued guidance that requires an enterprise to perform an analysis to determine whether the enterprise s variable interest(s) provide a controlling financial interest in a variable interest entity (VIE). This analysis identifies the primary beneficiary of a VIE as the enterprise that has (i) the power to direct the activities of a VIE that most significantly impact the entity s economic performance and (ii) the obligation to absorb losses of the entity, or the right to receive benefits from the entity, that could potentially be significant to the VIE. This guidance also (i) requires such assessments to be ongoing, (ii) amends certain guidance for determining whether an entity is a VIE and (iii) enhances disclosures that will provide users of financial statements with more transparent information regarding an enterprise s involvement in a VIE. We adopted this guidance as of January 1, 2010. Our adoption did not have any material impact on our financial position, results of operations or cash flows.

Note 3 Trade Accounts Receivable

We review all outstanding accounts receivable balances on a monthly basis and record a reserve for amounts that we expect will not be fully recovered. We do not apply actual balances against the reserve until we have exhausted substantially all collection efforts. At September 30, 2010 and December 31, 2009, substantially all of our accounts receivable (net of allowance for doubtful accounts) were less than 60 days past their scheduled invoice date. Our allowance for doubtful accounts receivable totaled \$4 million and \$9 million at September 30, 2010 and December 31, 2009, respectively. The decrease in our allowance for doubtful accounts receivable balance during the nine months ended September 30, 2010 primarily is due to the collection and related settlement of claims for receivables that had been reserved for during the years ended December 31, 2009 and 2008. Although we consider our allowance for doubtful accounts receivable to be adequate, actual amounts could vary significantly from estimated amounts.

At September 30, 2010 and December 31, 2009, we had received approximately \$142 million and \$212 million, respectively, of advance cash payments from third parties to mitigate credit risk. In addition, we enter into netting arrangements (contractual agreements that allow us and the counterparty to offset receivables and payables between the two) that cover a significant part of our transactions and also serve to mitigate credit risk.

Table of Contents

Note 4 Inventory, Linefill, Base Gas and Long-term Inventory
