**MATERIAL FACT**

**Oi S.A.** (the Company or Oi, Bovespa: OIBR3, OIBR4; NYSE: OIBR, OIBR.C), in accordance with article 157, paragraph 4 of Law No. 6,404/76 (the Brazilian Corporation Law) and the Brazilian Securities and Exchange Commission (*Comissão de Valores Mobiliários* - CVM) Instruction No. 358/02, informs its shareholders and the market in general that:

In line with the discussion on its conference call regarding its results for the third quarter of 2014, the Company remains focused on the operational turnaround process. Oi's preliminary financial figures in the first two months of the fourth quarter of 2014 confirm the Company's perception that the third quarter of 2014 would be the inflection point for the results of its business.

In this sense, the Company discloses the following indicators, in preliminary form and subject to audit, as follows:

<b>Indicators</b>	<b>Monthly average of October-November results (unaudited)</b>	<b>Variation compared to the 3Q14 monthly average</b>
Net Revenues of Brazilian operations	R\$ 2,330 million	+3.7%
Routine EBITDA of Brazilian operations	R\$ 544 million	+3.8%

The Company continues to execute its strategy of improving its balance sheet. The announcement of the execution of the share purchase agreement for the sale of PT Portugal SGPS S.A. (PT Portugal) the effectiveness of which is conditioned on the pending approval of the shareholders of Portugal Telecom, SGPS, S.A. (PT SGPS) at a meeting scheduled for January 12, 2015 together with the sale of another set of mobile towers concluded in December, will significantly reduce Oi's net leverage, strengthening its financial flexibility.

The expected completion of sale of PT Portugal will allow Oi to participate in the industry consolidation process in Brazil, carefully assessing all the available alternatives in order to identify the most efficient structure in terms of value creation for its shareholders and for all of its

stakeholders.

Oi is one of the three integrated companies in Brazil and is very well positioned to face the industry challenges and to capture the market opportunities, leveraging its ability to provide convergent services by offering complete service packages to its customers. Oi's extensive infrastructure, underpinned by a fiber network of over 300,000 km and with a high transmission capacity, is a unique strategic asset to support the growth of voice, video and data services, both fixed and mobile, in Brazil.

Finally, the Company reiterates its commitment to investors and the market to promote the migration of its shareholder base to BM&FBovespa's Novo Mercado, through the merger of shares with Telemar Participações S.A., the evolution of its corporate governance and the diffusion of the Company's shares, as already disclosed to the market through the Material Fact of September 8, 2014, as well as in the Notices to the Market of October 13 and 20, 2014 and November 10, 2014.

Rio de Janeiro, December 15, 2014.
