Explanatory Note.

On June 29, 2012, AMAG Pharmaceuticals, Inc. (the Company) filed a Current Report on Form 8-K to announce plans to divest its Cambridge, Massachusetts manufacturing facility. At the time of such filing, the Company was unable to estimate the total amount or range of amounts expected to be incurred in connection with its plan to divest its Cambridge, Massachusetts manufacturing facility or to estimate the amount or range of amounts of the charges that will result in future cash expenditures with respect to such expected divestiture.

This current report on Form 8-K/A is being filed solely to disclose an estimate of the total amount or range of amounts expected to be incurred in connection with its plan to divest its Cambridge, Massachusetts manufacturing facility and an estimate of the amount or range of amounts of the charges that will result in future cash expenditures with respect to such expected divestiture. This Amendment does not otherwise revise the June 29, 2012 Current Report on Form 8-K in any way.

Item 2.05. Costs Associated with Exit or Disposal Activities.

The Company expects to incur approximately \$4.0 million to \$5.0 million in charges, under Generally Accepted Accounting Principles in the United States, or GAAP, in connection with its plan to divest its Cambridge, Massachusetts manufacturing facility and expects to incur approximately \$2.2 million to \$2.5 million in total cash expenditures related to such expected divestiture. As of June 30, 2012, approximately \$2.5 million of these GAAP charges have been recognized and approximately \$1.6 million of these cash expenditures have been made.

In connection with the divestiture of its Cambridge, Massachusetts manufacturing facility, the Company intends to reduce its production within the manufacturing facility and will incur additional charges as a result of idle manufacturing capacity within the facility. Such charges will be classified as cost of goods sold in the period incurred.

Additionally, the Company expects to begin marketing the facility for sale later this year. Any cash proceeds from the sale of the facility will offset the above noted cash expenditures.
