Item 1.01. Entry into a Material Definitive Agreement

Senior Notes due 2021

Overview

On April 10, 2013, the registrant, First Data Corporation (the Company) issued \$815.0 million aggregate principal amount of 10.625% Senior Notes due 2021 (the Notes), which mature on June 15, 2021, pursuant to an indenture, dated as of April 10, 2013, among the Company, the guarantors party thereto and Wells Fargo Bank, National Association, as trustee (the Indenture).

Interest on the Notes will be payable in cash on February 15 and August 15 of each year, commencing on August 15, 2013. Interest on the Notes will accrue from April 10, 2013.

On April 10, 2013, the net proceeds of the issuance of the Notes were used to (1) repurchase approximately \$253.6 million of the Company's \$783.5 million aggregate principal amount of 9.875% Senior Unsecured Notes due 2015 (the 2015 Notes) tendered pursuant to a tender offer launched by the Company on March 26, 2013 (the Tender Offer) and (2) pay related fees and expenses, including premiums. The Company has opted to use the remaining proceeds of the issuance of the Notes and cash on hand to (1) repurchase any 2015 Notes tendered prior to the expiration of the Tender Offer at 12:00 midnight, New York City time, on April 23, 2013 and (2) optionally redeem on April 25, 2013 the amount of 2015 Notes that remain outstanding after the completion of the Tender Offer.

The following is a brief description of the terms of the Notes and the Indenture.

Ranking

The Notes and the related guarantees are the Company's and the guarantors' senior unsecured obligations. Accordingly, they:

- rank senior in right of payment to any existing and future subordinated indebtedness, including the Company's existing senior subordinated notes;
- rank equally in right of payment to any existing and future senior indebtedness;

Edgar Filing: FIRST DATA CORP - Form 8-K

- are effectively junior to all of the Company's existing and future secured indebtedness, including indebtedness under the Company's senior secured credit facilities, existing senior secured notes, existing senior secured second lien notes and any capital leases to the extent of the collateral securing such indebtedness; and
- are effectively subordinated in right of payment to all existing and future indebtedness and other liabilities of the Company's non-guarantor subsidiaries (other than indebtedness and liabilities owed to the Company or one of its subsidiary guarantors).

Guarantees

The Notes are jointly and severally and fully and unconditionally guaranteed on a senior unsecured basis by each of the Company's existing and future direct and indirect wholly owned domestic subsidiaries that guarantees the senior secured credit facilities.

Optional Redemption

Prior to April 15, 2016, the Company may redeem some or all of the Notes at a redemption price equal to 100% of the principal amount of the Notes redeemed plus an applicable make-whole premium plus accrued and unpaid interest and additional interest, if any, to the date of redemption, subject to the rights of holders of the Notes on the relevant record date to receive interest due on the relevant interest payment date.

On and after April 15, 2016, the Company may redeem the Notes, in whole or in part, at the redemption prices listed in the Indenture, plus accrued and unpaid interest thereon and additional interest, if any, to the applicable redemption date.

In addition, until April 15, 2016, the Company may, at its option, redeem up to 35% of the aggregate principal amount of the Notes at 110.625% with the net cash proceeds of one or more equity offerings.

Covenants

The Indenture contains covenants limiting the Company's ability and the ability of its restricted subsidiaries to:

- incur additional debt or issue certain preferred shares;
- pay dividends on or make distributions in respect of the capital stock or make other restricted payments;
- make certain investments;
- sell certain assets;
- create liens on certain assets to secure debt;
- consolidate, merge, sell or otherwise dispose of all or substantially all of the Company's assets;

Edgar Filing: FIRST DATA CORP - Form 8-K

- enter into certain transactions with affiliates; and
- designate the Company's subsidiaries as unrestricted subsidiaries.

Events of Default

The Indenture also provides for events of default which, if any of them occurs, would permit or require the principal, premium, if any, interest, including additional interest, if any, and any other monetary obligations on all the then outstanding Notes to become or to be declared due and payable immediately.

The foregoing description of the Indenture is included to provide you with information regarding its terms. It does not purport to be a complete description and is qualified in its entirety by reference to the full text of the Indenture, which is filed as Exhibit 4.1 hereto.

Registration Rights Agreement

On April 10, 2013, the Company, the guarantors of the Notes and the initial purchasers entered into a registration rights agreement with respect to the Notes described above (the Registration Rights Agreement). In the Registration Rights Agreement, the Company and the guarantors of the Notes have

agreed that they will (1) file a registration statements on an appropriate registration form with respect to a registered offer to exchange the Notes for new notes guaranteed by the guarantors on a senior unsecured basis, with terms substantially identical in all material respects to the Notes and (2) use their reasonable best efforts to cause the exchange offer registration statement to be declared effective under the Securities Act of 1933, as amended.

The Company and the guarantors have agreed to use their reasonable best efforts to cause the exchange offer to be consummated or, if required, to have one or more shelf registration statements declared effective, within 360 days after the issue date of the Notes.

If Company and the guarantors fail to satisfy this obligation (a registration default), the annual interest rate on the Notes will increase by 0.25%. The annual interest rate on the Notes will increase by an additional 0.25% for each subsequent 90-day period during which the registration default continues, up to a maximum additional interest rate of 0.50% per year over the applicable interest rate listed in the Indenture. If the registration default is corrected, the applicable interest rate on such Notes will revert to the original level.

If the Company must pay additional interest, it will pay it to the noteholders in cash on the same dates that the Company makes other interest payments on the Notes, until the registration default is corrected.

The foregoing description of the Registration Rights Agreement is included to provide you with information regarding its terms. It does not purport to be a complete description and is qualified in its entirety by reference to the full text of the Registration Rights Agreement, which is filed as Exhibit 4.2 hereto.
