1ST SOURCE CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited consolidated financial statements reflect all adjustments (all of which are normal and recurring in nature) which are, in the opinion of management, necessary for a fair presentation of the consolidated financial position, the results of operations, changes in shareholders equity, and cash flows for the periods presented. These unaudited consolidated financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission (SEC) and, therefore, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been omitted. The Notes to the Consolidated Financial Statements appearing in 1st Source Corporation s Annual Report on Form 10-K (2010 Annual Report), which include descriptions of significant accounting policies, should be read in conjunction with these interim financial statements. The balance sheet at December 31, 2010 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. Certain amounts in the prior period consolidated financial statements have been reclassified to conform with the current year presentation.

Cash Flow For purposes of the consolidated statements of cash flow, we consider cash and due from banks, federal funds sold and interest bearing deposits with other banks with original maturities of three months or less as cash and cash equivalents.

Note 2. Recent Accounting Pronouncements

Comprehensive Income: In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05 Comprehensive Income (Topic 220) Presentation of Comprehensive Income. ASU 2011-05 requires that all nonowner changes in stockholders equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 is effective retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2011. We are assessing the impact of ASU 2011-05 on our comprehensive income presentation.

<u>Fair Value Measurements:</u> In May 2011, the FASB issued ASU No. 2011-04 Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. ASU 2011-04 changes the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Consequently, the amendments in this update result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs (International Financial Reporting Standards). ASU 2011-04 is effective prospectively during interim and annual periods beginning on or after December 15, 2011. Early application by public entities is not permitted. We are assessing the impact of ASU 2011-04 on our fair value disclosures.

<u>Transfers and Servicing:</u> In April 2011, the FASB issued ASU No. 2011-03 *Transfers and Servicing (Topic 860) - Reconsideration of Effective Control for Repurchase Agreement.* ASU 2011-03 removes from the assessment of effective control the criterion relating to the transferor s ability to repurchase or redeem financial assets on substantially the agreed terms, even in the event of default by the transferee. ASU 2011-03 is effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should

7

Table of Contents

be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. We are assessing the impact of ASU 2011-03 on our financial condition, results of operations, and disclosures.

Receivables: In April 2011, the FASB issued ASU No. 2011-02 Receivables (Topic 310) A Creditor s Determination of Whether a Restructuring is a Troubled Debt Restructuring. ASU 2011-02 clarifies whether loan modifications constitute troubled debt restructuring. In evaluating whether a restructuring constitutes a troubled debt restructuring, a creditor must separately conclude that both of the following exist: (a) the restructuring constitutes a concession; and (b) the debtor is experiencing financial difficulties. ASU 2011-02 is effective for the first interim and annual period beginning on or after June 15, 2011, and should be applied retrospectively to the beginning of the annual period of adoption. We are assessing the impact of ASU 2011-02 on our financial condition, results of operations, and disclosures.

Business Combinations: In December 2010, the FASB issued ASU No. 2010-29 Business Combinations (Topic 805) - Disclosure of Supplementary Pro Forma Information for Business Combinations. If a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. ASU 2010-29 also expands the supplementary pro forma disclosures. ASU 2010-29 was effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. ASU 2010-29 will only affect us if there are future business combinations.

Intangibles - Goodwill and Other: In December 2010, the FASB issued ASU No. 2010-28 Intangibles - Goodwill and Other (Topic 350) - When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts. ASU 2010-28 affects all entities that have recognized goodwill and have one or more reporting units whose carrying amount for purposes of performing Step 1 of the goodwill impairment test is zero or negative. ASU 2010-28 was effective for fiscal years and interim periods within those years, beginning after December 15, 2010. ASU 2010-28 did not have an impact on our financial condition, results of operations, or disclosures.

Note 3. Investment Securities

Investment securities available-for-sale were as follows:

| | Amortized | Gross | Gross | | | |
|---|-----------|------------------|-------------------|------------|--|--|
| (Dollars in thousands) | Cost | Unrealized Gains | Unrealized Losses | Fair Value | | |

| Total investment securities available-for-sale \$ | 952,101 | \$ 20,133 | \$ (3,216) \$ | 969,018 | | |

At June 30, 2011 and December 31, 2010, the residential mortgage-backed securities we held consisted primarily of GNMA, FNMA and FHLMC pass-through certificates which are guaranteed by those respective agencies of the United States government (or Government Sponsored Enterprise, GSEs).

The contractual maturities of debt securities available-for-sale at June 30, 2011 are shown below. Expected maturities will differ from contractual maturities, because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

| (Dollars in thousands) | Amortized Cost | Fair Value | | | |
|--|-----------------------|---------------|--|--|--|
| Due in one year or less | \$ 45,160 | \$ 45,550 | | | |
| Due after one year through five years | 337,681 | 344,378 | | | |
| Due after five years through ten years | 146,453 | 151,643 | | | |
| Due after ten years | 7,178 | 6,397 | | | |
| Mortgage-backed securities | 339,583 | 349,256 | | | |
| Total debt securities available-for-sale | \$ 876,055 | \$ 897,224 | | | |

The following table shows the gross realized gains and losses on sale of securities from the securities available-for-sale portfolio, including marketable equity securities. Realized gains and losses on the sales of all securities are computed using the specific identification cost basis. The gross gains and losses in the first six months of 2011 primarily reflect the sale of municipal, Farmer Mac, FHLB and FFCB debt securities. The sale of municipal securities was to reduce credit risk exposure in certain states. The action to sell agency securities was to improve future yield. There was no impact to other than temporary impairment (OTTI) as a result of the 2011 sales. The gross gains and losses in the first six months of 2010 reflect the disposition of FNMA and FHLMC debt securities. There were no OTTI write-downs in 2011 or 2010.

Table of Contents

| | Three Mont | ths End | led | Six Months Ended | | | | | |
|-----------------------------|-------------|---------|------|------------------|----|------|------|--|--|
| | June | June | 30, | | | | | | |
| (Dollars in thousands) | 2011 | | 2010 | 2011 | | 2010 | | | |
| Gross realized gains | \$ 1,153 | \$ | | \$ 1,598 | \$ | | 292 | | |
| Gross realized losses | | | | (238) | | | (12) | | |
| Net realized gains (losses) | \$ 1,153 | \$ | | \$ 1,360 | \$ | | 280 | | |

There were net gains of \$5 thousand for the six months ended June 30, 2011 and net losses of \$11 thousand recorded for the six months ended June 30, 2010 on \$0.14 million in trading securities outstanding at June 30, 2011 and at December 31, 2010.

The following tables summarize our gross unrealized losses and fair value by investment category and age:

| | | | | | | | | | | |

The initial indication of OTTI for both debt and equity securities is a decline in fair value below amortized cost. Quarterly, the impaired securities are analyzed on a qualitative and quantitative basis in determining OTTI. Declines in the fair value of available-for-sale debt securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses to the extent the impairment is related to credit losses. The amount of impairment related to other factors is recognized in other comprehensive income. In estimating OTTI impairment losses, we consider among other things, (i) the length of time and the extent to which fair value has been less than cost, (ii) the financial condition and near-term prospects of the issuer, and (iii) whether it is more likely than not that we will not have to sell any such securities before a recovery of cost.

At June 30, 2011, we do not have the intent to sell any of the available-for-sale securities in the table above and believe that it is more likely than not that we will not have to sell any such securities before an anticipated recovery of cost. The unrealized losses are due to increases in market interest rates over the yields available at the time the underlying securities were purchased and market illiquidity on auction rate securities which are reflected in U.S. States and Political subdivisions securities. The fair value is expected to recover on all debt securities as they approach their maturity date or repricing date or if market yields for such investments decline. We do not believe any of the securities are impaired due to reasons of credit quality. Accordingly, as of June 30, 2011, we believe the impairments detailed in the table above are temporary and no impairment loss has been

| n 1 | 1 | | c | \sim | | | |
|-----|----|---|----|--------|---|-----|-----|
| Tal | hΙ | е | ∩† | CO | m | 101 | ารร |

realized in our consolidated statements of income.

At June 30, 2011 and December 31, 2010, investment securities with carrying values of \$255.75 million and \$299.88 million, respectively, were pledged as collateral to secure government deposits, security repurchase agreements, and for other purposes.

Note 4. Loan and Lease Financings

We evaluate loans and leases for credit quality at least annually but more frequently if certain circumstances occur (such as material new information which becomes available and indicates a potential change in credit risk). We use two methods to assess credit risk: loan or lease credit quality grades and credit risk classifications. The purpose of the loan or lease credit quality grade is to document the degree of risk associated with individual credits as well as inform management of the degree of risk in the portfolio taken as a whole. Credit risk classifications are used to categorize loans by degree of risk and to designate committee approval authorities for higher risk credits at the time of origination. Credit risk classifications include categories for: Acceptable, Marginal, Special Attention, Special Risk, Restricted by Policy, Regulated and Prohibited by Law.

All loans and leases, except residential real estate loans and consumer loans, are assigned credit quality grades on a scale from 1 to 12 with grade 1 representing superior credit quality. The criteria used to assign grades to extensions of credit that exhibit potential problems or well-defined weaknesses are primarily based upon the degree of risk and the likelihood of orderly repayment, and their effect on our safety and soundness. Loans or leases graded 7 or weaker are considered special attention credits and, as such, relationships in excess of \$100,000 are reviewed quarterly as part of management s evaluation of the adequacy of the reserve for loan and lease losses. Grade 7 credits are defined as watch and contain greater than average credit risk and are monitored to limit our exposure to increased risk; grade 8 credits are special mention and, following regulatory guidelines, are defined as having potential weaknesses that deserve management s close attention. Credits that exhibit well-defined weaknesses and a distinct possibility of loss are considered classified and are graded 9 through 12 corresponding to the regulatory definitions of substandard (grades 9 and 10) and the more severe doubtful (grade 11) and loss (grade 12).

11

A loan or lease is considered impaired, based on current information and events, if it is probable that we will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan or lease agreement. The table below presents impaired loans and leases, segregated by class, and the corresponding reserve for impaired loan and lease losses.

Table of Contents

As of June 30, 2011 and December 31, 2010, we had \$6.61 million and \$7.31 million, respectively of performing loans classified as troubled debt restructuring.

Note 5. Reserve for Loan and Lease Losses

The reserve for loan and lease loss methodology has been consistently applied for several years, with enhancements instituted periodically. Reserve ratios are reviewed quarterly and revised periodically to reflect recent loss history and to incorporate current risks and trends which may not be recognized in historical data. As we update our historical charge-off analysis, we review the look-back periods for each business loan portfolio. Furthermore, we perform a thorough analysis of charge-offs, non-performing asset levels, special attention outstandings and delinquency in order to review portfolio trends and other factors, including specific industry risks and economic conditions, which may have an impact on the reserves and reserve ratios applied to various portfolios. We adjust the calculated historical based ratio as a result of our analysis of environmental factors, principally economic risk and concentration risk. Key economic factors affecting our portfolios are growth in gross domestic product, unemployment rates, housing market trends, commodity prices, inflation, national and international economic volatility, global debt and capital markets and political stability or lack thereof. Concentration risk is impacted primarily by geographic concentration in Northern Indiana and Southwestern Lower Michigan in our business banking and commercial real estate portfolios and by collateral concentration in our specialty finance portfolios and exposure to foreign markets by geographic risk.

The reserve for loan and lease losses is maintained at a level believed to be adequate by management to absorb probable losses inherent in the loan and lease portfolio. The determination of the reserve requires significant judgment reflecting management s best estimate of probable loan and lease losses related to specifically identified loans and leases as well as probable losses in the remainder of the various loan and lease portfolios. For purposes of determining the reserve, we have segmented our loans and leases into classes based on the associated risks within these segments. We have determined that eight classes exist within our loan and lease portfolio. The methodology for assessing the appropriateness of the reserve consists of several key elements, which include: specific reserves for impaired loans, percentage allocations for special attention loans and leases (classified loans and leases and internal watch list credits) without specific reserves, formula reserves (calculated by applying loss factors based upon a review of historical loss experience and qualitative factors) for each business lending division portfolio, and reserves for pooled homogeneous loans and leases. Management s evaluation is based upon a continuing review of these portfolios, estimates of customer performance, collateral values and dispositions, and assessments of economic and geopolitical events, all of which are subject to judgment and will change.
